THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - - -	10.00	"
For Blackwood and three of the Reviews, - - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

Two vols., Royal Octavo. 1600 pages, and numerous Engravings Price $7. By Mail, post-paid, $8.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "*The Pic-nic on the Fourth of July,*" valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer,* and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer,* as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS. GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World,
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents tooth-ache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

A Ghastly Discovery.

A CAVE OF SKELETONS UNEARTHED.

For months past the papers of the Northwest have been filled with marvellous accounts of the discovery here and there of various relics, supposed to have been manufactured by a people who had passed away and left behind no written history. These relics, consisting of skeletons, household utensils, arms, agricultural implements, pices of pottery, &c., have in the main been preserved with religious care by the heads of the various scientific institutions, to whom they have been consigned, but as yet no satisfactory or even plausible hypothesis has been advanced concerning their origin.

On Saturday last, says the Dubuque *Times* of the 14th, a discovery truly as wonderful as any yet reported in the Northwest was made by the workmen on the Dubuque and Minnesota Railroad, near the base of one of the tall, frowning bluffs overlooking the river, a short ditsance above Eagle Point. At the foot of this bluff a squad of workmen were engaged in excavations in the loose stratified limestone rock for the railway track, and while digging away with pick, spade, and crowbar in the side of the bank, they suddenly found their progress arrested by a large square smooth stone, on the outer surface of which was inscribed a number of strange characters and devices, which none of the unlettered workmen of course could make out. Under the instruction of the foreman, and by the united exertion of a number of men, the stone was removed, when to their great astonishment, there succeeded a violent rush of cold air, from a large square opening, which extended into the bluffs in a horizontal direction, the air rushing out with such force that a lighted taper held in the mouth of the opening was extinguished in an instant. Inspired by the thought of hidden treasure, and thinking that perhaps a *cache* of some of the early explorers had been unearthed, it was resolved to explore the mystery at once, and bring out the strong chests and precious gems reposing somewhere within.

Lights were procured, and, holding a candle in each hand, five men, headed by the foreman, set out to explore the subterranean passage which was about four feet wide, and high enough to permit a man to walk by bending over a little. Groping their way along cautiously, and casting many fearful glances around them as though they expected every moment to encounter some dreadful spectre, the party proceeded along the tunnel, which extended directly into the heart of the bluff about fifty feet, when they found their way impeded by another large stone. Removing this, they found a flight of stone steps, leading downward a distance of ten feet and descending these the party found themselves in what appeared to be a huge chamber, cut out of the solid rock, about twenty-five feet square and twenty feet high. For a moment the men stood lost in admiration at this wonderful work. The floor beneath was hard and perfectly smooth, while by the dim light of the candles they could see that the walls were embellished with a multitude of uncouth characters, intended to represent flowers, birds, trees, and other natural objecrs, all carved in solid limestone. On the south wall appeared a representation of the sun, and immediately below this was a man clad in a loose, flowing robe, in the act of stepping out of a boat, and holding in his hand a dove.

The roof of the chamber was embellished with stars, serpents, and chariots, the outlines of all being revealed plainly and distinctly. In the centre of the apartment was a large flat slab, and upon removing this a large vault was revealed below, which was filled with the skeletons of some unknown race, all of them being in a sitting or standing posture and almost perfectly preserved even to the smaller bones. It was noticed that all had originally been interred with their faces to the southwest. By the side of each skeleton stood a small vase of the most perfect form and finish, each being filled with a species of yellow colored earth. One of the vases was examined, and at the base found to contain some animal bones and dark particles of animal matter, which had evidently been placed in the sepulchre to support the departed to the spirit land, a funeral rite in obedience to the wide-spread custom among the many barbaric nations. Heads of arrows, stone hatchets, and pieces of shells perforated with holes, were found scattered about the vault in profusion. The skeletons were arranged in the form of a semi circle, the largest being placed in the centre. This skeleton, by actual measurement, stood seven feet eight inches high. The teeth were white and glistened like ivory, while in the palm of one of the outstretched hands, securely locked in the articulated bones, reposed a small pearl ornament. This person had evidently been the chief of the tribe, and was consequently buried with unusual honors. By the side of the cranium were two ear ornaments of shell while numerous minute bone and copper heads covered the floor of the vault. Vestiges of a fibrous cloth were also discovered near the lower extremeties of each skeleton, but so thin and palpable that it crumbled away at the slightest touch. No ornaments of gold or silver were found, but various implements in copper were scattered thickly about, which had evidently been procured from the mines of Lake Superior, as the evidences are accumulating that these mines were worked at a date long prior to the deluge.

After making a thorough examination of the chamber of death and its ghastly occupants, the men came out, closing the entrance behind them. To what race the skeletons belong, by whose hands their tomb was constructed, must ever remain a mystery. It is another leaf looking to the long ages of the past, another evidence of the fact that of this world and its founders we know but little.

We understand that measures are on foot to remove the skeletons and all the most important articles to the hall of the Iowa Institute of Science and Art. It is to be hoped that they will remain here and not be suffered to depart to enrich the museums of eastern cities. Meanwhile some of our learned savants would do well to investigate the cave and its surroundings, and establish, if possible, the identity of the skeletons—whether Indian, Mexican or Mound Digger. It will prove an interesting research.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m:	6:20 a m.
Stirling, Marmora, Harold, &c.	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c.	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c.	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Rednerville, &c., every Tuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, FEB. 1.

REMINDER.—Missionary Meeting at St. Andrew's Church to-night.

THE TOWNSENDS.—The well-known Townsend Family will perform at the Masonic Hall on Friday evening next, 3rd instant. The pieces to be played are "Lost in London" and the farce of "The Young Farmer and his Seven Sweethearts."

CHEESE COMPANY.—The Ontario Official *Gazette* of the 28th instant contains a notice that the "Ivanhoe Cheese Factory Company has complied with the formalities of a Company under chapter 63 of the Consolidated Statutes of Canada."

THE STREETS.—The frost of last night, which followed the rain, has converted the sidewalks into so many sheets of ice, to walk on which, is dangerous. The sleighing has also been sadly injured by yesterday's thaw.

BLACKWOOD.—The January number of Blackwood has been received. The contents are as follows: The Life of Lord Palmerston; New Books; Narrative of the Red River Expedition—Part II.; Fair to see—Part I.; This Morning's *Times* in Chambers; The late George Moir; The two Systems. The magazine is for sale by all the booksellers. For terms, &c., see advertisement in another column.

"THE ALTAR AND THE THRONE."—We have received the first number of a new Orange weekly newspaper, bearing the above title, which is published in Montreal. The paper is well printed, and contains a large amount of interesting reading matter amongst which is the first chapters of a serial story by Wm. Shannon, Esq., of Kingston. We wish the publisher all success. Dunbar Browne, Publisher, 25 St. Gabriel street Terms, $2 per annum.

CONTEMPTIBLE.—The following resolution introduced into the United States Congress by "Beast" Butler, and passed by a vote of 172 to 21, shows the feeling of the Yankees toward Great Britain. Could anything be more contemptible:—

Resolved—That the Congress of the United States, in the name and on behalf of the people of the United States, give to J. O'Donovan Rossa, Thomas Clark Luby, John O'Leary, Thomas F. Burke, Charles Underwood, O'Connell and their associates, Irish exiles and patriots, a cordial welcome to the capital and to the country, and that a copy of this resolution be transmitted to them by the President of the United States.

IMMIGRATION TO CANADA.—The Rev. Styleman Herring has been writing a long letter lately to the *Weekly Despatch* on the subject of immigration to this country. He shows the great advantage and comfort a man may get for his family by settling in Canada. He is very anxious to raise sufficient funds to assist about two hundred families out here this summer. He recommends that the working classes should form themselves into emigration clubs, and pay small sums weekly into a fund for that purpose, for he is convinced that no other mode is so efficient and permanent to relieve the able-bodied poor, as emigration to our colonies. He seems to be impressed with the idea that the different governments in this country are more apathetic in this matter than they ought to be.

THE HORRORS OF WAR.—The horrors and the humors of a bombardment are forcibly illustrated in the following incident, related by a Paris correspondent: "In the midst of the firing nine persons sat down to breakfast in a small house upon the plateau of Avron. These were the commander of the Sixth Battalion of Mobiles of the Seine (M. Heintzler), his wife, the adjutant of the battalion, a captain, two lieutenants, an ensign, a chaplain, and a doctor—nearly all of the same battalion. A Prussian shell came smashing upon the table, and killed six of the party. The commandant and his wife were wounded. The only one who escaped unhurt was the doctor. Of the eight persons who were killed, six belonged to this little breakfast party. 'There wants but a shell to give us butter,' one of the party had said. Instantly came a shell and blew six of them out of existence, while wounding two more, the commandant and his wife."

The Armistice.

The army of General Chanzy having advanced again on the Loire, a messenger has been sent by Prince Frederick Charles, to enquire whether Chanzy considers himself bound by the armistice or not. Some operations against Bourbaki's forces are reported, these latter troops not being included in the armistice. Demonstrations have occurred in Lyons and other cities against the mutilation of French territory.

The Age of Railways.

This is emphatically the age of Railways. Turn which way you will and everywhere preparations are being made to open up and develope the resources of the country by means of Railways. Every town and city on the frontier is making prodigious efforts to open up communication with some valuable point or centre, from which it expects to obtain immense advantages. Railways already open are stretching out their iron hands to grasp the trade which is growing up on our northern lakes and rivers. Cities like Toronto and Hamilton, which have grown from comparatively small towns to great cities from these feeders to trade and commerce, are using extraordinary means to extend communication with every part of the country. Port Hope, whose very life-blood is its Railway, is endeavoring to increase its prosperity by this means. Brockville has a scheme afloat for extending its road to the Georgian Bay, which will make that growing town the depot for an immensely increased trade in lumber and the products of the West. All over the Province of Quebec there are Railways projected for opening up and settling the free grant lands and building up the towns and cities on the frontier, and Townships and Counties are giving large bonuses to build these Railways. The fact is, the people of the country are awakening to the fact that a stand-still policy will not increase the value of their property, will not extend our trade and commerce, will not bring us emigration, will not settle the free grant lands, will not build up manufactures, will not enable us to compete with the country across the lines, which, whatever may be its faults, fosters emigration with a lavish hand, and promotes enterprises which tend to make it a wealthy and prosperous land. The people are awake to these facts and alive to their interests, and are willing to make the necessary sacrifices to promote the material prosperity of the country. We in Belleville have shown what we are willing to do, and the Townships along the line of the proposed Grand Junction Railway have shown what they are willing to do to open up communication with the interior of the country, and make that line one of the many highways for carrying the produce of the Great West to the ocean. Other municipalities will be called upon to vote bonuses to aid this undertaking, and from the spirit that pervades all classes, there is little doubt that each municipality interested will do its share to promote this scheme.

Kingston, too, is making great efforts to open up its back country, and from the energy which characterizes the movement, there is reasonable ground to expect a successful issue. To show the benefit of Railways, a Committee of the citizens was appointed to prepare a statement of facts to lay before the County Council of Frontenac, and as there is much in this statement which shows the general benefit of Railways to the County, we make a few extracts from it and commend them to the attention of the reader:—

The trade for the contemplated road from Kingston to Pembroke would consist at the outset of the carriage of pine and other lumber to Kingston on its way to the United States. From figures presented by gentlemen who have carefully examined the question, and especially by the gentlemen from Pembroke, who recently visited us, it appears that this trade in round numbers amounts to from 200 to 300 million feet of sawed lumber, and from ten to fifteen million feet of sawed timber annually. There is consumed by the people engaged in this trade a vastly larger quantity of food than its country produces. The supplies required are estimated at half a million bushels of oats, 12,000 barrels of pork, 12,000 barrels of flour, and 6,000 tons of hay, and other items in proportion. The farm produce required is equal to three-fourths of all the oats, one-fifth of all the wheat and hay now raised in Frontenac. This large quantity of produce is now purchased at distant points and carried by costly modes of transport to Pembroke or its vicinity by way of Brockville or Ottawa, and then in great part southward towards Kingston to the valleys of the Bonnechere and Madawaska; or from Perth, by an expensive land carriage, to the waters of the Mississippi in the township of Palmerston and elsewhere.

Many reasons induce us to believe that could such a route as the one proposed be opened for railway traffic, a very large portion of the trade mentioned must at once avail itself of its great facilities. Prominent among the reasons which, we think, warrant us in claiming for such an enterprise that its advantages to the lumber trade of the middle and upper Ottawa are such as to ensure for the road a large and profitable traffic, are the following:—

1. That the narrow gauge system, on which it is proposed to construct the road, is undoubtedly superior to any other in point of economy in cost of carriage.

2. That lumber can be carried cheaper from Kingston to Oswego by 60 cents per M than from Brockville, our nearest competing point.

3. That the distance from Pembroke to Albany, via Lake Champlain, is 550 miles, via Ottawa and Rideau Canal, 490, via Sand Point and Brockville about 400, and via Kingston it would not probably exceed 355 miles. The direct effect on the townships through which such a road would run must be very great. They would of necessity be the points whence the supplies of farm produce already mentioned would be drawn. In other words, a market would at once be created in the rear which would operate directly in relieving the front townships of their surplus produce and tend to raise the prices of such produce in the front, while establishing a market easy of access for the produce of the back townships at prices even higher than can be obtained in Kingston. Thus, instead of the rear townships remaining comparatively unemployed and unproductive from the inability of settlers to get out and in to sell or buy, except at great expense, these regions would at once be stimulated into active development by the certainty of a large return in cash for their products and the ability to obtain all supplies for need and comfort at a largely reduced cost. The following observations will, it is hoped, be considered as grouping together some details of the county's resources and capability, which have an important bearing upon the value to it of the proposed railway: Of the 500,000 acres in Frontenac now owned by private individuals, it is estimated that one-third only is under productive cultivation; one-third is in necessary wood land and land unfit for cultivation, and one-third is good land, at present wholly uncultivated and unproductive. It may, therefore, be said that the yearly product of the first has to bear the entire expense of living, interest, and taxes of the whole county, while the remainder produces but little in aid of its owners; of the one-third now owned in fee, which is fit for cultivation but uncultivated, a little over half (80,000 acres) lies in the back townships. In addition thereto it is estimated that in the Free Grant townships of Palmerston, Clarendon and Miller, there is of land fit for cultivation nearly 100,000 acres—and further, fully 70,000 acres of good land held by the Crown for sale in other townships.

In all there appears to be about 330,000 acres in the County of Frontenac capable of being made productive farming land. All this land, by the influence of the proposed road, would become not only available but desirable property. The large and rapid increase which the project promises to the population and wealth of the county, and especially to its back townships, is evident, as is also the large advantage to the present residents, from the cheapening of the cost of carriage of all produce and supplies to and from market.

In 1851 the quantity of land owned in the county was little over 225,000 acres, occupied by nearly 3,000 ratepayers. In 1870 the quantity assessed was about 500,000 acres, divided among 5,000 ratepayers. It is evident that the progress of Frontenac has been rapid within the last 20 years, and in no part has it been more so than in the townships north of Storrington, Loughboro' and Portland. But if the natural ratio and progress has been great, how much greater will it be under the influence of the facilities afforded by a railroad which will traverse the County of Frontenac from the range of its remotest concession line to the city of Kingston.

Every acre of good farm land within easy distance of the road will be largely advanced in value, and the assertion is fully warranted by the history of railroad enterprises in other parts of this province, that good land in Hinchinbrooke, Belford, Olden, Oso, Clarendon and Miller will in two or three years after the completion of such a road be worth from $20 to $30 per acre as against present values of $4 to $8 for improved farms.

The invariable results of railroad enterprise in Canada point to its value in improving the country. In no case has it been more marked than in that of the railroads penetrating the interior. The Northern Railroad, extending from Toronto to Collingwood, has exerted a marked influence not only upon the country through which it runs, but even upon the distant territory of Muskoka now to be connected with it by railway. The effect of the great railroad enterprises, which have for their object to secure for Toronto the trade of the westerly half of the interior of Ontario, is concisely expressed in two telegrams received yesterday.

From Barrie: Lands in the neighborhood of the Railroads have increased an average of five hundred per cent in value.

From Lindsay: Farm and Wild lands have doubled in value since the Railway opened. Good cleared land now worth $30 per acre; Wild $15.

The influence of the Watertown and Rome Road on the country which it serves is thus expressed in a telegram:

From Watertown: The increase in value of wild lands along the line of the Watertown and Rome Railway has been since its construction fourfold, and good farm lands at least 100 per cent.

Death of the Hon. John Ross.

(From the Toronto Telegraph, Feb. 1st.)

The Hon. John Ross, one of the most prominent politicians of his time, expired yesterday morning, at his residence on the Davenport Road, after a long and severe illness. The disease which ultimately proved fatal, first attacked Mr. Ross several weeks ago. He sank so rapidly that his death was expected from day to day. Still, as he was barely past the prime and vigor of manhood—being in his 54th year—his system battled against the disease for weeks after the physician had abandoned all hope, and he lingered on until yesterday morning, when death robbed the household of its fond loving and beloved head, and deprived the country of an honorable and an honest statesman.

Mr. Ross, though an Irishman by birth, was a Canadian in education and training. He was born in the County of Antrim, Ireland, on the 10th of March, 1818, and when only three months old came to this country with his parents. The latter must have died shortly after their arrival here, for we find that young Ross remained under the care of his uncle, at Brockville, until he was about three years of age. He was educated chiefly at the district school, the master of which was a Mr. Elms, who had been usher in the school of Dr. Strachan at Cornwall.

At the age of sixteen young Ross was admitted as student-at-law. He prosecuted his studies in the office of Mr. Buel and afterwards in that of Mr. Geo. Sherwood. In 1839, upon attaining his majority, Mr. Ross was called to the bar. He entered at once on the practice of his profession, and ere long became conspicuous as a practitioner in our courts. For the last few years he has not done much in his profession, though at the time of his death he was still nominally in practice as the head of the firm of Ross, Lauder & Mulock. He was beyond the necessity of practicing, being in independent circumstances, and in the enjoyment of a handsome income, the result of his professional labors.

It was as a politican, however, that Mr. Ross was most widely known. He belonged to the liberal school, not the so-called 'liberals' of the present day, but those of Baldwin's time. He was for many years the warm personal and political friend of that champion of Reform, in those days when 'Reform' meant something. When Mr. Baldwin ran in the County of Hastings, Mr. Ross was one of his most active supporters, and canvassed the County in his behalf. The Conservatives had held the County for many years, and were so strong that many persons looked upon Mr. Baldwin's defeat as a certainty. His opponent was Mr. Murney, a man of great local influence and popularity. The contest was a desperate one, and terminated in the return of Mr. Baldwin by a small majority. This result was due in a great measure to the judgment and energy of Mr. Ross. A short time later, Mr. Ross established a newspaper in the interests of the party, which he conducted a year or two. In 1848 he was called to the Legislative Council. In the following year he was offered a seat in the Cabinet, but declined because of his largely increased professional practice. He was made Queen's Counsel in 1850, and in 1851 he entered the Cabinet of Mr. Hincks as Solicitor-General. In 1852 he was sent to England to superintentend the completion of contracts for the construction of the Grand Trunk Railway, of which company he was president for nearly ten years. Mr. Ross was one of the first to advocate the building of the Victoria Bridge; and it was while he was president of the Grand Trunk that that triumph of engineering skill was opened for traffic by his Royal Highness, the Prince of Wales. In 1848 Mr. Ross, on the elevation of Mr. Richards to the bench, was made Attorney General, which office he held till '54, when the Hincks Administration was defeated. On the formation of the McNab-Morin Government in '54, Mr. Ross was chosen as Speaker of the Legislative Council. In that capacity he gave proof of that determination and firmness for which he was remarkable. As certain members were in his opinion exceeding the rules of the debate, he asserted his authority and speedily silenced the disturbers. In the McNab-Morin Administration he held office as, we believe, Commissioner of Crown Lands; but in 1856 he resigned because, as he said, the principles on which the Coalition had been founded had not been adhered to. In order to set himself right with the public, he expounded his position and explained the motives which led to his retirement through the press. The withdrawal of Mr. Ross resulted in the downfall of the Government, as Sir Allan McNab retired a few days later, and John A. Macdonald was called on to form a new Cabinet. In 1858 he accepted office as Receiver General under Mr. Macdonald. He retired with his colleagues the same year; but after Mr. Brown's failure to secure the confidence of the House, Mr. Ross went into power as President of the Council in the Macdonald-Cartier Cabinet. This office he held until the defeat of the Government.

As a life member of the Legislative Council, Mr. Ross was called to the Senate on the formation of the Dominion in 1867. He has not, however, taken an active part in politics of late. For the last four years he has resided most of the time at Tours, France, on account of the ill-health of Mrs. Ross, though he returned, each year, to attend to his parliamentary duties.

Mr. Ross was a forcible speaker, a keen debater, and an excellent departmental head. He was a thoroughly politician; and, though in office so many times, and president of a great railway company for ten years, it could never be charged against him that he violated the trust reposed in him or lost the confidence of his friends.

The Government Policy respecting Railways.

The following are the Resolutions laid before the House respecting the proposed aid to Railways:—

"I. That the aid granted in the past by the late Province of Canada to railroad enterprises connecting the chief centres of population and trade has been largely instrumental in increasing the development of the wealth and resources of this Province.

"II. That looking to the beneficial results which have grown out of that policy, the necessity becomes apparent of no longer withholding the like assistance to similar well-considered and *bona fide* enterprises that may be undertaken through sections of the country more remote from existing thoroughfares, passing through thinly settled tracts and leading into our Free Grant Territory, or to our Inland Waters, thus creating feeders to our main system of railroads—largely contributing to a more extended settlement of our Dominion by a hardy and industrious population, and greatly facilitating the transport of the products of our agriculture and our mines and forests to markets eagerly seeking the same.

"III. That towards securing these desirable objects it is expedient that the sum of   dollars be set apart from and out of the consolidated Revenue Fund of the Province and to be designated the "Railway Fund."

"IV. That no Railway Company shall be entitled to such aid until they shall furnish proof to the satisfaction of the Lieutenant-Governor in Council.

"1st. That their Railway Charter authorizes the construction of a road in the direction of our Free Grant Territory, or pointing to our Inland Waters.

"2nd. That the *bona fide* subscribed capital, together with any bonuses or loans by municipal corporations, and from the proceeds of bonds to be issued or authorized by such charter, leaves no reasonable doubt that such road shall be commenced and completed, including sidings and station houses, so as at least to be ready for the rolling stock within the period mentioned in such charter, provided that no Railway Company shall be entitled to such aid for any portion of their road for the construction of which a contract has been entered into since   day   1870.

"V. That the sum to be granted to any Railway Company coming under any of the classes hereinbefore mentioned and authorized by order of the Lieutenant Governor in Council to be entitled to receive the same, shall not be less than   or more than   thousand dollars per mile.

"VI. That before any part of the said Railway Fund shall be paid to any Company, the Comissioner of Public Works shall report for the information of His Excellency in Council that such Company have completed their road in accordance with the conditions and requirements contained in the fourth preceding resolution.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

WEDNESDAY, Feb. 1

VAGRANCY.

Andrew McDonald, who was fined yesterday and given 24 hours in which to leave town, and failed to do so, was this morning brought before the Magistrate and sent to gaol for 60 days, with hard labor.

News Condensed.

—Lent will begin this year on the 22nd of February and end on the 9th of April.

—A steam boiler in Seaforth exploded on the 28th inst., killing two young men named Shaw.

—Mr. Rice Lewis, a prominent citizen of Toronto, died on Tuesday

—The reassembling of the conference has been again postponed in consequence of the illness of Lord Granville.

—The German mail steamers, on the strength of the armistice, are running their trips between German ports and New York.

—The aerial steamer constructed by Mr. Morrow in San Francisco has made successful trips for short distances.

—It has been stated that the leaning tower of Pisa threatens to fall. It has been theatening so long that few will be alarmed.

—The printing accounts of the New York Central Railroad average $20,000 a month. The Albany *Journal* does the work—lucky proprietor.

—Four thousand girls are out of employment in Chicago. Send them along to Canada if they are not too lazy to work, and would condescend to act as domestic servants.

—Jacob S. Golladay, member of Congress from Kentucky, once gave the following toast: 'Champagne for true friends, and true pain for sham friends.'

—The January number of 'Blackwood' is out, and contains Part II of the narrative of the Red River expedition, the authorship of which is now generally attributed to Colonel Wolseley.

—A Detroit bar-keeper gives a chunk of frozen whiskey as big as a man's hand for ten cents, and gets out of paying a license by claiming that ice is not an intoxicating beverage. Here is an ice point of law.

DIED.

Died at the residence of Mr. Samuel White, Esclor, Wisconsin, MARY, relict of the late W. White, and mother of Mr. Wm. White, Tweed, aged 66 years.

(The funeral will take place from the residence of Mr. Robert Wadsworth, West Belleville, on Thursday afternoon, Feb. 2nd, at three o'clock.)

Masonic Music Hall.

ELEVEN STAR PERFORMERS

For One Night Only.

The World Renowned

Townsend Dramatic Troupe,

After an absence of two years in the United States, will appear here positively one night only, prior to their engagements in New York.

Friday, February 3rd,

1871, when will be performed the Great English and American Sensation of the day, entitled

Lost in London,

OR,

THE ELOPEMENT,

Embracing the whole strength of this world renowned Troupe.

Songs by Messrs. Locke & James

To conclude with the

YOUNG FARMER,

AND HIS SEVEN SWEETHEARTS.

Doors open at 7.15, to commence at 8.

HARRY TOWNSEND,
Manager.

February 1, 1871. 8t

NOTICE.

The balance of our

Winter Stock

WILL BE

SOLD AT COST.

WE have on hand a few good Overcoatings, also a few best Tweeds, Gloves, Scarfs, Flannel Shirts, &c., &c.

Come and See for Yourselves.

Ontario Legislature.

MONDAY, Jan. 30.

In the House Attorney-General McDonald introduced a bill respecting police commissioners, its chief object being to enable Mr. McMicken, stipendiary Magistrate, to discharge the functions of a police commissioner, the better to effect the arrest of criminals in the province of Ontario. He also introduced a bill respecting asylums for the insane, for the purpose of applying to them a uniform management. Upon the question for the third reading of the bill respecting the will of the late George Jervis Goodhue, the Hon Mr. Richards moved to refer it back to the committee, in order to have the opinion of one of the Superior Court Judges taken upon some clauses of it; but the amendment was defeated by a large majority.

On the motion to go into committee on the bill to empower the trustees under the will of the late J. B. Spragge, to sell certain lands forming part of the estate, some discussion was evoked on an amendment proposed by Mr. Lyon, giving the bill a three months' hoist, but ultimately the amendment was lost by a majority of one, the vote being 27 yeas to 28 nays. A number of other private bills were advanced a stage.

On motion of Mr. Graham, (Hastings) the bill to amend the act incorporating Albert College, Belleville, was read a second time and referred to a committee of the whole House to-morrow.

TUESDAY, Jan. 31.

Attorney-General Macdonald introduced his resolutions respecting the proposition to purchase, or lease for a term of years from the Dominion Government the Rockwood Asylum for the insane. The House resolved to go into Committee on the resolutions. Several private bills were read a third time and passed, and a few public ones advanced a stage.

Hon. Mr. Wood made his financial statement last evening. In concluding he alluded to the general position of the finances of the Province, which was most satisfactory—there being the large surplus of over $6,000,000 in the hands of the Government. The House went into Committee of supply on the estimates, and after some discussion the first item of $122,172.21 to defray the expenses of Civil Government was passed. The Committee rose, reported progress and asked leave to meet again.

Latest by Telegraph.

BY ATLANTIC CABLE.

American Despatches.

Steamship Arrival.

The Alabama Claims.

Schenck not yet Sailed.

Washington Canards.

Cuban Claims.

Theatre Burned.

SAN FRANCISCO, Jan. 31.—The steamship Colorado, from Panama, is coming in.

NEW YORK, Feb. 1.—The Tribune's Washington special telegraphs: It now appears likely that the Senate Committee on foreign relations will devote considerable time to the subject of the Alabama claims. As the details will probably cover the whole question of damages done by rebel cruisers fitted out in British ports and various schemes proposed for their settlement, the Committee is unwilling to take any action with regard to damages done by any one of the pirates which would, by implication, weaken the claims for damages done by others. The Committee will not probably report on the matter this session.

WASHINGTON, Feb. 1.—Minister Schenck had engaged a passage for Liverpool in the steamer of to-day, but, at the request of the State, he has again postponed sailing, and will remain in this city for the present.

NEW YORK, Feb. 1.—The Times' Washington correspondent telegraphs: The statement so industriously reiterated by the correspondent of an evening contemporary, that the Senate Committee on foreign relations has lately been considering highly important overtures from Great Britain for the settlement of the Alabama claims, is unqualifiedly false, and nearly every other utterance of the same party on the same subject, pretending to give details and propositions, is equally untrue. There is nothing new about the Alabama claims, beyond this: That this Government has recently received additional evidence of the anxiety of Great Britain to settle these claims; that in consequence of this intelligence General Schenck's departure has been delayed, in order that his instructions may be more fully and carefully prepared on this point, and that it is probable that he will be able to resume negotiations on the subject almost immediately on his arrival. Secretary Fish is now arduously engaged in the preparation of these instructions.

A despatch from Madrid which alludes to the banquet and congratulations of Minister Syckes on the successful accomplishment of a highly important diplomatic negotiation, is explained by the fact that Syckes, under instructions and powers sent him by the President and Secretary of State, has just concluded an important convention for the settlement of existing claims between this country and Spain, especially those growing out of the Cuban insurrection. This negotiation has been pending for some months, and has been a matter of much difficulty and delicacy.

The correspondent of the Panama *Mail*, writing from Valparaiso on December 10th, says: The magnificent theatre in Santiago, built at a cost of $500,000, was totally destroyed by fire on Thursday night. No lives lost.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 31.—A despatch from Bordeaux says that Gambetta has telegraphed to the Prefects that he will announce the resolution of the Bordeaux Government after his communication with the personage, who is to come from Paris. Meanwhile he asks them to be firm and confident, and instructs them to drill incessantly the recruits who come in during the term of respite allowed by the armistice.

A despatch from Versailles mentions the report that firing was heard in Belleville and Villette quarters of Paris yesterday, and says it is feared disturbances have occurred.

The armistice has been carried out in the west and north of France without difficulty.

It is reported that the armistice has been extended to the eastern departments, and that military operations on the part of Generals Manteuffel, Werder, Bourbaki and Garibaldi, cease to-day.

BELLEVILLE MARKETS

INTELLIGENCER OFFICE
Belleville, February 1, 1871

The market, throughout the week, has been unfavorably affected by the weather, supplies being light; but, as the demand was equally so, there is no change to note in provisions and miscellaneous articles.

The grain market shares in the dullness, though, in order to stimulate business, higher prices are now offered. The following are to-days's quotations:

SPRING WHEAT—$1 25 to 1 30
BARLEY—60c to 00c.
RYE—75 to 76c.
OATS—55c.
PEAS—70 to 75c.
BEEF—$4 50 to $5 00.
PORK—$6 00 to $7 00
MUTTON—5c to 6c per pound.
LAMB—5c to 6c per lb.
VEAL—0c. to 0c.
HAMS—11c to 12½c.
BUTTER—Tub. 16c to 17c.
BUTTER—Roll, 17 to 20.
EGGS—17 to 20c
HIDES—$7 00 to $8 00.
SHEEPSKINS—25c to 1 20c
TALLOW, rough—8c.
LARD—10 to 11c.
POTATOES—30c. to 40c.
APPLES—40c to 60c.
DRIED APPLES—1 00 to 1 40
HAY—$10 00 to $14.00.
CHEESE—10c to 12c.
FLOUR—Wholesale, $5 00 to $5 75 per
FLOUR—Retail, $6 00 to $0 00 per bbl.
POTASH—$4 75.
GEESE—30 to 60c.
CHICKENS per pair—25c to 40c
ONIONS—$2 00 per bushel.
WOOD $2 50 to $4 00 per cord.

MONTREAL MARKET.

Lard inactive at 12⅜c to 13⅜c for steam; 13⅜c for kettle rendered.

Butter unchanged,

Cheese unchanged.

SPECIAL NOTICES.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m:

How necessary that the nervous apparatus should be perfect and the brain vigorous; when either becomes exhausted through overwork or other imprudent disease in some is developed. The remedy lies in removing the cause. By using FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES the tone and vigor is soon restored to the brain and the whole nervous system, while diseases of the implicated organs disappear.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma,

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * *
I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

B. A. Michel, of London, Ont., recommends Allen's Lung Balsam for coughs and colds, and says he has used it with wonderful effect.

Intercolonial Railway
OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteeen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs Morton, Rose & Co. Bartholomew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 6 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, }
To Wit: }

BY VIRTUE of two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, *vs.* James D. Davern, Robert Weller and Charles Davis, Defendants; and David Pitceathly and Thomas Kelso, Plaintiffs, *vs.* J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1834, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed and for sale at the *Intelligencer Office*

Take it out in Trade.

A lathy looking fellow entered a down-east restaurant, and ordered a double stew of oysters. The man who kept this restaurant was a small, redheaded individual, evidently high tempered. He prepared the stew in quick time, and the lathy fellow sat down to his repast, and ate with enviable relish; after which he selected a first class cigar, regaled himself with a mug of foaming ale, sitting with his feet elevated upon the top of the stove. He was very deliberate and self-disposed. After the cigar had almost disappeared in smoke he called for his bill.

'Sixty-five cents,' said the proprietor.

'How is that ?' asked the lath.

'Fifty cents for the double stew, and fifteen cents for the cigar.'

'You forgot the ale,' remarked the lathy fellow looking quite serious.

'Ah, yes, that is ten cents more—seventy-five cents.'

'Well, I am ready to pay it.'

The red-headed man made no reply, and the fellow kept his seat.

'I tell you I am ready to pay the bill.'

'Well pay it then,' said the proprietor.

'I ain't got any money,'

'Hain't got any money,' repeated the man of refreshments.

'Not a darn'd cent.'

The red-headed man opened his eyes.

'Then how do you expect to pay the bill?'

'Well, I'll tell you—I'll stand about seventy five cents worth of your jaw—so go ahead.'

The red headed man was the maddest individual ever seen. He seized the nut cracker and let it fly at the offender with a will; but it hit the chair and broke its own handle.

The lathy fellow had gone. He vacated his seat at the nick of time, and the last seen of him he was walking very leisurely down the street finishing his cigar.

A New York clothing house having been robbed, in a short time, of $76,000 worth of goods, had its employees examined by detectives the other evening as they were quitting work, and on the persons of eight, out of eighteen cutters, stolen property was found.

The maddest man in Indiana lives at Patoka. He told his wife he was going down cellar to commit suicide, and did go down and fired a broadside into a pork barrel. His wife kept right on knitting, and after awhile the man came up stairs, swearing that the woman hadn't got any feeling.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

Christmas is Coming !

Belleville, December 9th, 1870. 188d

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION.—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted.
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the wastes and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands, Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the Sarsaparillian Resolvent. *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine, Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* Radway's Sarsaparillian Resolvent *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent, also with Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief and Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than Ten dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1809.

Dr. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

In her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fulness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Thomas, Danks, Kinkel, Bishop, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 a year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS'

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS--AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers

MUNN & CO.,

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sicknees of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and displacements of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug or a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, Doctor prescribes Blue Pills or Calomel; next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that these three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary ?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*,) the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure Ch[illegible] or preparation of Quinine, Arsenic [illegible] forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively [illegible] as

Radway's Ready Relief.

No, not one. Thousands [illegible] Quinine, Arsenic, Mercury, bodied [illegible] Cures and Private Practice [illegible] gorged liver, fat, spleen, disordered [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but [illegible] the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Bilious Attacks, &c., than the Quinine Mixture [illegible] Cholagogues, &c., costing $1 to [illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of Radway's [illegible] diluted in one gallon of proof spirit [illegible] equal in quantity, and superior in [illegible] 144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief [illegible] cents, as a Pain Remedy, and for [illegible] will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Bilious Colic,	Flux.

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physioligists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and *Pills* are new medines, prepared on new principles, and cure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.

MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

ALSO PUBLISH
THE FARMER'S GUIDE
To SCIENTIFIC AND PRACTICAL AGRICULTURE.

By HENRY STEPHENS, F. R. S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven.
Two vols., Royal Octavo. 1600 pages, and numerous Engravings Price $7. By Mail, post-paid, $8.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY
as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W, JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS

FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World,
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

FOR cheap printing go to "The Intelligencer" Office. Belleville.

That Book Agent.

MARK TWAIN KILLING THE GOOSE THAT LAID HIS GOLDEN EGG.

He was a man of middle age, mild manners, and benevolent aspect, and withal one of the most eminently amiable and unconscious of bores. In his least disagreeable phase, one of his visitations was enough to reconcile its victim to the minor annoyance of east winds and smoky chimneys or toothache; but he was too tranquilly self-reliant to find that out without aid, and so for years he travelled from house to house as unconsciously obtrusive and unintentionally offensive as the measles or any other epidemic. He was a blindly imperturbable variety of "the pestilence that walketh at noonday," and a rude or ungracious welcome wouldn't disconcert him any more than it would a brass-mounted revenue assessor. The mollusk started in life as a peddler of salve, and descended, by easy graduation, through the stove damper, window catch, washing fluid and stencil plate eras that diversify the downward career of most itinerant vendors. Those pursuits were, doubtless, eminently calculated to bring his literary tastes to a high state of cultivation; but unhappily he had quite neglected to profit by his opportunities. His utter and contented ignorance of literature naturally suggested the splendid possibilities that awaited him in the book trade; so when he found the stencil business

TOO BEWILDERING TO HIS INTELLECT,

he calmly and confidently dropped into book canvassing. He was not a first rate judge of authors, and his literary discrimination seldom strayed beyond the pictures and binding without being ingloriously swamped. A flavor of the old salve and washing fluid was always perceptible in his discussion of books and authors. I used to experience a melancholy pleasure in persuading him to descant on the merits of Shakespeare's Black Crook, or Munchausen's Dictionary, or Dickens on Logarithms, or R. W. Emerson's Nursery Tales. He could expatiate on those works or any others that I recklsssly suggested, just as lucidly and delightfully as he could on those for which he was canvassing; more so indeed, for he felt more 'fancy free' when there were no books around. He often declared that

WHEN SHAKESPEARE WROTE ANOTHER BOOK

he would try and get the agency, though he 'had an idea that Shakespeare wasn't quite a match for Headly or Smucker.' He thought that children might like Emmerson, he was so plain and simple like, but grown folks generally like solid literature, like 'New York by Gaslight,' or 'A Thousand Things Worth Knowing.' I suppose it was his invincible and remorseless audacity that enabled him to subdue his victims. He had a way of pouring himself out, in a ceaseless wish-wash of prepared platitudes and canned twaddle capable, I verily believe, of wearying a bronze statute of William Pitt, into the purchase of Abbot's Napoleon. And the more Summer it took the better he liked to fight it out on that line. I once tried to baffle him by passive endurance, but in the sixth hour of his oration his enjoyment of its superhuman eloquence had become so keen that I had to subscribe for an extra copy before he would consent to stop. That ignominious failure of the Fabian policy sealed my doom. I never recovered an atom of confidence in my ability to stem the tide of his loquacity, and thereafter he saw in me only a reliable market for subscription literature He

OVERWHELMED ME WITH VOLUME

after volume of pictorial imbecility and pathos in gold binding. My small capital was gradually absorbed by the ruinous accumulation of "Napoleon and his Marshals," Everybody else and his Marshals, Notorious Criminals, Libels on the Presidents, Family Bibles with caricatures, wretched parodies on Universal History, solemn burlesques of the Patriarchs, and other illustrated and absurd trumpery imposed upon me by that *remorseless agent.* My family was actually reduced to the verge of want by the vampire's repeated drafts upon me. I tried in vain to raise a little money out of my books. The constable even refused to levy on them for a grocer's bill, and returned the execution unsatisfied, because a man's library was exempt, and he didn't want to "git in a trap." Presuming upon my utter thraldom, this agent deliberately compelled me to buy a set of Patent Office Reports, and I had to borrow the money to pay him for them. The next time he called I cast myself, a haggard, careworn suppliant, at his feet, and implored him to let up on me, in mercy to my suffering, starving family. I think the man's sympathies were really touched, for

HE SHED SOME TEARS

and, in his agitation, violently wiped his nose with the row of pins in his coat cuff, but professional zeal soon got the better of his weakness, and opening his sluice, in the old familiar strain, he began; 'I'm a solicitor of subscription for the interestinest book ever published—The Life of D. Weymiss Jobson—which I venture to say, has sold more—' but I didn't wait for him to weave his spell. I realized that an awful crisis was at hand, and that one of us must die immediately. So I brained him. No, I didn't exactly brain him, but with an axe I clove him from crown to chin, which was as near as I could come to braining a book agent. Then I burned his body on a funeral pyre, to build which I gladly contributed my library by way of retribution. His very corpse was so permeated with inveterate zeal, that when the flames began to search its extremities, it laid its satchell, its specimen volume and its umbrella between its feet, and opening its portfolio, invited me, in ghastly but unintelligible pantomime, to 'put my name down for just one copy.' I never experienced such a buoyant sense of relief as when the potash man paid me for the ashes of that holocaust. Of course the public wasn't absurd enough to make any troublesome enquiries about a missing book agent.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION.

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m:	6:20 a m.
Stirling, Marmora, Harold, &c	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Rednerville, &c., every Tuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, THURSDAY, FEB. 2.

Y. M. C. A.—Monthly business meeting to-night in rooms, at 7:30.

FLOODED.—If the drain at the north-west corner of Front and Bridge Streets were opened, the sidewalk would be relieved of a large pool of water now gathered upon it.

POSTPONED.—The performance of the Townsend troupe, advertised for Friday night, has been postponed until Monday night at the Masonic Hall.

POLICE COURT.—The morals of the Town are surely improving. There was not a case for trial at the Police Court this morning, which state of affairs seems to be getting chronic.

WARNING TO BOYS.—Several sleighs belonging to boys who were caught in the act of 'coasting' down hill, regardless of the safety of pedestrians, were recently captured by the police. This ought to serve as a warning to others.

CHEESE FACTORY.—Application is to be made to the Parliament of Ontario for an Act to incorporate the "Mountain Cheese Manufacturing Company," of Tyendinaga, the capital stock of which is to be $2,000, in 500 shares of $4 each. Half of the capital has been subscribed.

THE BALL TO-NIGHT.—We are glad to learn that, from the large number of tickets sold, there remains no doubt that the charitable ball of the St. George's Society, which comes off at the Masonic Music Hall to-night, will be a great success. Parties who have not yet purchased tickets can do so at the door.

TEA MEETING.—The most successful Tea Meeting ever held in the Presbyterian church at Melrose, came off on the evening of the 1st inst. The Chair was taken at 7 o'clock, by A. F. Wood, Esq., Warden. Some very eloquent and interesting addresses were given by the following gentlemen: Messrs. Turnbull, Knight, Young and Burton from Belleville, John White, Esq., Reeve, for the township, and the Rev. S. Doxee. Rev. Mr. Knight recited a poem from the pen of Willis, which was rendered in fine style, keeping the audience spell-bound. The evening was enlivened by some choice sacred music from the M. E. Choir, Shannonville, Miss Fannie Young presiding at the instrument. The proceeds amounted to the handsome sum of $115.

Ontario Finances.

ESTIMATES OF EXPENDITURE FOR 1871.

The estimates of expenditure by the Government of the Province of Ontario for the year 1871, were presented to the House by the Hon. Mr. Cameron, and it was resolved to go into committee of supply on Tuesday. The following is a summary statement:

	To be voted in 1871.
Civil Government	$123,172 21
Legislation	146,194 68
Colonization Roads	60,000 00
Administration of Justice	196,936 66
Public Works, Capital Account	750,311 37
Public Works, Miscellaneous	25,300 00
Asylum Maintenance	202,971 32
Reformatory	21,710 00
Agriculture and Arts	75,100 00
Immigration	30,000 00
Hospitals and Charities	40,260 00
Literary and Scientific Institutions	1,350 00
Education	380,305 00
Unforseen and Unprovided	20,000 00
Miscellaneous	34,097 46
Municipalities Fund	71,365 40
Land Improvement Fund	290,386 27
Charges on Revenue	134,100 00
Total	$2,602,560 37

—The citizens of Montreal on the higher levels—toward the mountain—have to melt snow and by other contrivances obtain the necessary quantity of water for daily use, the supply from the Water Works have failed, owing to the failure of the pumping apparatus. The engine is condemned by the *Witness* and *Gazette*, but the Water Committee and others of the city Fathers, are reported to be enjoying themselves at the St. Jerome festivities.

Manitoba News.

We have received the *News Letter* and the *Manitoban* of the 14th of January, from which we obtain some interesting information.

The thermometer was 12 ° below zero on the 11th.

The *News Letter* says the postmaster at Winnipeg imposes a discount of four per cent upon the Canadian fractional currency, and very properly wants to know the reason why.

The *News Letter* publishes the names of a portion of the voters by whom Donald A. Smith was elected for Division No. 18. Twenty-four of these persons are non-residents, and of the remainder of those given, eighteen are composed mainly of monthly servants of the Hudson's Bay Company, who have no houses or homes other than the lodgings provided for them as servants. In addition to this list, the *News Letter* says a number of miners and American deserters voted for Smith, the names of whom will be published in a future issue. If half of what the *News Letter* says respecting this election be true, it was the most infamous fraud ever perpetrated in any civilized country, and it is a great pity the authors of it cannot be punished as they deserve. Petitions against the return of Mr. Smith were to be presented to the Lieut.-Governor from the people of the Town of Winnipeg and the Parish of St. John. An extract from the petition from the Town of Winnipeg will show the character of this bare-faced swindle which defeated Dr. Schultz. "That the town of Winnipeg, "being the part of the 15th or St. John's and "Winnipeg Division, is now unjustly re-"presented by Mr. Donald A. Smith, who "was declared elected at the late poll held "at this place. That at said poll were "taken the votes of a large number of "Frenchmen from distant Parishes, of "deserters from the American Army at "Pembina, and of non-residents from else-"where, and that in consequence the elec-"tion of said Donald A. Smith is illegal." The petition from the Parish of St. John represented, "That, as we, the electors of "the Parish of St. John, united in the polling "our votes, at the recent election without a "single exception in favor of Dr. Schultz, "so do we now unite in condemning the "shameful and illegal employment of "Frenchmen from distant Parishes to secure "the return of Mr. Donald A. Smith, who "had not one single vote polled for him by "an elector of this Parish. That we, the "electors of this Parish, pray that justice be "done to us and that the names of every "non-resident who voted, whether French, "or English, and the names of all American "deserters be struck off the Poll Book, and "the people of this Parish be allowed to "have the man of their choice, Dr. John "Schultz, to represent them in the Manitoba "House of Assembly, whereas not one vote "was polled for Mr. Donald A. Smith."

It is most earnestly to be hoped that these petitions will be properly received, that a thorough investigation be made, and justice done to all parties.

The *News Letter* says:—

An important General Order was read to the 1st Ontario Rifles at parade on Monday morning last. The authorities have decided to grant discharges to all the Volunteers now on service who desire to remain in the Province; and in the meantime working passes will be granted to all applicants whose names stand clear on the books of their Companies. These passes will hold good until discharges come from Ottawa.

The following appointments were gazetted on the 13th inst:—

To be additional members of the Executive Council of Manitoba: The Hon. Henry Joseph Hynes Clarke, the Hon. Thomas Howard, and the Hon. James McKay.

To be Attorney-General for the Province of Manitoba: The Hon. Henry Joseph Hynes Clarke.

To be Minister of Public Works and Agriculture for the said Province: The Hon. Thomas Howard.

The Legislature of Manitoba meets on the 2nd of February.

The *News Letter* says:—'Adjutant-General Lepine now stalks about with the utmost confidence. He was met at a ball at White Horse Plains last week, at a blacksmith shop this week, and may be met at his own residence almost any day.''

It appears very singular to us in Ontario, that leading rebels like Lepine are allowed to remain at large. There does not seem to have been the first serious effort made to arrest a single individual connected with the rebellion of last winter or concerned in the murder of Scott. On the other hand, some of the leading conspirators are appointed magistrates, and others prowl about the country still sowing the seeds of disaffection, and living on the spoils which they stole from loyal citizens last winter. In view of this state of things what object was there in going to the expense of the Red River Expedition? And if this state of things is to continue, it would be better to withdraw the whole volunteer force from that Province at once, and let the rebels have full swing. It is rather too much to ask the loyal young men of Ontario to endure the hardships and privations of the Expedition to Red River, simply to protect the interests of the Hudson's Bay Company, and be a body guard to Adjutant-General Lepine, Chief Justice Ross, and others of like characters, who were conspirators in the rebellion of last winter, and were more or less responsible for the murder of Scott. This is not what they went to Red River for, and if this is the kind of work they are obliged to perform, most sincerely do we hope that they will be ordered back to their homes at once.

A report had gained currency in Winnipeg that Captain McDonald, who went to the Saskatchewan early in the winter, had died of the plague. The rumor, happily, lacked confirmation, as no communication had been received by the Board of Health from any of his party. Letters received by private parties from the Saskatchewan report the disease as still raging at the date of writing.

Missionary Meeting in St. Andrew's Church.

The annual Missionary Meeting in connection with the above named church was held on Wednesday evening, the 1st instant. Addresses were delivered by the following ministers: Rev. J. C. Smith, pastor; Rev. R. Lewis, Congregationalist; Rev. A. Carman, Principal of the College; Rev. D. L. Brethour, Wesleyan, and Rev. E. J. Roke, Congregationalist. Rev. D. Snodgrass, and Prof. McKerras, from Queen's College, Kingston, were expected to be in attendance, but by an unavoidable delay of the train, they did not arrive in Belleville until 10 p. m. There was a good gathering of people, who listened with studious attention and lively interest to the addresses. The choir rendered with admirable effect a selection of music highly appropriate to the occasion. The amount contributed to the missionary fund by the congregation during the past year was $202.

Presbytery of Kingston.

An adjournment of this Presbytery in connection with the Church of Scotland, was held here last evening. Members present; The Rev. J. C. Smith, M.A., Moderator, the Rev. Principal Snodgrass, D.D., Rev. James Williamson, L.L.D., Rev. John B. Mowat, M.A., Rev. John H. Mackerras, M.A., Rev. Samuel Macmorine, B.A., Rev. Alexr. Buchan, Ministers, and Mr. George Neilson, Ruling Elder.

A memorial and petition bearing upwards of sixty signatures, and representing an equal number of families, who reside in the townships of Seymour west, and Rawdon, was submitted by duly appointed Commissioners, craving to be received as a Mission Station, and asking at the same time whatever supplies the Presbytery might be able to give. The prayer of the petition was granted, and Mr. William Campbell, Catechist, was appointed to labor in the said field until the next ordinary meeting of the Presbytery. Rev. Mr. Smith was appointed to visit the township of Rawdon, on some convenient day, and to open by request with appropriate services, a new church, recently built there in connection with the Presbyterian cause.

As several members of the Presbytery had to return home by the train due here shortly after midnight, and as a good deal of important business was still before them, the Presbytery agreed to adjourn to meet in St. Andrew's Church, Kingston, on Wednesday 15th inst., at one o'clock p.m. Adjourned accordingly.

Ontario Legislature.

WEDNESDAY, Feb. 1.

In the House yesterday, Mr. Graham (York), offered a resolution with the object of securing patents for Crown Lands upon which the purchase money had been paid, but where it was impossible to perform settlement duties on account of the swampy state of the property. Several members on both sides of the House opposed the motion on the ground that it was too sweeping in its nature. The Attorney General suggested that if there was any special case of hardship, it might be brought before the House for consideration. Mr. Graham accepted the suggestion and withdrew his motion.

Mr. Blake moved the House into a Committee for the purpose of considering a motion having for its object the appointment of Judges of the Superior Courts as Commissioners, to whom private estate bills would be referred for their opinion, touching their legal aspect as set forth in the preamble, before being sent to the private bills committee. The judiciousness of the measure was generally approved by both sides of the House, and Mr. Blake subsequently introduced a bill on the subject.

Mr. Lyon moved an amendment to Mr. Lount's motion for the third reading of the bill authorizing the sale of certain lands in the township of Blenheim, forming part of the estate of the late Joseph B. Spragge, and after some discussion the amendment was lost by a large majority. Mr. Lyon then moved another amendment giving the bill three month's hoist, but this also was lost on nearly a similar division, there being but one vote more given in favor of it. The bill then passed. Attorney-General Macdonald moved that the eleventh report of the committee on Railways be received and concurred in; whereupon Mr. Blake moved in amendment that the report be referred back to the committee with instructions to reconsider the preamble of the Toronto, Grey and Bruce Railway bill, stating at the same time that he was opposed to the grouping of townships for bonus purposes. The amendment was carried by a majority of 7, the division showing 35 yeas, and 28 nays. The House went into committee on Dr. McGill's bill to regulate the sale of poisons and respecting chemists, druggists and apothecaries. After a good deal of discussion, a number of amendments were made and the committee rose and reported the bill as amended. Two pricate bills were read a third time and passed, and several others were advanced a stage.

Mr. Graham (Hastings) moved that the Bill to enable the Municipalities along the line of the Grand Junction Railway Company to grant aid thereto, and legalize certain by-laws granting aid to the said Company be referred back to the Railway Committee.

A Rochester farmer, who is wealthy and drives a team of 'crow bait' horses, was asked what was the matter with his team. He said he didn't know, as he had tried condition powders, and everything. A man asked him if he ever tried corn or oats, when he acknowledged that he never thought of that.

The story told by a Chicago paper about a man who killed himself, to allow his brother to marry the girl whom they were both in love with, sounds very pretty, but a man is justified in doing something desperate to get out of marrying an ordinary Chicago girl. But it was a mean trick to play on a brother who never did him an injury.

SIR JOHN A. MACDONALD still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrinsic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

Circumstances alter Cases.

There was a collision on the Great Western Railway on Monday, and this is Mr. Brown's account of it:—

"Yesterday morning a collision occurred on the Great Western Railway near Oakville. Two passenger trains met near the switch, neither going at a rapid rate. The engines of both trains sustained considerable damage, but the personal injuries inflicted were of a slight nature. The traffic was not interrupted for any length of time."

It was a trifle, you see. The engines were damaged; the personal injuries were of a very slight nature; and traffic was not interrupted for any length of time. An accident in which three persons are injured; two locomotives and a couple of cars considerably damaged; and whereby the trains are delayed for several hours, is, in Mr. Brown's opinion, a mere nothing, provided it happens on the Great Western Railway. But let the Grand Trunk be fifteen minutes behind time, and all the world must be told that it is a miserable line, miserably managed; that it is "fourteen hundred miles of smash-ups and crash-ups." What a fair and impartial individual is Mr. George Brown. We wonder if that wood contract has anything to do with the matter. Mr. Brown is not the man to champion and defend any railway company for nothing. This we know from the history of the past. A few years ago he was abusing the Grand Trunk just as he is now, and defending the Great Western just as he is now. People could not account for it at first; but a satisfactory explanation was arrived at when it became known that inside a period of six months Mr. Brown received from the company, not in payment of wood delivered, but as *advances on wood to be delivered at some future time*, the comfortable little sum of *fourteen thousand dollars*. Those advances had nothing to do with Mr. Brown's defence of the company, of course not. And of course Mr. Brown receives nothing for defending the company to-day, and abusing a rival line.

The Great Western Railway is, as everybody knows, one of the best lines of railway on this continent; and it is now and always has been excellently managed. But that is no reason why, when an accident occurs, the facts should be concealed from the public, or an attempt made to gloss them over. Mr. Brown, certainly, should be the last man to do so. When we find him apologizing for and defending one line, while he is at the same time doing all he can to injure the other, people will be apt to say that he has good and substantial reasons for doing so; just such reasons as influenced him when those little *advances* were made to him a few years ago.—*Telegraph.*

News Condensed.

—There was a grand military parade at Madrid on Tuesday, when forty thousand soldiers took the oath of allegiance to King Amadeus.

—The Quebec Government have appointed as Emigration agent to France and Belgium, Capt. Barnard, formerly district Quartermaster of volunteers at Montreal.

—The death of a millionaire is of some value to the British Government. Mr. George Baird, of Stratchell, near Manchester, died recently, and the price of the stamp on which the inventory of his property was written is £13,400.

—The prospects of the Clyde shipbuilding trade are said to be most encouraging. During last year there were launched 234 vessels, representing a total of 189,000 tons. Of these 121 vessels of 183,000 tons, were screw steamers.

—The London *Globe* remarks that eleven members of the House of Commons died in the year 1870, all of whom were Liberals. In 1869 the number was the same, in the proportion of seven Liberals to four Conservatives.

—The North German Consul-General at New York reports the total amount of patriotic subscriptions received at $305,023 38, and the total amount of remittances made to the central sanitary commissioner at Berlin is $200,000 in gold.

—The Chinese begin another cycle of a thousand years in their calendar early in February, and those of the race in California will devote two weeks to festivity in celebration of the passage from the old cycle to the new.

—The new city of Duluth at the head of Lake Superior, still struggles with some of the difficulties of savage life. Last Tuesday noon Mr. Macy shot a gray wolf weighing 100 pounds, that was prowling about the Second street Presbyterian Church.

—The *Daily Australasian*, published at Melbourne, is a wonder in the newspaper line. Its regular issue contains thirty-two pages, each page measuring 12x18 inches, with an additional or supplementary forty-eight pages every Saturday. Each page is set in small type, and contains a well-digested summary of news, editorials, criticisms, &c.

The following 'Lines on the Approach of Winter,' written by a washerwoman, will draw tears of sympathy from the eyes of many a suffering sister:

Oh cramp and spazzum!
I often has 'um;
Nooralgy, too, and tic,
And roomatics in style—
Which rubs in ile
With op-pod-delly dick!

Benefit of Laughter.

It is said by good medical authority that there is not the remotest corner or little inlet of the minute blood vessels of the human body that does not feel some wavelet from the convulsion occasioned by hearty laughter, and that the "central man" of life principal is shaken to its innermost depths, sending new tides of life and strength to the surface, and thus materially tending to insure good health to the person who indulges therein. The blood moves more rapidly, and conveys a different impression to all the organs of the body as it visits them on that particular mystic journey, when the man is laughing, from what it does other times. For this reason, every good hearty laugh in which a person indulges tends to strengthen his life, conveying as it does new and distinct stimulus to the vital forces.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 137-m-Th.

Midnight Despatches.

Restoration of the Empire.

Gambetta's Proclamation.

LONDON, Feb. 1.—The 'Times' says that upon the representation of Favre that Paris was already suffering greatly from want of food, the Emperor William ordered three millions of rations to be sent from the German army to the famishing city. All trains converging upon Paris are forbidden to carry travellers, who are excluded from the city unless they are provided with a special pass from the German authorities, while persons are allowed to leave Paris. The French authorities have requested the Prussians to prevent all admission to the city.

The Prussians are making colossal efforts to supply the city with breadstuffs, of which there are now on hand sufficient to last till Saturday. The supplies of horse will hold out until the 10th of February. Great quantities of food have been shipped from Belgium to Paris.

NEW YORK, Feb. 1.—The *World's* London special of the 31st Jan. says:—

It is confidently believed in court circles that the Empire will be restored with the Empress as Regent. The Emperor's confidential Aide arrived at Chiselhurst to-day. Significant courtesies have been extended to Eugenie by Queen Victoria.

BORDEAUX, Feb. 1.—Gambetta has issued a proclamation saying: 'Frenchmen! Prussia believes the armistice will dissolve our armies and secure the election of a chamber ready to conclude a shameful peace. It depends on France to upset these calculations. It is necessary to make the armistice a period for the instruction of our young troops, continue with unrelaxed vigor the organization for defence and for war if necessary, while you install a National Republican Assembly willing to make such a peace only as is compatible with the honor, rank and integrity of France."

ASIA MINOR.

LONDON, Feb. 1.—A despatch from Constantinople says that the dykes at Smyrna have been destroyed by a torrent and that a large part of the town was inundated. Many persons were drowned, but the precise number of victims is unknown.

THE CONFERENCE.

LONDON, Feb. 1.—A despatch from Constantinople says it is reported there that the London Conference will not close its sessions until France has been represented in its Council.

The Conference will hold another meeting on Friday of next week.

GREAT BRITAIN.

LONDON, Feb. 1.—The ravages of the smallpox are decreasing in London.

Excessive frosts have endangered the crops of all kinds.

Morning Despatches.

Chauzey Accepts the Armistice.

French Elections on the 8th.

Who are Disqualified.

Bourbaki's Army, 80,000 Strong, in Switzerland.

NEW YORK, Feb. 1.—The World's special from Le Mans 31st, says Chauzy accepted the armistice, commencing at noon to-day.

PORTLAND, Feb. 1.—The steamer Peruvian, from Liverpool, has arrived.

BORDEAUX, Feb. 1.—The Government at Bordeaux has issed a decree ordering elections for the National Assembly to be held on the 8th. It disqualifies for election to the Assembly members of families reigning in France since 1786; all persons who may have acted as Imperial official candidates in past elections, or held office as Ministers, Senators or councillors of State under the Empire and Prefects who have accepted office between the 2nd December, '51, and 4th September, '70.

Jules Simons has arrived here.

LONDON, Feb. 1.—An official despatch announces that Bourbaki's army of 80,000 strong, entered Switzerland to-day. The federal authorities have summoned the Cantons to disarm them.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

BORDEAUX, Feby. 3.—It is reported here that Gen. Manteuffel has refused to recognize the armistice, and disregarding the protests of the French commander, has continued hostilities by which he has forced the French army of the East to surrender or retreat into Switzerland.

Clenchart who now commands the army of the East, concluded a convention with the Swiss authorities, and crosses into Switzerland with his whole army to-day.

Gen. Bellot covers the retreat.

NOTE—It should be borne in mind that the armistice did not go into effect in the department of the east until Feb. 1st.

A quaker once hearing a person tell how much he felt for another, who was suffering and needed pecuniary assistance, drily asked him, 'Friend, hast thou felt in thy pocket for him?'

The proprietor of a forge, not remarkable for correctness of language, but who, by honest industry, had realized a comfortable independence, being called upon at a social meeting for a toast, gave:—'Success to forgery.'

The London *Cosmopolitan* proposes the following marriage vow for its lady readers, when occasion requires: I will continue to love my husband so long as he is lovable, honor him so long as he remains honorable, and obey him so long as his commands are just and reasonable.

There never was anything much more graphic than Josh Billings' brief item on New York, saying: 'New York iz a fast place. If a man pulls out on a phuneral procession just as likely as not the whole procession, led by the hearse, too, will strike a 2:40 gait, and leave him to take their dust.'

THE FENIANS.—Ogdensburgh is now looked upon as the rallying point for the Fenian Circles. The rendezvous may be a good one, but the attempt to invade will only hush any whispers of discontent in the Dominion, and rouse that determined heroism and courage so characteristic of the Dominion, whose instantaneous and energetic action is sure to prove victorious, like the triumph of the Great Shoshonees Remedy, for chronic complaints of the lungs, liver, &c. For sale by all druggists.

—In the little Canton of Freiburg, Switzerland, there are no fewer than 19 monasteries or convents for men and women.

W. J. SMYTH.
Special Agent, Belleville District.
GEO. J. POTTS, M. D.,
Medical Referee, Belleville.
December 29, 1870. 57-1y

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1868: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists: Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

EXTRACT.—I consider FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES superior to any similar preparation yet offered to the public. CHANDLER CRANE, M. D., Halifax, N. S.

It is really a good medicine, well adapted to build up the system and impart vigor of body and mind.—*From the St. John, N. B., Journal, 7th Dec.*, 1868.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP," Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

SHERIFF'S SALE OF LANDS.

COUNTY OF HASTINGS, To Wit: } BY VIRTUE of two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, *vs.* James D. Davern, Robert Weller and Charles Davis, Defendants; and David Pitceathly and Thomas Kelso, Plaintiffs, *vs.* J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1834, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

The Highland Bonnet.

Once upon a time a worthy woman, a native of Kintail, went to Inverness, on one of her annual visits to dispose of her extra butter and cheese, in order to be able at the approaching term to pay her rent. She was accompanied by her son "Donnach Mor," who, though hardly out of his teens, was known in Kintail by the above name; and from the circumstance of his never having indulged in the luxury of wearing any kind of headdress, was also known as the Gillie Moal or the bare-headed lad. On the occasion in question he made a bargain with his mother that she would present him in Inverness with a Highland bonnet, as he had some thoughts of getting married; but whether prudential motives on the marriage question, or that she thought the bargained-for article a superfluous piece of effeminacy, the writer cannot vouch for. Be that as it may, the mother did not keep her word, and they both started on their homeward journey *minus* the bonnet. They had not proceeded far when they were met by four robbers, who at once asked the old woman to furnish them with meat and drink out of the well filled panniers on her pony's back. After partaking of a hearty meal, she was ordered to produce her cask, which was also reluctantly given up. Meanwhile the Gillie Moal sat sulkily on a knowle at some little distance, indifferent to all that his poor mother was suffering. The bonnet affair was still sticking in his throat. After pocketing all she had given them, one of the robbers asked her if that was all she had. "No," *she replied*, "I have one more half-crown in my pocket, and if you will administer a good blow to that 'loon' sitting over bye, (pointing to her son), you shall have it with the rest." No sooner said than done. The blow was struck with all the force the robber could command; blood was up; Donnach Mor sprang to his feet, and with one blow laid the robber senseless on the ground. Two others ran to the rescue of their friend, and were in detail served in like manner; the fourth took to his heels; and our hero, after possessing himself of not only all his mother's money, but also all that he had found on the persons of his fallen enemies, quietly resumed his homeward journey, and arrived with his mother safe and sound in Kintail. Donnach Mor afterwards became an illustrious soldier; and it was he who, at the battle of Sheriffmuir, defending the "Brattach Shail-each" killed 16 men single-handed, and won for his daring a coat of arms and a motto, which I trust they will never renounce. His sword is still preserved.

B. A. Michel, of London, Ont., recommends Allen's Lung Balsam for coughs and colds, and says he has used it with wonderful effect.

Christmas is Coming!

Belleville, December 9th, 1870. 188d

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF

THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW

CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN

RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands, Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs, and each of these Organs will secrete their proper constituent secretions. Instead of Urine, Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones diseases and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, syphilis, uncured and badly treated Venereal in its many forms, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than ten dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills.** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats, Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.

GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the LADY'S BOOK contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft of a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; It cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Thomas, Danks, Kinkel, Bishop, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

PETERS' MUSICAL MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS,"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents, for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing a THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration, inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active-drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an alterative, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack. Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for*, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*,) the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Chelagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty in engorged liver, fat, spleen, disordered kidneys, saffron-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $5, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief, diluted in one gallon of proof spirits will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, Liniments, &c., all of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, (or 2 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom from sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars, paid to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Bilious Colic,	Flux.

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Viz: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacopia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medines, prepared on new principles, and *Pills* ll oure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every after noon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

THE GREAT

English and Scotch Quarterlies,

AND

Blackwood's Magazine,

REPRINTED IN NEW YORK BY

The Leonard Scott Publishing Co.

QUARTERLY:

THE EDINBURGH REVIEW,

NORTH BRITISH REVIEW,

LONDON QUARTERLY REVIEW,

WESTMINSTER REVIEW.

MONTHLY:

Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive *any two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

THE FARMER'S GUIDE

To SCIENTIFIC AND PRACTICAL AGRICULTURE.

By HENRY STEPHENS, F. R. S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven.

Two vols. Royal Octavo. 1600 pages, and numerous Engravings Price $7. by Mail, post-paid, $8.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,

ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,

Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,

MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

June, 1870. 44-1y

Scientific American

FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,

Publishers of the Scientific American,

37 Park Row, New York.

UNDERTAKING.

G. S. TICKELL,

Upholsterer, Undertaker, &c.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel Engraving, 28 by 36 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00. to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,

838 BROADWAY, NEW YORK.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S

TRADE MARK.

MANUFACTURED ONLY BY.

MESS^RS GABRIEL.

Dentists.

LUDGATE HILL, LONDON.

PREPARATIONS

FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Letter to the Dominion Board of Trade, by Mr. Brydges.

GRAND TRUNK RAILWAY OF CANADA.

MANAGING DIRECTOR'S OFFICE,

Montreal, 31st January, 1871.

HON. JOHN YOUNG,

President Dominion Board of Trade.

MY DEAR SIR,—I observe by the public papers that at the meeting of the Dominion Board of Trade in Ottawa, on the 29th inst., you brought the subject of railway rates before the meeting, and that a resolution was passed to the following effect:

> "That it is reported to this Board that a great discrepancy exists between our local and through freights and accommodation on the Grand Trunk, and this Board recommend that such action be taken by its council as to remedy the evil complained of, so far as practicable."

No communication has, so far, been addressed to this Company upon the subject; and I beg to be allowed, without delay, to address you, as President of the Dominion Board of Trade, as as to remove the very singular misconceptions into which both yourself and several speakers at the late meeting have fallen. You are reported to have said, in bringing the subject forward, that:

> "The people of Canada had contributed largely to the Grand Trunk Railway, but that road had charged rates which were altogether preferable to foreigners. He had a resolution on the subject, condemning the carrying of freight at cheaper rates for people in the neighboring States. The same rates were charged by the Grand Trunk for flour from Chicago to Boston and New York as to Montreal. These discriminations operated injudiciously to the people of this country."

I confess to be much surprised that you should have made statements which are so absolutely opposed to the actual facts.

You were of course speaking of rates during the period that navigation is closed, for shippers never trouble themselves about inquiring what our rates are in summer; unless we are prepared then to carry at but little above the rates that are in force by the water lines, we may as well shut up the railway.

Now, with reference to the winter rates, what are the facts?

You say: "The same rates were charged by the Grand Trunk for flour from Chicago to Boston and New York as to Montreal.,'

The rates from Chicago to Boston are fixed by the shortest lines, and we have nothing to do with those rates, but to charge the same as other lines.

No one knows better than yourself that railway rates are always proportionately less for long than for short distances.

The present winter rate on flour from Chicago to Boston, the distance by the shortest line being 1,027 miles, is $1 30 a barrel.

The present winter rate from Chicago to Montreal, the distance being 860 miles, or 167 miles less than to Boston, is $1 10 a barrel, or 20c. a barrel less than the rate to Boston.

Your statement, therefore, that the rates from Chicago to Boston and Montreal are the same, is simply a misstatement of fact,

Following the example of inaccuracy of statement, which you had thus set, several speakers spoke of the rates charged by this Company for local traffic as excessive, and as injurious to the trade of Canada.

I shall now proceed to prove that there never were statements made so opposed to actual facts, and that there is no railway upon this continent where the trade of the country is carried on at such low rates as are charged to the people of Canada by the Grand Trunk Company.

It is a necessity of its position, owing to its running alongside the most splendid water communication in the world, which is in full operation for 7 months out of the 12, and controls the rates for the entire year—but this necessity is a positive gain to the people of Canada, and forces the railway to do its work at a much smaller profit than is earned by any other line on the continent.

Again, what are the facts?

I will quote from published tariffs of different railway companies:

On the Northern Railway of Canada, the charge for a barrel of flour from Collingwood to Toronto, 97 miles, is	30c
On the same line from Gilford to Toronto, 49 miles, it is	25c
On the Great Western Railway from Chatham to Hamilton, 140 miles, it is	36c
From London to Hamilton, 75 miles	25c
From Woodstock to Hamilton, 45 miles	20c
On the Michigan Central, from New Buffalo to Detroit, 218 miles, it is	46c
From Johnson's to Detroit, 170 miles, it is	42c
From Marshall, 107 miles, it is	34c
On the Erie Railway, from Buffalo to Port Jervis, 335 miles, it is	78c
From Buffalo to Union, 199 miles	50c
And for a distance of 100 miles it is	30c

On the two American lines, of course, the rates are in their currency, but the difference now is very small.

All the rates above named are the same all the year round, both winter and summer, and they range from 20c a barrel for 45 miles, to 78c a barrel for 335 miles.

The present winter rate on the Grand Trunk Railway from Toronto to Montreal, 333 miles, is 50c a barrel, and in summer, 35c a barrel.

It will thus be seen that as regards the Erie Railway, we charge for 466 miles, 8c a barrel *less in winter*, and 18c a barrel *less in summer*, than they do for 335 miles; and that we carry a barrel of flour from Toronto to Montreal for 28c a barrel less in winter, and 43c less in summer, than they carry for a similar distance between Port Jervis and Buffalo, viz: 335 miles.

As regards the Michigan Central, our charge for 333 miles is only 4c a barrel more than they charge for 218 miles in winter, and 7c a barrel *less than their* charge in summer.

As regards the Great Western, our charge for 333 miles is only 14c more than they charge for 140 miles in winter, and about the same as they charge for that distance in summer.

We carry for 333 miles in winter for just double their charge for 75 miles, and in summer only 10c more than they charge for that short distance.

And as regards the Northern Railway, we charge in winter for 333 miles, just double what they charge for carrying 49 miles; and in summer we only get 5c a barrel more for 333 miles than they get for 97 miles.

I could quote from the tariffs now before me several hundred instances with similar results, and I could prove that as regards our charges, from points in Canada, west of Kingston, and from Montreal to the Lower Provinces, they are equally moderate; but I have shown enough to prove the extraordinary misstatements made at Ottawa, and the entire correctness of my assertion, that the productions of Canada are carried to market by the Grand Trunk Railway at much lower rates than are charged to any other people by any other railway on any part of this continent.

The same general state of facts exists in regard to all descriptions of freight both up and down.

I simply chose a barrel of flour, as the easiest and simplest example.

What is Canada's gain, is the Railway's loss.

We cannot get, owing to the water competition, the same rates that are charged by other railways for their local traffic—our profit on each transaction is therefore much less—and the proportion which our expense of working bears to our receipts is, therefore, so much the greater.

I desire now to correct some further misstatements, which some of the speakers at your meeting propounded.

General statements were made that great delay occurred in forwarding freight on the railway—that local freight was allowed to lie, whilst through was carried—that freight could not be sent by Allan's steamers, because the railway did not provide cars—and that it took 6 days in summer, and 10 in winter to get freight carried from Montreal to Toronto.

Such statements were, at least presumably, made from knowledge of an actual state of facts existing at this time. How far they had any real foundation, I will proceed to show.

It is idle now to discuss what took place in years past. The obvious practical question is, what is the truth now? And how are the public of Canada treated on the railway at the present time, as regards their freight business?

The first statement was that local freight was lying at stations, and could not be forwarded.

It is no doubt true that, for a short time after harvest, when every dealer is pressing to get his grain to market within a few weeks of its being harvested, as is the case with every railway and vessel owner at that particular period, some delay of necessity arises, in moving off the quantity of grain, that every available team in the country is employed in bringing to the stations of the different railways. All lines are then alike in that respect.

But I state unequivocally that it is not true that local freight is being neglected to carry through, or that the trade of Canada is suffering, from the Grand Trunk Railway being unable to meet the demands made upon it.

On the 24th inst., I issued an order to every station west of Kingston, to send me a statement of all the freight on hand waiting shipment, and to let me know if any complaints had been made as to difficulty in obtaining cars to carry off the traffic from the station.

I have now before me the replies from every station; and the whole amount of freight on hand at all the stations was less than 90 car loads, for which the agents had shipping orders. We are now loading and forwarding, daily, from those stations, about 150 cars, so that there was absolutely no accumulation anywhere, and no detention of any kind.

The universal reply from every station is, that there has not been any scarcity of cars, and that consequently no complaints have been made by shippers. On the contrary, shippers have expressed themselves as well satisfied with the facilities which they have received on the railway.

The second complaint is that freight could not be sent to Europe by Allan's steamers, because the railways did not furnish cars. Allans only run a certain number of steamers—one every week—and can only, therefore, carry a certain quantity.

Last winter we had to stop receiving goods for them at our stations five weeks before the last steamer sailed, because we were carrying to Portland more than they could take away, although every steamer was loaded to its full capacity. Fifty (50) car loads of what we did take down remained at Portland after the last steamer had sailed, because they had not room for it.

And as regards this winter, there is now sufficient freight at Portland, taken down by the Grand Trunk, to load the next three steamers at least, without taking into account what is in transit on this side of Portland, and which will amount to a very large additional quantity.

The next statement is, that it takes six days in summer, and ten days in winter, to carry freight from Montreal to Toronto, being an average of 50 miles in one case, and 30 miles in the other, as a day's work on the railway.

It will not be difficult to prove that this statement is also entirely opposed to the actual facts.

Every car carrying freight is required to run an average of 150 miles a day in winter, and 200 miles a day (of 24 hours) in summer. Careful records are kept in my own office of the actual running of the cars, and every case of delay is specially enquired into, when it is found that the required daily mileage has not been obtained out of each car.

From the compilation now before me of these returns for the year 1870, it appears that during the 12 months, 413,411 cars were moved over the line, for various distances, to carry the traffic, and that out of that large number, only 3,203 were beyond the specified time of 150 miles a day in winter, and 200 miles a day in summer. *That is, very little more than three quarters of one per cent. of the whole.*

150 miles a day in winter will occupy a little over 2 days between Montreal and Toronto, and 200 miles a day in summer will take less than two days.

Of course, occasional cases will occur, where from snow storms, break downs, or accidents, the average time will be exceeded; but these are all covered by the three-quarters of one per cent. out of the large business done.

To check any possible inaccuracy in these returns, I had a few days ago a special statement made out, of all the cars that had left Montreal for Toronto during 60 days. And I had put upon that statement a return of the arrival of those same cars at Toronto. I find that a very large proportion arrived in two days—the majority of the others within 3 days—and that the few cases of delay beyond that were attributable to the breakage of wheels, axles, or rails, arising from the severe cold of this month.

To satisfy myself further upon the subject, I personally inspected the records at a number of the principal stations west of Toronto last week, and I found that cars from Montreal arrived at those stations in three and four days after leaving, and it was only when some exceptional occurrence took place, that that time was exceeded.

I may adduce further proof of my statement, derived from a source entirely independent of the Company's records.

A merchant of Montreal doing a large business with the West, was, some months ago, speaking to me about these matters, and I asked him to find out what time his customers actually received their goods, after they were sent off from Montreal. He subsequently wrote to me that he had sent out with the invoices for the goods he sold, several hundred circulars, asking his customers whether or not they received their goods in the time stated by us that we would deliver them by our express freight train. He received supplies from nearly all; and in only seven cases was any delay complained of.

The time taken by our express freight trains is less than 2 days to Toronto, and a proportionate time for distances beyond.

I submit that I have completely disposed, by a plain recital of actual facts, of the very extraordinary misconceptions into which yourself and some members of the Dominion Board of Trade have fallen.

This letter has extended to such a length, that I might well stop here; but as I am addressing, through you, a body of men who represent all classes of the commercial interests of Canada, and who are entitled to full information upon all matters relating to the trade of the country, I hope it will not be considered out of place, if I add a few remarks upon a subject which has of late been made the ground for a good deal of public discussion.

I allude to the physical condition of the Grand Trunk Railway and its rolling stock.

I have the less hesitation in doing this, because statements have been made which are calculated, if not designed, to divert trade from the Dominion, and thus to vitally injure the interests which the Board, over which you presided was assembled, if possible, to promote.

I do not intend to enter into any comparison of the condition of the Grand Trunk Railway at the present time, and what it was when I took charge of it nearly nine years ago.

I wish simply to state a few plain facts.

During the 10 years from 1861 to 1870 there have been put in, upon the 798 miles of main line, between Portland and Sarnia, 2,763,085 new sleepers. The original quantity of sleepers put in on the main line was 1,685,376, so that every sleeper has been renewed in about 5¼ years. The sleepers are, therefore, as sound and in as good condition as it is possible them to be, upon any line of railway in the world.

As regards rails, 1,132 miles of new rails have been put down upon the 798 miles of railway in the 10 years. That is to say, the average life of every rail has not been allowed to go beyond seven years—the whole line having been renewed in the 10 years nearly once and a third times. These rails have been procured from the best makers in England, many of them at a high price, and guaranteed as to their wear—from the rolling mill at Toronto, where they have been manufactured with great care, and under a very stringent specification—and for the Portland line, from one of the best mills in the United States.

It cannot be said that new material has been nigardly supplied. The best makers have been employed, and high prices paid, to endeavor to secure the best possible quality.

And I say now, that since I have known it, the Grand Trunk Railway has never at this season of the year been in as good a condition as it is to-day. I make this statement advisedly, and with at least as much practical experience upon the subject as any other person in Canada.

The Grand Trunk, like other lines, is dependent upon starting its passenger trains from either end upon the arrival of the trains of other Companies. When they are late, which is a very frequent occurrence, it deranges the whole train service from one end of the line to the other, and during its course of 789 miles of main line, it has to make connection with 18 other trains, which join it at various points along the route. For all of these it of necessity must wait, and many of them are frequently more or less behind time. Public convenience requires that the travel along the entire length of the line should be accommodated and waited for, but it has become a fashion in some quarters to put down all delays as solely attributable to the Grand Trunk.

The months of January and February are the worst months in Canada for railroad working, and until the climate changes, trains can never be run in a satisfactory manner in those months.

At the beginning of the year, orders are always issued to run with the greatest caution during winter, and to make no attempt in extremely cold weather to run on time.

The range of the thermometer has a great deal to do with the running of trains. With the mercury down to 30° below zero, experience has proved that iron in rails, axles and wheels will not stand, and are constantly liable to break.

This has been proved to be true in all cold countries.

Mr. Sandberg, C. E., the Engineer of the Swedish Government, stated a short time ago in a report that in 1866, on the line from Moscow to St. Petersburgh in Russia, one train broke 59 rails, and consequently actually stopped the traffic of the entire line which is 400 miles long, for several days.

There is a marked difference in the temperature in various parts of Canada. When I was in Guelph on Saturday last, the thermometer was 12° above zero, and at the same time I was informed by telegraph that it was 12° below in Montreal, or a difference of 24 degrees of cold.

From a careful register, which I have caused to be taken daily at Montreal and Toronto, I find that for the months of January and February, 1870, it was on an average 15 degrees colder in Montreal than in Toronto. It was worse east of Montreal, and milder west of Toronto.

As a result, trains are run with much greater regularity west of Toronto than they can be east of Kingston.

It is a fact that west of Toronto our trains are run with as much regularity as any railway in Canada or the States in our vicinity; and it would not be difficult to prove by statistics that the Grand Trunk, taking its length into account, runs as well as any other lines on the northern part of this continent.

Iron rails having been proved not to be entirely satisfactory in cold climates, this Company began 5 years ago an experiment with steel rails. It had to be done cautiously, as engineers had doubts if the material would not break in severe cold.

Five years' trial has proved that steel will stand where iron breaks, and accordingly in 1870 the Grand Trunk Company imported and laid in 60 miles of steel rails, which have stood perfectly the severe cold of the present month. Eighty-five (85) miles have been ordered from England for this year, and if they can be procured, I hope that after this year nothing but steel rails will be laid down.

This Company was the first to introduce steel rails into Canada; but the experiment having succeeded, the Great Western Company is following our example, their experience of iron being as much against it as ours, although their climate is on the whole so much less severe.

As regards rolling stock, we have added 900 to our stock of freight cars during last year, besides greatly improving the capacity and general quality of our old stock.

We have arranged with the Pullman Company to put their splendid sleeping cars upon the line, and including those now on the road, 20 of them will be running during the present year. We have purchased 12 new passenger cars of the latest and most approved pattern, and are now thoroughly renovating in a first class manner the whole of our passenger car stock.

We have also largely added to our stock of engines, and are yearly building or buying a number of new ones, to take the place of older and weaker machines.

Thus, in 1867 we carried 1,417,440 passengers,
And 1870 1,642,907 do;
showing an increase in 3 years of 225,000 passengers.

In 1867 we carried 1,016,874 tons freight,
And in 1870 1,302,848 do
being an increase of 286,000 tons, or upwards of 25 per cent.

And during the present year, our weekly receipts, arising from our greater facilities, are increasing at the rate of from $15,000 to $40,000 a week.

Unfortunately, owing to our geographical position, we cannot get as paying rates for the work we perform as other companies are able to do.

Thus our receipts are less than they ought to be, and the cost in proportion to our receipts at which we are compelled to work, (aggravated by our climatic difficulties.) leaves but a very narrow margin of profit upon so large a business.

Whilst, therefore, Canada gains enormously, from the low rates at which she gets her trade carried on, the shareholders of this Company, whose money has built this great highway, have not, so far, derived any return upon their outlay. The present increasing receipts will, there is now, however, no reason to doubt, give those whose money has been so instrumental in benefitting Canada, some return at last.

As the discussion at Ottawa was widely circulated through the press of the country, I shall send a copy of this letter to the newspapers.

In doing so, I am quite aware that it will be the signal for calling down upon this Company and myself—from a certain quarter—many colums of misrepresentation, exaggeration and personal abuse. I shall not depart from the rule which I have hitherto followed, of leaving those violent and persistent personal attacks to the calm judgment of the people of Canada, amongst whom I have now lived for upwards of 18 years, and who, I do not doubt, will judge for themselves whether I and the staff of the railway which it is my pride and privilege to be at the head of, do not, at any rate, exert ourselves to the utmost, under the circumstances of the greatest difficulty and discouragement, to promote the prosperity of the Grand Trunk Railway and of the country through which it runs.

I am,
My Dear Sir,
Yours very truly,
C. J. BRYDGES.

—It is stated that the Hon. E. Perry and Mr. Frank Smith have been appointed Senators.

—Captain Motney was knocked down by a runaway span of horses yesterday in Brighton, and was seriously injured.

—The report comes from Ottawa that two English firms have been awarded the contract for supplying steel rails to the Intercolonial.

—Lumbering operations on the Ottawa and tributary streams are progressing very satisfactorily this winter, and a large amount of timber, exceeding, perhaps, the product of former years, is expected to be brought to market.

Daily Intelligencer.

BELLEVILLE, FRIDAY, FEB. 3.

No Telegrams.—In consequence of the heavy storm prevailing eastward the wires are down, and we are without our usual telegrams.

St Andrew's Church Tea Meeting.—We understand that the annual Soiree in connection with St. Andrew's Church, will be held on Thursday, the 23rd February.

St. George's Ball.—The annual ball of the St. George's Society, which took place last night at the Masonic Hall was not so successful, in point of attendance, as was anticipated. Dancing, however, was kept up with spirit until a late hour.

Explosion.—Last night, while the members of the choir of the Bridge Street Wesleyan Church were visiting the Deaf and Dumb Institution, one of the steam-heating pipes burst in the room in which the visitors were seated. A stream of hot water was ejected from the burst pipe, which luckily did not scald any one, though it occasioned considerable alarm for the time being.

Not able to Please.—The *British Whig* finding it impossible to please every one who figures at a Concert, says:—"In reporting concerts in future we will allow each player or singer to write his or her own notice and hand it in early next day. By this means we will be enabled to please all, which we could not hope to do successfully on our own account, unless by flattering all alike, to the great injustice of the best performers. Late experience has taught us wisdom." Such a report would be the essence of richness.

Letter from Mr. Brydges.

We publish in our columns to-day a lengthy document from Mr. Brydges, Managing Director of the Grand Trunk Railway, which we commend to the attention of our readers. It is a timely publication, and will be found a complete refutation of the unfounded statements made at the meeting of the Dominion Board of Trade. The ill-natured and unjustifiable attacks of the *Globe*, are replied to in an effective manner, and notwithstanding the unfortunate accidents which have happened lately, Mr. Brydges shows that the Grand Trunk Railway has never at this season of the year been in as good condition as it is to-day.

The Dominion Census.

An extra of the *Canada Gazette* contains the recent proclamation authorizing the taking of the census and enumerating the schedules and their contents, as follows:

Schedules No. 1—Nominal return of the living, with age, sex, birth-place, &c.

No. 2—Nominal return of deaths within the last 12 months, with age, sex, &c.

No. 2—Return of public institutions, real estate, vehicles and implements.

No. 4.—Return of cultivated land, field products, plants and fruits.

No. 5—Live stock, animal products, home made fabrics and furs.

No. 6—Return of industrial establishments, with capital and nature, and amount of annual production.

No. 7—Products of the forest.

No. 8—Return of shipping and fisheries.

No. 9.—Return of mineral products.

The census will be taken on April 3rd, as previously announced.

O'Donoghue on the Rampage.

O'Donoghue, of Red River notoriety, paid a visit to President Grant the other day, and was, we need scarcely say, very cordially received. His business was to plead the cause of the down-trodden Manitobans, and try and secure their release from the tyrannical power of Canada. The nature of his mission secured for him a right royal reception. President Grant listened attentively to his complaints, and is reported to have returned a very encouraging reply. O'Donoghue's chief grievance was that the people of Manitoba were illegally interfered with after they had established a Government of their own, and as it was the boast of the Great Republic, that every people had the right to choose their own form of Government he claimed United States intervention on their behalf. He denounced the Dominion Government as being the authors of all the trouble and charged them with tyranny, cruelty and fraud, to all of which President Grant listened with the most marked attention, and gave Mr. O'Donoghue to understand that the wrongs of the people of Manitoba would be redressed if it were in the power of the United States to do so. Mr. O'Donoghue left the august presence highly delighted with the interview, and afterwards took counsel with his brethren, the liberated Fenians from Ireland, as to the best method of liberating Manitoba from the tyrannical power of Canada. General Butler is said to have been a party to the council, and doubtless we will have a proclamation from that inveterate hater of British institutions, telling the people of Canada when, and in what manner they are to be gobbled up by the great American nation.

We do not wonder much at such men as Butler and Chandler making donkeys of themselves, but it is a matter of surprise that the chief of a great nation like the United States would so lower the dignity of his office and disgrace his nation by having anything to do with such a consummate rascal as he knows O'Donoghue to be. It was bad enough for the Congress of the United States by a vote of 172 to 21, to pass Butler's resolution of welcome to the liberated Irish Fenians, but it was infinitely worse for the head of the nation to receive and listen to the tirade of such a scoundrel as O'Donoghue, and extend to him a gracious and encouraging reply.

—The Bostonians are taking active steps to send relief in the shape of provisions, to the people of France. They ask a ship from the American Government to transport the supplies.

The Grand Junction Railway.

The Peterboro *Examiner*, referring to the defeat of the Peterboro By-law by the casting vote of the Warden, says:

"What shall be done is the question of the day, since the defeat. Is this the end of the Grand Junction to Belleville? We certainly think not—it may delay the enterprise, but cannot utterly defeat it.

"It is now the duty of the friends of railways, but especially, of the friends of this railway enterprise, to go anew to work, and either get up a new By-law and submit it to the Council at the June session, or, submit it to one of the municipalities interested.

"There can be no doubt but that the new Townships owe it to the older ones, for their fostering care, to pay a little to the present enterprise, and after due consideration they will see their way to do it. But the question of route had a good deal to do in the defeat sustained; let a new By-law be submitted and leave the matter of route an open question, and a handsome bonus will be the result."

Police Court.

(Before A. Diamond, Police Magistrate.)

Friday, Feb. 3.

LIBEL.

James Walmesley Carman and Jacob Nicholas Yeomans appeared under warrant, to answer a charge of publishing in the Daily *Ontario*, false and malicious allegations against John Thomas, impugning his conduct as Returning Officer at the late School election in Coleman Ward.

The prisoners pleaded "Not Guilty," and admitted that they are the publishers of the newspaper referred to, but denied that the articles complained of were libellous.

The papers containing the articles were filed, also a certificate of the partnership between the parties.

Mr. Jellet on the part of the plaintiff, addressed the Court on the nature of the law of libel, saying that, as the plaintiff was acting in a judicial capacity, the accusations in the newspaper were the more injurious for that reason.

Mr. Dougall, for defendant, admitted that Mr. Thomas was Returning Officer for the first day, but contended that the second day of the election was illegal.

The Magistrate, after hearing the addresses of counsel said the only course of defendants was to plead the truth, but he could not hear any defence, this being merely a preliminary investigation. He must hold the matter to be libellous. The only meaning to be derived from the first publication was that Mr. Thomas was intoxicated and wilfully recorded spurious votes. The second publication aggravated the offence, and the language used in apology respecting the allegation of the correspondent concerning drunkenness was untrue, as no one could otherwise interpret the original language as meaning otherwise than that Mr. Thomas was intoxicated, and that, when in that condition, he would readily do a mean act. Supposing this allegation were withdrawn, it still aggravated the offence, as it took away the only excuse there might be, and saying that he acted partially when sober. It was a grave offence to charge against a man sworn to act impartially. As Mr. Yeomans was one of the candidates in that election, an accusation against the impartiality of the Returning Officer would have all the more weight, as he was supposed to know what was going on then. If the apology tendered by Mr. Thomas was such as they could not publish, it was their duty to have returned it, and not to have taken an unfair advantage. He would therefore send the case for trial to the next competent Court of criminal jurisdiction.

Bail was accepted, the prisoners in $400 each, and two sureties for each prisoner in $200 each.

The prosecutor was also bound over in $200 to prosecute.

ASSAULT.

Jacob Cronk charged George Coburn with assaulting him on the 2nd inst. The plaintiff stated that he is landlord of the store in which defendant carries on business, and had gone into the cellar to see about the drainage. Defendant called him a thief and threatened him with his fist and with a bottle. Raised an axe to defend himself. The evidence for the defence directly contradicted that for the prosecution. The case was laid over for decision till to-morrow. Burdett for deft.

STEALING A DOG.

Queen vs. Geo. Hayes and Jno. Gorman. Prisoners, who did not appear, were chargd with stealing a dog, the property of Tobias Meyers. As defendants did not appear, warrants were issued for their arrest. S. B. Burdett for plaintiff.

—Chicago is going to try to make steel rails, and for this purpose the Chicago Rolling Mill Company has added $300,000 to its capital. The works will have a daily capacity of seventy tons of rails, and will require one hundred and fifty men in addition to the thousand now employed. The erection of the new buildings will begin as soon as spring opens.

NOTICE.

The balance of our

Winter Stock

WILL BE

SOLD AT COST.

WE have on hand a few good Overcoatings, also a few best Tweeds, Gloves, Scarfs, Flannel Shirts, &c., &c.

Come and See for Yourselves.

ROBERT DICK.
Dr. Lister's Block, opposite the Dominion Hotel, Front Street.
Belleville, Feb. 1, 1871. 158

CAUTION.

MY Wife, Mary Ann C. Cronk, having left my bed and board without just cause or legal provocation, I hereby forbid any person or persons to trust her or give her any credit on my account, as I shall not pay any debts or liabilities that she may incur on my account.

And I also hereby forbid any person or persons harbouring or detaining her, or encouraging her in living away from my own residence in Belleville, to which she is welcome to return at any time she desires to do so.

JACOB CRONK.
Belleville, Feby. 1st, 1871. 233d

REMOVING.

Ontario Legislature.

THURSDAY, Feb. 2.

In the House yesterday Mr. Blake moved his resolution respecting the murder of Thomas Scott, at Fort Garry, and took the opportunity of attacking the course pursued by the Dominion Government regarding its North-West policy. The Hon. M. C. Cameron moved an amendment, and it was carried on a division—47 voting yea and 28 nay.

The report of the committee on the bill to regulate the sale of poisons was received, and on motion of Dr. McGill the report was referred back to the committee to add the fourth clause, which had previously been expunged, to the bill. The motion was carried and the House went into Committee on the bill and reinstated the clause—Dr. McGill and others contending that that clause did not, as had been represented, interfere with trade and commerce in the common acceptation of those terms.

Mr. Rykert's bill to amend the Act to regulate the procedure of the Superior Courts of Common Law and of County Courts, was adopted by a committee of the whole House after being slightly amended. A good deal of discussion arose upon one of the clauses affecting witnesses in suits, but it was finally carried.

Mr. Anderson's bill to further secure the independence of the Legislative Assembly was declared out of order by the Speaker and discharged—the principle of the measure being almost similar to the one introduced by Mr. Blake two or three weeks since. Another bill brought in by Mr. Anderson to amend the Tavern and Shop Licenses Act was withdrawn by the introducer on account of the opposition it evoked. Two or three other private bills were advanced a stage and the House adjourned at 11:30 p. m.

Latest by Telegraph.

BY ATLANTIC CABLE.

Midnight Despatches.

LONDON, Feb. 2.—A despatch to the *Times* dated at Versailles, says that Count Bismarck is indisposed and was visited yesterday by the Emperor.

LILLE, Feb. 2.—The *Echo du Nord* is in favor of peace. It calls the appeals for resistance made by the municipality of Bordeaux encroachments upon the power of the Constituent Assembly.

Meetings are being called in the Northern Departments to nominate candidates for the Assembly.

NEW YORK, Feb. 2.—A despatch from London to the *World*, dated to-day says:—

"A letter from Col. Duncan Kentry, assisting in the War Department, at Bordeaux, says there is an immense reaction in official circles and among the populace, against the Provisional Government, and that ten millions of people would vote for the restoration of the Empire to-morrow. France will refuse to continue the war. The Mobiles arriving at Bordeaux shout '*Vive le Empereur*.'"

BARR, Feb. 1.—Many thousands of French die from starvation in the Jura. There were 15,000 prisoners taken, including 1,000 officers, two being generals. There were also captured 10 cannon, 7 mitrailleuses, and two eagles. Only 8,000 men of the army of Bourbaki escaped in the direction of Lyons. General Manteuffel was in pursuit.

GREAT BRITAIN.

NEW YORK, Feb. 2.—A London despatch to the *Herald* says:

The *Times* comments on General Butler's resolution welcoming the Irish exiles as an unprecedented proceeding. If serious, it can only be treated as an act of avowed hostility. It cannot, however, regard it as a more than part of a discreditable game pursued by unscrupulous politicians who are doing their best to reduce the character of the American representative Goverment and are anxious to secure the Irish vote."

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

BORDEAUX, Feb. 2.—Twelve opposition journals have protested against the decree issued by the Bordeaux Government on Tuesday providing for the disqualification from the privilege of election to the Assembly of members of families reigning over France since 1789, all persons who have acted as Imperial official candidates in past elections or held offices, whether senators or councillors of the state under the empire and prefects who have accepted office between the 2nd day of Dec. 1851, and the 4th of September, 1870.

A deputation from the *Le Journal* waited upon Jules Simon to day, and stated to him verbally the grounds on which the protest is based. Simon in his reply to the address, decclared that the decrees issued by the Paris Government on the 28th of Jany. abolished all disqualifications for the National Assembly, and he (Simon) would insist upon the execution of the Paris decrees.

At a public meeting held in the city to-day, a committee of public safety was nominated for the future government of France. It includes the names of Gambetta, Louis, Rochefort and Duportal.

News Condensed.

—One poultry fancier in California has 10,000 hens—roosters not counted.

—Miss Nilsson has just invested forty thousand dollars in the purchase of a warehouse in New York.

—Wendell Phillips, with his usual moderation and charity, calls Gov. Seward "an able and tricky vagabond."

—The United States last year produced ninety million gallons of molasses—ten millions less than the year before.

—Wolves enter the churches in Duluth. One weighing one hundred pounds was shot in the Second Presbyterian Church.

—The Canada Air Line, the Loop Line of the Great Western, is being pushed forward with great rapidity. Operations have been commenced in the neighborhood of Simcoe.

—In describing a new organ, a country editor says: 'The swell died away in a delicious suffocation, like one singing a sweet song under the bedclothes.'

'Woman is a delusion madam !'exclaimed a crusty old bachelor to a witty young lady. 'And man is always hugging some delusion or other,' was the quick reply.

A man who was told by a clergyman to remember Lot's wife,' replied that he had trouble enough with his own, without remembering other men's wives.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief. It soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

EXTRACT.—I consider FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES superior to any similar preparation yet offered to the public.
CHANDLER CRANE, M. D., Halifax, N. S.

It is really a good medicine, well adapted to build up the system and impart vigor of body and mind.—*From the St. John, N. B., Journal, 7th Dec.*, 1868.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Who is Mrs. Winslow !

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP," Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma,

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D,

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

Belleville, April 27, 1870. d305:w11

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no getter Cough or Lung Medicine in use.

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF

THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW

CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN

RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent,** continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, **and stop the process of decay and decomposition.**

CONSUMPTION, SCROFULA, Bright's **disease of the** KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the **use of the Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than 5 dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

---

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.

GODEY'S LADY'S BOOK

For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey,* is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chestnut Streets
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best **PETERS'** Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

We do not expect PETERS' **MUSICAL** MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. **MONTHLY** Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS--AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO., 37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

from the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and dysplasia of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids !

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* **Such agent for the purpose of cure, or removal of any settled disease, are utterly useless.**

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membrane of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied as *alterative,* (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As proof of this: You are seized with a Billious attack; Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effects of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary ?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse,*] the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly,* HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Billious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or [illegible] forms of Mercury, or, in fact, any remedy [illegible] will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from overdosing with Quinine, Arsenic, Mercury, bottled in [illegible] Cures and Private Practice [illegible] gorged liver, fat, spleen, disorde[illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but another disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to [illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirit will [illegible] equal in quantity, and superior in [illegible]

144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas [illegible] these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of Radway's Ready Relief [illegible] cents, as a Pain Remedy, and for family [illegible] will secure every household freedom [illegible] ness, and can be used for the [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] sickness, or accident takes place.

Painful Attacks when

Radway's Ready Relief,

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat. Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect; inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalap, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are new medines, prepared on new principles, and *Pills* [illegible] oure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$ 5 00
do	do	12 do	8 00

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.

MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

To SCIENTIFIC AND PRACTICAL AGRICULTURE.

By HENRY STEPHENS, F. R. S., Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven.

Two vols., Royal Octavo. 1600 pages, and numerous Engravings Price $7. By Mail, post-paid, $8.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent *Parlor Steel* engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publicatien.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 384 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS. GABRIEL.
Dentists,
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

FOR cheap printing go to "The Intelligencer" Office, Belleville.

Two Hands upon the Breast.

Two hands upon the breast, and labor is past.
Russian Proverb.

Two hands upon the breast,
And labor's done;
Two pale feet crossed to rest,
The race is won.
Two eyes with coin-weights shut,
And all tears cease;
Two lips where grief is mute,
And wrath at peace.
So pray we oftentimes, mourning our lot;
God in his kindness answereth not.

Two hands to work addressed,
Aye for His praise;
Two feet that never rest,
Walking His ways.
Two eyes that look above,
Still through all tears;
Two lips that breathe but love,
Never more fears.
So cry we afterward, low on our knees,
'Pardon those erring prayers; Father, hear these.'

Counsels for the Young.

Never be cast down by trfles. If a spider breaks his thread twenty times, twenty times will he mend it again. Make up your mind to do a thing, and you will do it. Fear not if troubles come upon you; keep up your spirit, though the day may be a dark one.

Troubles never stop forever
The darkest day will pass away.

If the sun is going down, look up at the stars; if the earth is dark, keep your eyes on heaven! With God's presence and God's promises, a man or a child will be cheerful.

Never despair when fog's in the air,
A sunshiny morning comes without warning.

Mind what you run after. Never be contented with a bubble that will burst, or a firework that ends in smoke and darkness. Get that which you can keep, and which is worth keeping.

Something sterling that will stay
When gold and silver fly away.

Fight hard against a temper. Anger will come, but resist it stoutly. A spark may set a house on fire. A fit of passion may give you cause to mourn all the days of your life.

He that revenges knows no rest,
The meek possess a humble breast.

If you have an enemy, act kindly to him and make him your friend. You may not win him over at once, but try him again. Let one kindness be followed by another, till you have accomplished your end. By little and little, great things are accomplished.

Water falling day by day,
Wears the hardest rock away.

And so repeated kindness will soften a heart of stone.

Whatever you do, do it willingly. A boy that is whipped to school never learns his lesson well. A man that is compelled to work cares not how badly it is performed. He that pulls off his coat cheerfully strips up his sleeves in earnest, and sings while he is at work is the man for me.

A cheerful spirit gets on quick,
A grumbler in the mud will stick.

Evil thoughts are worse enemies than lions and tigers; for we can keep out of the way of wild beasts, but bad thoughts win their way every where. The cup that is full will hold no more; keep your head and hearts full of good thoughts, that bad thoughts may find no room to enter.

Be on your guard, and strive and pray,
To drive all wicked thoughts away.

A Business Man's Advice to His Son.

Now, my boy, look here. You can't have me always with you, so try and bear in mind what I'm about to say to you, as you are commencing business on your own account. They say that one eye of the master does more work than both his hands. So mind your eye. Your schoolmaster taught you your alphabet, and showed you the difference between vowels and consonants. Now the less you have to do with the vowels I O U, and the more with the consonants L S D, the better. Chalk that up. Don't be too much given to pleasure; always prefer the Ledger to the Derby, and beef-steaks to sweep-steaks all the world over. Be very careful how you give your hand to an acceptance; if it be a three months' bill, why you may live to get over that; but if you offer your hand for acceptance to a lady, and she closes with you, and hold you at arm's length, it may be a serious lesson for life. Life's like a game at cards; so have no shuffling in your dealing, but try for honors, avoid tricks, and you will be called a trump; Gold is valuable; silver is useful, but, in the absence of both, brass will be found serviceable. Never let your business interfere with your meals, because it unsettles your digestion. Fix your dinner hour between 1 and 2, or it's 2 to 1 'twill be all sixes and sevens with you. Many healths are injured by drinking good ones to others; and few bad ones are cured by smoking. As soon as ever your business grows large enough for you to require help from others, prepare for complaint from your customers. Some people, make remarks about false teeth, false hair, and false eyes, but seem to think very little of a falsehood when used as a cloak to cover the defect. Boys are generally great torments in business; one by himself may do a little; set one to help him and they do nothing; add a third and it will take all one man's time to keep them out of mischief.

* * *

It was a woman who first prompted man to eat, but he took to drink on his own account afterwards.

A female lecturer said: 'Get married, young men, and be quick about it. Don't wait for the millennium, for the girls to become angels. You'd look well beside an angel, wouldn't you, you block-heads!'

The Orange Soiree.

The great facts of British History, by which Protestant ascendancy was achieved, can never be obliterated, and whatever may have been the efforts of pusilanimous politicians to dim their brightness or falsify their meaning, they still stand out conspicuously; and every lover of true liberty will contribute whatever of mind and energy he possesses to maintain the principles which are identified with these great historic incidents. The legislators of Britain prohibited the many vulgar and dangerous exhibitions which formerly took place on the fifth of November; but they can never efface from the Protestant heart the gratitude felt when the interpositions of a kind Providence are remembered as occurring on that day. Who that loves free institutions and an open Bible would wish to blot out the memories of 1690? "No Surrender!" once had a meaning, and from the banner of freedom must never be erased. Celebrate the Red letter day of English history; keep up the camp fires of civil and religious freedom. Now, as much as ever, there is need for the diligent exercise of every right which free born men possess.

A social Soiree, by the Orangemen of this town, came off last Thursday evening. It was a pleasant and agreeable entertainment. The Town Hall was most beautifully decorated. The tea, coffee and edibles were, for variety and excellence, not surpassed. The company was select and orderly, and would have been numerically larger but for the extreme severity of the weather. The music was of the choicest and the best, and it would be difficult to decide which was the sweetest and most effective, the violin performances or those on the brass instruments. The chair was occupied by S. S. Madden, Esq. It was to all, a matter of very great regret that Grand Master Bowell was unavoidably absent, and the reasons were assigned. On the platform there was a sufficiency of speakers. Each in his own way addressed the audience either amusingly or profitably. The Rev. John Scott was first called, and the others followed in order, viz: Thos. Flynn, Esq., T. W. Casey, Esq., Rev. J. D. Beil; Rev. Wm. Scott, and Mr. John Bennett Anderson. The great theme of the occasion was the necessity of sustaining the Protestantism of the nation in all her wide spread dependencies. The meeting, if not very enthusiastic, was certainly cheerful and hearty in its responses to sound sentiments of British loyalty and Protestant principles. About eleven o'clock the company retired, well pleased with the entertainment, and hoping for a repetition as soon as convenient.—*Napanee Standard.*

Mary and Her Little Lamb.

Everybody has been pleased with the little poetic story of Mary and her little Lamb, which began with:

"Mary had a little lamb
With fleece as white as snow,
And everywhere that Mary went
The lamb was sure to go.

There are other versions of this little story. This is one of them, believed by the author to be correct:

Mary had a little lamb,
Tied to a little string,
And every time that Mary pulled,
Oh! how that lamb would sing.
She hauled the lamb to school one day,
And made its neck so sore,
It kicked, and rolled, and broke its heart,
And died upon the floor.

However it is wrong. The true version as amended is:

Mary had a little lamb,
Whose fleece was white as snow,
And everywhere that Mary went
The lamb it would not go.
So Mary took the little lamb,
And beat it for a spell;
The family had it fried next day—
And it went very well!

The latest attempt to improve the pathetic poem, contributed by a lady, is an ignominious failure. It begins thus:

Mary had a little lamb,
She laid it on a shelf;
And every time it wagged its tail,
"You know how it is yourself."

And there is still another, but it's authenticity is doubtful:

Mary had a little lamb,
It jumped up to the sky,
And when it landed on its feet,
Cried, "How is that for high!"

WHAT WOMEN REALLY WANT.—In an article under the above news, in the New York *Independent*, Gail Hamilton says:—Judging from what we hear, one would suppose that the great and crying want of woman is work; or, as is sometimes put, a fair day's wager for a fair day's work; or, again, freedom to do whatever she is capable of doing. This is not so. What women want is not work, but the wages of work; not freedom to work, but freedom to receive money without working. There is plenty to do now; but they will not do it. They wish to live like women and be paid like men. It has been dinned and dinned into the ears of women that the place where they are wanted is the kitchen; but into the kitchen they will not go. They are sorely wanted in the sewing-room; but the sewing-room is to them an abomination. Sick-nursing is an occupation the most honorable, important and remunerative. The demand for nurses is constant and urgent. I am amazed, I am indignant to hear this outcry for a wider sphere and greater opportunities for woman, while her sphere is already a thousand times wider than she spans, and her opportunities a thousand fold greater than she has ever attempted to measure. Every sphere under the sun is open to her but the do-nothing sphere.

Rules for Growing Old.

I am now an old man. I have seen nearly a century. Do you want to know how to grow old slowly and happily? Let me tell you. Always eat slowly—masticate well. Go to your food, to your rest, and to your occupation, smiling. Keep a good nature and a soft temper everywhere. Never give way to anger. A violent temper wears down the constitution more than a typhus fever. Cultivate a good memory, and to do this you must always be communicative; repeat what you have read; talk about it. Dr. Johnson's great memory was owing to his communicativeness. You, young men, who are just leaving college, let me advise you to choose a profession in which you can exercise your talents best, and at the same time be honest.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.

GOING EAST.

No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m:	6:20 a m.
Stirling, Marmora, Harold, &c	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Rednerville, &c., every Tuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

J. H. MEACHAM,
Post Master.

S. M. PETTENGILL & Co.,

Daily Intelligencer.

BELLEVILLE, SATURDAY, FEB. 4.

DONATION OF $50.—The Grand Trunk Railway Company have presented the Fire Company, of which Mr. James Cummins is Captain, with the sum of $50, as a slight compensation for the services rendered at the Brighton accident a few days ago. The donation was well deserved.

THE HASTINGS CHRONICLE.—We omitted to notice that our contemporary, the Hastings *Chronicle*, this week came out in a new dress, which greatly improves its appearance. We are glad to notice this evidence of our contemporary's prosperity, and trust it may go on and prosper.

GRAND LODGE OF ONTARIO EAST.—The annual meeting of the Provincial Grand Orange Lodge of Ontario East will be held in Brockville on Tuesday, 21st inst. The Grand Trunk will convey delegates at half fare, and arrangements have been made with the principal hotels in Brockville to accommodate delegates at reduced rates.

THE VACANCY IN THE SENATE.—The Ottawa *Citizen* of the 3rd inst says: "It is understood here that the vacancy in the Senate, caused by the death of the Hon. John Ross, will be filled by the Hon. Robert Read, the member for East Hastings in the House of Commons. Mr. Read sat in the Legislative Council of the late Province of Canada from 1862 until the union of 1867."

THE REV. WM. STEPHENSON OF OTTAWA.—Our readers will lose a rich intellectual treat if they fail to hear the above named gentleman on next Thursday evening. Mr. Stephenson has a provincial reputation as a lecturer. The lecture which he has been asked to deliver here is considered his masterpiece. The subject "Woman, her position and Influence" is one which in these days of "Woman's rights" agitation, cannot fail to be interesting. The lecture has been delivered in the United States with great success. We bespeak for the Young Men's Christian Association who with characteristic enterprise at great expense, are bringing these first-class lecturers here, for the lecture, and for his subject a large attendence.

Sarepta RoyalBlack Preceptory No. 153.

At the annual convocation of this Chapter, held in the Orange Hall, Belleville, on Friday evening, February 3rd, the following Sir Knights were elected office-bearers for the ensuing year:—

Sir Knight Geo. J. Potts, M. D., W. M.
" W. H. Scholes, D. M.
" Wm. McCreary, C.
" H. L. Bottoms, R.
" James Macoun, T.
" Geo. D. Dickson, } L's.
" F. M. Clarke, }
" J. P. Stanton, } C's.
" H. J. Lott, }
" Thos. Good, Pur.
" Arthur McGinnes, Ty.

COMMITTEE.—Sir Knights W. H. Hudson, John Wessels, Joseph Suttle, W. H. Graham, J. Lochlin, H. P. Wyman, James McCrudden.

The "Honored Dead."

The Brockville *Recorder*, the oldest Reform paper in the country, and edited by Mr. Wylie, refers as follows to the question involved in the treatment meted out while living to the now "honored dead":

> "History reproduces itself. What then, if the Hon. John S. Macdonald be yet held up as one of 'the Honored Dead.' The following article from the London *Free Press* will show what the *Recorder* sought for in 1857, when the Reform party was just as it had been since the Confederation-Coalition was entered into by Mr. Brown—pretty much scattered and peeled. Mr. Baldwin, the most honored and honest politician Canada has yet produced, was under the ban of the *Globe*. The *Recorder*, to the best of its ability, defended Mr. Baldwin from the attacks made upon him. Mr. Baldwin is now dead, but his virtues live after him, and his name was emblazoned on the walls of the Music Hall, Toronto, at the late Reform dinner, and the Hon. George Brown, who had previously denounced Mr. Baldwin, pointed to his name as one of the 'honored dead.' Sanfield Macdonald is at present going through the calumny mill, being abused as Mr. Baldwin was; but as history reproduces itself, when John Sandfield Macdonald lies under the clod, some of his present defamers may play the part Mr. Brown has played, and will point to Mr. Macdonald's name as one everyway worthy of being numbered with 'the honored dead.'"

A boy was sent by his mother to saw some stove-wood out of railway ties. Going out doors shortly after, she found the youth sitting on the saw horse, with his head down. The mother asked her hopeful son why he was cast down, and why he didn't keep at his work. The boy replied: "My dear mother, I find it hard, to sever old ties"

Mr. Blake's Buncombe Motion.

Mr. Blake brought up his buncombe motion respecting the murder of Scott in the House yesterday, and must have felt considerably chagrined at the result. He fancied that upon a question in which the people of Ontario have such a deep interest, he would have obtained a sufficient number of ministerial votes to have defeated the Government. But he reckoned without his host. The friends of the Ministry were not to be caught with such chaff. The members of the Government and their supporters deplore the murder of poor Scott much more deeply than Mr. Blake and the Grits of Ontario. They have in their individual capacity, at public meetings, in the Dominion Parliament, and in many other ways, denounced the conduct of the rebels in Red River, lamented the murder of poor Scott, and demanded the punishment of his murderers as warmly and as earnestly as members of the Ontario Opposition. They are in hearty sympathy with the feeling which prevails everywhere in Ontario that the murderers of Scott should not go unpunished, and that every possible means should be taken to bring them to justice. But the Ontario Legislature have no more to do with the troubles in Red River than they would have with the domestic troubles in Nova Scotia, New Brunswick, Quebec or Vancouver's Island, and Mr. Blake well knew he was travelling out of the record when he introduced his resolution into the Ontario Legislature. Whatever grievances there have been or may still exist in that country, should be listened to and disposed of by the proper tribunal. The crimes connected with the Red River rebellion were committed outside the territorial jurisdiction of Ontario, and the Legislature of Ontario in its official capacity has no more to do with the murder of Scott than they would have with any murder which might take place in British Columbia or any other part of the British Dominions. It was purely a buncombe motion made to create political capital on the eve of a general election, and it is gratifying to know that its author utterly and completely failed in his object.

Hon. Mr. Cameron introduced an amendment, which goes as far and farther, than Mr. Blake's resolution, and was carried by a vote of 47 to 28. The amendment reads as follows:

> "Resolved—That all after the word 'that' in the said resolution be struck out and the following inserted in lieu thereof: While this House deeply deplores the untimely fate of our fellow-countryman, Thomas Scott, while exercising his right as a British subject, and while deeply regretting that Riel and his co-murderers have as yet escaped condign punishment, and while this House rejoices in the efforts made by the Lieutenant-Governor of Manitoba in issuing warrants for their arrest, and while we feel it to be our duty as representatives of the people individually to lend our aid in bringing those murderers to justice, it feels that it would be unwise and inexpedient to interfere with the prerogative which properly belongs to another government, and to discuss a question over which this House has no control."

Those who spoke against Mr. Blake's motion were as hearty, and more outspoken, in their condemnation of the murder of Scott as any of his supporters. But they knew the resolution was altogether out of place in that House, and very properly voted it down. There are questions connected with the government of Manitoba which will very properly come before the Government, and we have no doubt there will be a searching enquiry made into these matters during the next session of the House of Commons. That is the tribunal to which Mr. Blake should carry his complaint, and where the questions connected with the administration of affairs in Red River can be thoroughly investigated.

Terrible Fire in Cobourg.

LOSS ABOUT $140,000.

PARTIALLY INSURED.

Special telegram to the Intelligencer.

COBOURG, Feb. 4.

A fire occurred here this morning about 2:30. It originated in the rear of the store occupied by P. McCallum. It spread westward to the Telegraph and Express offices, and eastward to McCallum & Sons dry goods, Jeffery's & Co., hardware merchants, and the Bank of Toronto, completely destroying the whole block. McCallum & Co's. loss is estimated at about $60,000; insured for $20,000. Sutherland & Co's. loss is $35,000; insured for $8,000. Jeffery & Co's. loss is $28,000; insurance not known. The Bank of Toronto saved all their valuables and papers. Jeffery & Co. saved about half their stock in the warehouse. The contents of the retail store are a complete loss. The Montreal Telegraph and Express Companies offices contents were saved, though slightly damaged. McCallum owned three stores, and Jeffery owned their own and the Bank of Toronto building.

News Condensed.

—Cariboo flesh is advertised for sale in Quebec.

—The Canal Commissioners will re-assemble on the 21st inst.

—Sickness prevails to a great extent in the Ottawa shanties.

—The wolves are driving deer in great numbers to the Ottawa river.

—D. McFarland, a farmer in Otonabee, committed suicide on the 27th Jan.

—Bartley's Engine Works in Montreal were totally destroyed by fire on the night of the 2nd inst. Loss heavy.

—It is rumored in Kingston that Dr. Barker is to be appointed Registrar, and Mr. Strange as Police Magistrate.

—The Ottawa 'Citizen' says: "Cards have been issued for an 'at home' on the evening of the 15th inst., at Lord Lisgar's."

THE GRAVE.—It buries every error—covers every defect—extinguishes every resentment. From its peaceful bosom springs none but fond regrets and tender recollections. Who can look down upon the grave of an enemy, and not feel a compunctious throb, that he should have warred with the poor handful of earth that lies mouldering before him?

NEVER SULK.—Better draw the cork of your indignation, and let it foam and fume, than to wire it down to turn sour and acid within you. Sulks affect the liver, and are still worse for the heart than the soul—Wrath driven in is as dangerous to the moral health as suppressed small pox to the animal system. Dissipate it by reflection on the mildness, humility and serenity of better men than yourself suffering under greater wrongs than you have ever been called upon to bear.

Around Town.

The School Trustees meet on Tuesday night.

Cold in the head is the prevalent disorder at present.

The Townsend theatrical troupe appear at the Masonic Music Hall on Monday night.

The book store windows are already being decked with billets for the Valentine season.

Sidewalks require to be cleared of ice in many parts of the town, especially on the hills.

The officers elected at the last meeting of the Good Templars, will be installed on Monday night.

The annual meeting of the Gas Company, for the election of Directors, will be held on Monday evening.

Grain continues to be brought in very slowly. The market has been duller of late than for years past.

The Orange County Lodge of South Hastings is to meet at the Orange Hall Belleville, on Tuesday next.

It's about time that the ice should be cleared from the sidewalks on the bridges. Travelling on them now is difficult.

Wood was scarce on the market this morning. Dry hardwood, especially, was difficult to procure.

The Town Hall is still in the condition of a smoke house. Can't those chimneys be made to draw?

The usual monthly meeting of the St. George's Society, will be held on Thursday evening next at the Marble Hall.

The church-door loafing nuisance has been played out lately. Young men can't stand the cold, however warm their feelings.

Numbers of horses were standing untied on the streets to-day. The law in this respect ought to be enforced.

Another "cold snap" set in last night, accompanied by a fierce wind, which still prevails, and renders out-door exercise anything but pleasant.

Mr. Wilton, the comic singer, had a benefit concert and variety entertainment at Ontario Hall last night. The affair was largely attended.

Spite of the intense cold, there were a large number of country people in town, doing their "trading." Business was about up to the average.

At the Police Court to-day, there were no cases. The matter of Cronk vs. Coburn—assault—laid over from yesterday, was not decided, owing to the non-appearance of the parties. Judgment will be given on Monday.

The annual Missionary Meeting in aid of the mission funds of the Diocese, is to be held in St. Thomas' Church on Monday night, at 7 o'clock. Several Ministers will address the meeting, to which the public are invited.

The annual meeting of the Belleville branch of the Upper Canada Bible Society, is to be held in Ontario Hall on Tuesday evening next. Rev. J. G. Manly, of Toronto, and several resident ministers will deliver addresses. N. Jones, Esq., is to direct the choir.

On Wednesday evening next there is to be a grand fancy dress carnival at the Victoria Skating Rink. As there have not been any entertainments of this description for some years past, this carnival ought to be a success. The band of the 15th Battalion will be present.

The Literary Society of Albert College intends giving an entertainment in Ontario Hall on Friday evening next. There will be a debate on the question of "Coalition of Parties in a Government is injudicious." Readings, music, &c., make up the balance of a well-filled programme.

The second lecture of the course to be delivered under the auspices of the Young Mens' Christian Association, will be given by Rev. Wm. Stephenson, of Ottawa, in Ontario Hall, on Thursday evening next, on the subject of "Woman, her position and influence." The fame of the lecturer ought to draw a crowded house

It will be worthy of note that there will be a full moon in the first week of each of the first seven months of the year. In July there will be two full moons, on the 2nd and 31st, and in the remaining five months the moon will be at the full in the last week of each month. It will probably be many years before this will happen again.

Children and Newspapers.

A school teacher who had enjoyed the benefit of a long practice of his profession and had watched closely the minds of a family of children, states, as the result of observation, that without exception, those who have access to newspapers at home, when compared with those who have not are:

1. Better readers, excelling in pronunciation and consequently reading more understandingly.

2. They are better spellers and define words with ease and accuracy.

3. They obtain a partial knowledge of geography in almost half the time it requires others, as the newspaper has made them familiar with the location of important places and nations, their governments and doings.

4. They are better grammarians; for, having become familiar with every variety of style in the newspapers, from common place advertisements to the finished and classical oration of the statesmen, they more readily comprehend the meaning of the text, and consequently analyze its construction with accuracy.

5. They write better compositions, using better language, containing more thoughts, and expressing them more clearly.

From these simple facts, three important things can be deduced:

1. The responsibility of the Press in supplying literature which shall be understandingly expressed.

2. The absolute necessity of personal supervision of a child's reading by his parents.

3. Having once obtained a good paper, no matter what the price, don't begrudge it a hearty support.

The editor of the Williamsport *Gazette* and *Bulletin* is bothering his head over the following problem: If 4 dogs with 10 legs can catch 29 rabbits with 87 legs in 14 minutes, how many legs must the same rabbits have to get away from 8 dogs with 83 legs in 171·2 minutes, allowing 365 days in a year.

To the Editor of the Daily Intelligencer.

That Libel.

SIR,—In referring to the prosecution for libel before me yesterday, the Editor of the *Ontario*, among other things, complains that "The prosecuting Attorney, Mr. R. P. Jellett, was himself named in that communication as one of the illegal voters, and it is said the Police Magistrate was at the Polls actively interested in the same behalf."

In behalf of what? The plain answer in English can only be that I was actively interested in behalf of the alleged illegal voters. If the Editor of the *Ontario* does not mean to have this inference drawn, he evidently does not understand the English language, at least he does not know how to write it.

I have a simple answer to make to this calumnious charge. There is not a word of truth in it. I went to the polls and voted for Mr. Falkiner, the man of my choice, having a legal right to do so, being a free-holder in the Ward and rated therein. Mr. Jellett is also a freeholder in the same Ward, but I leave him to answer for himself.

The *Ontario* talks about having "a mission to perform." That mission appears to be to defame individual character, and my own case is only a sample of that kind of employment. Being on a mission, the editors and publishers look upon themselves as martyrs when the machinery of the law is employed to embarrass their beneficent career. And the editor speaking for the firm, says: "If the public press is to be stifled in this way, if editors are to be dragged before police magistrates where they have no chance of offering a defence, then the sooner we disclaim free institutions the better." Others might with greater propriety reply, if "free institutions" permitted publishers of newspapers who do not seem to have any regard for the rights or feelings of other people to vilify and libel private individuals just as their spite and malice dictated, emphatically, the sooner "free institutions" are disclaimed, the better. It is a strange thing that some people cannot, or will not distinguish between the *liberty* and *license* of the press.

The thieves of London and the *gamins* of Paris no doubt look upon the laws which punish theft, as a great hardship, interfering greatly with the liberty of the subject. The laws relating to libel appear to be viewed with the same disfavor by the publishers of the *Ontario*.

They complain that a warrant was issued; it was done because it was prayed for, and I did not think I had the right to refuse, and I find that such is the practice elsewhere. But as the Chief of Police will corroborate, when I handed him the warrant for execution, I desired him to do his duty in the most delicate and least offensive manner, and I am quite certain he carried out his instructions.

Yours &c.,
A. DIAMOND.

Belleville, Feb. 4, 1871.

To the Editor of the Intelligencer.

Why are not Lectures better Attended.

The question, Why are not lectures better attended in Belleville? is one which is frequently asked, and which is generally answered as follows: "O, the fact is the tastes of the public don't lie in that direction. If you will promise that the lecturer will stand on his head when he is done, or intersperse his lecture with a comic song, you may draw a house, but to expect them to pay 15 or 20 cents to listen to anyone, for an hour or so lecture on any historical or other subject from which instruction may be derived, is out of the question." Now I demur from that opinion. I think the reason why lectures are not better attended may be found in the fact that so many persons, designed neither by nature or education for such a position, have either been brought or come on their "own hook" and have so miserably failed, that the people have got suspicious, and very properly avoid again getting "sold." In proof of my position when have *first class* lecturers come here and failed to draw a house? When the Rev. Morley Punshon lectured here did he not draw a large audience, (which would have been treble what it was if the admittance had been at half the price) and when the Rev. Joseph Wild has lectured has he not always filled our largest hall? It is absurd to expect that people will pay to hear a man who is not known as a *lecturer*, out of his own (and sometimes not even there) immediate neighborhood. The Young Men's Christian Association have evidently looked at this side of the question, and are now bringing men who have earned a reputation as *lecturers*. The attendance at Mr. Pearson's lecture was certainly not large, but then it was his first visit here, and this is his first season as a lecturer. He has now earned a reputation here which cannot fail to draw a large audience when he next honors us with a visit. If all our societies would follow the example of the Y. M. C. A., in the class of men they get to lecture for them, public confidence would be restored, and large audiences would greet talented men.

A LECTURE GOER.

Belleville, Feb. 4th, 1871.

GAS COMPANY.

THE Annual Meeting of the Stockholders of the

BELLEVILLE GAS COMPANY,

For the election of Directors for the ensuing year, will be held at the office of the Secretary, on

Monday, 6th day of February,

At 12 o'clock noon.

JAS. GLASS,
Secretary.

January 25th, 1871. 226:td

NOTICE.

The balance of our

Winter Stock

WILL BE

SOLD AT COST.

WE have on hand a few good Overcoatings, also a few best Tweeds, Gloves, Scarfs, Flannel Shirts, &c., &c.

Come and See for Yourselves.

ROBERT DICK.
Dr. Lister's Block, opposite the Dominion Hotel, Front Street.
Belleville, Feb. 1, 1871. 158

CAUTION.

MY Wife, Mary Ann C. Cronk, having left my bed and board without just cause or legal provocation, I hereby forbid any person or persons to trust her or give her any credit on my account, as I shall not pay any debts or liabilities that she may incur on my account.

And I also hereby forbid any person or persons harbouring or detaining her, or encouraging her in living away from my own residence in Belleville, to which she is welcome to return at any time she desires to do so.

JACOB CRONK.

Morning Despatches.

Emperor to leave at the close of the Armistice.

The Programme, if War is Continued.

Condition of Paris Terrible.

Populace Excited Against England.

Appaling Evidence of the Bombardment.

Paris on the verge of Starvation.

Supplying Paris with Bread.

Prussian Troops Violate the Truce.

VERSAILLES, Feb. 1.—The Emperor leaves the army at the close of the armistice. Should war be proclaimed it will be pursued relentlessly. Prince Frederick Charles, Manteuffel and Falkenstein are to be entrusted with the task of conquering the south.

Moltke will retain supervision, but a large amount of discretion will be allowed the actual commanders.

The condition of Paris is terrible. The populace are violently excited against England.

Jules Favre has requested the German authorities not to allow any Englishmen to enter. He considers their lives unsafe.

The interior of fort D'Issy is an appaling evidence of the bombardment. The barracks are absolutely ground to powder, but the defences are not materially impaired. D'Issy is stronger than Valerien, except in position.

Paris is on the verge of starvation; flour will be utterly exhausted on the 4th and horseflesh on the 7th. The Emperor is ordering flour to be sent from the mills of Corbeil and Chantilly. He has also ordered two millions of meat rations to be sent. The Versailles bakers are allowed to send one thousand four pound loaves daily.

LONDON, Feb. 3.—The Official Journal of Paris publishes a decree issued by Favre, providing for elections. It omits all the political disqualifications prescribed in the Bordeaux decree.

It is reported the Prussian troops, in violation of the truce, have entered Fecamps.

NEW YORK Feb. 4.—The World's special says a movement is on foot in the United States Senate to raise the Prussian mission to a first-class position. As far as mere talk is concerned it is now on an equal footing with the English and French missions, but the pay is only $12,-000. The pay proposed is to level this up to $17,000, the pay now received by Ministers to those Governments:

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 3.—The foreign office announces that an offer has been made to Bismarck and Favre to place English resources at their disposal for the supply of Paris with food. The arrangements are to be made under the superintendence of French and English agents.

BERLIN, Jan. 3.—The President of the Lower House of the Prussian Diet read to that body a reply from the Emperor to the loyal and congratulatory address presented to him upon the occasion of his assumption of the Imperial crown. The Emperor expresses his thanks to the Diet for the sentiments declared in their address and a fervent hope for the peace and prosperity of the new Empire. Though there is now, he says, some prospect that the severe struggle into which Germany was forced will soon be finished, it can as yet only be considered that there is ground for the hope for the re-establishment of peace. It is not impossible that the war will continue, and great sacrifices still be necessary from the German people.

LIVERPOOL, Feb. 4.—The steamer Erie, from New York, has arrrived.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief. It soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists: Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

EXTRACT.—I consider FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES superior to any similar preparation yet offered to the public. CHANDLER CRANE, M. D., Halifax, N. S.

It is really a good medicine, well adapted to build up the system and impart vigor of body and mind.—*From the St. John, N. B., Journal, 7th Dec.*, 1868.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

---

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47-2m

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma,

Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont 77:2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

Belleville, April 27, 1870. d305:w11

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no getter Cough or Lung Medicine in use.

COUNTY OF HASTINGS, } To Wit: } BY VIRTUE of two Writs of Fieri Facias, issued out of the County Court of the County of Hastings, and to me directed and delivered at the suits of Henry I. Thorp, Plaintiff, *vs.* James D. Davern, Robert Weller and Charles Davis, Defendants; and David Pitceathly and Thomas Kelso, Plaintiffs, *vs.* J. D. Davern, Defendant; I have seized and taken in execution all the right, title, interest and equity of redemption of the said James D. Davern, of, in and to all and singular that certain parcel or tract of land and premises situate, lying and being in the Village of Trenton, in the County of Hastings, and Province of Ontario, containing by admeasurement about one-tenth of an acre of land, be the same more or less, being composed of a triangular lot of land situate at the corner of Ferry Street and Old Road, and on the west side of said Ferry Street, according to a Survey and plan thereof, made by one F. P. Rubridge, D. P. L. S., in 1834, which said plan is registered in the Registry Office for the County of Hastings. All of which lands I shall offer for sale in my office, in the Court House, Belleville, on SATURDAY, the 11th day of FEBRUARY, 1871, at the hour of twelve o'clock, noon.

GEORGE TAYLOR,
Sheriff.

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials
The most reliable Commercial Reports,
The fullest Telegraphic Despatches,
The best Local News,
The most reliable Legal Intelligence,
The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted.
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the reparative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, **Bright's disease** of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands, Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine, Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of **Radway's Pills**, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctoring for nine years, and cured at a cost of less than ten dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills.** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats, Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered.
JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies.	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA,

Carratraca Mineral Waters,

FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fulness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building, Front Street

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS'

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS--AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞1,500 Cash Prizes.☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. Address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

orom the earliest stage of female suffering from RetenPFrof the Catamenia, through all the troubles and disyaica of the Womb, Uterus, Bladder, Kidneys, Supbeyssions, Irregularities, Leucorrhœa, Hemorrhages, ndisteria, Chlorosis, Cachexia, Bab Habit of System, iHseness, or Weakness of Blood, and all painful symption, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured sesRadway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents, for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing a THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration, inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills.

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only perfect *Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that three* or more prescriptions are given for, without running any risk from mercurialising or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse*, the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue or preparation of Quinine, Arsenic, or [illegible] forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in [illegible] Cures and Private Practice, [illegible] engorged liver, fat, spleen, disordered kidneys, [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but another the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, [illegible] Bilious Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to $3, and [illegible] Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's Ready Relief** [illegible] diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pains, Killers, Embrocations, Panaceas, Kings, &c. all of these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of **Radway's Ready Relief**, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics,
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[*Viz: Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacoepia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmacoepiatists, physioligists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are new medines, prepared on new principles, and *Pisqili* ll ouresick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:

THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.

MONTHLY:

Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00 per annum
For any two of the Reviews, - -	7.00 "
For any three of the Reviews, - -	10.00 "
For all four of the Reviews, - - -	12.00 "
For Blackwood's Magazine, - -	4.00 "
For Blackwood and one Review, -	7.00 "
For Blackwood and any two of the Reviews, - - - - -	10.00
For Blackwood and three of the Reviews, - - - - -	13.00 "
For Blackwood and the four Reviews,	15.00

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

Two vols., Royal Octavo. 1600 pages, and numerous Engravings Price $7; by Mail, post-paid, $8.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

J. A. HARTE, Druggist,
Glasgow Drug Hall,
400 Notre Dame Street.
Montreal, June, 1870. 45

OTTAWA HOTEL,
St. James & Notre Dame Sts., Montreal, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

THE DAILY INTELLIGENCER

Call and inspect the Stock before purchasing.

H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 32-tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other.

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publicatien.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. White having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers, - -	$ 5.00
Club of 10 " - - -	8.00
Club of 20 " - -	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

FOR cheap printing go to "The Intelligencer" Office, Belleville.

The Poor Player at the Gate.

[Written and spoken for the Holland Testimonial at Wallack's, the Fifth avenue, Niblo's Theatre, and the Academy of Music, by George Vandenhoff.]

Wisely good Uncle Toby said,
"If here, below, the right we do,
'Twill ne'er be ask'd of us above,
What coat we wore, red, black or blue."

At Heaven's high Chancery gracious deeds
Shall count before professions,
And humble virtue, clad in weeds,
Shall rank o'er rich possessions.

So the poor player's motley garb,
If truth and worth adorn it,
May pass unchallenged through the gate,
Tho' churls and bigots scorn it.

The Lord of love, the world's great Light,
Made Publicans his care,
And Pharisees alone demurred
That such his gifts should share.

But still he held his gracious way
Soothing the humblest mourner,
For ever bade one sinner seek
For comfort "round the corner."

The woman that in sin was ta'en,
Bowed down with guilt and shame,
Found pity in that breast divine
That knew no taint of blame.

The Pharisees all gathered 'round
To taunt, revile and stone her,
He bade her "go and sin no more"—
His mercy would atone her.

He raised from death the widow's son,
Nor asked his trade profession;
Enough for him a mother's faith
In His divine compassion.

He healed the palsied, halt and blind,
Nor left one heart forloner;
He never bade them go and find
A doctor—"round the corner."

Some modern saints too dirty are
To walk in paths like these;
They'd lock the gates of heaven on woe,
If they but had the keys.

The widow's friend asks prayers o'er him
From whom death's hand has torn her;
The saintly man refers him to
"The small church round the corner."

What is there in the player's art
Should close the fount of love?
He who on earth plays well his part
May hope a seat above.

The lessons he has wreathed with smiles,
The hearts his mirth made lighter,
Shall plead like angels' tongues for grace,
And make his record brighter!

And though *not nearest to the Throne,*
Yet sure the lowliest born, or
The actor in the veriest barn
May find in heav'n *a corner.*

All honor to the little church,
And to its gracious Pastor,
Who in his heart the lessons kept
Taught by his heav'nly Master!

And when this fleeting scene is past
To sinner, saint and scorner,
Let's hope we ALL shall find, at least,
A bright home round the corner!

"Words and Their Uses."

From Richard Grant White's new volume, bearing the above title, we quote a few paragraphs, showing a nice sense of discrimination, founded on practical views of the subject:

'Aggravate'—The word should never be employed in reference to persons, as it means merely to add weight to—to make an evil more oppressive by insult. It is sometimes improperly used in the sense of *irritate*, as 'I was much aggravated by his conduct.'

'Balance' in the sense of rest, remainder, residue, remnant, is an abomination. Balance is metaphorically the difference between two sides of an account—the amount which is necessary to make one equal to the other. Yet we continually hear of the balance of this or that thing, even the balance of a congregation or of an army!

'Bountiful' is applicable only to persons. A giver may be bountiful, but his gift cannot—it should be called plentiful or large. 'A bountiful slice' is absurd.

'Fetch' expresses a double motion—first from and then toward the speaker; it is exactly equivalent to 'go and bring,' and ought not to be used in the sense of bring alone.

'Calculate,' besides its sectional misuse for, 'think' or 'suppose,' is sometimes, in the participle form 'calculated,' put for 'likely' or 'apt;' 'That nomination is calculated' (designed) to do no such thing, though it may be likely to.

'Citizen' should not be used except when the possession of political rights is meant to be implied. Newspaper reporters have a bad habit of bringing it out on all occasions when 'person,' 'man' or 'bystander' would express their meaning much better.

'Couple' applies to two things which are bound together or united in some way. 'A couple of apples' is incorrect; 'two' apples is what is meant.

'Dirt' means filth, and is synonymous with earth or soil. Yet people sometimes speak of a dirt road, or of packing dirt around the roots of trees they are setting. They mean earth.

'Execute.' When a man is executed his sentence is executed, the man is not. A man cannot be executed— that is, followed out or performed.

'Expect' looks always to the future. You cannot expect that anything has happened or is happening, but only that it will happen.

'Get' means to obtain, not to possess. 'He has got all the numbers of the *Country Gentleman.*' 'Have you got good molasses?' 'They have got good manners.' Why will people persist in introducing the word in such sentences as these, where it is so evidently superfluous?

'Help meet.'—An absurd use of these two words, as if they together were the name of one thing—a wife—is too common. The sentence in Genesis is: 'I will make an help meet for him'—*i. e.* a help fit for him. There is no such word as helpmeet.

'Lie'—'Lay.'—Persons not grossly ignorant sometimes say they will lay (meaning lie) down, that they have laid (lain) an hour, or that the hammer is laying (lying) by the tacks. Lie means to recline; its past tense is lay—'I lay there all night;' its participles lying and lain. Lay (used of present time) means to put something down—one lays a carpet; 'I laid it myself;' its participles laying and laid—'I was interrupted while laying it, and it was not all laid till night.'

'Love' rules the heart not the stomach. You love your wife, or ought to; but favorite articles of food you like.

'Observe' should not be used for say, as in the oft-heard sentence, 'What did you observe?'

'Sit,' often mispronounced set, is occasionally written so, but, it is to be hoped, rarely.

Daily Intelligencer.

BELLEVILLE, MONDAY, FFB. 6.

Clerk of Senate.—Robert Lemoine, now deputy clerk and clerk's assistant of the Senate of Canada, to be clerk of the Senate of Canada, vice J. F. Taylor, superannuated.

To-night.—Missionary Meeting at St. Thomas' Church, in aid of the Missionary funds of the Diocese.—Townsend's theatrical troupe at the Masonic Music Hall, in "Lost in London" and a new farce.

Revenue and Expenditure.—Statement of the revenue and expenditure of the Dominion of Canada for the month ended 31st, January, 1871:—Revenue customs, $589,086; excise, $342,290; post office, $57,131; public works including railways, $73,872; bill stamps, $13,694; miscellanous, $49,332; total, $1,085,315. Expenditure, $2,235,872.

Gas Company.—The stockholders of the Belleville Gas Company met to-day at noon, when the following gentlemen were elected Directors: Andrew Thomson, Hon. Lewis Wallbridge, J. H. Meacham, F. McAnnany and the Mayor. The Directors subsequently met and appointed F. McAnnany, Esq., President, and James Glass, Esq., Secretary.

Senate.—The following appointments appear in the official *Gazette* of Saturday, Feb. 4th: Hon E. Perry, of Cobourg, in the Province of Ontario, vice the Hon. G. Crawford, deceased; Frank Smith, of the city of Toronto, in the Province of Ontario, vice Hon. W. McCrea, resigned; and E. Churchill, of Hansport, in the Province of Nova Scotia, vice Hon. J. H. Anderson, deceased, to be members of the Senate of the Dominion of Canada.

Bible Society.—The annual meeting of this important Society, the interests and field of labor of which are ever expanding, is announced to be held in Ontario Hall to-morrow evening, when the annual report will be submitted, and the election of officers take place. Rev. J. G. Manly, of Toronto, and other Ministers and gentleman will address the meeting, while an efficient choir, under the able direction of N. Jones, Esq., will furnish the music. A large attendance is desirable.

Church Dedication.—On Sunday, 5th inst., the new Wesleyan brick Church at Wallbridge (Sidney Town Hall) was dedicated to the service of God. Sermons were preached at 10½ a. m. by Rev. E. Wood, D. D.; at 2½ p. m. by Rev. G. R. Sanderson; and at 6½ p. m. by Rev. N. R. Willoughby M. A. The Church was crowded on each occasion to its utmost capacity, and a large sum was realized by the collections taken up. The Wesleyans resident in the vicinity may now be congratulated on the possession of what they have long required —a handsome and substantial church edifice. A tea-meeting will be held in the church on Tuesday evening, when addresses will be delivered by several prominent ministers and gentlemen.

Wesleyan Missions.—Sunday next promises to be a day of more than common interest to the Wesleyan Methodists and other Protestant denominations of Belleville, as two celebrated preachers are to deliver discourses on that day in the Wesleyan Church, Bridge Street. Rev. Wm. Stephenson, of Ottawa, will preach in the morning, and Rev. W. M. Punshon, M. A., in the evening. These sermons are in aid of the mission fund, to which a liberal contribution is expected. On the following evening the anniversary meeting will be held, when Rev. Messrs. Punshon, Stephenson and A. Browning, will address the meeting. It is scarcely necessary to counsel our readers to attend these meetings, as, with less attractions on previous occasions, the church has always been crowded.

Agrarian Outrages.—The murderous spirit which prevails in some parts of Ireland does not appear to have been set at rest by Mr. Gladstone's land bill. We learn, from a private letter, received by a gentleman in town, the particulars of three murders which have lately taken place in Ireland, in two of which cases the crime was supposed to be chargeable to evictions under the land law. Two of these parties, Mr. Con Fox and Mrs. Moran, were shot while going to mass, near Clara, King's County. The third murder occurred near Mulringan, in the County of Westmeath, the victim being a Sergeant of Police, who was shot dead while taking a walk on the outskirts of the town. None of the assailants had, so far as was known, been arrested, as they had taken measures to effect their escape before bringing down their victims, who, in each instance, were shot from behind secure places of concealment.

A Picture of Comfort.—What a cheery, comfortable-looking place is that wooden shed on the Wood Market, which stands to the south of its companion sheds, all erected last year! It has been securely boarded up, a stove, with plenty of fuel, has been introduced; a pleasant-looking smoke curls upwards from its—but we forgot, it has no chimney, but no matter, from the short piece of stove pipe which terminates flush with the roof and serves as a vent for the smoke. It is the very *beau ideal* of a "Shanty," and reflects much credit on the talented architect. The only unpleasing features in the smiling beauty of the picture are that the shed has been erected contrary to law, and that a dangerous and destructive fire might be caused by its continued use as at present. Therefore, though with extreme reluctance, we urge the Chimney Inspector and the Chief of Police to perform their duty in the matter, even at the risk of removing such an ornament from the street. Has the By-law against the erection of wooden buildings within certain limits any practical existence?

Fishery Seizure.—The Inspector of Fisheries, Charles Wilkins, Esq., seized a large amount of "pond and trap nets" on the 6th inst., belonging to some parties in Brighton, for a contravention of the Fishery laws. These parties have been fishing in the Bay of Quinte contrary to law, and had their traps seized in consequence. It is time these violations of the laws were put a stop to. Mr. Wilkins deserves the thanks of all interesed in the preservation of fish, for the energy he displays in the fulfilment of his duties.

Hen Thief.—Mr. Wm. Johnston, of the front of Sidney, on returning home from Belleville on Friday evening last, saw a man in his yard, who, at his approach, ran under a shed. On Mr. Johnston's inquiring his name and business, this person said his name was McLeod, residing at Baker's Island, and that he had gone under the shed to light his pipe and was on his way to Belleville on business. He was allowed to go, there being no help at hand to secure him. On Sunday morning, Mr. Johnston's son Charles found a bag containing three fowls, hidden under some cedar posts in the shed, which fowls were found to have been stolen from the premises of Mr. Richard Davis, adjoining. The bag had, doubtless, been left there by McLeod on Friday night. Farmers are warned to be on the look-out for McLeod and kindred characters.

Deaf and Dumb Institution.

Dr. Palmer, Principal of the Deaf and Dumb Institution, Belleville, is indefatigable in his endeavors to bring the benefits of the Institution under the notice of the people of the Province of Ontario. In view of this fact it is to be hoped that County Councils will lend their aid in forwarding the good work. The County Council of the County of Hastings has set a good example by providing for the maintenance of deaf mutes in the County, at the expense of the County. Let others follow this example, until the school is made free by the Province, which we hope will be done ere long, so that none of this class of unfortunates may grow up to the years of maturity in ignorance.

The following circular will show what information the Principal is desirous of obtaining:—

Dear Sir,—I respectfully ask your attention to a few remarks in behalf of the Deaf and Dumb of the Province of Ontario, for whose education and improvement this Institution has been established.

Having been appointed Principal, I desire to inform myself, fully, as to the number of this unfortunate class in the Province, of a suitable age to enter school, so that the necessary steps may be taken to secure their admission into the Institution.

As you have an extensive acquaintance in your county, you can, doubtless, ascertain whether or not there are any deaf mutes who should be sent here. As ample provision has been made, we are prepared to receive all Deaf and Dumb persons between the ages of *seven* and *nineteen*, who are not physically or mentally imbecile, and any information as to the terms of admission, &c., will be cheerfully given upon application to me by letter or otherwise.

In remote sections of the Province, many Deaf and Dumb persons grow up in total ignorance, simply because their parents or friends are either unaware of the advantages of instruction or because they are unwilling to dispense with their labor during the period in which they could acquire an education. Sometimes they are influenced by a prevalent and foolish notion, that their unfortunate offspring will not be properly cared for if sent to the Institution. Many of the parents, also, of this class are poor and know little or nothing of the provision which has been made for the instruction of their children. It is, therefore, important that special effort be made to secure the admission into the Institution of every one of these unfortunate persons.

I ask the aid of all good citizens of the Province of Ontario in this work. If they will interest themselves in the matter and see that all these afflicted children are sent here to be educated, we will then be enabled to accomplish the noble end for which this Institution was designed.

Please inform as to the name, age, condition, name of parents and Post Office, of any deaf mute within the limit of your acquaintance.

Very Respectfully,
W. J. Palmer,
Principal.

Belleville, Jan. 1871.

Ontario Legislature.

Friday, Feb. 3.

The speaker took the chair at 3:15. The business before recess was chiefly of a routine nature, or consisted of advancing the different Bills a stage that came before the House in their regular order.

It was agreed that there should be an afternoon sitting on Saturday, and that on and after Tuesday there shall be three sittings a day.

The House went into Committee on the School Bill, and passed clauses 32 to 34, with some trifling amendments.

The School Bill was again taken up by the House in Committee, and clauses 34 to 44 passed with amendments.

The House then adjourned at 12:15.

Meteorological Statement

BY MR. BURDON.

The Temperature on Saturday, 4th Feb., at 7 a. m., was 2° below zero.

The Temperature on Saturday, 4th Feb., at 1 p. m., was 1° below zero.

The Temperature on Saturday, 4th Feb, at 9 p. m., was 8½° below zero.

The Temperature continued to fall during the night, reaching its lowest point on Sunday morning, at 7 a. m., viz: 21° below zero.

The Temperature at 1 p. m., on Sunday, 5th, was 8° below zero.

The Temperature at 9 p. m., on Sunday, 5th, was 6½° below zero.

During the night it fell to 12° below zero, as shown by the self-registering minimum thermometer.

On Monday, at 7 a. m., it was still about 12° below zero,

And on Monday, at 1 p. m., it was 1° above zero.

Police Court.

(Before A. Diamond, Police Magistrate.)

Monday, Feb. 6.

VAGRANCY.

Adelia Schuyler, a vagrant from Prince Edward, was sent to gaol, at her own request, for 30 days.

FINED.

The Magistrate gave judgment in the case of Cronk *vs.* Coburn, fining defendant $2 and costs.

French Correspondence.

Abbeville, Jan. 14.

It is felt that no attempts at fixing up a peace will be made till Paris falls. But if Germany is not prepared to relinquish Alsace, &c., and France rests firm to fight on, what peace can be expected? Is there any neutral power or powers prepared to stop the carnage by force—if so, let such appear, or forever hold their peace. The war will end either when Germany is driven out of France or the Gauls exhausted. Not an hour earlier—so there is no use of good people being deceived. I notice no desire on the part of either combatant to come to an understanding, because the conditions of such do not exist. I observe the war is daily assuming the characters of border raids, and Mohican revenges—of preparations, not for a speedy termination, but for a prolongation of the struggle. France can yet afford to expend millions of money and thousands of men on the chance of reducing the terms of German aggression, and when her people are united as one to so resist, it ought to induce modesty in those who beg her to cave in. It is not a position where Prussia can say, "Brother Peachum, we are both in the wrong."—France made that honest confession on her part in September last, but Prussia had no intention of granting forgiveness—if she cannot kill she will do all that is possible next to it—towards her foe. Threatened folks live long, and though nations have battled on their knees, they have regained their feet. There is many a slip 'twixt the cup and the lip.

The forts of Paris have now been nearly a fortnight bombarded—none have been yet taken, nor is the loss in life or damage to the defences anything serious. The besiegers must adopt other measures or pound away till the crack o' doom. In close quarters the death-grips will be more terrible, and the besieged will have many chances in their favor. A life for a life can be better secured. These attacks of the Germans have not at all frightened the Parisians. It has but brought more closely home to them that the final stage of the contest is reached, and that the time has arrived to die or be victorious. The Provinces do expect that Paris and her half million of warriors will exhibit a glorious *finale*, and would sadly and justly mourn if such an army failed to break through its prison bars. Numbers will be slain in the grand sortie, but numbers, will, perhaps, also escape, and must carve their way to succor. Better the glory of such a movement than the laying down of arms after the patterns of Metz and Sedan. In one case something may be achieved; in the other, only a sort of funeral march into Germany. A strong pull, a long pull, and a pull altogether, can do wonders.

We have some news as to how the Parisians have taken their baptism of bombs. If anything, rather good humoredly than otherwise. When a "whistling Jack" is *en route*, the citizens do not fall down and worship it, but throw themselves flat on the ground, and when the shell explodes, rush to pick up the fragments. The escape may not be so easy when the bombs drop more frequently, or when houses are set on fire, and all hands are called to the pumps. It is a curious coincidence, that, the first shell that fell in the neighborhood of Auteuil, was in the garden of that celebrated "White House," once the property of Prince Pierre Napoleon, and the scene of the Victor Noir tragedy. The Germans must bring their guns nearer, and maintain a more continuous fire, if they desire to bring the inhabitants to a sense of their situation. Under certain limits, it is said, the people in a bombarded town became habituated to the whirr-r of a shell. In the suburbs of Paris the poor people who have remained, regard such "falling meteors" with the indifference of hardened soldiers. But the position is trying and dangerous all the same.

It is clear that by the north side of the city only can Trochu lead out his troops. In this direction can he alone receive succor of food and men. The German ring once broken, the French can push on towards the army of the North. But this army must by this time be again engaged with the enemy. Faidherbe, it is believed, is not desirous of staking the fortunes of his troops by a grand battle—he is reserving his supreme efforts in the expectation of meeting Trochu. Manteuffel, on the other hand, does not seem anxious to penetrate into the quadrilateral of the North, he would require much larger reinforcements than he has received; besides if Trochu escapes he will be taken between two fires. Further, the Germans aim at surrounding wherever they possibly can, and 'netting,' not slaughtering their enemies. Sedan and Metz impressed the world more than Spiehern or Gravelotte. If Manteuffel is to assume the command of the eastern army of invasion it may be plainly regarded as a 'kick upstairs' —in any case it does not look as if Versailles was contented with the conduct of affairs either in the north or east. Manteuffel's successor will naturally be Von Goeben, who is a General of greater dash, and I may add more esteemed by the First Army Corps than Manteuffel. It will require some hard fighting to occupy the Northern Departments. There is a large sea-faring population which has largely contributed the best fighting men yet shown in the war. Cambrai, Arras, Douai, Valenciennes and Lille, will demand "preparations" from the invader. Peronne has capitulated, but it was insignificant, could not have detained the Germans when once they seriously attacked it, as the result shows. It is strange all the same why Faidherbe left it alone in its glory, and so near it. From Le Mans, things do not look sanguine. Gen. Chanzey is said to have plenty of men and *materiel*, but Prince Frederick Karl, who is carrying out new instructions from Count Moltke, threatens to seriously cripple his adversary; if such turn out to be true, Paris cannot hope anything from the West. In the East, Bourbaki and Werder have at last met; there is confusion about the nature of the engagement. However, Manteuffel will soon take command and Bourbaki's abilities to advance towards Paris or Nancy put to the test.

The capital is naturally becoming out of sorts, as the crisis approaches. There is no desire for surrender, but the inhabitants are said to present of late, an air vague and mopish, something like what may be anticipated when people are borne down by a great sorrow. The feeling against Trochu is not diminishing; opposition is not directed against his honesty—I might add his talents—but rather against the inaction which is connected with his measures for crushing the enemy. His friend Ducrot and he do no longer display the loves of Saul and Jonathan since the retreat from Mont Avron. Trochu writes and speechifies too much—wastes time in explaining-away. He will not be afforded much time for further waiting—the besiegers are advancing their batteries, and if the city commences to be systematically shelled, concurrently with a storming of some of the forts, the opportunity for an escape may be found to have passed away.

The shells were a treat to the citizens—as if not content with hearing them, and observing the curved line of their route, some speculators pass from group to group of people, gratifying their taste of curiosity to witness the Prussian gunners—by means of a peep in a telescope for one sou. It was the old story of "you pay your money, and you take your choice." If the German artillerists were not visible, the French were. A good business was being done by the sale of shell-splinters, and conducting persons to witness the effect of an explosion. Fortunately the extreme cold has moderated, but is not gone. Wood continues to be scarce, and being green, emits but little heat. The laundresses no longer "take in washing," they cannot obtain fuel. Worse, it is impossible to find tailors, and one must get on as best he can, with a limited wardrobe, or do the cutting out and stitching for himself. Indeed the most curious top coats are to be met with, made out of Brussels carpets—even sheep skins—the woolly side out, grace the shoulders of well-known *boulevadiers*. The hospitals are first supplied with fire-wood, and then the inhabitants receive their share as delicately as their portion of horse flesh or brown bread. In consequence of the late "wood rows," the trees in the neighborhood of Paris and Neuilly have disappeared. There is nothing new to record as to the food question —except that the common wine is becoming exhausted—but this brings the citizens nearer to the "old brands," of which there is no scarcity, realizing Marie Antoinette's alleged saying when the starving people wanted bread, to give them pastry. How the men of Belleville may take to the fine wines is to be seen; but in 1848, when the cellar of the Tuilleries was gutted, the patriots rejected the delicacies with disgust, and went to a *cabaret* to drink their *canon*. In delicacies there is only to be chronicled the consumption of the two elephants, that so often carried young France on their backs, twenty perches for two sous. Castor and Pallux have gone the way of everything fleshy of late—cut up into steaks and joints to suit purchasers, at from six to eleven francs a pound, and found to have a strong taste of boiled whale, after twelve hours seething in vinegar and water, previously pounded with a wooden mallet for twenty minutes. Already toys are advertised as made out of their tusks, and all Paris seems bound to purchase a souvenir of auld acquaintances. Fortunately the supply of ivory is very large in Paris, and will prevent the "original" from falling short.

The illumination of the forts by the electric light has been given up. The process was intended to show up the besiegers in case they made any night assault. But it was forgotten how useful such "reflectors" would be when fire was opened on the forts. Hence why the lights have been put out. Gas has for a long period ceased in Paris, so that the "curfew bell," will be of little use to warn lamp-lighters. Since the shells find their way into the city, the inhabitants are requested to only burn lights, and as few as possible, in the basement storeys, and to be sure and close the shutters, to secure which, inspectors are told off. Indeed the inhabitants have undergone so many transformations of late, that nothing now surprises them. They are shut out from the world, receiving only a "pigeon express" once in three weeks, and such despatches are almost illegible very often, with the wear and tear of the journey. It might be worth the while of "pigeon fanciers," to tell us how birds that "do know their own minds," brought up to the nearest point, unoccupied by the enemy, to Paris, and then set free, take weeks to fly a distance of one hundred miles; or stranger, not two per cent ever arrive! Do they go to sea like the balloons, or to Norway, or to Germany—can Bismarck's hawks destroy them?

The clergy in Paris, as indeed outside also, have declined to receive their fees from the "authorities" on account of any soldier who dies from his wounds or sickness, buried by them. It was one of the few sources of income the poorer clergy of France could rely upon. People might or might not be born, but die they must sometime. But the undertakers are not so magnanimous. In Paris they form a distinct guild, with a tariff regulated by Government. Since the invasion their business has been so brisk that they have had to raise prices. The "mutes" are looking fat, happy and well-to-do, and pay for any drink they order while waiting in the vicinity of the house of death for the lifting of the body. Their not doing so was as old a dodge as in the mail-coaching days, when assured you had twenty minutes to dine the "horn of chase" resounded as you put the first spoonful of soup, with a temperature of 212°, to your lips.

A few more instalments of the Secret Papers of the Tuilleries have appeared. From these the Emperor is clearly convicted of directly converting the military and *gendarmerie* into political spies, to report on such bad characters as Orleanists, Legitimists and Republicans; to mark such as ought to be sent for change of air elsewhere. One Captain refused to have anything to do with such infamous work and was cashiered. It was thought Miss Howard supplied his ex-Majesty with all the sinews of war for the *coup d'etat*. No such thing. Old Narvaez lent him half a million of francs. When will be published the names of the recipients of these sums, which are well known in every *salon* in Paris? Also to carry out the general elections of 1869, the Emperor contributed half a million of francs in Treasury Bonds to his Home Minister's account. Bribery and corruption even under universal suffrage. The Clubs of Paris promise to look into these and other matters after the war. *En attendant*, some demand the abolition of all ranks in the army on the principle of equality, the formation of a 'Greek Fire Legion' that can destroy Versailles from the Tuileries, a law to no longer pay rents, repay loans or interest on same, and to execute priests for eating fresh pork on Friday, leaving their parishioners to starve.

To Photographers.

A GOOD Photograph business, with all the necessary apparatus fit for immediate use, will be sold very cheap.

THE BREWERY, Trenton, Dec'br, 7, 1870. 43w 186d

The Situation in France.

The news brought by the midnight telegrams shows that a rupture between the different sections of the Republican party in France is probable, growing out of the election of members of the National Assembly.

Paris is being re-victualled as rapidly as possible though great destitution still prevails.

Bourbaki's army has ceased to exist as a military organization. The soldiers lately composing it are now chiefly prisoners in the hands of the Swiss. Garibaldi has asked to be included in the armistice.

Military operations in the territory of the departments of the Daubs, Jura, and Cote d'Or, as well as the siege of Belfort shall continue independently of this armistice until an agreement is arrived at regarding the lines of demarcation, the tracing of which through the departments mentioned is reserved for an ulterior understanding.

The latest news from the seat of war says: Dissatisfaction having been expressed at the proposed electoral disqualifications, they are to be removed. The restoration of the Empire seems more and more likely to take place. Besides a large number of the French people, Germany would be glad to treat with Napoleon rather than Gambetta or men of his class. Bourbaki is said to have attempted suicide owing to his feelings at the defeat of his army, and the life of Trochu has been attempted.

The Conference had another sitting in London on Friday, without arriving at any result.

Manitoba.

RAVAGES OF THE SMALL POX—2,000 VICTIMS—FOOD SCARCE.

From the Correspondent of the Toronto Telegraph.

ST. PAUL, Feb. 4.—The *Manitoban* of the 21st just received, contains confirmatory news of the ravages of smallpox in Saskatchewan.

Mr. W. F. Clark, of the Hudson Bay Company service, arrived at Winnipeg on the 18th ult. He was 46 days reaching there. He says that upon the trip he heard nothing of the disease until reaching Victoria. At that place two daughters of Mr. McDougal, Wesleyan Missionary, had fallen victims to the scourge, Mr. McDougal himself having been attacked. From Victoria upward the ravages seem to have been great. Big Lake is almost depopulated, and most of the few survivors left for the plains. At this place 280 persons have died. The missionaries and sisters are doing noble work among the unfortunates, but are comparatively helpless on account of their smallness in number. It is estimated that 2,000 at least have fallen victims to the plague, including Indians. Superadded to the smallpox, buffaloes are reported very scarce, and many people are reported to be in great want of food. Hudson's Bay is feeding many.

—The Suez Canal, so far, has not paid expenses.

—The attempted revolution in San Domingo, instituted by Cabral, has proved a failure.

—Rev. Dr. Hugh Urquhart, of Cornwall, died Feby. 3rd at Cornwall, in his 79th year.

—M. Favre refuses to attend the Conference, or to appoint a substitute.

—The third annual ball of the Toronto Typographical Society, which took place on Friday evening, was a great success.

—A new well commenced working at Petrolia, on Thursday Feby. 2nd, and yields 250 barrels per day.

American Despatches.

The Alabama Claims and the Fishery Question.

More Rumors by Washington Correspondents.

The Fisheries Question said to be settled.

Why Schenck did not Sail.

NEW YORK, Feb. 6.—A special correspondent telegraphs that it is understood at Washington, and stated as explanatory of Minister Schenck's delay in leaving for England, that a British diplomatic agent is on the way to Washington with authority to settle points of dispute between England and America relative, not only to the Alabama claims, but to the fishery question. If this proposition is accepted by our Government it is believed Schenck will remain in Washington and conduct negotiations on the part of the United States.

The *Herald's* Washington correspondent telegraphs: It is understood that Gen. Schenck, who was to have sailed from New York last Wednesday, has been summoned here at the urgent request of Minister Thornton, and Sir John Rose, who have assured Secretary Fish that they are authorized by the British Government to say that, in the interest of good feeling, the Dominion authorities have been instructed peremptorily at once to restore the license system to our fishermen, so as to give them practically the rights and privileges pertaining to the inshore fisheries of the coast of British North America. This concession is to be made without conditions, and evidently in expectation that it may lead to such amicable relations as will the more readily pave the way for a satisfactory re-opening of the Alabama question upon General Schenck's advent in England. In order to get the forced acquiescence of Canada, a delay of some three weeks in General Schenck's departure has been asked by British agents here. As the Canadian official organ at Ottawa fiercely denies the right of England to interfere in the fisheries, in opposition to the wishes of the Canadians themselves, and declares that the freedom of the fisheries will never be assented to unless by an act equivalent, in the shape of a reciprocity treaty, some doubts are expressed in official circles here as to the ability of Thornton and Rose to keep their promise. Meanwhile the committees on foreign relations of both houses are taking no action in the fishery question, pending the promised settlement.

The *World's* correspondent telegraphs positively that the mission of Rose was to assist Thornton in settling the fishery question, and that General Schenck's departure was delayed at the request of the British Government until instructions were received tendering to the United States the fisheries and the free navigation of the St. Lawrence without compensation or favor.

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no getter Cough or Lung Medicine in use.

Morning Despatches.

Electoral Disqualification in Frances

BORDEAUX, Feb. 5.—The Government here have issued a declaration maintaining electoral disqualifications. It is announced that one of their number has been sent to Paris to explain the real state of things. The declaration is signed by Gambetta, Glais, Bizoin, Cremieux and Fourjehon.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

VERSAILLES, Feb. 5.—The following statement is official: The delay of the French Government will lead the administration at Bordeaux to the non-observance of the Convention entered into by the Germans and authorities at Paris.

The convention only looked to negotiations for a free assembly and an arbitrary constituted body under the direction of Gambetta, is not entitled to such a title.

Favre has informed Bismarck that he will rescind the decrees issued by Gambetta. The confusion is, however, probably only removable by the adjournment of the elections.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

EXTRACT.—I consider FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES superior to any similar preparation yet offered to the public. CHANDLER CRANE, M. D., Halifax, N. S.

It is really a good medicine, well adapted to build up the system and impart vigor of body and mind.—*From the St. John, N. B., Journal, 7th Dec., 1868.*

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma,

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47. 2m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

CAUTION.—All *genuine* has the name "PERUVIAN SYRUP," (*not* "Peruvian Bark,") blown in the glass. A 32-page pamphlet sent free. J. P. DINSMORE, Proprietor, 36 Dey St., New York. Sold by all Druggists.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed and for sale at the *Intelligencer Office*.

Why is coffee like an axe with a dull edge? Because it has to be ground before it is used.

'Why is it dangerous to take a nap while the cars are in motion? Because the train runs over sleepers.

What is the most profitable of all businesses? The shoe, for every pair is soled before it is finished.

Why is a list of musical composers like a saucepan? Because it is incomplete without a Handel.

'Boy, what is your name?' 'Robert sir.' 'Yes, but what is your other name?' 'Bob sir.'

'Ah! my dear fellow, said an old man to a friend, 'I am weak and broken down with age, I used to walk entirely around the park every day; but now I can only walk half way and back again.'

A prudent man advised has drunken servant to put by his money for a rainy day. In a few weeks his master asked him how much he had saved. 'Faith, none at all,' said he, it rained yesterday, and it all went.'

The latest about Vinnie Ream's bust of Licoln is, that it makes them cry. Cullum went to the artist with tears streaming down his cheeks, and said, 'You can see what effect it has on me,' Mark Twain's map had the same effect on Brigham Young.

A New York politician, in writing a letter of condolence to the widow of a 'country member' who had been his friend, says:—'I am pained to hear that——has gone to heaven. We were bosom friends, but now we shall never meet again.'

Sergeant Cockle, a very rough, blustering fellow, once got from a witness more than he gave. In a trial on the right of fishery he asked the witness, 'Do you love fish?' 'Ay,' replied the witness with a grin, 'but I dinna like Cockle sauce with it.'

A Large Volume would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"Tired Nature's Sweet Restorer, Balmy Sleep."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

Sir John A. Macdonald still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrensic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

Christmas is Coming!

JAMES BROWN has now received his Stock for the winter. New London Layer Raisins, Layer and Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Bloaters, Lochfine Herrings, Sea Salmon, Labrador and North Shore Herrings, Canso Herrings, No. 1 Digby Herrings, No. 1 and No. 2 Mackrel, Lake Huron Salmon and White Fish, Onions, and a complete assortment of Teas, Coffee, Spices and

General Groceries,

Liquors and Syrups, at

Belleville, December 9th, 1870. 188d

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

Circulation — Terms. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF

THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW

CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN

RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the wastes and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, **Bright's disease of the** Kidneys, Secondary Syphilis, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs, and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones diseases and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills** and **Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than ten dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief** and **Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Widder Station, Ontario, Canada West,
March 11, 1869.

Dr. Radway:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT,

439, ST. PAUL STREET, MONTREAL

☞ Sold by Druggists and general Storekeepers at $1.00 per bottle, or $5.00 for 6 bottles.

Geo. Gibson

MANUFACTURER and dealer in Boots and Shoes, Front Street, Belleville. A select assortment of ladies, gent's and children's boots and shoes constantly on hand and made to order All work warranted. 1D6m

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.

GODEY'S LADY'S BOOK

For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year, - - - - - -	$3 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harper's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink Carratraca and keep healthy.

Drink Carratraca and keep Cool during the "heated term."

Save the lives of the Children by giving them Carratraca.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to Peters' Musical Monthly. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS'

We do not expect Peters' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS--AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
87 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membrane of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug or a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative,* (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In Radway's Pills (which are the only *perfect Purgative Pills*) you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack; Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effects of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse,* the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly,* HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, or [illegible] forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively so safely as

Radway's Ready Relief.

No, not one. Thousands, [illegible] with Quinine, Arsenic, Mercury, bottled [illegible] Cures and Private Practice [illegible] gorged liver, fat, spleen disordered [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Bilious Attacks, &c., than the Quinine Mixture, Ague [illegible] Cholagogues, &c., costing $1 to $3, and [illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of Radway's [illegible] diluted in one gallon of proof spirits [illegible] equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief [illegible] cents, as a Pain Remedy, and for family [illegible] will secure every household freedom [illegible] ness, and can be used for the [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Bilious Colic,	Flux.

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

(Viz.: Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.)

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medines, prepared on new principles, and *Pills* ll curesick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with Reliable Correspondents in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

CONCENTRATED LYE,

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose Ideas of Meum and Teum are somewhat hazy, has got the bump of Imitation so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,

St. James & Notre Dame Sts., Montreal, P.Q.,

Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,

MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

June, 1870. 44-1y

Scientific American

FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.

G. S. TICKELL,

Upholsterer, Undertaker, &c.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. White having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GABRIEL'S

TRADE MARK.

MANUFACTURED ONLY BY.

MESSRS GABRIEL.

Dentists.

LUDGATE HILL, LONDON.

PREPARATIONS

FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World,

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTHPASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

FOR cheap printing go to "The Intelligencer" Office, Belleville.

Miscellaneous.

An elicit distillery was seized near the village of Arthur a few days ago. A large quantity of material and apparatus was found on the premises, including a steam engine, four whiskey tubs and a quantity of malt.

In addition to the $12,500 voted by the corporation of Orillia, to the Muskoka Railway, twenty-one persons in that place have subscribed for stock to the amount of $6,800. The directors have also secured some six or eight acres of land in the best position in the village.

On the evening of the 27th ult., a very respectable farmer, named McFarlane residing near Keene, committed suicide in his own house, by discharging several barrels of a revolver at his throat. He had come from Peterboro the same day, and no reason can be assigned for the tragic act. He leaves a wife and several small children.

The St. Catharines *Free Press* says that a short time ago a girl residing in Colborne, named Jane Cook, shot John Irvin, a sailor whom she alleges seduced her under promise of marriage. The bullet glanced along his forehead, inflicting a painful though not dangerous wound. Irvin skedaddled, and left the village, fearing that he would not be safe from the further vengeance of the young woman.

A fearful accident occurred at Marmora by which an old resident of Trenton, McCauley by name, a lumberman, came to his death very suddenly on the 23rd ult. He was engaged in drawing timber, and while in the act of jumping off the sleigh, was jammed between the logs, and was so badly injured that he died about 48 hours after the accident occurred. He was over 70 years of age. His remains were taken to his late residence at Trenton.

An attorney once asked Lyman Beecher—"Supposing that the parsons and the devil should litigate a case, which party do you think would gain it?" "The devil, no doubt," replied Mr. Beecher, "as he would have all the lawyers on his side."

The *Gazette* thinks people should not trouble their heads about Manitoba politics, and feels inclined to believe that the interests of that Province may fairly be left to the people of Manitoba themselves.

Franklin, Ind., built a new $40,000 jail, and put a man in the first night after it was completed, and in the morning the Sheriff found the prisoner had cut his way out with a common jack knife.

The races on the ice at Brockville last week produced the following results. A dangerous row occurred at St. Lawrence Hall; several more happened in other places; the editor of the *Monitor* interviewed two wretches clawing and biting on the street like a pair of dogs; a Perth blackguard was slashed with a knife on his ear and side of his face by an Ogdensburgh blackleg: and at another place a revolver was drawn and shooting would have happened had not a citizen wrenched the weapons away.

The Manitoba correspondent of the Montreal *Witness*, speaking about recent elections there, says Captain Howard's constituents are a tribe of partly-civilized Swampy Crees having for their spiritual and temporal heads Rev. Archdeacon Cowley and Chief Henry Prince. Their natures and practice are very much that of the daughters of the horse-leech, mentioned by the wise man; and since they have done the gallant captain the honor of making him their spokesman, the old cry, 'give,' give,' has been unceasingly dinned into his ears. At the close of the poll a whole ox was polished off in short order; a few nights after the Theatre at Stone Fort was about half filled with free and independent voters, ticketed by the member elect; and now an open house to all comers, and a monster ball enlivened by a whole puncheon of rum, seem to be the only things that will satisfy the desires of the noble aboriginees.

A shocking murder was committed last Friday morning Feb. 3rd, by a man named Chas. Willoughby, a farmer residing a mile and a half from Rockwood—the victim being his own wife. It seems that while under the influence of liquor he asked the unfortunate woman to rise and get him a drink of water, but as she did not comply with his request he sprung out of bed, seized an axe, and striking her a fearful blow with it on the head, killed her almost instantly. The wretch then tried various but unsuccessful methods to commit suicide. He was subsequently arrested and is now in confinement awaiting examination.

Corks may be protected from the action of acids by first soaking them for several hours in a mixture of one part concentrated water glass and three parts water. The corks are then allowed to dry, and afterwards coated with a mixture of finely powdered glass and water glass. When this coating is dry, the corks are to be placed for a short time in a solution of chloride of calcium, from which they are removed at length and washed with water, and dried.

Under the small protective duty of 50 cts. per ton, the coal trade of Nova Scotia has grown rapidly. Steamers are being placed on the route to Montreal for the greater ease of carrying coal to the markets of Ontario and Quebec. The Nova Scotia press generally oppose the removal of the duty as proposed by the Dominion Board of Trade.

The *Army and Navy Gazette* states that Halifax, Nova Scotia, will in future be regarded as the military head-quarters of the North American Colonies, both as respects staff and departmental officers.

Daily Intelligencer.

BELLEVILLE, TUESDAY, FEB. 7.

SOCIAL.—The Young Ladies' Social in Rev. Mr. Wild's Church is postponed from Friday evening, Feb. 10, to Friday the 17th.

PASSED.—Mr. James Masson, of Belleville, yesterday passed a creditable examination as Attorney-at-law before the examiners of the Law Society in Toronto.

TAYLOR *vs.* GRAMMAR SCHOOL TRUSTEES.—The legal intelligence in to-day's Toronto papers announces that, in the above case, a rule has been granted for a new trial without costs.

MEETINGS TO-NIGHT.—Meeting of the Bible Society at Ontario Hall, at 7½ o'clock p. m.—The Board of Common School Trustees meets at the Town Hall at 7½ p. m.

CLEARING SALE.—Mr. James W. Dunnet, of the Glasgow Warehouse, advertises in other columns that he has closed up his business in Peterboro' and intends confining his operations henceforth to Belleville. In order to give his customers here a chance of bargains, the whole of the Peterboro' stock has been brought here and will be sold at cost price. Call and see.

SKATING CARNIVAL.—The grand Skating Carnival, the first for several seasons, comes off at the Victoria Skating Rink to-morrow (Wednesday) night. This style of entertainment has generally been popular here, and, we are assured, no pains will be spared by the managers to make this Carnival as successful as any which has preceded it. The Band of the 15th Battalion will be present, and a large number of attractions are announced, for particulars of which see advertisement.

REORGANIZATION OF THE FIRE COMPANY OF STIRLING.—A meeting was held at Chard's Hall on Thursday evening last, for the purpose of reorganizing the Fire Company, when the following officers were appointed:—Captain, Jos. Feeney; 1st Lieutenant, John Ackers; 2nd Lieutenant, Jas. Parker; Foreman of Branch, W. M. Mitchell; Foreman of Section, R. Finch Foreman of Leading Hose, W. Martin; 1st Engineer, J. Green; 2nd Engineer, J. H. Bradley; Secretary, R. Craige.

DOMINION PACIFIC RAILWAY.—The promoters of the Dominion Pacific Railway scheme, at a recent meeting nominated Mr HUGH ALLAN, of Montreal, President, and Mr. WILLIAM MCINNES, of Hamilton, Vice President, and both these gentlemen have accepted these positions. The bill for a charter is being prepared, and will be presented to the House by Mr. ANGUS MORRISON, M. P. The details of the financial programme of the company, are said to consist of grants of land, and certain financial guarantees by all the Governments concerned, including the Home Government.

CASE OF STABBING.—Yesterday afternoon Constables Snider and Ruttan were hurriedly summoned to arrest a man named William Mitchell, who, it was said, had stabbed a Mrs. Briggs, who keeps a small grocery in the vicinity of Albert College. The Constables made due haste, but did not succeed in capturing their man, who had "sloped" in anticipation of their advent. They found that the woman had been stabbed on one hand and in the left side, which wounds she said Mitchell had inflicted with a pocket knife, the alleged cause being that his (Mitchell's) wife was washing at Mrs. Briggs', and that he wished her to leave there, not liking the reputation of the place.

RUN AWAY—SERIOUS ACCIDEN.— About 3 o'clock this afternoon an accident, which nearly proved fatal, occurred to Mr. John Thompson, a farmer who resides near Picton. Mr. Thompson was standing at the heads of of his horses near Perkins' saloon when a team of horses belonging to Mr. Cunningham, of Prince Edward, and which had ran away on the ice, came tearing madly up the street. The neck yoke borne by the animals struck Mr. Thompson with great force on the back, throwing him under his horses' feet, which began to prance and kick But for the presence of mind of Mr. Stout, who drew the unfortunate man from under the horses, he would, in all probability, have been killed on the spot. At it was, he received several wounds on the head and back. Medical assistance was at once procured and his injuries properly attended to.

Scott's Murder and the Ontario Legislature.

The *Globe* of the 4th Feb., copies our remarks of a few days since upon the report that Lepine, Riel's Adjutant General, was allowed to remain in the Red River Territory and enjoy all the liberty of a loyal subject, without molestation on the part of the authorities of that Province, and then exclaims:—

"Perfectly true; and what will the *Intelligencer* say of the Ontario Government, and their supporters in the House, who declared on Thursday that there were matters which they would not even discuss, and that they were satisfied with the issue of warrants, of the existence of which they have no evidence, but which certainly have not been put in force? Will it not say that Government and members failed in their duty to the memory of poor Scott, to his family, to the people of Ontario, and to the sacred cause of justice? If Mr. Blake's resolution had passed, an address would have been founded upon it which would have compelled the Governments of Ottawa and Fort Garry to arrest the murderers. The demand of the Ontario Parliament could not have been disregarded."

The *Globe* knows ere this what our opinion is in reference to the rejection of Mr. Blake's motion in the Ontario Legislature. When the *Globe* tells us that had Mr. Blake's resolution passed, it "would have *compelled* the Governments of Ottawa and Fort Garry to arrest the murderers," it states what it well knows to be the veriest buncombe. The passage of the resolution would have been treated in the same manner as was the increased Nova Scotia subsidy, though there was some reason in the protest then made, as a large part of that subsidy has to be paid by Ontario, which contributes, more to the revenue of the Dominion than any other single province, Yet Ontario was genteelly snubbed by the Colonial Secretary, Earl Granville, and told to attend to its own business. The protest of the Ontario Legislature was disregarded then, and would be so again, if it poked its nose into the affairs of other provinces. Any attempt on the part of Manitoba, Quebec, or any other Province to interfere with the administration of colonial justice in Ontario, would have been rejected with scorn. What ground has the *Globe* to suppose that the "demand of the "Ontario Parliament would not have been "disregarded?"

The country would have much more confidence in the honesty or intention on the part of Mr. Blake, and other politicians of like ilk, had they stood forth and demanded justice for the Red River loyalists, when and where their voices would have been of some avail. What are the facts? The *Telegraph* thus summarizes them:—

> "Mr. Cameron's opinions respecting the murder of Scott are well known, and as Mr. Blake never favored us with his till Thursday last, pray which of them is entitled to the greatest credit, and which has given the best proof of sincerity? When the Manitoba Act was before the House of Commons, where was Mr. Blake? Mr. Wood, Mr. Macdougall, and others were in their places; on behalf of Ontario they opposed the measure. But where was Blake? Looking after his clients in Chancery, and leaving the affairs of the country to look after themselves. And when those mass meetings were held in the city last spring, where, let us ask, was Blake? Mr. Cameron was there, and gave expression to just such views and opinions as he gave expression to in the House on Monday last. Mr. Blake could not then spare an hour to address the public; but he could waste the time of the House the other day over a buncombe resolution, in introducing which he had neither the courage nor the manliness to place the guilt on the right parties. He dodged the Manitoba Act, and he dodged the public meeting; and yet in the Local House, he to-day has the brass to express a crocodile sympathy a year after the commission of the crime. Mr. Cameron spoke and Mr. Wood spoke when speaking was necessary, and when it was likely to be productive of good results. But at that time Blake was dumb. He appeared not in Parliament nor on the platform. His leader *refused* to address the public meeting in the City Hall; and he probably advised his obedient lieutenant, Blake, to keep away from it also. If Mr. Blake is sincere let him carry his resolution to Ottawa. Let him ask his friends from Quebec to vote for it Let him, on the floor of the House of Commons, charge the French and the priests with the murder of Scott, if he dare, as Mr. Brown has charged them in his newspaper. When he does that he may, perhaps, claim credit for something more honorable than crocodile sympathy. In the Local House such resolutions are the 'merest mockery,' so much buncombe, clap-trap and bosh, worthy of the source from which they emanate."

It is as well that our readers should know what the resolutions were; therefore we give them in juxta-position, and, judged in the light of facts which we have given above, we ask which was the most honest and consistent politician, Mr. Blake or Mr. Cameron? The following are the resolutions:—

MR. BLAKE'S.	MR. CAMERON'S.
1. That the cold-blooded murder for his out-spoken loyalty to the Queen of Thomas Scott, lately a resident of this Province, and an emigrant thence to the North-West, has impressed this House with a deep feeling of sorrow and indignation, and in the opinion of this House every effort should be made to bring to trial the perpetrators of this great crime, who as yet go unwhipt of justice. 2. That an humble address be presented to His Excellency the Lieutenant-Governor, embodying the foregoing resolution, and praying him to take such steps as may be best calculated to further its views.	While this House deeply deplores the untimely fate of our fellow-countryman, Thomas Scott, while exercising his rights as a British subject, and while deeply regretting that Riel and his co-murderers have as yet escaped condign punishment, and while this House rejoices in the efforts made by the Lieutenant-Governor of Manitoba in issuing warrants for their arrests, and while we feel it to be our duty, as representatives of the people, individually to lend our aid to bring those murderers to justice; it feels that it would be unwise and inexpedient to interfere with the prerogative which properly belongs to another Government, and to discuss a question over which this House has no control.

Railway Traffic.

The traffic for the month of December was as follows:—

Great Western, $415,540; in 1869, $419,195.

Grand Trunk, $793,865; in 1869, $723,420.

London and Port Stanley, $4,075; in 1869, $2,623.

Northern, $51,010; in 1869, $45,275.

Midland of Canada, $11,368; in 1869, $9,395.

Brockville & Ottawa, $19,468; in 1869, $13,332.

Canada Central, $2,636.

St. Lawrence & Ottawa, $11,215, against $12,680.

The traffic return for the year 1870 was—

Great Western, $4,037,357, against $3,909,886.

Grand Trunk, $7,566,082, against $7,356,654.

Northern Railway, $733,541, against $670,631 in 1869.

The total railway traffic returns for 1870 were $13,451,299, against $12,921,861 in 1869.

Missionary Meeting.

The annual Missionary Meeting of the congregation of St. Thomas' Church, in aid of the funds of the Diocese, was held in the Church last night. The attendance was not numerous, probably 100 persons composing the audience. After service, F. McAnnany, Esq., was called to the Chair. Mr. McAnnany, after a few remarks concerning the object of the meeting, introduced the Rev. Mr. Mockridge, of Madoc, as the first speaker. This gentleman, in the course of a short speech, pointed out the necessity of extending a liberal aid to the mission funds, as at least twelve additional missionaries were needed within the Diocese, whom the Mission Board were unable to employ for want of funds. J. B. McGann, Esq., followed in a fifteen minutes' address, urging strongly the necessity of forwarding mission work by contributing largely towards the fund for that purpose. An example of liberality ought to be set by St. Thomas'. Rev. A. Baldwin, curate of St. Thomas' and the clergymen composing the deputation, also delivered addresses. We were disappointed in noting such a small attendance, showing that considerable apathy prevails amongst the congregation with regard to the important work of Home Missions. A religious body so large, respectable and wealthy as the adherents of the Church of England in Belleville, might supply a much larger sum than is annually contributed to the Home Mission Fund. We hope, on a future occasion, to see a larger attendance and a greater manifestation of interest. So mote it be.

The amount taken up at the collection was $30.70, which sum will be considerably augmented by the amount collected on subscription cards.

To the Editor of the Daily Intelligencer.

DEAR SIR,—I must request the publication of the enclosed note from Mr. Petrie, which speaks for itself, and proves that the publishers of the *Ontario* do not hesitate to resort to falsehood in the attempt to manufacture a little sympathy and capital for themselves. I shall not be led into a controversy with that journal, however gross the provocation, but will leave an intelligent public, among whom I have lived the last eighteen years, to judge my character. If that knowledge of my life does not furnish a sufficient refutation of the calumnies that have been recently published in that paper, nothing I could say for myself would avail. It does appear to me, however, that if the publishers of that very interesting newspaper would tone down their Ishmaelite propensities somewhat, they would be much more congenial members of society.

With reference to the complaint that I issued a warrant instead of a summons, I have nothing to retract from what I have said in my first communication. It has been my usual practice, as I think it has with other Police Magistrates, to issue a warrant in the first instance for all misdemeanors and offences punishable by fine and imprisonment, so grave as that of libel. Had I refused a warrant, I would have been open to the charge that I had one law or rule or practice for the rich and influential, and another for the poor, or the man without political influence, in which case I should have had more difficulty to retract the charge of favoritism than in the present instance.

Yours truly,
A. DIAMOND.

POLICE OFFICE,
February 7th, 1871.

A. DIAMOND, ESQ.,

DEAR SIR,—I read with some surprise and astonishment the following paragraph in the *Daily Ontario*:

> "You, sir, state that you issued a warrant because it was prayed for, and because you thought you had no right to refuse it, and that you desired your officer to do his duty in the most delicate manner possible. Well, sir, your officer stated to the contrary and acted in strict accordance with his statement."

I think it only justice to you to say that you did instruct me to do my duty in the most delicate and in the least offensive manner, and I can only state that I endeavored to do so, and it is untrue that I used any harshness whatever.

It is simply untrue that I stated to the publishers of the *Ontario* the contrary, neither did I make use of any language to lead them or anybody else to infer to the contrary of the instructions you gave me, as above stated.

Yours truly,
A. T. PETRIE,
Chief of Police.

To the Editor of the Daily Intelligencer.

MR. EDITOR,—I desire to call the attention of the town authorities to the nuisance created by parties living on Dundas Street depositing their ashes on the public road, by which sleighs loaded with wood, or other heavy articles, stick and are unable to move. Is there any law to prevent this? If so, why do not the Police attend to it? If not, I trust the town will erect public ash houses for the *extremely poor* people, living along that road, particularly as they have no yard room in which to find a corner to deposit their coal ashes.

ONE WHO TRAVELS THAT ROAD.
Belleville, Feb. 6th. 1871.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

TUESDAY, Feb. 7.

ASSAULT.

Philip Malyea was charged with assaulting his brother. The case was dismised, as there was no evidence to substantiate the charge.

ILLEGAL FISHING.

E. W. Edwards was charged by the Fishery Inspector with fishing with a net in the Bay without a license. Defendant said he was in ignorance of the regulations; but the net he used could catch little else but mud-cats. A fine of $1 and costs was imposed.

DRAMATIC.—The Townsend troupe performed, as advertised, at the Masonic Hall last night. The playing was in accordance with the previous known abilities of the performers. Mr. John Townsend is not at present travelling with the Company.

—The six Nation Indians were recently presented, by Prince Arthur, with lithographic portraits of the Queen, the late Prince Consort and Prince Arthur.

Good Templars.

The following are the names of the officers installed at the Temple by Mr. H. L. Bottoms, T. D., G. W. C. T., on Monday evening:

A. G. Northrup, W. C. T.
M. B. Roblin, W. V. T.
Jacob Yeomans, W. S.
H. R. Atkins, W. F. S.
G. C. Holton, W. T.
Wm. Robertson, W. M.
D. C. Fergusson, W. C.
W. E. Holton, W. A. S.
Edward Smeaton, W. I. G.
C. Tuite, W. O. G.
Annie McKay, W. R. S.
Annie Kerr, W. L. S.
Isabella Keith, W. D. M.
J. C. Holden, P. W. C. T.

The following committees were appointed: *Visiting Committee.*—G. V. N. Rolyea, chairman; W. McKeown, H. R. Atkins, Mrs. Furnival, Miss Nelly Leach and Emma Garratt.

Finance Committee.—R. H. Harper, chairman; John Wallace and G. A. Brown.

Entertainment Committee.—W. Jones, chairman; Prof. Armstrong, C. Peterson, S. G. Beatty, W. A. Ostrom and John Wallace.

Above 70 persons joined and became members during the past quarter, which shows that the movement is still spreading, and that the efforts of the Society are productive of a good effect.

Ontario Legislature.

MONDAY, Feb. 6th.

Attorney-General Macdonald moved that the House concur in the 16th report of the Railway Committee.

Mr. Blake moved an amendment that that part of the report regarding the Toronto, Gray and Bruce railway be referred back, with instructions to consider the same.

After some discussion, Mr. Blake's motion was put and carried by 8—yeas, 36; nays, 28.

A number of Private Bills were then read a third time and passed.

Mr. Anderson presented a petition from Wm. Wray and others, of Hastings, praying for an amendment to the Tavern and Shop License Act.

The Bill to amend the Act incorporating Albert College, with an amendment by Mr. Blake, that the same standard of graduation be adhered to as in the Provincial University was read a third time and passed.

On motion of Mr. Anderson, the Bill for the prevention of corrupt practices at elections, was read a third time and passed.

Hon. Mr. Carling said he was now in a position to bring down Mr. Langmuir's report on the London Asylum, and suggested that it should be printed for the information of members.

Mr. Christie moved that the accountant of the House be instructed to pay the reporter employed last session to report the proceedings of the Committee of the Upper Canada College.

Atty.-Gen. Macdonald said in all his experience he had never known a reporter to be engaged by the House for the reporting of a special committee.

After some discussion the motion was withdrawn.

Several private Bills were then passed through Committee and the House adjourned at 10:55 p. m.

Schools for Colored Children.

The Board of Common School Trustees of St. Catharines, having had some difficulty in connection with the Separate School for colored children, arising out of some of the latter desiring to attend the Common Schools, to which objection was taken, the chairman wrote to the Education Office upon the subject, and received the following answer:—

"Department of Public Instruction,
"Toronto, January 31st, 1871.

J. E. Cuff, Esq., Chairman Board of School Trustees, St. Catharines:

"SIR,—I have the honor to state, in reply to your letter of the 16th inst, that the law recognizes the right of colored people, if they choose, to have a separate School established for them, and the Court of Queen's Bench has decided that when such a school has been established, the children of colored people would not be entitled to enter the Common School.

"The judgment of the Court, Queen's Bench Reports, Vol. 11, page 578, is strongly in support of the right to exclude the children of the colored people from the Common Schools, where Separate Schools have been established for them. The recent Act in Ontario, 32 Vic., Chap. 44, Sec. 9, while giving the colored child the right to attend the Common School unless there is a Separate School within three miles, implies, of course, that if there be such School within that distance, he should attend it.

"I have the honor to be, Sir, your obedient servant,

"J. GRAY HODGINS.
"Department of Superintendent."

School Trustee Meeting, Stirling

On Wednesday, the 1st, being the first Wednesday in February, the Trustee Board of Stirling County Grammar and Common School Trustees, met according to law, when the following officers were appointed for the ensuing year:—

Wm. Judd, Chairman.

R. Finch, Secretary-Treasurer.

Dr. Boulter, B. Stedman and James Boldrick, Finance Committee.

D. McDougal, A. Chard and B. Stedman, Committee on School Property.

Rev. Mr. Buchan, Rev. Mr. Grout, Dr. Boulter, Dr. Wilson and Mr. Wright, Visiting Committee.

Dr. Parker, Local Superintendent.

News Condensed.

—Thermometer in Ottawa on Sunday night, 25 degrees below zero.

The Situation in France.

The midnight despatches report great indignation as being manifested in Paris against Trochu, Bazaine and other unsuccessful commanders.

The exchange of wounded prisoners is proceeding at Versailles, and the French troops are giving up their arms.

It is asserted that the German Emperor will return to Berlin on the 8th of next month, leaving Versailles on the 4th. The German army, according to the same authority, will make a triumphant march through Paris, passing under the Arch of Triumph along the Boulevard de l'Imperatrice, the Rue de Rivoli and other famous thoroughfares. Another despatch from Paris says that the supplies of provisions which have reached the city are altogether inadequate, and that hundreds are dying every day of starvation.

The French prisoners in Switzerland number more than sixty thousand. They are very badly clad, and the Swiss Government has called upon that of France to supply them with clothing.

The London *Times* contains a Berlin despatch which says that previous to the capitulation of Paris the Government of England suggested to the Powers the expediency of taking action in the interest of peace, and recommended the granting of lenient terms to France. To facilitate the requisite negotiations the Powers were asked to give such instructions to their representatives in the Conference as would enable them to take action on the whole subject.

BY ATLANTIC CABLE.

Morning Despatches.

Predictions of War.

Feeding Paris.

Fears of Insults to the Queen.

Capture of the City of Muscat.

French Elections.

Vienna, Feb. 6.—The Warren's Wochenschrift confidently predicts a Turkish war in the spring, and another between England and the United States next autumn.

New York, Feb. 16.—The World's special from London, 6th, says: Twenty-four Government ovens at Deptford are engaged night and day baking biscuits for Paris. Immense quantities of provisions are being sent. Four Government storeships are loading to-day, and sixteen others are ready to load.

A scheme for the restoration of the Empire developes great strength in unexpected high quarters.

The Government, being informed of the danger of the Queen being insulted in going from Buckingham Palace to open Parliament on Thursday, is making extraordinary arrangements to keep the populace back from the line of procession. The Queen's unpopularity has never reached such an alarming point as at present.

Advices from all parts of France indicate that the Assembly will contain a majority of Imperialists and Monarchists.

The authorities at Versailles allow no letters from Paris to be forwarded.

Bombay, Feb. 6.—The forces of Lynd Thoorke have captured the City of Muscat.

Paris, Feb. 5.—A decree, signed by all the Ministers here, has been promulgated, annulling Gambetta's decree on electoral disabilities. It maintains supreme authority of the Paris Government, and declares that the elections shall be maintained. It is believed that neither the Government of national defence, the red Republicans, nor the Imperialists, have any chance of carrying the elections. The public favor the moderate party, condemn the weakness of the Government, and complain that they were not consulted on the capitulation and armistice.

American Despatches.

News from Bolivia.

Railway Accident—Passengers Killed, Burned to Death and Drowned.

New York, Feb. 7.—There is news from Bolivia that another battle has been fought at Orneo in which the Government forces were victorious. In the battle of Curagara the Government troops were routed and many prisoners taken. The revolutionists of Colombia have organized a Provisional Government.

The adherents of the legitimate Government are preparing for an obstinate resistance. There is a rumor that Ecuador, Brazil and Peru have formed an alliance against Colombia. The Governments of San Salvador and Bolivia have agreed upon a new treaty of amity and commerce.

Poughkeepsie, Feb. 7.—There was an accident on the Hudson River Railroad last night at New Hamburg, caused by an oil train bound north catching fire and setting the bridge at New Hamburg also on fire. The Pacific Express came up and ran into the oil train and caught fire also. The bridge gave way under the weight, when the train went down in a jumbled mass. The locomotive, express car, baggage car, Pullman car and coach, and a sleeping car of the Express, went down with a crash. The engineer of the Express was killed, also the conductor and brakesman of the Pullman car. Several passengers on the Pullman and sleeping cars, unable to get out when the crash occurred, were burned to death or drowned. The scene at the track is a fearful one. A corps of physicians are there from Poughkeepsie to attend to the wounded and dying, and search is now being made for the dead bodies. Further particulars cannot be ascertained at this hour.

LATER.

Nineteen Bodies Recovered.

New Hamburg, N. Y., Feb. 7.—Nineteen bodies have been recovered, fourteen of whom are those of passengers, including three children and five employees of the road. The search will be continued, although it is thought that all have been recovered. Among those killed were Arthur Pease and wife, Walter H. Forbush and Peter Vosburgh, of Buffalo.

Buffalo, Feb. 7.—A telegram received from W. Wagner, President of the Sleeping Car Company, dated at New Hamburgh, states that on the Sleeping car conductor Vosburgh's card, giving the names of passengers for Buffalo, were the following, all killed: Fowler, Pease, Carry, Forbush, Rosenthall, Nancreed and Germaniel, two being ladies and two children.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

The Bordeaux Decree Annulled.

Bordeaux, Feb. 7.—The members of the Government who have arrived here from Paris, telegraphed to the Prefects of all the Departments last night a decree annulling the Bordeaux decree of the 31st of January, relative to the electoral disqualifications as incompatible with the principle of universal suffrage. The Paris decree of the 29th of January is maintained.

—The number of through passengers over the Pacific Railroad for the year 1870 were: Eastward, 23,795; Westward, 32,241; showing a gain to the Pacific coast of 8,446. The figures in regard to the New York Central and Hudson River are as follows: Number of miles travelled by passengers, or number of passengers carried one mile, 321,865,953; total movement of freight, or number of tons carried one mile: 769,087,777.

—The Common Council of Dubuque, Iowa, has instructed the city Attorney to commence suits against the resident holders of $200,000 worth of city bonds, which were purchased by M. K. Jessup of New York at 25 cents on the dollar, to compel their surrender at the price paid for them and ten per cent. interest. Thirty-eight of the wealthiest and most prominent business men of the city are defendants in the suit.

CANADA
LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.
PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Extract.—I consider Fellows' Compound Syrup of Hypophosphites superior to any similar preparation yet offered to the public. CHANDLER CRANE, M. D., Halifax, N. S.

It is really a good medicine, well adapted to build up the system and impart vigor of body and mind.—*From the St. John, N. B., Journal, 7th Dec.*, 1868.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.
C. H. Gardiner,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.
Rev. A. C. Eggleston.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.
T. Ducharme,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.
Henry Wilkes,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

Port Burwell, Ont, March 23rd, 1869.

Gents,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
Capt. D. Foster.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."
51-1m233-1m Amos Wooly, M D.

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.
SOLD EVERYWHERE. 1m

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:
A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for
MRS. WINSLOW'S SOOTHING SYRUP.
Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed and for sale at the *Intelligencer* Office.

No Rule without an Exception.—When Marshal Tillard was riding with the Duke of Marlborough in his carriage, after the victory of Blenheim, "My lord duke," said the captured marshal, "you have beaten to-day the best troops in the world." "I hope" replied the duke "you except those who have had the honor of beating them."

A lawyer who was somewhat forgetful, having been engaged to plead the cause of an offender, began by saying "I know the prisoner at the bar, and he bears the character of being a most consummate and impudent scoundrel." Here somebody whispered to him that the prisoner was his client, when he immediately continued, "but what great and good man ever lived who was not calumniated by many of his contemporaries."

The following address was on a package received at the Adams Express office in Georgia recently:

This package contains a 'duck of a bonnet,'
Expressman, I pray you place nothing upon it;
'Tis made of a ribbon, a straw and a feather,
The whole with a postage stamp fastened together.
Its owner, a damsel, is youthful and fair,
But, like Flora McFlimsey, "has nothing to wear."
Beware, then expressman, I warn you to take heed,
And forward this bonnet with care and with speed.

A Louisville girl, whose lover calls every morning and stays all day and long into the night, became discouraged at so much attention, and concocted a plan to get rid of him, by asking him to help to move the piano up stairs, and after that was done, changed her mind and had him help to move it down. She kept on until she had moved all the furniture in the house seven times, and he didn't see the point, and the other night in despair, when he called, she threw a pail of water on him out of the window. He says you can't place any confidence in women, and he has presented a bill for moving furniture. True love never did run smooth by water power.

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no better Cough or Lung Medicine in use.

A Large Volume would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

Sir John A. Macdonald still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrensic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

Christmas is Coming !

Belleville, December 9th, 1870. 188d

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

Circulation — Terms. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature.

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, **Bright's disease** of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the **use of the Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. No medicine fails in its influence in the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than five dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Widder Station, Ontario, Canada West,
March 11, 1869.

Dr. Radway:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world ever.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequaled.

Eight copies one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $6 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

In her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink Carratraca and keep healthy.

Drink Carratraca and keep Cool during the "heated term."

Save the lives of the Children by giving them Carratraca.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building, Front Street

---

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to Peters' Musical Monthly. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Thomas, Danks, Kinkel, Bishop, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 60 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS'

We do not expect Peters' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD
The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekl report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanica Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symption, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE.
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called the "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents, for the purpose of cure, or removal of any settled disease, are utterly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membrane of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative,* (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In Radway's Pills (which are the only *perfect Purgative Pills*) you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Billious attack, Doctor prescribes Blue Pills or Calomel! next comes drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for,* without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse,*) the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results *so thoroughly,* HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure [illegible] or preparation of Quinine, Arsenic [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively [illegible]

Radway's Ready Relief.

No, not one. Thousands, from [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private Practice [illegible] gorged liver, fat, spleen [illegible] colored skin, and hundreds of [illegible] distress. These agents never cure but simulate the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only [illegible] the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to $5 [illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirits [illegible] equal in quantity, and superior [illegible]

144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of **Radway's Ready Relief** [illegible] for [illegible] cents, as a Pain Remedy, and for [illegible] will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five dollars [illegible] to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks when

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Billious Colic,	Flux.

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[*Vis: Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacopia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medines, prepared on new principles, and *Pills* [illegible] ouresick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with Reliable Correspondents in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$5 00
do	do	12 do	8 00
Half square,	6 months,		12 00
do	12	do	20 00
One square,	6	do	20 00
do	12	do	32 00
Two squares,	6	do	30 00
do	12	do	50 00
Three squares,	6	do	40 00
do	12	do	65 00
Four squares,	6	do	50 00
do	12	do	80 00
Notices of Births,			50
Do of Marriages,			50
Do of Deaths,			50

"Business Notices"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six, lines (per line) first insertion	0 08
Each subsequent insertion per line,	0 02

☞ "Business Notices"—[illegible] cents per line each insertion, measured as solid minion

A liberal discount made to those who advertise by the year.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighton us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,

St. James & Notre Dame Sts., Montreal, P.Q.,

Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,

MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

Scientific American

FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress"

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,

Publishers of the Scientific American,

37 Park Row, New York.

Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other.

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00. to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs..

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,

838 Broadway, New York.

The Ontario Farmer

Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. White having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 384 Large Octavo Pages for One Dollar.

GABRIEL'S

TRADE MARK.

MANUFACTURED ONLY BY.

MESSRS. GABRIEL.

Dentists.

LUDGATE HILL, LONDON.

PREPARATIONS

FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

To the Editor of the Intelligencer.

The Ontario Wild Land Question.

THIRD LETTER.

SIR,—In my last I was about to describe the system pursued of late years by the Government in the extension and improvement of Colonization Roads. To make this statement clear it must be understood that these roads are made in as direct a line as can be run by theodolite, as little divergence as possible being allowed. Such was the case of the Hastings Road in the first instance. On this road the instructions were carried out with remarkable fidelity, and the precipice must have been formidable indeed, on the route over which the road was not made; the result was as before described, one over which a good team of horses could barely draw an empty waggon. It was soon after improved by another grant, which was expended in cutting round some of the worst hills. This was charged to the public account as improvements done, but it was, in fact, only an attempt to repair a great mistake. Some further repairs were made under the superintendence of Mr. Hayes; since then, further sums have been granted from time to time, say $1,500 or $2,000 in a season; this amount to be distributed over 60 miles of road. By hurrying over the road and throwing in a little dust and dirt in a few of the worst places, the amount granted has been expended and the road made passable for the summer; but they are literally of little avail, as the return of the wet season washes away these improvements or converts them into muddy quagmires. This system is known amongst the settlers by the name of white-washing, and it has left the traveled road from six inches to two feet lower in the centre than at the sides, forming it into a mere water course. Now, had these small amounts been expended on five or six miles of the line only, the road made high in the centre, according to the approved system on good roads, also wide enough for a double track, and the rest of the hills avoided by going round their base, we should have a good road at some period of the world's history.

I will now introduce the question of the advantages that would result to the towns of Madoc and Belleville were there a larger population in the rear. At a rough estimation there are about 1,000 families whose exit is by this Hastings Road to Madoc and Belleville: most of their supplies are obtained from the above named places. Now, allowing that each family must, of sheer necessity, expend $100 in merchantdise, this will yield $100,000; had 500 settlers only been added this past season, it would have added $50,000 more to the above amount. But $100 each family is below the average. It was stated in the newspapers about three months ago that 60,000 lots had been located in the Muskoka District this season. Presuming only for the argument, that such is the fact, and apportioning to each settler two lots, it would give 30,000 settlers there, at $100 each per annum, there would be the sum of $3,000,000 to pass through the hands of the mercantile classes. Surely such important results as these ought to arrest attention. It is stated by many persons who have visited the Muskoka territory, and who are also acquainted with the Ottawa District, that the part appertaining to this County is superior to the Muskoka. The reply is, that they have readier means of access by rail, &c. This, then, is just the argument and pith of the matter, let the members of the County insist upon a thoroughly good means of access being made, and also further insist that the Free Grants of their own County shall be advertised and brought before the European public as prominently as the Muskoka, and the results will be as favourable.

This leads direct to the question of a railroad through the Ottawa territory, and the bee-line from which we started in the outset of these letters, that is from Ottawa to Collingwood direct, is in fact, the line that would at once open up the back country, and form a national inland route that would pay better than any line that could be built in Canada. In the first place, it would be a secure military road—no small consideration—it would take the produce from the Western States via Collingwood and Ottawa, by the cheapest and shortest route to Montreal and the sea board; it would take the vast lumber trade through the whole section, and the supplies that trade requires; it would conduct emigrants at once direct to the Muskoka territory, and the English and Canadian Company's land. A branch line to Belleville would secure to that place a great share of the trade that would be opened up, and it requires no argument to prove that this line through the back country being completed, Ontario would soon double its population. Until such a system be adopted, the Peterboro' and Haliburton line, and the other lines to Toronto, when completed, will soon draw off the whole of the trade from Belleville, which that place might, perhaps, find it hard to recover.

By way of parenthesis allow me to submit that the line as hinted at by Government leading from Ottawa to Toronto, would benefit neither the back country nor Belleville. It would materially oppose the traffic of the Grand Trunk, would pass through for the most part settled districts, where they have the advantages of railways, whereas if taken to Collingwood it would still connect with Toronto direct.

In the next letter I shall refer to some of the measures now existing that should be changed.

AN EMIGRANT.

LETTER FOUR.

Sɪʀ,—In continuing these letters I stated that I should touch upon some of the measures now existing that ought to be changed to induce emigration to Canada.

To one great grievance I have before referred, namely, the clashing interests of the lumberer and emigrant. It is impossible, notwithstanding the vaunted benefit received by the emigrant from the lumberer for the back country to prosper beyond a very limited extent, whilst dependent upon that source. The unjust system of granting a vast extent of territory to one individual or one firm, works to the disadvantage of the country in every respect. Thus, one firm holds in one timber limit, we will suppose four Townships or more; these Townships may be situated on a stream running north and south. Now, by taking off a small quantity of timber annually, they can retain this part of land to them and their heirs for generations, and they probably hold many other such limits in different parts of the Dominion, so that a little timber taken more or less from any one of their vast limits is immaterial, so long as they have sufficient for the requirements of their business from the whole. We will suppose these four Townships in a line from 1 to 4; now they will sometimes confine their winter operations to No. 1 or 2, sometimes to No. 3 or 4, until the very best of the timber is *culled* from the whole, or what is still worse and a greater injustice to the country, they may not work at all on this limit for some seasons. Allow me to ask if they work for several seasons in Townships 3 and 4; why should Townships No. 1 and 2 *not* be worked and if they cannot work them why are they not placed in the market and other parties (any number of whom are desirous to obtain timber limits) allowed to work them, and thus open up a FREE TRADE IN TIMBER LIMITS. Also, allow me to ask, why is not the lumberer compelled to take and clean off all the timber from Township No. 1 before he enters upon No. 2, then the settlement laws in regard to timber restrictions would be unnecessary; and whilst he is working No. 1 why should not No. 2, and 3 and 4, be worked by others? The protective policy and favoritism to the lumberer, is a losing system to the revenue of the whole Province, and would not be tolerated in any other line of business. It is stated in reply that the lumber business is of such great profit and importance—of course it is—and therefore it needs no protection to bolster it up. It must exist like agriculture, therefore let it stand at its true value to the country, which is greatly above its present return. The present system confines the trade to large capitalists, of whom Canada does not number sufficient to retain it to her own citizens; hence the business is held for the most part by capitalists from the States, and the whole is so worked that it is held tightly in the hands of a few, whilst the enterprise of others is effectually checked. And further, these limit holders also sell and resell their limit rights among themselves at an immense advance on what they pay for them to the Government, thus we have the institution of a new kind of stock in the market, that at once suggests the important question, ought not the Government, for the good of the people, to be the sole holder of such stock, so that the full value of these limits shall accrue to the country.

We do not wish to be understood as advocating any narrow minded policy in this or in any other trade, we are cosmopolitan enough to value enterprising Americans or men of any other country who do business in the Dominion, but if ten times the number of limit holders held the territory now shared among the favored few, the settler would have some choice of a market, and if he did not sell to one he might to others, as in the battle of interests to which I have before referred, where the caprices of might and power are at variance with poverty and weakness, it is no question who, in the end, must succumb?

We next come to analyze further the restrictive policy pursued by the Crown Lands Department in the Free Grants Act. We have before referred to the Free Grants of land presented with great solemnity and pomp from the Queen to Her well-beloved subjects. We also stated that by a reference to the Act of Parliament relating to the Free Grants, and by 'Orders in Council,' the whole of what is granted, is item by item reserved back, until all that is above the land, and on the land, and under the land and to depths profound, and more too, is placed beyond his right to control to him and his heirs forever. We have also shown how the interests of the settler and lumberer clash, and the imperative necessity of a *good* road or a railway through the country, and now I have another list of restrictions to present to the reader in my next.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, FEB. 8.

Sᴄʜᴏᴏʟ Tʀᴜsᴛᴇᴇs.—Owing to several causes, the meeting of the School Trustees did not take place last night.

Cʜʀɪsᴛ Cʜᴜʀᴄʜ.—We understand that Rev. Mr. DuMoulin, of Montreal, has decided not to accept the postorate of Christ Church, lately tendered to him.

Tʜᴇ Rɪɴᴋ.—Don't forget the carnival at the Skating Rink to-night, to commence at seven o'clock p. m. The elephant arrived yesterday and is said to be a fierce looking quadruped.

Oᴍɪᴛᴛᴇᴅ.—The names of the Room Committee, I. O. of G. T., were inadvertently omitted from our issue of yesterday. The Committee is composed of the following members: W. A. Ostrom, Chairman; W. R. Barber and C. P. Holton.

Fᴀɪʀ Pʀᴏsᴘᴇᴄᴛs.—We are pleased to learn that there is every prospect of a large audience to listen to the Rev. Mr. Stephenson, on the 'coming question,' 'Woman, her position and influence.' Many will be attracted to the lecture by the subject, and others who have had the pleasure of listening to the eloquence of the gifted lecturer, will again gladly avail themselves of the opportunity afforded by the Young Men's Christian Association.

Orange County Lodge, South Hastings.

The annual meeting of the Orange County Lodge of South Hastings, for the election of officers and the transaction of the general business of the Order, took place in the Orange Hall, Belleville, on Tuesday, February, 7th. The following Brethren were elected office-bearers for the current year:—

Bro. Jᴏʜɴ G. Mᴏᴏʀᴇ, County Master, re-elected.

Bro. Jᴏʜɴ Gʀᴀʜᴀᴍ, Deputy County Master.

Bro. Wᴍ. Jᴏʜɴsᴏɴ, County Chaplain, re-elected.

Bro. H. L. Bᴏᴛᴛᴏᴍs, County Secretary, re-elected.

Bro. Jᴀᴍᴇs Rᴇɪᴅ, County Treasurer, re-elected.

Bro. J. H. Pᴏsᴛ, County Director of Ceremonies, re-elected.

The semi-annual meeting will be held in the Orange Hall, Front of Sidney, on Tuesday, 27th June, 1871.

North Hastings Orange County Lodge.

At the annual meeting of the above Lodge, held in Madoc on Tuesday, Feb. 7th, 1871, the following officers were elected for the ensuing year:—

Bro. L. S. Guffin, County Master.
Bro. John Jefferies, Deputy County Master.
Bro. James Haggerty, Chaplain.
Bro. Thomas Emo, Secretary.
Bro. Wm. Ward, Treasurer.
Bro. E. Mouncey, Director of Ceremonies.

—A correspondence is going on in the Montreal 'Gazette' respecting the propriety of the Cathedral choristers wearing surplices.

—The four Prussian pioneers who blew up the railway bridge before Longwy, were all killed by the explosion.

—A freight train was thrown off the track of the Grand Trunk Railway, near Lacadye, by a broken rail.

—A testimonial was presented on the 7th instant, by the officers and employees of the Senate to F. Taylor, on his retirement from office as Clerk of the Senate.

—Contracts for the construction of steam launches to be used on the North-West route, have been awarded to William Watt, of Collingwood.

—On the 7th Goldwin Smith lectured in the Toronto Mechanics' Institute, in aid of the Newsboys' Home, his subject being "The European Crisis of 1870."

—The inquest on the death of Mrs. Cowan, of Montreal, supposed to have been caused by medical malpractice, commenced on Friday, February 3rd.

—A subscription list has been opened in New York for the suffering French, and Congress has placed three ships at the disposal of the Committee for the conveyance of breadstuffs.

—The purchase system in the British army is to be done away with and volunteer enlistment encouraged. The supreme military direction will be entrusted to a Board similar to the Admiralty. The resignation of the Duke of Cambridge is probable.

Cutting Timber on Road Allowances.

At the assizes held in Kingston, in October last, before Mr. Justice Gwynne, the Corporation of the Township of Barrie, obtained a verdict against Gillies, et, al, lumbermen, for cutting timber upon the road allowances in that Township, which the defendants claimed as being within their timber limits. The case was carried to the Court of Error and Appeal, and was dismissed with costs, thus giving effect to the verdict obtained by the plaintiff. "The effect," says the Kingston *Whig*, "of the elaborate judgment of the learned Chief Justice of Error and Appeal (the Hon. W. H. Draper, C. B.) seems to be that licensees of the Crown of timber limits, acquire no rights thereunder to cut trees growing on the original road allowances in a township—over the whole of which perhaps their limits may extend, and that such licensees are liable to the municipality for every stick cut after a by law has been passed for the protection of the timber. This decision will create great excitement in those townships where timber limits exist, and the lumbermen will have to account for their cutting and slashing on all allowances for roads. The Plaintiffs in this action have cause to feel grateful to their Solicitors for the successful termination of the matter, involving as it does the payment of some two thousand five hundred dollars damages, into the Township funds."

Bible Society.

Last night, the annual meeting of the Belleville Branch of the Upper Canada Bible Society was held in Ontario Hall. The attendance was large, and the proceedings were characterized by the utmost harmony. The addresses were generally eloquent, short, and to the point, and the choir, lead by N. Jones, Esq., discoursed most excellent music at intervals throughout the evening.

The chair was occupied by C. V. Bogart, Esq., President of the Society, and on the platform we observed Revds. Messrs. Wild, Smith, Carman, Lewis, Burton and Manly; Messrs. McAnnany, Martin and Dr. Holden.

The Chairman, in a short address, stated that the Society was now in as prosperous a condition as ever it was. During the year the collections, though made at an unfavorable season, considerably exceeded those of 1869. The Ladies' Society had come in contact with this Society in the way of subscriptions, but he was glad to say the ladies were doing a noble work, and hoped they would go on and prosper. He then called upon Mr. Martin, the Secretary, to read the

Aɴɴᴜᴀʟ Rᴇᴘᴏʀᴛ.

We rejoice that through the abundance and goodness of our God we are privileged to meet on this, the thirty-first anniversary of the Belleville Branch of the Upper Canada Bible Society.

While we have nothing of a special character to report in reference to the operations of this Board during the past year, it is gratifying to know that there is still, on the part of its members and friends, an earnest desire that the mission of the Bible Society may be still more and more successful, and that its agencies and operations may continue to widen and extend, until the Bible shall be in every household and possessed by every member of every household.

Influenced by the desire for the further circulation of the Word, we are glad to be able to report that as aforetime, nothwithstanding the many and repeated calls made upon them for various religious and charitable purposes, the Christian people of Belleville have nobly contributed towards the support of this truly noble and blessed cause, as will be seen when the Treasurer's report is laid before the meeting.

In the early part of the year your Committee, desirous of ascertaining if the wants of the rear Townships of this County were such as to require the labors of a Colporteur, appointed a Committee to make diligent enquiries relative thereto. That Committee, after making careful enquiry, and that from reliable sources, reported the result of said enquiries, and gave as their opinion that a Colporteur was not specially needed at that time. After deliberating on that report, your Committee decided not to employ a Colporteur until another season.

Your Committee not seeing occasion, therefore, to use any of the funds of the Society in this County, and being aware of many openings elsewhere, resolved to donate to the Upper Canada and their Parent Society their surplus funds.

Your Committee feel, with you, a deep sense of gratitude to Almighty God, for the blessings of peace and prosperity which have rested upon us as a people and a nation, and would try and realize the obligations which these advantages impose upon us. Yet while we rejoice in these, we cannot but feel deep sympathy for and with (and in this we feel we have the hearts of this Christian assembly with us) the thousands of the inhabitants of those lands on whom the terrible scourge of war, with all its attendant suffering, miseries and horrors, have come down, nor would they express their sympathy by words only, but by their efforts also, in connection with this Society, assist in sending forth the Word of Life to cheer and bless the suffering, at the same time offering up earnest prayer to Almighty God, that His Word may, accompanied by his Spirit, become so potent in its influence over the minds of rulers and subjects, that both, being influenced by its god-like and peaceful spirit, the day shall not be far distant when nations shall learn war no more.

The Committee rejoice to learn of the efforts put forth by the parent Society to distribute the Bible among the soldiers of the contending armies on the battle fields of France, and specially to rejoice in the success attending these efforts, in the comfort and support its truths afford the sufferer in his hour of severest trial, turning his soul's eye to the Captain of Eternal Salvation, pointing to the shed blood of the world's Redeemer, and directing his anxious spirit with faith and hope to his atoning Saviour.

F. McAnnany, Esq., Treasurer, submitted a report showing the subscriptions to have been $177.16; received from Depositary, $138; making a total of $315.76. Expenditure $292.17, including $100 to the Parent Society and $40 to the British and Foreign Bible Society, specially for France, leaving a balance of $23.59 in the Treasurer's hands.

M. Sawyer, Esq., Depositary, reported as follows:—

Stock on hand, Feb., 1870	$227 60
Received during the year	125 32
Total	$352 92
Stock on hand, 1st Feb., 1871	$193 47
Sold during year	159 45

Bibles sold, 179; Testaments, 377.

On motion of Rev. Mr. Leeds, seconded by Rev. Mr. Burton, these reports were adopted.

Mr. Martin moved, seconded by Rev. J. Wild, That the following list of officers for the ensuing year be adopted:

C. V. Bogart, President.

Lt.Genl. Hanwell, Dr. Helon, W. Reeves, Alex. Burdon, Dr. Hope, and C. I. Gould, Vice Presidents.

Chas. Martin, Secretary.

Rev. J. C. Smith, M. A., Corresponding Secretary.

F. McAnnany, Treasurer.

Merrick Sawyer, Depository.

Messrs. Wm. Johnson, E.J. Sission, W. Watt, G. Robertson, Dr. Stewart, A. G. Northrup, James Canniff, E. Goldsmith Andrew Thomson, and resident clergy who are members of the Society, Committee.

The motion was carried unanimously.

Rev. J. G. Manly, Agent of the Upper Canada Bible Society, then, at considerable length, addressed the audience, giving a concise historic record of what had been done by the instrumentality of the Bible towards civilizing and rendering happier the human race.

At the conclusion of this address, the usual votes of thanks were passed; the Rev. J. C. Smith pronounced the benediction and the meeting separated.

A very good collection, amounting to $22, was taken up, made so by the very liberal donation of $10 by some unknown friend present.

Presentation to Teachers of School No. 4, Belleville.

The pupils of School No. 4, Belleville, on the 6th February presented their teachers with addresses and valuable presents. It is always a pleasure to record these acts of kindness and expressions of confidence between teachers and those under their charge. The Teachers of No. 4 School are painstaking and highly efficient teachers, respected not only by their pupils but by all who know them.

The following are the addresses:—

"To Wᴍ. MᴄKᴇᴏᴡɴ.

Dᴇᴀʀ Tᴇᴀᴄʜᴇʀ.—We request your acceptance of this as a small token of our gratitude for the interest you have always shown in our welfare, the pains you have taken for our instruction, and the kindness with which you have borne with our waywardness—helping our weakness, and guiding our tottering feet in the paths of knowledge; and we hope that this Writing Desk will long continue to remind you of our affectionate regard, and of the pleasant, and to ourselves profitable hours spent in mutual intercourse within these walls.

We are, dear Teacher, for selves and fellow Scholars, Your loving pupils,

Mᴀɢɢɪᴇ Lɪɴᴋʟᴀᴛᴇʀ,
Bᴇʟʟᴀ Rᴏʙᴇʀᴛsᴏɴ."

"To Mɪss Uʀǫᴜʜᴀʀᴛ,

Dᴇᴀʀ Tᴇᴀᴄʜᴇʀ ᴀɴᴅ Fʀɪᴇɴᴅ.—We, your pupils, who have been instructed by you for so long a time, and have received from you so many marks of affection and interest, desire to express, in some manner, how much we know you have done for us, and how sincerely we esteem and love you. We are but little children, yet our hearts are true; and although we have often acted wrong, and given you trouble, we are sure you have forgiven us, and will accept this Work Box, which we offer as a slight token of our friendship and love. We hope our separation may be long delayed, and that we shall pass many more happy days together; and when the time comes for us to part, we will go from you with pleasant memories engraven on our hearts, and a prayer for your future happiness.

Accept our gift, and, dear Teacher, believe us to be

Your affectionate pupils,
Aʟᴍᴇᴅɪᴀ Pᴏsᴛ,
Eʟɪᴢᴀ MᴄCᴏᴜɴ,
For selves and fellow pupils.

Police Court.

(Before A. Dɪᴀᴍᴏɴᴅ, Police Magistrate.)

Wᴇᴅɴᴇsᴅᴀʏ, Feb. 8.

RESCUING A PRISONER.

Edward Sullivan was charged by the police with rescuing a prisoner whom they had arrested this morning about 2 o'clock.

P. C. Downes was sworn and said he and P. C. McCrudden had arrested William Sennett, for a breach of the peace, and prisoner threatened that if they did not let their prisoner go, he would "lick" them. He then attacked McCrudden, and pulled something like a pistol out of his pocket. Sennett got away in consequence of this violence. John Martin assisted the prisoner. Had his baton. Martin had a pair of steel or iron knuckles, and struck witness on the head. Struck Sullivan with his baton. All three got away at the time of the assault; about 25 minutes afterwards arrested Sullivan at the Anglo-American hotel.

P. C. McCrudden was sworn and said he arrested Sennett, as above stated, and corroborated the evidence of Downes as to the rescue.

Prisoner pleaded "Not Guilty," and was sent to gaol for trial.

VAGRANCY.

Thomas Martin was charged by the police with vagrancy. Prisoner urged that he was going to work when arrested this morning. In default of $1 fine and costs, prisoner was sent to gaol for 30 days.

DOG STEALING.

John German and George Hayes, of Consecon, were charged with stealing a dog, the property of Tobias Meyers. Evidence was gone into, at great length, and the case was postponed until Wednesday next.

The Situation in France.

Considerable delay has occurred in the revictualling of Paris, the responsibility for which the London *Morning Post* charges on the Prussian officials, who have detained nine trains, loaded with provisions, at Amiens, though the line is entirely clear. The British War Office and Admiralty are actively assisting in the efforts to supply the Parisians with food. Within Paris all is confusion, noisy meetings being held at which bombastic utterances are indulged in, concerning a continuance of the war. Trochu has declined to be a candidate for the Assembly at the forthcoming election, as also does General Ducrot.

—Captain Henry Lemmon, editor and proprietor of the Brantford *Courier*, was yesterday elected County Master at the meeting of the Brantford Orange Lodge for the current year.

Ontario Legislature.

Tᴜᴇsᴅᴀʏ, Feb. 7.

Mr. Anderson introduced a Bill to incorporate the Glenwood Cemetery Company of the Town of Picton.

Attorney General Macdonald introduced his resolutions (published last week) respecting aid to Railways.

In the course of a long speech, Mr. Macdonald said it was intended to aid Railways leading to the inland lakes; to the Ottawa and Rideau system of navigable waters; to lakes Simcoe and Nipissing and to the Georgian Bay. He proposed to fill up the blank in the third paragraph with the sum of $1,500,000 as the sum to be set apart for Railway purposes, and to give roads running through thinly settled tracts $2,500 to $3,000 per mile, while those which run through well settled counties would not receive more than $2,000 per mile.

A debate ensued, Mr. Blake moving an amendment to the effect that the money be equally distributed according to population, precaution being as its proper expenditure.

This motion was negatived after a warm discussion, by a vote of 51 to 26.

The Great Railway Accident.

THIRTY-FOUR BODIES RECOVERED.

STATEMENT OF A PASSENGER.

ALBANY, Feb. 7.—A special despatch, dated 9 a. m. this morning, says "30 dead bodies have been recovered, but so badly disfigured that they cannot be recognized By the statement of Mr. John G. Hunt, of Albany, who was a passenger on board the train, it appears that one of the cars attached to the down oil train- the second one from the engine—had a wheel broken and the engineman was attempting to stop on approaching the bridge, but was unable to do so, and in consequence, on arriving at the bridge, the engine and first car ran off into the creek, leaving the second car stretched across the track, on which the Pacific Express passenger train bound north was running. No signal or anything was shown to warn the express, which in a few minutes came along at full speed, and ran into the oil car, the force of the collision exploding and setting on fire the oil, and precipitating the engine and baggage cars from the bridge through the ice into the creek below. The sleeping car, following the baggage car, was dragged about half way off the bridge, and the fire from the burning oil, which was strewed around on the ice in every direction speedily communicated to, and totally consumed baggage and sleeping car with every soul on board. Spreading from thence to the second sleeping car, which still remained on the track, the fire rushed on, but the passengers fortunately escaped in time,some losing their clothes in their hasty departure. A lady and gentleman, who occupied a state room on the foremost part of the second sleeping car, had a very narrow escape, the flames having already communicated to it before they were fully aroused to the sense of the danger they were in. Passengers and employees in the remainder of the train, immediately on feeling the shock ran out, and the scene which met their eyes was of the most terrible description; the ice was completely covered with a sheet of flame. In its midst, almost entirely enveloped, lay the baggage and sleeping car; the blazing oil too had floated along the ice,and where the ice was broken,on the surface of the water to where several sloops and fishing boats lay frozen in and set fire to them, but the inhabitants of the vicinity extinguished the flames. The excitement usually attendant upon such scenes was not witnessed on this occasion, for every one seemed cool and collected. One body, supposed to be that of Vosburg the conductor, was pulled from the sleeping car and presented a sickening appearance, one leg being consumed," and the rest of the body so blackened and charred as to be beyond recognition. Our informant saw no other bodies taken from the car. Rushing to his death, the fireman of the Express train, on seeing the impossibility of avoiding a collision, jumped off, having previously advised the engineer to do the same, but the latter refused, saying he would go on through with his engine. He must have been burned *to death*, as he was precipitated in the midst of the burning oil. The bridge is a draw, and the distance from it to the ice below was scarcely six feet. Thirty-four bodies found. Later despatches from Poughkeepsie state that thirty-four bodies thus far have been found.

Morning Despatches.

Island of Jersey.

Stocks Firmer.

Queen's Speech.

LONDON, Feb. 7, 5 p m—The War Office has ordered enquiries to be made on the Island of Jersey as to what accommodation there are for quartering additional troops. It is proposed to send reinforcements of seven hundred men there at an early day, and the strengthening of the fortifications is contemplated.

The 'Pall Mall Gazette' says the improvement in stocks is in sympathy with the recovery of the French loan.

LONDON, Jan. 7.—The Queen in her speech to Parliament to-day, congratulates Parliament on the peaceful relations existing with all countries, and the prospects of a satisfactory settlement of questions with America—believes the conference will result satisfactorily to the signatory powers—laments the continuance of the war, and trusts the armistice will result in peace. She is anxious to render her friendly offices to the belligerents, and will take every opportunity to do all in her power as a neutral, for the restoration of peace, and re-establishment of interrupted trade. She announces the contemplated marriage of Princess Louise, and recommends the ballot, University, and Scotch Education Bills, the reorganization of the army on the basis of a large increase in the reserves, improved organization of the regulars, and especially artillery and engineers—a strong militia and an improved volunteer army.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Jan. 8.—The Brussels correspondent of the *Telegram* says: Odo Russell, the British Representative at Versailles, has been instructed to sustain the demand made by Favre for an extension of the armistice. Its prolongation is expected.

The 'Times' to-day says that all information received from Paris indicates a longing for peace at any price,

LONDON, Feb. 8.—Mr. Forbes, who arrived here with despatches from Minister Washburn, reports great suffering in Paris.

The elections will probably result in the return of peace candidates.

A long conference took place yesterday at the Prussian Embassy between Eugenie and Count Bernstorff.

The resignation of Gambetta, it is believed, indicates the abandonment of all hopes of the republic, and makes the restoration of the Empire certain.

The Confederate cotton loan, redeemable in gold by Mr. Jefferson Davis' Government in 1893, is still bought and sold on the London Stock Exchange. There are £2,485,-700 of it in the London market, which cost the subscribers about ninety per cent of its nominal value.

DIED.

At the residence of her son, Mr. Alex. Robertson, Front of Thurlow, on Tuesday, 7th inst., ELIZABETH, relict of Mr. Wm. Robertson, of Kincairnie, Scotland.

[The funeral will take place at 1 o'clock, p m, on Thursday, February 7]

At her residence in Belleville, on the 7th instant, Elizabeth Claxton, aged 50 years.

At his residence, 1st Concession Huntingdon, on the 29th December last, ROBERT WILSON, aged 95 years. Deceased was a native of the County Fermanagh, Ireland, and was the oldest settler in the Township, in which he had resided for upwards of 40 years.

CANADA
LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained. or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
January 25th, 1871. Manager.

Machinery for Sale.

THE subscribers have a lot of machinery on hand, including one Steam Boiler two Steam Engine Cylinders, one English Gate, and a lot of mill-irons, which they will sell cheap for cash.

Parties requiring such, can see schedule and size by calling at their office in Belleville.

Belleville, Oct. 6, 1870. 134:tf

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

SPECIAL NOTICES.

For Frost Bites,Chilblains,Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

EXTRACT.—I consider FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES superior to any similar preparation yet offered to the public. CHANDLER CRANE, M. D., Halifax, N. S.

It is really a good medicine, well adapted to build up the system and impart vigor of body and mind.—*From the St. John, N. B., Journal, 7th Dec.*, 1868.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg. Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping. colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for
MRS. WINSLOW'S SOOTHING SYRUP.
Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

The Rival Regiments.

A very pious and zealous chaplain of a Confederate regiment, called on a colonel not particularly noted for moral observances, in order to talk about the religious interests of his men. The chaplain was politely received, and requested to be seated on a campstool.

'I believe, Colonel,' said he, 'that you have one of the finest regiments in the service.'

'Yes' said the Colonel, 'I think I have.'

'Well, do you pay much attention to the religious instruction of your men?'

'Not much; very little said about Scripture in the drill book.'

'Well, I just called to mention the fact that in the Fifth Regiment the Lord has blessed our labors wonderfully, and ten men have already been baptized.' (This was a rival regiment.)

'Is that so, 'pon honor?' asked the Colonel.

'Yes, sir, I am pleased to say that it is.'

'Sergeant,' said the Colonel, calling to his orderly, 'have fifteen men detailed immediately to be baptized. I'll be hanged if that Fifth Regiment shall outdo us in any respect.'

The chaplain took occasion to bid the Colonel good day, and left.

There is a tendency in certain quarters to regard the engagement of the Princess Louise with the Marquis of Lorn, as a mesalliance; but surely a handsome young representative of one of the oldest houses of England and Scotland is preferable to a pauper prince or an old rake of royal lineage. It is true that by this marriage the royal Princess will become the sister-in-law of a clerk in a merchant's office of this city, Lord Walter Campbell; but is it not infinitely more creditable to be connected with a hard-working, honorable, commercial man than with legions of starved-out, good-for-nothing royal idlers, and hangers on to the skirts of rich relations? The Duke of Argyll is singularly lucky in exemplyfying in his own family that there is nothing in commerce to degrade nobility, and that there is nothing in nobility to degrade royalty. By a remarkable coincidence one of his sons strikes down the barrier which prejudice has built up between aristocracy and industry, while another son removes the boundary line that separated the royal from the unroyal blood of the British realm.

Sir John A. Macdonald still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrensic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

Christmas is Coming!

JAMES BROWN has now received his Stock for the winter. Belleville, December 9th, 1870. 188d

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care to furnish amusement and to inculcate knowledge and sound moral principles.

Circulation — Terms. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF

THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior. In point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly Gazette will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW

CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN

RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the reparative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the Kidneys, Secondary Syphilis, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the motion of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills** and **Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctoring for nine years, and cured at a cost of less than $20 dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills.** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

Widder Station, Ontario, Canada West,
March 11, 1869.

Dr. Radway:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.

GODEY'S LADY'S BOOK

For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies' Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequal.ed.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50

Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	[illegible]

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,

PHILADELPHIA.

CARRATRACA,

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink Carratraca and keep healthy.

Drink Carratraca and keep Cool during the "heated term."

Save the lives of the Children by giving them Carratraca.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

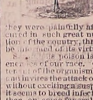
Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.



The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to Peters' Musical Monthly. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS'

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekl report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. Address the Publishers MUNN & CO.,
37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and displacements of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agent, for the purpose of cure, or removal of any settled disease, are utterly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS.

In Radway's Pills [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack. Doctor prescribes Blue Pills or Calomel; next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for*, without running any risk from mercurializing or salivating them, &c.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay of decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*,) the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,

CHILLS AND FEVER,

SCARLET FEVER,

Billious Fever

In the world. There is no Ague Cure [illegible] or preparation of Quinine, Arsenic, [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively [illegible]

Radway's Ready Relief.

No, not one. Thousands, from [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private [illegible] gorged liver, fat spleen, disordered [illegible] colored skin, and hundreds of [illegible] distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Bilious Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to [illegible] Ready Relief is good for hundreds of [illegible] that those are not.

One 25 cent bottle of Radway's [illegible] diluted in one gallon of proof spirit [illegible] equal in quantity, and superior in [illegible]

144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready [illegible] for 25 cents, as a Pain Remedy, and for [illegible] will secure every household [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] sickness, or accident takes place.

Painful Attacks when

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder.
Inflammation of the Bowels,
Congestion of the Lungs.
Sore Throat, Difficult Breathing.
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism.
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacœpia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physioligists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medines, prepared on new principles, and Pills ll oure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year, $2 50 for six months; $1 50 for three months.

Arrangements have been made with Reliable Correspondents in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,			$ 5 00
do	do	12	do	8 00
Half square,	6 months,			12 00
do	12	do		20 00
One square,	6	do		20 00
do	12	do		33 00
Two squares,	6	do		30 00
do	12	do		50 00
Three squares,	6	do		40 00
do	12	do		65 00
Four squares,	6	do		50 00
do	12	do		80 00
Notices of Births,				50
Do of Marriages,				50
Do of Deaths,				50

"Business Notices"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six, lines (per line) first insertion	0 08
Each subsequent insertion per line,	0 02

☞ "Business Notices"—[illegible] cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the Weekly Intelligencer presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The Daily and Weekly Intelligencer can be had at the Book Stores in Belleville, and Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful [illegible]. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publicatien.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer,* and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer,* as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,		$ 5.00
Club of 10	"	8.00
Club of 20	"	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESS^RS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

To the Editor of the Intelligencer.

The Ontario Wild Land Question.

FIFTH LETTER.

SIR,—In my last letter I stated that I had another list of restrictions yet to present, and this is the list of affidavits to be taken by an applicant for a Free Grant, we must suppose by way of an emetic to free him from the grossness of his old country antecedents, and to initiate him into the meaning of sharp practice. The following is the arrangement: the applicant

1st. Must swear that he or she has not been located before.

2nd. Must swear that he or she is 18 years old.

3rd. Must swear that he or she believes the land is suited for settlement.

4th. Must swear that the land is not valuable for mines, minerals or timber.

5th. Must swear that the land is desired for his or her benefit.

6th. Must swear that the land is for the purpose of actual settlement and cultivation.

7th. Must swear that it is not either directly or indirectly for the use or benefit of any other person or persons whomsoever.

8th. Must swear (twice) that it is not for the purpose of obtaining, possessing, or disposing of any of the pine trees.

9th. Must swear (twice) that it is not for any benefit or advantage therefrom.

10th. Must swear (twice) that it is not for any gold, silver, copper, lead, iron, or other mines or minerals.

11th. Must swear that it is not for any quarry or bed of stone, marble or gypsum.

After he has taken the above it is supposed to be too homœopathic, for when you apply at the Agent's for a grant of land, if the lot has been located before,

12th. *He and two others* must swear that no improvements have been done on it; or if any have been made,

13th. *He and two others* must swear to the value of such improvements.

Then if there be not sufficient good land on one lot and a second is required,

14th. *He and two others* must swear to the quantity of good land on each.

15th. *He and two others* must swear that he has children under 18 living with him, if he wants 200 acres as head of a family.

Hence, if a female of the age of 18 wishes to take up 100 acres, the ordeal through which she has to pass is the [illegible] a vow of celibacy, seeing that she must swear she does not want to benefit her husband *in prospectu* directly or indirectly; parents must also bear in mind that they have to swear against benefitting their children directly or indirectly; neither must a person take up a lot on which a mill privilege exists with the idea of taking a partner to build thereon. By non-observance in all these cases, the crime of perjury would be committed. The inference is that *a conscientious man could not take up a Free Grant* in Canada. Boards of control are not troubled with conscientious scruples, therefore an affidavit or two might be desirable on the other side; for instance, they should swear that the settler may have his land under the existing survey, and not be disturbed in after years by some vagary of the Department. They should swear that in case of dispute with the lumbermen justice should be done to the settler. They should swear that they will not give doubtful information, and they should swear that they will not take advantage of the doubt. They should swear that they will not take undue advantage in any way whatever, &c., &c.

One grave fact has never penetrated the Department, and that is that the Government has always labored under the erroneous idea that it is the emigrant who only receives benefit from his occupation in the wild lands, whereas, the true solution of the question is, that it is the country that receives the benefit, he the hardship. What is the value of a million of acres of the best hard wood land in Canada, if unoccupied? It is simply valuless, once admit this principle, and the whole system of restrictions and oaths and affidavits, and all the complicated machinery of red-tapeism would be annulled, the candidate for citizenship would be treated with the liberality he deserves, his interest would be considered second to no other interest, but superior to all, for his success is the present true prosperity of Canada.

Is there not an erroneous precedent followed out by invariably placing a legal gentleman at the head of the Crown lands? A gentleman of the desk merely, who by his training has but as little acquaintance with the back woods as he has of the whole fishery trade, whose proclivities lead him to favor his office as a valuable client, and employ his forensic experience in securing every possible advantage to his Department, and treating the public as a tenant on whom must be taken every possible advantage, yielding nothing, grasping all. Is not this a grievance iterated and re-iterated by the senate and press of Canada? Is it not ridiculed in the United States, and do they not say that the Crown Lands Department of Canada is the best friend they have?

After all that your correspondent has stated in reference to the lumbermen, it may be supposed that a feeling exists wholly against that important business; such is not the case in regard to lumbering as such. We should prefer an experienced lumberman, for instance, at the head of the Crown Lands, such an individual as the Hon. B. Flint, of this County, whose experience being of the right sort, energy of character and salutary influence would soon substitute a liberal policy for the emigrant, so that the settler should not, as it were, be landed in the remote desert, with no convenient access, when the expenses of transportation are enormous, and for the same reason his market is excluded.

The question may be asked, Why, if you are not satisfied, do you not leave the country, and not trouble others with your invectives? Thank you, I intend to leave, and will when the true value of a settler is known, and the present system of serfdom, is, like the Russian system, a matter of history, and forms one of its curiosities.

The subject is by no means exhausted, but I end for the present, and hope to see others help to ventilate the question. It only remains for me, Mr. Editor, to express my acknowledgements for your attention, and to forward the testimonials of the amount of success from a few of the settlers.

AN EMIGRANT.

United States Items.

There are 226 steam mills in California, and 117 are run by water power.

California's wool production last year, was 21,072,660 pounds—a large increase over 1869.

The money lost by the last Central Pacific Railroad robbery at Alto Station is stated at $8,000 in gold.

The receipts of wheat in Chicago during 1870 amounted to 17,394,409 bushels, 500,000 more than in 1869.

The operations of the clearing-house in Chicago, during the year 1870 show an increase of nearly $80,000,000 over the preceding year.

The whole of the capital stock of the proposed *Philadelphia line* of steamships, amounting to $700,000, has been subscribed.

The extensive coal ledge recently found in northern Arizona has been thoroughly tested and found first rate. Besides their mines of gold, silver, copper, and salt, Arizonians can now congratulate themselves upon having good coal beds.

The sales of real estate in San Francisco in 1870 amounted to the sum of $14,307,445 less than in 1869. This was caused by the explosion of the sand bank bubble, and the city will be all the better in the end for having had to come down to the bed rock.

The Sacramento *Bee* says; The Alvarado beet sugar is beautiful among sugars, and the public demand for it is ten times greater than the supply! Here that, ye capitalists who have lands to grow beets and money to erect mills, and let it not be said in after years that Calfornia cannot make her own sugar.

The Los Comeas of the *Daily Post* gives glowing accounts of the yield of ore from the new silver mines, near Ralston, New Mexico. Returns, he says, have been received from Newark, N, J., assayed, showing yields the lowest of which was $8,000.

Butte county, Cal., has a medical faculty which met at Chico the other day and fixed a 'price current' for the year. They charge $1 per mile for travel, $1 an hour for detention, $20 for consultation, $25 to $100 for obstetrics, reduction of arm or leg $50 to $100, amputation of same $50 to $150, amputation of thigh $100 to $250, operations for cataract $100 to $200.

Deaf and Dumb Wedding.

A double wedding took place, on the 4th inst., at Walcot church, Bath, which excited considerable interest from the fact that the contracting parties were deaf and dumb. The ladies were accompanied by four bridesmaids, three of whom were deaf and dumb; and the bridegrooms by four groomsmen, all deficient in speech and hearing. Canon Bernard, who is president of the Deaf and Dumb Institution, officiated, and at the conclusion of the ceremony a lad from the Blind School played the "Wedding March" and other appropriate music. The brides and bridegrooms, not being able to go through the service in the customary manner, followed the minister in his reading by running their fingers along the print, and when the all-important question was reached, 'Wilt thou have?' &c., they nodded their assent. A wedding breakfast was provided at the institution, and several suitable presents were made to them. It is needless to say that no speeches were made. During the afternoon they left for Clevedon, where the honeymoon will be spent.

How Grecian Bends are Made.

About twelve o'clock one Sunday, as people were returning from church, a lady dressed in the height of fashion, with a gorgeous Grecian bend of magnificent proportions, tripped down Second street Maysville, Ky., in the most approved style, like a cat treading on eggs. Just as she reached the corner of Second and Sutton streets, where the "gentles do most congregate," a newspaper, neatly folded, slipped from her skirt and fell on the sidewalk. A polite newsboy saw it fall, and called out to her that she had "drapped sumthin," but she kept her eyes fixed on vacancy and moved straight ahead without appearing to notice him. A few steps further another wad fell from the same region, and there was a diminution of the hump on her back. The boy yelled after her again, "I say, Missus, you're losing all your papers!" The only sign of hearing him that she gave was a quickening in pace, as if she was anxious to get away from those diggings as fast as possible. A kind-hearted lady who was walking behind her, and who understood the situation, at this moment hurried up along side and whispered that she was losing her bend. This information caused her to turn into a friendly stairway to repair damages; but just as she put her foot in the door an enormous bundle of papers, a hundred or so in number, dropped from beneath her skirts and rolled upon the sidewalk. The youngster, indignant at the treatment he had received, and the apparent disdain with which his polite attentions had been met, on this rushed forward, and seizing the bundle of papers startled Sabbath stillness on the streets with "Ere's your extra. Latest from the seat of war!" The lady, it is needless to say, didn't stop to take an extra.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

Daily Intelligencer.

BELLEVILLE, THURSDAY, FEB. 9.

TRAIN LATE.—The mail train from the West to-day was upwards of three hours late.

THE LECTURE TO-NIGHT.—We would again remind those interested that the Rev. Wm. Stephenson, of Ottawa, lectures, under the auspices of the Young Men's Christian Association, at Ontario Hall to-night. He arrived in town to-day, and expects a large audience. Make your appearance at 7:30.

THE FISHERIES QUESTION.—The absurd rumors regarding the settlement of the Fisheries question, recently promulgated by the Washington correspondents of New York journals, have been contradicted *in toto* by the Montreal *Gazette*, which says it has direct authority for so doing.

"BIBLE SOCIETY RECORDER."—The first number of the second volume of this interesting publication has been sent us by the Rev. John Gemley, and is a credit to the editors and publishers. In number one of [illegible] the March number of 1870 of the "Historical Reminiscences of the U. C. Bible Society." Besides this, there is a vast amount of missionary news from missionary agents throughout the Dominion.

MONTREAL "HEARTH STONE."—As its name implies, this is a home paper, filled with light reading, comprising serial and short stories, original and selected poetry, articles on familiar subjects, &c., which make it an excellent pictorial and literary paper. In general 'get up,' it is quite equal to the American weeklies of the same class. It has already gained a foothold in the Dominion, and, as a Canadian publication, ought be encouraged. T. H. Churchill, publisher, Montreal.

CONGREGATIONAL CHURCH SOIREE.—The Soiree last evening in the Congregational Church was largely attended, and the friends who were present were well repaid. The pastor, Rev. R. Lewis, occupied the chair. After refreshments in abundance, entertaining addresses were given by the Rev. Messrs. Smith, Burton, and Brethour; Messrs. Thos. Holden, Mayor, A. Thomson, Dr. Palmer, and Wm. Johnson; and the proceedings were further enlivened with music from the Choir. The best of feeling prevailed, and the esteemed pastor bids fair to become as successful as he is now popular in his new labors.

The Skating Carnival.

The Carnival which came off at the Victoria Skating Rink last night, was more successful, even, than anticipated. The costumes were brilliant and the characters generally well carried out; the elephant, in particular creating a good deal of amusement. The ice was in capital condition, and the band of the 15th Battalion played some excellent music, to the strains of which the skaters glided about in graceful evolutions. The following is a partial list of the characters; the remainder, consisting of many excellent costumes, we regret being unable to furnish:

LADIES.—Miss Murney, Roman Maiden; Miss N. Murney, Spanish Lady; Miss Ny. Murney, Court Costume; Miss Epps, Silesian Lady; Miss Jellett, Squaw; Miss Dixon, Hunting Costume; Miss Sisson, Spanish Lady; Miss McWhirter, Hunting Costume; Miss Perkins, Scotch Lassie; Miss Small, Scotch Lassie; Miss Diamond, Red Riding Hood; Miss Taylor, Night; Miss Fones, Squaw; Miss Smart, Scotch Lassie.

GENTLEMEN.—Mr. Crawford, Tartar Chief; Mr. Filliter, Spanish Count; Mr. Dickson, Clown; Mr. H. Filliter, Hunting Costume; Mr. Shaver, Page; Mr. Green, Spanish Bull Fighter; Mr. Stewart, Chinaman; Mr. Henderson, Clown; Mr. Henderson, Indian Chief; Mr. Lister, Chinaman; Mr. Leavens, Highlander.

We understand that another carnival, for the benefit of Mr. Dearnally, care-taker of the Rink, will be given in about three weeks.

—A man made a bet the other day that he could drink a pint and a half of Cincinnati whiskey in 12 hours. He won the bet, and his widow remarked at the funeral next day that it was the first money he had earned by hard work in ten days

Manitoba News.

Our latest fyles from Manitoba are dated Jan. 21. From them we make the following extracts:

The *News Letter* says that "a detachment of French half-breeds living on the Red River, started for St. Joe, with a quantity of supplies for Riel, whom they had determined to invite to return to the Province, being confident of their ability to defend him against all assaults." It is not at all probable, we imagine, that the late leader of the rebels, coward as he is, will return, in face of the warrant issued for his apprehension.

A new Wesleyan Church, for which the contract has been awarded, is to be erected, at a cost of $600.

The *News Letter* explains that the customs duties levied in Manitoba are not those imposed by the Canadian tariff—with which as yet, the Province has nothing to do—but the simple uniform duty of 4 per cent.

An elderly man named Grant—a voyageur—died suddenly on the steamer "International." He was a Scotchman by birth.

Archdeacon McLean lectured in the Recreation Room of the Ontario Rifles on January 17th, taking as his subject "Total abstinence as a safeguard to young men."

Donald A. Smith, who was reported as about to resign the seat in the Local Legislature, to which he was elected by spurious votes, has shown no indication of any intention to do so.

Trinity Church has been enlarged by the addition of a new transept, which doubles the capacity of the building.

A meeting of the friends of the murdered Scott was held at Winnipeg on January 20th, to consider the subject of erecting a suitable monument to his memory. After various suggestions had been made, it was decided that it should take the form of a wing to the new Wesleyan Church about to be erected.

From the Saskatchewan comes fearful accounts of the ravages of the small-pox. Nearly one-half of the French half-breeds had been swept away, and out of 700 cases of all classes reported, 270 had proved fatal. It is estimated, from reports furnished by hunters and traders, that fully 2,000 Cree Indians had died since last summer. Of the inmates of the Fort at Carlton, who were attacked by the disease, only two survived. Want of vaccination, of sufficient clothing and of proper facilities for the treatment of the sick are considered to be the causes of the fatality attending this terrible scourge.

The Government has determined upon taking four private rooms in Mr. Bannatyne's house for the sitting of the first Parliament of Manitoba.

The agents of the Dominion Government had brought into the Province the sum of $40,000 in Canadian Provincial notes. This was welcomed as an acceptable addition to the currency of the country.

The petitions against the return of Donald A. Smith, had been presented to Governor Archibald [illegible] to the Assembly as the only competent tribunal.

A murder is reported to have occurred in the Saskatchewan country, under the following circumstances: Some traders, says the *Manitoban*, went in there with liquor. A chief, the Fox, bought some, and with a number of others, got on a spree, during which they drank up all the liquor, except a kegful, which the Fox put by and wished to keep. Soon after his son came and demanded more liquor, and Fox refused, whereupon the son stabbed him to the heart!

The remainder of the news from the Province is made up of rumors of various kinds, which, if true, indicate that a good deal yet remains to be done for the pacification of the country.

Presentation to Dr. Oronhyatekha.

At a recent meeting of the Hastings Medical Association for the purpose of receiving the resignation of the Secretary, Dr. Oronhyatheka, a Committee was appointed to draft the following address and present it to the Dr. on behalf of the Association:—

DEAR SIR,—We were appointed by the Medical Association of the County of Hastings at its last meeting, to convey to you, their late Secretary, the regard in which you are held by the Association, and to express their regret that you have decided to leave this section of country. The members of the Association have observed with approbation, the sense of professional honor and dignity which has marked your practice for the years you have been among us—both towards your fellow practitioners and towards the public, and they recognized with pleasure your high professional acquirements and skill and success in applying them in practice, and knowing you so long and so well, they cordially recommend you to the confidence and good offices of those members of the profession whom you may meet in your new field of labor, and they wish you every possible professional and personal success.

Allow us to add, for ourselves, the expression of our warm personal respect and regard and our best wishes for your own happiness, and that of your wife and family.

DR. HOPE, M. D.,
Member of the Board of Exminers for the College of Physicians and Surgeons, Ontario.
R. HOLDEN, M. D.,
President of Hastings Medical Association.
D. E. BURDETT,
M. B., M. R. C. S., E., &c.

Dr. ORONHYATHEKA, Frankford.
Belleville, Jan. 31, 1871.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

THURSDAY, Feb. 9.

John Malyea, George Meehan, William Urquhart and John Lawlor were severally charged by the police with vagrancy. The two former were discharged, and the last two were fined $2 each and costs, or 30 days in gaol with hard labor.

The London *Telegraph* is the most widely circulated paper in England. From July 1 to Dec. 24 its daily issue averaged 190,855 copies.

The Narrow Gauge System.

The following, which we clip from the New York *Sun*, proves conclusively the success of the narrow gauge system, and the judgment displayed by the projectors of the lines now in course of construction in this province:

"We learn that the Ohio and Mississippi Railroad Company have determined to change their gauge from six feet to four feet eight inches and a half. This is a wise resolution. That road has been in operation some fifteen years, and under all changes of administration, it has lost money. Its experience establishes the principle that no broad gauge road can compete with one of a narrow gauge and pay dividends to its stockholders. The result with the Atlantic and Great Western, and the Erie, the only other six feet railroads in the United States, is equally conclusive. They must sooner or later follow the example of the Ohio and Mississippi and come down to the gauge generally in use. Until this is done, they cannot hope to make dividends, no matter how great the traffic is carried on over their lines."

News Condensed.

—The Dacian continues to grapple for the cable near Jamaica.

—Bis Belleau has been fully committed at Quebec for highway robbery.

—The road from Fort Garry to the north-west angle, is said to be now completed.

—Several cases of small-pox are reported in St. John's, and two deaths have occurred.

—Sir John Rose had an interview with the Privy Council at Ottawa yesterday.

—Ship-building in Miramichi is said to be very dull at present.

—Sir John Rose is in Ottawa, where he is the guest of the Postmaster General.

—The Parliamentary Houses are now completely set in order for the coming session.

—Mr. Workman, late Mayor of Montreal, is to be presented with a testimonial.

—An application is to be made to Parliament for an Act incorporating the Band of Liverpool.

—The Montreal Council has voted $1,000,000 for aid to railway projects now under construction.

—The contract for the steamers for the Lake of the Woods, has been awarded to Dick & Co., of Toronto.

—The Pacific Mail Company's steamer Favorite, was burned in Callao on the 22nd January.

—A committee has been appointed in the Nova Scotia House to try Garvie's petition against Hill's election.

—Taxation is so high in Quebec that many persons are renting houses outside the city walls.

—An effort is being made to have the Ottawa Post Office opened for a short time on Sunday mornings.

—Mr. Cayley, M. P., has been committed by the Police Magistrate of Montreal to stand his trial on the charge of perjury.

—A little girl, daughter of Mr. Caldebach, an employee of the Grand Trunk at Colborne, was fatally scalded, by falling into a vessel of boiling water, on Saturday last.

—A man named Thomas Primrose, accused of the murder of Thomas Dunn, an old pensioner, at London, Ont., in April last, has been handed over by the United States officials at Buffalo to the London police.

—The people of the City of New York begin to believe that public markets are nuisances, and so the city authorities are about to sell twelve large markets which that city possesses for $10,000,000.

—Military men have discovered a new remedy for intoxication. It is nothing more than raw potatoes, cut into slices and eaten without salt. An ordinary 'murphy,' it is said, will cure the most obstinate cases in half an hour.

—It is known that about 18,000 prisoners were taken in Paris, with 1,500 cannon, and 400 pieces and mitrailleuses. The gunboats in the Seine, and the rolling stock of the railways, were also appropriated by the Germans.

How an Editor may become Popular.

To be popular as an editor was for a long time a puzzler to us, having tried every way—but the right, we presume—that we could think of, but for a long time without remarkable effect. When editing weekly or daily papers, we tried to study the tastes of the people of the town or city, and wrote accordingly. In one town we found the people very fond of dancing, pic-nicing, &c., and we used to touch up the occasions in *au fait* style in our local column, making some very nice hits, which soon made us quite popular with the young folks; but the old fogies, the very persons on whom we had to depend for support, thought we were too light and did not give space enough to writing up their interests and withdrew their support. We then tried to write to suit all and failed worse than ever. We next tried noticing some great man of the locality. This would bring us two dollars for the paper one year, and make us fifty enemies, who were envious of him. Next we tried writing for the liquor interest, and of course we had to associate with the dealers too much, which almost ruined us. In another city where the Germans were very strong, we went with them, and of course had to go to their dances being usually the big man, and would be much bigger (around) when we left than when we went. And to make it worse, the opposition paper accused us openly with going to the German fancy balls, with the express desire to see the ladies in short dresses, &c. For this we whipped the editor, and loaned the city $25 in consequence, for which we have never got even the interest. We then wrote a strong temperance article, and published it in our daily, but before night, every whiskey man, great and small, withdrew his patronage, while we did not get a cent from the temperance men. We sold out that paper (to the Sheriff), and removed to another town, where we tried again, on another plan that proved more successful—and we can safely say now that the way to become a popular editor is to write to suit yourself, without respect to any one's opinion. In this way you may succeed, but in no other.—*American paper.*

A little boy who went to church was cautioned to remember the text, which was: —"Why stand ye all the day idle? Go into my vineyard, and whatsoever is right I will give thee." Johnny came home, and was asked to repeat the text. He thought over it awhile, and then cried out;—"What d'ye stand around here doing nuffin for; go into my barnyard and work; I'll make it all right with you."

Ontario Legislature.

WEDNESDAY, Feb. 8.

In the House there was nothing of very striking importance—the excitement consequent upon the debate on the Government railway resolutions being succeeded by a dullness on both sides of the House.

Several measures were advanced a stage, among which were Mr. Rykerts' bill respecting municipal institutions and Mr. Lyon's bill respecting the granting of certificates to married women who desired to convey away their property.

Mr. Anderson presented the report of the Select Committee on the Bill respecting municipal elections.

Mr. McMurrich moved in amendment to Mr. Blake's motion for the second reading of the bill to amend the Act incorporating the Toronto, Grey and Bruce Railway Co., that the bill be read three months from hence. After some discussion the amendment was carried by a good majority and the bill was consequently thrown out.

Several other railway measures were then read a third time and passed.

Two amendments were proposed by Mr. Clarke to the bill to amend the Act incorprating the Wellington, Grey and Bruce Railway, introduced by Mr. Williams, of Hamilton; but both were voted down and the report of the committe on the bill was received.

The third reading was ordered for to-day, and Mr. McMurrich gave notice that he had another amendment to the Bill which he would then bring up.

The House adjourned at 11:45 p. m.

The Situation in France.

The news from Paris is very unimportant this morning. We have some further reports of provisions arriving at the city and fears of disturbances at the coming elections. The longing for peace at any price is growing throughout the country, and it is likely that the present armistice will be extended for the purpose of settling terms of peace. The German army is to enter Paris on the 19th.

A little boy, whose mother had promised him a present, was saying his prayers before going to bed; his mind running on a horse, he began as follows: 'Our Father who art in heaven—ma, won't you give me a horse—thy kingdom come—with a string in it.'

LOST,

THIS morning on Front Street, a GOLD RING, setting Garnet and Pearls.
Any person returning the same to Mr. McFee, Jeweller, will be liberally rewarded.

Meeting of the Sidney Council.

TOWN HALL, SIDNEY, Jan. 16, 1871.

The following members duly elected to compose the Township Council for 1871 presented their declaration and qualification which were filed with the clerk. Baltis Rose, Reeve; Clement Armstrong, Deputy Reeve; John Rowe, Deputy Reeve; Robert E. Grass, Councillor; James A. Chisholm, Councillor.

Moved by C. Armstrong, seconded by R. E. Grass, That this Council adjourn for one hour. Carried.

Council resumed.

Moved by R. E. Grass, seconded by James A. Chisholm, That E. C. Ketcheson be put on the pay list for $1.50 out of the Township funds, as an overcharge on the Assessors Roll for 1870.—Carried.

Moved by R. E. Grass, seconded by James A. Chisholm, That John O'Brien be put on the pay list for $13.14, as back taxes refunded out of the Township funds.—Carried.

Jas. A. Chisholm introduced a By-Law for the appointment of Township officers for 1871, which was passed and numbered 175. The Reeve appointed John Johnstone as Auditor for 1870.

Moved by J. Rowe seconded by C. Armstrong, That Allen J. Ketcheson be Auditor for 1870.—*Carried.*

Moved by C. Armstrong seconded by J. Rowe, That tenders be received on or before the next meeting of this Council for the following offices: Treasurer, Collector, and Assessor; one Assessor from the front part of the Township, the other from the rear, said offices to be given to the lowest tenderer, of those persons that the Council consider competent to fill the said office, and give the required security that the law directs.—*Lost.*

Moved by R. E. Grass, seconded by Jas. A. Chisholm, That this Council appoint the Township officers for 1871.—*Carried.*

Moved by C. Armsrong, seconded by R. E. Grass, That the returning officers be put on the pay list.—*Carried.*

Moved by R. E. Grass, seconded by Jas. A. Chisholm, That the salary of the Assessors be $50 each; Collectors, $100; Treasurer $160; Clerk $100; and that the Registration of Births, Marriages, and Deaths, be included in the salary of the Clerk.—*Carried.*

Moved by J. Rowe, seconded by R. E. Grass, That this Council adjourn until the first Monday in February.—*Carried.*

The Eastern Question Settled.

Pacific Solution Attained.

LONDON, Feb. 7.—The Eastern Conference met again to-day with representatives in attendance from all the cosignatory powers except France. Upon its adjournment assurances were given out that a pacific solution of the entire Eastern question had been attained.

Ireland.

LONDON, Feb. 8.—At the Lord Mayor's banquet in Dublin yesterday Cardinal Cullen said the Catholics claimed and expected to obtain their own university and schools at the present session of Parliament.

Morning Despatches.

JAMAICA.

Affairs in Jamaica.

KINGSTON, Jamaica, Feb. 8—The British American fleet, with Admiral Fanshawe, has arrived. The Admiral is accompanied by General Munroe, from Barbadoes, who comes here for the purpose of making a military inspection and making Jamaica his military headquarters. The black troops are to be withdrawn. The Governor reports that the British Government cannot carry out the law against squatters until white troops arrive in sufficient force, as he cannot depend upon blacks.

American Despatches.

Narrow Escape from Accidents.

More Canards respecting the Fishery Question.

NEW YORK, Feb. 9.—On two occasions yesterday, the Hudson River Railroad narrowly escaped accidents, in either of which loss of life might have been terrible.

The *Tribune's* Washington special correspondent telegraphs that there is the very best authority for the announcement that the Alabama claims and Fishery troubles are to be immediately settled; and that Minister Schenck in conversation last evening, remarked that the public will know within 24 hours why he is detained, and the inference drawn from this and other hints dropped in official circles, is that a commissioner will be in Washington to-day with power to negotiate a treaty, and that Schenck is to have charge of the matter on the part of the United States. It is known that a proposition for a partial settlement has already been made by authority of the British Government, but that, the terms being unsatisfactory to the United States, negotiations were postponed. It is supposed that the agent who is expected to-day will have more extended powers. Sumner says there is not ground for the statement that he stands in the way of settlement with England.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 9.—A Belgrade despatch says that the Turkish Government is concentrating a large force of troops on the Roumanian frontier, and announces that they will remain there while the Paris treaty of 1856 is observed.

HAVRE, Feb. 9.—A despatch says that Thiers, Hurleter, Buree and Cordier, have been chosen to the national assembly for the department of the Lower Seine. The cities of Havre and Lille have been carried by the Republicans.

A Welhelmshoe despatch says that Napoleon has issued a proclamation to the French with reference to the elections.

The Paris press confirms the statement that France is to withdraw from the treaty of commerce with England.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 137-m-Th.

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no better Cough or Lung Medicine in use.

Gold 111⅛.

NEW YORK PRODUCE MARKET.

NEW YORK, Feb. 9.

Cotton 15¼c.

Flour quiet; receipts 9,000 bbls; sales 10,000 bbls at $6 10 to $6 25 for superfine state and western; $6 75 to $7 10 for common to choice extra state; $6 65 to $7 20 for common to choice extra western.

Rye flour steady.

Wheat unchanged; receipts 8,000 bus; sales 35,000 bus at $1 51 to $1 54 for new spring; $1 57 to $1 59 for winter red and amber western; $1 65 for white Michigan; $1 55 winter red Canada in bond.

Rye dull and nominal.

Corn steady; receipts 32,000 bus; sales 41,000 bus at 84c to 85c for new mixed western.

Barley dull and nominally unchanged.

Oats firmer; receipts 5,000 bus; sales 29,000 bus at 63½ to 67c for Western and Ohio.

Pork steady at $23 for new mess; $22 for old mess.

Lard seady at 12½c to 13⅛c for steam; 13½ for kettle rendered.

Butter and cheese unchanged.

CANADA
LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
January 25th, 1871. Manager.

THURSDAY, FEBRUARY 23.

Belleville, Oct. 6, 1870. 134tf

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists: Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Children whose brain development is unusually large in comparison with the body are most frequently singled out for a prematurely final resting place. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain, consequent upon active intelligence. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J: JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

AN IRON TONIC
SYRUP.
DROPSY HUMORS
MAKES THE WEAK STRONG

CAUTION.—All genuine has the name "PERUVIAN SYRUP," (not "Peruvian Bark,") blown in the glass. A 32-page pamphlet sent free. J. P. DINSMORE, Proprietor, 36 Dey St., New York. Sold by all Druggists.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed and for sale at the *Intelligencer Office*.

Great Britain.

When the first census of Belfast was taken, about a century ago, it contained 2,779 houses, with a population of 8,519 persons. Now the population is estimated at not less than 160,000.

Government has made up its mind to relinquish the vast patronage of the Customs and Inland Revenue—two of the largest departments under the Crown. This will throw some 8,000 or 9,000 appointments open to the public.

The temperance cause in England begins to enlist the sympathy of a large body of the clergy and laity of the Established Church. Diocesan Church Temperance Societies have been formed, and Bishops are "lending a hand."

James Simon, a native of Perth, died in Barossa street, on Sunday morning, of sheer old age. Simon, when a boy, enlisted in the 42nd Highlanders (Black Watch), and fought in that regiment throughout the Peninsular war, and at Waterloo under the Duke of Wellington.

As an instance of deliberate utterance, the *Saturday Review* tells the story of a country squire who once travelled with another squire to London. At the York Station one of the Squires said to the other, "Do you see that rat?" The other said nothing whatever until the train arrived at the London station, and then he said, "Towser would have worried that rat."

An announcement that goods are 'dog cheap' might be well enough in some cases, but we wouldn't advise a butcher to recommend his sausages in that way.

A pet lap-dog having bitten a piece out of a man's leg, the tender-hearted mistress exclaimed—'Poor Ponto! I hope it won't make him sick.'

Punch says that when beggars cease to importune you, it is time to begin to think about purchasing new apparel. Some respect is due to the opinion of others.

—An Irishman being asked in court for his certificate of marriage, showed a big scar on his head about the size of a fire shovel. The evidence was considered satisfactory.

A dentist, trying in vain to extract a decayed tooth from a lady's mouth, gave up the task with this apology: "The fact is, madam, it is impossible for anything bad to come from your mouth."

SIR JOHN A. MACDONALD still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrinsic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

Christmas is Coming!

JAMES BROWN has now received his Stock for the winter. New London Layer Raisins, Layer and Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Bloaters, Lochfine Herrings, Sea Salmon, Labrador and North Shore Herrings, Canso Herrings, No. 1 Digby Herrings, No. 1 and No. 2 Mackrel, Lake Huron Salmon and White Fish, Onions, and a complete assortment of Teas, Coffee, Spices and

General Groceries,

Liquors and Syrups, at
WHITEFORD'S BUILDINGS,
Front Street.

☞ The Legislative hour for selling liquor ceases at 7 p. m. on Saturdays.

Belleville, December 9th, 1870. 188d

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

HARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than $5 dollars.

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills.** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered.

JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Thomas, Danks, Kinkel, Bishop, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS'

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH. **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS--AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. address the Publishers

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Supbeyssions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that three* or more prescriptions are given for, without running any risk from mercurializing or salivating them.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*,) the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Billious Fever

In the world. There is no Ague Cure Chologogue or preparation of Quinine, Arsenic, [illegible] forms of Mercury, or, in fact, any remedy [illegible] will cure this disease so positively [illegible] as

Radway's Ready Relief.

No, not one. Thousands, from over[illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private [illegible] gorged liver, fat spleen, disordered [illegible] colored skin, and hundreds of [illegible] symptoms [illegible] distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cures the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Bilious Attacks, &c., than the Quinine Mixtures [illegible] Chologogues, &c., costing $1 to $[illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirit, will [illegible] you equal in quantity, and superior in [illegible]

144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of Radway's [illegible] cents, as a Pain Remedy, and for Family [illegible] will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills* and *Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacopia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are new medines, prepared on new principles, and *Pills* ll curesick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$ 5 00
do	do	12 do	8 00
Half square,	6 months,		12 00
do	12	do	20 00
One square,	6	do	20 00
do	12	do	32 00
Two squares,	6	do	30 00
do	12	do	50 00
Three squares,	6	do	40 00

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

J. A. HARTE, Druggist,

OTTAWA HOTEL,

ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,

MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

Scientific American

FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.

G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs..

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer

Second Year of Publicatien.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

FOR cheap printing go to "The Intelligencer" Office, Belleville,

FOR THE INTELLIGENCER.

An Adventure in the last Century.

In the year seventeen hundred and sixty, in the month of September, a traveller was riding on horseback along a lonely road in the South of England; the horse showed signs of fatigue. As the evening drew on the traveller wrapped his ample cloak more closely around him, and watched each thicket he passed with a vigilant eye, for those were days when highwaymen plied their lawless game almost with impunity, for the laws seemed next to powerless to arrest them in their wicked career, consequently our traveller was looking about him sharply, and eyed each passer-by, whether on foot or horseback, suspiciously, and gave them a wide berth, for those times highway robberies were often perpetrated by other than the professional footpad or 'knight of the road.' Tradesmen, pressed for money, or a ruined gamester, would, with masked faces, stop a lonely traveller and demand 'his money or his life,' with an apology for so doing, assuring their victim that nothing but dire necessity had driven them to that step; some even saying, after stopping a man, 'I am a tradesman carrying on a large business; I have the most urgent calls on me for money, which, unless I can produce by a certain day, I am a ruined man.' This is no ideal picture, but a positive fact, which many a man now living may have heard his father or grandfather speak of; indeed cases are mentioned where sums of money got in this manner have been returned with handsome interest; but these, like angels' visits, were few and far between, and only occurred often enough to add a certain sort of maudlin and fictitious romance to an act which can be described by no other name than that of ruffianism.

It will, therefore, not be wondered at that our traveller looked about him so cautiously.

'I wish,' he at length said to himself, 'I could get to the inn; it cannot be far off now, if my memory serves me, but ten years is a long time to remember a thing like that.' He travelled on for some time till in the distance he espied a lonely house, when he began to urge forward his tired horse, and in a short time he drew up at the door. 'The Salutation,' said he, reading the name of the house on the swinging signboard, 'a common name for an inn, but not a bad one.'

An ostler hurried out of the stable yard and held the horse while the traveller dismounted and went into the house, and was soon sitting by a comfortable fire in the commercial room, for the night was becoming chilly. He rang the bell; a waiter entered.

'Tell the landlord I would speak with him,' said the traveller.

The waiter retired and the landlord soon entered, making one of his best bows.

'How far is it from here to Stillington, landlord?' said the traveller.

'Fifteen miles, sir,' was the reply with another bow.

'Oh! then I could go there and back in a day easily. Is the road safe?'

'Yes, sir, there have been no highwaymen in these parts for the last six months,' said the landlord, 'but you can't be much afraid of them, sir, for the ostler tells me there are no pistols in your holsters.'

'No,' said the traveller, 'I had them stolen at the last stopping place, but I have no doubt you could provide me for this journey to Stillington, which I purpose taking to-morrow.' 'Shall be most happy sir; can I send you any refreshment,' said the landlord.

The refreshment was ordered, soon disposed of, and the traveller then was shown to his sleeping apartment.

The next morning, having taken breakfast, he ordered his horse to the door, the landlord called him on one side and said:

'I am sorry to find I have only one pistol in the house, and that is out of repair. It is the best I can do, but you are not likely to be stopped; if you are, present it boldly, and I have no doubt it will answer the purpose.'

The traveller was vexed, but could not help himself, so he started on his journey, met with no adventure, transacted his business in the town, and having rested his horse prepared to return. While trotting along he heard one of the horse shoes rattle, and seeing a smithy close at hand, stopped to get it set. The blacksmith was a conversational man, so after a few remarks he said:

'I suppose you carry fire-arms in these times, sir?'

The traveller looked at him suspiciously, but the man's face was honesty inself.

'I have one pistol,' said the traveller.

'Hope its a good 'un, these is bad roads,' said the smith.

The traveller felt desperate, for he had drawn a large sum at Stillington.

'No it is not,' he said, 'for it is out of repair.'

'That's a bad job,' said the smith, 'but perhaps I can mend it?'

The traveller having spoken thus far, showed him the pistol without hesitation.

'I can soon mend that,' said he after he had examined it, 'and if you are a good shot you will be a match for one man anyway, and highwaymen don't travel in pairs.'

The smith was as good as his word, and soon put the pistol in complete order, and having supplied the traveller with powder and ball the latter started on his journey.

He had got to within about five miles of the inn, when he had to pass through a thick copse; he felt for his pistol, which he had loaded, and clutched it tightly, and set spurs to his horse, but just as he was getting rid of his fears another horseman started out from the roadside, saying, 'stand and deliver.' It was now dusk, and the wood made it darker. The traveller could not see what his opponent was like, but he cocked his pistol and presented it full at the highwayman's chest.

The ruffian never budged.

'Give me way, or I fire,' said the traveller firmly.

No reply came, but the highwayman presented his pistol, the traveller hesitated no longer but fired, the ball went true and the highwayman with a groan fell backwards to the ground.

The traveller was horrified with the deed, though done in self-defence, gave his horse the lash and rode furiously towards the inn. Having arrived there he hastily threw the reins to an an attendant groom, hurried into the house and summoned the landlord.

The landlord was out the attendant said but was expected home shortly.

The traveller walked up and down the room nervously for some time, till his attention was attracted by a noise outside. He went out to see what was the matter, and met the waiter in one of the passages.

'What's the matter?' said he.

'Master's brought home dead, sir,' said the man, 'shot by a highwayman.'

The traveller hurried out muttering to himself, 'the same miscreant that stopped me, I dare say.'

One glance at the dead landlord told the whole truth. He it was who had been playing highwayman on the traveller, and had purposely given him a useless pistol so that he might be able to rob him the easier as he returned from town where he had been, as the landlord suspected, to draw a large sum of money; how he succeeded the reader already knows. The traveller said nothing, went to his bed room as if nothing had happened to him, sat in a chair all night and early next morning paid his reckoning, and took his leave without once being suspected of having known how the landlord met his death.

E. J.

Bridgewater, Feb., 1871.

Slowly Drowned!

A MAN BURIED ALIVE IN A WELL—WATER SLOWLY RISES AND DROWNS HIM!

An accident of a horrible nature occurred on the farm of Mr. Houston, near the village of Wyton, on Saturday afternoon last, resulting in the death by drowning of an aged well-digger, named Wm. Robies, of this city. The well on the premises became foul, and several parties were applied to to leanse it; but each one, on examination, refused, as, from the construction of the well, the process did not appear safe. It was an old fashioned well, 30 feet deep, and walled up with loose boulders. Robins undertook the job without fear, as he had been a well-digger of some thirty years' experience, and expressed no fears for his safety. The water was pumped out and he descended. About midway was a piece of pump-log running across the well, and blocking up the way. This he found it necessary to remove. But no sooner had the tackle been applied, and the wood started, than the stones and earth caved in on all sides, burying him beneath it. The block in some measure checked the descent, or else the unfortunate man must have been crushed to death immediately. But he was only spared to meet a more terrible death by slow drowning. Part of the debris formed a partial arch over him—the rest wedged him in tight below. Those above were almost paralyzed by the sight before them, and, for some time, thinking poor Robins beyond all hope of recovery, did nothing to extricate him. At last his voice was heard, as it were, afar off, feebly calling to those above to clear away the stones, and let him out. This re-assured the men, and one and all set to work with a will in the best manner that suggested itself; a man went down, and by means of a tub, lowered and risen by a windlass, a large quantity of the stones and earth was passed up. As fast as they worked, however, the earth kept falling in. All this while the voice of Robins was heard at intervals—now imploring deliverance in affecting terms, now making incoherent ejaculations, and again invoking mercy "The water is rising; it's now up to my knees; but work away boys and you'll save me yet;" came from away down in the bowels of the earth in a faint tone, but yet distinct enough to be understood. Then the voice broke into sobs of despair. Each time it was heard the men in the well and at the windlass put on fresh energy, and worked till great beads of sweat rolled off their brows; the crowd continually increased, until at last there was a very large excited assemblage on the spot. "It rises very fast; O let me out of this!" The thought that the man, besides the agony he must have endured from the pressure upon his body, was slowly drowning, lent fresh vigor to the work of deliverance, but the exhumation was extremely slow from the sandy nature of the soil, which fell in almost as rapidly as it was taken out. Thus the work went on for three hours, and at last the unfortunate man was reached. But he was dead. The water had gradually risen, and, unable to move, so firmly was he jammed in, he at last succumbed—actually drowned by drops! How frightful must have been his last agonies! Coroner Moore was communicated with, with the view of holding an inquest, but upon hearing all the circumstances he did not deem it necessary to do so.—*London Free Press.*

Indiana Divorce.—The probability of a wholesome reform in the divorce laws of Indiana is encouraging. It is proposed to amend them so that no divorce shall be granted for causes originating out of the State, unless the same causes would have entitled the parties to divorce under the laws of the State where they originated. Five years' residence is also to be required, instead of one as now: and the party must be a resident at the time of the trial. It is also to be made necessary that the defendant, when a resident of the State, shall be sued in the county where he resides. With these changes, Indiana will escape the disgrace she now suffers of being a convenience for those who wish to obtain fraudulent and unjustifiable divorce.

Shipments for the West through the St. Lawrence.

In relation to this important subject, the Montreal *Herald* has been put in possession of the following facts:—A Cleveland house having had its attention called to the advantages of the St. Lawrence over the New York route, determined to put the two to the most practical test which they could devise. They accordingly ordered a large shipment of crockery from England to be divided—one half to be forwarded by way of New York, the other by way of Montreal. The two parcels were placed on board the respective steamers in the same week, and the result in time was, that the parcel via the St. Lawrence was being opened on the same day that advices were received of the arrival of the other parcel in New York. The importers thought this promised sufficiently well for the success of their experiment to induce them to repeat it, so they at once ordered another lot to come through Canada, and this second lot also reached them before they got that one of the two first parcels which came by way of New York. The financial part of the two transactions showed charges at New York $70, against charges here of less than $20. These gentlemen have taken a considerable affection for Canada and its waters.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.

GOING EAST.

No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m.	6:20 a m.
Stirling, Marmora, Harold, &c.	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c.	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c.	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Rednerville, &c., everyTuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

Office Hours.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, FRIDAY, FEB. 10.

Arrival.—The steamship "Moravian" arrived at Portland at 5.25 p. m., yesterday.

Police Court.—At the Police Court this morning there were no cases for adjudication.

Imperial Parliament.—The Imperial Parliament was opened on the 9th by the Queen in person. We have already given a summary of the topics mentioned in the speech, which is more lengthy than usual.

Ball.—Last night a ball was given at Brown's hotel (late Bennett's). The attendance was considerable, there being upwards of 20 couples present. A pleasant evening was spent, and dancing was kept up until a late hour.

Canadian Illustrated News.—This week's number of the *Illustrated* contains several pretty views of Canadian scenery, a leggotype of the late great fire in Montreal, a two-page illustration of the market place at Thionville after the surrender, and a number of other good pictures. For sale at the bookstores.

Errata.—An error occurs in our report of the Sidney Council proceedings, published yesterday. The salary of the Treasurer, therein stated at $160, should read $60. In the address of the Medical Association to Dr. Oronhyatekha, Dr. Hope's name appears as "Dr. Hope, M. D.," instead of "W. Hope, M. D."

Albert College Literary Society.—We trust to see a large attendance at the entertainment to be given by the members of the Albert College Literary Society in Ontario Hall to-night. The chief feature in the programme is a debate, the subject of which is, "That a Coalition of Parties in a Government is Injudicious." Messrs. D. C. McIntyre and C. L. Chamberlain will support the affirmative, and Messrs. P. L. Dorland and J. E. Guess will be heard in the negative. Doubtless some keen intellectual fencing will be witnessed during the debate. The remaining items of a lengthy bill of fare consist of a Recitation by Master Ashton and an illustration of the sign language by Prof. Green, B. A. The music, of which there is a plentiful supply, will be furnished by the young ladies of the College and by Prof. Armstrong and troupe.

Chancery Spring Sittings.

The following are the dates of the Spring sittings of the Court of Chancery for the Eastern Circuit, over which the Hon. the Chacellor will preside:—

Ottawa	Wednesday	5th April.
Cornwall	Monday	10th April.
Brockville	Monday	17th April.
Kingston	Wednesday	19th April.
Belleville	Wednesday	26th April.
Cobourg	Tuesday	9th May.
Peterboro'	Tuesday	23rd May.

—Quebec is arousing from its lethargy. Several new branches of industry are to be established, among them a coal oil refinery on an extensive scale; and an effort is making to secure the transfer to that place of the Cornwall Woollen Manufacturing Company.

Minor Topics.

Sir Francis Hincks has written a crushing reply to Mr. Huntington, M. P., who, at a public dinner lately given him at Waterloo, made a gross personal attack on the Finance Minister.

The road to the North-West is getting on fast. Already, it is nearly completed from Fort Garry to the angle of Lake of the Woods; and it is probable that the whole of Mr. Dawson's route will be ready for traffic by the 15th of April.

The Sarnia Clear Grit paper says that there is no truth in the report that Mr. Alex. Mackenzie is to retire from the representation of Lambton. His name is mentioned among the candidates for West Middlesex, upon which a convention at Mount Brydges is to determine on the 21st inst.

The "35-ton gun" recently tested at Woolwich appears to be immensley superior in range and force to all but the equally-ponderous weapon used in the American navy. Shot fired from the Rodman was stopped, for instance, by armour plates, which were subsequently pierced at the increased great range of 2000 yards by the Woolwich gun.

Mr. Gladstone's declaration of his idea of England's policy, as given by him yesterday in the house of Commons, will be read with something like a sneer by those who have the higher interests of the British Empire at heart. The policy thus indicated has been tried by the Cabinet of which he is the head, and has, so far, proved a failure, which result is apparent in his present deserved unpopularity.

A rumor was started in Montreal on Wednesday by some reckless and unprincipled individuals, that Sir John A. Macdonald was again dangerously ill. The Ottawa correspondent of the Montreal *Gazette* thus disposes of the fabrication: "Sir John was in "the Council office to 6:30 last night, and is "at the present moment hard at work with "his private secretary at public business."

The *Globe's* Ottawa *canard* manufacturer is thus spoken of by the Ottawa *Times*: "If "Our Ottawa correspondent" were to mention that one 'opinion prevailing at the capital' is that he is one of the most persistent perverters of facts that ever existed, and that even the New York *Herald* correspondent sinks into insignificance beside him so far as being always incorrect in his statements is concerned, for once he would send a truthful and reliable despatch."—The *Times* writer no doubt knows his man thoroughly.

Body-snatching on an extensive scale has been perpetrated in the neighborhood of Montreal, and a strong feeling was in consequence being raised against the medical students of the city, for whose use in the dissecting room it was naturally conjectured the graves of the dead had been violated. Recent disclosures show that the students are blameless in the matter, and that the crime of body-snatching has in this instance been made doubly horrible from the fact that it was committed for the purpose of gain, the body-snatchers seeking in vain to dispose of their plunder at the various medical faculties.

Woman: Her Position and Influence.

The second of the course of lectures under the auspices of the Young Men's Christian Association was delivered last evening in Ontario Hall. Notwithstanding the inclement weather the hall was quite filled, the attractive subject and fame of the lecturer drawing a large audience. The chair was occupied by Dr. Relyea, who, after prayer by the Rev. Mr. Brethour, introduced with a few opening remarks the lecturer of the evening, Rev. Wm. Stephenson, of Ottawa. The Rev. lecturer commenced by referring to the Garden of Eden as the cradle of human existence, and eloquently depicting those happy scenes which nothing but the presence of woman was required to render complete. Whatever might be urged or adduced in argument by advocates of women's rights, God's own estimate of woman's sphere remained to this day unrepealed and unaltered—"It is not good for man to be alone." Her mission was to cheer and brighten the lot of man. Tender, gentle and patient, she was as essential to his happiness and well-being now as then. Who but a woman would hover around the bedside through the weary hours of night, oblivious of self, to bathe the throbbing brow or attend to the faintest wish. There was a difference in the love felt respectively between man and woman. Man loved woman because he could not love himself—woman loved man because her life would be aimless and desolate without some one to cling to and comfort in peril or prosperity. The intellectual *status* of woman was in harmony with the peculiarities of her sex in other respects. It was less vigorous and powerful than man's, but more warm and truthful to the impulses of the heart. Christianity had improved her condition greatly in this respect. In the palmiest days of philosophic but pagan Greece and Rome, she was degraded and her proper sphere ignored. Equally abject was her condition in the heathen countries of the present day. The two greatest and most powerful nations on the globe were those who recognized the indisputable rights of woman, and they were Britain and America. As to her influence, it was one of the mightiest instruments for good or evil in existence. It was less ostentatious than man's, but, unseen and unobtrusive, it virtually ruled the world. A man might rush to the yawning jaws of death, or stand indifferent 'mid the thunder of cannon, but he could not withstand the magic witchery of her eye. The greatest heroes, statesmen and philosophers were indebted to the mothers who moulded their characters for their successes in after life. The future destinies of coming generations were in the hands of the women of to-day. He would then kindly hint to the young ladies present that they were never sent into this terrestrial world to have for their sole end and aim in life to be *clothes-horses*, which, with other salutary and amusing advice, concluded the lecture. It was one uninterrupted strain of eloquence and vivid truth, and riveted the unwearied attention of the audience till its termination, when the usual vote of thanks was awarded to the lecturer. We are pleased to see that these efforts to entertain and instruct the people of Belleville are becoming better appreciated.

The next lecture will be delivered by the Rev. Joseph Wild. The subject, etc., will be announced in due time.

The Situation in France.

Under date of Paris, Feb. 7th, M. Favre writes to the Lord Mayor of London expressive of the gratitude of the government and people for the munificent gift of food received from the metropolis of England. The letter says the distress in Paris has been very great and still continues, but the city is tranquil.

M. Thiers is elected to the Assembly by an overwhelming majority. His success exceeds all expectations. The siege of Belfort continues. The Germans have carried by storm some of the out-works.

Ontario Legislature.

Thursday, Feb. 9.

The Speaker took the chair at 3:15 p.m., and after routine business Mr. Trow moved that the House, at its next sitting, do resolve itself into a committee of the whole and report the progress of the Bill respecting the Assessment Act.

Attorney General Macdonald raised a point of order that notice had not been given. He said there was no precedent for restoring a Bill after it had been thrown out by a Committee rising without reporting.

Some discussion took place on this point and the Speaker asked that the matter should stand over that he might have time to consider it.

Mr. Lyons' Bill to amend the act respecting the conveyance of real estate by married women was read a third time.

Mr. Trow's Game Law Bill was reported in Committee, with an amendment, changing the time of shooting from August to September, and is to be read a third time on the 10th.

Mr. Anderson's Bill for the prevention of corrupt practices at municipal elections, was thrown out.

Mr. Blake moved the second reading of the Bill for the protection of persons improving lands under a mistake of title.

Atty-Gen. Macdonald thought this would not be introduced this session, as Mr. Blake had not before pressed it. The Bill opened a wide field for mischief, and would destroy the titles of hundreds of land owners.

Mr. Pardee did not think the Bill would be injurious to land holders.

Hon. Mr. Cameron said the measure was calculated to deprive people of their rights. He moved a six months' hoist.

On motion of Mr. McKellar, the debate was adjourned, and the House rose at 6 o'clock.

News Condensed.

—The inundation has subsided at Rome, and damages are being repaired.

—The County of Wentworth is about erecting a new gaol.

—St. Louis expects to become the future great city of the world.

—Already has Amadeus, of Spain, been nicknamed Maccaroni I.

—But nine executions have ever taken place in the State of Vermont.

—Sir John Rose's visit to Ottawa is altogether of a private nature.

—The loss of Prussia in the present war is estimated to be about 300,000 men.

—A man who has tried it says that all the short cuts to wealth are overcrowded.

—O'Donovan Rossa will open a banking house and emigration agency in Broadway, New York.

—Candidates for election to the Local Legislature of Quebec, are already announcing themselves.

—The present war in France has added considerably to the number of lunatics in the asylums of that country.

—A youth named Hagerman has shot himself dead at Hamilton, Ohio, rather than fulfil a marriage engagement.

—The combined capital of the Rothschilds' banking houses in London, Paris, Frankfort and Vienna, is $500,000,000.

—The total receipts of the Northern Railway for 1870 were $753,569 52, being an increase of $82,491 over the preceding year.

—A boiler in Messrs. Albridge's saw mill, Waterdown, exploded yesterday, killing Messrs. Albridge and Woodhall.

—Bis Belleau, the famous Quebec jail breaker, pleaded guilty, and was sentenced to five years in the penitentiary.

—Hamilton is suffering badly from dust, which is being blown along the streets in dense clouds. They are considering the advisability of calling out the watering carts.

—Emperor William will not allow spoon-stealing among his officers. One of them is to be overhauled for taking some spoons from a hotel table at Etampes.

—A correspondent of the London *Daily News* mentions a report, according to which Alsace and German Lorraine are to become a fief of the imperial crown, governed by a viceroy and with a distinct Legislature.

—The filibustering steamer Hornet is reported to be at Port au Prince, flying the American colours, and preparing to return to the United States. A Spanish war steamer was watching her.

—Secretary Fish, Minister Schenck, Judge Nelson, Mr. Hoar, of Massachusetts, and Senator Williams, are said to have been appointed commissioners on the part of the United States for the settlement of the Alabama Claims.

—The oyster trade in the Chesapeake Bay in 1858 amounted to twenty millions of bushels, worth, at the average of a dollar a bushel, twenty millions of dollars. We believe it has not since reached that figure, but yet the trade is considerable, and the idea of taxing it heavily is regarded with little affection by all Virginians.

There is a man in Camden, N. J., who is provoked. He is absent-minded. A few nights since he went out to drive his cow. Arriving at the pasture-ground, he found that the cow was gone, but the bell which should have been around her neck was lying on the ground. He placed it in his pocket and forgot all about it. Every now and then it would give a smothered jingle and he would think it was his cow, and would start off in a fresh direction. He followed the bell, as he thought, until twelve o'clock that night, and walked twenty miles. When he reached home, the cow had been there five or six hours, and his wife went over to the city to advertise for him in the 'Lost and Found' column of the *Ledger*. Perhaps he wasn't mad when he found that bell in his pocket! His wife thinks he was a little extravagant in talking about the affair, but then she may be mistaken.

The Approaching Royal Marriage in England.

The government contractors are busily engaged in fitting up St. George's Chapel at Windsor for the approaching marriage of her Royal Highness the Princess Louise to the Marquis of Lorne, and have received directions to complete the extensive arrangements by the latter end of February, as it is expected the Royal marriage will be celebrated on or about the 9th of March. The preparations comprise a canopy over the steps of the grand entrance at the west end leading to the nave of the Royal Chapel, opposite the Horse-shoe cloisters; it will be 53 feet in length, and 16 feet wide, so that the Royal carriages may drive under in case of wet. On entering the chapel there will be a temporary room erected on the right hand side for the special accomodation of Her Royal Highness's bridesmaids, near the cenotaph of the late King of the Belgians, opposite to the cenotaph erected by the nation to the memory of his consort the Princess Charlotte of Wales. At the south entrance of the chapel, facing Henry VIII.'s gateway and the Castle Guardrooms, another portico 53 feet by 16 feet will be placed similar to the one erected at the marriage of of the Prince and Princess of Wales, for the convenience of the company who may be honored with an invitation to be present at the ceremony. A gallery will be built near the altar, between the Lincoln chapel, and the altar immediately fronting Her Majesty's private pews, for the accommodation of about 100 of those personages connected with the Duke of Argyll's family. Another covering will be placed, of similar dimensions to the two former, at the entrance of the cloisters, which will connect the Prince Consort's Memorial Chapel with the east end of St. George's Chapel, and form a convenient entrance to the former chapel, which is fitted up as a reception room for the accommodation of the ladies. The outside of the three porticoes will be covered with canvas, and the inside lined with crimson cloth, and decorated. The works are fast progressing, there being a large number of hands employed.

Morning Despatches.

The German terms of Peace.

The Elections in France.

Liberal Unionists Generally Successful.

NEW YORK, Feb. 9.—The *Herald's* London special says: The German terms of peace are the cession of Alsace and sixty German square miles of Lorraine; the part of Lorraine to be ceded includes Metz; the contribution of one and a half million francs for war expenses, thirty million francs for captured ships, and forty million francs for German workmen, clerks, and small industrials expelled from France, and a certain rente on a few millions on limited terms for the crippled and maimed Germans, and orphans caused by the war.

BORDEAUX, Feb. 9.—In the elections for the Assembly, the Republicans have been successful at Pan Perpignon and Oram, and in the departments of Ardeche, Marnet, Loire, Ariege, Indre and Herault. Conservative candidates have been elected from Poictiers and Montauban, and in the departments of Tarn and Garronne. The candidates of the Liberal Union party have been generally elected throughout France wherever they have been put in nomination. The Republican majority in Bordeaux is large.

GREAT BRITAIN.

Parliamentary Proceedings.

Debate on the Address.

Gladstone's Declaration of England's Policy.

HOUSE OF LORDS.

LONDON, Feb. 9 (6 p. m.)—The House of Lords met at 5.

The Marquis of Westminster moved the address to the Queen.

The Earl of Roseberry seconded the motion.

The Duke of Richmond hoped their Lordships would be unanimous in voting the address.

The Lords adjourned.

HOUSE OF COMMONS.

LONDON, Feb. 9 (6 p. m.)—On the return of the members of the House of Commons—

Mr. Gladstone rose and gave notice of a bill altering the religious tests.

Mr. Cardwell also gave notice of a bill providing for the reorganization of the army.

Major Hamilton moved the address in reply to the speech from the throne, seconded by Mr. Samuel Morley.

Mr. Disraeli made some remarks on the address, in the course of which he criticized the policy of the Government. He advocated an armed neutrality and a final pacification which would exclude all germs of hostility. He lamented the inaction of the Government last July, when it was able to influence both belligerents. The value of the efforts to procure the withdrawal of Prince Leopold from the candidacy of the Spanish throne could not be admitted, but it was then possible for the Government to withhold France from war by hinting at an armed nutrality, and employing its acknowledged influence in Prussia to induce her to forbear. Mr. Disraeli was equally severe in his comments on the course which England was made to take in the Black Sea question. Referring to American topics he denounced the hostile attitude of Mr. Sumner and others towards England, so unlike the attitude assumed towards other powers, and recommended that it should be encountered with forbearance and contempt. Yet passions might be aroused which could not easily be allayed. Therefore he hoped for the resumption of negotiations for the settlement of all questions between England and America. In the meantime, in view of the relations of England with foreign countries, he approved of the proposed increase of the military forces of the kingdom.

LONDON, Feb. 9.—Mr. Gladstone made an able speech in support of the address, and replied to the criticisms of Mr. Disraeli. He denied that there was any need of an armed neutrality last year. To advise Prussia against the Hohenzollern candidacy was going to the extreme limit of international right to interfere. The neutralization of the Black Sea had lost its importance to England since the Crimean war, and its maintenance had been abandoned by France. He believed England's true policy was non-intervention abroad, the study of domestic questions and observance of neutral rights and obligations. He begged the House would not fetter the Government's liberty of action, or doubt for a moment its aim to secure peace with honor and safety to the country

The address was agreed to and the House adjourned.

Relief of the Parisians.

LONDON, Feb. 10.—The corporation of the city of London yesterday subscribed £2,000 for the relief of the inhabitants of Paris.

ITALY.

Envoy fom Tunis.

FLORENCE, Feb. 10.—The Government here has been notified that an envoy from the Bey of Tunis is on the way to Florence, with instruction to settle the questions in dispute.

American Despatches.

The Alabama Claims Commissioners.

An Early Settlement of the dispute looked for

A U. S. Steamer Missing.

WASHINGTON, Feb. 9.—The Senate will reach a vote to-morrow on the nominations sent in to-day for commissioners to settle the claims between the United States and England. All the persons named were previously consulted, and signified their acceptance. Great Britain was willing to give the United States a selection of methods of adjustment, and even that the United States should designate the British Commissioners.

NEW YORK, Feb. 10.—The Tribune's special from Washington says that the approval of the steps thus far taken by the Executive is widely expressed here by men of all parties, and there seems to be a general feeling of satisfaction that our troubles with Great Britain are apparently so near settlement. The President's selection of commissioners meets with general approval also. It is known that that portion of the commission coming from England will sail at once, and it is altogether probable that the Joint High Commission will have organized and proceeded to business by the 1st of March.

NEW YORK, Feb. 10th, 9 a. m.—Up to this hour nothing whatever has been heard of the United States steamer Tennessee, and the apprehensions of those who have friends on board are becoming serious, although there is little doubt among those who should be best informed that some accident has befallen the vessel.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 10.—In the elections at Brest and Havre the Gambetta ticket was carried by a heavy majority.

A Versailles despatch says: The delivery of the cannon and arms of the army of Paris to the Germans, commenced on the 7th and continued through the 8th instant.

BERNE, Feb. 9.—The Swiss Government has ordered a sale of horses belonging to the French cavalry detained at Switzerland.

Sixty-two cars loaded with provisions for the French prisoners arrived in Switzerland from France.

BERLIN, Feb. 9—The Prussian Diet will probably close its sessions on the 18th inst.

MARRIED.

By the Rev. J. Wild, M. A., at the bride's residence, Front of Sidney, Feb. 9th, Mr. FRANCIS M. VANBLARICOM, to Miss MARY E. OSRTOM, both of Sidney.

CANADA LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
Manager.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Children whose brain development is unusually large in comparison with the body are most frequently singled out for a prematurely final resting place. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain, consequent upon active intelligence. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma,

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870;—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

Intercolonial Railway OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteeen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 6 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

Saving Manure.

J. M. Crafts, of Whately, Mass., writes as follows to the Boston *Cultivator* :—

For the last ten years I have not allowed any waste, from water or wind, of my manure, as I have carefully housed it all, and have endeavoured to save the urine by means of absorbents, placed in a trench behind my stock, using, more generally, peat muck for that purpose, sometimes I have used sand. The quantity and quality of the manure thus made is about in the same ratio—say one multiplied by ten. Antediluvians thought, and plainly told me that "I should spoil my land by using so much muck; it would sour it all up." But I have lived to see some of these same men drawing muck quite freely. It has, however, been attended with a good deal of labor—the supplying of the trench every day—and I have been casting about for some easier method of accomplishing the same result with less labor. I have just completed a new stable, 15 by 40 feet, making room for nine head of cattle and two horses. Underneath I have a basement room—above ground—that is the same size as the stable, and about eight feet high; a wall of stone surrounds it on three sides, three and one-half feet high, on which rests the sills of my barn. The whole cellar is enclosed and warm, so that I hope to prevent the manure from freezing in the winter. The bottom of the cellar is covered with old brick, laid flat ways down, and a little apart, and then covered and completely filled with hydraulic cement mortar, made so soft that it would easily fill every crevice between the bricks, and the coating will vary from one half to one inch on the top of the brick; the wall is pointed with the same material. This is done to prevent the pigs from rooting the bottom of the cellar all up, and to retain, to an extent at least, the urine not taken up by the peat and other absorbents supplied. I have now four pigs busily at work on the pile, and so far I am pleased with the result of my labors, and hope to make more manure and better than I have ever done before.

A good joke is told in Washington at the expense of a well known Senator, who is notorious for taking two cocktails in succession before breakfast. One morning, while the Senator was practicing at the metropolitan bar, a friend put to him the pertinent question: "Senator, why do you take two cocktails as a custom? Won't one tone you?" The Senator drew himself up. "I will tell you why I take two cocktails. When I have taken one it makes me feel like another man. Well, you see I am bound in common courtesy to treat that man; so I take a second."

Christmas is Coming!

JAMES BROWN has now received his Stock for the winter. New London Layer Raisins, Layer and Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Bloaters, Lochfine Herrings, Sea Salmon, Labrador and North Shore Herrings, Canso Herrings, No. 1 Digby Herrings, No. 1 and No. 2 Mackrel, Lake Huron Salmon and White Fish, Onions, and a complete assortment of Teas, Coffee, Spices and

Belleville, December 9th, 1870. 188d

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports.	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the [illegible]

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the wastes and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than $5 dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT,

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN'
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS'

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MONTHLY

$60 for $3.

THE BEST IN THE WORLD
The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS,*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞1,500 **Cash Prizes.**☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

from the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and disorders of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS.

In RADWAY'S PILLS (which are the only *perfect Purgative Pills*) you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effects of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*), the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever.

In the world. There is no Ague Cure, Cholagogue or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of enlarged liver, fat, spleen, disordered kidneys, sallow colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and [illegible] Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirits will give you equal in quantity, and superior in quality, to [illegible] 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas, [illegible] &c. **these** remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of **Radway's Ready Relief**, for 2 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom from sickness, and can be used for the same [illegible] would cost at least ($25) twenty-five dollars [illegible] to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills* and *Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physioligists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are new medines, prepared on new principles, and Pills will curesick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$ 5 00
do	do	12 do	8 00
Half square,	6 months,		12 00
do	12 do		20 00
One square,	6 do		20 00
do	12 do		32 00
Two squares,	6 do		30 00
do	12 do		50 00
Three squares,	6 do		40 00
do	12 do		65 00
Four squares,	6 do		50 00
do	12 do		80 00
Notices of Births,			50
Do of Marriages,			50
Do of Deaths,			50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six, lines (per line) first insertion	0 08
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"— cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

Within the past three months the circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews,	$4.00 per annum
For any two of the Reviews,	7.00 "
For any three of the Reviews,	10.00 "
For all four of the Reviews,	12.00 "
For Blackwood's Magazine,	4.00 "
For Blackwood and one Review,	7.00 "
For Blackwood and any two of the Reviews,	10.00
For Blackwood and three of the Reviews,	13.00
For Blackwood and the four Reviews,	15.00

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY
as the very best parlor periodical that we know.

It is more complete in its departments than any other.

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 384 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

The Prayer-Seeker.
J. G. WHITTIER.

Along the aisle where prayer was made
A woman, all in black arrayed,
Close-veiled, between the kneeling host,
With gliding motion of a ghost,
Passed to the desk and laid thereon
A scroll which bore these words alone,—
Pray for me!

Back from the place of worshipping
She glided like a guilty thing:
The rustle of her draperies stirred
By rustling feet alone was heard;
While, full of awe, the preacher read,
As out into the dark she sped:
Pray for me!

Back to the night from whence she came,
To unimagined grief or shame!
Across the threshold of that door
None knew the burden that she bore;
Alone she left the written scroll,
The legend of a troubled soul:
Pray for me!

Glide on, poor ghost of woe and sin!
Thou leav'st a common need within;
Each bears, like thee, some nameless weight,
Some misery inarticulate.
Some secret sin, some shrouded dread,
Some household sorrow all unlaid.
Pray for us!

Pass on! the type of all thou art,
Sad witness to the common heart!
With face in veil and seal on lip,
Like thee we wander to and fro,
Dumbly imploring as we go:
Pray for us!

Ah, who shall pray, since he who pleads
Our wants perchance hath greater needs?
Yet they who make the loss their gain
Of others shall not ask in vain,
And heaven bends low to hear the prayer
Of love from lips of self despair;
Pray for us!

In vain remorse and fear and hate
Beat with bruised hands against a fate,
Whose walls of iron only move,
And open to the touch of love.
He only feels his burdens fall
Who, taught by suffering, pities all.
Pray for us!

He prayeth best who leaves unguessed
The mystery of another's breast.
Why cheeks grow pale, why eyes o'erflow,
Or heads are white, thou need'st not know,
Enough to note by many a sign
That every heart hath needs like thine.
Pray for us!

THE FISHERY QUESTION.
THE ALABAMA CLAIMS.
A HIGH COMMISSION PROPOSED.

CORRESPONDENCE OF MINISTER THORNTON AND SECRETARY FISH—AGREEMENT OF THE TWO GOVERNMENTS—A COMMISSION TO BE APPOINTED.

WASHINGTON, Feb. 9.

The President sent to the Senate a brief message to day, enclosing the following correspondence:—

SIR EDWARD THORNTON TO MR. FISH.

WASHINGTON, Jan. 26, 1871.

SIR,—In compliance with instructions received from Earl Granville, I have the honor to state that Her Majesty's Government deem it of importance to the good relations which they are ever anxious should subsist, and be strengthened between the United States and Great Britain, that a friendly and complete understanding should be come to between the two Governments, as to the extent of rights which belong to the citizens of the United States and Her Majesty's subjects respectively, with reference to the fisheries on the coasts of Her Majesty's possessions in North America, and as to any other questions between them which affect the relations of the United States and these possessions. As consideration of these matters would, however, involve investigations of a somewhat complicated nature, and as it is very desirable that they should be thoroughly examined. I am directed by Lord Granville to propose to the Government of the United States the appointment of a Joint High commission, which shall be composed of members to be named by each Government, and shall hold its sessions at Washington, and shall treat of and discuss the mode of settling the different questions which have arisen out of the fisheries, as well as those which affect the relations of the United States towards Her Majesty's possessions in North America. I am confident that this proposal will be met by your Government in the same cordial spirit of friendship which has induced Her Majesty's Government to tender it, and I cannot doubt that in each case the result will not fail to contribute to the maintenance of the good relations between the two countries, which I am convinced the Government of the United States, as well as that of Her Majesty, equally have at heart. I have the honor to be, with the highest consideration, sir, your most obedient and humble servant,

EDWARD THORNTON.

To the Hon. Hamilton Fish, etc., etc.

FISH TO SIR EDWARD THORNTON.

DEPARTMENT OF STATE,
WASHINGTON, Jan. 30, '71.

SIR,—I have the honor to acknowledge the receipt of your note of Jan. 26, in which you inform me in compliance with instructions from Earl Granville, that Her Majesty's Government deem it of importance to the good relations which they are now anxious should subsist and be strengthened between the United States and Great Britain, that a friendly and complete understanding should be come to between the two Governments as to the extent of the rights which belong to the citizens of the United States and Her Majesty's subjects respectively with reference to the fisheries on the coast of Her Majesty's possessions in North America, and as to any other questions between them which affect the relations of the United States towards those possessions, and further that as the consideration of those questions would involve investigations of a somewhat complicated nature, and as it is very desirable that they should be thoroughly examined, you are directed by Lord Granville to propose to the Government of the United States the appointment of a joint High Commission, which shall be composed of members to be named by each Government, shall hold its sessions at Washington, and shall treat of and discuss the mode of settling the differences which have arisen out of the fisheries, as well as those which affect the relations of the United States towards Her Majesty's possessions in North America. I have laid the note before the President, who instructs me to say that he shares with Her Majesty's Government the appreciation of the importance of a friendly and complete understanding between the two Governments with reference to the subjects specially suggested for the consideration of the proposed joint High Commission, and he fully recognizes the friendly spirit which has prompted the proposal. The President is, however, of the opinion that without the adjustment of a class of questions not alluded to in your note, the proposed High Commission would fail to establish the permanent relations and the sincere, substantial and lasting friendship between the two Governments which in common with Her Majesty's Government, he desires should prevail. He thinks that the removal of the differences which arose during the rebellion in the United States and which have existed since then, growing out of the acts committed by several vessels, which have given rise to the claims generally known as the Alabama claims, will also be essential to the restoration of cordial and amicable relations between the two Governments. He desires me to say that should Her Majesty's Government accept this view of the matter and assent that this subject also may be treated of by the proposed High Commission, and may thus be put in the way of a final and amicable settlement. This Government will, with much pleasure, appoint High Commissioners on the part of the United States, to meet those who may be appointed on behalf of Her Majesty's Government, and will spare no efforts to secure at the earliest practicable moment a just and equitable arrangement of all the questions which now unfortunately stand in the way of an entire friendship between the two nations. I have the honor to be, with the highest consideration, Sir, your very obedient servant,

HAMILTON FISH.

To Sir Edward Thornton, K.C.B., &c.

SIR EDWARD THORNTON TO MR. FISH.

WASHINGTON, Feb. 1st, 1871.

SIR,—I have the honor to acknowledge the receipt of your note of the 30th ult., and to offer you my sincere and cordial thanks for the friendly and conciliatory spirit which pervades it. With reference to that part of it in which you state that the President thinks that the removal of the differences which arose during the rebellion in the United States, which have existed since then growing out of the acts committed by several vessels, which have given rise to the claims generally known as the Alabama claims, will also be essential to the restoration of cordial and amicable relations between the Governments. I have the honor to inform you, that I have submitted to Earl Granville the opinion thus expressed by the United States, the friendliness of which I beg you to believe I fully appreciate. I am now authorized by His Lordship to state that it would give Her Majesty's Government great satisfaction if the claims commonly known by the name of the Alabama claims were submitted to the consideration of the same High Commission by which Her Majesty's Government have proposed that the question relating to the British possessions in North America should be discussed, provided that all other claims, both of British subjects and of citizens of the United States, arising out of the acts committed during the recent civil war in this country, are similarly referred to the same Comission. The expressions made use of in the name of the President in your above mentioned note with regard to the Alabama claims convince me that the Government of the United States will consider it of importance that these causes of dispute between the two countries should also, and at the same time be done away with, and that you will enable me to convey to my Government, the assent of the President to the addition which they thus propose to the duties of the High Commissioners, and which cannot fail to make it more certain that its labors will lead to the removal of all differences between the two countries. I have the honor to be, with highest consideration, Sir, your most obedient humble servant,

(Signed,) EDWARD THORNTON

To the Hon. Hamilton Fish, etc.

MR. FISH TO SIR EDWARD THORNTON.

DEPARTMENT OF STATE,
WASHINGTON, Feb. 3, 1871.

SIR,—I have the honor to acknowledge the receipt of your note of the 1st instant in which you inform me that you are authorized by Earl Granville to state that it would give Her Majesty's Government great satisfaction if the claims commonly known by the name of the Alabama claims were submitted to the consideration of the same Commission by which Her Majesty's Government have proposed that questions relating to the British possessions in North America should be discussed, provided that all other claims, both of British subjects and citizens of the United States, arising out of acts committed during the recent civil war in this country are similarly referred to the same Commission. I have laid your note before the President, and he has directed me to express the satisfaction with which he has received the intelligence that Earl Granville has authorized you to state that Her Majesty's Government has accepted the views of this Government as to the disposition to be made of the so-called Alabma claims. He also directed me to say, with reference to the remainder of your note, that if there be other and further citations of British subjects or American claims, growing out of the acts committed during the recent civil war in this country, he assents to the propriety of their reference to the same high Commission, but he suggests that the High Commissioners shall consider only such claims of this description, as may be presented by the Governments of the respective claimants at an early day to be agreed upon by the Commissioners. I have the honor to be, with the highest consideration, Sir, your obedient servant,

HAMILTON FISH.

To Sir Edward Thornton, K. C. B., &c.,&c

THE NAMES OF THE COMMISSIONERS

nominated by the President on the part of the United States to adjust the claims with great Britain are contained in the President's confidential message to the Senate to-day. They are understood to be Secretary Fish, Minister Schenck, Judge Nelson, of the Supreme Court, Mr. Hoar, of Massachusetts, and Senator Williams. The Senate, immediately after the receipt of the message, went into executive session on the subject.

Daily Intelligencer.

BELLEVILLE, SATURDAY, FEB. 11.

THE ALABAMA CLAIMS.—We publish in other columns the correspondence between Secretary Fish and Minister Thornton which has lately taken place regarding this much-vexed question. It would appear that a settlement on an equitable basis is now likely to ensue.

RACE ON THE ICE.—Yesterday a trotting race took place on the ice at Trenton, between two horses owned respectively in Brighton and Trenton. The race, which was for a stake of $100 a side, was won by the Trenton representative. A second match is to be trotted at Brighton between the same animals.

NEWS FROM ABROAD.—The following item is going the rounds of the press: "An extensive fire occurred in Belleville on Thursday night, destroying $800,000 worth of property." Have any of our readers heard of this great fire, or who were the unfortunate owners of the property destroyed? Probably the Belleville referred to is situated in Illinois or in New York; but the fact should be so stated to make it intelligible to Canadian readers.

SUDDEN DEATH.—We learn from the Norwood *Register* that last Thursday evening Mr. R. Milligan was found dead in his house. He was about 60 years of age, of intemperate habits, and for some time past had been living by himself in a small house in the north-west corner of the Township of Asphodel. The Coroner, Dr. Fife, of Hastings, held an inquest on the body on Friday evening, and the jury returned a verdict of "Died from excessive drinking, exposure and neglect."

FATAL ACCIDENT.—We regret to learn that Mr. John Booth, aged about 22 years, son of Mr. Richard Booth, conductor on the Grand Trunk Railway, Belleville, met with an accident at the Don Station, Toronto, on Friday night, Feb. 10th, which resulted fatally. Booth was in the act of coupling cars, when one of his feet caught in the "frog," and being unable to free himself, the cars caught him and the wheels passed over him, severing both legs from the body, just above the knees. He lived but a short time after. The body was brought to Belleville, and will be buried on Monday next.

FISHING VESSELS FORFEITED.—A Halifax despatch of the 10th, states that the schooners A.H. Wonson and A.J. Franklin, together with their stores, cargo, &c., were condemned to-day, as forfeited to the Queen by reason of their violation of the fishery laws, by the Vice Admiralty Court. The judge, in prononncing judgment, expressed his regret at the painful duty imposed upon him, but the evidence was so conclusive that he could not refuse to believe it. In the latter case he expressed a hope that the Dominion Government would act liberally and remit the penalty in whole or in part. Notice of appeals in both cases was given by counsel for the defense.

Spring Assizes—1871.

MIDLAND CIRCUIT—MR. JUSTICE MORRISON.

Whitby	Monday	20th March.
Napanee	Monday	27th March.
Cobourg	Monday	10th April.
Lindsay	Monday	17th April.
Peterboro'	Friday	21st April.
Picton	Tuesday	2nd May.
Belleville	Friday	5th May.

Grand Junction Railway.

A correspondent of the Norwood *Register*, who lately visited the works of the Marmora Iron Company at the village of Blairton, thus speaks of the operations going on:—

"Under the superintendence of a practical mining Engineer, Mr. Goodall, they are now removing from the pit some of the very best iron ore to be found on the continent of America. Early in the spring they intend putting on a force of 200 men, and calculate to take away 90,000 tons of ore. They say if a better mode of transit existed from the ore bed to Lake Ontario, this amount could be easily increased to 400,000 tons. What, Mr. Editor, could the Provisional Directors of the Grand Junction Railway be thinking of to propose running directly away from this vast amount of good paying freight? In that same iron mountain, in the Township of Belmont, lies buried enough wealth to secure for that road a prosperous existence for the next fifty years, if its promoters will only open their eyes to see it."

The correspondent is in error. The Provisional Directors of the Grand Junction Railway never lost sight of the wealth which lies buried in the Belmont ore beds. On the contrary, they have constantly looked upon that traffic as one of the greatest inducements to capitalists to invest their money in the undertaking.

The Peterborough papers, and people in Norwood, should remember that the defining of the route was not the act of the Provisional Directors, but of the County Council of the County of Peterborough, as much against the wishes of the Directors, as the people of the northern part of Asphodel, Belmont, Dummer, or Douro. Those at the eastern end, interested in the construction of the road, would much rather have had the route left to be decided by competent engineers. Any deviation from such a course was the action of the Council of Peterborough, and not of the Provisional Directors. It would be as well if our Peterborough cotemporaries would bear this in mind when writing upon this subject, and cast the blame, if any, upon the right shoulders.

Literary and Musical Soiree.

The entertainment given last evening by the Literary Society of Albert College went off very successfully, the Ontario Hall being well filled with a select audience. The proceedings commenced with an overture by the Armstrong Band, after which Mr. C. Kingston, President of the Society, delivered an appropriate address; which was followed by a nicely rendered piano forte solo, by Miss Gilbert. Mr. J. Ashton than recited "Uncle Steve's stump speech," in an amusing manner, the comic effect of which was relieved by a vocal duet, prettily sung by Misses Richardson and Ladu. Next came the grand feature of the evening, a debate upon the thesis "A coalition of parties in a Government is injudicious," the affirmative of which was maintained by Messrs. D. C. Macintyre, and C. L. Chamberlain, and the negative by Messrs. G. L. Dorland and J. T. Guess. After a spirited discussion the question was decided in the negative by a large majority of the audience, who were evidently in favor of Coalitions. A trio by the Armstrong family was *encored*, and the Rev. Mr. Wild in a happy speech apologized for the omission of Messrs. Wright and P. E. Carman's "Marseillaise" from the sickness of the latter gentleman, and of Professor Green's "Mute Language," owing to an unfortunate accident. Professor Dawson read Lover's amusing sketch of "The Gridiron" in a genuine Irish brogue and with genuine Irish humor. Mr. H. Wilton sang a comic song, in character, which was loudly *encored*, and the audience was convulsed with laughter by the humor of Messrs. Ross and McAmond in "The Rival Orators." Mr. Oswald wound up the performances with a finely executed violin solo, and "God save the Queen" was the signal of dismission to a delighted audience.

Ontario Legislature.

FRIDAY, Feb. 10.

The Speaker gave his decision in favor of placing Mr. Trow's Assessment Bill upon the orders of the day.

The Bill for amending the Acts incorporating the Wellington, Grey & Bruce Railway, was brought up for a third reading. The measure was discussed for an hour and was then laid aside for further debate.

Attorney General Macdonald moved the reception of the report of the committee on the resolutions providing for grants of money to railways.

Mr. Blake opposed the reception of the report, and moved in amendment that the decision of the Government to grant aid to any railway shall be subject to the ratification of the Legislature, so as not to leave a million and a half of dollars in the hands of the Executive for the assisting public works without the sanction of the House.

The amendment was, after debate, rejected by a vote of 46 to 28.

Attorney-General Macdonald then said he was prepared to bring in a bill on the resolution.

Mr. Blake said the resolutions were not yet carried, and moved another amendment that in those cases where municipalities had already voted a sufficient amount of bonus to ensure the building of a railway, the proposed $2,000 a mile should not be paid to the companies without the consent of the municipalities interested.

A vote was taken on the amendment, which was lost upon nearly a similar division to the last.

Mr. Blake moved that the order in council granting money to any particular railway should be published in the next Ontario *Gazette*.

This motion was also lost.

Mr. McCall (Norfolk) also moved an amendment, but it was voted down.

The report was then received.

The Bill relating to arrears upon Crown, Clergy and Grammar School lands, was read a second time and referred to Committee.

The Bill respecting Municipal Institutions was read a third time and passed.

The Game Law and the Planting of Trees Bills were also read a third time.

The School Bill was considered, and several amendments were made.

The House went into Committee of Supply and passed several items, including $100,000 for an Agricultural College and farm.

Around Town.

The pay of the trackmen on the Grand Trunk has been raised 10 cents per day.

The English mail, per steamship *Moravian*, arrived at the post-office here to-day.

The snow-fall in Belleville and vicinity has been much less this winter than usual.

The Town Council meets on Monday evening.

A good deal of ashes and *debris* of various kinds adorn the roadway on some of the streets in town.

The Police Court this morning was again deserted, there being no business of any kind for transaction.

The ice crop is now being secured by the dealers in the article here. The blocks are thick and appear firm and likely to keep well.

As usual, the "ridiculous" valentines in the shop windows outnumber the sentimental ones. The practice of sending these missives is dying out slowly year by year.

There is no better remedy for cold feet than to slap the leg briskly just above the knee, after raising the foot. The increased circulation induces immediate relief.

There is to be an oyster supper at the Workingmen's Temperance Hall, on Tuesday evening next, under the auspices of the Workingmen's Temperance Association.

The Picton papers complain of the mail from the West being sent *via* Brighton, which causes unnecessary delay. No doubt Belleville is the proper point from which this mail should be despatched.

That unfortunate sleigh used in conveying Lockman Sewing Machines indulged in another erratic flight near the Railway Station to-day noon, and sustained a broken front in consequence.

The registration of births, marriages and deaths, is an important matter, yet it seems to have been but carelessly attended to in this town by the parties interested. The matter is to come before the Council on Monday night.

An exciting race took place yesterday on one of the back streets, between two large Newfoundland dogs harnessed to hand-sleighs. Each canine was urged to his utmost speed by his boy-driver, seated on the sleigh, the race ending in a collision.

The Wesleyan Missionary Meeting is to be held in the Bridge Street Church on Monday evening. The occasion will be of more than usual interest, as Rev. W. M. Punshon, Rev. W. Stephenson and other distinguished speakers will address the audience.

Edmund Sullivan, who was sent for trial from the Police Court, on a charge of assaulting the Police, was brought before Judge Sherwood this morning. The prisoner pleaded guilty, and was sent to gaol for six weeks only, in consideration of this being a first offence.

The annual exhibition of the Undergraduates of Albert College will take place about the end of March. This is stated in order to remove an impression which prevails in some quarters that the entertainment of the Literary Society last night was the annual College exhibition.

John Murray, who is accused of the murder of Real in Tyendinaga, is now held in Oswego gaol for extradition. It is to be hoped that the delay which characterized proceedings in this case on a former occasion will not prevail this time.

The County of Hastings Sabbath School Convention holds its second annual session in the Congregational Church in this town, on the 21st and 22nd inst. All who were present at the sessions of the Convention last year, will no doubt again favor it with their presence.

As this is the season of the year when social gatherings do most abound, it is well for young men to read this bit of advice, which John G. Saxe tenders them:

> "In going to parties, mind what you're at—
> Beware of your head—take care of your hat—
> Lest you find a favorite son of your mother
> Has an ache in the one and a brick in the other."

The simple announcement that Rev. Wm. Stephenson, of Ottawa, will preach to-morrow morning and Rev. W. M. Punshon in the evening, in the Bridge Street Wesleyan Church, will be sufficient to crowd the Church on both occasions, the sermons being for the benefit of the Missionary fund, in which so deep an interest is taken by this congregation.

On and after next Monday the Post Office will be found in the east end of Mr. Bogart's new block, Bridge Street. The work of fitting up this building for the Post Office has been going on for a long time, and it will be found admirably adapted for the purpose. The necessity for a larger number of boxes to accommodate the fast increasing business of the office has been looked to, and a considerable number of drawers have been provided for the public convenience.

LORD DERBY.—The highest possible compliment that could be paid to a landlord has just been received by Lord Derby from his Irish tenantry. A report having gained credence in County Tipperary that his Lordship intended to dispose of his Irish estates, his tenants have risen up in respectful but earnest protest against the change, and have sent a memorial, with 130 names attached to it, begging Lord Derby to reconsider his determination. What is more extraordinary, the petitioners passed a vote of confidence in Lord Derby's agent. If all Irish landlords and agents had so demeaned themselves as to be able to command a like expression of attachment, how utterly different would the history of Ireland have been.

—The British Commissioners who will consult with the United States upon the Alabama and Fishery Questions are Earl de Grey, Professors Montague, Bernard, Sir Edward Thornton, Sir John A. Macdonald, of Canada, Sir John Rose. Secretary of Commission, Lord Tenterden.

—Cincinnati glories in the possession of about the wickedest thief. He wanted to attend a skating masquerade, and hadn't any fancy dress, so he stole the black robe of the Episcopal minister. The minister attended the masquerade, and when he saw himself skating around there with the sacred robes on he went home mad.

—From a tabular statement, compiled by Joseph Nimmo, jr., of the Bureau of Statistics, it appears that prior to 1862 the tonnage of American vessels, entered at ports of the British Empire, was double the tonnage of British vessels entered at ports of the United States, but since 1865 the tonnage of British vessels entered at ports of the United States, have been double the tonnage of American vessels entered at ports of the British Empire.

Brutal Murder in Kingston.

(VIA DOMINION LINE.)

Special telegram to the Intelligencer.

KINGSTON, Feb. 11.

A brutal murder was committed last night at a house of ill-fame, known as 'The Grove.' A man named Wm. Anssum or Duncan, son of the keeper of the house, stabbed his brother through the heart with a butcher knife, killing him almost instantly. He also stabbed another man who, however, is still living, and whose wound is not considered fatal. All the parties implicated, some fifteen or sixteen in number, have been arrested. An inquest is to be held at 2 p. m. to-day.

News Condensed.

—Count Bismarck is again quite ill. His state causes grave uneasiness.

—A fire at St. Thomas on the 10th destroyed an entire block of buildings.

—Mr. George Johnson, Peterboro, has been appointed Chief Constable of that town.

—Last year 17,349,409 bushels of wheat were received in Chicago.

—Mrs. Walker's hotel, Odessa, was burned down on Friday night last. Insured.

—The cotton mill and woolen factories at the village of Hastings are doing a thriving business.

—Round dances are said to be going out of favour in England, the more dignified square dances resuming their sway.

—Sarah Porter, a Toronto servant girl, was badly burnt about the face and arms by the explosion of a coal oil lamp.

—King Charles of Sweden is quite ill. The malady is not of a dangerous nature, but his recovery will be slow.

—The Prussians have captured a letter from the King of Sweden expressing his warmest sympathy for France.

—It said that Peter Pearce, Esq., of Havelock, will be a candidate for the representation of the East Riding of Peterboro in the Ontario Legislature.

—In Waterloo and neighboring counties, great fears are entertained for the safety of the fall wheat, from the ice with which the fields are covered.

—A colored barber was admitted to the Bar in Nashville, Tenn., on Wednesday, and on Thursday made his first appeal as counsel for a negro charged with murder.

—The appeal in the case of Inman *vs.* Jenkins, regarding the sea-worthiness of the lost steamship 'City of Boston" has resulted in a confirmation of the judgement of the Court below.

—A Rimington wood chopper lost his life last week by running against a tree with a pipe in his mouth. The stem was driven into his thoat, making a laceration which resulted fatally.

The Situation in France.

The armistice will probably be extended, in order to allow the Assembly to perfect its organization.

The revictualling of Paris and the work of disarmament continue. There is still a scarcity of food, and much suffering prevails, but the distress would be lessened if there were a better organization for distributing the provisions which daily reach the city. The mortality, especially among children, is large. The people are tranquil, but the appproaching entry of the German army causes agitation. The force of regular troops permitted to retain their arms for the preservation of order has, with the consent of the Government, been doubled.

BY ATLANTIC CABLE.

Midnight Despatches.

GREAT BRITAIN.

The English Press on the Alabama Claims.

LONDON, Feb. 10.—The Standard to-day in an editorial on the Queen's speech says:

The fact of the appointment of a Joint Commission for the settlement of the Alabama difficulties with the United States would be more interesting to the public if the basis upon which the Commission is to operate were known.

The 'Times' to-day, in its remarks upon the portion of the Royal speech announcing the reference of the American question to a Joint High Commission, says:

Although the Alabama question is secondary to that of the fisheries as a subject for consideration by the Commission, yet there is no doubt as to which question will mainly engage its attention. But it is erroneous to suppose that it is the purpose of the Commission to find ground for England to abandon her position or to concede her liability upon the Alabama question.

Morning Despatches.

FRANCE.

Rumored Intrigues with the Orleans Princes.

LONDON, Feb. 10, 4:30 p m—According to a report in the 'Galois,' M. Favre has gone to Antwerp to communicate with one of the Orleans Princes.

A despatch just received from Brussels states that Favre arrived in that city on Thursday night.

HOLLAND.

A New Steamship Line.

ROTTERDAM, Feb. 10.—The capital for a new steamship line to New York has been subscribed, and two steamers are to be built for the service.

American Despatches.

Steamship Arrival.

The 'Tennessee' Still Missing.

The Alabama Claims Again.

Objections to the Commission.

NEW YORK, Feb. 11.—The steamship 'Iowa,' from Glasgow, has arrived.

Nothing farther has been received concerning the 'Tennessee.'

Washington despatches indicate a certain degree of dissatisfaction among a minority of both Houses in regard to the commission for the arrangement of the Alabama claims, founded principally on the delay that constituent claimants will suffer. They say members of the commission will probably remain in session the greater part of the time between March and the meeting of Congress in December next. That, if they agree to a treaty, the Senate may spend considerable time in its consideration, and that at least a year must pass before the questions at issue between the two Governments can be adjusted. Then, they say, there will be much more delay before claimants can establish their claims and get their money. They add, too, that the correspondence published leaves the powers of the commission very uncertain; that they may be construed to include all questions of every nature that may arise between the countries, and negotiations may result in a treaty which will be no more acceptable than the one so unanimously rejected by the Senate. They demand that the bills now before the Senate and House Foreign Committees, be reported, so that the United States may assume and pay these claims and afterward settle with Great Britain. On the other hand, the majority of the Senators and members express approval of the President's plan and point to men who represent the United States on the commission as a guarantee that whatever is agreed to by them will be acceptable to the people. The message of the President, accompanying the correspondence, and which was not made public, contains nothing of interest, being an introduction to the letters which follow.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

Imperial Parliament.

HOUSE OF LORDS.

LONDON, Feb. 11—In the House of Lords last night, a message was received from the Queen asking for a dowry for the Princess Louise, suitable to the dignity of the Crown. The message was read and made the order of the day for Monday.

HOUSE OF COMMONS.

In the House of Commons, all correspondence relating to the Franco Prussian war was presented, and notice was given of many questions to be put to the Government touching its foreign policy.

Mr. Gladstone explained the reason why France was not represented in the London Conference. He said the Prussian authorities had promised Favre a pass to attend the Conference if he should be sent as the representative of France, but the Prussian flag having been violated, when the application was renewed, the bombardment had begun and Favre declined to leave Paris.

Mr. Baxter, Secretary to the Admiralty, said the Government had sent 2,500 tons of food for the Parisians, and that 1,000 tons more were ready for shipment.

Mr. Cochrane reviewed the foreign relations of the country, and demanded a Ministerial statement relative to the condition of affairs as regards Russia, Prussia and France.

LONDON, Feb. 14.—It is now ascertained that the result of the French elections is a triumph for the Conservatives.

The Liverpool *Courier* says: A French transport with 1,250 persons on board has foundered off Cape La Hague, and all on board were lost.

Musical Dictionary.

For the benefit of choirs:—

What is a slur? Almost any remark one singer makes about another.

What is symphony? Flirting with the soprano singer behind the organ.

What is a turn? When one singer is discharged to make room for another.

What is singing with an understanding? Marking the time on the floor with your feet.

What is a flat? A singer who supposes himself or herself indispensable to the success of the choir

What is a staccata movement? Leaving the choir in a huff, when one is dissatisfied with the organist.

How do you procure a discord? By praising one lady's singing at the expense of a rival, who overhears you.

What is a swell? A professor of music, who pretends to know all about the science, while he cannot conceal his ignorance.

Butter and cheese unchanged.

CANADA LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents;

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
January 25th, 1871. Manager.

Belleville, Oct. 6, 1870. 184tf

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Children whose brain development is unusually large in comparison with the body are most frequently singled out for a prematurely final resting place. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain, consequent upon active intelligence. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung disease in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-similie* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

Intercolonial Railway OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 6 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

Don't Mortgage the Farm.

We'll have to mortgage the farm!
Of this there is little doubt;
And if we fail to redeem it,
The sheriff will turn us out.
And all because we are not content
To earn our money before it is spent;
For lawyers seldom allow delay,
And we have not the wherewith to pay;
Our pride is sure to result in shame,
And we have nobody else to blame.
You certainly ought to know,
If matters continue just so,
We'll have to mortgage the farm.

Chorus—The farm, the farm, the dear old farm,
We'll have to mortgage the farm.

Suppose we mortgage the farm,
'Twill last but a little while,
We cannot hope to succeed
In keeping up city style.
The day devoted to formal calls,
The night consumed in attending balls,
For jeweled rings and imported hair,
And trains sufficient to sweep a square,
And silks, and satins, and laces fine,
Without the wealth of a golden mine,
Are surely enough to show,
If matters continue so,
We'll have to mortgage the farm.

How can we mortgage the farm,
And with it that holy place
Where love delights to recall
The charms of each silent face?
The golden curls of a darling child,
Her lustrous eyes and her features mild;
And one who fell in the battles' flame,
Another who sank in the race for fame;
But where lilies bloom and the willow waves,
All is silent now 'round the household graves.
Ah! gloomy indeed the day,
Should we be compelled to say,
We'll have to mortgage the farm.

—*Anonymous.*

Hints on Milking Cows.

A man who had done his own milking employed a boy to do it. He shrunk the milk one-third in two weeks. The owner resumed the milking, and in two weeks got the same as before. Afterward he set a hired man to milk, and he shrunk the milk ten per cent. in two weeks, and in two weeks more the owner, milking again, got as much as before. This man does the work quickly and milks very clean. He closes the forefinger and thumb around the teat high up, and makes a downward motion, tightening the grip and forcing out the milk—then lets go his hold, keeping the finger and thumb in circle, carries up the hand and presses it smartly against the udder, and closes and pulls down as before, and so repeats until done. The philosophy, if any, is to give as near as may be the same motion that the calf does in sucking.

QUINSY IN HOGS.—I will give you a sure cure for quinsy in hogs, if applied in time. Turn up the upper lip and cut close to the gum until the blood starts freely. Will warrant this to cure. I have no doubt this will save many dollars to your readers.

J. LAMPKIN.

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION.—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted.
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands, Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine, Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertised as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than ten dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills.** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats, Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered.

JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.

GODEY'S LADY'S BOOK

For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 60.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA,

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building Front Street

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured, by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billous Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS' MUSICAL MONTHLY

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS*.

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS--AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ $1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. Address the Publishers

MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free.

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents, for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing a THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration, Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS.

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Billious attack. Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for*, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse*,] the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Billious Fever.

In the world. There is no Ague Cure [illegible] or preparation of Quinine, Arsenic, [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively [illegible]

Radway's Ready Relief.

No, not one. Thousands [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private [illegible] gorged liver, fat spleen, [illegible] colored skin, and hundreds of [illegible] distress. These agents never cure, but [illegible] disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Attacks, &c., than the Quinine Mixture [illegible] Cholagogues, &c., costing $1 to $5 [illegible] Ready Relief is good for hundreds [illegible] that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirit [illegible] you equal in quantity and superior in [illegible]

144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of **Radway's** Ready Relief [illegible] 25 cents, as a Pain Remedy, and for Fever [illegible] will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Viz: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories, their published formulas are copies taken from the U. S. Pharmacopia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physioligists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and *Pills* are new medicines, prepared on new principles, and *Pills* will cure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,			$ 5 00
do	do	12	do	8 00
Half square,	6 months,			12 00
do	12	do		20 00
One square,	6	do		20 00
do	12	do		35 00
Two squares,	6	do		30 00
do	12	do		50 00
Three squares,	6	do		40 00
do	12	do		65 00
Four squares,	6	do		50 00
do	12	do		80 00
Notices of Births,				50
Do of Marriages,				50
Do of Deaths,				50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:

THE EDINBURGH REVIEW.
NORTH BRITISH REVIEW.
LONDON QUARTERLY REVIEW.
WESTMINSTER REVIEW.

MONTHLY:

Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - -	10.00	
For Blackwood and three of the Reviews, - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress"

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

Call and inspect the Stock before purchasing.

H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 32 tf

UNDERTAKING.

G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10,00. to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs..

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

838 BROADWAY, NEW YORK

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers, - -	$ 5.00
Club of 10 " - - - -	8.00
Club of 20 " - -	15.00

And all over 20, at 75c per copy, free of postage.

French Correspondence.

ABBEVILLE, Jan. 21, 1871.

Can Germany subjugate France, hold what she has won, follow up her victories, and secure her future? Will German steadfastness be outmatched by French obstinacy? Is Fatherland capable of bearing an exhaustion like her antagonist and remain satellites revolving round Prussia for an indefinite time? The military aristocracy of the Tuetons, can it compete with the liberalism of the Gauls? These are the questions of the day. The French are determined to have it out with Prussia, irrespective of any number of "rounds." The pride of France will not give in. Every day she renews her strength. Never again can be her position as it was after Sedan—since then she has shown that "Rome has not lost the breed of noble bloods." Her soldiers appear to be as numerous as the seed of Abraham—young of course, but daily getting older—becoming dangerous even from defeat. She has lost 400,000 prisoners, but the void is not felt. Her generals are captives, but their successors are rapidly passing out of their apprenticeship. The transition period has been nearly passed, order is springing out of chaos, sacrifice has become a duty, and duty is growing into pleasure.

In emerging from the chrysalis stage of imperialism to don the purple of Cæsar, the now formal Emperor of Germany has lost an opportunity of reconciling "all the glories" of Germany with its proper prudence, generosity and safety. The Emperor announces he has still the "earth hunger" and considers new frontiers, at the cost of France, greater security for his composite Empire, that the "unity" which he symbolizes. He flatters himself that in training France after his triumphal car now, the spectators applaud as they did up to Sedan. Since then his march has been an aggression—his invasion as "flat burglary as ever was committed." He is pressing the falling man too far, and sowing the seeds of an eternity of hate. In happier days the French planted trees of liberty; henceforth they will plant trees of revenge, and each wooden cross that pious hands place to make the resting place of a French soldier, will only be the memento of vengeance. In heaping the coals of fire on the head of France, Prussia could convert her enemy into a friend. As it is, Germany will yet find to her cost, that the race is not to the swift nor the battle to the strong.

In her adversity Paris is not growing faint. The shells poured into the capital are only an inconvenience now. They have created no terror, but begat much indignation, and nerved the citizens "to screw their courage to the sticking place." While food lasts, Paris promises not to capitulate. When the city is in ashes the catacombs will shelter the martyrs of patriotism, and the barbarism of the act will fill up the most infamous niche in history. There is a wailing in France, at the massacre of women, children, the aged and the sick in the capital. Think of the Christian Brother's school in the rue de Vangivard. At midnight a bomb falls into a dormitory where sleep twelve children, five are instantly killed, the others wounded. Think also of the funeral of these innocents, and sympathize with the general rage, as the five small coffins were carried to the cemetery and buried with military honors. Into the hospital de la Pitie, twenty-two shells drop, three women patients are killed, four wounded—one unfortunate requiring her arm to be amputated, and sinking under the operation, her last words, were invoking a curse upon the enemy. The citizens calmly move from the quarters attacked, silent but not dismayed. In the lycee Louis le Grand, two bombs fell, and the pupils were at once sent home. Never was a school broken up on better grounds. Near the Odein, an American citizen, as he was taking off his boots to go to bed, had a foot carried away, and now lies in the American Ambulance. The depot of the Cab Company was visited by a shell, and sixteen horses killed—the Virgin's chapel, in the church of Saint Sulpice, has a fragment of a shell lodged in the centre of the beautiful fresco over the altar piece. Immense blocks of stone, measuring a cubic yard, are blown out of their position, as if they were so much chaff. It is calculated 3,000 shells daily arrive in the city, killing or wounding 16 persons—and yet the besiegers say, the bombardment of the city has not yet commenced. The petroleum bombs have not done any great harm—indeed the "psychological stage" for battering Parisians into submission, so much insisted upon by the the German press, has not arrived. There are no complaints as to food, not the first sign of disturbance, the most popular of "stumps" cannot get together an audience.

The bread now served out is dark in color, but very healthy. The flour is mixed into that from barley, rice, and rye, as well as an addition of pecula or potato-flour, which ever enters largely into French cookery. A good deal of wheat has been discovered by the visits of the "vigilance men." A large part of the rural population around Paris, sought refuge in the capital, and brought with them much of their produce in grain, &c. The latter, when times became threatening, they put into bed ticks, and in such position has much food unexpectedly turned up. I saw a letter yesterday from Paris, from a banker. On New Year's day, he entertained a few friends to a goose, for which he paid 180fr., and it was stuffed with a few potatoes that cost three francs each. Of horses, there are still a few, to enable Parisians to remember, there is such a thing as animal food yet in the world. For butchers to sell coal, wood, and vegetables, is not more an upsetting of the unities of commerce, than that of the apothecaries selling milk, yet such is now the case, since many of the 8200 milch cows are running dry on their diet of chopped hay and straw, with an occasional drink of oil-cake wash. It is sick children alone that can claim a ration of milk. A good trade has sprung up in the dissolution of horse's bones, which from a jelly called *osseine*, and makes a soup with wheat and wine, much relished, particularly by those who can get nothing better. Even the perfumery shops here smelted their pots of pomade, and much of the manufactuered "butter," at nine francs a pound has its origin thus. The railings around the public buildings are rapidly finding their way to the smelting pot, to form metal for bombs. However, the French have been able to pick up around the attacked fortresses, some 50 tons of used up balls and shell splinters, which will be duly melted down, and returned in a new form to the place from whence they came. A plan has been discovered for utilizing the asphalte of the streets for fuel, and as there is plenty of such, the steam mills have a month's additional firing.

There are no beggars to be met with in Paris, because the most perfect equality reigns in the distribution of food. There are no robbers, for every person is a special constable. There are no rents paid, owing to the tenants having all became soldiers, fed and paid by the nation. It is expected the fall in house rents alone will be about thirty per cent. Sojourners in Paris almost feel inclined to drink the health of that "silent man of seven languages,"—Moltke—for such a boon, as well as the invaders, for overthrowing the regime of extravagance and profligacy. There is a return to the fashion for suspecting every one, who does not denounce Germans and all their belongings, and woe betide the stranger who keeps a taper dimly burning when fires and lamps are generally out.

From several sources of reliable information, as well as from what comes under my own eyes, the preparations of France for continuing the struggle are being made on a most extensive scale and apparently for an indefinite period, which it would be well for those Germans who believe France is thoroughly beaten to read, mark and inwardly digest. There is plenty of misery abroad, but the heart of France is solely devoted to beating off an army of invasion, by the nation invaded—

> "The air is full of farewells to the dying,
> And mournings for the dead,"

but there is no faltering in the task to be achieved. The Government has so many men under arms and in the reserves that it has decided to call out no more for a time—no more Franc-tireurs are required, no more volunteers. Every week I take a run through these parts of France, and meet with bodies of men as numerous as ants and as busy as bees. Not an idea has any one of them of submitting while a German occupies the soil of France—why should they? I have seen some excellent squadrons of the newly raised cavalry—the horses have arrived from every part of the world, and the men have the dash and work of real soldiers. The want of cavalry, especially for scouting duty, has up to the present seriously told against the French, who have had to depend on infantry for this important work—almost next to useless. These cavaliers, if they don't 'witch the world with noble horsemanship,' will give a good account of themselves with the enemy. In matters of artillery, the French are bringing forward very heavy guns for field work—the projectiles are in proportion, and from what I have seen of Prussian batteries, they will not be able to stand before the newly raised artillery corps of the French. I may here add, as it was heretofore a painful duty to notice its absence, that the people are displaying a greater humanity for those who suffer for their safety, and a greater kindness to those who are *en route* to do the same.

It would seem, that all the German calculations respecting Paris have been erroneous, While Bismarck waited for famine to give him possession of the capital in December last at latest, and in September, by the aid of the Reds, he is equally disappointed in the turn the bombardment has taken. The Parisians will not capitulate—they will endure short commons—they will have no intestine rows—they will not shrink from the calamities of shells. The nearer the besiegers can bring their guns, the more courageous will be their conduct. As to the question of sorties, every one while acknowledging the difficulty of such, feels assured, there will be a terrible rush at the Prussian ring, now backed by siege cannons though it be, before the city surrenders—and it is believed it has two months staying or enduring power still. The attack on the forts has after all to be proceeded with according to sap and parallel. The damage done by the furious cannonade has been slight. The besiegers are said to be capable of "photographing" the condition of the forts daily; if their state was so very bad, if rents could be seen from one end to the other of them, why resort to parallels? The fact is, no fort has been so "blinded" that it has ceased to see—nor so silenced, that it has not found new tongues of fire. When the deadly breech comes to be made, the French will not be less brave than the storming parties.

But pending the accomplishment of these events, there are the chances of the provinces being able to do something. Not much can be expected from Chanzy—he may draw the Prince Frederick Charles after him into the dreary wastes of Brittany, or keep him where he is, subject to surprises—for it is wearying to be ever on the *qui vive* for an enemy defeated, but always "coming on," again. Or Chanzy can send reinforcements to Faidherbe, or ship off men to Bordeaux. As to Baidherbe and his army, it is cautiously moving forward, and Von Geoben does not appear strong enough to attack. The latter may be yet wanted near Paris if Bourbaki reaps laurels in the east, and then Faidherbe will play a trump card. Bourbaki, according to latest accounts, is gaining ground—doubtless the slowness of his advance is to time in with Garibaldi's arrival, so as to be ready to surround the Germans at Belfort. The latter is a little Metz in a military position—has a strong garrison, plenty of food, and its 4,000 women and children, are 'made at home' in the casemates. If Bourbaki succeeds in his tactics, great will be his advantages. He can march at once to the Strasbourg and Paris railway—blow up tunnels and bridges, and so prevent food supplies coming that way to the besiegers before the capital. He can push on further into Lorraine, and do the same thing for the Metz feeding lines. Then the Prussians may begin to feel uneasy at Versailles—they would have to call in their manœuvring divisions—the army of the north would be down upon them like the Assyrian—the country would rise *en masse* as they marched—then Paris could deliver her monster sortie, and Fatherland would experience the slip between the cup and lip. I would such a day to arrive for the Gauls. Seeing how bravely they have staggered to their feet—how nobly they have overcome difficulties and treasons at all costs, at all hazards, who could refuse sympathy and good luck to them. Yet while such issues are at stake, such a trembling of the balance, the new Emperor of Germany is resolved to hold French territory, and the decision is ratified *Unter den Linden*. Meanwhile there remains the three-fourths of France to occupy, and 38 millions of people to masacre. Though willing, is Germany equal to the task?

Daily Intelligencer.

BELLEVILLE, MONDAY, FEB. 13.

Court of Revision.—A meeting of the Court of Revision is called for Wednesday evening, to make a final disposal of the appeals against last year's assessment.

Skating Carnival.—We are requested to state that the next masquerade at the Victoria Skating Rink will take place on Wednesday evening, March 1st.

Police Court.—The chronic complaint of the Police Court—no business—was again prevalent this morning. Public morals appear to be in a healthy state at present.

Town Council.—In consequence of the occurrence of the Missionary Meeting at the Wesleyan Church to-night, the meeting of the Town Council has been postponed until Wednesday night at the usual hour.

Snow Slide.—Last night, while the throng of people who attended the Bridge Street Wesleyan Church were leaving the building a mass of snow fell from the roof, almost burying several persons. Beyond a little fright no one sustained any injury.

Anniversary.—The Workingmen's Temperance Association hold their 12th anniversary on Tuesday evening the 14th inst. Supper on table at 7:30 o'clock. Interesting addresses, with music, songs, and recitations on the occasion.

Runaway.—This afternoon a horse belonging to Mr. Walter Fanning, livery stable keeper, ran away, smashing the cutter to which it was attached, and injuring itself slightly. It is supposed the animal had been left untied by the person who hired it.

St. Valentine's Day.—To-morrow is the anniversary of the martyrdom of St. Valentine, who was killed during the early days of the Christian Church. It is also set down in the English calendar as the day on which the birds begin to mate, and no doubt the mating of many hearts has begun on that day. The anniversary once looked forward to with impatience by many, has latterly declined in popular estimation, the sending of the missives peculiar to the day having greatly declined.

Wesleyan Methodist Missionary Services.—Yesterday the Annual Missionary Sermons were preached in the Bridge Street Church, in the morning by the Rev. Mr. Stephenson, of Ottawa, from Isaiah, xxvii, 13: "And it came to pass in that day, *that* the great trumpet shall be blown, and they shall come which were ready to perish in the land of Assyria, and were outcasts in the land of Egypt, and shall worship the Lord in the holy mount of Jerusalem." The Rev. gentleman's discourse was at once eloquent and argumentative. In the evening the church was crowded to its utmost extent, there being between 1,800 and 2,000 persons present to listen to the Rev. Wm. Morley Punshon, who preached from the 5th chap. of James, 19th and 20th verses: "Brethren, if any of you do err from the truth, and one convert him; let him know, that he which converteth the sinner from the error of his way shall save a soul from death, and shall hide a multitude of sins"—a most powerful and forcible sermon. We should detract from its merits by attempting even a synopsis. The Annual Missionary Meeting is to be held to-night in the Bridge Street Church, the Mayor in the chair. The Rev. Messrs. Punshon, Sptehenson and Browning, lately a Missionary in British Columbia, will address the meeting.

Militia Appointments.

The following appointments we take from the *Canada Gazette* of the 11th inst.:—

49TH HASTINGS BATTALION OF INFANTRY.

No. 4 Company Madoc.—To be Ensign: Sergeant Wm. A. Roblin, V. B., vice J. Robertson, whose resignation is hereby accepted.

REGIMENTAL DIVISION OF THE EAST RIDING OF HASTINGS.

No. 1 Company Division.—To be Lieutenant: James F. Chisholm, gentleman. To be Ensign: Alfred Adolphus Farley, gentleman.

No. 2 Company Division.—To be Lieutenant: Sylvester Phillips, gentleman. To be Ensign: Dyer Phelps Hamilton, gentleman.

No. 3. Company Division.—To be Lieutenant: Stephen A. Lazier, gentleman. To be Ensign: John Sweeney, gentleman.

No. 4 Company Division.—To be Lieutenant: John White, gentleman. To be Ensign: Robert Hamilton, gentleman.

No. 5 Company Division.—To be Ensign: Edmund McNeil, gentleman.

No. 6, Company Division.—To be Ensign: Henry R. Waterhouse, gentleman.

No. 7 Company Division.—To be Ensign: Wm. White, gentleman.

Regimental Division of the North Riding of Hastings.

No. 6 Company Division.—In General Order of 26th February 1869, *read*: "To be Lieutenant; Captain Lavender, from late 8th Non Service Battalion," and "To be Ensign; Ralph Samuel Norman, Gentleman," *instead of* "To be Captain; Captain Benjamin Lavender," and to be Lieutenant; "Ralph Samuel Norman, Gentleman."

—Discount on American invoices is 10 per cent.

—The army of Great Britain is to be increased by 19,970 men, at a cost of £2,886,700.

—The amount in the Post Office Savings' Banks on the 31st December last was £1,884,672.

—There have been violent gales along the coast of the United Kingdom, and six ships are ashore near South Shields.

—The Quebec military authorities have given plans for the demolishing of the Prescott and Louis gates.

The Globe and Mr. Blake's Motion.

It is not at all "curious" to watch the course pursued by the *Globe* and those whom it directs, in the matter of the Scott murder at Red River. When the province was agitated from one end to the other, people spoke their minds freely, and demanded that all that could, should be done, to bring the murderers to justice, the Managing Director of the *Globe* Printing Company, refused to identify himself with the movement; and when speaking and voting was of some avail, the now self-constituted champion of the murdered man, made it convenient to be absent. Why was this? Do we not find an answer in the action of the same parties, in the past? Who does not remember the agitation upon the school question, and religious incorporations? And who does not know that it was the *Globe* and its party that considered these privileges, and that it was only when these political opponents were in power that they raised a hue and cry about them; now, the same game is being pursued, and the murder of an unfortunate man, is being made the scapegoat to cover the real intentions of these political charlatans.

When Mr. Blake moved his resolutions in the House of Assembly, in Toronto, calling upon the Lieut. Governor to take action in the matter of the Scott murder, towards bringing the murderers to justice, we pointed out the false position in which Mr. Blake wished to put Ontario, and the utter absurdity of doing that which it was well known by the mover of those resolutions, could be of no avail. The *Globe*, as usual, came to the rescue, and though conceding all we urged against the course pursued by Mr. Blake, attempts an answer by raising side issues in the following manner:

> "Let it be remembered that Scott came from the county in which the *Intelligencer* is published, and which its editor represents in the House of Commons; that he was, like the editor, an Orangeman, and a volunteer belonging to the same battalion with the gallant major. What more natural then that every step at all likely to vindicate the majesty of the law should meet with the support of one so connected with the murdered man, even supposing that after all it were not successful?"

What has all this to do with the constitutionality, or absurdity of the course pursued by Mr. Blake, no doubt at the suggestion of the *Globe* magnate? Does it follow that because poor Scott was an Orangeman, and belonged to the same battalion of Volunteer Militia, that the editor of the Intelligencer does; that therefore, the latter should rejoice to see the ground opened, and the ashes of the dead dragged forth to serve an unholy, factious party purpose. It was just because we knew it would avail nothing—it was just because we knew the motion was the veriest buncombe—and it was just because we knew the passage of the resolutions would place Ontario in a false position, that we treated them as we did. When speaking or voting would be of some avail, the "gallant major" did not hesitate to do both, irrespective of political friends, or political opponents; and we are quite sure he will do so again when either can be of any use in bringing the murderer to justice. We regret we cannot say as much for the *Globe's* friends. The *Globe* continues:—

> "We are further assured that the Dominion Government was the proper party to enter upon such a work, and that the best way is to leave it to them. Now Major Bowell knows very well that the Dominion authorities *have no legal standing in the case whatever*, any more than those of Ontario. They *had no jurisdiction* in that country *when* the murder was committed, thanks to their blundering about the payment of the purchase money to the Hudson Bay Company. And now, when a local government has been appointed—*with it* and with the Lieutenant-Goevrnor legally lies the duty of prosecuting the matter to an issue."

Here the *Globe* concedes the whole question. If the Dominion authorities have no 'legal standing in the case whatever,' what in the name of common sense has Ontario to do with it? If the power which created the Province of Manitoba—gave it its constitution—appointed its Lieut.-Governor, and sent him forth to govern the country, with certain instructions in the interest of the Dominion, has no legal standing in Manitoba, and had 'no jurisdiction in that country when the murder of Scott was committed;' what has Ontario, a Province deriving its power and authority from the same Act, that enabled the Dominion Government to confer upon Manitoba self-government, to do with the administration of justice in that country? Oh, says the *Globe*:—

> "What Mr. Blake's motion contemplated was to quicken the action of those who were trifling with the matter altogether, by telling them that Ontario would *not be put off* by such make-believes as the issuing of warrants for the apprehension of men who never feared them so little that they walked in safety under the Governor's very eyes."

If this were not a subject of the gravest importance, one would be inclined to laugh heartily at this threat of the Jefferson Brick of the Toronto *Globe*. Ontario, forsooth, was to tell those who "were trifling with the "matter altogether, that *she would not be put* "*off*, by such make believes!" Who was to receive this fearful pronunciamento? The *Globe* tells us the Dominion Government has no "legal standing" in Manitoba, and had "no jurisdiction in that country when the murder was committed;" and as Governor Archibald only assumed control of affairs after the country passed under the jurisdiction of the Dominion Government, how could he have authority to arrest a man for a murder committed in a country over which he, nor the Dominion Government, had any authority, unless under instructions received from those who owned and governed the land when the murder was committed? This being the only logical deduction to be drawn from the *Globe's* article, we suppose this fiat of "not to be put off" is to be hurled at the head of the Imperial Government. What then? Does this Ontario Jefferson Brick, in case of receiving a snub, as he did in the case of the NovaScotia subsidy, intend raising an army, invade the Red River territory, and set things to right? If not, what does he mean? Meaf, clap-trap, upon which he feeds people, in the hope of deceiving and humbugging them. Thanks to our school system, people are too intelligent now to be longer humbugged by such sophistry, or led astray by those whose every action is dictated by a desire to gain power rather than the good of the country.

Gail Hamilton says one can be daughter, sister, friend, without inpeachment of one's sagacity or integrity, but it is a dreadful endorsement of a man to marry him!

A Brick of Gold.

Dr. Williams exhibited here to-day a Brick of Gold, which weighed *eight pounds and four ounces*, the yield of one hundred and eighty-five tons of ore. Its value is about $1,700, and the yield per ton is a little over $9. The writer paid a visit to Dr. Williams' mine last week, and took some notes, which will appear at an early day.

The French Elections.

The elections, from which so much may be expected, ruling the destiny of France, have taken place and resulted in a Republican defeat, the Bonapartists and Orleanists being far ahead. Napoleon, from his German retirement, has addressed a proclamation to the French people, which will be found in our columns to-day. The election in Paris has resulted in the return of Victor Hugo, Garibaldi, Blance, Quinel, Gambetta, Saisset Rochefort, Dorian, Favre, Schoelcher, Thiers, Pothier and Delescluze.

FROM MADOC.

MADOC DRAMATIC CLUB.

The "Madoc Dramatic Club" gave one of their entertainments last week, which was very well attended. The proceeds, $17, after paying all expenses were given to the Masonic Lodge for the benefit of the Hall. This act of donating the proceeds for the benefit of the Hall is very commendable, for the people of Madoc certainly owe a debt of gratitude to the Masonic body for their efforts in supplying such a commodious hall, and a tangible expression of appreciation such as given by the Club is the very best way of showing it.

PENNY READINGS AT MADOC.

During the winter the people of Madoc have been entertained by what might be called penny readings, though not exactly in that way; a collection being taken up in place of the fee at the door to cover expenses. The use of the Masonic Hall is given for one dollar per night, sufficient to cover the expense of fire, fuel and lighting. The readings are under the auspices of the Temperance Society, formed last fall, and are held fortnightly. At the commencement the audiences did not exceed fifty, but the number have steadily increased, the one held on Monday night having an attendance of over two hundred.

The Madoc String Band have kindly given their services, and have in no small way added to the entertainments.

Readings, recitations, speeches and instrumental and vocal music constituting the programme of each night. Much credit is due to the promoters of these entertainments.

The programme of last Monday evening was as follows:—A short address by the President, T. S. Agar, Esq.; readings by Messrs. A. F. Wood, E. D. O'Flynn, C. C. Forneri and Mr. Ballard; recitation by Mr. Fisher, and a speech by Rev. Mr. Norris; songs by Mr. H. Seymour, and Mr. Maybee; music by the band.

The Masonic Hall has become an Institution of the place, a positive necessity, the people wondering how they managed so long without one. It is a very commodious Hall, seating comfortably four hundred people, with a large platform at the end.

On Monday night the 13th, Mr. Armstrong of Belleville, gave one of his concerts in the Hall, and on Thursday evening following Rev. Mr. Wild gave a lecture on "Spiritology," at the same place, and the promise has been given that Prof. Bell, of Albert College, will give a lecture there soon on "Mineralogy, and Agricultural Chemistry." Altogether the people have been, and promise to be well entertained during the winter.

KINGSTON AND MADOC R. R.

In a visit paid to Madoc and Elzevir this week, we have to "note by the way" the earnest determination of the people to have a Railroad, and now that the first scheme for one has passed the House and assurances been received that the Kingston and Madoc road will secure at least $2,000 per mile, active efforts will be put forward to have the work proceeded with. Petitions are in circulation asking for a charter for the Ottawa and PeterboroughRoad and we mistake very much the general expression of the leading men of theseTownships if the next summer does not see theKingston and Madoc Road proceeded with.

MADOC PRECEPTORY.

At the regular meeting of the Royal Black Preceptory, No. 167, held in Madoc on the 8th inst., the following Sir Knights were elected officers for the ensuing year:—

Bro. Sir Knight Donald McKay, W. M.
" " J. B. Fox, D. M.
" " Chas. Gream, C.
" " W. A. Hungerford, R.
" " G. D. Rawe, T.
" " Thos. Richardson, L.
" " James Allen, } C's.
" " J. McKee, }
" " John Graves, } S. B's.
" " Jas. Tassie, }
" " G. M. Brooks, Pur.

Committee.—Bros. Robert Barry, Thomas Emo, J. W. Moore, James Eagleson, John Palmer, Henry Woods, David Moore.

CHURCH OF ENGLAND TEA MEETING, MADOC.

On Thursday evening 9th inst., a tea meeting was held in the Masonic Hall Madoc, for the benefit of the Church of England. The object was to raise funds to assist in paying off the debt on the church, which is in the neighborhood of $400. There was a very good attendance, Rev. Mr. Mockeridge, Incumbent, presided and the meeting was addressed by Rev. Mr. Mockeridge of Shannonville, and Messrs. Wood, Warden; Gream and Smallfield. Rev. Mr. Mockeridge gave a reading. The String Band was in attendance and delighted the audience with their music, and Mrs. Bull, the Miss Breeze and Messrs. M. Maybee and Fitzgerald sung some very good songs, Miss Mockeridge presided at the melodeon; on the whole it was a success. Proceeds about $100.

This church has made some considerable improvements during the year past, such as having the church heated by hot air, new pulpits, fencing the grounds and planting trees, and the sum stated as debt covers all that remains unpaid on the church. There is a scheme on foot for wiping that out this winter.

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no qetter Cough or Lung Medicine in use.

Ontario Legislature.

SATURDAY, Feb. 11.

The Speaker took the chair on Saturday at 10:15 a.m.

The debate on the third reading of the Bill to amend the acts incorporating the Wellington, Grey and Bruce Railway Co. and to extend the time for completing the same, was warm and exciting, and after a severe struggle from the opponents, the Bill was carried.

The Game Law Bill was next carried, with an amendment extending the time for killing deer to the 19th Dec.

Hon. Mr. Cameron moved the six months hoist to Mr. Blake's Bill for the protection of persons improving lands under a mis take of title. After a short debate the hoist was carried by 32 to 29.

The House then went into committee of supply, with Mr. Rykert in the chair, and passed a number of items of the estimates.

The House rose at 4:45 p.m.

The Levesconte Memorial Fund.

Members and ex-Members of the Belleville Rifles, who are desirous of contributing to the above fund, and have not yet done so, are notified that the Subscription Lists to the same will remain open until the 28th inst., at the store of E. Harrison, after which date they will be closed.

Midnight Despatches.

Napoleon's Proclamation.

LONDON, Feb. 12—The following is a translation of the proclamation addressed by the Emperor Napoleon to the electors of France.

WILHELMSHOHE, Feb. 8—Betrayed by fortune I have kept since my captivity a profound silence which is misfortune's mourning. As long as the armies confronted each other, I abstained from any steps or words of causing party discussions, but I can no longer remain silent before my country's disasters without appearing insensible of its sufferings. When I was made a prisoner I could not treat for peace because my resolutions would appear to have been dictated by personal considerations. I left the Regent to decide whether it was to the interest of the nation to continue the struggle. Notwithstanding the unparalleled reverses, France was unsubdued. Her strongholds reduced, a few departments invaded and Paris in a state of defence. The extent of her misfortunes might possibly have been limited, but while attention was directed to her enemies an insurrection arose at Paris, the seat of the representatives was violated, the safety of

THE EMPRESS WAS THREATENED,

and the Empire, which had been three times acclaimed by the people, was overthrown and abandoned. Stilling my presentments, I exclaimed, "What matter my dynasty if the country is saved." Instead of protesting against the violation of my right, I hoped for success of the defence, and admired the patriotic devotion of the children of France. Now, when the struggle is suspended, and all reasonable chance of victory has disappeared, is the time to call to account the usurpers for bloodshed and ruin, and squandered resources. It is impossible to abandon the destinies of France to an unauthorized Government, which has left no authority emanating from universal suffrage. Order, confidence and a solid peace are only recoverable when the people are consulted respecting the Government most capable of repairing the disasters to the country. It is essential that

FRANCE SHOULD BE UNITED IN HER WISHES.

For myself, bruised by I justice and bitter deceptions, I do not know how to claim my repeatedly confirmed rights. There is no room for personal ambition, but till the people are assembled, and express their will, it is my duty to say that all acts are illegitimate. There is only one Government in which resides the national sovereignty able to heal the wounds, to bring hope to the firesides, to re-open the profaned churches for prayers, and to restore industry concord and peace.

Favre Always Willing for Peace.

England Urged Peace on Favre's Terms.

Comte de Paris to be King.

Demonstrations in Favor of the Pope.

LONDON, Feb. 12, 9 p m—The official returns from the department of the North show that the monarchical candidates polled 195,000, and the republican 47,000 votes. General Changarnier, accompanied by other delegates, has arrived at Bordeaux.

LISBON, Feb. 12.—Marquis de Avila has not yet succeeded in forming a Cabinet.

LONDON, Feb. 12.—A copy of the correspondence relating to the war to be submitted to Parliament shows that Favre's party were always willing to conclude a peace on any terms which would not include the cession of territory. England has been continually urging peace on Favre's terms. The Orleanists are confident that Comte de Paris will be King of France in a few weeks.

The Government will state that they will be able to despatch 115,000 men immediately in case of war.

FLORENCE, Feb. 12.—It is reported that demonstrations in favor of the Pope are in preparation in various parts of Europe.

American Despatches.

Sir John Rose Unable to Serve on Commission.

Commission to Meet about 1st of March.

Death of Alice Cary.

Fenian Head Centre Resigns.

WASHINGTON, Feb. 13.—News was received last night that it will be impossible for Sir John Rose to serve on the joint high Commission to settle qestions at issue between the United States and England, but will sail from New York early this week. The Duke of Devonshire, or Duke of Argyle are mentioned as likely to be appointed in his place.

It is believed that the commission will begin its session about the 1st of March as under the most favorable circumstances. Earl Derby, Prof. Berland and Lord Tenterden will not arrive here until the last week of the present month, while the successor of Sir John Rose has not yet sailed.

NEW YORK, Feb. 13.—Alice Cary, the well-known poetess, died in this city yesterday morning, aged 50 years.

The coal miners strike has come to an end, after coal has been forced to $10 a ton, retail, in this city.

John Savage has resigned his position as head centre of the Fenian brotherhood.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 13—The steamship 'Cuba,' from Liverpool on Saturday for New York, took out among her passengers Earl de Grey, Lord Tenterden, Montague Bernard and Viscount Goderich, of the Joint High Commission for the settlement of the claims of the United States upon Great Britain. The Commissioners are accompanied by a number of diplomatic attendants.

The 'Telegraphs' special reports that the Germans will make a triumphal entry into Paris on the 19th. The Emperor will proceed to the Tuilleries, and after partaking lunch will review the army from that building. In case the Tuilleries should not be in proper condition for the reception of the Emperor, he will occupy the Palace Elysee.

The Emperor will return to Berlin the last of February.

A telegram from Bombay says the steamer General Outram, from Coshin, bound to Bombay, has foundered in a cyclone in the Indian Ocean, and that 53 lives were lost.

BORDEAUX, Feb. 13—At the preparatory sitting of the French National Assembly to-day about three hundred deputies were present. The session was formally opened, and the secretaries appointed.

Fire in Hamilton;

LOSS $40,000.

By Special Telegraph.

HAMILTON, Feb. 13.

A fire broke out this morning about 8 o'clock, in the store of Field & Davidson, wholesale saddlers, Lister's block, James Street, caused by some derangement of the heating apparatus in the cellar. The fire reached the hoist and speedily spread all through the building. One of the employees rushed up stairs to the fourth storey and found it impossible to descend again. He was obliged to get out of the window and walk along the window caps of the third storey and get into the next building. His position was critical and his escape was the result of his great presence of mind. The firemen were slow in arriving at the fire and the hose burst in all directions, giving the fire about half an hour start. It was feared that the whole block would be burnt, but owing to the unlimited supply of water the fire was confined to one building. The fire is still raging at 10:30, but is well under control. The building is fully insured. Field & Davidson's stock is valued at about $40,000; insured for about $10,000. The loss is not yet known, but the goods are considerably damaged by fire.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 137-m-Th.

LIVERPOOL, Feb. 13, 11:30 a m.—Cotton dull and unchanged; Flour 28s 6d; Corn 13s 6d for new; Pork 136s.

CANADA LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st, The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
Manager.
January 25th, 1871.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists: Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Children whose brain development is unusually large in comparison with the body are most frequently singled out for a prematurely final resting place. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain, consequent upon active intelligence. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Broachial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma,

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-similie* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

. Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by th Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

Intercolonial Railway OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteeen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 6 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to acsept the lowest or any tender.

The way to Blanket Horses.

Those parts of the body of a horse which surround the lungs require the benefit of a blanket in preference to his flanks and rump. When we are exposed to a current of cold air, to guard against any injury from contracting cold, we shield our shoulders, neck, chest and back. If these parts be protected, the lower parts of the body will endure a degree of cold far more intense, without any injury to the body, than if the lungs were not kept warm with suitable covering. The blankets should cover the neck, withers and shoulders, and brought around the breast and buttoned or buckled together as closely as a man buttons his overcoat when about to face a driving storm. Protect the lungs of a horse with a heavy blanket, and he will seldom contract a cold, even if the hindmost parts of the body are not covered.

Feeding Potatoes to Milch Cows.

In view of the fact that potatoes are so abundant this year that they are scarcely worth carrying to market for the price they bring, those who have cows in good milk during the cold season, will find it of great advantage to give them a few potatoes daily. They are the best roots that can be given to cause cows to give an abundant flow of milk of a rich quality, and free from any disagreeable flavour. Some years ago, when potatoes were cheap, we knew of a farmer that fed them to his cows along with good clover hay, and they gave an increased quantity of butter of fine flavor, and as yellow as that made in summer time. The potatoes ought to be sound and free from rot, which is injurious, though if slight frozen the cows will eat them without suffering any injury. The potatoes should be free from dirt when fed out.

Peas for Pigs.—Few things would pay a grain growing farmer better than to raise peas for pigs. No matter how "buggy" the peas may be, the bugs or beetles remain in the peas until about the 1st of November; and when the peas are fed out before this time, the pigs will eat both together, and there will be little l ss. Nothing makes better pork or lard than peas, and the manure from pea-fed pigs is exceedingly rich. A heavy crop of peas too, is a valuable crop and a fitting one to precede winter wheat.

All They will Eat.—Persons fattening hogs or beef should crowd both. The best food and the most of it that will not injure the health, should be the motto of every feeder, whether of one animal or a hundred. Hunger always awakens expectancy, which is another word for unrest, and when a lot of hogs or a herd of beef cattle spend half their time looking through or over the fence for the coming of their food, there is little gain for what is given them.

Christmas is Coming !

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

Circulation — Terms. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the wastes and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's **disease** of the Kidneys, Secondary Syphilis, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, as Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctoring for nine years, and cured at a cost of less than $20 dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

Dr. Radway:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE-

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES,

Have a reputation for correctness the world ever.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music —Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA,

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink Carratraca and keep healthy.

Drink Carratraca and keep Cool during the "heated term."

Save the lives of the Children by giving them Carratraca.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building Front Street

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our *Almanac,* supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN,

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to Peters' Musical Monthly. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Thomas, Danks, Kinkel, Bishop, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 60 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS' MUSICAL MONTHLY

We do not expect Peters' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD
The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and displacements of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In Radway's Pills [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack. Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effects of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse,* the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly,* HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Chologogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of an gorged liver, fat, spleen disordered kidneys, saffron colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures Chologogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of Radway's Ready Relief, diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas, [illegible] All of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom [illegible] sickness, and can be used for the same [illegible] would cost at least ($25) twenty-five dollars to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels.
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Billious Colic,	Flux.

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Viz: *Radway's Ready Relief, Regulating Pills* and *Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and *Pills* are new medines, prepared on new principles, and *Pills* will cure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with Reliable Correspondents in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$ 5 00
do	do	12 do	8 00
Half square,	6 months,		12 00
do	12 do		20 00
One square,	6 do		20 00
do	12 do		32 00
Two squares,	6 do		30 00
do	12 do		50 00
Three squares,	6 do		40 00
do	12 do		65 00
Four squares,	6 do		50 00
do	12 do		80 00
Notices of Births,			50
Do of Marriages,			50
Do of Deaths,			50

"Business Notices"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six, lines (per line) first insertion	0 05
Each subsequent insertion per line,	0 02

☞ "Business Notices"—[illegible] cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the Weekly Intelligencer presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The Daily and Weekly Intelligencer can be had at the Book Stores in Belleville, and Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,		$ 5.00
Club of 10	"	8.00
Club of 20	"	15.00

And all over 20, at 75c per copy, free of postage.

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

PART II.

(From Blackwood for January.)

In our last number we sketched out the circumstances that led to the French half-breed rebellion in the North-Western territory, resulting in the dispatch of an armed force to that country, for the purpose of re-establishing Her Majesty's sovereignty and for protecting her loyal subjects from the cruelties and plunder, to which they had been subjected by Riel and the other rebel leaders.

The force consisted of the 1st Battalion 60th Rifles, two battalions of Canadian Militia, a detachment of Royal Engineers, and a detachment of Royal Artillery, with four 7-pounder guns.

Navigation opens usually on Lake Superior about the 8th or 10th of May; and it was essential that the troops for the Red River Expedition should rendezvous at the earliest possible date in Thunder Bay, on the western shores of that lake.

As described in the previous article, all ships sailing from Collingwood for that place must pass through the canal at the Sault Ste. Marie, which runs exclusively through United States territory. It had never been contemplated to send soldiers through that canal. They were to be landed on our side of the Ste. Marie river, below the rapids, to march up the bank about three miles, and then embark again in the same steamers in which they sailed from Collingwood, and which in the meantime were to have gone round through the canal. During the war between the North and South, we had never made any remonstrances when the Washington Government sent warlike material up the St. Lawrence through our canals into the lakes; in fact they had once sent a gunboat by that route. It was hoped that similar facility would be allowed to us, and that as long as no armed men violated their territory, no difficulty would be raised against our sending stores of all descriptions through the Ste. Marie Canal. As, however, faith is seldom put in the political honor or generosity of the United States, it was determined to send through the canal, as soon as it was open for traffic, laden only with a purely mercantile cargo, one of the steamers that runs every summer between Collingwood and Thunder Bay, and, when once on Lake Superior, to keep her there until it was officially ascertained whether the Americans intended to be obstructive or not. Having even one steamer on that lake would render us independent, as she could be kept constantly running across, taking men, horses, stores, &c., &c., from the Sault, to which place they could be brought from Collingwood, whether the Americans wished it or not. This was carried out successfully. The steamer was allowed to pass through the canal, the United States officials there being rather taken by surprise, and having no instructions on the point; the next steamer which attempted to pass about five days afterwards was stopped, although she had no warlike material on board; and the American authorities stated that no more British ships, no matter what their cargo might be, should for the present be allowed to pass into Lake Superior.

This obstruction was as futile as it was unfriendly; for if the Ministers at Washington had but reflected for a moment they would have realized how utterly impossible it was for them to put a stop to the Expedition by any course they might adopt short of actual war. They could certainly prevent our vessels going through their canal, but they could not possibly prevent us from buying or hiring steamers belonging to their citizens on Lake Superior for use there.

No matter how anxious the nation as a whole might be to thwart British interests and throw every impediment in the way of the little army ordered to the Red River, still the love of gain being much stronger than any such national sentiment in the heart of the true dollar-loving Yankee, we should always be certain of obtaining any required number of their vessels. As long as the rebellion lasted in our northwestern territories, there was always a chance of their dropping, from exhaustion and inability to defend themselves against Indians, into the hands of the United States. It was said that Riel, or at least some of his gang, had been coquetting with the American authorities upon the subject of annexation. The press throughout the western States openly declared a desire to hinder the British troops from getting to Fort Garry.

For years back the Red River territory had been coveted by our Republican neighbors, and it was supposed that it would fall to them in the natural course of events. This expedition was therefore regarded by all classes of Americans as injurious to their future prospects—a feeling which, apart from the pleasure with which the American people generally contemplate any difficulties we may be exposed to, will account for their anxiety to throw every possible obstruction in the path of the expeditionary force.

As it was thought that the single steamer which, as already described, we had succeed in placing upon Lake Superior, might not be sufficient for our own requirements, an American propellor was hired at Sarnia and sent up empty to Lake Superior through the canal, her master swearing to the United States authorities at the Sault that he had not been hired by the Canadian Government, and had nothing what-over to do with the Red River expedition. The declaration was entirely spontaneous on his part, and not the result of any instructions received from us. When he had passed through the canal, and was seen to steer over and anchor near our shore, the wrath of the chief United States official was beyond all bounds, and deep was the vengeance which it was said should be taken upon him when he returned that way. A protest having by this time been sent to the President by the Governor-General of the Dominion, all restrictions upon British trading vessels having no warlike material on board were withdrawn.

This affair of the canal had the effect of retarding for some time the departure of the expedition, but it was not the only cause of delay. As this was the first military expedition ever undertaken by the Government of Canada, excuses can easily be made for the ignorance displayed by its Ministers upon all points connected with army matters, or the requirements of troops in the field. They cannot, however, be so easily pardoned for having failed to recognize their ignorance, and for having neglected to avail themselves of the military talents of the able soldier who had been sent out from England especially for the occasion. General Lindsay was most anxious to relieve them of all reponsibility regarding the organization, equipment and despatch of the expeditionary force; but such an arrangement did not suit their political ends. A large outlay of money was to be made, and they wished to spend it as much as possible amongst their political supporters. When, therefore, the General, with the thoroughness and energy for which he is celebrated, went to Collingwood on the 5th of May, and made all the necessary arrangements for this despatch of the troops by steamer from thence, and telegraphed for permission to close the bargains, he was told by the Ottawa Government to do nothing in the matter, as all such arrangements would be made by their own agents. The result was, that instead of starting about the end of the first week in May, the first detachment of the expeditionary force did not leave Collingwood for Thunder Bay until the 21st of that month.

The steamers used on these great Canadian lakes are a sort of cross between the ocean-going and the ordinary American river steamboats. They have their staterooms and their bars, so that in calm weather one can enjoy all the luxuries that are so dear to our transatlantic cousins; whilst their hulls are strongly built, and capable of enduring the heavy weather so often encountered on these inland seas. The scenery has been so frequently described that we make no apology for landing the reader without more ado, together with the expeditionary force, on the western shore of Thunder Bay, about four miles north-west of where the Kaministiquia River flows into Lake Superior, the place being known as PrinceArthur's Landing. There was but a small clearance in the woods when we landed, where a few wooden shanties had been erected, and all around the prospect was extremely desolate. One of those dreadful fires which occasionally sweep over whole districts in Canada, destroying houses, crops, cattle, and sometimes human lives, had raged over the country between the landing and Shebandowan Lake, destroying small bridges, culverts, and cribwork on the road already partly made between those two points. No lives had been lost, and the two large bridges which had been erected during the winter, and most of the public property, had been saved by the exertions of the workmen. The forest, which came down to the water's edge all round the bay, presented a pitiful sight. Nature never wears a more sombre appearance than when the fiery element has swept over a forest, burning every leaf, every small branch, and every blade of grass, leaving nothing but the tall dismally blackened trunks and burnt up rocks around them.

Such was the first impression upon landing; it had a depressing effect on our spirits for go where we might, the scene was one of funereal mourning, whilst here and there the peaty soil smoked heavily, showing that although no fire was visible on the surface, the elements of destruction still smouldered beneath it. During our subsequent stay at Prince Arthur's Landing, we had more than one opportunity of witnessing great fires in the woods; and the imposing grandeur of such scenes may be imagined, but words cannot describe them. To be surrounded by a forest, and to hear the roaring, crashing, crackling sounds of a raging fire, borne by a high wind in your direction, is, we feel sure, the most appalling of all human sensations. The smallest and most despised insect seems grown superior as it flies away out of harm's reach with what sounds at the time like a chirp of mocking disdain and pity for your earth-bound impotence. Your only hope of safety is either a change of wind, or being able to reach a swamp, a lake, or a large river, before your swift pursuer overtakes you.

Any one who has ever witnessed the landing of an army at a point which is to become the base of further operations, will easily understand how little time was left for either mournful or poetical reflections upon the manner in which such a fair spot had been converted into a dismal wilderness. Work, work, work, from daylight until dark, and often even until late at night, getting stores, horses, waggons, &c., &c., ashore, and conveying them from the beach to the several depots appointed for their reception. Road making and opening out communications between the camps, which the nature of the ground rendered it impossible to have in one place, gave employment to a large number daily. It was intended to establish a large depot of supplies and ammunition there which we could draw upon in case of need, or upon which we could fall back in the event of any untoward disaster; a hospital was to be equipped for the reception of the wounded if there should be any, and to which all who fell sick during the advance of the Expedition were to be sent back. As the Fenians had declared their intention of fitting out an armed vessel on Lake Superior for the purpose of attacking our store ships whilst *en route*, and of falling upon our depots when left ungarded by the advance of the Expedition, it was considered necessary to construct a redoubt for their protection. This entailed considerable extra labor upon the soldiers; but notwithstanding the frequent rains, the work went on merrily, so that when the force left Thunder Bay, the rear with its stores was perfectly secure from any attack that could possibly be brought against it by this Hibernian brotherhood. A company of militia was left behind, with two guns, as a garrison for the redoubt. Of all known parts of the world it may be truthfully stated that Thunder Bay region is the most subject to violent thunder storms, whether owing to metallurgic influences or to geographical position we do not know. Many officers who had been "all over the world" admitted they had never heard such appalling claps of thunder before. On some occasions trees were blown down, on others they were split into shreds. At times, especially at night, the noise was such that the ground seemed to shake, and it sounded so close that one expected to see the tentpole riven in two. Now and then these storms were accompanied by rain of quite a tropical character, after which the numerous streams became so swollen that bridges were swept away, and long portions of the road, which had been constructed with infinite toil, were completely destroyed. Every such misfortune retarded progress.

The Hudson Bay officers best acquainted with the country reported that we could not calculate upon being able to get through the higher region over which the route lay after the end of September. Every day was therefore of consequence; for although it was intended to leave the militia regiments at Fort Garry for the winter, instructions had been received from the home authorities desiring that the regular troops should be brought back from the Red River before the winter set in, if it was possible to do so. This was not the only incentive to haste; for every mail from the North-West brought urgent appeals from its inhabitants, praying for the earliest possible arrival of the force among them. Alarm, and a dread of some unknown evil, seemed to have possessed their minds, men had begun to suspect one another, and no one knew to whom to look for either comfort or safety; all eyes and thoughts were bent upon the expeditionary force as the sole chance of deliverance from the bondage, both of mind and body, to which every loyal man was there subjected.

Daily Intelligencer.

BELLEVILLE, MONDAY, FEB. 13.

SCHOOL TRUSTEES.—A meeting of the Board of Common School Trustees, adjourned from last week, will be held in the Town Hall to-night at 7½ o'clock.

COURT OF REVISION.—The hour for the sitting of the Court of Revision has been changed from 7 p. m. to 4 p. m., to-morrow, in consequence of the meeting of Council in the evening.

CAUGHT AT LAST.—We learn that Murray, accused of murdering Real in Tyendinaga, has been extradited, and is now on his way here, in charge of constable Slattery, of Syracuse. He will probably arrive on the evening train from the east.

LEVESCONTE MEMORIAL FUND.—Members and ex-members of the Belleville Rifles, who desire to contribute to the above fund, are notified, by advertisement, that the subscription lists are open at the store of Mr. E. Harrison, and will be closed on the 28th inst.

DAIRYMEN'S CLUB.—A requisition, signed by a large number of dairymen, was lately presented to K. Graham, Esq., M. P. P., asking him to call a public meeting at an early date, to consider the advisability of forming a Dairymen's Club. Mr. Graham has accordingly called a meeting for Saturday, 26th instant, at the Town Hall, Belleville, at 2 o'clock, p. m.

CONFEDERATION PROGRESSING.—The principle of Confederation is progressing. The Leeward Isles have all agreed to join themselves together, and a bill will be passed by the Imperial House of Commons, giving effect to the design of the Islands. The Windward Islands will before long either join the Leeward or accept a Confederation among themselves.

THE KINGSTON MURDER.—An inquest was held in Kingston on Saturday and Monday on the body of William Ausem, particulars of whose death by the hand of his brother, we received by telegraph on Saturday. The verdict given by the Coroner's jury was that "Wm. Ausem came to his death through a wound in the breast inflicted by a knife or other sharp instrument in the hands of James Ausem." The murderer is in custody.

CHEESE FACTORIES.—The Ontario *Gazette* of the 11th inst, contains the announcement that the "Sidney Cheese Manufacturing Company," of the Township of Sidney; the "Melrose Joint Stock Cheese Factory," of the Township of Tyendinaga; and the "East Hastings Cheese Factory," of the Township of Thurlow, have complied with the formalities prescribed for the formation of Companies, under Chapter 63 of the Consolidated Statutes of Canada.

WOOD PAVEMENT COMPANY.—The Ontario *Gazette* of the 11th contains the announcement that the "Ontario Wood Pavement Company of Toronto," has been incorporated with power to carry on business in the cities of Toronto, Hamilton, London, Kingston and Ottawa, and in the towns of St. Catharines, Port Hope, Cobourg, Belleville, Brantford, Brockville, Guelph, Berlin, Peterboro', St. Mary's, Stratford, Windsor and Woodstock, having its head office at the city of Toronto, and with the nominal capital of $180,000.

—A relative of Father Richot's has arrived from Fort Garry on a secret mission to the Cabinet.

The Grand Junction Railway.

A telegram from Toronto informs us that the Grand Junction Railway Bill, as amended, passed its third reading this morning by a vote of 52 to 15. The amendment legalises the Peterboro By-law granting $75,000 to the Grand Junction Railway, and compels the County Council to carry into effect the vote of the people by issuing their Debentures, in accordance with the By-law. The passage of this Bill, as amended, secures the construction of the Grand Junction Railway beyond any doubt, as the bonuses given by the municipalities interested and the promised aid of the Government, will amount to about $6,000 a mile, nearly half the cost of construction. The survey will, no doubt, be gone on with, and the contract for building the Road given out as soon as spring opens. The active promoters of this Road may well be congratulated on the success which has attended their efforts, and the people of Belleville may well rejoice at the bright and prosperous future which the building of this Railway promises for this section of country.

Visit to the Deaf and Dumb Institution.

Rev. W. Morley Punshon, M. A., of Toronto, and Rev. Wm. Stephenson, of Ottawa, accompanied by Hon. Billa Flint and lady, and Miss Bilbrough, of Marchmont, visited the Institution for the Deaf and Dumb on Monday, Feb. 13th. They were received by the Principal and conducted through the different departments, and an opportunity was given them of witnessing the method of instruction, &c. They first visited the classes of Prof. Coleman and McGann, and were much interested in observing the system of instruction pursued. While in the lecture room, Prof. Samuel T. Greene, B. A., who is deaf and dumb, wrote the following address:—

To the Rev. Messrs. Punshon and Stephenson, Hon. Billa Flint and Lady, and Miss Bilbrough.

It affords me great pleasure to see you here, and I hope you are enjoying your visit to this Institution. The attempt to educate the deaf and dumb is comparatively a recent enterprise. Looking back but a century we find the first minds in law, literature and theology united for the most part in considering the deaf-mute as utterly incapable of receiving any education whatever. To verify this assertion, Aristotle before the refined Athenians, denied to the deaf and dumb the possession of intellect, and we can hardly avoid the decision that the mistake of so influential a character was a prime cause of the long and cruel proscription afterwards endured by deaf-mutes. But the world at last learned, as John Locke aptly expressed it, that 'God did not make man and leave it to Aristotle to make him rational,' and that in the rise and progress of deaf-mute instruction the fullest success has been achieved.

Mr. Punshon replied as follows:

"We thank you for your address and the proof you have given that God knew better than Aristotle. May God speed you in your noble work of learning that you may teach others who are afflicted in like manner, and by and bye you shall, I hope, through Jesus Christ get into a 'better land' where you shall 'speak with tongues' as well as the best, and 'glorify God.'"

Wesleyan Missionary Meeting.

The annual Missionary Meeting of the Wesleyan Methodist Church, in aid of the funds for Domestic Missions, was held on Monday evening, 13th inst., and was fully as successful as any which was ever before held in the town. Upwards of an hour before the time fixed for the commencement of the services, the church door was besieged by hundreds of people, waiting anxiously for the opening of the doors. Long before proceedings begun the church was filled to repletion, large numbers of persons being compelled to stand, through want of seating accommodation. Punctually at 7 o'clock the services were commenced by the Rev. D. L. Brethour reading a portion of scripture, after which prayer was said by Elder Jones. The Mayor was then called to the chair, and after a short opening address called upon Rev. Mr. Brethour to read the annual report. He was succeeded by Rev. A. Browning, a Missionary who has lately returned from British Columbia, of the operations in which country and along the Pacific coast, he gave an interesting description. Rev. Mr. Stephenson, of Ottawa, followed in an eloquent speech, referring particularly to the civilizing and ameliorating influences of the Bible. Rev. W. M. Punshon, who was the last speaker, dwelt principally upon the work of the Society, strongly recommending the sending of a Missionary to some foreign country, he cared not where; as the only "foreign" mission now under the auspices of the Society, was that British Columbia, and, by July, that country might be included in the Confederation—which, when done, would leave the Wesleyan Church in Canada without a missionary in a foreign country. He did not think this would be fulfilling the injunction of Jesus to his apostles. In conclusion, he urged his hearers to be liberal in their gifts to the Society, as the sum of $5,000 lately given by the English Parent Society had been withdrawn, and that amount would have to be raised, over and above the sum raised last year, to be even equal to it in point of funds. The proceedings closed with the benediction. The choir throughout the evening was as effective as usual, rendering some excellent music in good style and receiving a liberal share of applause.

The collection amounted to $88.98, and the subscriptions to $229—All honor to a congregation so liberal in so good a cause.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

TUESDAY, Feb. 14.

RIOTOUS CONDUCT.

Isaac Brant, an Indian, was charged by Capt. Nunn, G. T. Station agent, with riotous conduct at the Station last night. Prisoner was drunk, and besides disturbing persons waiting for the train, broke a window. A fine of $1 and costs was imposed, or in default, 15 days in gaol. The money was paid.

—Sir Francis Hincks continues to buy Sterling Exchange in the open market by tender.

—A new rail scraper is now being tested on the Grand Trunk, of Canada, and apparently with great success. It is intended, if it turns out all that it promises, to be attached to every train.

Curling Match.

A match was played on the Belleville Curling Rink yesterday afternoon for a gold medal presented by D. Pitceathly, Esq., President of the Club. The contest was between two Rinks of Old Countrymen against two Rinks of Canadians, and, as will be seen by the score, was a tie. The match will consequently have to be played over again. The following is the score:

OLD COUNTRYMEN.	CANADIANS.
RINK NO. 1.	RINK NO. 1.
W. H. Ponton,	W. H. Graham,
Thos. Kelso,	E. R. Benjamin,
Jas. Robertson,	J. W. Thompson,

New Masonic Lodge.

A Masonic Lodge was opened at Shannonville a short time ago by dispensation from the Grand Lodge of Canada, under the name of the "Quinte Lodge." The following are the officers for the first year:—

W. Bro. S. S. Lazier, W. M.
" N. S. Appleby, S. W.
" A. Rockwell, J. W.
" A. J. Andrews, S. D.
" S. R. Shaw, J. D.
" A. L. Roberts, Treas.
" R. A. Fullerton, Sec'y.
Rev. " S. Young, Chaplain.
" W. McMichael, T.

Prince Edward Orange County Lodge.

The annual meeting of the Orange County Lodge of Prince Edward was held in the village of Millford, on Tuesday, February 10th. The following are the officers for the ensuing year:—

Wellington Boulter, County Master, re-elected.
James McComb, Deputy County Master, re-elected.
A. A. Taylor, County Chaplain.
Franklin Jones, County Secretary, re-elected.
John Crawford, County Treasurer.
Thos. E. Young, County Director of Ceremonies, re-elected.
C. A. Young, County Financial Secretary.
James Peck, County Lecturer.

Minor Topics.

The Michigan Southern Railroad has just put on their line a sleeping car which cost $40,000, so they say. In addition to the usual conveniences of the palace cars, this latest production has water-pipes running around the sides, so that water can be obtained by the occupants of the car without rising from their seats; a bridal chamber, with bed like down, and with a white satin coverlid and innumerable mirrors; and extra sized platforms with facilities for promenading, and a wire fence to prevent accidents to the promenaders.

Abyssinia, since the death of Theodorus, is something in the same condition of chaos as France. There are four feeble claimants to the throne, all mortally afraid of one another, but all quite ready to declare their intention of doing terrible things. Of these the Waagshum Gobazye is the chief native. He it was who amused himself, during the progress of the British expedition through the country, by "watching" Theodore. He was friendly to England, he said. He never did anything else but "watch," and generally preferred doing that from behind a hill. If he saw signs of any advance on the Emperor's part, he retired behind another hill to continue "watching" at a safe distance. Casa is a rival chieftain, and as he has the advantage of an ex British officer as commander-in-chief, Gobazye, though he has 60,000 troops at his back, does not care to attack him. In the meantime, Herr Muzingu, now the French Consul at Marsowah, and the only European representative there, is stealing up into power, and getting a good deal of influence. He is a sort of Burlingame on a small scale, and it is thought he may manage to gain possession of the unoccupied Imperial palace at Magdala, and to assume the rather uncomfortable Abyssinian crown.

To the Editor of the Daily Intelligencer.

MY DEAR SIR,—Will you, through the columns of your valuable paper, sound a note of alarm to the small boys and overgrown youths who continually annoy and harass a poor but industrious girl, known as Jane Williams.

These persons do not content themselves with calling her opprobrious and insulting names, but actually pelt her with stones, seizing their opportunity when away from the vigilant eye of the police.

Such conduct is detestable, and should be put down at once, and every citizen of Belleville should feel it as a sacred duty to succour and assist those who, from their sex and position, are to a great extent helpless.

Yours, &c.,
J. J. B. FLINT.

Belleville, Jan. 14, 1871.

News Condensed.

—Saturday night has been chosen by New York ultra-fashionables as reception night.

—Fli Shu is the name of the oldest of the Chinese deities, but his name got reversed in America.

—The stylish slipper for gentlemen is made of fine black cloth, with a light embroidery in gold.

—The advertising receipts of the London *Times* have sometimes reached $125,000 in a single month.

—A school girl's conundrum is: What state is round at both ends and high in the middle? Ohio! How's that for high, anyway?

AN EDITOR'S DREAM.—An editor, who was evidently loony, or had a strong and vivid imagination, recently got off the following item, if true:

I had a dream the other night,
When everything was still;
I dreamed that each subscriber
Came up and paid his bill.
Each wore a look of honesty.
And smiles were 'round each eye,
As they handed out the coin,
Saying, "How is that for high?"

An unmarried young man declared the other day, with an expression of countenance most lugubrious—"I never cared a farthing about getting married until I attended an old bachelor's funeral."

—The Picton *Gazette* of the 10th inst. says: "We regret to learn that Simon Cole, Esq., Big Island, Township of Sophiasburgh, lost his house and outbuildings, together with nearly all of their contents, by fire, on the 26th Jan. last. Estimated loss $3000. Insurance in the Prince Ed. Mutual Fire Ins. Co., on said property, for $940.00."

SPECIAL TELEGRAMS.

FROM KINGSTON.

By Special Telegraph.

KINGSTON, Feb. 14.

This morning Nancy Spence *alias* Duncan, and her mother, Margaret Ausem, were charged before the Police Magistrate with keeping a house of prostitution. About a dozen others, male and female, were charged with frequenting the same. The house referred to is the one where the late murder took place. Nancy Spence and her mother were each fined $20 and ordered to leave the city, the others were fined in various sums from $10 to $5, and some of the females sent to gaol for two months.

Fire in St. Catherines.

ST. CATHERINES, Feb. 14.

The residence of Col. Thomas Adams paymaster on the Welland Canal, Ontario Street, was destroyed by fire about two o'clock this morning. The fire is supposed to have originated from a spark from the stove in Col. Adams' room falling on some paper in a bureau drawer. Mr. Adams, son had his whiskers and hair burnt off. The family escaped in their night clothes Four gold watches, two hundred dollars in money, and all the furniture was destroyed. Loss between $3,000 and $4,000.

LOST,

ON Monday Evening, the 13th instant, near the Bridge Street Wesleyan Church, A GOLD EAR RING. The finder will confer a favor by leaving it at this office.

Silver Island

THE SILVER ISLAND IN LAKE SUPERIOR—RICH RETURNS FOR MINING.

From the Detroit Post.

It is but little over 30 years since the Upper Peninsula was given to Michigan as the sequel of a dispute and as a kind of 'make weight.' It was given to, and accepted by, as a mere barter, an article of little value. Now we have become alive to the fact that there is not a more wonderful, a more beautiful, or a richer region within the National domain.

It has been found to contain ores of unequalled, and almost incredible, richness, producing iron unsurpassed in quality, and copper, both native and in the ore, in abundance and value found nowhere else. Last year, 1,090,000 tons of iron and ore were exported from that regon, and 20,000 tons of copper. To procure those metals mines have been sunk one-third of a mile into the earth. Silver has always been found, more or less mixed with the copper of those mines, and in quantities that, in countries where labor was cheaper would have made its search a speciality. But here no attention is paid to enterprises except such as in other countries would appear to be fabulously remunerative. Lately, however, a silver mine yielding such rich indications as to force the attention of the most skeptical has been discovered on the north shore of Lake Superior.

Sailing northwest and by north from Keweenaw Point for about 55 miles we reach a strait two miles wide between the mountainous and romantic 'Isle Royale' and the smaller islet called 'Passage Island.' This strait passed, we sheer west-northwest 25 miles and we are under Thunder Cape, a bold promontory at the east entrance of Thunder Bay, and in the British possessions.

This cape towering in rugged grandeur 3,000 feet above the level of the lake, looks a fitting seat from which the Olympian Jove might guard with his thunderbolts the entrance to the bay, or launch them at the daring intruder who should disturb the silver treasures at his feet.

Five miles northeast from the cape, and 3,000 feet from the main land is 'Silver Islet.' It is of a rounded, irregular shape, about 75 feet in diameter, and rising not four feet above the level of the lake, when still, and washed over by the waves in storms. It is destitute of vegetation, and to the unscientific eye appears to be of quartz rock merely.

Between Silver Islet and the mainland lies Barret Island, about half a mile in length and 400 feet in width, and clothed with trees and bushes. On *this* island a dock has been built.

Both islands and their submerged parts, or reefs, extend from northeast to southwest, the points opposite having bold shores. Fort William is inside of Thunder Bay, and 20 miles distant. "Prince Arthur's Landing," where the Manitoba volunteers landed last summer, is five miles east of Fort William, and the silver mining operations of Mr. Berk are 12 miles further still. Silver mining operations were commenced at Silver Island, last September. The shaft, or drift, is of course partly below the level of the lake, and is from 8 to 12 feet in diameter. Breakwaters and cribs had to be erected, as well to ward off the heavy surf that frequent storms send over the island as to keep out the waters of the lake at their usual level. About 80 tons of ore have gone forward to the smelting works in New Jersey, as the result of six weeks or two months' operations, and about 50 tons more are now ready for shipment. The ore smelted has yielded about $1,700 currency per ton, whilst the richest mines of Mexico do not exceed $350 per ton.

American Despatches.

The Missing Steamer "Tenessee."

Statement of Secretary Robeson.

NEW YORK, Feb. 14.—The statement of Secretary Robeson regarding the 'Tenessee' that it is too soon by ten days to expect regular advices from her, and that no extraordinary means of communication have been employed, goes much to allay public anxiety. Still there is considerable solicitude felt, especially by those who have friends on board.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 13, (evening).—The House of Commons to-night, on motion of Mr. Gladstone, unanimously voted a dowry of £30,000 to Princess Louise, and an annual allowance of £6,000.

In the House of Commons this evening Mr. Gladstone denied that the Prussians had placed obstacles in the way of the re-victualling of Paris. The Premier also said that the Government had suggested to Prussia to make known the proposed terms of peace.

VERSAILLES, Feb. 13—The bankers of Paris are fully provided with the means to loan the city the two hundred million francs needed for the payments of its war contributions.

The French have proposed a prolongation of the armistice.

Favre is expected at Versailles.

The Emperor will go to Berlin at the beginning of March to open the session of the Reichstag

---

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 137-m-Th.

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no better Cough or Lung Medicine in use.

CANADA

LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st, The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,

Belleville, Oct. 6, 1870. 184tf

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Children whose brain development is unusually large in comparison with the body are most frequently singled out for a prematurely final resting place. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain, consequent upon active intelligence. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

Intercolonial Railway

OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteeen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 6 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

Handle the Potatoes Carefully

Potatoes usually get rough usage on the way to the barrel or bin. They go in with broken skins and bruises, so that the wonder is they do not begin to rot away. We only repeat the hint which has already been published, but it is particularly timely just now. The partial failure of the staple crop renders it very desirable that what potatoes have matured should be made the best and most of. Sometimes the tubers rot badly in the field. Possibly drought may follow them through winter, in its blighting effect, but we devoutly hope not. Let us rather trust that so much of a crop as is properly stored will keep in good condition and prove of a fair quality for the table. Under any circumstances it will pay to load and unload them carefully.

'Feller trablers,' said a 'culled' preacher, 'ef I bad bin a eithing dried apples for a week, and den take to drinking for a monf, I coodn't feel more swelled up than I am dis minnit wid pride and wanity at seein' sich full 'tendance har dis evening, and when I reflect that I am right in de white washin' season, when de brudders am seen a gwanin round de streets a-lookin' like ole Gypsum mummies preserved in lime, an' de sisters are up to dar ankles in the scrubbin' time, my heart yearns towards you like a piece of Ingin rubber nie a hot stobe, and I feel dat I hab an afflickshun for you that nuffin' can estrange, or syringe, I forget now which; but one am jist the same as todder.'

QUICK WORK.—Under the above heading the Montreal *Star* says that there is at present in Montreal a young widow of 22 who is the mother of *nine* children. She was married at the early age of 13, and before her seventeenth birthday she presented her leige lord with "pledges of affection" in the shape of twins; the following year she improved, producing at one birth three fine boys; the next year she had twins, and repeated the performance the following year; making nine children, the eldest being barely 4 years old. The children are all living and doing well ,but it proved too much for the father; human nature could stand it no longer,and he died, the victim of too much domestic happiness.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

Christmas is Coming!

Belleville, December 9th, 1870. 188d

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the mos choice products of the vegetable kingdom. The Sarsaparillian *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicin are selected and gathered with the greatest care a the proper season, from the native soil, under th supervision of intelligent agents—experienced botan ists, employed exclusively for Dr. Radway & Co.— so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services an expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured i the curative range of Dr. Radway's Remedies, mor especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for neve in the history of medicine was such a medicine tha to completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, th weak and broken-down constitutions, as

Dr. RADWAY'S SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied t the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident t change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, howeve wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wast ed beyond the process of repair, or if capable o sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements o decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue t live perhaps for years; for no matter how low the vital forces may be, if the system can be brough under the influence of this tissue and flesh-makin medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree o strength, purity, and nourishment to enable it to hol in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease o the KIDNEYS, SECONDARY SYPHILIS, and the poison o Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured **by the use of the Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of th Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better afte taking the **Sarsaparillian Resolvent.** *As th blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natura constituents, the deposits of Tuberculous matter an other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin an other Organs; and each of these Organs will secret their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids bein absorbed in the circulation, these secretions will b directed for expulsion from the system through thei proper channels. If medicine fails in its influenc on the system, to correct these secretions, and to as sist each organ or secreting gland in discharging it proper functions, health can never be restored; hap pily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want tha has heretofore existed in all these remedial agent advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in th tissues, cartilages, glands, organs, or bones disea and corruption may be, the influence of this power ful agent on the blood and other fluids that suppl the living body with repairs, will so charge the sys tem with such constituents as to resolve and exter minate the dead and decomposing matter, and sup ply its place with sound and living structure, nour ished by rich, pure, and strong blood. By th chemical action which the Sarsaparillian Resolven has on the substances taken into the stomach durin its process of digestion into Chyme and Chyle, befor it is made blood, as well as the nourishing consti tuents it converts into blood, and its specific actio when entering in the circulation, it exterminat every atom of virus from the blood, and resolve away all deposits of disease, whether caused by th action of some specific poison, or virulent disease, o Mercury, Corrosive Sublimate, i. e. the Corrosiv Chloride of Mercury, Calomel, and other agent that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitte family complaint that may have run through half dozen generations.

Scrofula, Consumption, syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands an other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and th worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Sal Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in th Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, an all wastes of the Life Principle, are withi the curative range of the Sarsaparillia Resolvent, and a few days' use will prove t any person using it for either of these form of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved an effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill o the most celebrated doctors in Montreal and othe parts of Canada. Last Fall he commenced the us of **Radway's Sarsaparillian Resolvent**, aide with **Radway's Pills and Ready Relief.** H used only three bottles of the Sarsaparillian Resol vent, and two or three boxes of Radway's Pills, an used, as a lotion, a wash of the **Ready Relief** an **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man th had previously spent hundreds of dollars, doctor for nine years, and cured at a cost of less than $ dollars

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a num ber of Paper Mills, Hotels, &c., told me of his know ledge of your medicine. His son, aged 13 years, wa covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw in September last, and he was the most revolting an diseased object I ever saw. At my request he wa put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw th father, who then told me that his son was complete cured. I know of many who have been cured o Fever Sores, Eruption of the Skin, Boils, Ulcers, Sor Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with on bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

Dr. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, an was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled t sleep, a boon for which I was thankful. Afte using one bottle the bleeding was cured, and th night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatene Consumption have disappeared. I feel my healt fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to hav been under the treatment of the best physicians i Sarnia—he received no benefit from any medicin until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1,50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequal.ed.

Terms for 1871.

PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

In her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaille,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN,

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.60 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS'

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January nex having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekl report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanica Literature, the Publishers will issue on January firs the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS--AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞1,500 Cash Prizes.☜

In addition to the above premium, the Publishers wi pay fifteen hundred in *CASH PRIZES* for lists o subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. address the Publishers MUNN & CO., 37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

orom the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and disyalea of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Hoarseness, or Weakness of Blood, and all painful symption, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured s Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for ordinar purposes, open the bowels, and through what is calle "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agent, or the purpose of cure, or removal of any settle disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken o administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membrane f the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug or a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied in *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS (which are the only *perfect Purgative Pills*) you secure a Pill superior in all its properties to the most choice remedial agents known o Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack. Doctor prescribes Blue Pills or Calomel! next som. drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for*, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*, the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutrition adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the function of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Billious Fever

In the world. There is no Ague Cure [illegible] or preparation of Quinine, [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively [illegible]

Radway's Read[illegible]

No, not one. Thousands [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private Practice [illegible] gorged liver, fat, spleen [illegible] colored skin and hundreds of [illegible] distress. These agents never cure [illegible] disease, whereas

RADWAY'S READY RE[illegible]

aided by Radway's Pills, not only cure the worst cases, but will protect the system [illegible] attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers Attacks, &c., than the Quinine M[illegible] Cholagogues, &c., costing $1 to $3. Ready Relief is good for hundreds [illegible] that these are not.

One 25 cent bottle of Radway's diluted in one gallon of proof spi[illegible] equal in quantity, and superior in [illegible] 144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas [illegible] these remedies being but poor [illegible] way's Ready Relief.

One bottle of Radway's Rea[illegible] cents, as a Pain Remedy, and for [illegible] will secure every household freedom [illegible] ness, and can be used for the [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] sickness, or accident takes place.

Painful Attacks when

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Billious Colic.	Flux.

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication,

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacopœia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physioligists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and *Pills* are new medicines, prepared on new principles, and cure the sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,			$ 5 00
do	do	12	do	8 00

do	12	do		20 00
One square,	6	do		20 00
do	12	do		35 00
Two squares,	6	do		30 00
do	12	do		50 00
Three squares,	6	do		40 00
do	12	do		65 00
Four squares,	6	do		50 00
do	12	do		80 00
Notices of Births,				50
Do of Marriages,				50
Do of Deaths,				50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,....	0 50
Each subsequent insertion,............	0 12½
Above six, lines (per line) first insertion	0 08
Each subsequent insertion per line,....	0 02

☞ "BUSINESS NOTICES"—cents per line each insertion, measured as solid minion

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY Review,
WESTMINSTER REVIEW.

MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - -	10.00	
For Blackwood and three of the Reviews, - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a First-Class HEARSE, and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY
as the very best parlor periodical that we know.

It is more complete in its departments than any other.

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 36 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. White having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers, - -	$ 5.00
Club of 10 " - - - -	8.00
Club of 20 " - -	15.00

And all over 20, at 75c per copy, free of postage.

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

PART II.

(From Blackwood for January.)

CONTINUED.

As stated in our previous article, the Ottawa authorities have announced that the road from Thunder Bay to Shebandowan Lake would be fit for traffic before the end of May; whereas by that date not more than thirty miles were still uncut through the primeval forest. A rumor got abroad amongst the regular troops that the Canadian authorities were not very anxious to hasten the operation, lest by so doing they might make it possible for the regulars to get back before the winter set in; and every one knew that the Dominion Ministry was most anxious that they should be kept at Fort Garry for at least a year.

The construction of this road was under the superintendence of the Public Works Department, the gentleman representing which in the Ministry was a French Canadian, and known to be heart and soul with the priestly party in Quebec, and therefore most favourably inclined to Riel. Men of a suspicious turn of mind began to say that the fact of their being no road ready for our advance was part and parcel of a political scheme whereby the departure of the expedition might be stopped altogether. Fortunately those who had charge of its management were not men to be turned from their plans by any ordinary difficulties; and as the promised road was not likely to be ready in time, another route to Shebandowan Lake was sought out and utilized for the conveyance of the boats, &c., &c.

A large sized river flows out of that lake, and being joined by two others of equal magnitude, empties itself into Thunder Bay; it is known for the greater part of its course as the Kaministiquia River. The difference of level between Shebandowan Lake and Thunder Bay is more than 800 feet, and in descending from that great height the water passes over some very fine falls, one of which is about 120 feet high, being one of the most picturesque spots in British North America.

The officials of the Public Works Department who had been employed for several years exploring, surveying, and road making in that district, had impressed upon the military authorities, when the plan of operations for the Expedition was being decided upon, that this river could not be made use of owing to the dangerous nature of its rapids and the magnitude of its falls. However when it was found that the road could not possibly be ready in time, an exploring party of one company, under Captain Young, 60th Rifles, was sent up in boats to ascertain the practicability of using it for the conveyance of boats and stores. The weather was most unpropitious; it poured continuously; the men were never dry, having constantly to work up to their waists in water; the labor was excessive, but the perseverance of the above-mentioned officer, capable of overcoming any difficulties, was duly rewarded. This discovery was a happy event, as it rendered us independent of the road.

As numerous portages have to be got over before we land the reader in the province of Manitoba, it is perhaps better to describe here the mode of crossing one, the work of all being alike in character, and only varying in amount according to the distance to be traversed and the nature of the intervening ground. The bulkiest articles taken with us were the boats, which were all about 30 feet long, and made in proportion. They were built with keels, and in form were very much like those used in our navy. Each boat carried eight or nine soldiers, and two or three Indians, or civilians, who had been especially engaged as skilled in managing boats in rapid water. The stores were sixty days' provisions for all embarked, consisting of salt pork, beans, preserved potatoes, flour, biscuit, pepper, salt, tea and sugar. The heaviest of the articles was the pork, which was packed in small barrels, weighing 200lbs each, the others being in much lighter and much handier packages. Besides food, there was ammunition, intrenching tools, camp equipment, cooking utensils, waterproof sheets, blankets, &c., &c; and with the artillery, two 7 pounder bronze guns, and their ammunition, material, &c., &c.

The boats were distributed into brigades of six, to each of which a company was allotted. With each brigade were boat builders' tools, and all sort of stuff for repairs, besides spare oars, sails, &c., &c. Once started, it was known that we should have to rely on ourselves and the stores we took with us; for such was the utter barrenness of the wilderness through which we were about to penetrate, that nothing but wood, stones and water were to be had there.

Every probable, indeed almost every possible, contingency had to be thought of and provided for; and it may be confidently asserted that no expedition has ever started more thoroughly complete or better prepared for its work.

The brigades of boats were to move singly or in groups of two or three, according to circumstances; but three was the largest number that could work together on a portage, two being the best. When one of these detachments reached a portage—which it generally did before the one immediately in front of it had got all its stores, &c., over, and had again started—the boats were at once drawn into the shore as close as possible and unloaded, the stores belonging to each boat being put in a separate pile. These were covered with tarpaulins if the hour was too late for work, or if—as was always the case with the leading detachment, consisting of three brigades—the road over the portage had to be opened out, and rollers for the boats laid down upon it. At other times the men began to carry over the stores without delay, piling them in heaps, one for each boat, at the far end of the road. The ordinary method in vogue with Indians and the regular North-American voyageurs for carrying loads, is by means of a long strap about three inches wide in the centre, where it is passed across the forehead, but tapering off to an inch in width at the ends, which are fastened round the barrel or parcel to be portaged.

Men accustomed to this work will thus carry weights of 400lbs, and some 500 lb., across the longest portage the loads resting on the upper part of the back, and kept there by the strap going round the forehead. The great strain is thus upon the neck, which has to be kept very rigid, whilst the body is bent well forward.

TO BE CONTINUED.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, FEB. 15.

TOWN COUNCIL.—The Town Council will meet at the Town Hall to-night, at the usual hour.

THE EXTRADITION CASE.—Murray did not arrive last night, as expected. Mr. Wharton, County Constable, went from here yesterday to identify the prisoner and assist in bringing him to gaol here.

BOGUS HALF DOLLARS.—The Toronto papers speak of bogus Canadian fifty cent pieces as being in circulation in that city. Merchants and others are warned to be on the look out for them.

MANITOBA.—A despatch from Winnipeg 28th January, via St. Paul Febuary 3, says it is expected that the Legislature of Manitoba will not meet until the first week in March: it has been prorogued already to the 16th February. On the 28th January, the writs for elections to the House of Commons had not arrived.

ANOTHER WATERLOO HERO GONE.—Lt.-Colonel Sir William Verner, Bart., breathed his last at his residence in London, on Friday, 20th ult., in his 89th year. Sir William was the oldest member of the House of Commons when he resigned in favor of his son at the last election for the County of Armagh, Ireland.

WORKINGMEN'S TEMPERANCE ASSOCIATION ANNIVERSARY.—The oyster supper given in the Marble Hall last night by the members of the Workingmen's Temperance Association was a very pleasant and successful affair. The chair was occupied by R. Tannahill, Esq., President of the Association, and speeches and vocal and instrumental music were the order of the evening. The musical portion of the entertainment was furnished by Mrs. Tannahill, Mrs. Smith, Miss Holden, John Cook, Esq., and others, all of whom received a good deal of well-merited applause. The guests numbered about 200, for whom ample and satisfactory provision was made.

ACCIDENT.—Yesterday afternoon as Mr. W. H. Scholes and Mr. E. J. Sisson were riding up Front Street, the horse became frightened by the breaking of the cross bar causing the shafts to fall down about its heels. Mr. Scholes was driving, but Mr. Sisson becoming alarmed, grasped one of the reins by which the driver lost all control of the horse. Mr. Scholes seeing that a collision with some teams near the Anglo-American was inevitable threw himself out, and Mr. Sisson having hold of the left rein, drew the horse sharp about, just opposite the gangway. The cutter struck the corner of the building throwing Mr. Sisson out with considerable violence against the wall. Dr. Potts and Dr. Ridley were in attendance immediately and rendered every possible assistance to the sufferer. His injuries consist chiefly in a severe cut over the temple of the right eye, and a cut across the right cheek. He was considerably bruised about the body, but it is thought he did not sustain any serious internal injuries. We are glad to learn that he is progressing favorably to-day.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

WEDNESDAY, Jan. 15.

ASSAULT.

Robert Holland *vs.* Chas. Snider.—Assault. Withdrawn on payment of costs by defendant.

John Hamilton *vs.* Wm. Alford—assault and battery committed in the Township of Thurlow. This case was also withdrawn, defendant paying the costs.

THE DOG CASE.

The case of Tobias Meyers *vs.* George Hayes and J. German for stealing a dog, was brought up, as adjourned from last week. Defendant Hayes produced the warrant under which he seized the dog, the signature to which was sworn to by Mr. J. M. McSquires. Another witness named Weeks swore that he owned the dog (produced in Court) while it was a pup, and that his wife traded it to Mr. German on the 27th November. A large number of witnesses were examined, and the case was dismissed, the evidence showing that the dog belonged to German; and as the dog was taken under warrant the constable could not be held as stealing the dog. The defendant was adjudged to pay costs.

At the conclusion of the case, a writ of replevin issued out of the Division Court was executed by the bailiff of that Court and the dog was transferred to the custody of the Clerk of the Division Court. The matter was finally settled by Mr. Meyers withdrawing his suit in the Division Court, and giving up the disputed dog to Mr. H. German.

S. B. Burdett for plff; Chas. Francis and W. J. Diamond for defts.

—England's shipbuilding programme for this year includes an increased number of iron-clad gunboats.

--An overflow of the Danube has inundated the suburbs of Vienna, particularly Leopoldstadt and Rosan.

Ontario Legislature.

MONDAY, Feb. 13.

The Speaker took the chair at 10:45 a.m. After routine business, Atty-Gen. Macdonald introduced a Bill to facilitate the business of the Superior Courts. A number of bills were then read a third time and passed.

The Bill respecting aid to railways was read a second time.

The House went into Committee on the Hon. Mr. Richard's Bill, respecting Crown, Clergy and Grammar Schools, sold previous to 1st July, 1867. The various clauses were agreed to, with unimportant amendments, and the Committee rose and reported, and the Bill was ordered for a third reading in the afternoon session, Mr. Blake giving notice of his intention to introduce an amendment.

Hon. Mr. Carling moved the House into Committee on the Bill to amend the Ontario Drainage Act.

Mr. McKellar objected to the expenses for drainage coming out of the consolidated revenue of the Province.

Atty.-Gen. Macdonald said that Mr. McKellar was glad to have the Province pay for these drains when his own county was being drained, but now that that was done, he wished the counties to pay.

After some further discussion the House went into Committee and reported the Bill without amendment.

AFTERNOON SESSION.

The Speaker took the chair at 2:15 p.m.

Atty.-Gen. Macdonald moved the second reading of the Bill to provide for the establishment of a central prison for the Province of Ontario. He said the object of the Bill was to provide a place where habitual and hardened criminals might be confined and kept apart from other offenders.

After a short discussion the Bill was read a third time.

The House went into Committee, Mr. Carnegie in the chair, on the resolutions respecting the salaries of county school inspectors. The sum of $25,500 was voted for the salaries of inspectors of common, and $7,500 for inspectors of collegiate institutes. The Committee rose and reported.

EVENING SESSION.

Mr. Anderson's Bill to prevent bribery at municipal elections was lost on division.

Hon. Mr. Richards moved the third reading of his Arrears on Lands Bill.

Mr. Blake moved in amendment that the Bill be referred back to the Committee of the Whole, with instructions to provide that the Lieutenant-Governor in Council shall have power to reduce the price of lands, or to make abatements of arrears of interests due upon any Crown, Clergy, and Grammar School Lands sold previous to 1st July, 1867 where it shall appear that such lands have been sold at prices beyond their fair value; and, that such prices remain unpaid, provided always that in such reduction and abatement the aggregate amount of principal and interest paid, or payable, to the Crown in each case shall not be less than the fair value of the land, and the interest thereon, since the date of the settlement thereon. This was lost by 20; yeas, 21; nays, 41.

The Ontario Drainage Act was read a third time and passed.

Hon. Mr. Richards moved the third reading of the Unpatented Lands Bill.

Mr. Blake moved an amendment that the Bill be recommitted to add the following clause:—"Provided always that any person interested in the land may question any sale for taxes notwithstanding the issue of the patent within the same period within which it might have been questioned but for the issue of the patent." This was lost on division—yeas 24; nays, 44.

On motion of Mr. Graham (Hastings), the Grand Junction Railway Company's Bill was read a third time and passed.

Attorney-General Macdonald's Bill for establishing registry offices in Ridings was reported, without amendment.

Mr. McDougall (Norfolk) moved the second reading of his Bill to prevent members of other Legislatures from sitting in the House. Lost.

Mr. McCall's (Norfolk) Bill providing that every member of the House should have real estate in his own right to the value of $2,000, was lost.

Hon. Mr. Richard's Bill, respecting Crown timber licenses, was read a third time.

Hon. Mr. Carling's Bill, encouraging the settling of Free Grant territory, was read a second time.

The house adjourned at 9.25 p.m.

TUESDAY, Feby. 14.

The School Bill was read a third time and passed.

The Registry Office Act, the Aid to Railways Bill, the Central Prison Bill, as well as a number of other Bills, were read a third time and passed.

The Supply Bill was also passed.

The Montreal Insurance Bill was withdrawn, and the session practically closed.

To-day at three, o'clock the Ontario Legislature was prorogued, after His Excellency had given his sanction to the Bills passed during the session.

Works at the Deaf and Dumb Institute.

Amongst the items in the Estimates passed the House, we notice the following to re-pay the expenses of works at the Deaf and Dumb Institute, Belleville:—

Re-vote, unexpended balance, (building)	$3,088 88
Gas works	4,000 00
Laying out and planting grounds, shrubbery, draining, and out-houses	2,000 00
Re-vote, unexpended balance, (furniture)	1,133 57
To complete furnishing	1,500 00
Total	$11,722 45

For the Intelligencer.

Acknowledgment.

The undersigned begs leave to acknowledge the receipt of $1 from Richard Newton, Esq., of Huntington; also, the sum of $4 from J. Parker Thomas, Esq., Belleville, to be applied to the use of the Marchmont home for Boys and Girls, under Miss Macpherson's charge. May others do likewise.

BILLA FLINT.

Belleville, 15th February, 1871.

--The Italian Parliament has declared that the libraries and galleries of the Vatican shall be national property.

School Trustees.

TUESDAY, Feb. 14.

The Board met, according to adjournment.

PRESENT.—Messrs. McAnnany, (Chairman), Shepard, Glass, Tennant, Sawyer, Wensley, Falkiner and Hambly.

The minutes of the previous meeting were read and approved.

Mr. Glass presented the report of the Finance Committee, recommending that a number of accounts be paid.

The Secretary Treasurer deposited his bond with the sureties.

On motion of Mr. Falkiner, seconded by Mr. Saywer, the bond was accepted.

The report of the Finance Committee was then, on motion of Mr. Glass, seconded by Mr. Sawyer, adopted.

The Local Superintendent read his report for the month of January, from which we obtain the following information:

The work of instruction is progressing favorably in all the schools.

The following statement of the attendance at the several schools for the month of January is given:

	No. on Roll.	Avge.	Largest Atten.
No. 1—Senior Division	83	71	76
" Junior "	60	47	65
No. 2—Senior "	68	58	63
" Second "	85	68	74
" Third "	87	67	73
" Junior "	84	60	66
No. 3—Senior "	85	58	67
" Junior "	114	75	94
No. 4—Senior "	93	61	73
" Junior "	102	71	84
No. 5	80	58	73

The total averages are stated as follows:

	Total on Roll.	Total avge.
No 1	143	118
No 2	324	253
No 3	159	133
No 4	194	132
No 5	80	58

Mr. Shepard moved that the report just read be referred to the Committee on School Organization, as there were several matters contained in it on which that Committee would report.

Mr. Sawyer seconded the motion, which was carried.

Mr. Shepard said it would be well to take steps to erect a school house in Baldwin Ward. He had heard that members of the Town Council had said that the site at present occupied might be obtained by the Board if proper steps were taken towards that end. They all knew that the lot referred to had been set apart for hospital purposes, and if a new school building were erected there, the town would have to procure a new site for a hospital. He would move, seconded by Mr. Falkiner, "Whereas it is necessary to build a school house in Baldwin Ward, it is hereby resolved that the Chairman of the Board be authorized to communicate with the Mayor and Town Council with the view of securing the lot known as the 'Hospital Lot,' and at present occupied by School No. 4, for the purpose of erecting a suitable school building for that Ward."

Mr. Sawyer asked if anything new had turned up with regard to that lot? It had been talked of for the past twenty years, yet nothing had been done.

The Chairman said the lot had been granted by the Government originally for hospital purposes. Several years ago leave was granted to apply it to other purposes, and the town could now grant it for School purposes, by providing hospital accomomodation outside the limits of the Corporation. He thought the motion timely, as the matter lay in the hands of the Town Council.

Mr. Shepard in answer to Mr. Sawyer, said there was nothing new with regard to the lot, but he was asked by members of the Town Council and by other parties why the Board did not build on the lot, or take steps to secure it. A new School House was needed, and in order to silence all cavils, he had taken this step. If the Town was not willing to grant the lot for a school, then the Board might with some grace ask the Council for money to purchase a new lot.

The motion was then carried.

Mr. Glass moved, seconded by Mr. Wensley, that Messrs. Ross, Bell & Holden be paid the sum of $250 on account of their bill for law costs, incurred on account of the Blacklock lot, the bill now being in course of taxation.—Carried.

Mr. Shepard moved, seconded by Mr. Glass, that in carrying out the report adopted by the Board of 1870, at its last meeting, the following teachers be appointed for the current year, at the salaries named:

School No. 1.—J. Macoun, $500; Miss Shanks, $250.

School No. 2.—W. H. Vermilyea, $500; Miss Templeton, $300; Miss Ostrom, $250, Miss McKay, $250.

School No. 3.—J. Irwin, $500; Miss Rankin, $250.

School No. 4.—W. McKeown, $500; Miss Urquhart, $250.

School No. 5.—Miss Morden, $250.

Mr. Sawyer thought the system of bonuses was a bad one. The teachers ought to be given what they were worth when the schedule of salaries was made out.

Mr. Hambly agreed with Mr. Sawyer on this point.

Mr. Shepard said the salaries would have to remain as at present fixed until July next, as the requisition of the Board was not made until then. He agreed with Mr. Sawyer regarding the badness of the bonus system.

The Chairman, before putting the motion, said there was a defect in the law in regard to the engagement of Teachers by the Board. The trustees had no power to dismiss a teacher who did not please them, and it was a hardship that the Board was compelled to keep an unsatisfactory teacher to the end of the year. He would suggest an addition to the motion, that any teacher might be dismissed by the Board giving three months notice.

The suggestion was acted upon, and the motion, as amended, was passed.

An application of Mr. Anderson, physiognomist, to be allowed to lecture in the schools was not entertained.

The Board then adjourned.

--A Nova Scotian coal company has a contract to deliver in New York, next summer, a hundred thousand bushels of coal.

Dominion Parliament.

THE GOVERNOR'S SPEECH.

Special telegram to the Intelligencer.

OTTAWA, February 15, 1871.

This day at 3 o'clock His Excellency the Governor General proceeded in state to the Chamber of the Senate, in the Parliament Buildings, and took his seat upon the throne. The members of the Senate being assembled, His Excellency was pleased to command the attendance of the House of Commons, and that House being present, His Excellency was pleased to open the fourth session of the first Parliament of Canada with the following speech from the throne:

Honorable Gentlemen of the Senate, Gentlemen of the House of Commons:

I have much satisfaction in meeting you at this, the usual and most convenient season of the year, and under the present auspicious circumstances of the country.

The hope I was sanguine enough to express at the close of the last Session, that no further attempt would be made to disturb our frontier, was doomed to early disappointment. The Session had scarcely closed when lawless bands assembled within the United States in great numbers and renewed the menace of invasion. They ventured to cross the border at two points, but were promptly met and repelled. So complete and humiliating was their repulse that the invaders lost heart and hope, threw away quantities of arms, and fell back to encumber the villages in their rear with their starving and demoralized masses. Our militia rallied at the first call to arms with praiseworthy alacrity, and the spirit which pervades the country swelled their ranks with volunteers from all quarters. The gallantry displayed and the success achieved have been duly recognized by the highest military authority and honored in gratifying terms of appreciation by Her Most Gracious Majesty. In maintaining the militia on active duty, the Government incurred outlay to a considerable amount beyond what was provided by the votes of last session. The account of their entire expenditure for the defence of the frontier will be laid before you, and I feel confident that you will pass a Bill of Indemnity to the Government.

My anticipation of success in regard to the Act passed for the Government of Manitoba, and the North West Territories, and in regard to the Military Expedition which it was necessary to dispatch have been fortunately realized, The troops surmounted the difficulties of the long and toilsome route with endurance, and intelligence. They encountered no armed opposition, and their arrival at Red River was cordially welcomed by the inhabitants. The people of the new Province have under the constitution accorded to them last spring, assumed all the duties of Self-Government, and every appearance warrants the hope that they are entering steadily upon a career of peace and prosperity.

The legislature of British Columbia has issued an address to Her Majesty, praying for admission into the Union on the terms and conditions therein stated. All the papers on this important subject will be submitted, and your earnest attention is directed to them. I hope you will think that the terms are so fair as to justify you in passing a similar address, so that the boundaries of Canada may at an early day be extended from the shores of the Atlantic ocean on the one side, to the shores of the Pacific on the other.

Should such an address be adopted, it will be necessary for you to take steps to secure the early exploration and survey of a route for an interoceanic railway, with a view to its construction, in accordance with the terms of union.

The acquisition of the North-West Territories throws upon the Government and Parliament of the Dominion the duty of promoting their early settlement by the encouragement of immigration. This duty can be best discharged by a liberal land policy and by opening up communication through our own country to Manitoba. The means proposed for accomplishing these purposes will be submitted for your consideration.

Her Majesty's Government has agreed upon referring the Fishery question, along with other questions pending between the two countries, to a joint commission, to be named by Her Majesty's Government and the Government of the United States. On this commission Canada will be represented. This mode of dealing with the various matters in controversy, will, I trust, lead to their satisfactory adjustment. Canada urges no demands beyond those to which she is plainly entitled by treaty and the law of nations. She has pushed no claim to an extreme assertion, and only sought to maintain the rights of her own people fairly and firmly, but in a friendly and considerate spirit, and with all due respect to foreign powers and international obligations.

The thanks of the country are due to the Admiral on the station, and those under his command, for the valuable and efficient aid which they rendered to your cruisers during the past season in maintaining order and protecting the in shore fisheries from encroachment.

The prospect of the adoption of an international currency seems in the present state of Europe to be so remote that I recommend you to consider the propriety of assimilating the currency of the Dominion without any further delay.

The extension to Manitoba of the militia and other laws of the Dominion, and their adaptation to the present circumstances of that young province will require your attention.

The decennial census will be taken on the third day of April next, and it is believed that a more thorough and accurate system has been adopted that any that has hitherto been obtained. It may be necessary to amend the Act of last session in some particulars.

Among other measures, Bills will be presented to you relating to Parliamentary elections, weights and measures, insurance companies, savings banks, and for the consolidation and amendment of the inspection laws.

Gentlemen of the House of Commons:

I have given directions that the public accounts shall be laid before you. You will learn with satisfaction that the revenue of the past year was in excess of what was estimated, and that the prospects for the current year are so encouraging that notwithstanding the extensive public improvements which are contemplated, you will probably be able to diminish the taxation of the country.

The estimates for the ensuing year will be submitted to you, and I feel assured that you will be of opinion that the supplies which you will be asked to vote can be granted without inconvenience to the people.

Honorable Gentlemen of the Senate, and Gentlemen of the House of Commons;

I lay these various and weighty matters before you in full confidence that they will engage your mature attention, and I pray that the result of your deliberations may, with the Divine blessing, prove conducive in all respects to the advancement and happiness of the country.

--Judge Coursol has been elected Mayor of Montreal by acclamation.

--Only 98 lives were lost on the French transport Lecerf, wrecked off Cape La Hogne.

For The Daily Intelligencer.

MR. EDITOR,—In Tuesday's issue you remark in reference to the Wesleyan Missionary Meeting in the Bridge Street Church on Monday evening, "All honor to a Congregation so liberal in so good a cause."

I do not know whether you intend those remarks for the congregation who statedly worship in that Church, or for the congregation assembled there on Monday evening; if the latter, you surely have committed an error, as I will plainly show. Parties who counted the numbers in the gallery and in the body of the Church, make the number over 2,400, but allowing the number at 2,400 or at 2,250, the collection was a most shabby one, when you take into account the talent of the speakers and the ability of that large congregation to give.

On analyzing the collection it is found, putting the most charitable construction possible to give, that there were 483 one cent contributors, 125 two cent, 160 four cent, 395 five cent, 240 ten cent, 24 twelve cent, 18 twenty cent, 20 twenty-four cent, 58 twenty-five cent, 6 fifty cent, and 4 one dollar contributors, or 1,533 contributors to the collection, amounting to $89 10, leaving 717 to 867 who gave nothing, many of whom occupied the seats of parties who had to shift for themselves or go away, and who would have given more than even one, or two, or four, or five stingy cents for a seat.

Now what is the object of Missionary Meetings? Surely it cannot be to gratify those who attend and deprive others of their seats, simply to hear the speeches. No, the object is more noble; it is to obtain money to carry on the missionary work, an object which to a great extent is defeated by the penurious manner in which many, too many, gave on that occasion, to say nothing about those who gave nothing. Why, sir, there were men there who are worth thousands, who only put a cent on the plate, and no doubt felt sorry to part with even that much of their boasted wealth. Poor, stingy souls! do they ever expect to leave this world for a better?

The object the Missionary Committee had in view in obtaining such a deputation as that of Monday evening has been to a great extent defeated, for with such a congregation the collection of that evening should have amounted to not less than $250, whereas at 2,400 it amounts to a trifle less than 3¾ cents, and at 2,250 less than 4 cents each.

I wish it to be understood I would not cast any blame on those who even gave so low as five cents, but I do feel that the regular congregation has been imposed on, and I feel sure if the Trustees or the Committee do not find out some mode by which those who pay for their pews, as well as contribute otherwise to the support of the Church shall enjoy their sittings, that the time will soon arrive when a change will have to be made or the funds of the Missionary Society will grow small.

There is not a pew-holder but would be willing to give up his seat, if by so doing he could benefit the cause and increase the funds, or who is not always ready to give a share in his pew when required, but to have his family and himself crowded out of his pew, and may be out of the Church by two cent, one cent, and no cent hearers on such occasions is too much to be endured longer. Let the committee of management see that the evil is remedied, at the next missionary meeting, either by an entrance fee of ten cents or in some other way; if they do they will find the benefit of taking a step in the right direction, if not they will regret it.

I would be ashamed to go to any other church without giving at least a fair quota to the collection. I would either give or stay away. It is no reason why we should not give simply because we can make the excuse that we have given at home to our own; nor is there any reason why such persons should impose themselves upon the Wesleyan or any other Church, to the gratification of themselves and injury of those who would give for the cause to be supported.

Yours, &c.,

BILLA FLINT.

Belleville, February 15, 1871.

Midnight Despatches.

The War Indemnity.

VERSAILLES, Feb. 10.—If the terms of peace determined upon by Bismarck, and confidentially communicated to Favre, are not agreed upon by the Assembly, hostilities will be renewed immediately upon the expiration of the armistice. A vigorous procedure will be adopted with Paris in the matter securing pledges for a war indemnity. It is believed that the latter will be fixed at least at four millions, but concessions from other points are anticipated. All troops before Paris have been fully reinforced to the utmost war strength and newly uniformed. The fourth corps has been ordered to Chatree. Should peace be proclaimed all landwehr regiments, infantry, reserve, cavalry, and artillery will be immediately sent home and broken up. Troops of the line will remain in the annexed Provinces, and such parts of France as will be retained till the war indemnity is paid. Garrisons of fortresses in Alsace and Lorraine will require about 60,000 men.

Morning Despatches.

The War in France.

Republicans Defeated.

LILLE, Feb. 14.—Railway communication with Paris is partially suspended. Trains hence for Paris are stopped by the Prussians, but trains from Paris, bound north, are not interfered with.

The Republican ticket for the assembly in the department of Somme, was badly defeated.

American Despatches.

Dreadful Tragedy.

POUGHKEEPSIE, N. Y., Feb. 14.—Jacob Luxemburger, a native of Switzerland, for the past two years had been paying his attentions to Fredrica Myer, a native of Germany. To-day he asked her to be his wife, and was refused. He immediately drew a revolver and fired at the young woman, killing her instantly. He then turned the pistol on himself and fired, the ball entering his head just above the nose. Dropping the pistol and picking up a bread knife he stabbed himself three times in the right side, but not seriously. He was arrested and taken to a physician, who pronounced him to be in a dangerous condition.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 14.—In the House of Lords this evening, Earl Granville said the high commission, which was about to meet in Washington, is without power to settle the question of the fisheries, but it is only authorized to frame a plan of adjustment on which the decision of the members must be unanimous for the submission to their respective Governments.

BRUSSELS, Feb. 14.—It is reported in Diplomatic circles that Germany has refused the request of the British Government to communicate the conditions upon which it is willing to make peace.

LONDON, Feb. 15.—The Berlin correspondent of the 'Times' telegraphs that in consequence of the the pacific result of the French elections, Bismarck has conceded that the principles of the prolongation of the armistice by a week may be made a definite agreement dependant upon certain military conditions.

Meeting of the Sidney Council.

TOWN HALL, Sidney,
5th February, 1871.

Council met agreeable to adjournment.

PRESENT.—C. Armstrong and J. Row, Deputy Reeves; R. E. Grass and Jas. A. Chisholm, Councillors.

In absence of the Reeve on account of illness, C. Armstrong was chosen Chairman.

The minutes of last meeting were read and approved.

R. E. Grass presented the petition of John R. Brower and others. Moved by R. E. Grass and seconded by Jas. A. Chisholm that the petition of J. R. Brower be laid over until the afternoon.—Carried.

Moved by Jas. A. Chisholm and seconded by R. E. Grass, that this Council go into Committee in appointing Township officers, C. Armstrong in the Chair.—Carried.

Moved by J. A. Chisholm, and seconded by R. E. Grass, That Jacob Baragor and W. T. Yates be appointed Assessors for 1871.—Carried.

Moved by J. A. Chisholm, and seconded by R. E. Grass, That J. P. Knox be appointed Collector for 1871.—Carried.

Moved by J. Row, and seconded by R. E. Grass, That D. R. Ketcheson be Inspector of Licenses for 1871.—Carried.

Moved by J. A. Chisholm, and seconded by J. Row, That Henry Bleecker be appointed road Surveyor for 1871.—Carried.

Moved and seconded that this Council adjourn for one hour.

Council resumed:

Moved by R. E. Grass, and seconded by J. Row, That the Committee on Township officers rise and report.—Carried.

Committee rose and asked leave to sit again.—Granted.

Moved by J. Row, and seconded by R. E. Grass, That the Auditors' report be received.—Carried.

Moved by R. E. Grass and seconded by J. A. Chisholm, That the Auditors' report be adopted.—Carried.

Moved by Jas. A. Chisholm and seconded by J. Row, That the Auditors receive $8.00 each for their services.—Carried.

Moved by Jas. A. Chisholm, seconded by R. E. Grass, that the petition of John Brower be taken up.—Carried.

Moved by J. Row, seconded by James A. Chisholm, that Wm. Halliday receive 75c per week until otherwise provided for.—Carried.

Moved by Jas. A. Chisholm, seconded by R. E. Grass, that the Inspector's Report be received.—Carried.

Moved by R. E. Grass, seconded by Jas. A. Chisholm, that the Inspector's Report be adopted.—Carried.

Moved by J. Row, seconded by James A. Chisholm, that John Chapman receive $3 00 for room for holding elections in —Carried.

Moved by R. E. Grass, seconded by J. Row, that the Clerk be authorised to report the proceedings of this Council to the Belleville *Intelligencer*, commencing from the 16th January, '71.—Carried.

Moved by J. Row, seconded by R. E. Grass, that the award of Fence Viewers in the 4th Concession of Sidney, concerning a dispute between Wm. R. Parry and David Clark, be filed with the Clerk.—Carried.

Moved by James A. Chisholm, seconded by R. E. Grass, that the account of F. B. Prior for voters' lists, amount $1, be paid.—Carried.

Moved by R. E. Grass, seconded by James A. Chisholm, that the account of J. W. Carman for election posters, $1 75 be paid.—Carried.

Moved by Jas. A. Chisholm, seconded by J. Row, that Rulliff Grass be paid $1 for registering Map of the Village of Frankford.—Carried.

Moved by Jas. A. Chisholm, seconded by R. E. Grass, that the Assessors receive no pay until the roll is fully revised.—Carried.

Moved by James A. Chisholm, seconded by R. E. Grass, that F. B. Prior receive one quarters salary, $12 50.—Carried.

Moved by Jas. A. Chisholm, seconded by R. E. Grass, that the account of James Bird be laid over until the next meeting.—Carried.

Moved by James A. Chisholm, seconded by R. E. Grass, that George Williams be paid one quarters salary, care of Hall, $5.—Carried.

Moved by R. E. Grass, seconded by J. Row, that this Council adjourn until the 20th of February, '71.—Carried.

CANADA LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
Manager.
January 25th, 1871.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief. It soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Children whose brain development is unusually large in comparison with the body are most frequently singled out for a prematurely final resting place. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain, consequent upon active intelligence. FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M. D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

The Florence Nightingale of the Nursery.

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations. D&W-2m

How to Avoid Wet Cellars.

An excess of water, or too much dampness, in some instances, arises from surface water, and in others, from spring veins that crop out in the cellar. In many instances, when the excavation is being made for a cellar, in a heavy, springy ground, water veins are cut off two or three feet below the surface of the ground. When such is the case, the water in those veins will be discharged behind the cellar wall, and will settle down and pass along on the surface of the cellar bottom. Sometimes, however, the veins of water are not reached till the excavation is about completed. Then, when the water veins, which pass through the earth like the blood veins through the body of a living animal, are filled with water, the bottom of the cellar will often be covered with water, even when a good underdrain has been provided to convey it away as soon as it has accumulated in sufficient quantities to flow out through the underdrain.

Now for the remedy. The correct way to avoid a wet cellar, is to lay a tile drain entirely around the outside of the excavation, nearly a foot lower than the bottom of the cellar, before the foundation walls are laid. But after an edifice has already been erected, and water appears on the cellar bottom, the most satisfactory way to render the bottom dry is to sink the channel nearly a foot deep entirely around the cellar close to the wall, and lay a course of drain tiles in the bottom, which will cut off all water-veins, and thus render the cellar quite satisfactorily dry, by conducting the water into the tiles before it can work along toward the middle of the cellar.—*Scientific American.*

Conundrums.

Why are birds melancholy in the morning? Ans.—Because their little bills are all over dew.

Why is the letter H like a cure for deafness? Ans.—Because it makes ear, hear.

A jealous husband objected to having a sewing machine in his house. Why was it? Ans.—Because a *feller* came with it that pleased his wife very much.

Why are there no eggs in San Domingo? Ans.—They banished the whites and cast off their yoke.

When does a chair dislike you? Ans.—When it can't bear you.

What is the key-note to good breeding? Ans.—B natural.

Which is the better off, tea or coffee? Ans.—Coffee. It settles itself, but tea has to draw.

Why must a line drawn with a pen always be on slope? Ans.—Because its always an ink line (incline).

Christmas is Coming!

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION.—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF

THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW

CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN

RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

- **It supplies the blood with nourishment.**
- **IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.**
- **It supplies the system with caloric or heat-making properties.**
- **It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.**
- **It increases the weight and appetite.**
- **IT STOPS ALL WEAKENING DISCHARGES.**
- **It increases the repairs and diminishes the wastes.**
- **It exterminates the products of decay.**
- **It resolves Tumors, Nodes, Hard Lumps.**
- **It makes the skin clear and beautiful.**
- **It heals Fever Sores and Ulcers.**
- **It cures Gravel, Gleet, and Stricture.**
- **It makes the water clear and pass freely.**
- **It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted**
- **It rescues woman from the perils incident to change of life—cessation of Menses.**

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the wastes and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than ten dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT,

439, ST. PAUL STREET, MONTREAL

☞ Sold by Druggists and general Storekeepers at $1.00 per bottle, or $5.00 for 6 bottles.

Geo. Gibson

MANUFACTURER and dealer in Boots and Shoes, Front Street, Belleville. A select assortment of ladies, gent's and children's boots and shoes constantly on hand and made to order All work warranted. 1D6m

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.

GODEY'S LADY'S BOOK

For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harper's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets, PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

In her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fulness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville:—

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building Front Street

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism and Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN,

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS' MUSICAL MONTHLY

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH For 1870. $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free.

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and disease of the Womb, Uterus, Bladder, Kidneys, Suppression, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, Doctor prescribes Blue Pills or Calomel; next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions* are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*,) the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure Cholagogue or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of an gorged liver, fat, spleen, disordered kidneys, sallow-colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures Cholagogues, &c., costing $1 to $3. and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's Ready Relief,** diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pains Killers, Embrocations, Panaceas, Kings, &c. All of these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes as would cost at least ($25) twenty-five dollars had you to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels.
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Bilious Colic,	Flux.

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies *are prepared on entirely new* principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists pharmaceupitists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medines, prepared on new principles, and *Pills* ll curesick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$ 5 00
do	do	12 do	8 00
Half square,	6 months,		12 00
do	12 do		20 00
One square,	6 do		20 00
do	12 do		32 00
Two squares,	6 do		30 00
do	12 do		50 00
Three squares,	6 do		40 00
do	12 do		65 00
Four squares,	6 do		50 00
do	12 do		80 00
Notices of Births,			50
Do of Marriages,			50
Do of Deaths,			50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six, lines (per line) first insertion	0 08
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"— cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.

MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - -	10.00	
For Blackwood and three of the Reviews, - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons, a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
St. James & Notre Dame Sts., Montreal, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 Broadwwy, New York.

The Ontario Farmer
Second Year of Publicatien.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. White having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer,* and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer,* as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GABRIEL'S PREPARATIONS
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.

FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World,
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

PART II.

(From Blackwood for January.)

CONTINUED.

As it could not be expected that soldiers untrained to such labor would be able to carry loads in that manner, short pieces of rope with a loop at each end were supplied to the boats by means of which two short poles—cut in the woods at the portages as required—were easily converted into a very efficient hand-barrow, of just the dimensions required for the conveyance of the small barrels in which our pork and flour were packed.

After, however, a little practice, a large proportion of the men soon learned to use the common portage-strap, their officers setting them the example by themselves carrying heavy loads with it. As soon as all the stores had been conveyed across the portage, the boats were hauled ashore, and dragged over, their keels resting on small trees felled across the path as rollers. The labor involved by hauling a heavy boat up a very steep incline, to a height of about a hundred feet, is no child's play. In each boat there was a strong painter and a towing-line, by means of which and the leather portage-straps a sort of man-harness was formed when required, so that forty or fifty men could haul together. Say the portage was a mile long (some were more), and that each man had to make ten trips across it before all the stores of his brigade were got over, he would have walked nineteen miles during the operation, being heavily laden for ten of them. At some portages considerable engineering ingenuity was required—small streams had to be bridged and marshy spots to be corduroyed over. By the time our men returned, many of them were expert axemen, and all were more or less skilled in the craft of the voyageur and American woodsman.

The country between Prince Arthur's Landing and Shebandowan Lake is wild and rugged. The road between those two places runs W. N. W., and may, for purposes of description, be divided into three sections—the first extending to Strawberry Creek, about eighteen miles; the second to the Matawan River, about eight miles further on; and the third from thence to Shebandowan Lake, about twenty-two miles more.

The first section is very hilly, the soil near the bay being sandy, with a surface covering at most places from six to twenty-nine inches of peaty mould. In the valleys between the hills are deep swamps, over which roads can only be made with considerable labor. The timber has been entirely destroyed at some places by fires, so that every now and then the road emerges from the thick forest into clear open spaces sometimes of many hundreds of acres in extent, where the ground is covered with the burnt trunks of fallen trees, piled up at places one over the other like spillikins, an occasional pine of great height being left standing as it were to show the traveller the vastness of the destruction. These places are called *brulees* in the language of the country; and in a few years after the fire has passed over them, are so thickly covered by raspberry and rose bushes that it is difficult and tiring to cross them on foot. The timber consists of white and red spruce, patch pine, balsam, cedar, tamrack, white birch and poplar, the cedar being at some places along the road in large quantities and of a great size. The rocks are trappean, a hard compact slate, with numerous veins of amethystine quartz and jasper, and jasper conglomerate, running through them in irregular directions. Many silver-mines have been discovered in the neighborhood, and galena, plumbago, and copper in several forms are known to abound; so that no prophetic powers are necessary to foretell the great importance that this country will assume ere long from the development of its mineral resources. About midway in this section is the most rocky district traversed by the road, where it ascends through a rugged and hilly country to a height of many hundred feet above Thunder Bay. This region is also heavily wooded, so road making through it was no easy matter. As many places large-sized boulders had to be removed from the road; and at others, where great rough rocks cropped up in the way, they were broken up by lighting huge fires around them, and by throwing water over them when thoroughly heated. This caused them to split up into pieces, reminding one of the method said to have been adopted by Hannibal in crossing the Alps.

Some half dozen emigrants had settled along this first section of the road, the *brulees* enabling them to establish themselves without the labour of felling timber; and their little shanties were, when we arrived, already surrounded by potato-gardens, whilst here and there the rich greenness of a patch of oats gave an air of civilization to the scene. Numerous small rivulets are crossed in this section, over which bridges and culverts were constructed; also two streams, one about 30 and the other about 40 yards wide, requiring more substantial work in carrying the road over them.

As you approach Strawberry Creek, which separates the first from the second of the three sections, the general aspect of the country changes completely, and the red clay soil takes the place of the sand, rock, and peat, passed over up to that point. The whole of the second section is composed of hills formed by this red clay, which, though admirably adapted for bricks and pottery, is extremely bad for road-making. When-hard and dry it was good for traffic; but after a shower of rain it became so slippery that horses had much difficulty in keeping their feet, and a regularly wet day caused the wheels to sink so deep, that the horses struggled through it with difficulty, losing shoes at every stride. A few days' rain renders it impassable for wheeled transport, so that during the operation of forwarding stores over it in waggons, all traffic was stopped several times for days together.

The valley of the Kaministiquia, where the road crosses it, is extremely pretty: the hills around are sufficiently rugged to be picturesque; whilst fires have for generations back so frequently swept over them that they are tolerably open, with rocks cropping out here and there, as if to give shadows to the picture; clumps of willows are scattered at places, whilst the river's edge is fringed with bushes and stunted trees The river is about 107 yards in width, and unfordable. The Matawan falls into it about half a mile above the bridge; above that again is a succession of heavy and imposing-looking rapids, over which our boats were tracked with difficulty, and with trying labor to the men.

TO BE CONTINUED.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.

GOING EAST.

No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m.	6:20 a m.
Stirling, Marmora, Harold, &c.	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c.	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c.	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Rednerville, &c., every Tuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

J. H. MEACHAM,
Post Master.

S. M. PETTENGILL & Co.,
37 PARK ROW, NEW YORK,
GEO. P. ROWELL & Co.,
40 PARK ROW, NEW YORK,

ARE our *sole* Agents in that city, and are authorized to contract for advertising at our lowest rates. 155

Daily Intelligencer.

BELLEVILLE, THURSDAY, FEB. 16.

POLICE COURT.—The Magistrate had no cases to decide this morning.

LIGHT-HOUSE.—A notice in our advertising columns calls for tenders for the erection of a light-house at the mouth of the harbor. Plans and specifications to be seen at the Harbor Master's office.

SOCIAL.—Young Ladies' Social to-morrow evening in Mr. Wild's Church. Music, reading and refreshments. The ladies give a cordial invitation to the public to spend a pleasant evening with them.

KINGSTON RACES.—At the Kingston races Mr. Lanagan's 'Butcher's Maid' won a race on the opening day. Yesterday, however, the Belleville mare came out second best in a race with 'Grey Eagle,' in which she carried off the first heat in 2:43.

A THAW.—The weather, which has been very changeable of late, has settled down to a thaw, the temperature being mild and spring-like. The streets are in a sloppy condition, the sidewalks being anything but pleasant to walk upon.

EXHIBITION AT CANIFTON.—On Wednesday evening next, the pupils of School Section No. 5, Canifton, will give a literary and musical entertainment in the brick school house in that village. The music will be furnished by the ladies of the school, assisted by a string band from Belleville. The proceeds will be applied to school purposes. The management is vested in the hands of Messrs. M. R. Canniff and J. K. Faulkner.

A TOWN CLOCK.—At last there would seem to be a probability that the erection of a town clock, the want of which, as a standard of time in town, has long been felt and often urged through these columns, will at length be accomplished. The large and influentially signed petition presented to the Town Council last night shows that the people are fully determined to be "up to time." The Harbor and Town Property Committee, to whom the matter has been referred, will probably report upon it at the next meeting of the Council.

THE "TENNESSEE."—Some consternation was caused in Washington on Saturday, by Gen. Banks declaring in the House that the *Tennessee*, which carried out the San Domingo Commission, was unworthy, and that the fact was known to officers of the Navy Department, who were afraid to make known their convictions lest they should offend their superiors. This statement created a great sensation in the House, but no one undertook to contradict it.

THE CENSUS.—In taking the coming Census, there will be nine schedules used; in the first it is proposed to give a nominal return of the living, in the second a nominal return of the deaths within the last twelve months; in the schedules following it is intended to furnish returns of public institutions, real estate, vehicles and implements; cultivated land, field products, plants and fruits; live stock; home made fabrics and furs; industrial establishments productions of the forest, shipping and fisheries and the mineral productions.

Impromptu Reception.

The efforts put forth in the Ontario Legislature by the members for this county, aided by the member for Prince Edward, to secure the passage of the Grand Junction Railway Bill, having been considered worthy of some formal recognition by those friendly to the enterprise and to the progress and prosperity of Belleville, it was resolved that, on their return from the scene of their legislative labors, a reception should be tendered them. Accordingly last night, on the arrival of the train from the west, Messrs. Henry Corby, member for East Hastings; K. Graham, West Hastings; Dr. Boulter, North Hastings, and Wm. Anderson, Prince Edward, were met at the station and escorted to Docter's saloon, where a substantial luncheon had been provided. The company numbered between twenty and thirty, amongst whom were Messrs. Thos. Kelso, President of the G. J. R. (in the chair) Jas. Brown, M. P., Lieut. Col. Campbell, Geo. Neilson, A. Diamond, D. B. Robertson, W. A. Shepard, E. R. Benjamin, Angus McFee, F. Ridley, Geo. Ritchie, W. H. Graham, W. C. Nunn, N. McArthur and Geo. D. Dickson, Esqs., with numerous others.

Mr. Kelso said he took the opportunity of proposing the health of the members for the County, coupled with the member for Prince Edward, all of whom had used their best endeavors to forward the passage of the Bill. The Grand Junction Railway would prove a great boon to the people of Belleville, whose warmest thanks were due to the gentlemen whose healths he had proposed. He also took occasion to refer to the hearty support he had received from M. Bowell, M. P., and Jos. F. Way, Esq., who had been most indefatigable in their efforts.

The toast was drank with enthusiasm.

Mr. Graham, in whose hands the Bill had been placed, responded, giving an account of his connection with the passage of the Bill, and how hard it had been to overcome the opposition to it in some quarters. He had, however, done so with pleasure, ably aided as he was by the members for the County and Mr. Anderson, also assisted by the Government.

Dr. Boulter also replied, giving details of the action he had taken in the matter.

Mr. Anderson, in response, alluded to the liberality of the Government in regard to agriculture, to mechanics and to railways. Referring to the Grand Junction Railway, it would, he said, bring to Belleville the trade not only of the back country, but of the great west, making the town prosperous and building it up into a city.

Dr. Boulter next proposed the health of Messrs. Kelso and Bowell, and also of Mr. Way, who were worthy of unlimited praise as the chief and most active promoters of the scheme, and who had spared neither time nor money in their laudable efforts to further its progress.

The toast having been heartily drank,

Mr. Kelso responded, giving a *resume* of the history of the project, from its inception—the hearty support given by the people of Belleville—the troubles in the Peterboro County Council—the final passage of the Bill—all being touched upon, together with his own share in the work which had been done.

In the absence of Mr. Bowell, Mr. Shepard responded on behalf of that gentleman, detailing his services, the benefits which would accrue to the Town and to the country through which it passes, by the construction of the road, and remarking that the important service rendered to the Town would not soon be forgotten by the people of Belleville, when they saw the results which would follow their active endeavors on behalf of the road.

The toast of the Grand Trunk was ably responded to by W. C. Nunn, Esq.

The health of the Premier was proposed and heartily received, and the company separated about 4 o'clock a. m., after spending a very pleasant and agreeable evening.

Mr. Lovell's Crowning Effort.

We have received from the publisher a copy of the Canadian Dominion Directory and a copy of the Provincial Directory of Ontario. Both Directories are got up in the best style, beautifully printed, well arranged, and profusely indexed. The Dominion Directory is the Domesday book of Canada, it tells us the name, trade, profession, avocation, or calling of every man in British North America; it gives an exhaustive review of the various provinces contained therein, tells us of the finances of each, the state of the country, what it is doing in agriculture, immigration, gives full information concerning the free grant lands, the agriculture and commercial progress of the province, climate, municipal institutions, statistics of towns and cities, manufactures, mines and minerals, postal system, railways, telegraph, canals, roads, &c., laws, public works, banks, currency, religion, taxation, education, municipal returns, county and judicial officers, &c., &c.

Besides the above information, which comes under the head of "General Information," we have at the commencement of each section of the work, a description of the village, town or city which is to be dealt with. While complimenting the publisher upon the very successful termination of what must be regarded as a most stupendous undertaking, we beg most heartily to endorse the words we find at the end of the Preface. "The publisher cannot doubt that the Dominion Directory should and will be found in each office and branch of every incorporated company in British North America, as well as in every manufactory, counting house, warehouse and store, whether in this country or abroad, where trade and intercourse with Canada is carried on." It contains such a fund of general miscellaneous facts that no one having any respect for the information which facts represent, should permit himself to be without this valuable work.

Mr. Lovell lost heavily by his Canada Directory in 1857, but we hope in this enterprise he will not only obtain ample remuneration for his present labor, but indemnity for the former loss. Certainly no man better deserves to succeed than Mr. Lovell, and we earnestly hope this undertaking may prove profitable to him. There is one thing the business men of Canada may rely on, the information these Directories contain is reliable. Neither pains nor expense were spared to procure the fullest information and have it correct. The low price at which these books are furnished should place them in the hands of every business man in the country.

We heartily endorse the following remarks from the London *Free Press*:

"The untiring energy, the watchfulness—the great effort, in a word, which characterizes the production of these volumes is astounding. The Dominion Directory is entirely National in its character, and every Canadian will look upon its publication with pride and pleasure—pride, that such an exhibit of the British North American provinces could be made; and pleasure that the task has been so worthily executed. All honor, we say, to John Lovell. No pecuniary reward could compensate him for what he has accomplished in this vast undertaking. John Lovell has for years taken a noble stand in Canada in supplying the people with a school literature of its own, and his name ranks among the foremost of its worthy literary men and publishers. We recommend the Directories to the attention of every professional and business man in the Dominion. Let us hope that the rich and prosperous community of Montreal will, in some substantial manner, signify its appreciation of the patriotic, the noble efforts of its honored citizen Mr. John Lovell."

Registration.

The Act for the registration of births, marriages and deaths would seem to be practically a dead letter in Belleville. The report of Mr. Roy, Division Registrar, shows that no return of marriages celebrated in the Roman Catholic Church had been received by him, though the Act provides that the return shall be made within ninety days from the date of the marriage. Medical men and parents have, except in the case of one physician, entirely neglected to comply with the law, only a few births having been registered, while death would appear to have stayed his hand, if the report of the officer appointed to record his rayages were to be taken as evidence of the fact. The total number of births, marriages and deaths registered in the Division during the year do not amount to 100; while we are assured from observation, that the number registered falls fully 200 short of the actual amount. The delinquents above cited have incurred a grave responsibility, for which the Act provides that penalties shall be inflicted. Let them save the unpleasant consequences of being brought before the Police Magistrate and go to the Registrar's office and comply with the provisions of the law.

Hastings Rifle Association.

A special meeting of this Association was held last night at Hambly's, Col. Campbell in the chair, for the purpose of appointing a Committee to solicit subscriptions in aid of the expenses of the Ontario team of officers who are to proceed to Wimbledon this summer. The following gentlemen were appointed. We wish them every success in their efforts, and hope the County of Hastings will not be the last on the list of subscribers:—

Major Stephens, 15th Battalion.
Capt. Henderson, "
Capt. Lazier, "
Lieut. Lister. "
Major Cumming, 49th Battalion.
Capt. Rawe, "
Capt. Vandervoort "
Capt. Boulter, "
Capt. Anderson, "
Capt. Crowther, Gand Trunk Rifles.
J. Wilson, "
D. B. Robertson, Esq.

Dominion Parliament.

OTTAWA, Feb. 15.

At 3:40 p. m. the members of the Commons returned from the Senate and the Speaker took the chair. Five new members were introduced.

THE FISHERIES.

Mr. Mackenzie asked if it was the intention of the Government to bring down copies of the correspondence regarding the Fisheries before the debate on the Address to-morrow. He said the Address contained reference to that question which could not be passed over in debate to-morrow. The House should, therefore, be put into possession of the correspondence without delay.

Sir John Macdonald said it was not the intention of the Government to bring down the correspondence until after the reply to the Address was carried. It was an unusual course to pursue. He would state, however, that the reply would be so framed that no member would be asked to commit himself to the policy of the Government on this or any other questions.

The House adjourned at 4:05 p. m.

Ontario Legislature.

Wednesday, Feb. 15, 1871.

Attorney-General Macdonald moved, seconded by Blake, that the absence of Mr. Clarke, member for the South Riding of Leeds and Grenville during the session having been caused by illness, the accountant be authorized to send him his sessional allowance. Mr. Blake supported the motion, and paid a high compliment to Mr. Clarke regarding the high esteem in which he was held by the members. Mr. Lyon followed in the same strain and the motion was carried unanimously. The House then rose at 12 o'clock. At 3:10 His Excellency arrived, and gave assent to the various Bills, prorogued the House, and Hon. Mr. Cameron, in the name of His Excellency, proclaimed the Assembly adjourned until Tuesday, the 28th March.

—Scene in a Paris cafe, not long since:—"Here, garcon, your horse meat is very black!" "Yes sir, so it ought to be. The animal belonged to an undertaker."

—The North German Chancery has invited tenders for 86 good train locomotives, 3,000 open goods vans and 4,000 axles for wheels, all for the railways in the province of Alsace.

—Hon. Wm. McDougall delivered a bitter speech at St. John, N. B., against the Dominion Government. He criticised severely the conduct of the Cabinet with reference to the North-West difficulties.

—On the morning of the 15th, near Spuyten Duyvil Creek, the Montreal express train, which left New York at 11:25 p.m. on Tuesday night, was run into by a train which followed it from the same station. One car was almost demolished, and several platforms were smashed. Some passengers were injured, but none fatally.

Town Council.

WEDNESDAY, Feb. 15.

The Council met, as previously announced.

PRESENT—His Worship the Mayor, Messrs. Henderson, Smith, Lewis, Patterson, Reed, Legate, Hope, Bull, Fahey, Vandusen and Flint.

The minutes of last meeting were read and approved.

PETITIONS

Application for licenses were received from:—

TAVERN.—B. Truaisch, T. A. Holbrook, John Leavens, Samuel Kyle, Emery Arkles, Hugh Nolan, M. D. Kehoe, J. Doyle, D. McDonald, Edwards & Mackie, A. Snider, G. A. Borradaile, Geo. Brown, Keith Fanning, Stephen O'Brien, Jas. McCurdy, Mark Adamson, L. J. Williams.

SALOON.—Agnes Perkins, John C. Bonter, John I. Shaver, P. H. Hambly.

SHOP.—W. Y. Mikel, D. J. D. Carscallen, W. H. Scholes, James Brown, F. Gabourie, D. Pitceathly, Geo. Merrick.

From John Cook and 400 others for the erection of a Town Clock in some convenient locality.

Mr. Roy, Division Registrar, reported that he had received no return of marriages from the Roman Catholic Church; that none of the medical men, except Dr. Curlett, had made a return of births and deaths; and that the Clerk of the Peace desired to be informed of the amount paid for registration by the Council.

The petitions were referred to their appropriate Committees.

REPORTS.

The Court of Revision reported, recommending a number of remissions in cases in which they had taken evidence.

The Committee on Harbor and Town Property reported, recommending that the Council instruct the Harbor Master to notify Messrs, Rathbun to remove their booms to the ground formerly occupied by Mr. Bogart during the spring, while logs are being sorted; and that they could not recommend that the piers complained of be removed, as they were already loaded and sunk; also that a lighthouse be erected on the same site on which the harbor lamp was placed last year, and that tenders for its erection be advertised for; also, that $100 be paid J. T. Hayden & Co., in full of their claim for $300.

Mr. Henderson handed in some correspondence which he had had with the Warden and Mr. Cumming, respecting the construction of the Murray Canal.

Mr. Henderson went on to say that the County Council had answered the questions proposed by the Commissioners before the Town Council had appointed its Committe.

The Mayor understood that the Commissioners had reported, and ignored the Murray Canal; therefore the only thing the Committee could do was to memoralize the Dominion Government.

The Finance Committee reported, recommending the payment of several accounts.

Council went into Committee on Ways and Means. Mr. Patterson in the chair.

The report of the Finance Committee was read and adopted, as also was the report of the Court of Revision, except an item of remission to B. & J. W. Diamond, on the Sidney Mills.

The report of the Committee on Harbor and Town Property was adopted, $170 being appropriated for the erection of a lighthouse.

The sum of $100 was placed to the credit of the Chairman of the Poor and Sanitary Committee.

The Committee rose and reported.

The report was, on motion, adopted.

The Mayor said that last March an action was brought againt the Town by Mr. Evans, for services connected with the Upper bridge. He was, on Monday last, served with a declaration to be answered in eight days.

The matter was referred to the Street Committee.

Mr. Vandusen moved, seconded by Mr. Flint, That Messrs. Flint, Lewis, Patterson, Bull and the mover be a special Committee on Industrial Farm.—Carried.

Mr. Bull brought up the motion of which he gave notice at last meeting, respecting the investigation of the Collector's rolls, into which some new matter had been introduced.

Mr. Henderson objected that the powers proposed to be given to the Committee were too extensive.

Mr. Flint agreed with Mr. Henderson's remarks. He had presented a petition from Mr. Gordon to be appointed Inspector of Weights and Measures. He was not aware who held the office.

The Mayor said Mr. Linklater was the present incumbent.

Mr. Bull's motion was allowed to stand over till next meeting.

Mr. Lewis said there was some misunderstanding respecting the composition of two of the Committees. The intention of his motion was to effect an exchange of Committees between himself and Mr. Henderson. He moved that Mr. Henderson's name be added to the Harbor and Town Property Committee, and that his own name be added to the Market and Police Committee.

Mr. Smith seconded the motion.

Mr. Bull objected that no notice had been given.

The objection was sustained.

Mr. Vandusen asked leave to have his motion regarding the Committees stand over.

The Mayor called attention to the fact that several assessment rolls were lying loose in the Council room. They should be taken care of.

Mr. Bull said the rule that the minutes of Committees should be kept had not been attended to in the case of the Committee on Poor and Sanitary, and he was without a guide in many matters.

Mr. Lewis gave notice of a motion to place Mr. Henderson's name on the Harbor and Town Property Committee and his own on the Market and Police Committee.

The Council then adjourned.

News Condensed.

—The Princess of Prusia makes her own dresses and bonnets.

—The present winter is the coldest in France since 1830, when claret and other light wines froze in the wine vaults.

—Ash Wednesday occurs on the 22nd inst., Good Friday on the 7th of April, and Easter Sunday on the 9th of April.

—There was a riotous demonstration in Cork on the 14th, on the occasion of the liberation of a released Fenian Captain.

—Dr. Lacerte, M. P. for Ste. Maurice, and Mr. Kirkpatrick, M. P., for Frontenac, will, it is understood, move and second the address.

—On New Years' day the Pope has reigned 24 years, six months and fifteen days; just one day longer than Pius VI. His pontificate has been longer than that of any other pope.

—Latest despatches from Newfoundland state that the Legislature had assembled, and that the Governor, in his speech at the opening, expressed the opinion that confederation was progressing satisfactorily.

—Two steamers cleared at New York on Saturday, laden with provisions for the starving people of Paris, and A. T. Stewart will send another in the course of a week on his own account.

—The wealthy people of Paris were compelled to sacrifice their fine horses for food. Only in a few instances were exceptions made in favor of some of the more noted men. Auber, the composer, and Theophile Gauthier succeeded in saving their pets.

Tenders.

TENDERS will be received by the undersigned till the 25th instant, for the erection of a LIGHTHOUSE,

Plans and specifications can be seen with the Harbor Master, Mr. A. Watters.

The Situation in France.

Affairs in France have not undergone any material change since yesterday, with the exception of the capitulation of the fortress of Belfort—the pricipal stronghold in South-eastern France, after a heroic defence. The garrison has been allowed to march out with the honours of war—an exceptional favor in acknowledgement of its bravery. Garibaldi has resigned his command of the army of the Vosges and taken his departure for his island home, Caprera. The Government af Bordeaux, in accepting his resignation, thanked him, in the name of the French people, for his noble services, and expressed regret at his departure. Paris is greatly excited over the contemplated march of the German army through the city, and fears are entertained of a serious conflict between the citizens and the Germans.

Emperor William's Return to Berlin.

German Princes going Home.

Chauzy and Faidherbe in Paris.

Napoleon's Proclamation.

Favre's Opinions.

VERSAILLES, Feb. 15.—Among the surrendered arms of the garrison of Paris are 200,000 muskets, and 1,400 brass pieces. The number of iron guns on the walls is not yet ascertained.

It was intended at one time to invite the reigning sovereigns of Germany to accompany the Emperor and army in the triumphal entry into Paris, but this plan has been abandoned and the sovereigns are invited instead to attend his Majesty in his grand entrance into his own capital.

It is still undecided at what time the Emperor will return to Germany, but it is thought he will leave Versailles on the 23rd, travelling through Strasbourg, Carlsruhe, Stuttgart and Munich, and visiting on his way the sovereigns who elected him Emperor, and who will fall into the train to grace his triumphal entry into Berlin. The Emperor will be in Berlin on March 8th, when the first Diet of United Germany meets.

The Princes who have been attached to the headquarters throughout the war are returning home. There are no signs of the slightest relaxation of discipline in the German army, no indication that they consider their work finished. On the contrary, everything here is suggestive of the beginning, instead of the close of a campaign. The Germans are taking every precaution in case of the renewal of the war, and will be ready to prosecute it with unusual vigor. Twenty two divisions of infantry which have been at Meudon since the begining of the siege, returned yesterday to Rouen to join the remainder of their corps.

Dissatisfaction is felt at the presence of Faidherbe and Chanzy in Paris. *It is thought that* an oversight in the framing of the armistice permits these Generals, under pretence of voting, to communicate with the authorities in Paris.

The result of the elections at Bordeaux are highly satisfactory and reassuring.

An unfavorable impression is produced here by Napoleon's proclamation. It is asked what right has a prisoner of war to put forth a proclamation or manifesto of any kind.

A special correspondent has had an interview with Favre, and telegraphs that he said the elections evinced an unexpected reaction against the Republic. The county was alarmed at the action of the Radicals, who played into the hands of the Monarchists. It is not probable that the Orleanists will be successful. The princes are too wise and patriotic to involve the country in a civil war. The republic will unavoidably be adopted.

GREAT BRITAIN.

The New Army Bill.

A Summary of its Provisions.

NEW YORK, Feb. 16.—A London despatch says: The principal points of Mr. Cardwell's bill on the reorganization of the army, which will be brought forward to-morrow as the great event of the session, are that the purchase system will be abolished and promotions be made by a fair system of seniority and selection. The Horse Guards will be removed to the War office, thereby abolishing the dual government so long denounced. The appointment of a commander-in-chief will be in future limited to a term of five years, and that officer will be the head of the discipline and patronage only. This is not directed against the Duke of Cambridge specially, but is in the interest of future discipline. The department will have a force, always ready which will be fixed at 100,000, with a strong reserve of militia newly organized, so as to work with the regular army. The volunteers will be left as they are, but they will be required to give the War office guarantees of their efficiency. This measure is shrewdly designed to head off the anticipated Conservative attack on the War Office management and is intended to win over the radicals to the support of the Administration on that dangerous issue.

The steamship 'Pereire,' from Havre, has arrived.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 16.—A Berlin correspondent to the 'Times' telegraphs that the terms of peace proposed by Bismarck are comparatively moderate.

The Paris 'Cloche' says that communications to the Government by Chanzy prove that the victory bulletins of Gambetta were exaggerated accounts of successes of the Army of the Loire, made for the purpose of fostering hopes among the people which were unjustified by truth.

Gen. Chanzy has made some painful disclosures as to the condition of the army, and advises France to postpone her revenge.

The Prussians have exacted a contribution of 19,000 francs from the commune of Jeroaque, and the money not forthcoming, they carried off the Mayor and the Countess of Montgomery as hostages.

Keeping Cabbage in Winter.

Three facts need to be borne in mind in putting cabbage away for winter, viz;

1. Repeated freezing and thawing will cause them to rot.

2. Excess of moisture or of warmth will also cause them to rot.

3. A dry air, such as is found in most cellars, will abstract too much moisture from the leaves, injure the flavor of the cabbage, causing some of the heads to wilt and the harder heads to waste.

The most convenient way in this climate is to open a furrow in some well drained place, deep enough to receive the heads, place a couple of rails at the bottom, so that any surplus water may be readily carried off, place the heads compactly together on the rails, with the roots up, and then cover with soil, ridging it up just enough to cover the roots an inch or so with soil.

—Mr. Wm. Molson has contributed $4,000 to McGill College Library.

CANADA

LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
January 25th, 1871. Manager.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists: Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Persons afflicted, however slightly, with any weakness of the chest or throat, involving either the Larynx, Trachea, Bronchial Tubes, or the Lungs themselves, should on the first symptom commence with FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES, as by its uses diseases of those organs are speedily cured, and more alarming symptoms prevented.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-similie* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

FIRE INSURANCE COMPY.

Head Office, - - Belleville, Ont.

PRESIDENT—MACKENZIE BOWELL, M.P.
VICE-PRESIDENT—G. H. BOULTER, M. D., M. P.
DIRECTORS—Hon. ROBT. READ, M. P., JOHN COOK, Esq., R. W. WILLIAM, B. A., M.D., LEWIS CRUICKSHANK, Esq., ROBERT E. GRASS, Esq., SAMUEL GILBERT, Esq., JOHN ROW, Esq.
JAS. H. PECK, SECRETARY-TREASURER.
BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed, and for sale at the *Intelligencer Office*

Universalism in a Nutshell.

I have often seen universalism reduced to an absurdity. But seldom, if ever, has it been better done than in the following, which I beg to recite for the benefit of any who may need it: 'I am a Universalist,' said G. K. boastingly, 'and you orthodox are not fair in saying that our system is inconsistent with reason.' This he addressed to one who held an opposite system. 'But I will prove the irrationality of your system,' said his friend. 'You believe that Christ died to save all men?' 'Yes I do.' 'And you don't believe there is any punishment hereafter?' 'No, I do not, men are punished for their sins in this life.' 'Well, now let us put your '*rational*' system together, if we can. It amounts to just this: that Christ the Saviour died to save all men from *nothing at all!* Not from hell, because according to you there is none. Not from punishment in a future state of being, for he receives his whole punishment in this life. Yours is an absurd spectacle of ropes and life-preservers thrown at an immense expanse to a man who is on *dry land*, and in no danger of being drowned! Let me tell you that your religion is stark infidelity. If you heartily believe the Bible, you could not believe Universalism.—*Central Presbyterian.*

Dr Lloyd, of Ohio, says he has no hesitancy in saying that by the use of Allen's Lung Balsam, he is now alive and enjoying health.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

SIR JOHN A. MACDONALD still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrensic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 137-m-Th.

Christmas is Coming!

JAMES BROWN has now received his Stock for the winter. New London Layer Raisins, Layer and Loose Muscatels, Sultana and Seedless Raisins, Valencia Raisins, Currants, Finnan Haddies, Bloaters, Lochfine Herrings, Sea Salmon, Labrador and North Shore Herrings, Canso Herrings, No. 1 Digby Herrings, No. 1 and No. 2 Mackrel, Lake Huron Salmon and White Fish, Onions, and a complete assortment of Teas, Coffee, Spices and

Belleville, December 9th, 1870. 188d

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION.—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT

OF

THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials.	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature.

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW

CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN

RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the wastes and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctoring for nine years, and cured at a cost of less than $5 dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West, March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Barnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

PRINCIPAL DEPOT,

439, ST. PAUL STREET, MONTREAL

☞ Sold by Druggists and general Storekeepers at $1.00 per bottle, or $5.00 for 6 bottles.

Geo. Gibson

MANUFACTURER and dealer in Boots and Shoes, Front Street, Belleville. A select assortment of ladies, gent's and children's boots and shoes constantly on hand and made to order All work warranted. 1D6m

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.

GODEY'S LADY'S BOOK

For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50

Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harper's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid he deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalied; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs,
such as Coughs, Colds, Whooping
Cough, Bronchitis, Asthma,
and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS'

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH. **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekl report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanica Literature, the Publishers will issue on January firs the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

from the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Sickness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion, and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents, for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

IN RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, a Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effects of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three* or more prescriptions are given for, without running any risk from mercurialising or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse*; the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,

CHILLS AND FEVER,

SCARLET FEVER.

Bilious Fever [illegible]

In the world. There is no Ague Cure Cholagogue or preparation of Quinine, Arsenic or [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private Practice [illegible] gorged liver, fat, spleen, disorde[illegible] colored skin, and hundreds of [illegible] distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only [illegible] the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Bilious Attacks, &c., than the Quinine Mixture [illegible] Cholagogues, &c., costing $1 to [illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of Radway's [illegible] diluted in one gallon of proof spirits [illegible] equal in quantity, and superior in [illegible] 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas [illegible] these remedies being but poor imitation [illegible] Radway's Ready Relief.

One bottle of Radway's Ready [illegible] cents, as a Pain Remedy, and for family [illegible] will secure every household free [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics,
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have al been started to imitate **Radway's Ready Relief** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they *stop pain so quick* and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupianists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are new medines, prepared on new principles, and Pupils ll ouresick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six, lines (per line) first insertion	0 08
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"—. cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	"
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons, a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

Two vols., Royal Octavo, 1600 pages, and numerous Engravings Price $7. by Mail, post-paid, $8.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,
DEMOREST'S ILLUSTRATED MONTHLY
as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietary interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

MESSRS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

French Correspondence.

ARRAS, Jan. 27.

Not alone the crisis of Paris has come, but also of France, the consuming fever is at its height. The Mede is at the gate of the capital, and if it has not capitulated negotiations are suspected to be in progress for a surrender. Fire, famine, and frost, must tell on the bravest resolutions, yet trouble is anticipated in the city, despite the physical impossibility of holding out. There are spirits who can never take in that Paris must fall—ignore the exhaustion of food, and disbelieve in the pregnability of their prison.

Will the resistance of the nation terminate with the capitulation of Paris? No answer can be definitely given. The people are not strangers to the greatness of the humiliation, nor indisposed to continue the sacrifices of life and money. Defeat they view as dishonor, the mutilation of territory as a disgrace. At the same time they note the inability of their raw levies to make head against the disciplined legions of the enemy. Generals and officers bring their lives to the defence, but the men would prefer them to exhibit ability and so create confidence.

Gambetta is the incarnation of endless resistance. But I can discover symptoms of a turn in the tide. People are considering for the first time, do the honor and safety of France demand a war to the bitter end? Since Sedan and Metz, the country, reason a minority, has displayed enough of energy, shed sufficient blood, sacrificed abundance of treasure, witnessed villages burned and towns pillaged in plenty, for the satisfaction of honor. Her very reverses have made France great. The chances of success by a war prolonged, desultory and in detail, are not hopeful. Men armed, are not soldiers—men assembled now, represent numbers, not worth. Seek an honorable peace on the best terms possible, and let France reorganize, and prepare her revenge.

Another sign of the times. Gambetta is accused of continuing the war, not only in the name of patriotism, but in that of the Republic, which annoys those who dislike a Phrygian cap, and predict such must ultimately weaken, if not compromise, the national defence—common safety being the only watchword for common dangers. This view is further backed by the claim that before M. Gambetta is prepared to die with France, France ought to be consulted before perishing. But how?

However, the vast majority of the nation is in favor of a moderate Republic—it will allay most jealousies if it cannot reward all abilities—it will best meet the desire of the representation of the country by the country. Orleanism is more respected than supported.

Bismarck has an arrangement in his pocket to bring back Napoleon, in the event of the country declining to conclude a peace when he occupies Paris. The idea of forcing upon the nation a dynasty so detested, apart from dictating to them a form of government, may possibly band the French to continue a war to the knife. Upheld by German arms, the ex-emperor can return, that support withdrawn, no odds could prevent a civil war. We know how the soldiers expressed their disgust and contempt for the Emperor at Sedan—that over three thousand of the officers prisoners in Germany have publicly protested against a Bonaparte restoration. It does not seem probable Napoleon could secure an army to sustain him. But he has desperate partizans, nor do the peasantry forget, under his reign they rested secure and made money—that he is more the dupe, than the cause of the misfortunes of France. Besides, Frenchmen are constant, 'until the times do alter' as said the Vicar of Bray. Troplong was faithful to the 'Lilies,' the Republic, and the coup d'etat. Rouher and Ollivier were once counted the best of republicans, but became the most obedient servants of the fallen dynasty, whose 'secrets' are now before the world, and whose restoration would be a greater calamity for liberty than history has ever had to record—and a greater humiliation and misfortune, than France has ever experienced. Neutral powers cannot turn Bismarck from the career of his humor by circular letters, his policy is one of blood and iron—oppose him by these weapons and he may harken.

The conquerors will not give up Alsace and Lorraine. Bismarck, on reading the King of Prussia's speech at Versailles, under the shadow of "all the glories of France" on accepting the Imperial crown, left no doubt on this point. It only remains to fix the boundaries, and such are expected to sweep from Belfort up to the fortress of Longwy, on the Luxembourg frontier, including Metz, and leaving Nancy French. The inhabitants will not be honored even with a Mexican plebiscite, to know under what King Bezonian would prefer to live. This territory will be governed for a few years by a Viceroy, likely the Duke of Baden's brother, and when duly Germanized will be formally annexed to the Confederation.

Since the 19th September, when the Germans closed round Paris, the citizens have displayed the grandest heroism. Nobly have they borne their privations, subdued their griefs, and buried political animosities. They are now reduced to limited rations of bread, and anxiety is felt about the supply of wine. For adults the daily amount of bread is three quarters of a pound—half this quantity for children. The loaves are dark in color and dough-baked, and only delivered on presentation of an order—crowds patiently wait for hours till their turn to be served arrives. Each recipient can only procure his portion at the shop named on his card, and if a double quantity be surreptitiously obtained, the law will take its course. The bakeries also distribute the wine, and offices everywhere exist, open night and day, to hear any complaints about the non-receipt of food. The Government allows a bounty of fr. 25, for every hundred weight of grain, in addition to the price, brought forth from a hiding place, and an Italian banker supplements the bounty by fr. 20. Much food has thus been brought to light. The supply of horse-flesh is becoming as rare as beef or mutton two months ago—about two ounces per week is allowed to each individual, and families club their rations to make soup, but the meat is in proportion to the water, as Falstaff's half-pennyworth of bread to his sack.

A few luxuries can be had, and here is the market price of such on the 21st inst., the 124th day of the seige:—a carrot, 12 sous; a small turnip, 16; a beet, 4 francs; head of celery, 2 fr.; potatoes are not to be had; cauliflower, 5 fr.; a good head of cabbage, 6 fr.; ditto (small) 2 fr.; a pound of leaves of ditto, formerly thrown into the dust-bin, 12 sous; mushrooms per lb., 2½ fr.; bacon per lb., 6 fr.; ham, 10 fr.; horse-pudding or sausage, 1½ fr. per lb.; butter, 40 fr.; an egg, 1 fr.; chocolate per lb., 5 fr.; coffee and sugar, one-fifth higher in price; a turkey, 125 fr.; a goose, 85 fr.; a chicken, 25 fr.; a pigeon, 8 fr.; hare, 65 fr.; rabbit, 25 fr.; duck, 30 fr.; a crow, 3 fr.; railway grease 'made palatable,' 3 fr. per lb.; ditto for oil, made up from purified candles, lamp oil, horse fat, &c., 3 fr. per lb.; a squirrel, 5 fr.; half of a fat dog, 6 fr.; rats hawked about by those who catch them fetch 2 to 4 fr. the half dozen; ass-meat is no longer obtainable; cats have disappeared; the inmates of the Zoological Gardens devoured, the hippopotamus excepted, and spared only in the belief that his flesh could not be softened by any amount of pounding, steeping in vinegar and boiling in brandy, as was the case with the poor elephants. One of the clubs has suggested that a slice be taken off the buttocks of the hippopotamus, as the Abyssinians, according to Bruce, do off their live oxen, and progress be reported accordingly. For a population compelled to 'do Banting' against its will, it is tantalizing to witness the huge mountain of flesh unapplied. The return of the cold weather has led to more cutting down of the trees of the boulevards, some of which are also required for charcoal for gunpowder. The steam-mills are only working half-time, and the foundries produce but few cannon. The employment of the asphalte of the streets for fuel has not succeeded; but some poor people gather it and obtain warmth even from its smoke. Firewood costs 300 fr. the ton.

After searching the occupied houses for any stock of stored away food, the mansions deserted have been taken in hand. A *juge de paix*, a police officer, and an expert, visit every empty apartment, appropriate in the name of the common weal, provisions, firing, bedding and wearing apparel, leaving a government bond for the amount, a list of goods taken, and sealing up the door. Possession is taken after the same fashion of unoccupied premises in the quarters of the city yet free from the bombardment, to shelter those who have had to flee the danger.

Up to the 20th, 90 persons have been killed and 215 wounded by the bombardment. Over two-thirds are children and women. The barbarism continues, but the citizens show no fear; their hatred against the besiegers increases, their resolve to hold out becomes more decided. A letter might be filled with the sad details of bursting shells, of children blown to atoms, mothers and infants at their breasts killed, the bed-ridden shattered hospitals have been fired into and patients mangled, hospices for the aged and infirm, asylums for idiots and lunatics, have been rendered uninhabitable. People who must remain in the exposed districts—half a million of the inhabitants of such have already changed—creep cautiously along under shelter of walls as if they were escaping from a plague. The bombs have fallen most in the neighborhood of the Pantheon, where the Colleges and Seminaries are situated. In one case a shell drops into a lecture hall while a Professor is occupied with his class, it bursts, no one is injured, and the lesson proceeds. Daubree, the famous geologist, who is largely occupied on the commission for the defence of the city by all chemical aids, is seated in his study, a bomb enters, rolls under a table and remains there. The celebrated Abbe Moigno, leaves his library for a few moments to post a letter; on his return he discovers his furniture smashed and his valuable books burning from a shell. Another falls in the chemical laboratory of the College Rollin, and would have been serious only the chemicals had been previously removed. The dome of the Pantheon has received a terrible scar—it will only add to its glory the more. The Botanical Garden of the Medical School, where Buffon wrote, Cuvier and Jussieu works has been torn up by the bombs—the Jardin desPlantes has had its admired green-houses destroyed, its invaluable collection of exotics ruined. Only two camelias escaped, and these have been presented to Mr. Richard Wallace, who inherited the late Lord Hertford's personal property, and who has signalized himself by his princely donations to the poor English in Paris, as well as to every charity in the city. Well may the Municipal Council call a boulevard henceforth by his name. His bounty has never been strained. The capital is a long way yet from being destroyed; the Krupp cannon will not force it to surrender—the "glory" of such, if the word can be applied, is likely to be given to General Famine.

The sickness in the capital is increasing, there are now four times the number of deaths weekly, that in piping times of peace—the figure last week, was as high as 4,291. Babies under six months old suffer the greatest mortality; the 3,200 milch cows, sacredly preserved for them, yield but a scanty supply of milk, and the poor animals are kept constantly on the move, to escape the shells.

The balloons bring the anxiously expected letters from Paris with great regularity—and several companies have been formed to bring back the answers, but without success.

The citizens are united to not increase the enemy's hands by dissensions on their part, their clubs have ceased to afford any attraction, or rather "halls of harmony," where people crowd together to secure warmth—Trochu has not been considered enterprizing enough, so he is limited to the command of the city property, offensive operations will be entrusted to another, who cannot surpass Trochu, in working miracles although he may lead the hotter spirits, the irregulars to dash themselves against the German ring with the same results. Trochu ought to be happy in the thought, that times are changed since the Carthaginians crucified their unlucky generals.

The circle around Paris is daily 'closing in,' the forts seem determined not to yield to anything but a storming party, where the foe can be better grappled with. The Teutons may rain fire and iron, but the forts growl away as they please, they have no civic population to shelter—the occupants are but soldiers and sailors, whose duty is to die. Bellicose as undoubtedly is the defenders of Paris, it is felt that they cannot pierce the enemy's lines—bristling now as they do with siege batteries. On every side the besieged have tried to break away, and failed. Their last attempt and greatest effort at Mont Valerien, was an obstinate and bloody unsuccess. Proved, it did, that the National Guards had the true ring of patriotism in their ranks. They fought and died like soldiers—they marched from their homes to meet death a few hours later—some of their 'boys' carrying their rifles, the girls holding papa's hand, wives, mothers and sweethearts sobbing adieus as they parted at the city gates, and waited to examine the ambulances as they returned with the bleeding freights. Hugo calls the National Guards 'unshaken grocers'—it is a dubious compliment—the best families in France are enrolled in the body—all professions have their representatives—a volunteer a Marquis, aged 67, fell in the late sortie at the side of his wounded coachman—professor are killed with pupils—ministers of the late government—Duruy, minister of public instruction to wit, fought bravely beside those who lately governed.

The history of the efforts of the provinces to march to the aid of the capital resolves itself into one word failure. Faidherbe in the north has not been more successful than Chauzy in the west; Bourbaki has lost his chance in the east, and with Garibaldi stands a chance of being surrounded by Manteuffel. Everywhere defeat—each new onslaught proving the French recruits are becoming soldiers, but not yet equal to the organized battalions they have to meet. Still the preparations go on almost mechanically, apparently with no intention of a pause. War *materiel* may be captured to a fabulous extent, but new stores are brought forward without delay. Is the nation to yield with multitudes of men in process of being made veterans? Gambetta foretells that in three months hence, not a German will remain in France. Will a success like that of Garribaldi's son at Dijon, or that of the Franc-tireurs on the enemy's communications at Nancy, brace up the will of the nation? No one can tell; but all wish for an honorable peace.

News Condensed.

—It is feared a sad and starting change in ladies' bonnets will appear the coming season. It is prophesied they will be immense!

—Boston is in laughter over a woman who refused to buy beef on account of the cattle disease, and took a pound of liver instead.

—The famous Pantheon of Paris has escaped serious injury, although the dome and outer walls bear marks of the bombardment.

—A horse-dealer purchasing a mule the other day, said it looked as though it had edited a clear grit newspaper all its life.

—Fancy work too often leads to a neglect of real work. How often do children go in rags, because their mothers are tatters!

—"You want nothing, do you?" said Pat "Bedad, an' if it's nothing ye want, you'll find it in the jug where the whiskey was."

—Mason, the whiskey informer, has started a private detective office at Toronto, in conjunction with one of his satellites named Yeomans.

—A foreign gentleman declares that he can tell whenever he crosses the border to Massachusetts, because all the women begin to have 'views.'

—A German physician has discovered that in his country unwedded women live on an average eight or ten years longer than wives and mothers of families.

—If you want a headache in the morning, sleep in a room where a kerosene lamp is turned down low, so as to give but a faint light. This receipt does not fail once out of ten times.

—The St. John *Morning News* states that the efforts of the Board of Health to stay the progress of the small pox lately introduced into the city are said to be resulting favorably, and with increased facilities there is no reason to doubt but it can be speedily wiped out.

—The notorious Boulton and Park—men impersonating women—case is to come off in February, with an enormous array of legal talent on both sides. The Attorney and Solicitor Generals, and Mr. Archibald (brother of the British Consul in New York) will appear for the Crown, ex-Attorney General and other legal lights for the Defendant. Park is grandson of a late judge.

—A kiss, says a French authoress, gives more pleasure than anything else in the world. But Puck declares that that woman evidently never experienced the childish rapture of descending the parlor stairs by sliding down the banisters.

A mechanical curiousity, in the shape of a steam buggy, is on exhibition in New York. The inventor claims that it can be driven, with two persons in it, 150 miles a day upon common roads; it is light and strong; and can be managed better than any horse, and can be driven faster than any person dare to ride. The owner says he will match it against any trotting horse in the world.

Loosening the Apron Strings.—In connection with the appointment of the commission, of which two Canadian statesmen are members, it is rumored at Ottawa that the present Government of Great Britain have intimated in such a manner, as to impress the idea strongly on the ministry that at the conclusion of and on the satisfactory adjustment of the pending American disputes, Canada will be erected into a semi-independent state as an ally of Great Britain, and further the name of the member for Kingston is used as indicative of the first officer when the new ship starts on her voyage.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m:	6:20 a m.
Stirling, Marmora, Harold, &c	7:00 a m.	5:00 p m.

Daily Intelligencer.

BELLEVILLE, THURSDAY, FEB. 16.

Social.—Another of those pleasant socials will be given by the young ladies of the congregation at the M. E. Church to-night. Readings and refreshments.

Fish.—A considerable trade is at present being done in fish, the product of our own inland waters. The price paid is $4.50 per 100 lbs., at which rate a good deal of the article is purchased for exportation to the United States markets.

Skating.—Messrs. Carrier and French, two celebrated skaters from Detroit, now on their way to meet engagements at Kingston and Montreal, will exhibit their dexterity on the ice at the Victoria Skating Rink to-morrow night. The band of the 15th Battalion will be in attendance.

Theatrical.—We are requested to state that the Belleville Dramatic Club, who have already performed twice this season, will shortly make their third appearance. They have now in rehearsal two standard plays, which will, we have no doubt, be produced in first class style.

The Weather.—The thaw continues, and promises, if it does not stop speedily, to put an end to sleighing within a few days. This would indeed be a calamity to business men, a great deal of wood and other heavy articles, already contracted for, remaining to be brought in. There are also fears entertained for the safety of the fall wheat, which is but thinly covered, and which would suffer from the frost should the snow now melt and disappear. Promenaders on the streets seem to be the only persons who enjoy the present condition of the atmosphere.

Trotting Race.—The Kingston *News* says: "The trotting match on the ice on Wednesday afternoon between Butcher's Maid of Belleville, and Gray Hawk of Picton, resulted in favor of the latter. Butcher's Maid took the first heat; the second was a dead beat, and third, fourth and fifth heats were taken by Gray Hawk. The winning horse is a very handsome gray stallion, and his owner, Mr. J. A. Allen, of Picton, is justly proud of him. Mr. Allen exhibited the horse last year at the County Agricultural Fair, Jefferson County, New York, and received the first prize for the best road stallion, a very handsome gold medal.

Dominion Parliament.

Ottawa, Feb. 17.

In the House of Commons yesterday, Mr. Mackenzie made inquiry respecting the representation of Manitoba in Parliament, adverting to the point raised at the last session by Mr. Mills, as to the Manitoba Bill for the representation of the new Province in the Councils of the Dominion. He now wished to know what had been done by the Government.

Sir John A. Macdonald acknowledged the force of Mr. Mills' arguments, and said the question had been under serious consideration. The necessary steps had been taken for holding elections in Manitoba, and returns were daily expected. There would consequently be representation in the Commons and in the Senate, by consent of the Opposition, and the proper steps would be taken to secure the constitutionality of past legislation by a confirmatory Bill which would be submitted to the Imperial Government.

The address in reply to the speech from the Throne was moved by Dr. Lacerte, who praised the Government, and seconded by Mr. Kirkpatrick, who expressed the hope that the volunteers in Manitoba would receive grants of land, and that the joint High Commission would consider Canada's claims for losses caused by Fenian raids.

Mr. Mackenzie addressed the House respecting the speech, pitching into the Government in his usual style.

An objection being raised by the Hon. Mr. Dorion, the paragraph in the address referring to a Canadian Pacific Railway was so altered as to not make it binding upon the House.

The address was then passed, and after notice was given by Sir John A. Macdonald of his intention to move an address congratulating the Governor-General upon his elevation to the peerage, the House, at a quarter to nine adjourned.

The Marmora Gold Fields.

The continued success which has marked the operations of Dr. Williams on lot 7 in the 9th concession of Marmora, has given new importance to the gold region of North Hastings. As soon as the gold excitement abated, it was prophesied of him, as it had been of many others, that he would soon pull up stakes and abandon the mines to their fate. But in this case the prophecies were false. Dr. Williams has not only exhibited his unwavering confidence in the future of the gold fields of Marmora, but by plodding, patient, persevering effort, has proved his confidence by the best of all evidences,—success. The lot where the precious metal is found is situated about five miles from Marmora and about eight from Madoc. The mine is some eighty rods from the river Moira, which at this point is rather a respectable sized stream. The shaft is some sixty feet in depth, with a drift at an angle of about 45 degrees of fifty feet, disclosing a well-defined vein of quartz. At a depth of fifty to sixty feet, from repeated experiments, the rock proves to be of a much richer quality than nearer the surface, and as the last clearing up has clearly attested. In some of the rock gold is plainly visible, but when found in this state it does not present that rich appearance which distinguished the specimens from the Richardson mine. It is mixed with considerable sulphurets, and it is here the miner finds his greatest difficulty. An assay of a certain piece of rock may produce at the rate of $30 to $60 of gold per ton, but reducing the same description of rock by the crusher will only yield perhaps at the rate of from $3 to $10 per ton. It is very evident the gold is not all taken out of the rock by the present means of crushing, but great improvements have been made by Dr. Williams, and he confidently anticipates from recent experiments to perfect a process by which a much larger quantity of gold will be saved.

The Crusher is located a few steps from the banks of the Moira, is compactly put together and conveniently situated. It has been in operation since October, 1869, and has been continually running since that period on rock which averaged from $8 to $15 per ton. There is a single battery of five stamps in operation at present, with a capacity of crushing 25 tons a week. A new battery is to be put up in the mill this week, which the Patentee guarantees will crush 20 tons every 24 hours. To show that the gold is widely distributed over that section of Marmora, we may mention the fact that at Dr. Williams' crusher, several lots of rocks from different places in Marmora have been put through the mill and in each case it was found good paying rock. The last clearing up from Dr. Williams' mine, noticed a day or two ago, shows an average yield of about $11 per ton. It might be mentioned in this connection that experiments have been made with the concentrated tailings, a large quantity of which is on hand, which shows a very profitable yield. Dr. Williams and his associates deserve a great amount of credit for the energy and pluck they have displayed, and we shall record their continued success with great satisfaction.

Police Court.

(Before A. Diamond, Police Magistrate.)

Friday, Feb. 17.

ASSAULT.

Joseph Briscoe charged Albert McDonald with committing an assault upon him. Defendant admitted the charge, and was fined $5 and costs or 30 days in gaol with hard labor in default. The money was paid.

LARCENY.

Joseph Briscoe was charged with stealing two hammers, two wrenches, one collar block and one screw driver, the property of W. H. Vermilyea. Prisoner pleaded "not guilty," and consented to be tried summarily under the Recorder's Act.

Chief of Police Petrie was sworn and said he executed a search warrant on the premises where prisoner resides, and found the large hammer in his room, and he said he had a wrench, and gave it up, but denied having the other articles. Found them in another room, between two beds. He said he made them in overtime, and that Mr. Vermilyea had charged him the value of the steel from which the articles were made.

Thomas Wilson was sworn and said he had used the screwdriver before Briscoe worked in Vermilyea's; the small hammer was made by prisoner and claimed by him; was told he also made the large hammer, which he also claimed; he made the wrench and claimed it as his; the value of the articles was about $3 75; he made them all in his master's time; it was usual for apprentices, about the period when their time expired, to make such articles and carry them away. Mr. Vermilyea allowed this to be done in over-time, and when they paid for the metal used; the material Briscoe used was part of an axle left at the shop by Mr. Soby, to be used in the construction of a new waggon.

Alexander Beattie, sworn.—After Briscoe left, one night saw a person he supposed to be the prisoner, working at the fire in Vermilyea's shop; the next day or day after, missed the collar block and one of the wrenches.

Some further evidence, corroborative of the above, was heard, and further hearing was adjourned until 3 o'clock, p. m.

At three o'clock the examination was resumed.

Harriet Barlow, who lives where prisoner boards, was sworn, and said she hid the tools between the beds when she heard the officers asking about them; had no conversation with Briscoe or any one else respecting them; put them there of her own motion.

This concluded the evidence, and the Magistrate, in pronouncing judgment, said he must find the prisoner guilty of stealing the screw driver; the other articles were evidently made by him. He would therefore send prisoner to gaol for three days with hard labor.

The Boston *Post* recommends that the city manufacture its own gas. In its corporate capacity, it pays $200,000 per year for the gas it consumes. By manufacturing its own gas, it would save one half. The Boston Gaslight Company charge $3 per thousand feet, while the city has demonstrated at two or three of its large public institutions, that it can manufacture a pure and good article of gas at a cost of $1.25 per thousand feet.

A recently married lady lately consulted her lawyer on the following question: "As I married Mr. Smith for his wealth, and that wealth is now spent, am I not to all intents and purposes, a widow, and at liberty to marry again?"

It appears from a pamphlet just issued by the financial agents, that the earnings of the Central Pacific Railroad, since the main line was put in operation, were over $18,000,000 and that of this sum $10,000,000 were net earnings over expenses of operating the road. When these expenses had all been paid, and the interest on the bonded debt, there was still a surplus of $9,000,000.

Sabbath School Convention.

THE Hastings Sabbath School Association will hold their Second Convention on Tuesday and Wednesday, 21st and 22nd of February, 1871.

Day Services in the Congregational Church Evening Sessions in the Methodist Episcopal Church.

Sessions 9 a. m., 2 p. m., and 7.30 p. m.

Collections to be taken up during the Evening Sessions.

Dr. Palmer will conduct the service of song.

A. F. WOOD, President.
C. Martin, Secretary.

Midnight Despatches.

At a caucus held at Bordeaux on the 16th inst., and composed of a majority of delegates, it was resolved to establish a provisional republic with Thiers as President, Favre as Premier, and the Duke de Cases as Minister of Foreign Affairs. The other ministers are Simon, Picard, Buffets and Berthemy. On the conclusion of peace the convention will adjourn to Paris and will submit to a plebiscite the future form of Government.

A London despatch states that it is understood that the next sitting of the Conference has been postponed for a few days until the organization of the new French Government and the arrival of a plenipotentiary from France.

BY ATLANTIC CABLE.

American Despatches.

Another Railway Accident.

Train Thrown off.

Palace Cars Burned up.

Passengers Escape Through the Window.

Some Burned, but not Seriously.

Attempted Assassination.

NEW YORK, Feb. 17.—A Troy despatch gives additional particulars of the railroad accident last night. The Montreal express which left New York at 4 p.m. yesterday, ran off the track between that city and Albany about 10 a m. A broken rail threw the train from the track, and after running about 20 rods upon the ties, the rear coach swung against an embankment on the right and became detached. Meantime the tender had became uncoupled from the baggage car, and that car and a palace car tumbled down into a ravine The palace car immediately took fire from the gasoline on board, and both cars were burnt up. The passengers, however, escaped through the windows. A few were burned, but none seriously. Mails, baggage and all were saved.

The 'Tribune's Yeddo (Japan) correspondent shows that the attempted murder of two Englishmen, Dollas and Ring, was merely a case of attempted ruffianly assassination for the purpose of robbery. The assault apparently partook of nothing whatever of a political nature.

Morning Despatches.

Speedy Peace Anticipated.

England's Defensive Works.

£60,000,000 Required.

BRUSSELS, Feby. 16.—It is reported that the Emperor William will not return to Berlin before peace, the speedy conclusion of which is confidently expected at Paris.

LONDON, Feby. 16.—The defensive works proposed by the Secretary of War are estimated to cost £50,000,000, and the new artillery required £10,000,000 more.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

BORDEAUX, Feb. 16—At to-day's session of the National Assembly, the following named Vice-Presidents were chosen: Louis Joseph Martel, Benoist D'Agy, Ludovic Vilet, and Leon de Maleville. A resolution was introduced proposing Theirs for chief executive, with authority to nominate a ministry, but providing that the power of the Republic shall be exercised under the control of the Assembly. The resolution bears the signatures of Dufaure, De Maleville, Vilet and Saint Hillare. A deputy censured a manifestation which was made outside of the Chamber, and adjured the Paris deputies so to act as to preserve liberty of discussion.

Violent recrimination ensued between the Conservative and Republican Deputies.

A letter was subsequently read from Faidherbe, declining to accept a membership.

The Senate confirmed the election of 83 Paris Deputies.

Rochefort, Victor Hugo and Floquette were present at to-day's session. The chamber was strongly guarded by troops posted outside the building,

SPECIAL TELEGRAMS.

By Special Telegraph.

FIRE.

ST. CATAHRINES, Feb. 17.

The bath-rooms in rear of the Stevenson House were destroyed by fire about two o'clock this morning. Loss about $4,000. The hotel had a narrow escape. The fire was the work of an incendiary.

The bachelor's ball last evening was a great success, Toronto, Hamilton and other places being well represented.

SUDDEN DEATH.

PORT ROWAN, Feb. 17.

Andrew McLennan, postmaster and coroner of this place, died suddenly at his residence yesterday morning.

ANOTHER FIRE.

BRANTFORD, Feb. 17.

About 7 a. m., a fire broke out in the back part of the store occupied by J. Montgomery for tailoring and ready-made clothing. It was promptly put out and but little damage done.

THE PRESIDENT OF THE COMMISSION.—Earl de Grey, the President of the Commission, and a member of the Imperial Cabinet, has on more than one occasion in the course of debates on Colonial questions shown his regard for Canada and its people. While Secretary of State for War in Lord Palmerston's administration, he formed one of the Committee of the Privy Council, which in 1865 met the Canadian delegates and helped to effect the satisfactory adjustment of the relations between Canada and the Mother Country, which then was made. In Earl de Grey, Sir John A. Macdonald will meet with an old and valued friend. The noble Earl was born in 1827, while his father was Prime Minister of England. From 1853 to 1857 he represented Huddersfield, in Yorkshire. From 1857 to 1861 he held office as Under Secretary of War, and was Chief Secretary of War from 1863 until 1866, when he was appointed Chief Secretary for India. In 1869 he accepted office under Mr. Gladstone as Lord President of the Council, a position which ranks third in the Administration. He succeeded to the Earldom of Ripon on the death of his father in 1859, and became Earl de Grey on the death of his uncle in the latter part of the same year.

The Terrors of Bashfulness.

If there is any defect more striking than another in the American character, it is bashfulness. Young America is painfully affected by it. An incident is mentioned by a correspondent, who was desired by his aunt to go to his neighbour Shaw's and see if he had for sale any straw suitable for filling beds.

Mr. Shaw, says our informant, was blessed with a goodly number of Misses Shaw, and I therefore felt a little timid at encountering them. To make the matter worse, I arrived just as the family were seated for dinner. Stopping at the doorway, hat in hand, I stammered out—

"Mr. Straw, can you spare enough Shaw to fill a couple of beds?"

"Well" replied the old gentleman, glancing around at his large family, and enjoying my mistake, "I don't know but I can. How many will you need?"

Before I could recover, those hateful Shaw girls burst into a chorus of laughter and I returned to my excellent aunt.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb, ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 137-m-Th.

CANADA LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,

VICK'S FLORAL GUIDE FOR 1871.

The first edition of one hundred and fifty thousand copies of Vick's Illustrated Catalogue of Seeds and Floral Guide, is published and ready to send out—100 pages and an Engraving of almost every desirable Flower and Vegetable. It is elegantly printed on fine tinted paper, illustrated with three hundred fine Wood Engravings and two beautiful

COLORED PLATES.

The most beautiful and the most instructive Floral Guide published. A German Edition published, in all other respects similar to the English.

Sent free to all customers of 1870, as rapidly as possible, without application. Sent to all others who order them, for ten cents, which is not half the cost. Address

JAMES VICK,
Rochester, N. Y.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Persons afflicted, however slightly, with any weakness of the chest or throat, involving either the Larynx, Trachea, Bronchial Tubes, or the Lungs themselves, should on the first symptom commence with FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES, as by its uses diseases of those organs are speedily cured, and more alarming symptoms prevented.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

---

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

---

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by th Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

To Cook Vegetables.

It is often observed that a meal from vegetables is not satisfying. I have found it frequently happen that the persons who thus objected, did not even know how to boil a vegetable. The rule is simple, and should never be forgotten.

Every kind of vegetable intended to be served whole should, when put to boil, be placed at once in boiling water; and this applies especially to potatoes and vegetables from which the outer covering has been removed. Now it often happens that potatoes, etc., are, to save time, placed in cold water and left to boil gradually. It is just this which allows the nutritious matter to escape, and renders the meal unsatisfying. When, on the contrary, the water boils from the moment the vegetable is immersed in it, albumen is partially coagulated near the surface, and serves to retain the virtue of the vegetable. The reverse is, of course, the rule for making soup, or any dish from which the water will not be drained. By placing the vegetables in cold water the albumen is slowly dissolved, and actually mixes with the water—a process most necessary for the production of nutritious soup.

Dr Lloyd, of Ohio, says he has no hesitancy in saying that by the use of Allen's Lung Balsam, he is now alive and enjoying health.

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no qetter Cough or Lung Medicine in use.

Adam Walker, of Tavistock, Ont., writes: After trying many cough and lung remedies for a severe cold which he had suffered with for three years, used Allen's Lung Balsam and was cured.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

SIR JOHN A. MACDONALD still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrensic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

THOMAS WILSON,

Belleville, July 26th. 1970. 372w24tf

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands [illegible] *marked change in her health for the better after taking the* **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctoring for nine years, and cured at a cost of less than five dollars.

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid he deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.
SOLD BY ALL DRUGGISTS EVERYWHERE.
NORTHROP & LYMAN,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Hecht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 60 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 a year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS'

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 160 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. Address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and displacements of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Sickness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fœces *and this is all.* Such agent, or the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Billious attack; Doctor prescribes Blue Pills or Calomel; next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for,* without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse*, the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure Cholagogue or preparation of Quinine, [illegible] forms of Mercury, or, in fact, any remedy [illegible] will cure this disease so positively so safely as

Radway's Ready Relief.

No, not one. Thousands, from overdoses [illegible] Quinine, Arsenic, Mercury, bottled in [illegible] Cures and Private Practice [illegible] gorged liver, fat, spleen, disorders [illegible] colored skin, and hundreds of other symptoms [illegible] distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to $3 [illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirits will give you equal in quantity, and superior in [illegible] 144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of **Radway's Ready Relief** [illegible] cents, as a Pain Remedy, and for Family [illegible] will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every [illegible] sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills* and *Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are new medines, prepared on new principles, and *Pills* ll ouresick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$5 00
do do	12	do	8 00

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - - -	10.00	"
For Blackwood and three of the Reviews, - - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of Imitation so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
St. James & Notre Dame Sts., Montreal, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal,

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-ly

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing
New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.
Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find
THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,
DEMOREST'S ILLUSTRATED MONTHLY
as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Oil engraving, 23 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10 00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. White having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become familiar as a household word among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer,* and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer,* as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers, - -	$ 5.00
Club of 10 " - - - -	8.00
Club of 20 " - - -	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS. CABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Cehemists, Perfumers, and Storekeepers throughout the World,
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Poetical Maxims.

Happy were men, if they but understood,
There is no safety but in doing good.
—*Fountain.*

But Satan now is wiser than of yore,
And tempts by making rich, not making poor.
—*Pope.*

Mankind one day serene and free appear;
Next day they're cloudy, sullen and severe.
—*Garth.*

There is a lust in man no charm can tame,
Of loudly publishing his neighbor's shame.
—*Harvey.*

On eagle's wings immortal scandals fly,
While virtuous actions are but born and die.
—*Harvey.*

Be good yourself, nor think another's shame
Can raise your merit, or adorn your fame.
—*Lyttleton.*

Many a word at random spoken,
May soothe or wound the heart that's broken.
—*Scott.*

Count all the advantages prosperous vice attains
'Tis but what virtue flies from and disdains.
—*Pope.*

Grant the bad what happiness they would.
One they must want, which is to pass for good.
—*Pope.*

Riches like insects, while concealed they lie,
Wait for but wings, and in their season fly.
—*Pope.*

He that holds more wine than others can,
I rather count a hogshead than a man.
—*Randolph.*

It is a wretched thing to trust in reeds,
Which all men do that trust in their own deeds.
—*Johnson.*

He that to ancient wreaths can bring no more
From his own worth, dies bankrupt on the score.
—*Cleveland.*

Be still, sad heart, and cease repining;
Behind the cloud is the sun still shining.
—*Longfellow.*

Heaven has no rage like love to hatred turned,
And hell no fury like a woman scorned.
—*Congreve.*

About Spoiling Children.

That domestic atrocity known as "spoiling a child" is generally looked upon as a consequence of excessive maternal love, but if a mother hated her little one she could scarcely do anything worse. A spoiled child is one of the most unhappy of living creatures, and *generally* sickly; for beside the physical evils which the indulgence of its undisciplined appetites engenders, its temper preys upon its health. To pamper the little folks in all their whims and caprices is a parental sin, and one which is always visited upon the unfortunates who have been thus irrationally petted. One of the immediate penalties of the offence is the dislike with which spoiled childen are universally regarded. But there are worse consequences than this. The young tyrant is too often developed into the overbearing youth, and the overbearing youth into the unjust and hateful man. Gentleness, kindness, and reasonable patience are absolutely essential to the proper management of children. When severity is necessary, it is usually because some error of the past has been unwisely overlooked, or perhaps winked at. In cases of this kind, every blow that falls upon the juvenile offender ought, in strict propriety, to be inflicted on the individual who failed to apply the mild remedy of remonstrance and persuasion in due season. Above all things, treat the little ones justly, for their sense of injustice is keen and bitter.—*Mothers' Monthly.*

Blessed Sorrows.

Sorrows that leave the mind like a house that has been ransacked and stripped bare, are deadly indeed; but sorrows that say to a man: 'It is not safe to trust a single line of experience or education for the resources of your life,' are blessings for which we may well be thankful. Sooner or later troubles and disappointments will overtake you, and then where will your resources be? Are there resources that you can turn your mind to, other than those which belong to this world?

A woman of great gifts and high culture, at about twenty-one years of age, was affianced to a man distinguished in literature and science, and she looked forward to a life of joy; but the ocean claimed him. The sorrows that fell upon her fell like the withering frosts in autumnal days; and no green or bright thing was left in all the field of her heart. With mighty strugglings through weeks and months she sought to stop her sorrow; and finally turned from it saying, 'I will give my whole life hereafter to others, and let my ownself go.' She consecrated herself to the work of educating, and is still earnestly, successfully and bountifully spending herself in that work. Her sorrows are all taken away and gone. She learned to give herself away to others; and when she found herself again, she was as it were regenerated.

Where sorrows disenchant life of its exaggerated satisfaction and goodness, without going to the other extreme, it is a great benefit. We are not apt to think that life is better than it is, better than it wears, better adapted to give satisfaction than it proves to be; and when we discover our mistake we are apt to go to the other extreme, and find that life is all care and hardship. Blessed, therefore, is the sorrow that tempers our judgment.

Sorrows which make us feel that, good as the world is, it is not enough; that give us a sense that bright and sweet and desirable as life is, there is something higher, sweeter and more desirable, and that plant in our hearts the hope and expectation of a higher and better life—such sorrows are angelic. They prophesy to us and fulfil their own prophesies. They do not lead us to deride the present, nor to refuse any wholesome bitterness, but they tell us of a rest hereafter.—*H. W. Beecher.*

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m.	6:20 a m.
Stirling, Marmora, Harold, &c.	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c.	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c.	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Rednerville, &c., every Tuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, SATURDAY, FEB. 18.

ST. ANDREW'S CHURCH.—The minister being confined to the house through illness, there will in consequence be no service in this church to-morrow, the 19th inst.

BALL IN MADOC.—A grand ball will take place at the Masonic Hall, Madoc, on Tuesday evening next, 21st inst., the proceeds to be applied towards the establishment of a Library and Reading Room in the village. The object is a commendable one, and we hope to hear of its success.

THE BAY OF QUINTE.—The Kingston *Whig* says: "A Joint Stock Company, to be known as the Union Steamboat Company, has been formed for the purpose of establishing a line of steamers to run between Kingston and Picton. We understand that the Company have already purchased a steamer, the *Maid of Canada*, for $14,000, and will be ready to commence business at the opening of the navigation."

ENTERPRISE.—We notice in Bell's Weekly Messenger, one of the leading agricultural papers of Great Britain, that " Mr. J. H. Hutchinson, Manor House, Catterick, has sold to Mr. R. Staton, for W. H. Wallbridge, of Belleville, Canada, his pen of five prize Leicester shearling ewes for £65. These ewes have taken, as the best pen of lambs in 1869, £23 in prizes; in 1870, clipped £5 and won 17 first and three second prizes, amounting to £77, making a total of £170." In addition we have to say that we have seen Mr. Hutchinson's letter of the 1st February, in which he states that he well knows they were the best in England, and now trusts that they are the best in Canada.

GODEY'S LADY'S BOOK for March, 1871 has been received. The embellishments commence with a handsome steel plate entitled " Lights and Shadows by the Wayside." Colored Fashion-Plate, containing six figures. A handsome Alphabet, printed in colors. ' Flooded Out," a wood engraving. A plate of Promenade Dresses. An Extension Sheet of fashionable costumes. In the Work Department will be found the usual variety of fancy and useful work. Lamp screen; infant's boot in crochet; chemise trimming; fluted trimming; foot cushion; children's clothing, with directions for making; embroidered basket; case for holding silks, etc., etc. Marion Harland's story improves in interest. Published by L. A. Godey. Philapelphia, at $3 a year.

Presentation to Dr. Oronhyatekha

The following is the Address from the Doctor's friends in Frankford and vicinity, which accompanied the presentation of the watch, noticed by us a few days ago:

ORONHYATEKHA, M. D.,

SIR,—Your numerous friends in Frankford and vicinity have learned with regret that you are about removing from them; during the years of your residence here you have established yourself in the respect and esteem of the public, as a physician of great attainments and skill. While the attention you have bestowed upon your patients and the delicate sense of professional honor which has marked your practice, has secured for you the esteem of the whole community, and the sentiment of regret is unanimous that you have found it desirable to remove to a larger field of professional labor.

But it is not alone as a medical man that you have secured the approbation of your fellow citizens, the uniform and unselfish service which you have rendered to every movement which aims at the improvement and elevation of Society, has endeared you to all those who labor in the same interests, while the purity of your personal character and private life has been the best voucher for the uprightness of your motives. The cause of temperance in this neighborhood is under very great obligations to you for an intelligent and eloquent advocacy for a painstaking and prudent oversight, and for a consistent and faithful example. The fact that you have been at the head of the chief Temperance Organization of this Province, is a proof to us that our estimate of your ability and character is shared by the temperance men of the community at large.

You will excuse us for adding the superior education you have acquired, and the great abilities which you have brought to bear upon whatever you have undertaken, is a proof of what the race to which you are so much attached, and of which you are so proud, may become under proper training, and we hope you may live to see the dearest wish of your heart accomplished, their elevation in all the arts and virtues of civilization.

Your friends have commissioned me to present you with this watch, which they hope you will wear as some small token of their regard for you as a physician and a man valuable not so much for the value of the gift as for the good wishes of the givers.

With the very best wishes for the prosperity and happiness of your wife and children, as well as for yourself, we subscribe our names, &c.

The Close of the War.

It will be observed from recent dispatches that the war is virtually at an end. The violent *rouges*—those blind and impetuous fanatics, with Gambetta at their head, who would continue the desolating struggle for a mistaken sentiment, regardless of the wails of the slaughtered people or the piteous appeals for peace of the famished peasantry—have been defeated by the voice of the populace, and a more moderate and considerate body of representatives returned to the Bordeaux National Assembly; men who will doubtless listen to reasonable terms of peace, knowing that to spurn them were to prolong a scourge of self-infliction. One despatch affirms that the 19th inst., is fixed for a triumphal entry into Paris; that the Emperor William will surmount the crowning pinnacle of triumph by dining in imperial splendor at the Tuileries; that the army will have its curiosity to see Paris gratified by marching through its most celebrated thoroughfares; that they will then take train for Germany, and train after train will follow in rapid succession until the conquering legions regain their homes beyond the Rhine. The Landwehr will be dispersed, but a few troops of the line will occupy the conquered Provinces and garrison their fortresses. Thus terminates the most marvellous and astounding campaign in the world's history. Never in any age or in any contest between nations has there been such an unbroken series of successes on the one side, such complete and unqualified humiliation on the other. And yet Prussia accepts it as a mere matter of course. The skilful forcing of the battle-ground into France at Woerth, the irresistible march through France, the occupation of Metz and Strasbourg, the entanglement and capture of McMahon and Bazaine with their proud hosts, the overthrow and imprisonment of the haughty Napoleon at Sedan, and even the fall of Paris, are regarded as but links in the great chain of events pre-conceived and planned in the mind of that mysterious strategist, Von Moltke.—What would Alexander the Great, or Cæsar, or Napoleon the First think to see one of the foremost military nations in the world prostrated and crushed by another, its monarch and 300,000 of its best blood in captivity, and the streets of its gay and beautiful capital resounding with the tread of hostile feet, in the short space of six months? France—especially Paris—had long enough been a den of luxurious vice, of open infidelity, and superstitious mockery of religion; and to Prussia has been entrusted the work of retribution. With the ambitious craft of Bismarck and almost superhuman sagacity of Moltke, she has performed it well. After her unparalleled reverses, her slaughtered thousands, her desolated hearths, her starving peasantry, her fair fields covered with blood and ashes instead of waving grain, France will rise purer and better—less inclined to aggression, and more disposed to the peaceful pursuits of life.

But there is another phase in which this change in the aspect of affairs in Europe may be viewed. Scarcely had the Papal chair crowned its career of presumption and arrogance by declaring itself infallible, when the war-cry resounded throughout Europe, and now its only remaining pillar of support lies shattered and humbled at the feet of Protestant Prussia.

Around Town.

The ice-men are still busy storing away their summer supplies.

Mr. Rous has put up a very handsome sign over his store, INTELLIGENCER Building.

'Pulverized hog' is the latest vulgarism for sausage.

Messrs. Carrier and French, who claim to be the champion double movement skaters, exhibit to-night at the Victoria Rink.

For cold in the head, which is at present very prevalent, the doctors recommend frequent bathing of the head in cold water.

A sure recipe for a headache is to go to bed in a room where a kerosene lamp is left burning. One who has tried it says so.

The work of clearing the snow from the foot-paths on the bridges has yet to be performed.

There were rumors of a 'Bachelor's Ball' being about to be given in fashionable society a short time ago. Has the idea been abandoned?

The number of visits to the Y. M. C. A. Free Reading Room during the month of January was about 1,200. The attendance still keeps up to the average.

Rain and snow alternated during the night and left a very pleasant blanketing of sodden snow to walk through. It was only done at the expense of wet feet in very many cases.

A young man, whose name is suppressed out of consideration for his misfortune, swallowed one of his false teeth while at supper last night.

There were several private 'quadrille parties' in Ontario Hall during the week. The 'mariners' of the port had a dance at the Western House a few nights ago.

A letter has been received from members of the DeWolf Hose Company, of Oswego, expressing the intention of that organization to visit our town on the 24th May. A warm reception awaits them should they carry out their present intention.

The County of Hastings Sabbath School Convention, which meets in Belleville on Tuesday and Wednesday next, will hold its day sessions in the Congregational Church and the evening meetings will be held in the M. E. Church. Dr. Palmer, of the Deaf and Dumb Institute, will conduct the musical services.

The mysterious announcement in our advertising columns during the last two weeks—'Thursday, February 23rd,' is to be a mystery no longer. The ladies of St. Andrew's Church will hold their annual Soiree in the Masonic Music Hall on the evening in question. This will probably be the last Soiree of the season, and it will no doubt be largely attended.

As the time for gardening operations approaches, the following is worth knowing: Wooden labels for plants to be inserted in the ground may, it is said, be preserved for an indefinite time by first diping them into a solution of one part copper, vitriol, and twenty-four parts water, and subsequently immersing in lime water, or solution of gypsum.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

SATURDAY, Feb. 18

FIGHTING.

Wm. Stillman and Francis Bradon, who had had a little dispute, and went to settle it in puglistic style in a yard off Front Street, were interrupted in their sport by the police, who brought them before the Magistrate. They were dismissed with a caution, this being their first offence.

LARCENY.

James and Ephraim Lindsay were charged with stealing a quantity of hay, the property of Joseph Guyette. The parties reside in Elzevir.

The prisoners pleaded 'Not Guilty,' and consented to a summary trial before the Magistrate.

Mr. Flint appeared for the prosecution and Mr. Burdett for the defence.

A good deal of evidence was taken, respecting the rights of the respective parties to the hay in question, after which the case was adjourned until Thursday next.

Manitoba News.

We have papers and letters from Manitoba to the 28th January, from which we obtain the following information:

Arrangements are in progress by which telegraphic communication between Fort Garry and Canada will be obtained by September next.

Preparations for building an Academy in Kildonan were being made. It is to be 80 x 50 feet, and to cost about $2,500.

The meeting of the Manitoba Parliament is further postponed till the 16th February.

The *Manitoban* of the 28th says: Weather cold but fine. A good deal of snow has fallen lately.

Servant girls are scarcer than diamonds in Manitoba. Most of the clever, good-looking ones are getting married, and setting up house-keeping on their own account.

The *Manitoban* says: The largest mail arriving this winter, came in on Thursday last, when our hard worked Postmaster was astonished to receive some twenty bags, great and small.

A Lodge of Good Templars had been organized under a charter from the Canadian Grand Lodge. The *News Letter* says: "It opens under most favorable auspices, a large number of civilians and volunteers having signified their intention of joining it."

The Province of Manitoba has been divided into four Electoral Divisions to be known as Lisgar, Selkirk, Marquette and Provencher.

The *News Letter* contains notice for application for an Act to incorporate the International Railway Company, from some point on the Grand Trunk Railway to Sault Ste. Marie, with power to cross the river either by bridge or otherwise; and from Pembina (via Fort Garry) to the boundary line between Rupert's Land and British Columbia.

Also a notice for an Act to incorporate a Company under the name of the " Winnipeg and Hudson's Bay Navigation Company," for the improvement of the navigation of the chain of waters between Fort Garry and Hudson's Bay, by way of Lake Winnipeg and Nelson River or Hayes River, and for other purposes connected therewith.

The writs for the Commons elections had not been received at Fort Garry, although looked for every day.

Dominion Parliament.

HOUSE OF COMMONS.

FRIDAY, Feb. 17.

The Speaker took the chair at 3.15. After routine business, Sir Francis Hincks laid the statement of the Public Accounts for the year 1870 before the House.

Several motions were made for correspondence on the subject of the Grand Trunk, Manitoba, the Intercolonial Railway, and British Columbia.

In reply to the Hon. Mr. Holton's motion for the statement of the American silver withdrawn from circulation through the action of the Government, Sir Francis Hincks entered into a detailed scheme, which had been found to work very well.

Hon. Mr. Holton said his motion was not intended as an attack upon the Finance Minister, as he believed his scheme had met the approval of the House and country.

Mr. Dufrense and Sir A. T. Galt also congratulated the Finance Minister on his scheme.

Sir A. T. Galt moved for the correspondence between the Dominion and Imperial Governments on the fishery question. He thought the matter an important one, and that the House should have full information.

Sir John A. Macdonald agreed with Sir A. T. Galt and said he would have the correspondence brought down as soon as possible.

The principal feature of the debate was the announcement made by the Minister of Militia relative to the question of defence.

Sir A. T. Galt, in a very moderate speech, explained that as some uneasiness existed throughout the country in connection with this matter it would be well for the government to inform the House what was the exact condition of the arrangement made with Great Britain as to the defence of this country, and to furnish any dispatches connected with the subject and the Hon. Mr. Campbell's mission to England.

Sir George Cartier explained that the arrangement made with the Imperial Government in 1865, at the time of the union was still in force, and that nothing has occurred to upset or change that arrangement. It is understood that the dispatches in reference to this question, together with the report of Mr. Campbell's mission will tend very much to allay all uneasiness on this subject.

The usual special committees were appointed.

The announcement was made of the appointment of the Hon. Mr. Howe in the room of the Hon. Wm. McDougall, to act with Mr. Speaker, as Commissioner respecting the internal economy of the House.

The House adjourned at 5 o'clock.

The Timber Trade of New Brunswick.

We take the following facts and figures relating to the timber trade of New Brunswick, from the St. John *Telegraph*. They are most interesting, and show that the trade of the Province in this important and valuable branch, is in a flourishing condition, and rapidly increasing, notwithstanding the havoc that has been made in the forests by the woodman's axe during the many years which have elapsed since the timber trade began:—

In 1870, the shipments of wood from this port to Great Britain were carried in 261 ships of 182,836 tons, against 262 ships of 184,672 tons in 1869, and 308 ships of 233,157 tons in 1868. Birch timber shows a falling off in shipment of 1,809 tons, and pine 2,136 tons. The falling short in shipment of deals to Liverpool amounts to ten million superficial feet, which has been made up of an increased quantity, principally to Ireland. London shows a falling off amounting to fourteen millions—as compared with 1868—although there is a slight increase over the quantity in 1869. No shipments have been made to Hull—to which port, in times past, we exported largely; but the cheap cost and small freights from the Baltic, interfere materially with our spruce trade, especially in London and on the East Coast.

The statistics of shipments from St. John to all ports are thus given by Messrs. Cudlip & Snider:

	1870.	1869.
Sawn Lumber, Spruce and Pine, sup'l feet	238,717,770	213,236,400
Palings, pcs	3,630,000	3,306,000
Laths "	108,636,000	95,809,000
Sugar Box Shooks-Boxes	977,956	1,011,128

Besides, shingles, clapboards, railway sleepers, spruce poles, and other wood goods. The above shipments of sawn lumber have been divided as follows:

	1870.	1869.
Great Britain	148,961,000	143,149,000
United States	65,892,976	49,180,698
Spanish West Indies	12,393,395	6,926,873
British West Indies	1,349,433	2,735,027
River Platte	5,293,612	6,639,526
Valparaiso	1,717,268	2,340,411
Teneriffe	1,254,149	959,284
Other Foreign Ports	1,855,937	525,672
	238,717,770	213,255,490

One of the most striking feature in these statistics is the interesting fact that shipments of sawn lumber to the United States have in 1870, been in excess of those of 1869, by nearly seventeen millions superficial feet. The increase is made of spruce, the shipments of aroostook pine being only one million superficial feet larger in 1870 than 1869: whereas the spruce amounts to 31 million feet in 1870, against 15 million feet in 1869. The pine, being grown in the state of Maine, goes in duty free, the spruce being Provincial, pays a duty of 20 per cent. The prices received, however, have given an impetus to further exports in the same direction, not only of spruce boards, but of laths, palings, shingles, clapboards, and spruce logs for piles.

A True Hero.

(*From the Toronto Telegraph.*)

" David Simmons was the engineer of a Pacific express train. He was a true man. For twenty years he held a place on an engine. Years ago, while dashing past Yonkers, Simmons called the attention of his fireman to a train which was sweeping down upon them like the wind. A collision seemed inevitable. The frightened fireman shouted 'Good-bye, Dave, I'm going to jump,' and sprang from the locomotive. Simmons stood with his hand on the throttle of his engine like a man of iron. In the face of startling peril he remembered his duty and stood at his post. A collision was averted, and the heroic engineer saved the lives of a hundred men. On Monday night last this same David Simmons was driving his engine towards Albany at the rate of forty miles an hour. Near New Hamburg, a red light was swung out as from an approaching train. David saw it and knew that it was the signal of danger. His fireman again took the alarm and shouted to Simmons to leap for life. The noble Simmons calmly answered, 'I won't, I'll stay with my engine.' Again he stood like a man of iron at his post. The fireman sprang and saved his life. The engineer saw a train on the bridge. He realized that his only hope of safety was to dash through the obstruction. He whistled off the brakes and crowded on all steam. This was the work of an instant. Simmons peered into the darkness shading his eyes with his hand, and was dashed into the jaws of death."

This is the story of the man whose fate, though sad, was the only bright spot in the late terrible catastrophe on the Hudson River Railroad. There can be no mistake about it—David Simmons was a hero, and a nobler one we have not had for many a long day. We have had many heroes of late—men who have gone up to the cannon's mouth for their country's sake, or rushed almost " into the mouth of Hell," to save a bleeding comrade—and the world dazzled by the romance and splendor of the campaign, has heaped honors on them with an unsparing hand. Of course, they deserved it. It was their misfortune—not their fault—that they should be engaged in the trade of destroying life. They never hankered after the German Rhine or the French Seine; they never abused Napoleon, nor were rude to German Majesty in the Kurgarten at Ems; they never crossed De Gramont's path, or disparaged Von Moltke's strategy—the war was none of their making—therefore, their heroism deserves acknowledgement, and their valor praise. But while we gaze with admiration at individual bravery in the field, we ought not to forget, that every day, there are going on at our doors, self-sacrifices more noble, more admirable and more glorious than any which the history of war can furnish.

There is not a man in the victorious German army, or in the desperate forces of France, who has deserved better of mankind than David Simmons, whose name will probably be forgotten by all—except the sorrowing widow and the fatherless children—when his mangled body enters its narrow home. He was a man of peace, and unacquainted with strife, but will any one say that in clinging to the throttle of his engine, while it hurtled through the darkness with its human freight on the way to a depot beyond the grave, he did not exhibit a heroism that was matchless, and a devotion to the duties of his calling which no man civilian—could exceed? Circumstances, however, alter cases. Had David Simmons gone to his death at the head of a company, or a brigade of armed men, instead of in front of seven or eight car-loads of harmless travellers—had he offered up his life to save an army, and not an express train, the world would have paid common homage to his memory, and would not say—as it says now—" He only did his duty"—cold-blooded and uncharitable verdict. Moreover, the man who falls doing a deed of glory in battle, has a consolation often denied to him whose ghost goes up with the accomplishment of one of the victories of peace. The former, when he rushes into the breach, is in a manner prepared for death—knowing that every bullet has its billet, and that the golden rule of his occupation is either to kill or to be killed. It was not so with David Simmons. He left home to do a day's work that would add—instead of, as in the case of the soldier, detract from—the comfort and prosperity of his fellow men. His grimy hands were held terribly responsible for the lives of hundreds. It was not their part to pull a trigger or wield a bayonet, and destroy life scientifically. His duty required sleepless vigilance, and there was danger in it; but, not a soldier's danger, which makes the stoniest-hearted man soften, and commune betimes with his God. Therefore, when David Simmons made up his mind to " go with his engine," and let neither life, wife nor family stand in the way of his duty, he had little chance of dwelling long on the sudden prospect of eternity. He might'nt have been a saint—we know nothing of that—at the particular moment when he was dashed to pieces; but it may be said of him, as was said of Jim Bludso:—

> He weren't no saint—but at judgment
> I'd run my chance with Jim,
> 'Longside of some pious gentlemen
> That wouldn't shook hands with him.
> He seen his duty, a dead sure thing—
> And went for it thar and then;
> And Christ ain't agoin' to be too hard
> On a man that died for men.

While, therefore, we pay deserved honor to, and respect the profession of, the man who says—' I'll go first into the breach,' and falls; let us keep green the memory, and think well of the calling of him who says—' I'll go with my engine,' and is destroyed—a martyr to his duty.

TENDERS.

TENDERS will be received by the undersigned until noon SATURDAY, 4th of MARCH next, for the erection of a Brick School House in the Village of Milltown, Tyendinaga. Plans and Specifications may be seen at the office of John Forin, Belleville, until the 25th of February inst.; after that date at my office, Milltown. Not bound to accept the lowest or any tender.

Midnight Despatches.

LONDON, Feb. 17—It is reported that the German terms of peace have been considerably modified, and instead of the heavy demands—so humiliating to France—of a French colony and fleet, what is now required is the cession of Alsace and Lorraine and a portion of the department of Doubs, an indemnity of one and a half millions of thalers, and the Prussians to keep all material of war they have captured

LONDON, Feb. 17—In the House of Commons to-night Viscount Enfield replying to a question repeated the statement that the Anglo-American Commission was not authorized to settle the difficulties between the two countries; their mission was simply to determine the mode of adjustment. If the mixed commission preferred, the British claims would also be submitted.

Mr. Auberon Herbert moved a resolve that in the opinion of the House it is the duty of the neutral powers to interpose to procure such moderate terms of peace as may restore tranquility to Europe, and independence to France. The resolve was opposed as inopportune and impolitic.

Messrs. Peel and Fawcett, while they partially sustained the Government, could not help feeling that England's position was one of selfish isolation. Prussia was already contemptuous in her tone towards her. England's philanthropy was the only redeeming feature. The debate became general.

Sir Henry Bulwer said there was mischief in the resolve, for it would irritate Prussia.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 18—The pervading tone of debate in the House of Commons last night was that England's hesitancy had lost the respect of the belligerents and invited an early war for her own existence. Mr. Gladstone recapitulated the negotiations at St. Petersburgh, which he said had been fruitlessly made to depend on Lord Lyons' withdrawal. He, Gladstone, believed that magnanimity on the part of the Germans would benefit not only France and Europe, but Germany itself.

The subject here dropped, and a discussion ensued upon the naval administration, during which Mr. Gladstone again addressed the House in defence of the Admiralty, asserting that during Mr. Childers' administration nearly three millions of taxes were saved to the country, whose maritime supremacy was at the same time assured.

BORDEAUX, Feb. 18.—Immediately after a vote in the Assembly yesterday, the English, Austrian and Italian Ambassadors, officially visited Thiers and recognized the French Government.

News Condensed.

—It is thought that the present session of the Dominion Parliament will not be a long one.

—The marriage of the Princess Louise has been fixed for Tuesday, March 21.

—Mr. A. T. Stewart is sending five thousand barrels of flour to the suffering people of France.

—Clergymen are said to be like locomotives, because you must 'look out for them when the bell rings."

—California is building horse cars on a new plan, the horse covered by the roof.

—It is stated that engineers have been sent to Sedan with orders to strengthen and extend the fortifications of the place.

—The London Conference has been again postponed in order to allow France to be represented.

—Louis Blanc is preparing a history of the seige of Paris, the incidents of which he follows with the closest attention.

—Additional meetings have been held in the County of Frontenac, urging the County to vote $150,000 to the Kingston and Pembroke Railway.

—In describing a new organ, a rural editor says: The swell died away in a delicious suffocation, like one singing a sweet song under the bedclothes.

—A Yankee who had just come from Florence being asked what he had seen and admired, and whether he was not in rapture with the Venus de Medici, replied, 'Well to tell the truth, I don't care much about these stone gals.'

—A Western journal recently published this extraordinary notice: "Married at the residence of the bride's father, by the Rev. A. M. Lyons, John P. Ellis, Esq., all of this city." This is what is called, in euchre, going it alone.

YOUNG MEN'S CHRISTIAN ASSOCIATION.
Prayer Meeting in Rooms at 9 a. m.

An eccentric minister, in a large parish had seventeen couples to marry at once in a grand common service at church. In the course of the weddings he asked one of the men to pledge himself to the wrong woman. The man naturally protested, but was told 'Hold your tongue! I will mary you all now and here; you can sort yourselves going home.'

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 137-m-Th.

BELLEVILLE MARKETS

INTELLIGENCER OFFICE,
Belleville, February 18, 1871.

The cause of the very limited attendance on the market this morning was no doubt directly chargeable to the weather. In consequence of the small supply, prices were exceptionally high butter selling at 22c, eggs 20c to 25c, and other articles in proportion. These rates we do not quote, as they would form no guide for future operations.

On visiting the wood market our reporter found it graced with a solitary load, about which there did not seem to be much competition.

SPRING WHEAT—$1 30 to 1 35
BARLEY—60c to 00c.
RYE—80c.
OATS—55c
PEAS—70 to 75c.
BEEF—$4 50 to $5 00
PORK—$6 00 to $7 75.
MUTTON—5c to 6c per pound.
LAMB—5c to 6c per lb.
VEAL—6c. to 0c.
HAMS—11c to 12½c.
BUTTER—Tub 17c to 18c.
BUTTER—Roll, 17 to 20
EGGS—17 to 20c
HIDES—$7 00 to $8 00.
SHEEPSKINS—25c to 1 20c
TALLOW, rough—8c
LARD—10 to 11c.
POTATOES—30c. to 40c.
APPLES—40c to 60c.
DRIED APPLES—1 00 to 1 40.
HAY—$10 00 to $14.00
CHEESE—10c to 12c.
FLOUR—Wholesale, $6 00 to [illegible] 75 per [illegible]
FLOUR—Retail, $7 00 to [illegible] per bbl.
POTASH—$5 00.
GEESE—30 to 60c.
CHICKENS, per pair—25c to [illegible]
ONIONS—$2 00 per bushel.
WOOD—$2 50 to $4 00 per cord.

Government Securities—Canada fives have sold this week at 97, and sixes at 106; there are now no sellers. For Dominion Stock Bonds 111 is freely offered.

CANADA
LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.
A. G. RAMSAY,
January 25th, 1871. Manager.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.
PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Persons afflicted, however slightly, with any weakness of the chest or throat, involving either the Larynx, Trachea, Bronchial Tubes, or the Lungs themselves, should on the first symptom commence with FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES, as by its uses diseases of those organs are speedily cured, and more alarming symptoms prevented.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.
C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.
Rev. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.
T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.
HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.
SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.
Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."
51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.
Be sure and call for
"MRS. WINSLOW'S SOOTHING SYRUP,"
Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by th Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for
MRS. WINSLOW'S SOOTHING SYRUP.
Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed, and for sale at the *Intelligencer Office*

Profit of Goats.

Robert W. Scott, of Franklin County, Ky., writes to the *Observer and Reporter*, (Lexington) a long letter in regard to goat raising in the State. In its course he says: "I have a flock of nearly 200 head of Cashmere or Angora goats, produced by crossing the pure-bred Angora bucks with the native or common females, now deep enough in the blood to produce wool long enough to be shorn and manufactured. This flock has cost me almost nothing; the sales which have been made and the meat and skins of the males and wethers from the flock from time to time in the course of production having remunerated all expenses. I have recently received the account of sale of my goats' wool at 85 cents per pound. To produce this wool cost me no more per pound than to produce the wool of my 'improved Kentucky' sheep, and yet 37 cents per pound was the best offer I could get for my sheep's wool in Kentucky. Both the goat's wool and the sheep's wool were shorn and handled alike, yet one produced 85 cents and the other 35 cents per pound.

Dr Lloyd, of Ohio, says he has no hesitancy in saying that by the use of Allen's Lung Balsam, he is now alive and enjoying health.

Dr. Wooly, of Silver Lake, Indiana, says he has used Allen's Lung Balsam in his practice extensively, and is satisfied there is no qetter Cough or Lung Medicine in use.

Adam Walker, of Tavistock, Ont., writes: After trying many cough and lung remedies for a severe cold which he had suffered with for three years, used Allen's Lung Balsam and was cured.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

SIR JOHN A. MACDONALD still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrensic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

THOMAS WILSON,
BAKER & CONFECTIONER,

(SUCCESSOR TO JOHN WILSON.)

RESPECTFULLY announces that he has purchased the business of the late John Wilson, and purposes carrying it on in all its branches in the old stand

Belleville, July 26th, 1970. d72w24tf

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION.—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; *four copies for $5; ten copies for $12; twenty or more,* $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system. Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands, Womb, or Urinary difficulties, will experience a marked change in her hours for the better when taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to aid each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills** and **Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than 20 dollars.

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered.

JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5.00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey,* is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fulness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this ***SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,*** and other eruptions or visible forms of ***Scrofulous*** disease. Also in the more concealed forms, as ***Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,*** and the various ***Ulcerous*** affections of the muscular and nervous systems.

Syphilis or ***Venereal*** and ***Mercurial Diseases*** are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. ***Leucorrhœa*** or ***Whites, Uterine Ulcerations,*** and ***Female Diseases,*** are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. ***Rheumatism*** and ***Gout,*** when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also ***Liver Complaints, Torpidity, Congestion*** or ***Inflammation*** of the ***Liver,*** and ***Jaundice,*** when arising, as they often do, from the rankling poisons in the blood. This ***SARSAPARILLA*** is a great restorer for the strength and vigor of the system. Those who are ***Languid*** and ***Listless, Despondent, Sleepless,*** and troubled with ***Nervous Apprehensions*** or ***Fears,*** or any of the affections symptomatic of ***Weakness,*** will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of ***Croup,*** it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled ***Consumption*** is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the ***Cherry Pectoral.*** So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the ***Cherry Pectoral*** they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the ***Cherry Pectoral*** in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the ***AGUE CURE*** daily.

For ***Liver Complaints,*** arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS' MUSICAL MONTHLY

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanics Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. address the Publishers

MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative,* (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack; Doctor prescribes Blue Pills or Calomel; next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse,*] the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly,* HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great fangs of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Billous Fever

In the world. There is no Ague Cure Cholagogue or preparation of Quinine, Arsenic, or [illegible] forms of Mercury, or, in fact, any remedy [illegible] will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-[illegible] with Quinine, Arsenic, Mercury, bottled in the [illegible] Cures and Private Practice, pay [illegible] gorged liver, fat spleen, disordered kidneys, [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Pills, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's Ready Relief,** diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, Kings, &c., all of **these remedies being but poor imitations of Radway's Ready Relief.**

One bottle of **Radway's Ready Relief,** for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom [illegible] sickness, and can be used for the same [illegible] as this would cost at least ($25) twenty-five dollars [illegible] to purchase prescriptions, or drugs every time pain sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE;

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills* and *Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacopia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medines, prepared on new principles, and *Pills* will cure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other.

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 384 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS

FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

FOR cheap printing go to "The Intelligencer" Office, Belleville.

Female Courtship.

Two or three looks when your swain wants a kiss,
Two or three noes when he bids you say yes,
Two or three smiles when you utter the no,
Two or three frowns if he offers to go;
Two or three speeches like "Ah, go away!"
Two or three times you must hold him to say;
Two or three letters when vows are begun,
Two or three quarrels before you have done;
Two or three pauses before you are won,
Two or three faintings to let him press on;
Two or three hems when the chaplain appears;
Two or three squeezes when the hand's given away,
Two or three coughs when you've come to obey;
Two or three courtsies when marriage is over,
Two or three honeys discovering your lover;
Two or three steps to the bridal-home run,
Two or three kisses though asked but for one;
Two or three lasses may have by these rhymes,
Two or three husbands, though hard are the times.

Confederation Accomplished.

The Victoria (V. I.) *Colonist* has the following:—"'Tis done. The great transaction's done. The Legislature has unanimously accepted the terms of union and passed an address to the Queen praying that British Columbia may be admitted into the Dominion of Canada, in accordance with the provisions of the British North America Act 1867. It only remains for the Dominion Parliament to pass a similar address, and for the Queen to issue an Order in Council, and the whole thing will be complete—the keystone will have been placed in the great British American Empire. There is every reason to believe that the 1st of July next, Dominion Day, has been selected for the final ceremony. Our Legislature, yesterday, presented a strange study. Just think of it. A Legislature created, we might say, for the express purpose of deciding the great question of Confederation giving an unanimous vote in silence, save only what was said by the mover and seconder! Where was the 'No terminus, No Confederation' cry? Where was the member of the Victoria District, with his thousand and one objections? There he sat, mute as an oyster. Not a word had he to say. He did not dare to object, and compliment he would not. We could have wished that, upon a measure of such profound importance, the representative members had not given a silent vote. A little opposition would have been preferable to a silence which was scarcely becoming. However, the great point is attained, and we suppose we must not be too fastidious about the manner of it. We congratulate the Governor, the Delegates and the country upon the result."

Tile in the Orchard.

Speaking of draining orchards by means of tile, a writer in the *Country Gentleman* says:—"My experience with two inch sole tile, in the orchard, has been that fibrous roots of the trees, within three years, would enter the joint and fill and clog the bore so completely as to defeat the whole object contemplated. In examining tile that was three feet below the surface, I pulled out sections of matter composed mainly of fibrous roots, which perfectly barred the water, and which so startled Patrick as to cause him to drop his spade and exclaim, 'By my sowl! What kind of a snake is that, and how came his hide off?' On the whole, I have come to the conclusion that the least objectionable kind of drain for an orchard of bearing trees, which fills the entire ground with roots, is the old-fashioned blind drain, well secured at the top by small stones and such other material as will prevent the earth over the drain from breaking through."

—'I have this afternoon been preaching to a congregation of asses,' said a conceited young parson. 'Then that was the reason you called them beloved brethren,' replied a strong-minded lady.

—A Western editor, in announcing the demise of his paper, says: 'The brilliancy of our career has only been equalled by its brevity, and the lack of business management has only been excelled by the lack of business itself.'

Aristocratic doctor to poor patient—'Do you *expectorate much*, my good woman?' 'Och, now, docthur, don't be afthur tazin me,' answered the patient. 'How could the loikes o' me *expect to ate much*? Me, that hasn't touched a morsel these two days?'

A darkey's account of a sermon: 'Well, sahs, de sermon was upon de miracles of de loaves and de fishes. De minister said how de seven thousand loaves and de five thousand fishes divided between de twelve apostles, and de miracle was dat dey didn't bust!'

A gentleman observing a servant girl, who was left-handed, placing the knives and forks on the dinner table in the same awkward position, remarked to her that she was laying them left-handed. 'Oh, indade!' said she; 'so I have. Be pleased sir, to help me to turn the table round.'

It has been said there are two reasons why some people don't mind their own business—one being a lack of business, the other "absence of mind." There are several "absent minded" people hereabouts, judging from their disposition to poke their noses into other people's business.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 187-m-Th.

Funeral of Sir William Verner, Bart.

From the Belfast News Letter Jan. 28.

Yesterday, the remains of this much-lamented gentleman were interred in the family vault, Loughgall, County Armagh, and were accompanied to their last resting place by one of the largest assemblages ever seen in that part of the country. As already announced, the remains arrived here on Thursday morning, and were deposited in the Parish Church, whence they were removed about eight o'clock yesterday morning, and conveyed to the Ulster Railway Station, *en route* for Armagh. Notwithstanding the early hour, a very considerable number attended, and followed the hearse from the church to the railway station.

On arrival at the station the coffin was placed in a carriage reserved for the purpose and conveyed to Armagh by the nine o'clock train. At the several stations along the line, and especially at Lurgan, Portadown, and Richhill, there was a large accession of persons of all ranks anxious to pay the last tribute of respect to the memory of the deceased baronet. On arriving at Armagh an immense number of the clergy, gentry, and other inhabitants of the district were in waiting to take part in the funeral obsequies, and as soon as the arrangements could be made the *cortege* moved from the station towards Loughgall. The extent of the *cortege*, and the classes of which it was composed, formed the subject of frequent observation. At the station there could not have been fewer than seven thousand, which was argumented considerably as the remains were conveyed to their destination, so there could not have been fewer than ten thousand persons present by the time Loughgall was reached. Though, as might be expected, the majority of those in the procession were Orangemen, all creeds and classes were fairly represented; and perhaps, the best testimony to the excellence of the life of the deceased was to be found in the variety of opinion represented at his funeral. While the clergy and gentry turned out in large numbers, the masses of the people assembled in their thousands, and all minor differences were forgotten in a common sorrow. Carriages and other vehicles to the number of about 150 followed the hearse, which was preceded by a large array of the Orangemen of the county, arranged according to districts, and marching two deep, wearing their sashes and other insignia of the Order. The procession which was more than two miles in lehgth, was marshalled as follows:—

PALL BEARERS.		PALL BEARERS.
Lord Lurgan, K. P.	THE HEARSE	Sir James M. Stronge, Bart., M. P.
Sir C. Molyneux, Bart.		Sir John M. Stewart, Bart.
J. Y. Burges, Esq. D., L.		Hon. Col. Knox, M.P.
Col. Pakenham, Gren. Guards.		A. H. Pakenham, Esq., J. P.
Maxwell C. Close, Esq., D. L.		John R. Irwin, Esq., J. P.
Stewart Blacker, Esq.		Joseph Atkinson, Esq., D. L.
Lieut.-Col. Cross, J.P.		Col. Simpson, J. P.
Parker G. Synnott, Esq., J. P.		Major Burleigh Stewart.
Charles Sandes, Esq., London.		

CHIEF MOURNERS.—Sir William Verner, Bart., M. P.; Edward Wingfield Verner, Esq., M. P.; Colonel W. J. Verner, W. W. Verner, Esq.; Rev. Charles Crossle, Rector of Killycluny; and James Crossle, Esq.

The funeral procession left Armagh shortly after eleven o'clock, and reached Loughgall about half-past one. Large numbers assembled at intervals along the line of route to witness the *cortege*. General astonishment was manifested at its vast extent. It is gratifying to have to observe that the utmost order and decorum were observed throughout, and that from first to last not a single disorderly or drunken person was seen. The stewards of the lodges were stationed along the whole line, at about one hundred yards apart, for the purpose of maintaining order, which they did most effectually.

On approaching Loughgall Church, the Orangemen double-filed along the road, and the hearse passed up the centre to the entrance of the sacred edifice. The coffin was then lifted from the hearse and conveyed into the church by the District Masters. The pulpit, reading-desk, and other portions of the desk were draped in black. The coffin having been deposited in front of the altar, the Rev. Jonathan R. Chomley, the rector of the parish, read the first portion of the Burial Service, and "The Dead March in Saul" was beautifully played on the organ by a lady of the country. The coffin was then removed and carried to the family burial-ground, which is situated a short distance from the church. Rev. Mr. Chomley then read the concluding portion of the service, after which the coffin was lowered into its last resting-place, and the vault closed on all that is mortal of one who was a true patriot, a faithful Protestant, and a worthy pillar of the Orange Institution.

The family vault is interesting from its associations. Among those interred in it, as we learn from the inscriptions which are decipherable, are Captain John Verner, brother of the late baronet, who died 23rd November, 1814; and his father and mother—James Verner, who died 6th Dec. 1822; and Grace Verner, who died 26th August, 1827, both aged 76 years.

After the interment, the Orangemen testified their esteem for the memory of the departed baronet in the manner peculiar to to the Order. The brethren then departed to their respective districts in a quiet and orderly manner, after having, with becoming solemnity, paid their last tribute of respect to the memory of their old and honored leader.

When the remains were being removed from the Parish Church of this town, yesterday morning, the bell was tolled. A similar mark of respect was paid to the memory of the deceased by the tolling of the Cathedral bell in Armagh and the bell at Loughgall Church.

POPULAR MISTAKES.—That editors keep public reading rooms. That they have plenty of time to talk to everybody. That they are delighted to get anything to fill up the paper. That they have plenty of time to correct bad manuscripts. That they should "puff" everybody for nothing. That they must have no opinion of their own. That they should know everything, whether they are informed of it or not. That they have plenty of money. That they should "notice" every scalawag show that travels. That they should have news, whether there is any or not. That they should print every man's name who attends a dog fight.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.

GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m.	6:20 a m.
Stirling, Marmora, Harold, &c.	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c.	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c.	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Rednerville, &c., every Tuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, MONDAY, FEB. 20.

POLICE COURT.—Another day without any business for the Magistrate.

ACCIDENT.—This forenoon, at the Grand Trunk Station, one of the Brockville enginemen, named Bramley, had one of his feet crushed by a locomotive running over it. His injuries were promptly attended to by Dr. Burdett, and the man is doing well.

RUNAWAY.—This morning, a team of horses, dragging after them the tongue of a sleigh, the body of which had evidently been left behind, rushed down Front Street. Efforts were made to stop them, but without avail, they continuing their headlong course to the market place, which they crossed and continued on down Pinnacle Street. The horses belonged to Mr. Mallory, of Sidney.

GARRISON BATTERIES.—A rumor prevails in Ottawa military circles that it is the intention of the Dominion Government to establish two regular batteries of Garrison Artillery to be stationed, one at Quebec and the other at Kingston. This will be kept up as a standing force under command of an experienced officer of the Imperial service. It is thought that in a year or two trained instructors can be educated in these batteries to take the place of those who have returned to England with the remainder of the regular troops.

SKATING.—The skating exhibition given by Messrs Carrier and French in the Victoria Skating Rink on Saturday night, was attended by a large audience. The ice was in good condition, and the performance was quite up to the expectations formed of it. The double movements were executed with beautiful precision, evincing long and careful practice, while Mr. Carrier was particularly good in his waltzes, &c. The music of the band contributed much to the general enjoyment.

SABBATH SCHOOL CONVENTION.—The second annual meeting of the County of Hastings Sabbath School Association takes place to morrow at 2 p. m., in the Congregational Church, and will be continued on the following day. We hope to see a large attendance of delegates from this county and from Prince Edward, as the experience gained at these annual gatherings is of much advantage to Sabbath School teachers. The public ought also to attend. Collections will be taken up at the evening meetings, which will be held in the M. E Church.

MAD DOG.—Quite an excitement was occasioned in the vicinity of the market this morning by the appearance of a mad dog on the street. The animal, which appeared to be suffering from madness—the foam flying from its mouth—attacked Mr. M. Gillen, whose trousers it tore without wounding him, and Mr. Robert Bunting, who escaped with a hole in his boot, also unwounded. A young girl, an adopted daughter of Mr. Northcott, and a boy named Kyle, are reported to have been bitten by the infuriated animal at the station yesterday. Constable Snider put an end to the mad dog's career by shooting him in Levi Taylor's yard. Several dogs were bitten by the rabid canine, whose owners would do well to destroy them.

PERSONAL.—In respect for the memory of S. Bartlett, Esq., our late Police Magistrate, we have great pleasure in transcribing what follows from the St. John's *News*, P. Q., *apropos* of his daughter:—"On Tuesday, Febу. 7th, after the meeting of the Dunham literary Association, the leading people of the place stayed behind and presented Mrs. Emberson with a very handsome address, and still more handsome enclosure on the occasion of her leaving the town for Belleville, Ont. Thanks were offered for the artistic aid so freely given towards the village concerts and entertainments, and for the unexampled and unprecedented progress made by her numerous piano and singing pupils under her elaborate and painstaking tuition. The fact that she had fixed the morrow for her departure, was not generally known till that afternoon."

—San Francisco's new City Hall will cost $1,500,000.

—Mr. George Mackenzie, youngest son of the late William Lyon Mackenzie, was killed in Indiana lately by a railway accident.

—Sir John A. Macdonald, member of the High Commission, leaves for Washington on the 1st of March. Sir George E. Cartier will be leader in the House during his absence.

East Riding of Hastings.

In anticipation of a vacancy in the representation of the East Riding of this County in the Dominion Parliament, which does not yet exist, the Grits are considerably exercised in search of a candidate. Prominent men in the Riding who have no sympathy in common with these extremists, whose only claim and virtue is their cry of "party," have been sought out, and asked to offer themselves without pledge or test, but as they did not accept, others had to be found, and we are informed a meeting was held a few days since in the office of the Clerk of the Peace or in Coleman's Hall, to discuss the momentous question of who the man should be to contest the Riding in the interest of that party. Various names were suggested and the probability of their success earnestly discussed. The Hon. Lewis Wallbridge was urged, but declined. Dr. Hope was the favorite of some, but he also looked upon the attempt in the light of a forlorn hope and also said no. Mr. George E. Henderson, our informant tells us, was ready to sacrifice himself on the altar of his country, and enter the contest; but—another but—the assembled wisdom in that office said 'no!' He was not the man for Galway, and it was, after mature deliberation, consultation and interchange of opinion, decided to lay the consideration of the question over for future decision, and in the meantime encourage Mr. John White, Reeve of Tyendinaga, and Mr. Wellington Frizzel, of the same Township, who, rumor says, have been feeling their way in the Riding, to continue their candidature; and when too late for either to retire, spring a creature of their own upon the electors, and run him in between the two. Well, this policy may succeed. It does sometimes, but we are much mistaken if it is successful in this instance.

If Mr. Frizzel consents to be a candidate in case of an election, he will prove not only a strong man but a useful and intelligent representative. He is a man of more than ordinary ability, has had a good deal of experience in municipal matters, and what is of equal importance at the present moment, a man of liberal and moderate opinions, who is not at all likely to run to extremes; and much as the Grits may calculate upon Mr. White being a party to his defeat, they will find they count without their host. Mr. White is a rising young man, and has managed the affairs of his Township with a good deal of ability, but we are quite sure he will never lend himself to throw the Riding into the hands of men in whom he has no confidence. When the vacancy occurs, if it ever does, we shall be prepared to speak more pointedly.

To the Editor of the Daily Intelligencer.

The Gold Mines of Marmora.

DEAR SIR,—As I am frequently applied to by persons at a distance for information concerning the progress and prospects of mining here, and the same subject will certainly interest many of your readers, permit me, through your columns, to state in brief how the matter stands. As for mining in the true sense of that term, that is a business that is not yet begun in North Hastings, for all the attempts that have as yet been made here at mining, have been only explorations. But, notwithstanding the absence of practical skill, and that judgment that results from experience in most of those explorations, enough has been done to show clearly that we live in a rich mineral region. In a country so thinly inhabited, where so few excavations have been made, and which, during the summer months, is covered with a deep mantle of forest green, and in winter, wrapt in a winding sheet of snow, the work of mineral discoveries must be a work of time, and ages must elapse before thorough developments can be made, or even the true geological structure of the country understood. Here in Marmora, some American gentlemen have purchased mineral land, did a good deal of work last fall, and will resume operations next spring with force and energy. At the mine of Cook, Bros., & Co., mining is carried on upon a limited scale; whilst the Mill under the able superintendence of Mr. Jenkins is a complete success; and here at Malone your correspondent is endeavoring under great disadvantages to open up the veins on Powell's Hill. There are two distinct systems of veins here, which I have cut in a dozen different places (my deepest shaft at present being about 30 feet,) and find them everywhere charged with gold in paying quantities, but although we have two so-called quartz crushers in our immediate vicinity, neither of them is adapted to the work required, having been got up by men wholly ignorant of what they had undertaken. The companies who own these mills are at present our greatest stumbling blocks, for they will neither re-model the mills themselves, nor allow me to adapt them to their work, so that I am obliged to send my ores down to Cook's mill, a distance of six miles, at a cost of a dollar and a half per ton, hauling, and which can be done only in limited quantities. But even thus it pays its way, and leaves a mass of profit which shows clearly what might be done if we had a suitable crusher on the ground, and of sufficient power to work on a large scale, as it is only by working on a scale of magnitude that fortunes can be made out of mining. We have ground for hope, however, that this state of things will not continue much longer, as negotiations are now on foot by which the coming spring will open up with enlarged facilities for mining and milling, and in the meantime the people of North Hastings owe a debt of gratitude to the few persevering men who are fighting their battle at such fearful disadvantages, and by present sacrifices are opening up an important trade, that will certainly be a source of industrial wealth to Ontario in ages yet to come. No ores have as yet been discovered here equal to the rich chlorides of Colorado, but the number and extent of our veins of sulphurite are unlimited, and the fact that they occur in primary granite, forbids the probability of their ever being exhausted in depth, as there is no older rock underneath to cut them off.

W. H. PALMER,
Malone, Feb. 14th, 1871. M. E.

Rev. Mr. McPherson's congregation, Stratford, propose to erect a new church at a cost of $14,000 or $15,000.

—The late residence of Prince Arthur, Rosemount, the property of Sir John Rose, has been sold to Mr. Ogilvie for $200,000.

The Public Accounts.

We have received thus early a copy of the Public Accounts of the Dominion for the fiscal year ending June, 1870. The following is a summary of its contents:—

AUDIT OFFICE, Jan. 31, 1870.

To the Honourable Sir Francis Hincks, C. B. Finance Minister.

In the public accounts for the fiscal year 1869-1870, the Audit office have the honor to present you, there are some points to which your special attention should be drawn. This comparative table, which embraces all the business since Confederation, gives a very satisfactory result.

Receipts of the Consolidated Fund for 1867-68, 1869, and 1870, amount to $43,579,328. An increase of nearly a million dollars took place in each year.

The expenditure was, for the three years, $41,869,685, leaving a surplus from this fund of $1,709,643.

But in this expenditure of three years, is comprised the reserves for the Sinking Fund, which has reduced by as much the capital of our debt, viz: $25,709,605.

Thus in the three years the Government has been able to dispose of to reduce the debt, or to meet other expenes for capital account a surplus of revenue of $2,618,240.

There is another way of showing the developement of finances since confederation.

In July, 1867, the total assets of the three provinces were divided as follows:

Funded debt comprising deposits,	$86,488,486
Credits of the Provinces,	2,573,292
Sundries,	458,092
Bank Accounts,	3,526,179
Total,	$93,046,049
Less Sinking Fund and other investments,	5,785,782
Debts of the Provinces,	10,045,533
Cash on hand and in bank,	1,486,094
	$17,316,419
Nett Debt,	75,728,641

On the 1st of July, 1870, the total of the assets of the three Provinces was composed as follows:

Funded debts comprising deposits,	$107,395,637
Credits of Provinces,	6,224,159
Sundries,	137,801
Bank accounts,	2,242,108
Total,	$115,993,705
Less Sinking Fund, etc.,	$ 13,241,266
Debts of Provinces,	17,193,583
Sundries,	14,119
Cash on hand and in Bank,	7,337,995
State of the deduction,	37,783,964
Nett debt,	$ 78,209,742

In these three years, therefore, the augmentation of the nett debt has been $2,481,101, whilst the total expenses for the capital account, Public Works, Intercolonial Railway, and acquisition of the North-West Territory expenses, have risen to $4,759,335, leaving a disbursement of $2,278,234, which has been met by the revenue.

(Signed),
JOHN LANGTON,
Auditor.

Adam Walker, of Tavistock, Ont., writes: After trying many cough and lung remedies for a severe cold which he had suffered with for three years, used Allen's Lung Balsam and was cured.

For the Intelligencer.

Albert University.

Many of your readers will no doubt be gratified to learn that the application of our Senate to the Ontario Legislature for an enlargement of our powers has been completely successful; and that now we have University powers in the complete sense of the term, and are legally competent to organize Schools and Colleges, not only in Arts alone as heretofore, but also in all the Arts and Faculties, as Law, Medicine, Theology, Music, Agriculture, Engineering, &c., &c., as necessity may demand, expediency suggest, and our resources and the patriotism, liberality, and love of scientific culture among our friends may justify. The empowering clause of our charter as amended now reads: "The Senate may, after examination, confer the Degrees of Bachelor, Master and Doctor in the various Arts and Faculties, and such reasonable fees shall be charged to the candidates for examination for Degrees or for certificates of honor aforesaid, and shall be paid and applied as the Senate from time to time determine."

This likely will cover all the ground we may wish to occupy for some years to come. It will also open up the way for the organization of Schools in the different Faculties. Patriotic and enterprising gentlemen among us have for a long time been desiring something of this kind, and now we feel honored that the Legislature has entrusted us with this power. I believe the Senate of the University, and the Board of Managers of the College will be most happy to afford every possible facility. And as by another clause of our charter Professors of the chair in any of the Schools become members of the Senate *ex-officio*, there is every pledge of hearty cooperation and every guarantee of justice and equal right.

It would be ungrateful in me to conclude this letter without acknowledging our indebtedness to the members from the Counties adjacent to Belleville, and especially to K. Graham Esq., M.P.P., for the West Riding. He certainly was kind and faithful in every particular, and did everything in his power to advance the bill introduced at a late date through its various stages. I believe these gentlemen acted for the good of the country upon the whole, and with a keen eye for the prosperity of Belleville. And I certainly trust Belleville may continue to prosper, and that Albert University may have the honor of contributing to that prosperity, and to the growth and substantial good of our beloved land.

A. CARMAN.

Belleville, Feb. 18, 1871.

Satchel Found,

ON FRIDAY, the 17th instant, in Belleville. The owner can have it by proving property and paying for this advertisement.
Belleville, Feb. 20, 1871. 248:3t

TENDERS.

TENDERS will be received by the undersigned until noon SATURDAY, 4th of MARCH next, for the erection of a Brick School House in the Village of Milltown, Tyendinaga. Prospects of Peace.

Will France accept the German terms?

Opinion of the Parisian Press.

Treatment of Earl Granville's Note.

Prussia disposed to be moderate.

PARIS, Feb. 19.—Letters have been received from several Deputies now at Bordeaux, declaring that they desire peace, but if the conditions are exorbitant they will do their duty.

La France has reason to believe that Count Bismarck has communicated to M. Favre the German terms of peace, and that M. Favre has laid them before his colleagues. The French newspapers everywhere repel the idea of making any cession of territory.

La Liberte says that a durable peace on such a condition is impossible.

La Patrie thinks the prospects of peace are improving.

Le Peuple Francais says the pretensions put forward by the Duc d'Aumale and the Prince de Joinville, have created estrangement between them and the Count de Paris, the sole rightful claimant of the throne of France, and this may lead to a rupture unless powerful influences are exerted to prevent it.

LONDON, Feb. 19.—Bavaria asks for no territorial aggrandizement, and the intention of making the annexed French territory a distinct Province of the Empire has not been abandoned.

NEW YORK, Feb. 19. A despatch to the *Herald* from Versailles, dated to day, says:

"Not the slightest doubt is entertained in high quarters since M. Favre's return regarding a final peace. M. Favre expresses the opinion that the Assembly can be relied on to make terms. There is an evident disposition on the part of Prussia to yield a good deal of her demands, except on matters of territory and even this may undergo some modification.

"It is probable that the Emperor will abandon the idea of entering Paris and that the troops will quit Paris with all possible promptitude and evacuate France as soon as practicable after a sufficient guarantee has been given for the payment of £150,000,000 sterling."

A despatch to the *Herald* from Bordeaux, also dated to-day, says:—

"The people of Bordeaux generally are opposed to peace on the basis of the cession of territory, but it is said that a majority of the Ministry and the Assembly are resolved upon peace upon the best terms obtainable."

A London despatch to the *Herald*, dated to-day, says:—

"Considerable feeling is shown in diplomatic circles at the official announcement from Berlin of the refusal of the Prussian Government to receive officially the last letter of Earl Granville urging peace. The letter was addressed to Lord Loftus at Berlin, a copy of which was forwarded to Mr. Odo Russell at Versailles, and bears the date of Jan. 20th. After reciting the position of France and the willingness of the English Government to press its advice, which from its nature would be necessarily discouraging to the people defending their territory, who are the best judges of what their own honor and interests require. The letter continues: No such consideration applies to a frank communication to Germany, who, in the altitude of her power and the full tide of her victories, cannot fear a misconstruction of motive in endeavoring to bring about an end to the miseries occasioned by this great war. Up to this time no distinct intimation has been given of the demands of Germany, and her Majesty's Government does not assume to offer a suggestion about the terms, but believe that a declaration of its views by the Imperial Government would hasten a cessation of the horrors of war and the losses even of the victorious armies in France. When the letter was read in Berlin and to Count Bismarck, it in both cases met with an official refusal to receive it, accompanied by the vague announcement that Germany positively refuses to allow any interference by other powers in regard to the question of war or peace, which must be settled with France alone. Odo Russell, in his advices to Government, states that peace is absolutely certain, but that a revolutionary warlike movement in the South is probable."

The War in France.

Midnight Despatches.

Armistice Prolonged.

Napoleon Warned.

New French Ministry.

PARIS, Feb. 16, *via* LONDON, Feb. 18.—The national assembly consents to dismemberment. The Parisian delegation will protest and withdraw.

PARIS, Feb. 19.—It is said the armistice will be prolonged to the 1st of March.

BERLIN, Feb. 19.—Napoleon has received a notification not again to overstep the privileges of a prisoner, and to abstain from any interference in politics in the form of protests or proclamations. Orders have been given to watch him closely.

BORDEAUX, Feb. 19.—In the assembly to-day the formation of a new ministry was announced as follows: Jules Dufaure, Minister of Justice; Jules Favre, Minister of Foreign Affairs; Ernest Picard, Minister of the Interior; Jules Simon, Minister of Public Instruction; Felix Lambecht, Minister of Commerce; General Leflo, Minister of War; Admiral Potthuan, Minister of the Marine. The Minister of Finance was not named, though it is understood that he has been appointed and his name will be made public as soon as he arrives at Bordeaux.

Thiers will undertake the duties of no special ministry that he may the better apply himself to the superintendence of affairs in general.

American Despatches.

Safety of the "Tennessee."

Preparing for entry of King William.

Illness of Senator Sumner.

The Miners' Strike.

NEW YORK, Feb. 20.—The steamship North American, from Rio Janeiro, via St. Thomas has just arrived, and brings news of the safe arrival of the Tennessee at San Domingo.

The *Herald's* special dated Paris, 19th, says: The barricades and defences in the Avenue Imperatrice are being removed to put the Avenue in order for the entry of the Prussians, and to prevent a chance of collision on their entry.

WASHINGTON, Feb. 19.—Senator Sumner's physicians say that he will not be able to resume his duties in the Senate for four or five days, and that he ought not to do so this session.

NEW YORK, Feb. 20.—The Miners' Benevolent Association publish a statement of the cause which led to the suspension of operations in the coal mines. It is shown that at the commencement of the strike, the operators had a surplus stock of two million tons of coal on hand, and the subsequent rise of $3 a ton has netted the snug sum of four million dollars. The miners are ready to resume work, but the operators are not, owing to the market being overstocked, the chief object being to lessen the supply and advance the prices still higher, and afterwards attach the blame to the miners for all the outrage as practised by themselves, and thereby denounce them before the public, for the sole purpose of strengthening their combination.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

BORDEAUX, Feb. 19—In the National Assembly to-day, Thiers delivered a speech in his capacity of Chief Executive of the French Republic. He dwelt upon the distress and suffering which had been caused by the war and the German invasion, and upon the necessity of peace. Nevertheless, he said, the terms of peace would be courageously discussed with the prisoners, and would only be accepted if consistent with the honor of France. The task of the administration is to pacify and reorganize the country, restore its credit and reorganize its labor. When this is accomplished, the country itself will decide its destinies.

The Assembly subsequently adopted a proposal made by the government to send a commission of five Deputies to Paris to act as intermediate between the negotiations of the Assembly.

M. Thiers proposed that the Assembly suspend its sittings during the negotiations.

Thiers, Pickard and Favre, left for Paris this morning.

LONDON, Feb. 20.—All the British members to the high commission are now on their way to the United States. Sir Stafford H. Northcote sailed from Liverpool on Saturday in the steamship 'Russia' for New York.

BURNS and BRUISES, PAIN-KILLER affords immediate relief. It soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Persons afflicted, however slightly, with any weakness of the chest or throat, involving either the Larynx, Trachea, Bronchial Tubes, or the Lungs themselves, should on the first symptom commence with FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES, as by its uses diseases of those organs are speedily cured, and more alarming symptoms prevented.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by th Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

CANADA
LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

Belleville, Feb. 11, 1871. 1w2t 241d6t

Adam Walker, of Tavistock, Ont., writes: After trying many cough and lung remedies for a severe cold which he had suffered with for three years, used Allen's Lung Balsam and was cured.

A LARGE VOLUME would not contain the mass of testimony which has accumulated in favor of *Dr. Wistar's Balsam of Wild Cherry* as a safe, efficient and reliable remedy in curing coughs, colds, and pulmonary disease. Many of the cures are truly wonderful.

"TIRED NATURE'S SWEET RESTORER, BALMY SLEEP."—But there are times when this "Renewer of Strength" is denied us, times when our minds and bodies have been so overworked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (an Iron Tonic), renews our strength and makes our rest sweet and refreshing.

SIR JOHN A. MACDONALD still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrensic worth, his reputation is fixed and effulgent like that of the Great Shoneese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

THOMAS WILSON,
BAKER & CONFECTIONER,
(SUCCESSOR TO JOHN WILSON,)

RESPECTFULLY announces that he has purchased the business of the late John Wilson, and purposes carrying it on in all its branches in the old stand

THE BAKERY

Belleville, July 26th, 1970. d72w24tf

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior. In point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature.

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S SARSAPARILLIAN RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted.
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands, Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctoring for nine years, and cured at a cost of less than six dollars.

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills.** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats, Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOK contain *fourteen* each year superior (we challenge comparison) to any published in this country either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	[illegible]
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA,

Carratraca Mineral Waters,
FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskillful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile.
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid and Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS'

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL
MONTHLY

$60 for $3.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekl report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanica Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS,"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration, Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied as *alterative,* (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse,*] the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly,* HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure Cholagogue or preparation of Quinine, Arsenic, or the [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from overdosing with Quinine, Arsenic, Mercury, [illegible] Cures and Private Practice [illegible] gorged liver, fat spleen, disordered kidneys, [illegible] colored skin, and hundreds of other symptoms [illegible] distress. These agents never cure, but another the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, [illegible] Bilious Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other [illegible] that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirits will give you equal in quantity, and superior in [illegible] 144 bottles of the 25 cent Pain Remedies, [illegible] Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of **Radway's Ready Relief,** [illegible] cents, as a Pain Remedy, and for Family purposes will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks When

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Bilious Colic,	Flux.

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication,

[Viz: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physioligists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are new medines, prepaied on new principles, and *Pills* ill oureslck without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:

THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.

MONTHLY:

Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00 per annum
For any two of the Reviews, - -	7.00 "
For any three of the Reviews, - -	10.00 "
For all four of the Reviews, - -	12.00 "
For Blackwood's Magazine, - -	4.00 "
For Blackwood and one Review, -	7.00
For Blackwood and any two of the Reviews, - - -	10.00
For Blackwood and three of the Reviews, - - - -	13.00 "
For Blackwood and the four Reviews,	15.00

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent*, will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

Belleville, Sep. 1868. 122-tf 32-tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives [illegible]

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publicatien.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer,* and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer,* as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 384 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS. GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World,
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Speech of Hon. R. Read in England.

We find the following report of the Hon. Robt. Read's speech at the dinner given to a kinsman of his, C. Read M. P., in South Norfolk, from the Norfolk *Chronicle* of the 28th January:

The Hon. R. READ, in responding, made a slight reference to his having when a boy lived in the neighborhood of Diss, and then proceeded to speak of our colonial dependencies. He stated, especially with regard to Canada, that our colonies were strongly united to us and had feelings in common with us. The Dominion of Canada desired to cement yet closer her ties with the mother country. (Applause.) During the time he had been a member of the Canadian Parliament two members, at different periods, had the audacity to propose resolutions having for their object the establishment of an independent nationality, but the effect of the opposition with which they were received could only be compared to the discharge of heavy ordnance, for, notwithstanding the solemnity of the assembly, the speakers could not obtain a hearing. (Cheers.) There was great determination not to hear, much less discuss, any proposition of the kind. This took place some five or six years ago. Again, last session one of the most able debaters in Parliament introduced a similar resolution, but it met a like fate—the member could not be heard—because it was well known that 'independent nationality' in reality meant 'annexation to the United States.' (Hear, hear.) He thought this fact showed what was the feeling not only of the members of the Canadian Parliament, but of the people whom they represented. (Applause.) At this time another very important subject was occupying the attention not only of the Canadian but the British Parliament, the latter having just sent out some commissioner with regard to it—he alluded to the Fisheries question in connection with Canada and the United States. It might be as well to give them some little history of that question. In 1818 a treaty was framed with the United States. It set forth the rights of each country with regard to their respective fisheries, and the United States defined and agreed to a boundary beyond which they were not to fish, and *vice versa.* This went on for some time until the fisheries of British America became of such vast importance that the people of the United States from time to time kept encroaching upon them. Remonstrances were made, and at length an arrangement was entered into by which British America and the United States should interchange certain commodities free of duty—the products of the land, sea, forest, and the mine—the United States, for the equivalent, receiving the privilege of fishing in certain waters, with the free navigation of the St. Lawrence and the use of the Canadian canals, at the same rate of charge as that of the merchant vessels of British America. This treaty was to extend over a period of ten years, either party having the power at the expiration of that time, by giving a year's notice, to put an end to it. In 1864 or '65 the United States gave the required notice, and so this reciprocity treaty terminated. Of course, as British America was deprived of the advantages accruing from the treaty she had a right to refuse to the United States a continuance of the privileges given them in regard to the fisheries. (Hear, hear.) Consequently the Canadian Government, with the sanction of the British Government, put a slight duty on the American vessels, which was paid for the first year. In the meantime every means were exerted on the part of Canada to bring to a successful issue, very liberal terms being offered for the purpose, certain negotiations for a new treaty with the United States. But the United States made such illiberal offers that it was not possible to accept them, so that at the present time there was no commercial treaty with the United States, but an impost duty of twenty per cent was charged upon all Canadian exported products. Although this impost was at first regarded in Canada as a great detriment to their commerce, it had proved of advantage to them, because, being British in feeling, it had taught them a spirit of self-reliance. Finally, the Canadian Government intimated that the United States would not be allowed to fish in those bays and indentations which belonged to Canada, and which were most profitable fisheries, the extent of which it was difficult to apprehend in this country. Of course the American liked to get everything he could, whether by fair or by foul means, and so by bluster he was trying to get these great privileges from Great Britain; but he (the hon. speaker) had yet to learn that the desire to obtain possession of a thing constituted a right to it. (Hear.) If Canada could obtain from the United States a reasonable trade policy, the dispute could easily be settled—(hear hear)—and he cautioned England as to how she dealt with a fourth-rate maritime power such as British America. (Hear, hear.) According to statistics in maritime position, England stood first; France second; the United States third; and British America fourth. He warned this country to guard against an union of third and fourth powers. He trusted that would never be, and he did not believe it would without it was forced upon Canada. And as to our general colonial policy, he reminded us that if a tree was lopped of its branches it would flag and possibly die. (Cheers.) Canada asked and received no material aid from this country. It was true we sent to them a Governor-General, and they paid him

£10,000 a year—(laughter)—with other expenses, amounting to £50,000, and that we had a garrison at Halifax and at Quebec. After speaking of the importance of our retaining Halifax, as a place worth half-a-dozen Canadas, where the whole British navy could lie at one time, the hon. gentleman proceeded to remark that he thought the time would soon arrive when the power of making treaties and declaring war would rest with a people of a country; when the millions of people in our Colonial Empire would have something to say on these matters which particularly interested themselves; and when the British Empire must either be more thoroughly united, or it would become disjointed. How were they to unite it? By giving its colonies something to say in those matters that interested them, because if the British Government, with regard to the fisheries question, to go and fish as much as they pleased, Canada would most certainly be dissatisfied, and might, perhaps, stand upon her dignity, and say, "That may be all very well for you; we all know that by your misrule you lost to England the United States, and we hope you will not be suicidal enough to lose such a country as Canada, extending for 3,000 miles and upwards, and have it attached to a country that is really your enemy." (Cheers.) Although, perhaps, the more intelligent people of the United States knew better, there was a class there so rebellious that at any time they might run the two countries into difficulties with each other. The people of England must not truckle or give way to the Yankees. (Cheers.) Two years ago a quietus was given to the American people, but as soon as we got John Bright into the ministry they said, "This is our opportunity now; John Bright is prepared to bring John Bull on his knees, and we are prepared to put our claims so forcibly before him, that if he rules the councils of England they'll give anything to us that we demand." Now, this was the American feeling. He said this after thirty-five years' experience of America, but he desired to say that he had never allowed his country to be run down, for he always defended England and her institutions, and considered it an honor to be a citizen of this great country. [Cheers.] The hon. gentleman next described the character of the Canadian people, and spoke of their enterprise and progress as being quite equal to that of any portion of the United States. He further mentioned that their canals were the finest in the world, with the exception, of course, of the Suez Canal, and that the United States obtained great advantages from their use. He concluded by expressing a hope that the colonial policy of this country would be such as to reflect honor upon England, and to call forth the affection and alliance of her colonial dependencies. [Loud cheers]

Game Act.

According to the new amendments to the Ontario Game Act, the legal seasons for hunting and killing the various kinds of game are as follows:

Deer, moose, elk and cariboo, between the 1st of September and the 19th day of December.

Black duck, grey mallard, teal and wood duck between the 15th day of September and the 15th day of April in the following year; all other kinds of wild ducks, swans and wild geese between the 15th day of August and the 1st day of May in the following year.

Woodcock and snipe between the 15th of July and the 1st day of March in the following year.

Beaver, mink, sable, otter and fisher between the 1st of November and the 1st day of March in the following year; and muskrat between the 1st of February and the 1st day of May in the same year.

The killing of quail is absolutely prohibited for three years.

The same Act also prevents the putting out of poisons of any kind and the destruction of wild animals by means of poisons.

The penalty for putting out poisons or killing wild animals by such means is twenty dollars, and the same penalty can be imposed for each kind of any game specified in the Act killed during the close season. The whole penalty in every case to be paid to the informant.

It is to be hoped that all persons throughout the country interested in the protection of game and legitimate sport, will endeavor to aid in carrying out the provisions of the Game Act, otherwise the action of the Legislature will be of little avail.

PARENTAL INHUMANITY.—The Mitchell *Advocate* gives the particulars of a singular case of parental inhumanity. A young woman, who had been a resident of the village for many years, and against whose character nothing could be said, married an industrious young man some two or three years ago, greatly against the wish of her parents. So enraged did the father and mother become over the match that they vowed they would never again allow their daughter to cross the doorstep. Things went on in this way until a few weeks ago, when the unfortunate young woman was confined, after which she took a severe cold, causing her to almost totally go out of her mind. She pitifully asked to see her parents, but they stubbornly refused to visit her. So alarming did her case become, that one day last week the attending physician gave it as his opinion that she could not live many days. The parents were again invited to see their dying daughter, but still they inhumanly refused. On Monday morning death claimed the sufferer. The body was decently laid out, and the parents once more invited to take a last look at the remains of their child before the body should be confined to its last resting place; but with hearts as hard as stone, they neither visited the corpse nor followed the remains to the grave.

—In these days of crookedness it does one good to read an editorial paragraph like this in an Omaha paper:—"This leg business ought to be frowned down. Managers of theatres ought to be taught that modesty in women on the stage is what decent people most patronize and admire."

GRAND TRUNK RAILWAY

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m.	6:20 a m.
Stirling, Marmora, Harold, &c	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c	1:00 p m.	11:45 a m.
Hillier, Assellasburg, Rednerville, &c., every Tuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, TUESDAY, FEB. 21.

BISHOP OF ONTARIO.—The Ottawa *Citizen* says: "His Lordship the Bishop of Ontario has arrived in town, and we understand will remain as a permanent resident in the Capital."

CANIFTON SCHOOL EXHIBITION.—A sleigh, for the conveyance of visitors to the above exhibition will leave the Anglo-American Hotel to-morrow night at 6½ o'clock p.m.

ACCIDENT.—Yesterday morning a young man named Joseph Bolton got two of the fingers of his right hand severely cut by coming in contact with a circular saw in rapid motion.

THE MAD DOG.—To-day we hear further particulars of the ravages committed by the mad dog which was shot yesterday. The little girl Northcott, daughter of Mr John Northcott, jr., was severely bitten. Dr. Holden attended to her injuries. A Mrs. Dusenbery and daughter are also reported to have been bitten. Several dogs, bitten by the rabid dog, were destroyed.

The St. Catharines *Times* states that there is a woman named Mrs. De Witt, living a little distance from Chippewa on the Chippewa creek, who was 100 years old last September. She still can knit and do various kinds of house work—probably better than many girls of 18. She reads and talks Dutch and English—whether with or without spectacles we can't say. There is no mistake about this woman's age, and we question if any other locality in this country has an oldest inhabitant equally aged.

ANOTHER FENIAN RAID.—The Montreal *Star* anticipates another Fenian Raid in the Spring. It says: "Two large Fenian meetings were held at the beginning of the week near Burlington. Since Savage's resignment the Brotherhood has been unusually active. There is every reason to believe an embryo raid is in existence, and it behoves the Dominion Government to demand guarantees from the United States that any such demonstration shall be nipped in the bud. The annual farce of American interference after the mischief is done is played out."

Grand Junction Railway.

The By-Law of the Rawdon Township Council granting a bonus of $10,000 to the Grand Junction Railway, was voted on yesterday and carried by nearly two to one, the votes standing 150 for and 81 against the By-Law. Keep the ball rolling.

Land Grants to Volunteers in Manitoba.

The Minister of Militia, Sir George E. Cartier, in answer to a question put by Mr. Stephenson in the House of Commons on Monday, the 20th inst., said the Government in January last, after considering the question of the military expenditure of the Dominion, had decided to reduce the force on the 1st day of May next to two companies of 40 men each, to be made up from both battalions. These companies are to be enlisted for six months, and if found necessary will be continued during the whole of next winter. He also stated that a free grant of land would be given to each volunteer upon his discharge. The quantity was not stated, but the grant is to be free and without conditions, except that they remain in the Province—the length of time was not stated. The same land grant is to be made to those volunteers who have been discharged at their own request, and who may remain in the Province of Manitoba. Those volunteers who are desirous of returning to Ontario or Quebec will have their expenses paid to their homes. In addition to those volunteers who are now in Manitoba, there are what are termed the depot companies, now stationed at Kingston and at Thunder Bay. The members of these companies who when disbanded shall proceed to Manitoba, will also be entitled to a free grant of land. The country will be glad to learn that the Government has determined to deal thus liberally with the volunteers who have undergone so many hardships in the interests of the Dominion.

—The N. Y. *Globe* says: "In his earlier years, Mr. Greely habitually wrote with his feet in a bucket of cold water; he now frequently swathes them in flannel, and sometimes binds an ice-poultice on his head."

Agricultural Colleges.

Amongst the many wise and beneficial measures introduced and passed by the Ontario Government during the late session of our Provincial Legislature, there are few which will be productive of more benefit to the future tillers of our soil than the establishment of an Agricultural College. 'Agriculture' is said to be 'the most healthful, the most useful, and the most noble employment of man,' and it might be added that it is one of the most profitable when carried on upon correct scientific principles. If we want proof of this assertion, it is only necessary to refer to the mother country, where farming is made a profession—not gone blindly into by those who do not understand it. Many young gentleman in England, Scotland and Ireland, who are intended by their parents for agricultural pursuits, are first sent to College to gain the scientific knowledge which is considered necessary, thence they are transferred to the care of some well known successful farmer to learn the *practical* details of their future profession, without which their chemistry would be of little value, comparatively. The consequence of this thorough system of education is, that the soil of the British Islands, instead of being cropped year after year with wheat, or barley, or any other high-priced cereals, and thereby deteriorating in productive powers, is farmed in a manner to yield the highest profits to the cultivator, and yet to increase the richness of the land. A glance at the statistics of agricultural production in England shews that the crops have nearly doubled in quantity and quadrupled in value within the last fifty years, and that land which formerly rented at £1 10s sterling now brings from £2 10s to £4 per annum; small lots sometimes ranging as high as £6 sterling per acre per annum. This fact may be stated in this connection, viz: that the product of a bushel of wheat cultivated by garden process, is nearly six times as great as when sown in the ordinary manner.

Turning from distant countries to our own land, we find that, ten years ago, a large number—probably one-third—of the farms in this county were heavily mortgaged. Now, what is the case? Why, not a tithe of those farms in the front townships then encumbered, have now a penny of debt resting against them. This result is not entirely due to better seasons—though farmers have no reason to complain in that respect—but to the improvement which has taken place in the mode of cultivation. The best of the land, instead of being continually cropped with grain, has had applied to it the English system—that of a rotation of crops—which answers as well here as elsewhere.

Though, as we have thus shown, our agricultural resources have, within the last decade, been greatly improved, a still further change for the better is possible. The County Council of Hastings wisely saw this important fact, and established a Chair in Albert University, where the necessary scientific knowledge might be inculcated. This munificence on the part of the Council has had its reward, the class in Agricultural Chemistry being well attended, increasing numbers joining it each session. Doubtless the grant of $100,000 by the Government for an Agricultural College and Farm, will arouse throughout the country a desire among the farmers to have their sons educated in those correct principles which they were themselves to a great extent deficient of, to their own great loss.

We repeat that, had the government of Ontario little else to recommend them to the good graces of the electors—had not the Deaf and Dumb Institute—the Provincial Lunatic Asylum—the Asylum for the Blind—the Act for Aid to Railways—and a hundred other good measures to their credit—the establishment of this Agricultural College would go a long way to prove that they had the interests of the country at heart, and did not fail to look after them, in spite of a factious opposition. The opponents of the Government claim all the debating power. If they have, let them keep it—some of them will never air their eloquence in Parliament again. We prefer deeds to words, and the Ontario Government has never been sparing of either, when circumstances required.

Dominion Parliament.

OTTAWA, Feb. 20.

The Speaker took the chair at 3:15 p.m.

After routine business,

Mr. Stephenson (Kent) asked if any portion of the volunteer force in Manitoba is to be recalled or reduced.

Sir George Cartier replied that the Government intended that the two battalions now in Red River should be disbanded on the 1st of May, except two companies. He further stated that it was the intention of the Government to give the volunteers grants of land, and that the troops which had remained at Thunder Bay would also receive grants.

Sir John A. Macdonald presented the correspondence between the Imperial and Dominion Governments on the subject of the fisheries.

Sir A. T. Galt asked if the Joint High Commission would consider the Fenian raid compensation.

Sirs Georege E. Cartier and John A. Macdonald replied and stated that Sir George and Hon. Mr. Mcdougall had urged upon the British Government the subject of obtaining from the American Government compensation for the Fenian raids, and they were told officially that the claims would be considered by the Commission.

Mr. Bodwell moved for a statement of the claims made on the Dominion Government, consequent on the insurrection in the North West Territories, and of the claims if any made by Scott, Richot, Black and others.

Sir Francis Hincks, in reply, gave a statement of what claims he had paid, and stated that he had paid them on his own responsibility. The assessment advanced to Dr. Schultz's creditors was $11,000, and to other refugees, $500.

After some enquiries and routine business, the House adjourned at 5.15 p.m.

—Brandreth, the pill maker, is worth $2-000,000.

County of Hastings Sabbath School Association.

FIRST DAY.

TUESDAY, Feb. 21.

The second annual Convention of the County of Hastings Sabbath School Association was opened in the Congregational Church, Hotel Street, to-day at 2 o'clock, p. m. A goodly number of delegates were in attendance, showing that the interest in the important branch of Christian work with which the members have to deal, has been stimulated by the experience gained in the first Convention, held last year.

The following is a list of the delegates who were in attendance: Rev. R. Lewis, W. M. Sweetnam, D. N. Demill, W. H. Garrison, Wm. Woods, Wm. Clazie, S. D. Falkner, G. S. Vanderwaters, H. Meyers, W. S. Martin, C. Peterson, B. Rothwell, A. F. Wood, Edwd. Wood, John W. Turner, S. T. Wilmot, Hon. B. Flint, R. R. Bird, A. McLatchie, C. H. Elliott, F. Brenton, Geo. A. Davenport, Edwd. Bunce, Jas. Ross, Wm. Johnson, B. W. Lane, B. H. Vandervoort, S. W. Ladu, E. Philpot, S. D. Farley and H. Williams.

At 2 o'clock A. F. Wood, Esq., President of the Association, took the chair and called Rev. Mr. Lewis to conduct the opening services, which consisted of singing, reading of the scriptures and prayer.

The opening exercises being concluded, the President then nominated Rev. Mr. Lewis, James Ross, E. Bunce, Wm. Johnson, John W. Turner, C. H. Elliott and Robert R. Bird as the Business Committee, who then retired to consider and report.

The choir then sung "The Water of Life."

[We shall continue our report of the proceedings to-morrow.]

Enterprise.

Most of our townspeople who take an interest in stock raising were delighted in witnessing the new importation of our townsman, W. H. Wallbridge, Esq., comprising five beautiful Leicester ewes and five Lincolns, all in lamb. We regret to learn that he lost the finest of his Lincolns since leaving Portland—the remaining nine were all looking remarkably well. The Leicesters were purchased from J. H. Hutchinson, Esq., Manor House, Caterick, at a cost of £65. The Lincolns from J. Byron, Esq., of Kirby Green, for £50. Being two of the leading breeders of Sheep the importation needs no comment of ours as to their quality being first-class, and not being excelled by anything previously imported into this country.

PRIZES TAKEN BY THE LEICESTERS.

1870.

			£	s	d
April 1—1st Prize,		Otley	2	0	0

PRIZES TAKEN BY THE LINCOLNS.

1870.

June—1st Prize,		Snaith.
July—2nd	do	Lincolnshire.
Oct.—1st	do	Raventry.
	1st do	Wakefield.

In several instances where these pens only took the 2nd prize, the 1st prize was taken by the sheep imported by Mr. Wallbridge last season, but not imported until after the Royal Show in August.

We would not forget to mention several choice varieties of fowls including Brahamas, Black Spanish, Golden and Silver spangled Hamburgs, together with a large case of several varieties of pigeons brought out by the same gentleman, Mr. R. Staton, for Mr. T. C. Wallbridge.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

TUESDAY, Feb. 21

MALICIOUS DESTRUCTION OF PROPERTY.

George DeField and Benjamin Diamond were charged with wilfully cutting and destroying certain gill nets, the property of William Black and William Carter, on the 25th October last.

DeField appeared, and pleaded "Not Guilty."

William Black was sworn, and said he was at the date mentioned engaged in fishing on the Bay, between Lawrence's Point and Ketcheson's Grove. He had 32 gill nets, worth about $3 each. Eight of these were whole, but the rest were destroyed. Learned from Edward Donnelly that it was DeField and Diamond who cut the nets. Donnelly was with them when they did so. The prisoner and Diamond had made threats against him to different parties. When a warrant was issued for their apprehension they disappeared.

Cross-examined by Mr. Jellett—Would not swear that his nets were more than two miles from Spencer's fishing grounds. The case was remanded until to-morrow.

News Condensed.

—A rich harvest of maple sugar is predicted.

—The Queen's private fortune has just been estimated at £3,800,000.

—Shipbuilding promises to be very active in Nova Scotia on the opening of spring.

—Potatoes and apples stored in Ottawa cellars have nearly all been destroyed by the cold spell.

—An exchange says a young lady of that place has just celebrated her wooden wedding by marrying a blockhead.

—Thomas Batty Conolly, well known throughout Ontario, is fresh from an inebriate asylum and lecturing on temperance in Chicago

—It is said that timber cut in February will last three times longer than that cut in the summer months.

—Some Americans propose to establish a penal colony in Alaska. It is almost the only thing the territory is fit for.

—Dissatisfaction is expressed at Halifax at the Maritime Provinces being unrepresented on the High Commission.

—Mr. Peter Warren, of Wallace township, lost his wife and three children in one week from scarlet fever.

—An Iowa school teacher, a woman, has been discharged for forcing a big boy to show her how he kissed the girls in the wood house.

—The population of New York, as finally ascertained by the late census, is 942,252.

—William C. Bryant's finest efforts have been produced under the influence of quinine. He has become quite deaf from an inordinate use of the drug.

—A man was recently informed just before his marriage that his bride had fallen heir to $300,000, but he let the ceremony go on just the same.

—A woman in Missouri recently got on the railway track, waved a red flag, stopped the train, and asked the conductor for a chew of tobacco for her old man.

The son of Hon. Moses H. Grinnell, who is travelling in Africa, has recently been exploring the cataracts of the Nile in an iron boat of 150 tons and drawing three feet of water. His last letter, dated on New Year's Day, was written at Komska, Nubia, and describes the ascent of one of the cataracts, which was accomplished by a force of 200 men hauling upon four ropes. Several letters written by this gentleman, and posted upon the banks of the Nile, have reached their destination. They are carried a distance of 400 miles by relays of boys, each of whom goes ten miles, with the letters strapped about his waist in belts. Mr. Grinnell is accompanied by his wife.

Correspondence.

For The Daily Intelligencer.

Acknowledgment.

I acknowledge the receipt of $5 from Loyal Orange Lodge No. 274, Belleville, handed me by Mr. Thomas Good, for the emigration fund to aid Miss Macpherson in bringing out boys and girls from London.

Also the sum of $16 from F. Hott, Esq., being a donation from Octave Alair's Shanty, Elzevir, toward the support of Marchmont Home, being a spontaneous offering on the part of the men to aid Miss Bilbrough's efforts, of which more will be communicated before long.

BILLA FLINT.

Belleville, 20th February, 1871.

To the Editor of the Daily Intelligencer.

DEAR SIR,—I noticed in your issue of yesterday an editorial headed "East Riding of Hastings," in which you say you are informed a meeting was held a few days since in the office of the Clerk of the Peace, or in Coleman's Hall, to discuss the momentous question of who the man should be to contest the Riding in the interest of what you are pleased to term the Grit party, and in connection with which you say "your informant tells you that Mr. George E. Henderson was ready to sacrifice himself on the altar of his Country and enter the contest, but the assembled wisdom said no, that he was not the man for Galway." Now, Sir, in justice to myself I wish to say if there was any such meeting as you refer to, I had no knowledge of it, nor was I present at any such meeting, and if my name was used thereat in connection with the East Riding, it was so used without my authority, knowledge or consent. I would further add, that from what I know of the Electors of East Hastings, they are not likely to be dictated to as to who shall represent them or be their candidate by any meeting such as you refer to got up in the town; and as for myself I have generally shown that I could neither be influenced or coerced in any political action I may have heretofore taken by the action of a few in Belleville who would assume to control the political future of this County.

Yours, &c.,

G. E. HENDERSON.

To the Editor of the Daily Intelligencer.

SIR,—In your issue of yesterday, in an article entitled "East Riding of Hastings," you state that you were informed "a meeting was held a few days since in the office of the Clerk of the Peace, or in Coleman's Hall, to discuss the momentous question of who the man should be to contest the Riding in the interest of that party," (meaning the Clear Grits.) I beg leave to state that your informant is laboring under a mistake, as no such meeting as you refer to, nor any political meeting whatever, was held at my office or in my hall, and I trust you will do me the favor to publish this denial of an unfounded statement.

C. L. COLEMAN.

Belleville, Feb. 21, 1871.

BY ATLANTIC CABLE.

American Despatches.

Steamships Arrived.

The Darien Survey Expedition.

Amicable Treaty between Costa Rica and Peru.

Coal $15 per Ton in New York.

PORTLAND, Feb. 20—The steamship 'Prussian' from Liverpool, has arrived.

ASPINWALL, Feb. 10, *via* Havana, 20th.—The United States steamer 'Nelpsic' arrived on the 9th. She sails for the Alvato River on the 14th, where the supply ship 'Guard' is anchored. Heavy rains continue in that locality. The first Darien survey party left here on the 6th for the Alvata River; all well. Commander Selkredge joins the United States steamer 'Resaca' at Panama, and proceeds to survey the Pacific side, commencing at Simon Bay.

NEW YORK, Feb. 20—Advices from Costa Rica to January 21st states that a treaty of amity, commerce and navigation, to continue for ten years, has been concluded with Peru.

NEW YORK, Feb. 21—The steamship 'Cleopatra' from Havana, and the 'Wisconsin' from Liverpool, have arrived

Coal was retailed in this city and Brooklyn yesterday at $15 a ton.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 21—Hon. John Bright will not probably resume his duties at this session of Parliament, and his reappearance in the House is most likely to be preceded by a visit to his constituents. Mr. Bright's health is improving steadily.

A dispatch from Paris of the 20th says the armistice will probably be extended until the 1st March. The scarcity of fuel is much felt.

The administration of the Northern Railway divides with the population the coal arriving daily.

The *Standard* is informed that the health of the Emperor of Germany leads to grave anticipations.

The *Telegraph* has a despatch from Saarbuck which says all the German wounded capable of rejoining their regiments are being sent to the front. There was a large assemblage of troops at Cologne.

The War in France.

The midnight despatches say that Prussia refuses to prolong the armistice beyond the 24th, and that if peace be not concluded by that date, Paris will be treated as a captured city, and the armies will march north and destroy the country. It is stated the Prussians require the concession of Nice, thus completing France's isolation. Some fancy that there is a crafty policy exhibited in allowing rumors of such severe peace terms to go out, that the real terms may seem all the lighter by their side.

An Insolent Proposition.

In the United States Senate on Saturday Mr. HOWARD (of Michigan) offered a resolution reciting as the judgment of the Senate "that the British North American possessions are in their nature an obstacle to "the permanent harmony of the Governments of Great Britain and the United "States, and recommending to the high "commission to provide for the cession of "these possessions to the United States, "and throwing open the free navigation "of the waters of that region." This proposition is conceived in an offensive spirit and is of course quite inadmissible. The resolution was very properly laid over. We can assure our American neighbours that if they desire a closer relationship with the Dominion than that at present existing they are taking the very best means in their power of preventing its accomplishment, because insolent propositions of this kind only provoke a bitter spirit of hostility in this country towards the United States.—*Leader.*

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS &Co., Homœopathic Chemists, London, England. 137-m-Th.

SIR JOHN A. MACDONALD still continues to display his usual tact and energy in the exalted position to which his talents have raised him. We once heard it remarked that his popularity would one day decline, but we know that when a man's advancement is the result of his own intrinsic worth, his reputation is fixed and effulgent like that of the Great Shoncese Remedy for rheumatism, diseases of the throat, lungs, &c. For sale by all druggists.

LIVERPOOL, Feb. 20.—Cotton firmer; uplands 7½ to 8.

CANADA
LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st, The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
Manager.
January 25th, 1871.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:im Montreal, P Q.

Persons afflicted, however slightly, with any weakness of the chest or throat, involving either the Larynx, Trachea, Bronchial Tubes, or the Lungs themselves, should on the first symptom commence with FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES, as by its uses diseases of those organs are speedily cured, and more alarming symptoms prevented.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP," Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weatner Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by th Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed, and for sale at the *Intelligencer* Office

Intercolonial Railway
OF CANADA.

TENDERS FOR IRON BRIDGE SUPERSTRUCTURES.

THE Commissioners for the construction of the Intercolonial Railway are prepared to receive Tenders for TWENTY-ONE SPANS OF IRON BRIDGE SUPERSTRUCTURE of one hundred feet for each span, and also for sixteen spans of two hundred feet for each span.

Printed specifications showing the tests which each span will be required to bear, information as to the location of the different bridges, and forms of tender, can be obtained at the offices of the Commissioners, or at those of the Chief Engineer, at Ottawa, Canada, or at the Banking House of Messrs. Morton, Rose & Co. Bartholemew Lane, E. C., London, England.

Parties tendering must submit their own plans of the mode in which they propose to construct the bridges, and must state the price of each span, f. o. b., at the place of shipment, and also the price of each span completed in place.

Tenders for additional spans of one hundred feet, and for spans of eighty feet, will also be received at the same time. Specifications are being prepared and can be had within a few days on application at the places above named.

Tenders, marked "Tenders for Bridges," and addressed to the Commissioners, at Ottawa, will be received up to 6 o'clock P. M. of THURSDAY, the 6th day of APRIL, 1871.

The Commissioners will not be bound to accept the lowest or any tender.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McLEAN,
Commissioners.

Belleville, July 26th, 1970. d72w24tf

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the reparative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the wastes and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, **and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timotheo, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than ten dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER,
Commercial Agent for Ontario

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

It has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOK contain *fourteen* each year superior (we challenge comparison) to any published in this country either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,
FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

In her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism and Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

We do not expect PETERS' MUSICAL MONTHLY to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD
The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and, with a view to mark the quarter of a century, during which this journal has held the first place in scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

from the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and displacements of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illnesses, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied in *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only perfect *Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for*, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse*,] the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the function of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER
Billious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively, so safely as

Radway's Ready Relief

No, not one. Thousands, from overdoses of [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private Practice, [illegible] gorged liver, fat, spleen, disorders [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but another disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Bilious Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to $3, [illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of Radway's Ready Relief, diluted in one gallon of proof spirit will give you equal in quantity, and superior in quality, [illegible] 144 bottles of the 25 cent Pain Relievers, Pain Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief, for [illegible] cents, as a Pain Remedy, and for Family [illegible] will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus.
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[*Viz: Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c.,—hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medines, prepared on new principles, and *Pills* will cure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a
Branch Establishment of the St. Lawrence Hall,
under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY
as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer,* and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer,* as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 384 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges.

FOR cheap printing go to "The Intelligencer" Office. Belleville,

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

PART II.

(From Blackwood for January.)

CONTINUED.

The second section ends where the road crosses the Matawan by a bridge about 70 yards in length, constructed like the previous one during the preceding winter. The distance between the two bridges is about five miles, the road running through some deep valleys, and along the sides of rounded hills of red clay, the timber of which lay about in decaying logs, bearing witness to the many fires that have swept over the district at various remote periods.

As the road descends into the valley of the Matawan and enters the third section the character of the soil and scenery again changes—the red clay is left behind, and one enters a rolling country of rich clayey loam, with sandy soil rises here and there, all thickly wooded over. Two unfordable streams, one of 24, the other of about 33 yards in width, had to be bridged over in this section. As already stated, nearly the whole of the last eighteen miles of road, including these two bridges, had to be made after our arrival, which retarded our progress to an extent that had not been anticipated.

The road is much more level in this section than in the other two; but at many places the natural drainage is so bad that even up to the date when the force had finally embarked at Shebandowan, the track cut through the forest was useless as a highway for constant and heavy traffic. Had it not been discovered in time, as already detailed, that the river could be made available, paricularly along parts of this third section, for the transport of our boats and stores, we should have been delayed a month or six weeks still further than we were, and could not possibly have reached Fort Garry in time to have fitted up barrack accommodation for the troops before the winter set in, or to have brought them back before the frost had closed the rivers and small lakes to be passed on the higher portions of the route.

It was the knowledge of these facts, and the consciousness of the emergency, that justified those responsible for the success of the Expedition in calling upon the men to undergo the unceasing labor that was entailed upon them. "Sunday shone no Sabbath day for them." From the time the troops began to advance, "Push on, push on," was the hourly cry of the officers; and every one, down to the youngest bugler, being taken into the leader's confidence regarding the necessity for haste, recognized the urgency of the case, and put his shoulder to the wheel with a will and a cheery energy that bid defiance to all obstacles. We treated our men not as machines, but as reasoning beings, having all feelings in common with ourselves; and they responded to our appeals as British soldiers ever will when under men in whom they have unbounded confidence.

Before a start could be made it was essential that at least two months' supplies for the whole force should be collected at Shebandowan Lake.

Our transport horses were very fat when they landed, and had to begin work at once, so that, although allowed to eat as much oats and hay as they could, they quickly fell off dreadfully in condition. The badness of the roads rendered the work very severe upon them, and a large proportion were soon unfit for draught, owing to sore shoulders. Two causes contributed chiefly to this: first, the badness of the collars; and secondly, the carelessness of the drivers.

The harness had been provided by the Canadian Government, and, like all the military stores supplied by it for this Expedition, was of an inferior description obtained by contract. The military force in Canada was to be reduced in the summer of 1870; and orders had been received by the general commanding, desiring him to dispose of, on the spot, or to send home to England—according as he might think best for the public interest—all the military stores giving the Dominion Government the option of buying at a valuation all or any portion of them. We had in store plenty of harness and every description of article required for the equipment of the force, the regulation prices of which were considerably below what similar but vastly inferior articles could be obtained for in the open market.

It did not, however suit the Ottawa Ministry, whose province it was to obtain the required stores, to get them from our magazines; they preferred purchasing the inferior and dearer articles through their own agents from their own political friends and supporters. When money is to be spent in Canada, the opportunity is seldom lost for furthering party objects. As a stronger illustration of this, we may here mention that the boots supplied to the militia regiments were so utterly worthless after a few weeks' wear, that, upon arriving at Thunder Bay, it was found necessary to send back to Canada for new ones from our stores—so that the country had to pay for two pairs per man instead of one.

The men for the land transport service were especially engaged for this duty by the militia department, and, with some exceptions, a more worthless set as drivers and horse-keepers it is scarcely possible to imagine. Men of all sorts of callings, except those accustomed to the care of horses, were enlisted, so that some of them did not even know how to put a set of harness together. As soon as these men got clear of a station on the road, and out of view of the transport officers, they played all sorts of pranks, and instead of going at a steady walk, choose their own pace, sometimes amusing themselves with rasing. It was found necessary to make some examples amongst the worst behaved before anything like discipline could be maintained amongst them.

As a protection for the horses against the heavy rains, ranges of rough stables were erected at several places along the 48 miles of road between Prince Arthur's Landing and the lake—the planks for those at the former place being brought from Collingwood in steamers, those used elsewhere being sawn from trees cut down where required. The Canadian axeman is very handy at constructing shelter for either cattle or stores; the bark of trees, particularly of the birch and tamarack, is largely used instead of planking. A roof is also quickly and efficiently made with troughs hewn from logs of American poplar, placed, as tiles are, in rows alternately convex and concave, each trough being cut of sufficient length to reach from the apex to the eave of the roof; and one large one, cut from a tree of greater diameter, being placed longitudinally at top, along the ridge, so as to cover up the ends of the troughs of both sides of the roof where they meet above.

TO BE CONTINUED.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.

GOING EAST.

No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

Closing and Arrival of Mails.

BELLEVILLE POST OFFICE.

	CLOSE.	ARRIVE.
Day Mail going East	10:15 a m.	11:10 a m.
do do do West	5:15 p m.	6:15 p m.
Night Mail going East	9:00 p m.	12:25 a m.
do do do West	9:00 p m:	6:20 a m.
Stirling, Marmora, Harold, &c.	7:00 a m.	5:00 p m.
Bridgewater, Tweed, Roslin, &c.	1:30 p m.	11:45 a m.
Madoc, Ivanhoe, Halloway, &c.	1:00 p m.	11:45 a m.
Hillier, Ameliasburg, Rednerville, &c., every Tuesday, Thursday and Saturday	6.00 a m.	5:30 p m.

Mails for Picton and vicinity are sent *via* Napanee, and close at 9:00 p m., daily.

British Mails for Canadian steamers close every Thursday at 9:00 p m.; by steamers which sail from American ports every Saturday at 9:00 p m.

☞ *Registered Letters* must be in 15 minutes before the hour of closing mail by which they are to be forwarded.

OFFICE HOURS.—7:30 a m. to 6:00 p m.; also, half an hour on arrival of Evening Mail from the East, if in before 8.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, FEB. 22.

PI SIGMA SOCIETY.—This Literary Society, in connection with Albert University, announces an entertainment of Readings, Recitations and Music at the College on Friday evening next. Several of the Professors are set down to take part in the proceedings.

THE BRUCE REVIEW, the office of which was destroyed by fire a short time since, has made its appearance in an enlarged form, and in an entire new dress. It is now one of the largest country newspapers in Ontario, as it is one of the best. We wish our contemporary a sccessful career.

ST. ANDREW'S TEA MEETING.—This annual event, which will probably be the last soiree of the season, is fixed to come off on Thursday evening, in the Masonic Music Hall. The programme of proceedings, which is full of good things in the shape of music and addresses, will be found in our advertising columns. Tea is to be served at 7½ o'clock, p. m., and the chair will be taken at 8 o'clock.

ASH WEDNESDAY.—To-day being Ash Wednesday, is the first of the forty days of Lent, instituted about the year 130, in reference to the miraculous fasts of Moses, Elias and our Lord. Ashes were placed on the heads of penitents, and flesh was forbidden to be eaten; eggs, milk and wine were also at times interdicted. Services were held in the Episcopal and Roman Catholic churches this morning.

Election Intelligence.

The *Globe* has been devoting considerable space lately to announcing candidates for the forthcoming elections for the Ontario Legislature, and dictating to constituencies whom they should select and whom they should throw overboard. In its issue of yesterday it has the following:—

> WEST HASTINGS.—Mr. James Holden, it is reported, will oppose Mr. Graham, with the very best prospects of success.

Who is Mr. James Holden? We cannot find any one of that name in Lovell's new Directory as living in this section of country, and must conclude that he is some mythical personage of the *Globe's* own creation.

It devotes this paragraph to North Hastings and its representative:—

> NORTH HASTINGS.—We cannot conceive the people of North Hastings voting for a man who, like Dr. Boulter, has declared that he was grateful to Mr. Archibald for issuing warrants for the arrest of poor Scott's murderers, although he did not enforce them. Scott was one of Dr. Boulter's constituents before he went to Manitoba, yet Dr. Boulter declared the manner of his death not fit to be discussed in the Assembly of Ontario.

Dr. Boulter denounced the murder of poor Scott as earnestly as any man in the country, and was willing to go as far as any person, legitimately, to secure the arrest of his murderers, and the punishment of the rebels at Red River; but he was not disposed to make a ninny of himself because Mr. Blake did, nor can he shed crocodile tears whenever the *Globe* authorises its followers to prepare to weep. The clap-trap cry raised by the Grits is too transparent not to be seen through by the most ordinary reader, and the effort to make political capital out of it will be utterly futile.

Trade and Navigation Returns for 1870.

Hon. Mr. Tilley has brought down the Trade and Navigation Returns up to June 30th, 1870. It is prefaced with an introduction showing a considerable increase over the previous year in the general trade of the country, both imports and exports, and their concomitants, revenue and shipping. The commerce of the Dominion with British and foreign countries, the tonnage employed in that commerce, and the revenue derived from importations or from exports to such countries, show that the gross value of goods imported during the last fiscal year was $74,814,339; that the value of goods entered for consumption during the same period was $71,237,603; and that the value of exports was $73,573,490,—a sum of $148,387,820 representing the gross aggregate value of the trade of the Dominion with countries outside of its boundaries.

The tonnage engaged in carrying on that trade, including in such tonnage the vessels engaged in the inland trade with the United States—entered inwards, 5,796,125 tons; entered outwards, 5,619,745 tons; rather more than two-thirds of which consists of British vessels.

The duties of Customs for the fiscal year under review amount to $9,462,940. In comparing the year 1868-69 with the year 1869-70, we find the following results:—

Entered for comsumption in 1869 70, $71,237,603.

Entered for consumption in 1868-69, $67,402,170.

Increase in 1869-70, $383,543.

Duties collected, $9,462,940: $12,908,809; $1,640,031. Value of exports, $75,573,460; $60,474,781; $13,098,709.

Shipping aggregate, tons, inward and outward, 11,145,870; 10,461,044; 945,826. This increase in the inward and outward trade, and consequent increase in the duties, the latter being partially attributed also to the changes in the tariff, is observable under all the various classifications of the tariff, which certainly is indicative of a general and satisfactory commercial progression.

If we consider the imports with reference to the countries from which those imports were made, we find that the largest actual increase has been in our importations from Great Britain, the value of goods entered for consumption from that country having risen from $35,764,470 in 1868-69 to $38,595,433 in 1869-70, showing an increase of $2,830,963, or about 8 per cent.

From the British and Foreign West Indies the ratio of increase is considerably larger, the returns showing an increase of 23½ per cent, in the amount of imports in the last fiscal year over the year preceding.

There is also some increase in our imports from France, and from the Provinces of Newfoundland and Prince Edward Island, and with the United States, whilst the sum total of trade in imports and exports has increased by upwards of $4,300,000. The whole of this increase has been in our exports to that country; the imports from it having, on the contrary, fallen off. The comparative statements of imports from, and exports to the U. S. for the years referred to, is as follows:—

1868-69—Imports, $25,477,975; exports, $27,846, 491.

1869-70—Imports, $24,728,166; exports $32,984,652.

Decrease—Imports, $749,809,

Increase—Exports, $5,138,191.

The returns would thus show that our trade with the United States has not been materially, and certainly not injuriously, affected by the abrogation of the Reciprocity Treaty. The aggregate amount of the trade between the two countries has been pretty steadily maintained—indeed increased—whilst the relative positions as importers and exporters have been reversed

The United States, under the Reciprocity Treaty, having as a general rule been the larger exporters to the British North American Provinces; whilst Canada has, since the abrogation of the treaty, imported less from the United States, and exported to that country considerably more.

As regards exports generally the returns furnishes evidence of the rapid developement of the natural industrial resources of the country, the point of increase, as regards value, in each of the six classes into which the products of Canada are divided in the tables, is, omitting fractions, as follows:—

Increase in 1869-70 over 1868-69.

1. Products of the mine, 19 per cent.
2. Products of the fisheries, 11 per cent.
3. Products of the forest, 6 per cent.
4. Animal products, 38 per cent.
5. Agricultural products, 13 per cent.
6. Manufactures, 21 per cent.

Of the products of the mine the most remarkable inrease is in the exportation of mineral ore, earth oil, &c.; the quantity in 1868-69 being only 690,553 gallons, against 4,748,557 gallons in 1870.

The exportation of copper and iron ore, and coal, has considerably decreased. The falling off in the amount of coal exported stands sufficiently explained by the increased consumption at home of the products of our Nova Scotia mines.

We shall continue our summary from this Blue Book in a future issue.

"That Meeting."

Although it has been denied that a meeting of the Clear Grit party took place in Coleman's Hall, or at the office of the Clerk of the Peace, and that the names of several prominent members of that party were mentioned as candidates at that meeting, and their qualifications and chances of success canvassed, we learn, from what we consider reliable authority, that what we published respecting that meeting was, in the main, correct. In the estimation of certain gentlemen, it may not have been considered a "meeting" of the "party," but that certain prominent Clear Grits met and discussed the question of a representative from East Hastings is undoubtedly true, respecting which our readers will hear more anon.

DRAMATIC.—We learn that the great moral drama of "Ten Nights in a Bar-Room" will shortly be produced here, under the management of Messrs. Armstrong and Wilton. Misses Marian Clifton and Gussie Logan have been secured to play leading parts, and little Miss Fanny Armstrong, a child of nine years old, will appear as the drunkard's child, and will sing the song, "Father, come Home."

County of Hastings Sabbath School Association.

FIRST DAY.

(Continued.)

Rev. John Burton read a portion of the scriptures and the congregation engaged in prayer.

The choir sang "Blest is the tie that binds our hearts."

The Secretary read the rules and constitution, arranged last year, which were approved.

On motion of Mr. Johnson, Messrs. W.H. Garrison and C. H. McIntosh were appointed Minute Secretaries.

The Business Committee handed in the following report:

PRESIDENT.—A. F. Wood, Esq., Madoc.

VICE-PRESIDENTS.—Samuel Crawford, Elzevir; Dr. Willson, Rawdon; William Woods, Thurlow; J. W. DeMill, Tyendinaga; S. Wilmot, Sidney; J. S. Beddome, Marmora; John Brown, Madoc; H. C Grant, Carlow; Edward Bunce, Sturling; J. R. Tait, Limerick; S. Vantassel, Huntingdon.

SECRETARY.—Charles Martin, Belleville.

TREASURER.—J. C. Holden, Belleville.

BUSINESS COMMITTEE.—Revds. Richard Lewis and John Burton, and Messrs. W. Johnson, E. Bunce, Robert R. Bird, Jacob N. Yeomans, C. H. Elliott, and the delegates of the Provincial Association. Wm. Johnson, Chairman.

The Report of the Committee was carried unanimously.

The President then delivered the following opening address:—

CHRISTIAN FRIENDS,—Accept my thanks for the honor conferred upon me by again selecting me as your presiding officer. I am conscious of inability to discharge the duties of the position to my own satisfaction, and also that there are many others who would more profitably preside over such a convention as this, but I will endeavor to discharge the duties satisfactorily. I can promise nothing more. I am also aware that there is an efficient Business Committee which will make my duties, comparatively speaking, light. So far as possible I intend to strictly carry out their instructions. It is not always the most pleasant duty to touch the bell, when perhaps the speaker is just nicely warming up with his subject, or to cut short an eloquent address, when every ear is listening with the greatest satisfaction. Still, as the executive of the Business Committee, I shall endeavor impartially to carry out their instructions. I have always felt that a good programme is an excellent thing, but its excellence can only be made beneficial by strictly carrying it out. This part I shall endeavor to perform, and I rely on your kindness and forbearance to overlook any failure on my part. It is gratifying to meet so many delegates and clergymen of different denominations. It seems to me that in this has one grand object already been obtained. "Behold how good and how pleasant it is for brethren to dwell together in unity!" "Brethren," not in the sense that we belong to the same ism as designated by men, but "Brethren" in the higher and holier sense—"Brethren" in Christ. Amid the hurry and bustle of life and all its anxieties and cares, how pleasant it is thus to throw aside for a while to talk over the efforts made to forward the cause of our Master, and by comparing results—so far as we can note them—seek not only to improve in our modes of action, but also to stimulate each other to fresh efforts in the great work of winning the young to Christ. Systematic efforts in any case are most likely to promote its success, and I trust that amongst the results of this convention will be an increased determination to systematise our work in the Sabbath schools, and a more complete union of heart and action among those who are striving to train up the little ones to love the Saviour. We have all work to do. It is true we cannot all be, nor are we all called to be ministers to stand as watchmen on Zion, or missionaries to spread far and wide amongst the destitute and benighted the glorious gospel of Christ. We may not all of us be able to give our thousands or hundreds for his cause, yet we may do what we can, and in the language of a new rendering of "Your Mission:"—

> "If we cannot cross the ocean,
>   And the heathen lands explore,
> We can find the heathen nearer,
>   We can help them at our door.
> If we cannot give our thousands,
>   We can give the widow's mite,
> And the least we give for Jesus,
>   Will be precious in his sight.
>
> "If we cannot speak like angels,
>   If we cannot preach like Paul,
> We can tell the love of Jesus,
>   We can say he died for all.
> If we cannot rouse the wicked,
>   With the judgment's dread alarms,
> We can lead the little children,
>   To the Saviour's waiting arms."

The address was greeted with applause.

On motion of Mr. Martin, all Sabbath School workers attending the Convention, not as delegates, were ordered to be recognized as members.

The Secretary then read his Annual Report, as follows:—

Mr. President, Dear Fellow Laborers, and Christian Friends.—Devoutly would we express our heartfelt thankfulness to our Heavenly Father, who has, throughout another year, vouchsafed to us so many blessings in connection with our Sabbath School work, urging, by the influence of his divine spirit, the efforts of the teacher, and crowning those efforts with some measure of success, and permitting us, under circumstances so favorable, to meet together on this the second Convention of the County of Hastings Sabbath School Association.

We rejoice to have reason to believe that the leaven of the last Convention has not altogether passed away, but that now, after the lapse of another year, many of these present can call up most hallowed recollections of that re-union.

It is also gratifying to know that although all the results desired and anticipated have not been realized, there has been as the result (in part at least) of that Convention, a more earnest and vigorous effort in the prosecution of Sabbath School work.

We had hoped that many of the Townships would have organized themselves, and that a series of Conventions would have been held, and that the good example set by Stirling would have been followed by the several Townships of the County. As for that held in Stirling we are glad to learn that it was a success.

We very much regret the delay that there was in the issuing of the Reports, as it not only prevented the sale but deprived our friends of the benefit of that publication so long that the interest in the Report seemed to have passed away, leaving the executive to bear the pecuniary loss.

The committee, in calling this Convention together, have had sent out about seventy-five circulars to different Schools and Ministers, but of these only twenty-eight notices were received from individuals intending to be present.

Requests were made to several persons to take charge of the subjects mentioned in the programme, but we regret that in some cases circumstances will not allow of a compliance with the same.

Praying that the Divine blessing may rest down upon this Convention, that the Divine spirit may be present during all deliberations, that such an impetus will be given to Sabbath Schools as that before another year shall have expired there shall be held, if not in all, in most of the Townships, a Sabbath School Convention.

The first topic for conversation was Sabbath Schools in the individual experience.

Hon. Billa Flint, Messrs. H. Meyers, Wm. Woods, the President, Rev. S. W. Ladu, Rev. J. E. Howell, R. Osborne and R. R. Vandervoort, gave short speeches on the above subject.

The Choir.—"My hope is in Heaven."

Mr. S. T. Wilmot, Sidney; Mr. Vantassell, Hungerford; Mr. Wm. Woods, Thurlow, and the President gave verbal Township Reports, all of which were very satisfactory.

Hon. Mr. Flint thought if the Convention was called earlier in the season, a better representation might be had.

The Business Committee reported the programme for the next two Sessions, and, after the closing exercises, the Convention adjourned till 7:30 p. m.

EVENING SESSION.

The evening session was held in the M. E. Church, which was crowded on the occasion.

The exercises were commenced by the choir of children singing, in a very pleasing manner, the hymns, "Walk in the Light of God," and "By and By."

Rev. Mr. Wood, of Sidney, then read a portion of the 119th Psalm, and engaged in prayer.

Rev. Jos. Wild, M. A., delivered the address of welcome, saying he was very unwell, but would do his best. The people of Belleville were of a good mind, and the principal part of that welcome to the delegates was in their reception in the homes of the people. He hoped they would feel at home in our midst. The work in which they were engaged was a great one. There was a great deal of strength in a child, which it was for them to make potential for good. Unless there was a moral basis among a people, not much good could be done with them; and that moral basis must be planted in a child. The laws of the land wanted a moral respect and the teachings of Sabbath Schools had a fine effect in that way. Nothing could make us love our own land more than the recollections of our pleasant moral days in our homes. Canadian loyalty, nationality and patriotism, if not well built on a moral basis could no long endure; and this could be greatly aided by the work of Sabbath Schools. Children were like diamonds; the dirt coated the face of some of them, but the pure gem was there hidden. The Kohinoor was spoiled by too much grinding, and so might many a bright child in the same way. Children ought to be so trained as to reflect, like a highly polished stone, the various phases of Christian society. Out of these Sabbath Schools would come the one thing necessary to make the Church as it was in heaven, of little children. He concluded by hoping that the meeting would be entirely successful and that the blessing of God would rest upon the services of the evening.

Choir—"Stand up for Jesus."

Dr. PALMER was then introduced and gave an address on Sunday-School Music. He claimed the greatest antiquity and importance for music and hoped it would be discussed by the Convention. He cited many passages from Scripture regarding the prominence awarded to music from before the birth of Christ. Instruction in music should commence in early childhood. If this were done, we should see the whole congregation join in the service of song; instead of, as at present, seeing the singing done by a choir, composed of a few persons. Instruction, often neglected at home, and at day schools, would have to be carried on at the Sabbath Schools. The ladies ought to do this to teach the children the sweet songs of the Sabbath School. This had been done often within his knowledge in the United States. If there was any one who was not touched by the songs of children, there was a screw loose about them somewhere. He gave several instances of the power of song. Children never forgot the songs learned in their early youth. The Dr. concluded a very interesting address by saying he should be happy to devote his leisure time to forwarding Sunday School work.

Choir—"We are Marching On."

Hon. B. Flint said the music they had just heard was better than any speech which could be made. He was particularly fond of music, and was glad that the music now in use was more suited to children than that formerly used. The Hon. gentleman made a pleasing five minutes' address.

Mr. W. Johnson, although not able to sing much, was convinced that music was too little used generally in the Sabbath School. In the school of which he was superintendent, he found it advantageous to have more music, as it was a great assistance in maintaining order. In this County, this subject had been well attended to; better, perhaps, than in many other sections.

Choir—"Work for Jesus."

The President then announced the subject for discussion, "Teachers' Individual Preparation for the Lesson and Helps thereto."

Rev. Mr. Lewis, in a fifteen minutes' address, opened the discussion, urging the importance of care in selecting apt teachers—those, whether learned or not learned, who could interest the children. The progress made in the instruction given by Sabbath Schools was such that a careful selection of well-qualified teachers was imperative. There was, in this matter, as in all other paths of learning, no royal road; it had to be secured by patient, persevering plodding effort. He spoke kindly of the old question-book method of teaching, attributing its disuse to an abuse of its proper functions, rather than to its inherent badness. He also referred to several excellent Sunday School works lately published.

Rev. Mr. Wild, W. W. Dean, John J. B. Flint, Rev. John Burton, Rev. Mr. Dingman, A. G. Northrup, Wm. Johnson and the Chairman followed, in five minutes' addresses, which contained many valuable practical suggestions.

Choir—"I will go and be Saved."

The closing exercises were then gone through, the benediction was pronounced by Rev. Mr. Wild and the meeting separated.

SECOND DAY.

MORNING SESSION.

The session was opened by prayer, led by Mr. Jas. Ross, after which was sung "There is a Cross for me." The President read a letter from Dr. Palmer, stating that he could not attend the morning session, and inviting the members of the Association to visit the Deaf and Dumb Institute.

Rev. Mr. Dingman conducted the devotional exercises, the choir singing "The Beautiful River."

Mr. Ritchie delivered an address on "The Library," dilating upon the management. A good, well-managed Library was, he said, a great advantage to the Sabbath School, and proceeded to combat various objections raised. The system of allowing children to choose their own books ought to to be abandoned. The books ought to be selected for them by the teacher. They would be better pleased by this means, as often dissatisfaction would arise, and the children would wish they had taken some other book which they had seen. The character of the books which should be furnished by a Sunday School Library was a matter of great importance. The several churches should adopt a system whereby there imprimatur would be stamped on all the books admitted to the Library. It was a great mistake to suppose that all books sold for Sunday School Libraries were proper to be used. Some of them were too sensational. Others advocated honesty for the love of gain. He who was honest, simply because honesty was the best policy, was not really honest. There were others, again, which sought to place children in a wrong position, as teachers of their parents. He urged the exclusion of these books from the Library, as they taught error.

Mr. D. C. Ferguson combatted the view of teachers selecting the books for the children. He gave an account of the system pursued in the W. M. Church in this town. Let the scholars select their own books, and then they could find no fault with the Librarian.

Mr. Wm. Johnson followed in a five minutes' address, urging the impossibility of teachers acting as Librarians.

Rev. Mr. Burton said he had seen Mr. Ritchie's plan successfully carried out. Much of the success of different plans depended upon the care exercised by librarians. He objected to the great amount of light reading so common in the Sunday School libraries.

Rev. Mr. Dingman advocated the use of substantial works—history, science, etc.; they ought to have a book or two on the resources, climate, etc., of Canada.

The President thought the plans proposed were not applicable to country schools. Where there was only one room and scarcely enough space to accommodate the scholars, they could not carry out the systems already brought forward. He was afraid that if the books on fiction were withdrawn, much of the interest in the library would cease.

Hon. Mr. Flint said Mr. Ferguson's plan was the best which he had seen in forty-three years' experience. His school was a large one, and he did not think Mr. Ritchie's plan would answer. He had purchased a large library, and had carefully scanned every book. In the library, it was necessary to get books to suit the children's comprehension. They would not read dry theology.

Mr. J. L. Yeomans followed in support of the above, as did Mr. J. J. B. Flint.

The choir sung "Water of Life."

Mr. Vandervoort, of Sidney, the President, Rev. Mr. Dingman, D. C. Ferguson and others followed in short speeches.

"Joyfully" was then sung by the choir, and the closing exercise having been gone through, the Convention adjourned till 2 o'clock p.m.

CHEESE MAKER WANTED.

A Cheese Maker wanted for the Hungerford Cheese Factory.
Apply to
JOHN NEWTON,
Presiden Hungerford Cheese Factory,
Tweed P. O.
Tweed, Feb. 21st, 1871. 250d-2-2w-2

WASHING DONE.

GENTLEMEN wanting washing done can have it satisfactorily performed, and on reasonable terms by leaving their address at this Office.
Belleville, Feb. 22nd, 1871. 250d-1w

St. Andrew's Church Soiree.

MASONIC MUSIC HALL,
THURSDAY Ev'g. Feb. 23rd.

BY ATLANTIC CABLE.

American Despatches.

Three Railway Accidents.

Passenger Train thrown down Embankment.

Freight Train Breaks Through a Bridge.

Collision between Passenger and Freight Train.

Several Killed and Wounded.

Expected Arrival of the High Commission.

The Coal Panic.

Fears for the Steamship *Ville de Pairs.*

BOSTON, Feb. 20—The baggage and express car of the 7 a m. train from Providence and Boston for Flichburg, were thrown down an embankment to-day at the State Farm station. B. L. Lincoln, baggage agent, was taken out senseless. Losborn, brakesman, was seriously injured in the back. The safe in the express car fell upon Mr. Hall, the messenger, and he was badly bruised. Two passenger cars went off the track but did not go down the embankment. Cyrus Collins was the only passenger injured.

CINCINNATI, Feb. 22—Last night a freight train on the Panhandle Railroad bound east broke through Bridge No 39, 12 miles east of Steubenville, and the engine and fourteen cars went down. The fireman named Hess was killed, and the engineer was slightly and one brakesman seriously injured. The train was loaded with horses, sheep, hogs, meats, &c.

A despatch says that the mail train going south over the Cincinnati, Hamilton and Dayton Railway, came in collision with a freight train at 7:45 last evening at Carrolton. The upper end of the switch had been left open. Allen Ackrey, fireman on the passenger train, was probably fatally injured. The engines and pilots were somewhat damaged and freight cars dashed together. The persons injured were cared for in the neighborhood.

NEW YORK, Feb. 22.—The Cunard steamer 'Cuba,' having on board the Joint High Commission, is not expected by her agent until to-morrow morning. They will be met probably by E. M. Archibald, English Consul at this port, and a representation of the British Legation at Washington. Should they land in time they will probably proceed the following morning to the Capitol.

There will be no municipal celebration of Washington's birthday, either in New York or Brooklyn, except the display of flags from the public buildings. The State courts will be closed but the United States Courts will sit. The stock and produce exchanges, gold board, and various banks and insurance offices will be closed; the Custom house will be open from 9 to 10 o'clock, only for the entrance and clearance of vessels.

The coal excitement promises to end in a panic, and all the dealers are evidently doing their best to produce panic prices. They now represent that there but 1,500 tons of anthracite coal in the hands of retailers for domestic uses in this city.

WASHINGTON, Feb. 22—The steamship *Ville de Paris* left this port on the 21st of l st month for Bordeaux, and as yet we have no news of her. Possibly in the confusion caused by the recent important military and civil events in that port of France, particularly in Bordeaux, has been neglected.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 22.—The Paris journals of yesterday are at hand.

The *Siecle* says that Remusal has been appointed ambassador to London and will also represent France in the Black Sea Conference. The missions at Florence and Vienna remain as at present. Senor Olozago comes to Paris as the Spanish minister.

The *Telegraph* has a special from Madrid that the Queen of Spain is dangerously ill with a fever, and has asked to receive the last sacrament. Her case is hopeless.

LONDON, Feb. 22.—The *Times* says that the New York Committee send yesterday by cable transfer £10,000 for the suffering people of France.

A letter from Trochu condemns the proposed entry of the Germans into Paris. It is said that Paris has deserved the honors of war, and advises her to shut her gates, and let the enemy open them with cannon.

The removal of the Government to Tours, or Blois is much talked about, but there is really no belief in its probability.

After the declaration of peace the National Assembly will prorogue its sitting, and upon re-assembling, will meet in Paris.

A despatch from Constantinople says the Porte recognizes the New French Government.

PARIS, Feb. 21—The 'Rappel' says the treaty of peace may be communicated to the Assembly on Saturday next.

LONDON, Feb. 22—The Queen held a Court yesterday at the Buckingham Palace. Among the persons presented by Mr. Moran, United States *charge d'affaires*, were Mrs. Nicholas Fish, Mrs. Wyckham Hoffman, Mrs. Augusta Hamilton and a daughter of Commodore Rogers. The Queen approved of the appointment of Mr. Livermore, United States Consul at Londonderry.

No stocks or markets this afternoon.

SPECIAL TELEGRAMS.

By Special Telegraph.

BROCKVILLE, Feb. 23nd, 1871.

The Grand Lodge of Ontario East met yesterday. The meeting was held in the Rooms of the Young Men's Christian Association. The attendance was very good, the Lodges in the Eastern part of Ontario being well represented. H. S. McDonald, Grand Master, in the Chair. M. Bowell, Esq., M. P., Grand Master of British North America, is present.

Amongst those present are Dr. Allen, Cornwall; Thos. Deacon, Pembroke; Wm. Robertson, Kingston; A. Mattice, Cornwall; S. S. Peck, Peterboro; A. J. Van Ingen, Henry Smith, Cobourg; W. Boulter, Demorestville; D. Marshal, Port Hope, Mr. Scott, Perth; S. S. Madden, Napanee; L. S. Guffin, Madoc; Jas. Macoun, Dr. G. J. Potts, J. G. Moore, Belleville; and about 150 others.

The following are the officers: H. S. McDonald, Brockville, Grand Master; S. S. Peck, Minden, Deputy Grand Master; Thos. Deacon, Pembroke, Associate Deputy Grand Master; Rev. J. Norris, Omemee, Grand Chaplain; Wm. Robertson, Kingston, Grand Treasurer; A. J. VanIngen, Cobourg, Grand Secretary; John G. Moore, Belleville, Deputy Grand Secretary; Wm. Makins, Kingston, Grand Lecturer; Wm. Henderson, Port Granby, Grand Director of Ceremonies.

QUEBEC, Feby. 22.

A canoe upset yesterday while crossing the St. Lawrence. Passengers and crew had a narrow escape.

A grand bonspiel which will last several days, commences to day in the curling rink.

Two storemen were arrested in the lower town for robbing their employees.

To-day being Ash Wednesday the banks and many business establishments are closed. Thermometer 7° above zero, light westerly wind, splendid weather.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

WEDNESDAY, Feb. 22

DRUNK AND DISORDERLY.

John Malyea, on the above charge, was sent to gaol for 15 days.

ASSAULT.

Abner Peterson, for an assault on John Furnia, was fined $3 and costs.

Patrick Burns was charged with assaulting Francis McConaghy. The case was dismissed without costs.

THE FISHING CASE

was brought up, and, after two or three witnesses had been examined, was laid over for a week.

Provisions—pork unchanged; hogs little doing, demand and supply alike limited; rates however unchanged. Butter—little changing hands; latest sales of store lots have been at 16 to 18c.

Ashes unchanged.

CANADA
LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
January 25th, 1871. Manager.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

Persons afflicted, however slightly, with any weakness of the chest or throat, involving either the Larynx, Trachea, Bronchial Tubes, or the Lungs themselves, should on the first symptom commence with FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES as by its uses diseases of those organs are speedily cured, and more alarming symptoms prevented.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

The Florence Nightingale of the Nursery,

The following is an extract of a letter written by the Rev. C. Z. Weizer, to the German Reformed *Messenger*, at Chambersburg, Penn.:

A BENEFACTRESS.

Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are sure, that we will teach our Susy to say "A Blessing on Mrs. Winslow," for helping her survive and escape the griping, colicking and teething siege. We confirm every word set forth in the Prospectus. It performs precisely what it professes to perform, every part of it—nothing else. Away with your Cordial, Paregoric, Drops, Laudanum, and every other Narcotic, by which the babe is drugged into stupidity, and rendered dull and idiotic for life.

We have never seen Mrs. Winslow—know her only through the preparation of her Soothing Syrup for Children Teething. If we had the power, we would make her, as she is, a physical saviour to the Infant Race. 25 cents per bottle. Sold by all Druggists.

Be sure and call for

MRS. WINSLOW'S SOOTHING SYRUP.

Having the *fac-simile* of Curtis & Perkins on the outside wrapper. All others are base imitations.

JAS. H. PECK, SECRETARY-TREASURER.
BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

Meeting of the Sidney Council.

TOWN HALL, Feb. 20.

Council met agreeable to adjournment.

PRESENT.—The Reeve, B. Rose; Deputy Reeves, J. Row and C. Armstrong; Councillors, R. E. Grass and Jas. A. Chisholm.

The minutes of last meeting were read and approved.

A communication was received from Robert Francis, Coroner, presenting an account of $7.90, expenses incurred in burying William Earnest, who was killed on the Grand Trunk Railway on the 21st January, 1871. The account was ordered to be paid.

Moved by C. Armstrong, seconded by J. Row, that the amount of School Taxes due on the non-resident lands in School Section No. 11, in the Village of Frankford, $18.33, be paid.—Carried.

A communication was received from S. T. Wilmot.

Moved by J. Row and seconded by C. Armstrong, that this Council adjourn for one hour.—Carried.

Council resumed.

C. Armstrong presented the petition of Sanger Golding, praying for a certificate to obtain a license to keep the Golding House in the Village of Frankford.—Prayer Granted.

C. Armstrong presented the petition of Dennis Brennan praying for a certificate to obtain a license to keep the Dominion House in the Village of Frankford.—Prayer Granted.

R. E. Grass presented the petition of Sydenham Vandervoort praying for a certificate to obtain a license to keep the Vanburg House in the Township of Sidney.—Prayer Granted.

C. Armstrong presented the petition of James G. Curry praying for a certificate to obtain a license to keep the Stage House in the Village of Frankford.—Prayer Granted.

Jas. A. Chisholm presented the petition of George W. Clarke praying for a certificate to obtain a license to keep the Red Lion Hotel in the Village of Frankford.—Prayer Granted.

R. E. Grass presented the petition of B. H. Vandervoort and others. Moved by R. E. Grass and seconded by J. Row, that the petition of B. H. Vandervoort and others be laid over until the 1st Monday in April, and that all parties concerned be notified.—Carried.

C. Armstrong presented the petition of A. T. Ketcheson and others. Moved by J. Row and seconded by R. E. Grass, that the petition of A. T. Ketcheson and others be laid over for further consideration.—Carried.

Moved by R. E. Grass and seconded by Jas. A. Chisholm, that James Bird, Collector of Taxes, be put on the pay-list for $4.50, as the property in question was assessed twice in 1869.—Carried.

Moved by C. Armstrong and seconded by J. Row, that the Clerk report the proceedings of this Council to the *Ontario* and *Chronicle*, if they publish on the same terms as the INTELLIGENCER, viz: gratis.—Carried.

Moved by J. Row and seconded by C. Armstrong, that this Council adjourn until the 1st Monday in April.—Carried.

HASTINGS
Mutual Fire Insurance Company.

ANNUAL MEETING.

TAKE NOTICE that the annual meeting of the members of the Hastings Mutual Fire Insurance Company will be held at the office of the Company, in BELLEVILLE, at ONE o'clock p. m., on

Saturday, March 4th, 1871,

for the purpose of receiving the annual report, and electing a Board of Directors.

JAMES H. PECK,
Secretary.

Belleville, Feb. 6. 1871. 52:4w 236:td

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION — TERMS. — The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials,
The most reliable Commercial Reports,
The fullest Telegraphic Despatches,
The best Local News,
The most reliable Legal Intelligence,
The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted.
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands, Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine, Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertised as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water, which completely cured him. Here is a man that had previously spent hundreds of dollars, doctoring for nine years, and cured at a cost of less than £n dollars.

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills.** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats, Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered.

JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey,* is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized State of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building Front Street

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS' MUSICAL MONTHLY

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD
The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH
A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞1,500 Cash Prizes.☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. Address the Publishers MUNN & CO., 37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Indisteria, Chlorosis, Cachexia, Bad Habit of System, Illseness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fœces *and this is all.* Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membrane of the internal viscera are suffering from Ulceration, Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied as an *alterative,* (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills.

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, a Doctor prescribes Blue Pills or Calomel! next som, drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that th[ree] or more prescriptions are given for,* without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, [those humours or elements that are rejected by the absorbents and lacteals as *refuse,*] the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver, skin, bowels, &c., but when, from any cause, the function of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly,* HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Chalagogue, or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely, as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty of an gorged liver, fat, spleen, disordered kidneys, sallow colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's Ready Relief** diluted in one gallon of proof spirits, will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Paints, Killers, Embrocations, Panaceas, Kings, &c., all of these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of **Radway's Ready Relief,** for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom against sickness, and can be used for the same purposes that would cost at least ($25) twenty-five dollars, and to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics,
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief,** per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacœpia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow couch. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceutists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and *Pills* are new medines, prepared on new principles, and will cure sick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,	$5 00

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress"

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in [illegible] more attractive and happy.

[illegible] and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00. to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publicatien.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 384 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS. GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH
Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

PART II.

(From Blackwood for January.)

CONTINUED.

During the month of June, and half the month of July, the work on the road went on unremittingly, "corduroying" being alone attempted; ditches were made at points only where they were essential to prevent flooding. As few of our readers have ever seen a corduroy road—may none of them ever have a ride over one!—a few lines describing its construction may not be out of place. The course to be followed through the forest having being marked out by "blazing" a line of trees, the required breadth of the road is cleared of timber and all serious obstructions, and partially levelled. Logs of from six to nine inches in diameter are then cut ten feet long, and laid close together side by side, small branches and sand or earth being strewn over them to fill up the unavoidable interstices. Such was the rough method pursued by us; but in Canada more careful labor is bestowed upon roads of this description when they are intended for more permanent use.

Before leaving Prince Arthur's landing, a deputation of Indians from the neighborhood of Fort Francis arrived to inquire what we were doing, and what were our intended movements. The party consisted of three men, two boys, and a squaw. Few of us had ever before seen the pure heathen North American Indian, and we cannot say that any of us were very favorably impressed by these specimens of that people. When near our camp, the speaker of the party, called 'Blackstone,' having lagged behind the others, was overtaken by an officer, who was driving towards the bay, and who volunteered by signs to give him a lift; the offer was good humoredly accepted. This Indian chief had never been in a wheeled conveyance before; and having, like all these wood savages, an instinctive horror of horses, the drive was gone through with more solemnity than pleasure. When he came in sight of the tents he requested permission to dismount where there was a small stream of water. Pulling from his pocket a small piece of soap, he wet it, and plastered down his long, straight, black hair with it, and tied round his head a mink skin, from which at the back stood up a row of eagle's feathers, with here and there an ermine tail hanging from them. Having thus completed his toilet, he came into camp.

An English missionary who had recently arrived from Canada, and who lived close to the beach, invited the whole party to his tent, where he gave them a good dinner—no easy matter, as an Indian will eat as much as four white men, if allowed to have as much as he likes. The feast over, the zealous clergyman thought he might improve the occasion by administering to their spiritual wants; but they no sooner understood his object than they hastily bolted from his tent as if it had been infected, such is their horror of those who seek to convert them.

The deputation was formally presented to Colonel Wolseley, and a great deal of talking ensued. The Indians call such an interview a "pow-wow," and are very fond of making long speeches at them. Many of the chiefs have great oratorical powers, and use much gesticulation when declaiming. They expressed astonishment at finding us making a road through their country without having previously made any treaty for their lands, and were very anxious to enter upon the subject of the terms we intended proposing for the extinction of their territorial rights. These men had really no just claim to the land near the bay, nor indeed, one might say, to the land lying between the hills and Lake Superior, as they never hunted there; and beyond those hills, untill you reach Rainy River, there was no land worth making a treaty about. They were told that there was no intention whatever of making any arrangements on the subject at present; but that hereafter, should the Canadian Government require any of their land, a suitable treaty would be made, when ample justice would be done them. They expressed themselves as devotedly loyal to the Great Mother—meaning the Queen—and anxious to assist their white brethren to the utmost of their power. They were made to understand that we merely wished for a right of way through their territory, and that we had no intention of occupying their lands. Promises were made to them that their head men should receive suitable presents; but that as we were pressed extremely for time, and would have great difficulty in carrying enough supplies with us to last during our tedious journey, they must not expect to receive them from the soldiers this year; that the officer who was then representing Canada at Fort Francis would arrange all particulars as to the quantities of things they were to be given, and when and where they were to receive them.

They said they would go back and inform their friends of what had been told them, and in the meantime we were welcome to help ourselves to as much wood and water along the line of route as we might require daily.

These representatives of the once flourishing tribe of Objiewas—or Chippewas, as they are indifferently called—were fine straight looking men, and moved about with a certain dignity of bearing. Never but once did any of them express astonishment at what they saw, when the oldest of the party, after long and silent contemplation of the busy scene at our crowded wharf, said, 'What a number of white men there must be in the world!' They were told to help themselves to a suit of clothes each from a shop which an enterprising tradesman had established near the camp, and, with the usual childishness and improvidence of their race, they seemed to select those articles which, of all others, were least suited for the life they had to lead—a frock-coat of the finest cloth being the garment most dear to them.

Early in July our headquarters were transferred to the bridge over the Matawan River, a most picturesque spot. Immediately below the bridge there was a fall, and below that again a series of rapids for many miles. The banks being wooded down to the water's edge, there was some difficulty in clearing sufficient space for the camp of two battalions, and the large mass of provisions which it was found necessary to collect there. Here we erected stables and rough store-houses, so that the place quickly assumed the appearance of a little village busy with life, where the noise of the blacksmith's hammer resounded from early dawn until dark. The departure of empty waggons, and the arrival of loaded ones, went on at all hours; and the noisy scene at the falls, where the boats by river from Thunder Bay had to be portaged over about 50 yards, impressed upon the stranger visiting our camps the earnestness of the work before us.

The black flies and sand flies were very troublesome at times, but a merciful Providence has only given them power to annoy man by day, so that, except occasionally, when the never-flagging mosquito buzzed round our heads at night, our sleep was undisturbed. Before leaving Canada we had heard such 'traveller's yarns' about the positive torture we should have to undergo from flies, that considerable trouble was taken to design, as a protection against them, a veil made of net, shaped like a bag open at both ends; it was to be worn round the head, with which it was prevented from coming in contact by hoops made of crinoline wire. Much expense had also been incurred in providing each boat with a can of stuff known to all salmon fishermen in North America as mosquito oil. It is made with creosote and penny royal; and when the face is well anointed with this disgusting unguent no mosquito or other winged torment will touch you as long as it is fresh. The parties engaged in bringing up the boats by river, and some of those stationed at places along the road, were occasionally glad to use the veil towards evening; but after the final start of the force from Shebandowan, the only use they were put to was for straining water through on the Lake of the Woods, where, as will be hereafter described, the water was almost opaque from the vegetable matter it held in suspension. The oil came in useful for burning in the lamps when the supply taken for them had been expended.

TO BE CONTINUED.

News Condensed.

—The Pine Grossbeak, an Artic bird has recently visited the woods of Maine.

—Prince Napoleon is in London, and will make that city his permanent residence.

—The north coast of Sitka is reported as swarming with seals.

—The harvest of Indigo, cotton and sugar has been abundant in Venezuela.

—Reports from Cuba still tell of the surrender of the Insurgents in large numbers.

—A man was butted by a ram in Walkerton, on Sunday, and killed.

—A violent storm prevailed in St. John, N.B., on Saturday, which did considerable damage.

—During 1870,100,000,000 bushels of coal were mined in the vicinity of Pittsburg.

—Massachusetts has machines which are said to represent the labor of a hundred millions of men.

—It is the intention of the Grand Trunk to proceed with its extension at Montreal at once on the Government plan.

—Mr. Brown, of Woodstock, was killed on Monday by being internally injured by the fall of a load of cedar rails upon him.

—The packing house owned by Mr. McGinnis of Kingston, with its contents, forty-five head of packed meat, was destroyed by fire on the 22nd inst.

—A despatch from Ottawa to the Montreal *Gazette* says that the elections for the Ontario Legislature will commence on the 5th of April.

—Oswego manufactures annually from 600,000 to 700,000 barrels of flour, and 10,000 pounds of starch.

—Soluble glass is coming into use in Europe for "waxing" floors, and is found to answer the purpose admirably.

—The cable expedition is still grappling for the last telegraph cable, but up to the present without success.

—Dr. Pusey is founding a new community of Anglican nuns, who are to be clad entirely in white.

—Henry Dickens, a son of the great novelist, is the latest addition to the British lyceum. He gave a reading at Bath last month.

—The moss business in Florida is becoming profitable. The article is procured in the forests, cured, packed, and forwarded to the North.

—They are talking of introducing palace street cars in some of the Eastern cities. The coming vehicles are to be lighted by gas, heated by steam, and run by compressed air.

—In Cincinnati a man recently applied for insurance on the ice covering a pond owned by him, until he could house it, but he could get no company to take the risk.

—The corn crop of the United States for 1870 was 1,100,000,000, a gain over last year of more than five bushels to the acre. The hog crop is a little over 20,000,000 tons, 15 per cent less than that of 1869.

—A young Hoosier once said to a Hoosieress, "Sal, is there anybony courtin' yu now?" And Sal replied, "Well, Sam, there is one fellow sorter courtin' and sorter not, but I reckon it is more sorter not than sorter."

—A Sante Fe despatch says that information from the Ralston silver mines states that the lead has been traced to a depth of seventy-five feet, thus setting at rest the fears that these wonderful mines might only be surface deposits.

—Augustus Lever, well-known in Canada as the designer of the Ottawa Parliamentary buildings, and in New York state as the designer of the new capitol at Albany, has received the premium of $5,000 in gold for the best plan of a new city hall in San Francisco.

L. R. Ripley, writing from Danville, Quebec, says there have been two wonderful cures of consumption here the past year by the use of Allen's Lung Balsam and it sells beyond all precedent.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.

No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.

GOING EAST.

No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

S. M. PETTENGILL & Co.,
37 PARK ROW, NEW YORK,
GEO. P. ROWELL & Co.,
40 PARK ROW, NEW YORK,

ARE our *sole* Agents in that city, and are authorized to contract for advertising at our lowest rates. 155

Daily Intelligencer.

BELLEVILLE, THURSDAY, FEB. 23.

ARRIVED.—The Steamship *Peruvian* arrived at Liverpool to-day.

NEW BRUNSWICK MINISTRY.—The Ministry of the Local Legislature in New Brunswick has resigned. Mr. Geo. L. Hatheway was sent for to form a new Ministry.

TEA MEETING.—It is worthy of remembrance that the Annual Tea-meeting of St. Andrew's Church takes place this evening in the Masonic Music Hall, commencing at 7½ o'clock p. m.

GRAND LODGE OF ONTARIO EAST.—The next meeting of the Grand Orange Lodge of Ontario East will be held in the town of Cornwall, on the third Tuesday in February, 1872.

KINGSTON AND PEMBROKE RAILWAY.—Ottawa has got its back up about the Kingston and Pembroke Railway and urges the immediate construction of the Canada Central to Pembroke. If this is built within a year they think it will kill the Kingston scheme. Meanwhile the Kingston people are holding meetings all over the proposed route, and are obtaining promises of large bonuses from the people.

FROM MANITOBA.—A despatch from Manitoba via. St. Paul to the 4th Feb. gives the following intelligence: "Dr. Schultz sues the proprietors of the *Manitoba* for defamation, for £1,000 damages. Caldwell & Cunningham have entered a cross-action against Schultz and Laurie for £11,000 damages. The Court sits on the 16th instant. Considerable snow fell lately, and the mails are irregular. No writs have yet been issued. William *Drever is out to* offer a feeble opposition to D. A. Smith in the Central Division. Schultz's chance for election in the Lower District is so slight that he is said to be going to run in the Central Division also.

The Ontario Elections.

It appears to be pretty generally understood that the elections for the Ontario Legislature will take place before many weeks. Our Ottawa advices confirm the report that they may probably come off early in April, though it is certain no definite time has been fixed. As yet there is very little interest taken in the forthcoming elections in this section of country, the people being apparently well satisfied with the course taken by their representatives in the last Parliament. Rumor has mentioned the names of several gentlemen as probable candidates, in opposition to the members whose term has expired, amongst them the name of Mr. Thomas Holden. We have the authority of that gentleman for stating that he will not be a candidate for any of the Ridings at the ensuing election of members for the Ontario Legislature. It may turn out that the rumors mentioning other prominent men as aspirants for parliamentary honors are as ground lessas that respecting Mr. Holden.

Curling Match.

The match between the Old Countrymen and the Canadians for the Gold Medal, presented by D. Pitceathly, Esq., President of the Belleville Club, was played for yesterday, and resulted in a victory for the Old Countrymen by a majority of 2 shots. It will be remembered that the first match resulted in a tie.

The score stood as follows:

OLD COUNTRYMEN.	CANADIANS.
Rink No. 1.	Rink No. 1.
T. Kelso,	E. R. Benjamin,
Geo. Ritchie,	W. H. Graham,
Jas. Robertson,	J. W. Thompson,
Geo. Neilson, skip—27	Jas. Corby, skip—15

Fire at Ottawa.

Special telegram to the Intelligencer.

OTTAWA, Feb. 23.

At 4 o'clock this morning the new brick dwelling of Mr. John Garland, on Bank street, a short distance outside the city limits, was entirely destroyed by fire. The furniture was partly saved. Loss considerable, but mostly covered by insurance.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

THURSDAY, Feb. 23

STEALING HAY.

The case of Joseph Guyette *vs.* Ephraim and James Lindsay for stealing hay, was brought up as adjourned from Saturday last. A large number of witnesses were examined. The prisoner James was discharged, there being no evidence against him, and the case as against Ephraim was laid over for a week.

—A man, aged 74, was found dead in Markham on Monday night, leaning against a fence. The jury found that he died from natural causes.

—A number of counterfeit half dollars and ten cent pieces are in circulation in Montreal. The stamping is somewhat inferior to the genuine.

Signs of the Times.

The tone of the Grit papers in Canada for a short time past, and of the speeches of the leading men in both the Ontario and Dominion Parliaments, must have led the general reader to the conclusion that bids for support were being made in quarters where aid was refused but a short time since. The organs have studiously avoided reference to the French race or French dominations. Cartier has been treated in the most affectionate manner, even to laudation. His compatriots have been described as moderate men desirous of doing justice to those outside their pale, and could they only be induced to embrace those who for years past have been thrusting out the fang that contains the poison and darting it at them, they would soon be the recipients of all the praise that sycophantic adulators could heap upon them. Witness the speech of Mr. Blake in the Ontario Legislature when moving the resolutions relative to the Scott murder. In that speech he declared his belief that no Frenchman sympathized with or justified that murder, when in his heart he knew that every French member during the session of the last Dominion Parliament not only openly expressed sympathy, but many of them justified, the act of Reil. He was also particularly anxious to have it go abroad, that he did not believe that his Roman Catholic fellow subjects had any wish or desire to establish a Province in the far west with a preponderating influence for their Church, or that the French desired to establish a second Lower Canada in Red River, with French laws and French institutions. Those who heard that speech, which was toned down and modified before being published, saw but too plainly what the speaker was aiming at. It was too transparent when viewed in the light of facts, to mislead or humbug any one. And yet this new born zeal on the part of the leader of the Grits, is devoured as real and genuine by many honest men in Ontario, whose zeal in many cases run away with their better judgment. Let them reflect on the antecedents of such men, and weigh well the motives by which they are actuated, and few will be led astray by such pretensions.

Scarcely had the Dominion Parliament been opened before we had a repetition of this desire to modify the French on the part of the Grit party. During the debate on the address, Mr. Mackenzie took occasion to sympathize with the French nation in her present time of trial and tribulation, and hoped she would soon rise from her now humiliated position to her former standard of greatness. The object was so apparent that if we are to judge from the report of the debate, it fell flat upon the House, even the French members not uttering a single cheer or giving any manifestation of approval. Mr. Mackenzie, however, was completely outstripped in advances by his second lieutenant, Mr. Mills, the member for Bothwell. This gentleman actually had the hardihood to say that had the murder of Scott never taken place there would have been few in Canada who would have found fault with the insurgents for resisting the attempt of Canada to establish her rule and power in the Red River territory. This is more than the most violent sympathizer in the House has ever dared to utter, and it was left to a thorough Clear Grit of the western stripe to thus justify insurrection, rebellion, and mob law, without ever waiting to learn what was the intentions of the Canadian or Imperial Government towards them. Yet these are the very men who are taken up, fondled and caressed by many too unsuspecting men who are honest in their desire to see rebellion crushed and murderers punished. It will prove but another example of warming the viper into life, only to sting the benefactor to death.

Trade and Navigation Returns for 1870.

Under the head of fisheries, the exports showing the largest increase are those of fresh and smoked salmon, fish preserved and spiced, fresh, salted dry, and wet, and fur or skins, the produce of creatures living on the sea.

The exports of fish oil have fallen from 271,762 gallons to 7,043 gallons.

The exports of timber and of the products of the forest generally were rather less during the last fiscal year than the year previous. The only exceptions of any note are to be found in the articles of planks and boards and saw-logs, viz:—1868-69, planks and boards, value $6,690,956; saw-logs, duitable, 53, 092; 1869-70, $8,256,599 and $158,252. The amount of duty collected on the saw-logs exported last year was $3,791,228.

Horses, horned cattle, bacon and hams are the principal articles in class 4 that have yielded an increase in the percentage of exportation. The value of bacon and hams exported in 1869-70 being $1,155,323, as against $869,746 in 1868-69, is deserving of notice, as evidence of the growing importance of the pork-packing trade, for which facilities have been given by the regulation sanctioned by the Privy Council under the law for slaughtering hogs in bond.

The exports of wheat, which in 1868-69 amounted to rather more than 2,800,000 bushels, rose in 1869-70 to upwards of 3,700,000 bushels. The coarser grains show an aggregate excess of 3,800,000 bushels exported during the last as compared with the antecedent fiscal years.

The increase in the quantity of hops exported is somewhat remarkable; exports in 1868 69 amount to $411, 842; do., 1869-70, $1, 194,379—equal to 190 per cent.

Apart from the products of our magnificent and multiplied flouring mills, and of our vast and numerous establishments for the manufacture of all kinds of lumber, the manufactures of Canada are more diversified than extensive; few manufactures beyond those specially referred to are either sufficient in number or magnitude to do more than supply or supplement the supplies of the Canadian home market. Hence the comparatively few articles of domestic manufacture that figure in the item of our export tables, under the head of manufactures.

The operations of the two or three existing sugar refineries in Canada, although of acknowledged magnitude, appeared to be confined to the home market for it does not appear by the returns that any refined is exported from any port in the Dominion. Our exported manufactures, other than those of flour and of wood, are therefore comparatively small, and if we deduct export sugar boxes which belong to the latter category of manufacture, from the statement on page 353, the the amount of exports under that head would scarcely amount to $1,500,000; exclusive, however, of the item of ships built in Quebec and sold abroad, the value which is set down at $725,080; an item of exports which, if it exists, is not mentioned in the returns from any of the ports in the Maritime Provinces, although the returns of ships built and registered in those provinces shew that ship-building, both in Nova Scotia and New Brunswick, is carried on to a far larger extent than in the provinces of Ontario and Quebec, as will be found upon a reference to statement No. 35, page 454, from which we abstract the total as hereunder:—

Built; Ontario, No. 45, tons, 4,525; Quebec, 55, tons, 19,383; Nova Scotia, 141—33,659 tons; New Brunswick, 88—35,599 tons; total, 326—93,166. Registered; Ontario, No. 60—tons, 6,186; Quebec, 109—tons, 25,452; Nova Scotia, No. 227—tons, 44,643; New Brunswick, 99—tons, 34,571. Total, No. 495—tons, 110,852.

The average tonnage of ships built in each of the four Provinces is therefore: in Ontario, 100 tons; Quebec, 350 tons; Nova Scotia, 240 tons; New Brunswick, 400 tons.

The value of foreign goods passing through the United States in 1869-70 under bond, to Canadian importers as the direct consignees, was $11,593,495. This amount which is little more than one-fifth of our importations from sea, and about one seventh of our gross importations, represents the goods in transit through the neighboring country to ports in Ontario and Quebec, from which also returns upon this point have been received. The Maritime Provinces having ports of their own on the seaboard open all the year round, do not necessarily require the intervention of American sea ports to carry on their foreign trade in winter, and hence the returns in question may be considered in a great measure, if not wholly inapplicable to their circumstances. The value of goods actually purchased in bond in the United States for Canadian markets during the same period was nearly $3,000,000, showing an aggregate amount of transit trade through that country to importers in Canada exceeding $14,500,000.

The value of goods under bond in the Queen's warehouse in Canada, on the 30th June last was $5,655,736, representing duties computed under the present tariff, of $2,356,214.

County of Hastings Sabbath School Association.

SECOND DAY.

AFTERNOON SESSION.

The opening services were conducted by Rev. H. Williams of Canifton.

Choir—"All hail the power of Jesus' name."

A. G. Northrup, Esq., opened the discussion on "How can we best interest our Sabbath Schools and missions?" In a fifteen minutes address, the speaker gave many valuable suggestions as to the best plan to pursue.

Five minutes addresses on the same subject were given by Messrs. McLatchie, Osborne, Hon. B. Flint, S. Vantassel, the President, H. Meyers and S. T. Wilmot.

Choir—"From Greenland's Icy Mountains," and "Do not be Discouraged."

The next subject for discussion was "Encouragement to labor in the Sabbath Schools," which was opened by Mr. McLatchie who was followed by Hon. B. Flint, E. Bunce, Rev. Mr. Howell, Jas. Ross, and the President in five minute addresses.

Choir—"Marching Along."

Mr. Martin introduced the next subject, "Qualifications and duties of Superintendents." He was followed by Mr. D. McLean (delegate from the Provincial Association.)

The Convention then adjourned, after the choir had sung a hymn and the benediction had been pronounced.

EVENING SESSION.

On the re-assembling of the Convention for its final session, the attendance was larger even than last night, seats being ranged up the aisles.

The choir, composed of a large number of little boys and girls under Dr. Palmer's able direction, was, as on all previous occasions, very effective and pleasing.

Rev. Mr. Wild conducted the opening services.

Choir—"Work for Jesus."

Wm. Johnson moved, seconded by Mr. Jones,

That the thanks of this Convention are due, and are hereby cordially tendered,

First,—To the Rev. John Scott, of Napanee, and D. McLean, Esq., of Toronto (delegates from the Provincial Association,) for their attendance, suggestions and valuable aid.

Second,—To Dr. W. J. Palmer, Messrs. John J. B. Flint, Miss M. Holden, Mr. W. F. Jones and the children under their care who have assisted in the service of song, thereby tendering in a very great measure to the success of the Convention.

Third,—To the Trustees of the Congregational Church for the use of their church for the day sessions, and to the Trustees of the Methodist Episcopal Church for the use of their church for the evening sessions, and

Fourth,—To the Christian public of Belleville for their kindness in opening their homes to the delegates to this Convention.

The resolution was unanimously adopted.

D. McLean, of Toronto, delivered an address on the subject, 'Religion has power to do anything,' saying religion was a power or nothing at all. He described the effect of the Word of God when it first touched the heart of the unbeliever. The grand point of Sabbath School teaching was for the teacher to feel the responsibility attaching to his position. If the teacher could only realize that the Sabbath School was only the channel through which souls were being led to Jesus, what blessed results would follow. The teacher had the right to look for the sympathy and co-operation of the children and parents. Unless they seconded the efforts of the Sabbath School Teacher, much of this work would go for nought. The prayers of a mother were a great aid in that direction. It was a power that never ceased. He strongly advised the cultivation of Bible study. A teacher would never be efficient until the love of the Bible was incorporated with his very being.

Music by the Choir.

Wm. Johnson, Esq., said the first duty of a Sabbath School teacher was to be a Christian. Their work was second only to the Christian ministry. In an address of considerable length, Mr. Johnson urged upon the teachers present the necessity of seeking to have their sins forgiven. He also urged punctuality as a very important point. The teacher should be in his place five or ten minutes before the time for commencement, so that he should talk to his scholars and greet them and gain their affections. He ought also to enter heartily into the exercises of the school, singing as well as he was able. He should not, either, allow any person to interfere with him while engaged with his class. He should be earnest in his appeals to the children. An important duty of the teacher was to visit the scholars, and salute them when meeting them on the street; never to slight them. He should attend the teachers' meetings, and should teach his scholars to be temperate. The teacher who neglected this neglected one of his most important duties.

Choir—"We must labor."

Rev. Mr. Scott, one of the delegates from the Provincial Convention, gave a short account of its meeting last year, and urged that great efforts be put forth to forward the work of Sabbath School instruction.

Mr. McLean then produced a number of queries which had been inserted in the question drawer, to all of which he gave short and pertinent answers.

A collection was then taken up, the Choir meanwhile furnishing appropriate music.

A subscription was also announced, and a sum amounting to upwards of $80 was raised.

After music by the Choir, farewell addresses of five minutes each were delivered by Hon. Billa Flint, J. W. Turner, E. Bunce, R. R. Bird, S. T. Wilmot, J. N. Yeomans and D. McLean.

The President also made a few remarks, expressing his satisfaction at the result of the Convention.

The benediction was then pronounced by Rev. R. Lewis, and the Convention separated.

Irish Protestant Benevolent Society
COUNTY HASTINGS.

Annual Meeting.

THE annual meeting of the members of the Irish Protestant Benevolent Society will be held in the MARBLE HALL, at seven o'clock, p. m., on

BY ATLANTIC CABLE.

Midnight Despatches.

LONDON, Feb. 22.—A despatch from Lille says it is rumored that peace has been signed, on the basis of which is the neutralization of Alsace and Lorraine.

Business in the north of France is improving.

In consequence of negotiations between Favre and Bismarck, during which the latter consulted the Emperor several times, the armistice has been extended till Sunday evening.

Morning Despatches.

Washington's Birthday in Vienna.

Germans at Weissenburg.

Peace said to be Concluded.

The "Ville de Paris" Safe.

Suffering of French Prisoners in Germany.

VIENNA, February 22.—Minister Jay entertained the Americans here at a supper in honor of Washington's birthday. A number of speeches were made. Mr. Jay announced that, through the courtesy of the Emperor, new materials for American history had been brought to light in the Imperial archives. Several volumes, containing the correspondence of Baron Bellen, who was sent to America by the Emperor Francis II. of Germany, had been discovered. The letters were dated at New York and Philadelphia from 1781 to 1787. Mr. Jay stated that permission had been given him to take a copy, and he hoped soon to lay these valuable records before the American people. The healths of the President of the United States and the Emperor of Germany were drunk with cordial applause.

LONDON, February 22.—An official advertisement appears in a journal at Weissenburg, giving directions for the levying and distributing of requisitions. It contains a notice to German officers and military officials that they are entitled to receive during the armistice 15 francs extra pay per day which is to be procured by special imports on the occupied territory.

BRUSSELS, February 22.—It is denied that negotiations are on foot for the transfer of the holy see to Belgium.

VERSAILLES, February 22, via London, 5:30 a. m.—The Emperor received Thiers to-day. Gen. Chanzy was present at the interview. Peace is considered concluded, though it has not yet been signed. The Germans will probably enter Paris on Sunday next, but without triumphal ceremony, and they will not remain long in the city.

NEW YORK, Feb. 23.—The steamship 'Ville de Paris,' about which some anxiety has been felt, arrived at Brest on the 6th.

A letter from Neisse, in Prussian Silesia states that the French prisoners have been compelled, during cold weather, to sleep in the open country under small canvass tents, and it appears that the sufferings caused thereby have been intense. It appears from the writer's statement that over 500 of the unfortunate men were recently frozen to death in a single night.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 23.—A Paris despatch of the 22nd says that nothing is known as yet of the Prussian terms of peace, the Figaro, says that they are conciliatory.

The *Moniteur* of Versailles says the war indemnity demanded by Germany is two milliards of thalers.

The Germans demand the immediate payment of two millions of francs by the department of Oisa and accord delay in the payment of the remaining eight millions of contributions.

Communication by all the railways leading to Paris is re-established.

The Paris Moniteur says Trochu has resigned at the request of Thiers, and retired to private life.

The disturbances at Nice have been suppressed.

The Gaulois says Lord Lyons and Chevalier Nigra, the Italian Minister, will soon go to Paris in order to afford Thiers moral support with their Governments in peace negotiations.

Dominion Parliament.

TUESDAY, February 20th.

The Speaker took the chair at 3.15 p.m.

Mr. Dunkin introduced a Bill to extend the provisions of the Census Bill to Manitoba and other Provinces admitted into the Union.

Sir Francis Hincks laid on the table an account of the expenditure and unforeseen expenses; also papers relative to the Hon. Mr. Campbell's mission to England.

Sir Geo. E. Cartier said that further returns, relative to Hon. Mr. Campbell's mission, would take about ten days to prepare.

The public accounts and returns relative to American silver were referred to the Public Accounts Committee.

Sir John A. Macdonald moved that an address be presented to His Excellency the Governer-General, congratulating him on his elevation to the Peerage, and paid him a very high compliment as a constitutional Governor, and one on whom Her Majesty had conferred many marks of her favor.

Mr. Mackenzie seconded the resolution, and also spoke strongly in favor of Lord Lisgar. After a few remarks from Sir Geo. E. Cartier, the address was read a second time, and ordered to be engrossed and presented to His Excellency by the members of the Privy Council.

Sir Francis Hincks moved the consideration of the Speech from the Throne to both Houses, which was carried.

Sir Francis Hincks moved that the supply be granted to Her Majesty, and that the House go into Committee on Friday to consider that motion. This was carried.

Mr. Stephenson asked whether any changes had been made in the mode of receiving payment by the Inland Revenue Department, and whether these have resulted satisfactorily.

Hon. Mr. Morris said certain changes had been made that had worked well and satisfactorily.

The House then adjourned at 4.25 until to morrow.

J. H. MEACHAM,
Post Master.

CANADA

LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
January 25th, 1871. Manager.

VICK'S FLORAL GUIDE FOR 1871.

The first edition of one hundred and fifty thousand copies of Vick's Illustrated Catalogue of Seeds and Floral Guide, is published and ready to send out—100 pages and an Engraving of almost every desirable Flower and Vegetable. It is elegantly printed on fine tinted paper, illustrated with three hundred fine Wood Engravings and two beautiful

COLORED PLATES.

The most beautiful and the most instructive Floral Guide published. A German Edition published, in all other respects similar to the English.

Sent free to all customers of 1870, as rapidly as possible, without application. Sent to all others who order them, for ten cents, which is not half the cost. Address

JAMES VICK,
Rochester, N. Y.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will speedily and certainly arrest the depressing influences of disease upon the nerves and muscles. It restores the appetite and induces a disposition to take on healthy flesh. It causes the formation of living blood, strengthening the action of both Heart and Lungs. It sustains the system under trying circumstances and causes the healthy development of all the organs necessary to our existence.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1869: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

CAUTION.—All genuine has the name "PERUVIAN SYRUP," (not "Peruvian Bark,") blown in the glass. A 32-page pamphlet sent free. J. P. DINSMORE Proprietor, 36 Dey St., New York. Sold by all Druggists.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed, and for sale at the *Intelligencer Office*.

For the Intelligencer.

Tommy Cods.

Walking up Front Street the other day my attention was arrested by a barrel of tommy cods at Hugh Walker's. I went in and bought a lot and then took them home, thinking what a glorious feast I would have. After handing them, all frozen as they were, to my wife, with instructions for their immediate cooking, I sat down in my easy chair, tired, and rather drowsy, enjoying the pleasures of anticipation. My thoughts were carried back to years ago, when in old Quebec, we used to make up such pleasant little cabane parties for tommy cod fishing on the river St. Charles. What fun it was to heave up a lively fellow through the ice, and without giving him time for repentance, pop him into the hot fat frizzling in the pan; or when our appetites were a little satisfied, toss the fish outside the door of the cabane, where they became, instantly almost, frozen stiff. By the way, don't I remember hearing that if you put them when frozen into cold water they would thaw out and come to life again? Of course, now I'll try the experiment, so getting a pail of water from the pump I put about a dozen into it. A long pause, and first one and then another open their mouths and gills and begin sporting round, as though they were only just awake. Now I am quite convinced by ocular demonstration of the truth of what I used to think a rather doubtful story. I shall write to the *Intelligencer* about this. I'll—" Now then are you going to sit there all night, and those fish going cold?" I found I had been dozing and my better half was shaking my shoulder vigorously. However I went to tea at once, and enjoyed my tommy cods without telling anybody the dream.

Belleville, Feb. 21st, 1871.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & CO., Homœopathic Chemists, London, England. 137-m-Th.

VICK'S FLORAL GUIDE FOR 1871.

The first edition of one hundred and fifty thousand copies of Vick's Illustrated Catalogue of Seeds and Floral Guide, is published and ready to send out—100 pages and an Engraving of almost every desirable Flower and Vegetable. It is elegantly printed on fine tinted paper, illustrated with three hundred fine Wood Engravings and two beautiful

COLORED PLATES.

The most beautiful and the most instructive Floral Guide published. A German Edition published, in all other respects similar to the English.

Sent free to all customers of 1870, as rapidly as possible, without application. Sent to all others who order them, for ten cents, which is not half the cost. Address

JAMES VICK,
Rochester, N. Y.

HASTINGS
Mutual Fire Insurance Company.

ANNUAL MEETING.

TAKE NOTICE that the annual meeting of the members of the Hastings Mutual Fire Insurance Company will be held at the office of the Company, in BELLEVILLE, at ONE o'clock p. m., on

Saturday, March 4th, 1871,

for the purpose of receiving the annual report, and electing a Board of Directors.

JAMES H. PECK,
Secretary.

Belleville, Feb. 6, 1871. 52-4w 236-td

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION.—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton Spectator, having removed to Montreal and become proprietors of the Gazette, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the Gazette incomparably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the Gazette will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the Gazette will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the Gazette is very full, and includes special despatches from all parts of the Dominion.

The Gazette is distinguished for

The ablest Editorials	The best Local News.
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature.

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The Gazette is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the Gazette, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city and by News Agents, to whom it is sent by express, at Two Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly Gazette will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N. B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Flesh-making medicine are selected and gathered with the greatest care in the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious substitutes or worthless roots can possibly be mixed with the pure.

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful with all, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted.
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the reparative process of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the Sarsaparillian Resolvent, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the Sarsaparillian Resolvent.

MARK THE CHANGE.

*A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Stomach, Bladder, Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculosis matter and other elements of disease, decomposition and decay will be dismissed in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity, **Radway's Sarsaparillian Resolvent** secures this important result that has heretofore existed in all these remedial agents advertised as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By its chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent,** aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the Ready Relief and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than $6 dollars.

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of Radway's Sarsaparillian Resolvent, Ready Relief and Pills. One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

Dr. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your Sarsaparillian Resolvent. After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your Sarsaparillian Resolvent.

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the Lady's Book contains *fourteen* each year superior (we challenge comparison) to any published in this country either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—Godey's is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the Lady's Book.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequal ed.

Terms for 1871.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various **Ulcerous** affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup,* it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure,* and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints,* arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

NORTHROP & LYMAN,
Newcastle, Ont.,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, $3 a year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

PETERS' MUSICAL MONTHLY

We do not expect PETERS' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD
The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A Journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS,"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 **Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free.

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES,

from the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illnesses, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the natural health of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agent, for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied as alteratives, (and the most popular, for it is administered in 900 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podophylum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS (which are the only perfect Purgative Pills) you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Billious attack. Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effects of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS will do all the work that the three or more prescriptions are given for, without running any risk from mercurialising or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are ejected by the absorbents and lacteals as refuse,) the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be dismissed and the nutrition adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver, skin, bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so thoroughly, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cures, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure Cholagogue or preparation of Quinine, Arsenic, or [illegible] forms of Mercury, or, in fact, any [illegible] that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from overdoses with Quinine, Arsenic, Mercury, bottled [illegible] Cures and Private Practice, pay [illegible] gorged liver, fat, spleen, disordered [illegible] colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, [illegible] Bilious Attacks, &c., than the Quinine Mixtures, Ague Cures, Cholagogues, &c., costing $1 to $2, and Radway's Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of Radway's [illegible] diluted in one gallon of proof spirits, will [illegible] equal in quantity, and superior in [illegible]

144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready Relief [illegible] cents, as a Pain Remedy, and for Family use, will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics,
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,
Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Billious Colic,	Flux,

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 25 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis and have all been started to imitate Radway's Ready Relief. Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of Radway's Ready Relief, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. Ask for Radway's Ready Relief.

New Principles of Medication.

[Viz: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing new in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacopœia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medines, prepared on new principles, and Pupils it curesick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$ 5 00
do	do	12 do	8 00

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.
MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - - $4.00 per annum
For any two of the Reviews, - - 7.00 "
For any three of the Reviews, - - 10.00 "
For all four of the Reviews, - - - 12.00 "
For Blackwood's Magazine, - - 4.00 "
For Blackwood and one Review, - 7.00 "
For Blackwood and any two of the Reviews, - - - - - 10.00
For Blackwood and three of the Reviews, - - - - 13.00
For Blackwood and the four Reviews, 15.00

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

Belleville, Sep. 1868. 122-tf 32-tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy, [illegible] and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Belleville, Aug. 19, 1870. 93

French Correspondence.

ARRAS, Feb. 4.

Is France condemned soon to be the prey of civil discords and at the same time the victim of an "endless war?" The position of this great country and brave people cannot be more heart-rending and terrible. There is satisfaction at the cessation of the massacre, naturally mixed with the bitterness of defeat. But it is to be feared the end is not yet; they are only the few—their numbers may increase daily—who, partizans of the war so long as there was a possibility of expelling the invader, considered hostilities ought to cease the moment French arms had no longer the prospects of victory, who, after the glorious defeats on the Loire, in the West, and in the North, placed their last hope on Paris. Such persons see in the fall of the capital a besieging army liberated as after the surrender of Metz, to be spread over and crush with increased vigor, the departments yet unacquainted with the scourge, and consider Jules Favre, to patriotism, has united common sense in arranging for the convocation of a National Assembly. But

"United, yet divided, twain at once,
So sit two Kings of Brentford on one throne."

Jules Favre represents one current, Gambetta another; the former would pilot the vessel of the State, tossed and shattered by the hurricane, into a port where at all events losses could be repaired; the latter, though bold and daring, might pilot the ship into an abyss.

It does seem that France is drifting into anarchy. Seventy-eight years ago the existance of the reign of terror was caused, not alone by the audacity of the bad, but also by the weakness of the good. If the latter do their duty now, history will be prevented from repeating itself. The elections now on the eve of taking place, must register what is on the lips of the people, and their disinterested friends—peace without dishonor—reasonable concessions to inevitable necessity. France has done all, and more than honor and glory required in this contest. She has no armies, no chiefs, to meet at present half a million of victory-flushed Germans and beat them back—from my heart I wish she had and could. It is better to pay the stakes, and if able, as France will be willing, take her revenge hereafter.

It is passing strange the paucity of news from Paris, and at a moment when the country is rocked with fever. [illegible] crees touching the elections from the Paris government, its delegates from Bordeaux are perplexed—not as to their course of action, but as to their ministerial functions, Gambetta bitterly complains of being thrown over in the matter of the treaty of Paris, and condemns the armistice as being concluded with a culpable lightness—and Irishman's reciprocity—all on one side. Nevertheless, he and his colleagues only hold office till relieved, and in any case he will nail his colors to the mast, and calls upon his countrymen, one and all to die, rather than yield an inch of territory. He acts upon the pride of the French in an appeal that must influence, and demands where is the citizen that would consent, would dare put his hand to a treaty giving to Prussia French soil. This oriflamme has been sped over the land—and up to the present there has been no counter-blast from Jules Favre.

According to the terms of the armistice, out of the 89 Departments, it would seem 17 will not be allowed to elect Deputies—so that the Assembly will number only 759 representatives. It is from this body's decision that peace or prolonged war, will result. Every Frenchman aged 25 is eligible as a candidate, every man aged 21 can vote, and for every 50,000 inhabitants there is to be one Deputy—thus this Department will be entitled to 15 Delegates—and that of the Seine—Paris—42. The polling will take place in the chief town an arrangement held by many to be more in the interests of the republican party than of the country. The Prefect, however, can order booth, to be open in other towns in his pashalick, according to convenience. The voting will be limited to one day, the absolute majority to be final. Persons belonging to Arras for example, though in Paris, can record their vote for their local candidate in the capital. Soldiers and sailors can vote—but the runaways who select blest retirement in London, Brussels, Geneva, are disqualified. Gambetta has decreed that the vote starts with the assumption that the Republic is a *fait accompli*—may it prove to be—that no member of any exiled dynasty is eligible for a deputyship, and above all, that those persons who were officials, or accepted as Government candidates, under and by the ex empire are disqualified to be represented in the present Assembly, which in any case is only a temporary parliament.

Judging from the dreadful hostility entertained against Bonapartism, it is not likely any of its partizans will come forward on that ticket. Nor can any pity be felt for their rejection; it is but paying them back in their own coin. The exclusion of the Count Chambord or any heir he might adopt, will not affect his arrangements, as it is only as King he will ever put foot in France, a prospect very distant. But tabooing the Orleans princes is not well received—if they are not Republicans, they are patriotic Frenchmen, esteemed by a respectable minority, and whose chances for a return to power will not be diminished by the exclusion. France is not capable, it seems, of supporting perfect liberty under any form of government, and it is to be hoped that the republic will not be jeopardized by following in the regrettable policy of previous administrations. The sovereign people must have toleration even for error.

There is a large party in the South of France, Lyons, Marseilles, and possibly Bordeaux itself, will, for the present, likely go great lengths for the Gambetta ticket. They have not been visited by the Germans, and resemble many persons whose loud patriotism is proportionate to the certainty that they will not be personally called upon to defend it. It is gratifying to remark that the more general feeling is to return deputies unshackled by any mandate, and while opposed to a continuation of the war without examination and discussion, will equally resist the acceptance of a peace at any price. The principle of a cession of a territory may be regarded as conceded—principally on Hobson's choice.

If it be true, however, that Germany in addition to keeping an inordinate slice of frontier-France, insists upon 21 first-class ships of war—the French navy in fact—along with ten milliards of francs—more than France could pay in fifty years; equal to a rate of 250 francs struck on every man, woman and child in the country or the raising of the general taxation fifty per cent—the people will prefer to be extirpated, to see France blotted out of existence, or they will rise on the invader, and

> "Come as the winds come, when
> Forests are rended;
> Come as the winds come, when
> Navies are stranded."

Their decision would be just and true. But will the doctrine of "benevolent neutrality," allow of such spoliation and rapacity? Better write *finis Gallice*, than submit. As for Pondicherry, the French would throw this colony into any fair settlement—the existence of which has to a great many, only now become known for the first time. Be these conditions true or false, they have been circulated at a delicate time.

The armistice has been strictly carried out, and with excellent temper on the part of both combatants. The only hitch, has been in the case of Abbeville—the Germans claiming its surrender, as well as a strip of literal stretching up to Dieppe. The matter has been referred for decision to Versailles. The corporation of Abbeville is known to have one million of francs in hard cash, intended to conciliate the enemy when he would knock seriously at the gates. It is natural the German would strive for the possession of the treasure-trove—their weakness for such is proverbial. In the way of preparation for renewing the strife after the armistice, as recommended by Gambetta, I honestly confess there is no evidence for such here, and while freely avowing my personal wishes to see the over-punished France rise and win, I must add, there is but little inclination either. The nation is in too deep mourning for Paris to fret anew for Bourbaki and his army. There is no more room in the heart for fresh sorrow. Bourbaki's suicide and reported death, as well as that of his wife having poisoned herself on the dreadful news, hardly are noticed—and after Sedan and Metz, the disappearance of a gigantic army in Switzerland—85,000 men—fails to move. It is said that Garibaldi has been taken prisoner with his *braves*. People ask will the great guerrilla's shift be short.

The capitulation of Paris, though known to be unavoidable, has not the less profoundly struck home the whole country. At first, people gave way to the most painful despair, a hopelessness of poignant grief, increased and maintained as the conditions of the surrender were "broken" to the nation. The only gratification left was that famine, not the bombardment, forced the brave Parisians to yield, and the only wish expressed that the conquerors might not enter within the sacred city. Take their forts, cannons, muskets and two hundred millions of ransom, but spare the humiliation of the ruthless foe bivouacking on the boulevards. The citizens must have been sorely tried for the means of subsistence or the capitulation would not have passed off so quietly.

Still there are men to be found who blame Jules Favre for a decision that will rank him among the noblest figures in history, for not first making Paris a sepulchre and then a Moscow. Only four days' rations of black-bread on Saturday, 28th January, for 2,340,000 human beings, and railways destroyed all round for sending up supplies. It was on the same day of the month, in July, I witnessed the ex-Emperor and his son leave the private railway station in the park of St. Cloud, for Metz, and listened to the *monchards* shouting after him, *a Berlin*. St. Cloud and its surroundings are now the abomination of desolation, and Metz is a German fortress.

The railways are being rapidly got into working order, the sight of miles of rusty metal—of "cuttings" feet deep in water, and weeds everywhere, where formerly a wild-flower would be varied as proof of neglected duty, is dismal. The stations closed up or battered down, and the crossings left to take care of themselves, are getting into apple-pie order. The first train passes to-night through this city from Calais, direct for Paris, by the Pontoise Junction. Only food and fuel will be conveyed for many days yet—the mail van takes an humble place between two coal-trucks—and no letters are received by the authorities unless opened and fully paid. The Tuetons will have much to do at Versailles if they read one per cent of the thousands upon thousands of communications that will pass through their hands before entering Paris. Haying to pass through the same ordeal, may account for the astonishing delay of political intelligence from everybody's "our own," in the city. Until the elections are over, on Sunday next in the capital, no outsiders will be allowed to enter. Further, the supply of food will be then very fair, as from all points of the compass, tons upon tons of provisions of every kind are blocking up the stations, and train upon train puffs slowly by, the engines even look as if they were laboring in a holy cause. I have seen baskets of fresh meat "waiting" their turn, which will have time to be salted before that arrives—sacks of potatoes, crates of cabbage, carrots and beet bundles, rather than tubs of butter—all in expectation, that every fresh engine trails at last some empty waggons. There is generally one coal, for every two food trains, and the coal is made up into sacks of one hundred weight, doubtless to economise time in distribution on arrival.

I have just received a letter from Bordeaux, on which perfect reliance may be placed, that the war to "the bitter end policy" of M. Gambetta does not meet with any general approval, and that hints uttered that it is better to allow the forthcoming Assembly, and not the fiery orator to speak for France. The theatre, the finest in France, is being fitted up as the place where the "House" will meet. The various hotels have been noticed, to provide accommodation for as many Deputies as they can, and the several Ambassadors are said to have received instructions to be ready to fall back on Paris. Such of the new Deputies as may be unable to do so, will have their personal and travelling expenses paid.

—The Chinese are proving very troublesome in Jamaica.

—It is rumored that Adam Brown of Hamilton is to run for the Local Legislature at the coming elections,

GRAND TRUNK RAILWAY.

Daily Intelligencer.

BELLEVILLE, FRIDAY, FEB. 24.

PEACE AT LAST!

Our cable despatches of this afternoon bring the gratifying intelligence that peace between the French and German belligerents, so long and anxiously looked for, has at length been concluded—that the work of slaughter has been finally checked on the fair fields of unhappy France. Our prayer is that the treaty which has just been signed may long endure between the countries.

POLICE COURT.—The reporters who sharpened their pencils in anticipation of business at the Police Court this morning, were disappointed. There wasn't any business to note.

FIRE.—On Wednesday, the 22nd instant, the dwelling owned and occupied by Fletcher Dunham, Esq., of Kaladar, near the village of Flinton, was destroyed by fire. Most of the contents were destroyed. There was no

PERSONAL.—The many friends of the Hon. ROBT. READ, M. P., will be glad to learn of his safe arrival from England. The hon. gentleman reached here this afternoon, and appears in the enjoyment of excellent health.

FIRE AT PLAINFIELD.—We regret to learn that the hotel at Plainfield, kept by Mr. Charles Papineau, was with a portion of its contents, destroyed by fire on Thursday morning, 23rd inst. The fire originated in the north-east corner of the driving shed, and speedily spread to the house, from which most of the furniture was removed. Mystery hangs over the cause of the fire. There was no insurance on Mr. Papineau's effects.

THE WEATHER.—From the mild weather of the last few days, the sleighing has suffered considerably. The roads are now soft, in many places covered with water, and great difficulty is experienced by teamsters in hauling heavy loads. In some exposed spots, the mud is already beginning to show itself. A fall of snow and a week or two more of good roads are very desirable. Numbers of promenaders grace the street every afternoon.

SABBATH SCHOOL CONVENTIONS.—Stimulated by the success which has attended the holding of the County Sabbath School Convention, and the benefits flowing therefrom it has been determined, by those interested, to hold a series of Conventions for the Townships of Thurlow, Sidney, Rawdon, Tyendinaga, and Huntingdon. Thurlow opens on the 7th March, and the others on the following days in the order above given. It is to be hoped that success will follow this effort at mutual improvement on the part of Sabbath School teachers and others.

GRAND ORANGE LODGE OF WEST ONTARIO.—The following are a list of the officers elected at the late Annual Meeting of the Grand Orange Lodge of West Ontario, held at London:—Bro. Dalton McCarthy, Barrie, Grand Master; Bro. W. W. Connor, Bayfield, Deputy Grand Master; Bro. M. Parkhill, King, Associate Deputy Grand Master; Rev. Dr. Lett, Collingwood, Grand Chaplain; Bro. J. H. Bessey, St. Catherines, Grand Treasurer; Bro. Thos. Keyes, St. Catherines, Grand Secretary; Bro. J. Doupe, Angus, Deputy Grand Secretary; Bro. W. McClene, Holland Landing, Grand Lecturer; Bro. John Orr, Brantford, Grand Director of Ceremonies.

PI SIGMA SOCIETY.—This Literary Society gives an entertainment in Albert College Chapel this evening, commencing at 7½ o'clock. Among the other articles on the programme is a debate, 'Ireland should have a Parliament separate and distinct from England.' Messrs. Barton and E. McMahon will support the affirmative, and Messrs. J. A. Carman and P. L. Palmer will argue the negative. The audience will be left to decide. Profs. Bell and Dawson will give dialectic readings, and President Carman will deliver an address. Music, Recitations, etc., make up the remainder of a lengthy programme.

WESTMINSTER REVIEW.—This quarterly for January, has come to hand, from the publishers, Leonard Scott Publishing Company, New York. Its contents are made up of the following:—Literature of Diabolism and Witchcraft; Professor Grote and the Utilitarian Philosophy; Poetical Writings of Mr. Dante Gabriel Rossetti; Social Condition of England under Henry VIII; Sir H. Bulwer's Life of Lord Palmerston; Future of the Railway in the United States; France and Germany; Contemporary Literature, &c.

Canada's Claims.

Those croakers who have so loudly complained, in advance of the sitting of the Joint High Commission for the settlement of the Alabama claims and other questions pending between Great Britian and the United States, that the interests of Canada were about to be sacrificed, will find the ground for their sorrow greatly removed by the news by telegraph from Washington this morning. The despatch to which we refer bears an official character. It announces that the Commission will commence its sittings next week, and that the Canadian claims for compensation for damages caused by the Fenians during their "raids" will be considered. We sympathize with the sender of the telegram, who seems exceedingly despondent at the prospect. Doubtless, before the Commission concludes its labors, he will find that justice—which is altogether likely not to be overlooked in the matter—is even-handed.

Public School Act.

The following is a summary of the several clauses of the new School Act so far as it relates to the Public Schools. The clauses relating to Grammar Schools we will give in a subsequent issue.

The first clause provides that all common Schools shall hereafter be known as Public Schools, and that they shall be free throughout the province, except in such cities, towns and villages as the School Trustees may deem it expedient to collect from the parents and guardians of children a sum not exceeding twenty cents per month per pupil to defray the cost of text books, stationery, and other contingencies.

The second clause makes incumbent on each school corporation to provide adequate accommodation for all children of school age in the municipality.

The third is the compulsory clause which requires that all children from the age of seven to twelve shall be compelled to attend school for at least four months in each year, unless where a child proves refractory and then he is to be sent to an Industrial School. The clause does not provide, however, that Roman Catholic children shall be compelled to attend a Public School, or that Protestant children shall attend Roman Catholic Schools.

The fourth clause gives to Police Magistrates, in cities or towns, or to any magistrate in villages and townships, power to impose upon the parents or guardians of such children as do not attend school for the prescribed time, five dollars for the first offence, and double the penalty for each subsequent offence, except in cases of extreme poverty. The complaint shall come from the trustees.

Clause five provides that in each county or union of counties, there shall be one or more School Officers, to be called County Inspectors, who shall have charge of not more than one hundred and twenty, nor less than fifty schools each; provided that it shall not be necessary to appoint more than one officer in each riding of a county; and further, that in counties containing any municipality wherein the French or German language is the common or prevailing language, an Inspector may have charge of any number of schools not less than forty.

Clause six declares that each city or town shall be a county for the purposes of this Act: and the Inspector shall be called the City or Town Inspector, and shall possess all the powers of a County Inspector in such city or town, except such as relate to investigating and deciding on school trustee election complaints, which now by law devolve on the county judge.

The qualifications of county, city, or town Inspectors shall, according to clause seven, from time to time, be prescribed by the Council of Public instruction, which shall determine the time and manner of examination of candidates for certificates of qualification, and grant them; and no one not holding such certificate of qualification shall be eligible to be appointed an Inspector.

Clause nine defines the powers of Inspectors, which shall be made the same as those now exercised by "Local Superintendents.

According to clause ten the remuneration of Inspectors shall be determined by the Board appointing him, but it shall not be less than five dollars a school per annum and expenses. The Government shall also pay five dollars per school per annum.

Clause eleven has reference to the examination of teachers. The examining bodies shall be appointed, in cities, by the Boards of School Trustees; in counties, by the County Councils, and shall consist of the county or city Inspector (as the case may be) and two or more other competent persons, whose qualifications shall be prescribed by the Council of Public Instruction.

The twelfth clause, referring to the examination of teachers, is in these words:

"It shall be the duty of the Council of Public Instruction, from time to time, by a committee of its appointment, or otherwise, to prepare and prescribe a programme and papers for the uniform examination and classification of Public School teachers; Provided, that first class certificates of qualifications of teachers shall be awarded by the Council of Public Instruction only, and second and third class certificates by county and city Boards of Examiners only; And provided also, that first and second class certificates, given under the authority of this Act, shall be permanent during the good behaviour of the holders, and valid in all the municipalities of the Province; Provided likewise, that all existing certificates of qualification of teachers shall remain in force in their respective Counties on the terms and conditions of the Act under which they were granted, and that upon their ceasing to be valid as provided by law, they shall be renewed from time to time under the regulations and programmes prepared under the authority of this Act; Provided furthermore, that all Local Superintendents of Schools shall continue in office, and discharge their duties as heretofore until provision shall be made for the appointment of County Inspectors, under the authority of this Act."

Clause thirteen declares that by the training of teachers, the programme of studies, the selection of text-books, and special regulations, to provide for teaching in the public schools the elements of Natural History, Agricultural Chemistry, Mechanics and Agriculture.

By the fourteenth clause the municipal council of any township may, if the resident householders and freeholders desire it at public meeting assembled, form the township into one school municipality, as in each city and town, and establish a Township Board of Public School Trustees.

The fifteenth clause provides that after the present year no school section shall be formed which shall contain less than fifty resident children between the ages of five and sixteen years.

The sixteenth clause is a lengthy one providing for appeal from the formation or alteration of School Sections.

By the seventeenth provision is made for the appointment of arbitrators where necessary to determine the price to be paid for lands taken as sites for Public Schools.

The eighteenth and nineteenth clauses have reference to minor details connected with the formation or alteration of Union School Sections.

By the twentieth clause power is given to School Boards to provide residences for teachers in the same way as they do school sites at present.

The five following clauses are of minor consequence. The 27th clause provides for the settlement of differences between trustees and teachers by county judges and the next has reference to the same subject.

For the Intelligencer.

Report of St. Andrew's Church Soiree.

BY A WAYFARER.

Among the varied auxiliaries impressed into our service, with a view to fulfilling the objects of our existence, our social instincts uniformly point to the principle of association.

Deprived of this single means for carrying out our designs, it is difficult to conceive the accomplishment of any important purpose, involving the amelioration of our physical condition, or the elevation of our social status. Convinced of the expediency of conceding to this element a prominent position in our system of ethics, societies have from time to time, but especially of late years, been formed with a view of meeting every imaginable contingency in the path of progress, and removing all possible obstacles to the march of moral improvement. But while earnestly engaged in these laudable efforts, may it not be well to remember and guard against the danger of an extravagant excess; since the development of the principle for which we are so zealously contending, under the antagonistic principles of a corrupt nature, culminated in the defiant projection of the Tower of Babel. Through the sanctifying influence of evangelical Christianity, we confidently look for better results, and think we perceive in the vista the tiny cloud which is destined to bring copious and refreshing showers of the Divine favor, on a community already very highly favored with most excellent [illegible] formation. We therefore look upon the varied activities to which we have reference, as being all excellent in their way, and undesirable as it would be to appear invidious, yet if forced to express an opinion, or to select a measure from the multitude, supremely appropriate, and of higher commendation, we should unhesitatingly point to such as have for their object the supplementing of funds for religious or benevolent purposes. Many laudable efforts of this kind, have within years recently past, been made by our zealous citizens, in the interest of familiar schemes with very gratifying results. But while according to numerous efforts in the past, the mede of praise so justly due to them, and as each in succession acquired a higher celebrity over its predecessor, it will be no detraction from the merits of any to accept the universal decision that owing to the perfection displayed in the co-operative system, in connection with other propitious circumstances, the affair of Thursday evening must be admitted to be the crowning effort of the season.

At eight o'clock John Bell, Esq., took the chair, and requested the Rev Mr. Wild, to ask a blessing. During this ceremony, if truth must be told, there was, at least, one wandering eye. The brilliant *coup d'oeil* from the festive board at once convinced us that the acknowledged taste of the Belleville ladies had been most happily displayed in the arrangement of a group of tables, whose furnishings seemed more adapted to that centre of fashion, refinement and luxury, the saloons of the Tuilleries, than to the unpretentious halls of a Canadian town. Meantime the company, with compressed lips and eager eye, gave the strongest assurance that they meant business. A sortie was contemplated, when all in readiness the attacking party with wonderful celerity and strategic purpose, stood face to face with the serried ranks and unprotected columns stationed in their front. The battle cry was "War to the knife," and the motto, "No Quarter." The engagement continued just an hour, at the expiration of which the victors retired from the scene in good order, laden with the spoils of the vanquished, and laughing at the discomfiture of the foe. The carnage was frightful, and the scene never to be forgotton. Limbs, legs and lacerated flesh, literally lay tangled together on the theatre of action, to be in due time utterly consumed by a more ignoble, but perhaps, not less enthusiastic enemy.

Philosophy fails in furnishing a key to the indurated heart of a triumphant despot.—From the ranks flushed with victory, came exultant shouts for music, which are promptly responded to by the whole band striking up appropriate airs, which, executed in a style of artistic excellence, were hailed at the close with prolonged applause.

Among the gentlemen on the platform, we noticed the Revd's. Messrs. J. C. Smith, Lewis, Burton, Ritchie, Carman and Wild. Dr. Palmer, Prof. Coleman, Messrs. Robertson, Bell, Neilson and Lazier, the luminious, eloquent, and humorous addresses of those who spoke were highly appreciated and loudly applauded.

For possession of the palm in music, success was constantly oscillating betwen vocal and instrumental, till finally Mrs. Harrison's and Miss Meudell's inimitable warblings, were admitted to have turned the scale in favor of the former. Mr. Ritchie's admirable reading of an extract from the writings of Edgar A. Poe, was received with unbounded enthusiasm.

The quota of the evening's entertainment by the choir, was most heartily appreciated and rapturously acknowledged.

The Chairman's happy suggestion, that the financial proceeds of the evening should be appropriated to the purpose of laying the corner stone of the new Church, was received with universal cordiality.

The proceedings throughout were marked by the greatest hilarity and good humor, and about a quarter past ten o'clock, the happy company, after giving full expression to the loyalty which pervades the entire citizenship of Belleville in the spirit-stirring strains of the National Anthem, retired to their respective homes in the best of humor with themselves, and at peace with all animate creation.

Belleville, Feb. 23, 1871. G.

For the Intelligencer.

School Exhibition, Canifton.

On Wednesday evening last, we had the pleasure of attending an Exhibition, held in the Brick School House, Canifton, which was, on the occasion, crowded to its utmost capacity. Mr. M. R. Canniff was called upon to conduct the proceedings of the evening, which he did in a very satisfactory manner. The evening's entertainment consisted of Recitations, Dialogues, Music, &c., in which the scholars of the School acquitted themselves very creditably, reflecting the greatest credit on Mr. Faulkner and Miss Helen McTaggart, their teachers. The music by Miss Laura Nicholson, Miss Bessie Lingham, and Messrs. Reid, VanNorman, B. R. and J. M. Wolever, were heartily applauded. "The stage struck Hero," was sung by Mr. Paul LaRue. The comic songs by Mr. Harvey Henderson, of the Belleville Dramatic Association, were loudly encored. "The last days of Herculaneum," by Mr. Frederick Sanderson, also, "Clacking Women," by Mr. Wellington Canniff, were well rendered. "The Rival Speakers," by Messrs. E. Brook and D. Gunsolus, was deservedly applauded. In the Dialogue's "The Enrolling Officer" and the "Country Cousin," Miss Helen McTaggart and Miss Edith Nicholson, played their parts admirably well. In the Dialogue, "What becomes of a Loose Tongue," Miss Alice Nicholson and Mr. W. Canniff performed their parts so as to merit great credit. "The Gentleman and his Irish Servant" was very well rendered by Mr. James Walsh and Mr. Paul LaRue. The programme being of too great a length, several pieces had to be omitted. The entertainment was very satisfactory to all present, and was closed by singing "God Save the Queen." The amount received was $28.

A VISITOR.

Canifton, Feb. 23rd, 1871.

SPECIAL TELEGRAMS.

(*By Special Telegraph.*)

DEDICATION AT ODESSA.

ODESSA, Feb. 24.

The new M. E. Church in this place was dedicated to the worship of God to-day by the Rev. Dr. Richardson, Bishop of the M. E. Church in Canada. The Rev. Dr. McCarty, from the United States preached a very able and eloquent dedication sermon. The meeting was largely attended. At night they sat down to an elegantly furnished table, by way of tea meeting, after which the Rev. Dr. McCarty gave them a very intellectual and intelligent lecture. Subject, "God in History," which was listened to with breathless attention. About $1,000 dollars was raised, which liquidated the debt on their splendid little church.

FROM QUEBEC.

QUEBEC, Feb. 24.

A meeting to sympathize with the Pope is to be held on Sunday, March 5th, at Lavell's University. Leading gentlemen will deliver addresses.

One of the storemen arrested a few days ago has been sentenced to two months in jail.

The Gugy and Brown case still attracts attention. This is the 10th day.

Two small houses were burned at St. Sauveur yesterday.

The thermometer controversy, which agitated Quebec this winter, will now be settled or intensified by the action of the authorities in placing a standard instrument at the post office.

Stock market active; many transactions reported.

Weather to-day mild and rainy; streets covered with ice. Thermometer 28° above zero; barometer 29.75.

—Mr. Mackenzie, M. P., has been nominated by a Reform Convention to run for West Middlesex for the Local Legislature.

Dominion Parliament.

THURSDAY Feb. 23.

The Speaker took the chair at 3:15 p.m. After routine business, Sir John A. Macdonald presented supplementary papers relative to fisheries.

Mr. Jones (Leeds), asked whether the Government instituted an enquiry respecting the accidents and delays on the Grand Trunk line.

Mr. Langevin said the returns required by law had been made; but as there were no complaints, there had been no investigation. The Grand Trunk had carried the mails with greater rapidity this winter than last.

Sir John A. Macdonald said the Government had under consideration a measure for the erection of a Supreme Court.

Sir J. A. Macdonald stated that a measure for the abolition of postage on Canadian newspapers was under consideration.

Sir F. Hincks, in reply to Mr. Cheval, said it was the intention of the Government to withdraw the silver 20 cent coins, and it remained with the public to take them to the banks.

Mr. Blake moved for the correspondence between the Canadian and Quebec Governments, and the Canadian and Ontario Governments, touching Provincial arbitration and award.

Hon. Mr. Chauveau hoped the motion would be amended so as to include the address from Quebec to the Governor-General on the arbitration.

Mr. Godin said Quebec could not admit of the legality of the arbitrators' decision, and would move an amendment against that part of the motion containing the acknowledgement of the decision.

Sir John A. Macdonald would send down all the papers; but they would not interfere with the legality or illegality of the award.

Mr. Fournier contended that the award was illegal, owing to the absence of one of the arbitrators. He moved in amendment that the House declare the award null and void.

Afeer some discussion the motion was withdrawn.

The House adjourned at 6 o'clock.

Midnight Despatches.

Peace Considered Certain.

Disaffection in Ireland.

The Entry.

VERSAILLES, Feb. 22, via LONDON, 5:30 a. m. Feb. 23.—The Emperor received Thiers to-day. General Chanzy was present at the interview. Peace is considered concluded, though it has not yet been signed. The Germans will probably enter Paris on Sunday next, but without triumphal ceremony, and they will not remain long in the city.

NEW YORK, Feb. 23—The *World's* special of London 23 says Parliament was startled to-night by the declaration of Lord Hartington that dissatisfaction in Ireland existed to such an alarming extent that it would be necessary to appoint a select committee to ascertain the causes. The tories are exultant at this evidence of failure in the Irish policy of the Government.

PARIS, Feb. 23—Information has been received from Versailles that it is determined that a portion of the German army shall march through Paris on their return home. Thiers continues vigorously to oppose this, warning the Germans of the responsibility they will incur. A placard was posted on Monday in the student's quarter, appealing to the inhabitants to make a last struggle should the Prussians enter the city.

American Despatches.

More Troubles in Hayti.

Another Revolution Threatened.

The Coal Miners' Strike.

Steamship Arrived.

The Joint High Commission.

Canadian Claims to be Presented.

NEW YORK, Feb. 24.—A 'Herald' despatch from Kingston, Jamaica, says: It is rumored at St. Thomas that a revolution had broken out in Hayti, with the object of placing Salamons in the Presidential chair. Salamons is in Europe, but is expected at St Thomas immediately. A proclamation has appeared at St Thomas from Cupotillo, calling upon all true Domincans to drive Baez from the country and preserve Dominica. It speaks of the country as being sold like a piece of merchandize.

The papers this morning are bitter in their denunciation of the coal swindle, and term it merely a conspiracy of capitalists to crush the working men.

The steamship 'Nebraska' from Liverpool, has arrived.

WASHINGTON, Feb. 24—The Joint High Commission will begin its labors next week. All the members on the part of Great Britain, and all the American members except ex-Attorney-General Hoar, are in Washington. It seems likely that under the loose wording of the agreement the Canadian claims for damages caused by the Fenian raids will come before the Commission. Earl Kimberly's letter to the Governor-General of Canada, in which he urges that the claims arising out of the Fenian invasion be presented to this Government for settlement at this time, caused quite a little sensation in administration quarters, and is the subject of comment among the members of the Cabinet. Secretary Fish takes a different view upon the subject.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

PEACE.

TREATY OF PEACE SIGNED TO-DAY.

ALSACE AND LORRAINE CEDED.

GERMANS WILL NOT ENTER PARIS

LONDON, Feb. 24, 4:30 p.m.—The *Standard* has a special from Versailles which announces that a treaty of peace was signed to-day by Thiers and Bismarck.

Some of the details are not yet announced, but all will be finally settled to-morrow. France pays to Germany 300,000,000 of thalers. Alsace and Lorraine, including the cities of Metz and Nancy, are ceded to the Germans.

The German army will not enter Paris.

The Emperor William leaves on Monday for Berlin.

The following precedes the cable just sent:

LONDON, Feb. 24—The evening edition of the *Times* has the following special from Versailles to-day:

Bismarck has doubts of the conclusion of peace at this time. France has asked a prolongation of the armistice. Hostilities will be renewed at midnight on the 29th. The guns of the forts have been turned towards Paris. A long conference was held to-day.

BREMEN, Feb. 24—A telegraphic order received from Versailles directs the immediate liberation of all French hostages.

—It is rumored in Montreal that Mr. Hugh Allan and Mr. Brydges are to be brought ou as candidates for the representation of Montreal Centre and West in the House of Commons.

—The coroner's jury in the case of the victims of the New Hamburgh disaster, brought in a verdict, laying blame that the patent brakes were not applied effectively on the express.

CANADA LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief. It soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will speedily and certainly arrest the depressing influences of disease upon the nerves and muscles. It restores the appetite and induces a disposition to take on healthy flesh. It causes the formation of living blood, strengthening the action of both Heart and Lungs. It sustains the system under trying circumstances and causes the healthy development of all the organs necessary to our existence.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * *

I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,

CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1868: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

PRESIDENT—MACKENZIE BOWELL, M.P.
VICE-PRESIDENT—G. H. BOULTER, M. D., M. P.
DIRECTORS—Hon. ROBT. READ, M. P., JOHN COOK, Esq., R. W. WILLIAM, B. A., M.D., LEWIS CRUICKSHANK, Esq., ROBERT E. GRASS, Esq., SAMUEL GILBERT, Esq., JOHN ROW, Esq.
JAS. H. PECK, SECRETARY-TREASURER.
BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

NEW FORM of Summons, Special Summons, Executions, Garnishees, &c., now printed, and for sale at the *Intelligencer Office*

To Canada's Sons.

Ever be loyal, be honest and true,
To the gift bequeathed by your fathers to you;
Ever uphold fair Canada's land,
The brightest on earth, with heart and with hand.

Be true to your mistress, the fairest you see,
But first in thy heart be thy country to thee;
Let her name be your watchword, her right to uphold,
Her honor and fame, as pure as of old.

Be ready to spring at the country's call,
Her shores to keep free, or with her to fall;
Land of thy birth, 'tis thy heritage free,
And to bleed in her cause an honor to thee.

Let the stroke of thy vengeance fall heavy and swift
On the foolhardy foe, who would venture to rift
The soil of thy fathers, whose blood stains the land
That's left to thy care, to the strength of thy hand.

Let thy courage, which sleeps in peaceful repose,
Take note of the warning, and burst on thy foes
Like the strength of the tempest, the hurricane's roar,
When the wild waves are dashing on the ice bound shore.

Keep thy country as sacred, as free as the air,
And when the foe comes, if come he should dare;
Let him see that her virtue in war is not flown,
That she'll honor the brave, but the coward disown.

The Good Old Daze.

BY JOSH BILLINGS.

How I do long (once in a while) for them good old daze.

Them daze when thare was more fun in 80 cents than thare iz now in 7 dollars and a half.

Them daze when a man married 145 pounds of woman, and less than 9 pounds (awl told) of ennything else.

How I do long for them good daze when edikashun konsisted in what men did well.

Them daze when decons were as austere as hoss-reddish, and ministers preached to men's souls insted of their pokets.

Them daze when polyticks was the exception and honesty the roole.

Them daze when lapsdorgs wunt known, and when brown bread and baked goose made a good dinner.

Them daze when a man who wasn't bizzy was watched, and when wimmen spun yarn to knit stockins.

How I do long for the good old daze when now and then a gal baby was called Jerusha, and a boy wan't spilt if he was named Jerrymier.

And ye who have the fethers and fuss of life, who have the codfish of wealth without sense under your nose, cum beneath this tree and long for an hour with me for the good old daze when men were ashamed to be fools, and wimmin were afraid to be flirts.

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION.—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT

OF

THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports.	The most reliable Legal Intelligence.
The fullest Telegraphic Despatches.	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW

CHEMICAL PRINCIPLES

APPLIED IN THE CURE OF

Chronic and Wasting Diseases.

DR. RADWAY'S

SARSAPARILLIAN

RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heal, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the [illegible] *Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the* **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tubercoulous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills** and **Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than $5 dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West, March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.

GODEY'S LADY'S BOOK

For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA,

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalied; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building Front Street

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this ***SARSAPARILLA***: ***St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears***, and other eruptions or visible forms of ***Scrofulous*** disease. Also in the more concealed forms, as ***Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia***, and the various ***Ulcerous*** affections of the muscular and nervous systems.

Syphilis or ***Venereal*** and ***Mercurial Diseases*** are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. ***Leucorrhœa*** or ***Whites, Uterine Ulcerations***, and ***Female Diseases***, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. ***Rheumatism*** and ***Gout***, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also ***Liver Complaints, Torpidity, Congestion*** or ***Inflammation*** of the ***Liver***, and ***Jaundice***, when arising, as they often do, from the rankling poisons in the blood. This ***SARSAPARILLA*** is a great restorer for the strength and vigor of the system. Those who are ***Languid*** and ***Listless, Despondent, Sleepless***, and troubled with ***Nervous Apprehensions*** or ***Fears***, or any of the affections symptomatic of ***Weakness***, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and al Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of ***Croup***, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled ***Consumption*** is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the ***Cherry Pectoral.*** So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the ***Cherry Pectoral*** they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the ***Cherry Pectoral*** in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does ***Cure***, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the ***AGUE CURE*** daily.

For ***Liver Complaints***, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 60 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS' MUSICAL MONTHLY

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household. Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **$1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

---

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Indisteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, or accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE

THEORY OF PURGATION

APPLIED TO THE

LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S

PERFECT

PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* Such agents, for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In RADWAY'S PILLS [which are the only *perfect Purgative Pills*] you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack, Doctor prescribes Blue Pills or Calomel; next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for, without running any risk from mercurializing or salivating the system.*

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*), the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure Cholagogue or preparation of Quinine, Arsenic, [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively [illegible] as

Radway's Ready Relief.

No, not one. Thousands, from [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private [illegible] gorged liver, fat, spleen, disorders [illegible] colored skin, and hundreds of [illegible] symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers Chills Bilious Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to $3, and [illegible] Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirit will give you equal in quantity, and superior in [illegible]

744 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of [illegible] way's Ready Relief.

One bottle of Radway's Ready Relief [illegible] cents, as a Pain Remedy, and for Family [illegible] will secure every household freed [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels,
Congestion of the Lungs
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH
HEARTBURN, SICK HEADACHE,
DIARRHEA, DYSENTERY,
COLIC,

Wind in the Bowels.
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic. Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacopia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medicines, prepared on new principles, and *Pupils* ll ouresick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,	$ 5 00
do do	12 do	8 00
Half square,	6 months,	12 00
do	12 do	20 00
One square,	6 do	20 00
do	12 do	32 00
Two squares,	6 do	30 00
do	12 do	50 00
Three squares,	6 do	40 00
do	12 do	65 00

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:

THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.

MONTHLY:

Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - - - -	10.00	
For Blackwood and three of the Reviews, - - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of Imitation so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

Terms—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring Patents.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

BLANKS of every description for sale at *The Intelligencer* office.

H. ROSENBERG.
Belleville, Sep. 1868. 122-tf 32-tf

UNDERTAKING.
G. S. TICKELL,
Upholsterer, Undertaker, &c.
Front Street, Belleville,

BEGS to apprise those whose duty it may be to arrange for the interment of their deceased friends, that he has a **First-Class HEARSE,** and keeps constantly on hand Coffins, Burial Robes, Scarfs, Hat Bands, Coffin Plates and Trimmings, and all that is requisite provided at the shortest notice, in the best manner, and on the most reasonable terms.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other. Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10 00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 Broadway, New York.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. White having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

The Ontario Farmer will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer,* and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer,* as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

Subscription Price, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World.

With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges.

Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Belleville, Aug. 19, 1870. 93

The Lost Sheep.

There were ninety and nine that safely lay
In the shelter of the fold;
And one was out on the hills away,
Far off from the gates of gold:
Away on the mountains wild and bare—
Away from the tender Shepherd's care.

"Lord, thou hast here thy ninety and nine:
Are they not enough for thee?"
But the Shepherd made answer, "This of mine
Has wandered away from me;
And although the road be rough and steep,
I go to the desert to find my sheep."

But none of the ransomed ever knew
How deep were the waters crossed;
Nor how dark the night that the Lord passed through,
Ere he found his sheep that was lost,
Out in the desert he heard its cry,
Sick, and helpless, and ready to die.

"Lord, whence are those blood-drops all the way
That mark out the mountain's track?"
"They were shed for one who had gone astray
Ere the Shepherd could bring him back."
"Lord whence are thy hands so rent and torn?"
"They were pierced to-night by many a thorn."

And all through the mountains, thunder riven,
And up from the rocky steep,
There rose a cry to the gates of heaven,
"Rejoice, I have found my sheep!"
And the angels echoed around the throne,
"Rejoice, for the Lord brings back his own!"

Little Sower.

How to be Handsome.

Most people like to be handsome. Nobody denies the great power any person may have who has a good face, and who attracts you by good looks, even before a word has been spoken. And we see all sorts of devices in men and women to improve their good looks—paints and washes and all kinds of cosmetics, including a plentiful anointing with dirty hair oil.

Now not every one can have good features. They are as God made them; but almost any one can look well, especially with good health. It is hard to give rules in a very short space, but in brief these will do:

Keep clean, wash freely, and universally with cold water. All the skin wants, is leave to act freely, and it will take care of itself. Its thousands of holes must not be plugged up.

Eat regularly and simply. The stomach can no more work all the time, night and day, than a horse; it must have regular work and regular rest.

Good teeth are a help to good looks. Brush them with a soft brush, especially at night. Go to bed with clean teeth. Of course to have white teeth, it is needful to let tobacco alone. Any powder or wash for the teeth should be very simple. Acids may whiten the teeth, but they take off the enamel or injure it.

Sleep in a cool room in pure air. No one can have a clean skin who breathes bad air. But more than all, in order to look well, wake up the mind and soul.

When the mind is awake, the dull, sleepy look passes away from the eyes. I do not know that the brain expands, but it seems to. Think, read—not trashy novels, but books that have something in them. Talk with people who know something, hear lectures and learn by them.

Men say they cannot afford books, and sometimes they do not even pay for their newspaper. In that case it does them little good, they must feel so mean while reading it. But men can afford what they really choose. If all the money spent in self-indulgence, in hurtful indulgence, were spent in self-improvement, we would see a change. Men would grow handsomer and women too. The soul would shine out through the eyes. Let us have books, and read them, and lectures, and hear them, and sermons and hear them.

* * *

Character and Hair.

Coarse black hair and dark skin signify great power of character, along with purity and goodness. Stiff, straight black hair and beard indicate a strong, rigid, straightforward character. Fine dark brown hair signifies the combination of exquisite sensibility, with great force of character. Flat, clinging, straight hair, a melancholy but extremely constant character. Coarse red hair and whiskers indicate strong animal passions, together with a corresponding strength of character. Auburn hair, with a florid countenance denotes the highest order of sentiment and intensity of feeling, purity of character, with the highest capacity for enjoyment or suffering. Straight, even, smooth and glossy hair denotes strength, harmony and evenness of character, heart affections, a clear head and superior talents. Fine, silky, suple hair is the mark of a delicate, sensitive temperament, and speaks highly in favor of the mind and character. White hair indicates a lymphatic and indolent constitution, and we may add that beside these qualities, there are chemical properties residing in the coloring matter of the hair tube, which undoubtedly has some effect on the disposition. Thus red-haired people are notoriously passionate. Now red hair is proved by analysis to contain a very large amount of sulphur, while black hair is covered with pure carbon. The presence of these matters in the blood points to peculiarities in the temperament and feelings which are almost universally associated with them. The very way in which the hair flows is strongly indicative of the ruling passions and inclinations, and perhaps a clever person could give a shrewd guess at the manner of a man or woman's disposition by only seeing the back of their heads.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

Daily Intelligencer.

BELLEVILLE, SATURDAY, FEB. 25.

ST. ANDREW'S CHURCH.—The Rev. Principal Snodgrass, D. D., will officiate in this Church, on Sabbath first, the 26th inst., both morning and evening.

THE MANUFACTURER AND BUILDER for March sustains the reputation of this valuable monthly. It is a publication that ought to be in the hands of every man engaged in building operations.

THE HIGH COMMISSION.—Sir John A. Macdonald has given instructions to have all documents which he will require on the Joint High Commission ready for him to-day. He leaves for Washington on Monday or Tuesday at the latest.

PERSONAL.—The Picton *Gazette* of the 24th says: "We regret to learn that W. Ross, Esq., has been unable to take his place in the House of Commons, Ottawa, in consequence of illness. Indications, however, point to a speedy convalescence."

ATTEMPTED SUICIDE.—The Picton *Gazette* says: "On Saturday evening of last week, Mr. J. C. Howell—of good connections—attempted to commit suicide by cutting his throat with a razor, while in a fit of *delirium tremens*. Two very ugly gashes were made, and deep at that, but strange to say no important arteries were severed, and he is gradually recovering."

MORE STEAMBOATS.—The Picton *Gazette* says: "In addition to the steamboats plying last season, we have been led to understand that a boat is being built to run from here to Belleville, daily, touching at Napanee *en route*, and we also observe that another will be placed on the route between this place and Kingston. This latter scheme has so far progressed that a joint stock company has been formed and the Str. *Maid of Canada* has been purchased for the purpose."

NEW AND VALUABLE SEEDS GIVEN AWAY.—We have received from N. P. BOYER & Co., of Parkesburg, Chester Co., Pa., samples of Imported Norway Oats, Alsike Clover and Chester County Mammoth Corn; they generously offer to send send sample packages *free* to all Farmers who *send stamps* to pay postage. Messrs. N. P. BOYER & Co., are the Largest Importers of Thoroughbred Stock and Choice Seeds in the United States, and as there is so much bogus Seed being sold, they wish to give every Farmer in the country a chance to test their Genuine Seeds, free of charge.

OUR LAKE FISHERIES.—A western exchange says: "The people of Bayfield, on the shore of Lake Huron, are at present actively engaged in the winter fishing trade. As an instance of its productiveness, over $400 in cash was recently paid for one day's catch of herrings. The mode of fishing is by cutting holes through the ice at certain distances apart. The net is then inserted by a pole, and is guided under the ice to the next hole, and so on to its full length, when it is secured. Each line is marked by a row of branches planted in the ice. Hundreds of men and boys, horses and sleighs, dogs and hand sleighs, throng the ice, and a novel and busy scene encounters the eye of a spectator.

THE DOMINION PARLIAMENT.—The Montreal *Gazette*, usually well-informed as to Ministerial intentions says: "It is rumored in official and well-informed circles that it has been decided to adjourn Parliament next week until the month of November. The rumor is founded on appearances. Most of the numerous bills prepared by Government have been completely neglected for the last few days, with the exception, for obvious reasons, of two which have been printed in haste—the Census bill and the Election bill. On the other hand the Banking bill, the Savings Banks bill, the Weights and Measures bill, as well as a very bulky bill on Inspection, embodying all previous laws on the subject, are in type, but have not been revised. Orders have been given to print a portion only of the Militia report. It is also added that Sir F. Hincks is now engaged drawing up a provisional budget." A telegram from Ottawa says there is no truth in the rumor that Parliament would adjourn next week.

—Paul Kane the celebrated Canadian Painter, died in Toronto on the 22nd inst., aged 58 years.

Appointed Senator.

The Hon. ROBERT READ has been gazetted Senator in place of Hon. John Ross, deceased. We congratulate the hon. gentleman upon the position to which he has been appointed, and which he so well deserves; and most heartily do we wish he may long live to enjoy the honors derivable therefrom.

This appointment creates a vacancy in the representation of the East Riding of the County of Hastings in the Commons, and we presume an election will be held before many weeks. As yet, we have heard of no opposition to Mr. FRIZZEL, whom we mentioned as likely to be a candidate in case of a vacancy. He will make an excellent representative, and from the promises of support which he has received throughout the Riding, it is more than probable he will be elected by acclamation.

Orangemen and the Scott Murder.

The Provincial Grand Lodges of the Province of Ontario met in London and Brockville on the 21st inst., and were more than usually well attended. As was to have been expected, the question of bringing the murderers of Scott to justice was considered, and from the resolutions which have been made public, we should judge that the feelings of horror and indignation at first felt when the news of Scott's murder was received, have not in the least abated, nor has the desire to bring the murderers to justice in the least lessened. It is a matter for congratulation, however, that that important and influential body has shown by the resolutions passed, that they are alive to the motives which actuated those who have been and are at present their bitterest enemies, in endeavoring to trade upon what they consider the prejudices and excitability of nature displayed by those who have taken a deep interest in the bringing to justice of those who were directly instrumental in that murder. We are the more gratified at the position taken by the members of these Lodges, because they are exactly in accord with the sentiments promulgated by us through the INTELLIGENCER when the question was brought before the Ontario Legislature by one who is an hereditary enemy of the Orange Society, and who we firmly believe was actuated only by a desire to create political capital, and trade upon the blood of a martyred man for base political party purposes.

We need scarcely say we heartily approve of the resolutions passed at both the Grand Lodges of Ontario, which are as follows:—

1st, *Resolved*—That this Grand Lodge as the representative of the great Protestant and loyal body of the western Province of Ontario and the Dominion of Canada, has read with much surprise the political capital which has recently been made by newspaper writers and political partizans out of the cruel murder of our worthy brother, the late Thomas Scott, by certain rebels in Manitoba, acting under the immediate orders of Riel and Lepine; that the act in itself was barbarous and cruel, divested alike of provocation or palliation, and calls aloud upon every humane mind, and especially every good subject of her Majesty, to use all proper and constitutional means to bring the perpetrators of the bloody deed to condign punishment.

2nd. That while this Grand Lodge gives free expression to the feelings of every member of the Order, in reference to the atrocious outrage named in the preceding resolution, it hesitates not to denounce all parties who seek to make political capital, for mere party purposes, out of an act so barbarous and inhuman, and whose sympathies were withheld, when needed, to bring the equally guilty and rebellious murderers of Colonel Moody and the other brave and loyal men to justice in 1837, thus evincing by the sympathy for law and loyalty, in the one case, and the want of it in numerous others, the hypocrisy of their professions, and the rank deception used to mislead such loyal and confiding men as may be blindfolded by devices so artfully contrived, and so pertinaciously reiterated.

3rd, *Resolved*,—That this Grand Lodge, in adopting the foregoing resolutions, has two objects, and two only in view, viz: 1st, To impress on the Dominion government and the government of Manitoba, the urgent necessity as well as the justice of vigilantly watching the perpetrators of the murder of brother Scott, to the end that they may be brought to suffer the just penalty which the laws of God and man award to their inhuman barbarity. And secondly, That in thus speaking out our full sense of horror of the crime, our act may not be attributed or identified as political schemers who seek rather to exalt party than to punish crime.

The Bitter End.

The climax to her long series of misfortunes has come at last, and France, after a long and desperate struggle—prolonged for many weeks after the last ghost of a chance for successful resistance had passed—has been compelled to bow in humiliation before her conqueror. History will do justice to the heroism of her defence against overwhelming numbers and superior tactics.

From the opening battle of the campaign at Weissenburg, the tide of success has flowed steadily against her; the speedy fall of Strasbourg; the capture of Napoleon and his host at Sedan; the starving out of the garrison at Metz, and the surrender of that great fortress—none of these disasters served to destroy the national confidence that the invader would be expelled from the soil of France, with disaster and utter ruin following his fleeing ranks. Armies to accomplish that end were raised and armed, with almost incredible alacrity; but, though the poor fellows fought as bravely as they might, they but served to delay the hosts of the Germans for a day or two in their work of subjugating the country. Even after the defeat of Chanzy and Bourbaki, the long resistance of the capital stirred the embers of hope within the Gallic breast. But the circle of iron which surrounded Paris could not be broken, though the best blood of its defenders was freely spilt in the vain attempt, and famine at last compelled a reluctant capitulation.

The events which followed this stab in heart of the nation—for Paris is its heart—are so fresh in the minds of our readers, that it is barely necessary to recapitulate them. During the armistice, the chiefs of the various armies met and compared notes, the result of which consultations showed that France, though not subdued, was beaten—utterly, thoroughly exhausted—and that further prolongation of the war would be merely to invite fresh disaster and harsher terms from her conquerors. And so, after holding out for the best terms, peace had to be concluded almost on Bismarck's own terms, which are these: Besides a money indemnity of 800,000,000 thalers, the provinces of Alsace and Lorraine, with the cities of Metz, Nancy and Strasbourg, are ceded by France. Harsh terms, these! but 'might is right' in this instance, and nothing is left for the present but submission.

Though thus shorn of a large portion of her fair domain, and thereby considerably weakened, France will doubtless rise against her conquerors when opportunity offers. In the meantime, it is to be hoped that the late belligerents, having learned, through the spilt blood of their thousands, a mutual respect for each other's courage and resources, will prove as steadfast in pursuing the arts of peace as they have been in withstanding the shocks of war.

Meeting of Dairymen.

A meeting of the Dairymen of the County, convened by requisition to K. Graham, Esq., M. P. P., for the purpose of forming a Dairyman's Association for the central portion of Ontario, was held in the Town Hall this afternoon at 2 o'clock. The attendance was large, numbering upwards of 60.

On motion of Mr. Yates, seconded by Benjamin Gilbert, K. Graham, Esq. M. P. P., was appointed chairman.

The Chairman, in a lengthy speech, stated that the object of the meeting was to establish a Dairymen's Association, detailing the efforts which had been made to secure the sitting of the Canadian Dairymen's Association in Belleville. This the people of that section had refused, permanently fixing the meetings of that Association in Ingersoll, which place was too distant from the central portion of Ontario to be regularly attended by delegates from Hastings and adjoining counties. He then proceeded to descant upon the various objects to be forwarded by such an Association, as was proposed to be formed, such as the selection of the most desirable breeds of cattle, the mode of consigning milk to the factory, so as to be received in the best possible condition, &c., and advocating the frequent meeting of dairymen to narrate experience. He also thought it probable that a cheese market could be established in Belleville, and that a market for the sale of that article might be held once a fortnight. United action, he strongly urged, as absolutely necessary to success. By this means a much better article of cheese would be manufactured and a better price secured.

Mr. Yates was then appointed Secretary.

Messrs. D. Vanderwaters, and P. R. Daly addressed the meeting. The latter gentleman moved the following resolution:

Whereas, the Dairy business is fast becoming the principal business of the farmers of not only the County of Oxford and the County of Hastings, but of nearly the whole of Canada—and whereas the interests of Dairymen can be best promoted and protected by Dairymen associating themselves together—and whereas the members of the "Canadian Dairymen's Association" did at their last annual meeting held at the Town of Ingersoll, declare by a vote that the annual meetings of the said Association should be permanently fixed, and held in the said Town of Ingersoll—thereby practically ignoring the intesests of the Dairymen of the largest portion of the Province of Ontario.

Therefore be it Resolved—That we do hereby associate ourselves together for the purpose of promoting and protecting the interests of the Dairymen of the Province of Ontario.

Mr. A. Thompson seconded the motion.

Messrs. James Bird, S. T. Wilmot, R. Brower, Peter Frederick, Sidney; — Hazzard, Prince Edward; B. Foster, H. Ostrom, Huntingdon; Mr. Watkins (a buyer from England), and the Chairman spoke to the resolution, the unanimous expression being that the formation of an Association for this section was of the greatest importance.

Some discussion took place respecting the quality, size and color of cheese most saleable in the different markets in Great Britain.

Mr. Watkins said the one thing necessary was quality. If the cheese of Canadian manufacture was of first-rate quality, it would sell, irrrespective of color.

Messrs. Vandewaters, J. N. Yeomans, Wilmot and Dr. Coleman, followed on the same subject, the latter advocating the formation of an Association for the whole Province.

Mr. A. Thompson stated as a fact that the brand of the cheese passing through American hands was frequently changed.

The resolution was then put and carried unanimously.

Mr. Ostrom suggested that a Committee be appointed to draft a constitution and By-laws.

Mr. Yates then moved that Messrs. Daly, Ostrom, Wilmot, the chairman and the mover be a committee for that purpose, to report at a meeting to be held this day fortnight.—Carried.

The meeting then adjourned until the 15th March at 1 o'clock.

From Manitoba.

We have received Manitoba papers to the 4th February, but they contain little of special interest.

Mr. Boyd was gazetted as Minister of Agriculture and Public Works and Capt. Howard as Provincial Secretary.

The weather was reported very moderate and pleasant for the season.

The meeting of the Manitoba Legislature had been postponed to the 16th February, not then to meet for the despatch of business.

A train of 18 sleighs had started for Abercrombie to bring in goods.

The *Manitoban* says; "The Ottawa Government have, it is stated, decided to improve the portages on the Dawson route next summer. Tenders for two steamers—one for Rainy Lake, and the other for Lake of the Woods—are to be called for immediately. These steamers are to be owned and run by the Government. The policy of subsidizing a company has, it appears, been abandoned. The steamers are to be from 90 to 100 feet long.

The readings and weekly evening entertainments got up on behalf of the Volunteers are very largely attended, and form a very important feature in social life in Manitoba.

The writs for the House of Commons elections had not arrived. Three mails from Canada were overdue on the 4th of February.

'Dawkter,' said an exquisite the other day, 'I want you to tell me what I can put in my head to make it right.'—'It wants nothing but brains,' said the physician.

Mrs. Fitsdragon had been waiting to visit a Highgate Cemetery, and the other day she said to her husband, 'You have never taken me to the cemetery.'—'No, dear, said he, 'that is a pleasure I have yet had only in anticipation.''

Literary Entertainment.

The Pi Sigma Society of Albert University may well be congratulated on the amount of interest taken in its entertainments by the public, as testified by the large attendance at the University Chapel last night, on the occasion of its "second public." The various pieces in the first part—music, thesis, recitation and English verse—were well given and heartily applauded. The debate on the subject, "Ireland should have a Parliament separate and distinct from England," was opened by Mr. Barton with a speech considering the question argumentatively; Mr. J. A. Carman, in the negative, made some telling points; Mr. McMahon, affirmative, was eloquent and impassioned; while Mr. Palmer, who wound up the discussion, took a common sense view of the question. The audience decided in the negative. In the dialectic readings, Prof. Bell's Scotch was unimpeachable; Mr. J. B. McGann, in an Irish piece, was quite at home, and Prof. Dawson read the celebrated trial scene from Pickwick. Rev. Principal Carman and Thos. Holden, Esq., Mayor, made short addresses, and after the national anthem had been sung and the benediction pronounced, the end of a very pleasant evening had come.

New Brunswick Legislature.

Mr. Hatheway has succeeded in forming an Administration for New Brunswick in the place of the one which resigned two or three days ago. Two members of the late Government, Messrs. King and Kelly; continue in office, thus giving to the new Ministry somewhat of a coalition character. Mr. Hatheway's Government, as formed and announced, is as follows:—

Hon. G. L. Hatheway, Provincial Secretary.

Hon. Thomas R. Jones, President of the Executive Council.

Hon. George E. King, Attorney General.

Hon. B. R. Stevenson, Surveyor General.

Hon. W. M. Kelly, Commissioner of Public Works.

Hon. W. S. Cail, Hon. J. S. Covert, without Departments.

The Legislature has been prorogued until the 5th April, in order that the new Ministers may mature their policy and go before their constituents.

Around Town.

The Town Council meets on Monday night.

Lenten entertainments will now be in order for several weeks.

Why is the town bell like an ancient musical instrument? Because it's a *lyre*.

Song of the ice dealers—'We will gather at the river.'

Song of a little boy yesterday, while sweeping water from the sidewalk—'Paddle your own Canoe.'

Mr. E. Hayne this morning purchased a dressed hog, which weighed 622 lbs. The largest we have seen this season.

A good attendance on the market this morning, considering the bad state of the weather.

A number of curs in the lower part of the town, supposed to have been bitten by the mad dog on Monday, have been shot.

The school for instruction in the new drill has been closed, on account of the limited attendance.

"Water, water, everywhere, and not a drop fit to drink," is the complaint of the residents of Front Street, in the vicinity of the upper bridge.

Provincial $1 notes, skilfully altered to 4's, are said to be in circulation. Look at the margin and at the back, and they will easily be detected, if offered.

Those who eat diseased potatoes, as many do hereabouts, are reminded that a piece of the black part of the vegetable, as large as a pin head, will show under a glass hundreds of animated worms.

A grand skating carnival for the benefit of Mr. Dearnally, caretaker of the Rink, is announced to take place on Wednesday evening next. A good time may be expected by those who attend.

Mr. Burrell has moved his axe-manufacturing establishment to the building erected for him last summer, at Bleecker's dam, east side. The water privilege is one of the finest on the river.

The latest dodge of thieves who go from house to house peddling their wares, is to have two confederates—the pedlar attracting the servants' attention, while the other sneaks in the rear of the house and scampers off with the first thing he chances to get hold of.

The Caledonian Society of Montreal intends celebrating the marriage of the Princess Louise to the Marquis of Lorne, the date of which is fixed for March 21st, by a grand ball. What do the Scotchmen of Belleville intend doing to celebrate the event?

Mr. C. M. Raymond, who is not a stranger in town, announces that he intends opening classes at Ontario Hall for instruction in dancing, commencing on Wednesday evening. March 1st. Those who intend to avail themselves of Mr. Raymond's services are informed that in every branch of the profession the utmost care will be taken to impart thorough instruction.

There was a fine display of aurora borealis last night about midnight with the same blood-red tinge in some parts of the heavens that was so frequently observed last summer, and which occasioned the advancement of so many theories of explanation. Is it not singular that the same phenomenon that struck terror then among the superstitious, who associated it with the bloody strife in France, should reappear on the very evening that the conclusion of peace was announced?

Dominion Parliament.

FRIDAY, Feb. 24.

In the House of Commons Sir A. T. Galt moved the resolution of which he had given notice respecting the fisheries and high commission, and he pressed it by the delivery of a lengthy speech. Sir John A. Macdonald trusted that his hon. friend would see the necessity of withdrawing the resolution in order that that he (Sir John) as a member of the High Commission might not be hampered in his action at Washington. He assured the House that he would faithfully protect the interests of Canada, and he felt satisfied he would receive the cordial support of the English Commissioners.

Messrs. McKenzie, Blake, McDougall and others expressed the wish that the resolution would be withdrawn. Sir A. Galt then consented and withdrew the motion.

For the Daily Intelligencer.

Town Clock.

In olden times, when day was breaking,
The ancient people then arose;
When night o'erspread the earth with darkness
They all retired to seek repose.

The same good people when a hungry—
Always took their bit of meat,
And with Aldermanic relish
Sat down in thankfulness to eat.

But in this age so called enlightened,
The sun may shine and blaze away;
The clock and watch has superseded
That glorious mighty orb of day!

And when tired nature sleep requiring,
Wanting to lay down the head,
The watch or clock is then consulted
Before retiring to our bed!

When our poor stomach's overloaded,
And for food no craving feel,
Our tiny watch the time denoting
Again we face the usual meal!

Since things are done so systematic,
Then let us have a clock, I say,
And not disgrace our would-be city—
The lovely "City of the Bay!"

Then let our "City Fathers" ponder
And anticipate the sight,
Suspended on the Court House yonder—
Behold! the sentinel of night!

The stranger visiting our city
No clock, no accurate time can see;
Unless by chance he may be passing
The shops of Taylor or McFee!

We always were and are beholden,
As long as any here can tell,
To the free accommodation
Of St. Michael's silvery bell!

Then let our clock be one of striking,
And strike the hours both night and day;
That ages hence may be delighted
With the "City of the Bay!"

J. A. C.

Belleville, Feb. 23rd, 1871.

Pigeon Shooting.

A pigeon match came of yesterday on Major Gillum's farm, between Messrs. R. P. Jellett, R. Hulme, H. Friend and J. Lister. Old Country *vs.* Canadians. The score was as follows:

R. P. Jellett......	0111111111—9
R. Hulme	1011111011—8
J. T. Lister	1111110101—8
H. Friend	1010111111—8

Two birds each; twenty-one yards raise; one hundred yards boundary. Messrs. Jellett and Lister, representing Canada, were victorious by one bird. Score—17 to 16.

Police Court.

(Before A. DIAMOND, Police Magistrate.)

SATURDAY, Feb. 25.

VAGRANCY.

Ellen McDonald, who has often graced the Court with her presence previously, was brought up on a charge of vagrancy, preferred by constable Snider. Fined $5 and costs, or 60 days.

DRUNK AND DISORDERLY.

Hugh Coyle and John Jose, who were in company with McDonald, and abused the police in unmeasured terms, were each fined $3 and costs, or 30 days.

SPECIAL TELEGRAMS.

(*By Special Telegraph.*)

FROM QUEBEC.

QUEBEC, Feb. 25.

A requisition is being signed at Rimouski, asking Hon. L. H. Langevin to stand for that place.

The Council met last night and adjourned without settling the fate of the Corporation employees, who have all received notice of dismissal.

Dr. Taschereau was presented with an address by the Laval University, on the occasion of his resignation, after a connection of thirty years. The Rev. Dr. will be consecrated Arch Bishop of Quebec on the 19th of March.

Mr. Sewell's proposition for winter navigation brings more correspondence in favor of making the attempt.

The weather continues mild and rainy. Walking difficult and dangerous. Thermometer 42; Barometer 28.90.

FROM HAMILTON.

HAMILTON, Feb. 25.

An old man named McDonald, was found dead this morning in a livery stable, in James Street, near the Royal Hotel. It was at first supposed that he had been murdered, but his money was found in his pocket and he lay under a hatch, where is supposed to have fallen through. The livery stable was sold out yesterday, and parties heard McDonald say last night that he had to go up to close the windows in the loft. A boy slept near where he fell, and was found asleep this morning, when McDonald's body was discovered. The stable was kept by his son-in-law. An inquest will be held to-day.

Value of time in an Australian Court.

The following is given as a sample of how they do things in Melbourne:—"I got to the court, just at the minute when a sleepy-looking old card in a frowzy wig and towselled gown had said something to somebody. A little peppery chap in the same sort of clothes at once jumped up and replied 'I object to the question! I object! I object!' Then he sat down and curled his nostrils, and looked proud. This was at eleven o'clock in the morning, and they went at it. For several mortal hours they kept on going at it. The sleepy-looking old card snuffled, and squirmed, and blew his battered old nose, and twaddled, and scratched his wig, and quoted books; and the little peppery chap did likewise. One said he had a right to put the question; and the other said he hadn't. Towards nightfall the Bench decided that the old card had won all the tricks, and that he might ask his question. 'Do I,' he says, 'understand yer Honor to rule that my learned friend is wrong in his law? Do I understand yer Honor to support my position?' 'Precisely so,' answered the Judge, 'the Court agrees with you that the question's on the square. Ask away.' This seemed to knock the old boy kicking, as you might say. He looked up at the ceiling; he looked at the jury; and after a long spell, he said slow and solemn, and melancholy—'Pardon—me—yer Honor—but—may I—be emphatically blowed—if I haven't forgotten—what the question was!' And it was just so. He'd argued for about five mortal hours, and at last forgot what he was argufying about.'
—*John Peerybingle.*

GREAT RUSH
On Cotton and Linen Goods of every description
AT THE
GREAT CLEARING SALE
GLASGOW WAREHOUSE.
(Late George Vair's.)

As our Stock of these goods will soon be cleared out, any person requiring them would do well to call at once.

The Desolation around Paris.

Whichever road you take, for three or four miles away from the French defences, you see broken walls, crushed roofs, smashed windows and wrenched off doors. As for furniture, no such thing exists; pianos and tables, chairs, beadsteads and billiard tables have been burnt by the besiegers for firewood, and when that handy form of fuel was exhausted, the floors, the doors, the shutters, and finally the stairs were pulled away and piled up to make a flame. Walls may be left standing, bits of roof may hang on here and there, at a distance a house may look almost entire; but when you come near you are amazed at the utter demolition of everything but the outside shell. When to an ordinary inexperienced eye there is no more to break, when the very staircase has gone into the fire, then comes the turn of the joists that carry the floors, the plaster is knocked off the walls, and the laths which carried it are torn away to warm the frozen Germans. The vine stakes in the fields, the wooden fences around the gardens, the handles of the peasants' implements—all these were cast into the flames long ago. Close to Versailles is the superb chateau of La Celle St. Cloud, which belongs to Madame Pescatore; its farms, its cellar, its gardens were all finished up long ago, but the house itself was almost intact, until a bomb from Mont Valerien fell upon it, driving through the library and bursting in the drawing room. Of course the house will now be abandoned by the Prussian officers, and it will be strange indeed if the furniture, almost royal its magnificence, is not rapidly converted into ashes. Beauregard, which used to belong to Mrs. Howard, and was sold two years ago for £120,000 by her son, the Comte de Bechevet, to the Duchess de Bauffremont, is still more completely ruined. All the countless chateaux and charming villas which were dotted on the hillsides at Garches, Ville d'Avray, Bougival and Louveciennes, and Bellevue and Meudon, and a hundred other places, have been utterly destroyed. Malmaison was set on fire many days ago, as if destiny were bent on effacing the first footmarks of the Bonapartes.

Morning Despatches.

Prussians not to enter Paris.

French National Assembly.

Feeling against German Demands.

German Press on Indemnity.

The Algeria Arrived.

PARIS, Feb. 24th, via LONDON 25th, 1 a m.—The military authorities here are still unadvised as to the entry of the Prussians into Paris, but the impression is becoming general that the enemy will forego their triumph.

Rumor is circulating that the Assembly, on leaving Bordeaux, will re-assemble at Fontainbleau.

Journals here say the demands made by Germany on France have produced painful impressions in the Cabinets of London, Vienna and St. Petersburg.

The Versailles Moniteur prints a series of extracts from German newspapers, demonstrating that whatever the amount of indemnity may be it is impossible to exceed the good right of Germany or the resources of France.

QUEENSTOWN, Feb. 24—The steamer Algeria, from New York, has arrived.

American Despatches.

War between Honduras and San Salvador.

A Revolution in the latter Country.

Peace restored in Columbia.

The English Commissioners in Washington.

NEW YORK, Feb. 25—The Herald's special, dated Panama 21st, says: Honduras declared war with San Salvador on the 1st, and by the 9th six hundred troops were within two days' march of San Miguel.

San Salvador is virtually in revolution against Duenas. The revolution and the Honduras war are controlled by the same leaders.

Peace has been restored in the United States of Columbia.

The death of Mazquera is contradicted.

WASHINGTON, Feb. 24—The English members of the High Commission visited the State Department; and were introduced by Sir Edward Thornton to Mr. Fish. An informal and entirely personal conversation ensued. They will be introduced to the President to-day by Mr. Fish. A preliminary meeting will probably be held on Monday next, but they will not organize regularly for work until the arrival of Sir John A. Macdonald, Sir Stafford Northcotte and Judge Hoar. There seems to be an impression that the sessions and discussions of the commission are to be open, but this is fallacious.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 25.—A terrible colliery explosion occurred to-day in South Wales. Fifty dead bodies have already been taken from the mines.

Attiene Aragos' mission to Italy is to reclaim the material left at Rome on the departure of the French army.

The radicals have again invited Garibaldi to take his seat in the National Assembly.

A special from Paris to the 'Times' says the French object more to the form than the substance of the Prussian terms. The preliminaries have been assented to, but the conditions and stipulations of the treaty of peace have not yet been agreed upon. The French are endeavoring to obtain the abandonment of certain distressing conditions. The treaty of peace is, however, regarded in Paris as signed.

The Duke of Broglie presented credentials to the Queen yesterday as ambassador of France.

The Daily News has the following from Paris to the 4th: Louis Blanc, Victor Hugo and Henri Rochefort, members of the Radical Left of Assembly, will present to that body a motion demanding the impeachment of Napoleon.

If this world is a free show, what is the price of admittance? Sin, sorrow, a small trifle of sunshine, and a good deal of shadow.

A New Arithmetic.

Sick gent (walking into a whiskey shop:) Well, I believe I will spend my dime in crackers this morning."

Bar-keepers hands him crackers, which he tastes, but does not pay for.

'I cannot stand them; give me brandy for the crackers.'

Bar-keeper gives him some brandy.

He pours it out, smells it, shakes his head. 'Don't think I can go that. Give me some whiskey for the brandy.'

Bar-keeper hands him out the whiskey.

He turns out a full glass, drinks it down and starts out.

Bar-keeper—'Hold on there! you have not paid me for that whiskey.'

Sick gent—'I gave you the brandy for the whiskey, sir.'

'Well, you ain't paid me for the brandy, sir.'

'I gave you the crackers for the brandy, sir.'

'Well, you ain't paid me for the crackers, sir.'

'Well sir, you have your crackers yet.'

Bar-keeper said no more.

L. R. Ripley, writing from Danville, Quebec, says there have been two wonderful cures of consumption here the past year by the use of Allen's Lung Balsam and it sells beyond all precedent.

MONTREAL, Feb. 25, 1871
1 P. M.

Flour—receipts 900 bbls; market more steady and sellers less urgent, but buyers evince little inclination to lay in supplies, except as actually needed; small sales for consumptive purposes at yesterday's rates; a sale of 2,000 bbls was made yesterday on strictly private terms.

Grain—no transactions; rates purely nominal. Provisions generally unchanged. Pork in steady consumptive demand. Hogs—more neglected, retail trade having greatly fallen off; asking rates unchanged; but few car lots changing hands. Butter—limited enquiry, but holders firm at late rates; late transactions range from 16c to 2[illegible].

Ashes unchanged.

NEW YORK STOCK MARKET.

NEW YORK, Feb. 25.

Gold 111⅜.

NEW YORK PRODUCE MARKET.

NEW YORK, Feb. 25.

Cotton 15⅜.

Flour 5 to 10c better; receipts 8,000 bbls; sales 9,000 bbls at $5 85 to $6 10 for superfine state and western; $6 65 to $7 10 for common to choice extra state; $6 66 to $7 15 for common to choice extra western.

Rye flour quiet at $4 75 to $6 25.

Wheat feverish, irregular and unsettled; receipts 5,000 bus; sales 20,000 bus at $1 63 for winter red and amber western.

Rye quiet.

Corn steady; receipts 42,000 bus; sales 26,000 bus at 84c to 85c for new mixed western.

Barley quiet; receipts 500 bus.

Oats active; receipts 7,000 bus; sales 81,000 bus at 65½c to 69c for Western and Ohio.

Pork quiet and steady at $22 25 to $22 38 for new mess; $21 50 to $21 75 for old mess.

Lard quiet and steady at 12½c to 13⅛c for steam; 13⅞ to 13⅝c for kettle rendered.

Butter and cheese unchanged.

LONDON MARKETS.

LONDON, Feb. 25.—Consols 91⅜; Bonds of '62 91; '65 old 90⅞; '67 89⅞; 10-40's 89⅜; Erie 18⅜; I C 109; A & G W 29⅛.

Canadian Bank of Commerce 118.

Government Securities—All denominations are enquired for but there are none offering.

Montreal City Securities—Six per cent.

CANADA
LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
January 25th, 1871. Manager.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will speedily and certainly arrest the depressing influences of disease upon the nerves and muscles. It restores the appetite and induces a disposition to take on healthy flesh. It causes the formation of living blood, strengthening the action of both Heart and Lungs. It sustains the system under trying circumstances and causes the healthy development of all the organs necessary to our existence.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of Allen's Lung Balsam. * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

Death's Ghastly Drive.

A CORPSE DRIVING A HORSE THROUGH NASHVILLE

(From the Nashville Banner.)

Dr. Wm. Burdett, who resides at No. 393 South Cherry street, died at 6 o'clock last evening under the most peculiar circumstances. About half an hour previous to his demise he had driven to the residence of Conductor Edward Wells, near the Decatur depot, who lay very ill of inflammatory rheumatism. After leaving some instructions with his patient, he got into his buggy and started his horse homeward.

Sudden death, like a stroke of lightning, overtook him probably before he had driven more than a few hundred yards, and the late living, speaking human being, who a few moments before had talked calmly and quietly, after his usual manner, to a patient and the patient's family, and even joked with a little boy whom he met by the street side as he entered his buggy, still sat stark and stiff upright upon his seat, the reins clutched in his hands, staring eyes looking out upon the street, driving homeward—a corpse. Father of us all, what was it that those who met that horse and vehicle saw in the face of the driver that made them shudder and hurry on a little faster?

Death looked out from those lifeless eyes, and it was he who had guided the unknowing horse plodding on toward his late master's door, and those who looked into the vehicle felt something awful and indefinable which made them shudder, perhaps, and hasten involuntarily forward. The horse drew up at the familiar hitching-post, but no master descended, and he stood gently pawing the ground, anon jerking the lines, but he got no answer to these signals, however oft repeated. No familiar voice, which had so often chided, cheered him in long jaunts. Then he pricked back his ears and jerked the lines a little harder, and listened, but there was no response, save the grating of the leather over the dash-board. What could it all mean?

And now Mrs. Burdett looks out of the window and says: 'Well, I declare, the doctor's home, but why don't he get out?' She looks a moment, but he doesn't move, and she says, perhaps he wants something, and then she trips out into the street, looks up into the buggy, and says, 'Well, William, what is it?' No answer. And then she bends forward a little, and the light shines fuller on the figure there. It is her husband, but the face is livid and the eyes blindly staring. 'William! oh, William!' and she grasps him by the hands, still clutching the reins; they are cold and stiff. He is dead.

Through the assistance of several gentlemen, Dr. Burdett's body was taken into the house, where Coroner Brien held an inquest over his remains. The jury returned a verdict that he came to his death from disease of the heart.

* * *

Didn't Understand Him.—A story is told of a certain colonel. The colonel aforesaid was riding in a stage coach, with several other passengers, when he accidentally dropped his hat out of the coach window, and exclaimed, in a stentorian voice, 'Charioteer, pause! I have lost my chapeau.' The driver paid no heed to the demand. Again the bombastic fellow authoritatively spoke: 'Charioteer, pause! I have lost my chapeau.' No attention being paid by the driver to his last command, a plain, blunt man, who had become disgusted with his fellow-traveller's silliness and pomposity, put his head out of the window and said, 'Driver, hold on, this fool has lost his hat.' This was perfectly intelligible to the driver, expletive and all, and the hat was secured.

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care to furnish amusement and to inculcate knowledge and sound moral principles.

Circulation.—Terms.—The circulation of the American Agriculturist (about 150 000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The *Weekly Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless root can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
Its rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's disease of the Kidneys, Secondary Syphilis, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than six dollars.

"ONE SOLID SCAB,"

SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

Dr. Radway:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered.

JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,

McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES, BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the Lady's Books contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

Embroidery Patterns.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

Original Music.—Godey's is the only magazine in which music prepared expressly for it appears.

Model Cottages.—The only magazine in this country that gives these designs is the Lady's Book.

Drawing Lessons.—In this we are also alone.

We have also a children's, a horticultural, and a health department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

Tinted Engravings.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

Ladies Fancy Work Department.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

How to Remit.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address **L. A. GODEY,**
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Billiousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink Carratraca and keep healthy.

Drink Carratraca and keep Cool during the "heated term."

Save the lives of the Children by giving them Carratraca.

The Carractraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,
Montreal.

Business Cards,

AND all other kinds of Job Printing, executed with despatch, at the *Intelligencer* Office, Intelligencer Building Front Street

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

NORTHROP & LYMAN,

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to Peters' Musical Monthly. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 60 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS' MUSICAL MONTHLY

We do not expect Peters' Musical Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American

$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and containing nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free address the Publishers

MUNN & CO.,
37 Park Row, New York.

How to get Patents.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured ses Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN,
STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called the "peristaltic" movement, purge from the alimentary canal the fæces *and this is all*. Such agents for the purpose of cure, or removal of any settled disease, are utterly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied an *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills

DR. RADWAY'S PILLS

In Radway's Pills (which are the only *perfect Purgative Pills*) you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack. Doctor prescribes Blue Pills or Calomel; next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three or more prescriptions are given for*, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*, the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cures time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER
Bilious Fever

In the world. There is no Ague Cure, Cholagogue, or preparation of Quinine, Arsenic, [illegible] forms of Mercury, or, in fact, any [illegible] will cure this disease so positively [illegible]

Radway's Ready Relief.

No, not one. Thousands, from [illegible] Quinine, Arsenic, Mercury, [illegible] Cures and Private [illegible] gorged liver, fat, spleen, [illegible] colored skin, and hundreds of [illegible] distress. These agents never cure, but [illegible] disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers [illegible] Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to [illegible] Ready Relief is good for hundreds of [illegible] that these are not.

One 25 cent bottle of **Radway's** [illegible] diluted in one gallon of proof spirits [illegible] equal in quantity, and superior in [illegible]

144 bottles of the 25 cent Pain [illegible] Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of Radway's Ready [illegible] cents, as a Pain Remedy, and for [illegible] will secure every household from [illegible] ness, and can be used for the [illegible] would cost at least (25) twenty-five [illegible] to purchase prescriptions, or drugs [illegible] sickness, or accident takes place.

Painful Attacks when

Radway's Ready Relief

WILL AFFORD INSTANT EASE.

Inflammation of the Kidneys,
Inflammation of the Bladder
Inflammation of the Bowels.
Congestion of the Lungs.
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza
Headache, Toothache,
Neuralgia, Rheumatism
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux.
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief.**

Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co's Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmacœpia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and new are new medicines, prepared on new principles, and *Pills* will curesick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with Reliable Correspondents in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$ 5 00
do	do	12 do	8 00

do	12 do		20 00
One square,	6 do		20 00
do	12 do		32 00
Two squares,	6 do		30 00
do	12 do		50 00
Three squares,	6 do		40 00
do	12 do		65 00
Four squares,	6 do		50 00
do	12 do		80 00
Notices of Births,			50
Do of Marriages,			50
Do of Deaths,			50

"Business Notices"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 60
Each subsequent insertion,	0 12
Above six, lines (per line) first insertion	0 08
Each subsequent insertion per line,	0 02

☞ "Business Notices"—. cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the Weekly Intelligencer presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The Daily and Weekly Intelligencer can be had at the Book Stores in Belleville, and Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:
THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW.
LONDON QUARTERLY REVIEW,
WESTMINSTER REVIEW.

MONTHLY:
Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews, - -	$4.00	per annum
For any two of the Reviews, - -	7.00	"
For any three of the Reviews, - -	10.00	"
For all four of the Reviews, - -	12.00	"
For Blackwood's Magazine, - -	4.00	"
For Blackwood and one Review, -	7.00	"
For Blackwood and any two of the Reviews, - - -	10.00	"
For Blackwood and three of the Reviews, - - -	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent *to one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers*. No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.
June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

H. HOGAN & CO.
June, 1870. 44-1y

Scientific American
FOR 1871.

TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose, no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer*. These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 834 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers, - -	$ 5.00
Club of 10 " - - -	8.00
Club of 20 " - -	15.00

And all over 20, at 75c per copy, free of postage.

GABRIEL'S
TRADE MARK.
MANUFACTURED ONLY BY.
MESSRS GABRIEL.
Dentists.
LUDGATE HILL, LONDON.
PREPARATIONS
FOR THE TEETH

Sold by Chemists, Perfumers, and Storekeepers throughout the World.
With Directions for Personal Use.

GABRIEL'S WHITE GUTTA PERCHA ENAMEL, for stopping decayed teeth. Renders the tooth sound and useful, and prevents toothache; no matter how far decayed. Price, 1s. 6d. per box. Ask for Gabriel's Celebrated Dental Preparations.

GABRIEL'S OSTEO ENAMEL STOPPING, for preserving front teeth. Warranted to remain white and as firm as the tooth itself. This beautiful preparation restores front teeth and prevents decay. Will stop six teeth. Price 5s.

GABRIEL'S CORALITE TOOTH PASTE for cleansing and improving the teeth, and imparting a natural redness to the gums, whitens the teeth without leaving between them any traces of powder, and gives brilliancy to the enamel. Price 1s. 6d.

GABRIEL'S ROYAL TOOTH POWDER, prepared by a recipe as used by Her Majesty. Preserves the teeth, and imparts a delicious fragrance to the breath; gives the teeth a pearl-like whiteness, and protects the enamel. Price 1s. 6d.

GABRIEL'S ODONTALGIQUE ELIXIR, an essence unparalleled for its efficacy in all cases of Tic, Neuralgia, and Toothache, and forms a most refreshing mouth-wash; has the unrivalled advantages of perfuming the mouth, and sweetening the breath, strengthening the gums, and is most invaluable to smokers. Price 5s.

PARTIES AT A DISTANCE REQUIRING ARTIFICIAL TEETH may have them supplied in partial or complete sets, on Messrs. Gabriel's new system, by sending particulars of their cases, with a remittance of One Guinea, when the apparatus for taking a model of the mouth will be forwarded, with all necessary instructions. Messrs. Gabriel will undertake to Remodel or Repair Artificial Teeth made by other Dentists, (which do not prove satisfactory,) at moderate charges. Messrs. Gabriel's Pamphlet on Artificial Teeth and Painless Dentistry on receipt of postage.

Belleville, Aug. 19, 1870. 93

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

PART II.

(From Blackwood for January.)

CONTINUED.

Although the extreme measures of veils and oil were not found necessary, yet whilst we were encamped in the woods, the mosquitos were always sufficiently annoying to render it desirable to have as much smoke as possible round where you sat in the evening, to keep them at a distance. In front of each tent-door, as soon as the sun went down, you generally saw what the backwoodsman calls a 'smudge,' smouldering away, filling the tents with the volumes of steamy smoke which it omitted. A smudge is simply a small fire, on which is put damp moss, or wet rotten wood or bark, which in burning gives out clouds of vapour laden with carbonic acid gas. To impregnate the air more effectually, the smudge was frequently placed actually inside the tent, the door being left open, so that the flies incommoded by the atmosphere might escape.—When the tent is completely filled with smoke, the door is fastened up for the night, so that no mosquito can enter.

The stores were brought by our land transport waggons as far as the Matawan camp; the road as far as that being in fine weather very good, all things considered. The great nut to crack was to get them over the twenty-two miles between there and Lake Shebandowan, a small portion only of that distance having a practicable road over it. Every mile of navigable water on the river was, therefore, made use of, the stores being sent up for the first few miles in boats, then conveyed a few more miles in waggons, then in boats again for about eleven miles, then a short distance again by waggon, and finally by water again for the last three miles to Shebandowan Lake; there they were collected on a sandy beach, previous to being distributed amongst the brigades as they started finally for Fort Garry.

It is scarcely necessary to remind the mercantile reader that this 'breaking bulk' so repeatedly, injured the stores considerably, and entailed much labour on the soldiers.

The only recreations enjoyed by our men were bathing and fishing. Of the former whilst working in the boats, all had more than enough, for the men had constantly to work in the water; but whilst employed at road making or moving stores on shore, a swim after the day's work was ended was most enjoyable. The water in Lake Superior is always very cold; but that in some of the rivers—the Matawan for instance—was positively tepid, so that the men would roll about in it for a length of time without feeling any ill effects. The strangest phenomenon was in M'Neill's Bay, on Lake Shebandowdan, when, in swimming, at one moment you passed through a narrow strip of very cold water, and the next instant you were in water as warm as the human body. The effect was most curious, and is supposed to come from springs rising from the bottom of the lake in that shallow portion of it. When encamped at Prince Arthur's Landing, the men caught immense quantities of large trout, many of them weighing ten or twelve pounds, those of five or six being considered small. They are, without exception, the most tasteless of the finny tribe. There is nothing repulsive about them, either in appearance or in flavor, but still, as food, we know of nothing that is less palatable without being positively nauseous. At the various other camps along the road, and subsequently during the advance upon Fort Garry, the men used to catch pike by trolling from the boats. Those with black backs were fair eating; but the other sorts were bony and soft, with a muddy flavor. Each brigade was furnished with a fishing net, as it was expected that large quantities of fish would be obtained along the lines of route to vary the daily diet; but it was subsequently found impossible to use them; for being so pressed for time, we never halted for a day until we reached Fort Alexander, close to Lake Winnipeg, and as every one worked hard until dark every evening, there was never time for net-setting.

Headquarters were moved on the 14th July, to a spot within about three and a half miles of Shebandowan Lake. The 16th of that month had for some time been named for the departure of the first detachment; but as the day drew near, so much remained to be done that few believed it possible to carry out the programme laid down. The spot on the lakes selected as the starting-point was at its extreme eastern end, where there was a beach of bright yellow sand for some hundreds of yards devoid of rocks and stones. The forest reaching down to the water's edge, entailed a considerable amount of clearing before sufficient space for a small camp, and for the marquees to hold the perishable stores, could be obtained. A wharf was soon run out into the deep water, alongside of which the boats were to be loaded. A cooper's shop was established, where all the barrels that had received injury during their many changes from carts to boats, and *vice versa*, were re-hooped, those from which the brine had leaked being refilled. Carpenters were hard at work repairing the boats, many of which leaked considerably, all having suffered more or less from the sharp pointed rocks of the Kaministiquia. According to the arrangements made with the Canadian authorities, the boats were to have been handed over to us complete with all their own stores; unfortunately, from want of an organised system, and from the lack of an efficient staff to carry out the instructions received from Ottawa, the details of all such arrangements throughout the progress of the expedition invariably fell to the ground. The result was that according as every six or eight boats arrived daily, they had to be fitted with rowlocks, masts, sails, rudders, &c.: these made for each individual boat were not to be found; so that really the onus of fitting out the boats devolved upon the troops, each captain looking after the equipment for the boats of his own brigade. This occasioned some delay; for as the boats of a different models and sizes, rudders, etc., required much alteration before they could be made fit boats of a different class from those for which they had been constructed.

During the progress of this expedition, we had many opportunities of observing from behind the scenes how Government affairs are managed in Canada, where every day the corrupt practices common in Washington are being more and more adopted. The gentleman who represented the Public Works Department with us was a most hard-working man who never spared himself in any way. If he was always over sanguine, it was at least an agreeable failing, and perhaps arose from calculations based upon the belief that other men would work as he did himself. He had his hands always full, and as much to do as any man aided by the most efficient of staffs, could possibly do well. Alas for his sake, for the good of the service, and for the progress of the expedition, those under him, with one or two exceptions, were the most helplessly useless men that it is possible to imagine! Instead of being permitted to choose his own assistants, he had all sorts of hangers-on about the Ministers forced upon him. Some were broken down drunkards who it was thought by their friends might be reclaimed, if they could only be sent on an errand into a country where no whiskey was to be had. All more or less belonged to the class known in America as loafers—men who lived no one knew how, spending nearly all their time in bars, 'liquoring up' and smoking. We were much amused one day upon entering into conversation with a young gentleman who called himself the book keeper at one of the roadside stations. He, upon being asked the employment he had been hired for, said, most *naively*, that having a brother in Manitoba, whom he desired to see, his uncle, the Minister for Public Works, had placed him upon the staff of that department, so that he might be taken there in one of the boats without expense to himself. When appointments are to be given away, it is not a question of obtaining good men, but of how party purposes may be served by a judicious allotment of them amongst political supporters and their relations.

Strong westerly winds prevailed on Lake Shebandowan whilst the final arrangements were being made for our start, so that upon some days such a sea came rolling in and breaking upon the shore that it was impossible to load boats, or to get them off had we even succeeded in equipping them. Most fortunately these 'blows' seldom became powerful until about nine or ten a. m.; and generally wore themselves out towards four or five p. m., so that we had almost always several hours in the morning and evening for pushing on our work.

The only difficult and dangerous rapids in this section were on the Sturgeon River where extreme care is necessary in running them. A number of Iroquois were permanently stationed till all the troops had gone by, who took down every boat, only one being totally wrecked. It is a fine sight to watch these splendid boatmen taking a boat down. Four generally rowed or paddled; two others steered, with large-sized paddles—one in the bow, the other in the stern. The post of honor is in the bow; and it was curious to see how their eyes sparkled with fiery enthusiasm as they approached the roaring, seething waters, where the breaking of a paddle, or a false movement of any sort, would send the whole crew to certain death. They seemed thoroughly at home at the most trying moment; for there is generally one particular spot in all rapids—perhaps where some back eddy from a rock tends to suck in everything that approaches—that is the climax of the danger, which, if passed safely, the rest is easy sailing. The intensity of the look with which they regard the rushing water in front of them, whilst every fibre in their powerful frames is at its utmost tension, is a thing to be admired, but not to be described in words, nor even on canvass. There is a mixture of extreme, almost unearthly enjoyment, alloyed with a realization of the danger to be encountered, in their expression, which we never remember having seen in any face before, except in the countenance of soldiers at the hottest moment of a storming party. It bespoke the earnestness of men prepared to dare anything, and who gloried and revelled in the attendant danger.

Our daily routine was as follows: At the first streak of daylight (occasionally long before it) the *reveille* was sounded, followed quickly by a cry of "Fort Garry" from every tent or bivouac fire. This was the watchword of the force, as "Arms, men, and canoes" ("Arma vhumque cano") was the punning motto adopted for us by our witty chaplain. Tents were struck and stowed away in the boats, and all were soon on board and working hard at the oar. We halted for an hour at 8 A. M. for breakfast, and again for another hour for dinner at 1 p.m., and finally for the night about 6 or 7 p. m. It was surprising, after the first week's practice, to see the rapidity with which the men cooked; they quickly became most expert at lighting fires, cutting down trees, &c., &c. The sun soon burnt them a dark colour; indeed some became nearly black, the reflection from the water having a very bronzing effect upon the skin. The wear and tear upon their clothes was excessive; carrying loads on their backs tore their shirts and coats, whilst the constant friction from rowing soon wore large holes in their trousers, which, being patched with canvas from the bags in which the beans or other provisions had been carried, gave them a most motley appearance. Leading a sort of amphibious life, they were well nicknamed the "canvas-bagged ducks." This constant pulling was very monotonous employment; but we had a goal to reach, and all felt that every stroke of the oar brought us nearer to it. The long portage were most trying to the pluck and endurance of our men, and it is very questionable whether the soldiers of any other nation would or could have gone through the same amount of physical labor that fell to our lot daily. It is upon such occasions that we learn to appreciate the full value of the British officer. He may be idle in peace, but the very amusements of his idle hours—boating, shooting, hunting, cricket, &c., &c.—fit him to shine when hard work has to be done, in a manner that would be impossible to the spectacled bookworm of Germany, or the cafe-lounging *flaneur* of France. Our officers carried barrels of pork and other loads on their backs like the men; and the emulation and rivalry between the captains of companies, each being afraid that he should be passed in the race, soon spread to all ranks. You had only to tell a detachment that some other company had done a thing without any great effort, to insure its prompt execution. There was also called into play the rivalry between the regulars and the militia. The latter were determined that, no matter what the former did they would not be beaten. The regulars were in front all the time. One had only to tell them that they were making so little progress that the militia complained of being kept back by their slowness, to cause them to go ahead at any required speed; and, *vice versa*, if you told the militia that the regulars were running away from them, each successive company hurried on until those in the immediate front were overtaken. Indeed it may be said that each detachment trod upon the heels of the one before it, all were so eager to get on. At some shallow places, the men had to get into the water, and pull their boats along after them. Occasionally it was necessary to unload them partially or entirely, the boats being then run down rapids, or hauled over the shallow spots into deep water, where they were re-loaded, their cargoes being carred along the banks by the soldiers. At times it blew very hard from the west, so that many detachments were detained one or two days on some of the large lakes, unable even to start.

A voyage W. by N. of forty miles across Rainy Lake takes you to Rainy River, upon the right bank of which stands Fort Francis, two miles from the lake. The leading detachment reached this post on the 4th of August. They had done two hundred miles in nineteen days, having taken their boats, stores, &c., &c., over seventeen portages in that time, and having made a good practicable road at all these seventeen places. The troops in rear of them were able to make the journey quicker, as they found a made road and rollers laid down for the boats at every portage.

TO BE CONTINUED.

News Condensed.

—Small pox is increasing in Liverpool.

—Several persons are to be prosecuted for Sunday fishing in Burlington Bay.

—An iron manufactory is to be started on the Welland Canal.

—The subscription to Sir John A. Macdonald's testimonial fund amounts to $80,000.

—A great deal of alarm is felt in New Brunswick at the increase of small-pox.

—The English members of the Joint High Commission were introduced to President Grant on Saturday.

—A farm-house belonging to Mr. Arthur Elsworth, near Picton, was destroyed by fire on Saturday morning.

—His Excellency the Governor-General is going to England in May, on two months' leave of absence.

—Prof. Goldwin Smith has been invited by the Ottawa Literary Society to deliver a lecture in the capital.

—The officials at Heart's Content hold great doubts of the future successful working of the old Atlantic cable.

—Francis Whitemarsh, a farmer of Wolf Island, was drowned while crossing Batteau Channel on the 25th inst.

—It is believed Sir Francis Hincks will reduce the duty 5 per cent. on old duties imposed last session.

—The Canadian 20 cent pieces are being withdrawn from circulation by gradual absorption in the banks.

—Hon. J. S. Macdonald is up and about, but still unwell. He leaves for Ottawa on Monday or Tuesday.

—"Make me a Pea Jacket out of Pa's Old Coat" is the latest song, to take the place of the one about being put to bed.

—The contract for building the Toronto Post Office has been awarded to Mr. John Elliot, of Brantford.

—The belles of Springfield announce that there's no sort of use in trying to get up "religious" revivals until the party season is over.

—The eighth decennial census of the British Islands will be taken on the 3rd of April next simultaneously throughout the whole of Great Britain and Ireland.

—Columbus, Ohio, has on exhibition a hotel porter who until a few years ago was as black as black could be, but who by a gradual peeling process is becoming the palest of blondes.

—As a swindler the heathen Chinee is a success. He splits half dollars, takes out a third of the silver, fills the space with lead, and closes up the cut in a manner to defy detection.

—Amongst the names of places in Michigan are Ghost Lake, Rattlesnake Swamp, Gallows Hill, Whiskey Station, Jackknife Ridge, Cutthroat Creek, Betsy's Bridge, and Old Woman's Mask.

—A delegation from Pembroke met the Ottawa City Council and Board of Trade on Saturday, for the purpose of procuring an extension of the Canada Central to Pembroke. The meeting recommended the city to advance a bonus of $110,000.

Saratoga has an affluent Chinese merchant who flings eight ounce diamonds at the waiters heads when his baked rat isn't well done.

A philosophical individual, who suddenly sat down on a slippery sidewalk in Milwaukee, disarmed the usual ridicule incident to accidents of that character by coolly taking a cigar out of his pocket and lighting it before getting up.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 137-m-Th,

Daily Intelligencer.

BELLEVILLE, MONDAY, FEB. 27.

TOWN COUNCIL.—There will be a regular meeting of the Town Council to-night at 7½ o'clock.

A CURIOSITY.—Mr. John Macoun, our well-known naturalist, caught a live butterfly yesterday, a rather rare occurrence at this season of the year.

THE INTERCOLONIAL.—It is stated in well informed circles in Ottawa that 277 miles of rails will be laid on the Intercolonial Railroad before the end of the year, and most of the rolling stock.

MASONIC HALL.—The date fixed for the production by Wilton's company, of the moral, temperance and sensational drama of "Ten nights in a Bar-room," is Tuesday next, March 7th, at the Masonic Music Hall.

KINGSTON RACES.—The Spring Races at Kingston are advertised for the 24th and 25th of May. There will be six races, three running and three trotting, for which $2,500 will be offered in purses, in addition to the Queen's Plate.

G. J. R. MEETING.—The President has called a meeting of the Provisional Board of Directors of the Grand Junction Railway, to be held in Belleville on Tuesday, the 28th inst. The meeting is called for general business.

POLICE COURT.—Lent seems to have exerted some influence in favor of good morals, cases having been scarce since its advent. There was no business for transaction by the Magistrate this morning.

AGRICULTURE AND MINING.—Professor J. T. Bell, of Albert University, intends shortly to deliver lectures on the above sujects, in the various townships within the county. These addresses would have been given at an earlier date had not domestic affliction necessitated their postponement.

THE WEATHER.—Since yesterday afternoon, the weather has been considerably "mixed," snow, rain and sleet alternating. The sidewalks in many places are covered with a couple of inches of half-frozen water, amidst which it is difficult for pedestrians to pick their way.

GRAND JUNCTION RAILWAY.—The electors of the village of Stirling vote to-morrow on a by-law for the purpose of the granting by that municipality of a bonus of $10,000 to aid the construction of the Grand Junction Railway. From what we can learn it is altogether probable that the By-law will be carried by a large majority.

FROM MANITOBA.—A despatch from Fort Garry to the 12th Feb., via St. Cloud, Feb. 24th says:—The mail bag containing the missing writs is supposed to be lost. The Government have despatched a messenger to hunt it up, and go to St. Cloud, if necessary and telegraph the loss. Parliament is prorogued till the 23rd of February. Yesterday was the coldest day—the thermometer was 42° below zero.

THE CANAL COMMISSION.—The Ottawa *Citizen* of the 25th says; The Canal Commission, which has been sitting here for the past few days, yesterday adopted a report to the Government, and adjourned *sine die*. We understand that the report embraces recommendations in favor of the enlargement of the Welland and St. Lawrence, and of the construction of the Sault. Ste. Marie and Bay Verte Canals.

GARRISON BATTERIES.—It is stated in Ottawa that two Garrison Batteries, to be raised on and after the 1st May by the Militia Department for service at Kingston and St. Helens, will each consist of one hundred men and three officers, who will be under the superintendence of regular artillery officers for one year, after which the Canadian senior artillery officers will assume entire command. They will wear British uniforms, and sign articles for one year. A large number of applications for commissions have already been sent in. The Canadian officers' commissions will be permanent.

—The largest importers of kid gloves in England say that there is really no ground for any rise in the price of these articles on account of the war, as retail dealers some times pretend. No gloves are made in Rouen or Orleans, and Grenoble and the district round it, where they are made, has not been interfered with. Moreover, Austria, Prussia, Saxony, Bohemia, Denmark, and other parts of the continent, contribute largely to the demands both of England and America.

The High Commission.

An exceedingly interesting debate took place in the House of Commons on Friday last, upon a series of resolutions introduced by the Hon. Sir Alex. Galt, the purport of which were to express an opinion by the House upon the weights and important questions which are to be brought before the Joint High Commission about to sit in Washington, to adjust difficulties now pending between England, Canada and the United States. These resolutions were as follows:

1. *Resolved*,—That this House recognizes in the fullest manner the importance to the cause of peace and civilization, of the settlement of all questions in dispute between Great Britain and the United States. And, in the especial interests of Canada, will rejoice to find the result of the Joint High Commission productive of cordial and lasting friendship between the two nations.

2. *Resolved*,—That this House regards the control and disposal of the inshore Fisheries and the navigation of the inland waters of the Dominion as specially within the powers conveyed to the Parliament of Canada under the British North America Act, and will view with the utmost concern and apprehension any proposal to alter or diminish the just rights of the Dominion in these respects, without their consent.

3. *Resolved*,—That this House has always been, and now is, prepared to concede the most free and unrestricted use of the Fisheries and Inland Navigation to the United States upon receiving as an equivalent therefor complete compensation in modification of the United States commercial system, directed to the more free and liberal interchange of the products of labor in the two countries.

4. *Resolved*,—That the concession to the United States of the freedom of the Fisheries and of the St. Lawrence without such compensation would place Canada in a most disadvantageous position for future negotiation by depriving her of the means of offering any adequate equivalent for those concessions she is desirous of obtaining from that nation.

5. *Resolved*,—That this House willingly consents to the consideration by the Joint High Commission of all subjects in which Canada is concerned with the United States, and will cheerfully make any sacrifices that may be required at their hands in the interest of the Empire, so far as they do not compromise the national interests and security of this country, and directly tend to their undue subordination to the United States in the future.

6. *Resolved*,—That this House desires that the question of the claims of Canada upon the United States, arising out of the repeated and illegal invasions by predatory bands of so-called Fenians, organized within the Territory of the United States, may be so dealt with by the Joint Commission as to afford indemnity for the past, and security against similar outrages in the future.

The speech of Mr. Galt in introducing these resolutions was a masterly effort, giving a full history of the whole question, and forcibly pointing out the fear he had that Canadian interests would be sacrificed to settle demands made upon the Imperial treasury for losses sustained by the Alabama. His whole speech was one of distrust of the English Government towards Canada, and he expressed a desire to strengthen the hands of the Canadian Commissioner. In short, no one can read that speech without seeing 'Independence' sticking out at every point: hence it fell with less weight upon the House.

Sir John A. Macdonald followed by stating that his own sentiments were in accord with the principles laid down in the resolutions, but deprecated in the strongest language the distrust expressed by Mr. Galt in the sincerity of England to stand by her American Colonies. This, he contended, was not the true policy to pursue. The Commission to settle these difficulties had been appointed at the suggestion of Canada, and for the first time in English history a Colonial statesman had been appointed to assist in settling questions which were not only of Canadian but of Imperial import. This certainly was the best evidence of England's desire to have justice done to her colonies on this continent. The fettering of the Canadian Commissioner with instructions would have the most disastrous effect. No English Commissioner would accept an appointment of such a character upon like terms, and he hoped when the mover had ascertained the opinion of the House he would withdraw the resolutions.

Messrs. Mackenzie and Blake both expressed strong views upon the question, which were in accord with those uttered by the Premier, and urged the withdrawal of the resolutions, which was subsequently done.

There is one pleasing feature in this debate, and that is, that Mr. Mackenzie in this, as upon all questions affecting the honor of Canada, lays aside his peculiar political views and prejudices and joins in promoting whatever may be for the general interest of the Dominion as against American aggression or American aggrandizement. There is hope for a country when Canadians follow the example of English statesmen in the House of Commons, by sinking all minor questions and differences when the integrity and honor of the Dominion are at stake. We readily extend this mede of praise to the leader of the opposition, and trust that similar feelings may actuate all parties in the future. Such a course gives tone and force to our position, and will strengthen beyond measure the hands of those who have the important duties devolving upon them, of watching and guarding the interests of this young and rising Dominion.

Post Master General's Report.

The Post Master General's Report for the year ending 30th June, 1870, was laid before Parliament on the 25th inst. It states that 3,820 post offices were in operation on the 30th June, 1870, from which an annual revenue of $1,010,767 was derived, as against an expenditure of $1,155,261. It also refers to the cordial and satisfactory nature of the arrangements entered into with the United States on the North-west mails, coupled with the statement that the whole postal system of Manitoba is to be arranged on the Canadian basis at an early date. The introduction of post cards in Great Britain, and the convenience said to have attended their use, has induced the Department to make arrangements for the manufacture of similar cards for use here. They will be sold at a cent each, and may be posted to any place in the Dominion, and will be conveyed to their destination and delivered in like manner with letters, the one cent covering the cost of the card and delivery. A general scale of compensation to Postmasters has also been adopted on an equitable basis. It will apply immediately, with this exception, as respects the present incumbents, that where the duly authorized salary now enjoyed exceeds the amount derived under the new scale, no change will be made until there be a change of postmaster, or until the growth in the business of the office shall warrant an increase to such salary. The new scale is—1. Salary of $10 to all offices where the annual business does not exceed $25. 2. Salary equal to 40 per cent., instead of 32½, as heretofore, in all Ontario and Quebec offices, where the business does not exceed $800. 3. On any excess in the yearly postal business at offices over $800, the salary on the excess will be at the rate of 25 per cent. 4. Where night duty in making up the mails is performed, the salary on the first $800 is to be 50 instead of 40 per cent. 5. Allowance made for rent, fuel, etc., to offices with business over $2,000 a year. 6. Special allowances in special cases. 7. A commission of ½ of 1 per cent allowed on money order issues and Post Office Savings Bank deposits above the scale, is to take effect from 1st January last, as regards country postmasters and way officers, and will be raised every two years. In his remarks Mr. Campbell hopes that this settlement of the question will combine the merits of salary and commission systems, augment the ratio of compensation in Ontario and Quebec, and remove the difficulty which has so long perplexed post office accounts in both Provinces. He also states that notwithstanding the reduction in the package postage rate, the revenue for 1870 has increased by $37,711, and that there is a considerable increase in letters by the Canada packets since the rate was introduced; but that its extent does not counterbalace the loss. To accelerate the delivery of mails, measures are also stated to be now in progress with the Imperial Post office to take them to LoughSwilley instead of LoughFoyle. The report closes with the satisfactory statement that there have have been no frauds or losses of any kind in connection with the Post Office Savings Bank business since it came into operation.

The Ontario Elections.

The election writs for the second Parliament of the Province of Ontario have been issured. The nominations are to take place on the 14th of March, the day of polling to be on the 21st of March.

The following gentlemen haye been appointed Returning Officers for the County of Hastings:

BY ATLANTIC CABLE.

Midnight Despatches.

The Conditions of Peace.

Uneasiness at Amiens.

March through Paris Abandoned.

PARIS, Sunday, 26th (*via* London, 2 p.m.) The conclusion of peace is now certain. Thiers, Favre and the consultative commission have accepted the following conditions:—

1st. The cession of Alsace and Metz, but Belfort to be restored to France.

2nd. Payment of a war indemnity of five milliards of francs.

3rd. A portion of French territory, with some fortified towns like Sedan to remain in possession of Germany until the conditions of the treaty are fulfilled.

4th. German army to enter Paris on Monday and occupy the Champs Elysees.

5th. Peace to be proclaimed when the French Assembly ratifies these conditions.

Thiers and the delegation return to Bordeaux to-day.

The London *Telegraph* has a special despatch from Amiens saying that much uneasiness prevails there in consequence of a report that interfered in regard to Metz, declaring that that fortress should not be ceded to the Germans.

NEW YORK, Feb. 26, midnight.—A special to the World from London to-night, says: The English Government has interfered at the last moment and persuaded the Germans to abandon their march through Paris. The troops will only pass through the open spaces on the south side of the city.

Morning Despatches.

Preliminaries of Peace Signed.

Movements of Thiers.

BORDEAUX, Feb. 26—An official despatch from Paris states that the preliminaries of peace have been signed.

Thiers arrives in Bordeaux to-morrow.

American Despatches.

The High Commission.

Rumors of probable Difficulties.

British Schooners Seized.

NEW YORK, Feb. 27.—A Washington despatch to the *Herald* says that a growing sentiment of apprehension as to the result of the High Commission prevails in that city. It is believed that Sir John A. Macdonald is preparing his people for a great discount of their fishery demands. His announcement in the Dominion Parliament is regarded as an abandonment of the headland claim, and his silence as to the presentation of Canadian claims for Fenian raids is regarded as equally significant. It is well understood that the British Government can present no claims against the United States in connection with the Fenian raids, having already repeatedly thanked our Government for its course in stopping these invasions. It would seem that most likely the difficulties will commence outside of Canada matters, and there is no reason to believe that England is yet prepared to recede from her position on the Alabama question, and therefore there is but little hope that an acceptable basis can be reached.

EASTPORT, Feb. 26.—The British schooners Investigation and Grace were seized to-day by the revenue cutter Vigilant for violation of coasting laws.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

BERLIN, Feb. 27.—The Emperor William telegraphs from Versailles to the Empress Augusta as follows:—With a deeply moved heart in gratitude to God, I inform you that the preliminaries of peace have been signed. The Bordeaux Assembly must yet ratify them.

(Signed) WILHELM.

PARIS, Feby. 27.—France cedes Alsace and Metz. Belfort is retained. The war indemnity is fixed at five milliards of francs, for the payment of which three years' time is granted. The Germans hold the fortresses until it is paid.

The armistice has been prolonged a week.

The Germans enter Paris immediately.

Rothschild has been summoned to Versailles, as have also the railway presidents, to arrange to convey the German troops back to their own country. Their departure will be preceded by a review in the Champ de Mars.

It is said that the Marseilles elections have been annulled, and that Deligny declines to assume the deputyship of the Government in that city.

LONDON, Feb. 27, 1:30 p.m.—It is now thought that the German army will not enter Paris, and it is said that the Emperor and Prince Imperial will certainly not do so.

Prince Charles of Roumania, it is now announced, is still resolved to abdicate.

Spanish-Egyptian Embroglio

SPAIN THREATENING WAR—INSULT OFFERED TO A SPANISH CLERK—A SPANISH ULTIMATUM.

LONDON, Feb. 26.—A difficulty has arisen between Spain and Egypt, caused by an insult offered to the Clerk of the Spanish Consulate in Cairo. It was reported that all the Spanish consuls had left Egypt. The Spanish *Imparcial* denies this, but states that they have been instructed to act energetically. The Khedive has not yet replied to the representations of Spain demanding satisfaction. The Spanish Minister of Finance has resolved to make no attempt to raise funds until the meeting of the Cortes, with the exception of issuing the treasury bonds authorized by the late Cortes.

MADRID, Feb. 25.—The Spanish Government has sent to the Viceroy of Egypt its ultimatum. The reply of the latter is unknown. Several European powers have offered meditation between Spain and Egypt.

Mr. McKenzie's Literary Thirst.

(From the Montreal Daily News.)

Mr. McKenzie has magnificent conceptions of the duty of a member. Ordinary mortals would pride themselves on mastering one, or at the outside, two branches of the public service, but in his abnormal condition he is ubiquitous. His appetite for information is insatiable. The session has hardly opened when lo! Mr. McKenzie has no less than fourteen notices of addresses for papers on the motion list. Is he so embittered against Sir Francis that he wishes to ruin the finances, or are there herds of hungry Grits scenting in anticipation of the public crib? Speaker Cockburn, who understands his work pretty well, will of course take the hint given by Mr. McKenzie, and engage every clerk offering. We have made a rough calculation of the labour involved in carrying out Mr. McKenzie's motions. Everyone understands that the ordinary work of the session is so exhausting that the permanent clerks waste away to shadows, lose their cheerfulness, and only speak in an undertone about life assurances. It is out of the question to suppose that they can be sacrificed to appease Mr. McKenzie's mania for reports. He has, as we have observed, made fourteen separate applications. Now each of these fourteen reports will furnish full occupation for a dozen clerks. They must be intelligent, sober and industrious, otherwise they cannot get through the work within a month. Thus then we reach an aggregate of 168 clerks set in motion by Mr. McKenzie's motions—equivalent to 14 years hard labor of one individual. There can be no limit assigned to Mr. McKenzie's demand for information. Each day may swell the list of his motions, until another wing to the Parliament buildings becomes necessary.—Would Mr. McKenzie oblige us by making a motion to enquire whether any of the inmates of the Kingston Penitentiary would object to copying his reports? He might effect an important saving if fifty quick copyists could be found at that asylum for penitents. We desire to speak with respect of the convicts because it is not impossible that some day even a Commons member may find his way into that sanctuary, if the police reports are to be believed.

CANADA

LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents:

1st. The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY, Manager.

January 25th, 1871.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists. Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors, Montreal, P Q.

51:1m233:1m

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will speedily and certainly arrest the depressing influences of disease upon the nerves and muscles. It restores the appetite and induces a disposition to take on healthy flesh. It causes the formation of living blood, strengthening the action of both Heart and Lungs. It sustains the system under trying circumstances and causes the healthy development of all the organs necessary to our existence.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,

Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,

Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,

Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47-2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam*. * * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77;2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,

CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow!

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-simile* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

BANKERS — THE MERCHANTS' BANK OF CANADA.

THIS Company is now doing a successful business. It has a Farm, a Town and Village Branches, both managed by the same Board, and members of one Branch are not liable for a loss in the other Branch, and the expense of working is borne by each Branch in proportion to the amount of business done in each. Insurance can be effected as cheaply in the "Hastings Mutual" as in any other Mutual in Canada, and it is to the interest of every person in this vicinity to patronize a Home Company, and thereby husband their own resources, have their business of Insurance managed by a Board of Directors of their own choosing annually, in whom the people have the most implicit confidence.

The Brave Engineer.

In the dead of the night, as the train dashed along,
The sleepers lay dreaming, unconscious of harm;
They thought not of danger, they thought not of death,
They heard not the signal of danger's alarm.

'Brakes! brakes!' shrieked the engine; but alas! 'twas too late,
The sleepers awakened, surrounded by fire.
Soon their eyes closed in death—their tortures were over;
The hot, blazing cars were their funeral pyre.

Peering straight through the darkness, his hand to his eye,
Stood the engineer Simmons; and his hand never shakes
As he seizes the signal rope. The whistle responds
With the terrible warning, "Down your brakes, down your brakes!"

"We are lost! we are lost! for your life, Doctor jump!
For God's sake, don't stop! let's jump while we can!"
"You may jump if you like!" brave Simmons replies,
"As for me, I will stand to my post like a man!"

Then the flames closed around him—on his engine he stood;
He had faced death so often that he now had no fear.
With one hand on the throttle, and one on the brake,
Died noble "Doc." Simmons, the brave engineer.

L. C. JOHNSTON.

New York, Feb. 10, 1871.

Potato Bugs.

A correspondent of the Cincinnati *Gazette* recommends the exensive planting of early potatoes, and the abandonment of late planted potatoes during the prevalence of the potato bugs, for the following reasons:—On the approach of winter they dig down and burrow in the earth six or eight inches deep, where thousands of them may now be found in their winter quarters, only waiting for the warm sun of June to call them forth to their work of destruction. The bugs will make their appearance about the 1st of June, but not so numerous but that they can be managed until an early crop can be matured. When they first appear, they immediately fly in search of their favorite food. After a few days the sexes pair, and in a day or two the eggs are deposited, after which the old bugs soon become torpid and die, having gone their round of life and filled out their little day. In four or five days these eggs in their turn are hatched, and after about ten days of voracious feeding, these things that are hatched attain to the full size of the potato bug larvæ. They then seek the earth and dig about an inch under ground, where in a few days the larvæ changes to the beetle, when they come forth the complete Colarado potato bug, to perpetuate their species in like manner as the first. And thus they keep on multiplying, one generation after another, increasing to such astonishing numbers as to sweep everything before them. On the approach of cold in autumn it seems that those only burrow in the earth that have not yet paired together, while all the rest die off. Paris green will kill them, but they keep coming in such numbers, and multiplying so fast, that I think it extremely doubtful whether it will pay to cultivate the late varieties of potato at all.

An American editor recently said to his correspondents, "If we should desire stupid articles we can write them ourselves."

The American Agriculturist,

FOR THE

FARM, GARDEN AND HOUSEHOLD,

Containing a Special Interesting and Instructive Department for Children and Youth.

ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care, to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

☞ Try it a year.

ORANGE JUDD & CO.,
245 Broadway, New York.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior, in point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

Of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear in greatly enlarged and improved form and special pains will be taken in the selection and arrangement of its matter, so as to give an interesting and complete epitome of the week's news.

The Weekly *Gazette* will continue to be mailed to subscribers at $1 per year, payable strictly in advance.

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The **Sarsaparillian** *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone But the wonderful improvements it has secured to the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, Bright's **disease of the** KIDNEYS, SECONDARY SYPHILIS, and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the **Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent.** *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, as Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms Glandular Disease, Ulcers in the Throat Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief.** He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent,** diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctoring for nine years, and cured at a cost of less than ten dollars.

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw him in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills** One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent.** After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered.

JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.**

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATE.

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harpers's Magazine will be sent one year on receipt of $5 50.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,

FROM

1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

NORTHROP & LYMAN,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors

PETERS'

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. Peters, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

MUSICAL

MONTHLY

$60 for $3.

THE BEST IN THE WORLD
The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country, *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanics Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"*MEN OF PROGRESS—AMERICAN INVENTORS.*"

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ **1,500 Cash Prizes.** ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. Address the Publishers MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and diseases of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured ses Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoir many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called "peristaltic" movement, purge from the alimentary canal the fæces *and this is all.* **Such agent, for the purpose of cure, or removal of any settled disease, are utterly useless.**

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied *an alterative*, **(and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills**

DR. RADWAY'S PILLS

In RADWAY'S PILLS (which are the only *perfect Purgative Pills*) you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effect of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*, **the other is that of nutritition. It becomes necessary for the life of the body that the decayed and excrementitious elements be** *dismissed* **and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver skin bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so** *thoroughly*, **HAPPILY, and with such COMFORT as**

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches Ailments, &c., that Radway's Ready Relief cure time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER,
Bilious Fever

In the world. There is no Ague Cure, Cholagogue or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, pay the penalty in engorged liver, fat, spleen, disordered kidneys, saffron colored skin, and hundreds of other symptoms of distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers Chills, Bilious Attacks, &c., than the Quinine Mixtures, Ague [illegible] Cholagogues, &c., costing $1 to $5, and Radway's Ready Relief is good for hundreds of other [illegible] that these are not.

One 25 cent bottle of **Radway's Ready Relief** diluted in one gallon of proof spirits will give you equal in quantity, and superior in [illegible] to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas. [illegible] these remedies being but poor imitations of **Radway's Ready Relief.**

One bottle of **Radway's Ready Relief**, 25 cents, as a Pain Remedy, and for Family [illegible] will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera, Cholera Morbus,
Bilious Colic, Flux,
And all Painful Discharges.

Travelers should always carry a bottle of Radway's Ready Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief** Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St Paul Street, Montreal, and by Druggists and general storekeepers everywhere. One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalop, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are new medines, prepared on new principles, and Pills ll curesick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$ 5 00
do	do	12 do	8 00
Half square,	6 months,		12 00
do	12	do	20 00
One square,	6	do	20 00
do	12	do	32 00
Two squares,	6	do	30 00
do	12	do	50 00
Three squares,	6	do	40 00
do	12	do	65 00
Four squares,	6	do	50 00
do	12	do	80 00
Notices of Births,			50
Do of Marriages,			50
Do of Deaths,			50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six, lines (per line) first insertion	0 08
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"— cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and Wilson's Drug Store, Madoc.

All orders by mail promptly attended to.

THE GREAT
English and Scotch Quarterlies,
AND
Blackwood's Magazine,
REPRINTED IN NEW YORK BY
The Leonard Scott Publishing Co.

QUARTERLY:

THE EDINBURGH REVIEW,
NORTH BRITISH REVIEW,
LONDON QUARTERLY REVIEW.
WESTMINSTER REVIEW.

MONTHLY:

Blackwood's Edinburgh Magazine.

THESE periodicals are the medium through which the greatest minds, not only of Great Britain and Ireland, but also of Continental Europe, are constantly brought into more or less intimate communication with the world of readers. History, Biography, Science, Philosophy, Art, Religion, the great political questions of the past and of to-day, are treated in their pages as the learned alone can treat them. No one who would keep pace with the times can afford to do without these periodicals.

Of all the monthlies *Blackwood* holds the foremost place.

TERMS.

For any one of the Reviews,	$4.00	per annum
For any two of the Reviews,	7.00	"
For any three of the Reviews,	10.00	"
For all four of the Reviews,	12.00	"
For Blackwood's Magazine,	4.00	"
For Blackwood and one Review,	7.00	"
For Blackwood and any two of the Reviews,	10.00	
For Blackwood and three of the Reviews,	13.00	"
For Blackwood and the four Reviews,	15.00	"

Single numbers of a Review, $1. Single numbers of Blackwood, 35 Cents.

CLUBS.

A discount of *twenty per cent.* will be allowed to Clubs of four or more persons. Thus, four copies of Blackwood, or of one Review, will be sent to *one address* for $12.80. Four copies of the four Reviews and Blackwood for $48, and so on. For clubs of ten or more persons a copy gratis to the getter-up of the club, in addition to the above discount.

Premiums to New Subscribers.

New Subscribers to any two of the above periodicals for 1871 will be entitled to receive *one* of the *Reviews* for 1870. New Subscribers to all the five may receive any *two* of the *Reviews* for 1870.

☞ Neither premiums to subscribers nor discount to Clubs, can be allowed, unless the money is remitted *direct to the Publishers.* No premiums can be given to Clubs.

Circulars with further particulars may be had on application.

CONCENTRATED LYE.

AMONGST the many imitations of this celebrated article is one by a Druggist in Montreal, for which he has borrowed the name Extract of Soap—and by the way, perhaps he can enlighten us as to what Extract of Soap! means. Well this individual, whose ideas of Meum and Teum are somewhat hazy, has got the bump of IMITATION so largely developed, that he has tried his hand on the majority of popular articles which have been brought out for the last few years. This imitator, this borrower of other people's brains, trading on the reputation of an old established house, of which, by a strange dispensation of Providence, he has got the management, is palming off his Extract on the public in place of the genuine. Purchasers will notice that the "genuine" has the subscriber's address stamped on each tin. For sale by all the leading Druggists and Grocers throughout the Dominion.

OTTAWA HOTEL,
ST. JAMES & NOTRE DAME STS., MONTREAL, P.Q.,
Burnett & Doyle, Proprietors.

D. C. Burnett, late Proprietor of Woodruff House, Watertown, N. Y., and St. James' Hotel, Montreal.

THE Proprietors take pleasure in informing their friends and travellers, either for pleasure or on business, that they have recently opened this new and elegant Hotel, where they will find every convenience and accommodation. Guests will find this the most pleasant and desirable stopping place in the city. Charges per day, $2.

June 17th, 1870. 40

St. James' Hotel,
MONTREAL.

THE undersigned beg to notify the public that they have purchased the above well-known first-class Hotel, and which is now carried on as a

Branch Establishment of the St. Lawrence Hall,

under the management of Mr. Samuel Montgomery (nephew of Mr. Hogan) and Frederick Geriken, both well known to the travelling community both in the United States and Canada, as being connected with the St. Lawrence Hall.

The ST. JAMES' is favorably situated, facing Victoria Square, in the very centre of the city, and contiguous to the Post Office and the Banks. Its convenience for business men is everything that can be desired, as it is in the immediate vicinity of the leading Wholesale Houses. The rooms, being well appointed and ventilated, are cheerful for families; while the menage will be unexceptionable, and no pains will be spared in ministering to the comfort of guests. The proprietors, having leased the adjoining premises, are prepared to offer every inducement to the Spring and Fall Trade; and as their tariff is unexceptionally reasonable, they hope to obtain a large share of public patronage.

Scientific American
FOR 1871.
TWENTY-SIXTH YEAR

THIS splendid weekly, greatly enlarged and improved, is one of the most useful and interesting journals ever published. Every number is beautifully printed on fine paper, and elegantly illustrated with original engravings, representing

New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

Farmers, Mechanics, Inventors, Engineers, Chemists, Manufacturers, and people of all Professions or Trades will find

THE SCIENTIFIC AMERICAN
OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a continual source of valuable instruction. The Editors are assisted by many of the ablest American and European writers, and having access to all the leading scientific and mechanical journals of the world, the columns of the Scientific American are constantly enriched with the choicest information.

An OFFICIAL LIST of all the Patents Issued is Published Weekly.

The Yearly Numbers of the Scientific American make two splendid volumes of nearly one thousand pages, equivalent in size to nearly four thousand ordinary book pages. Specimen copies sent free.

TERMS—$3 a year; $1 50 half year; Clubs of Ten Copies for one year, at $2 50 each, $25, with a splendid premium to the person who forms the Club, consisting of a copy of the celebrated Steel Plate Engraving, "Men of Progress"

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent?—is to write to Munn & Co., 37 Park Row, N. Y., who have had over twenty-five years' experience in the business. No charge is made for opinion and advice. A pen-and-ink sketch, or full written description of the Invention, should be sent.

For instructions concerning American and European Patents, Caveats, Re-Issues, Interferences, Rejected Cases, Hints on Selling Patents, Rules and Proceedings of the Patent Office, the new Patent Laws, Examinations, Extensions, Infringements, etc., etc., send for Instruction Book, which will be mailed free on application. All business strictly confidential. Address

MUNN & Co.,
Publishers of the Scientific American,
37 Park Row, New York.

Interesting to Ladies.

IN this rapid age it is absolutely necessary for ladies to keep *au courant* of what is passing in the world around them.

For this purpose no medium is so good as a first-class magazine.

We recommend to ladies, who desire one useful and sensible as well as fashionable,

DEMOREST'S ILLUSTRATED MONTHLY

as the very best parlor periodical that we know.

It is more complete in its departments than any other

Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models.

It gives with every number full-sized patterns, which supply, during the year, all that any lady needs for the cutting of her own and her children's wardrobe.

It is always high-toned, and its contributors include some of the finest talent in the country.

Its *Ladies' Club* affords valuable and useful information upon every subject.

It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music, architecture, and other topics interesting to ladies—all calculated to assist in making our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the money.

It also offers a large and magnificent Parlor Steel engraving, 28 by 35 inches, entitled "The Pic-nic on the Fourth of July," valued at $10.00, to each subscriber as a premium.

The engraving is all done in line and stipple, from the original painting by Lillie M. Spencer, and, besides the copyright, cost over seven thousand dollars, and is acknowledged by artists to be the most perfect and beautiful large engraving ever issued in this country. Certainly $10.00 will not procure another that combines so much interest and beauty.

Or, it offers a fine Chromo, worth $5.00, and other premiums, worth more than the cost of the magazine, to each subscriber, post free, and extraordinary premiums for clubs.

Subscription price, $3.00 per annum. Commence any time.

Single copies, 25 cts. Specimen copies, with circulars, mailed free on receipt of 15 cts.

Address W. JENNINGS DEMOREST,
838 BROADWAY, NEW YORK.

The Ontario Farmer
Second Year of Publication.

THIS ably conducted, popular and invaluable rural Journal, will, on and after January 1st, 1870, be issued from the City of Hamilton, Ont. Messrs. T. & R. WHITE having purchased a proprietory interest in it, and become its publishers, in the belief that this region of country, second to no part of Canada in agricultural and horticultural resources and progress, *needs and will ably sustain* a periodical devoted specially to the interests of the farm and garden.

THE ONTARIO FARMER will continue to be edited by the Rev. W. F. Clarke, who is universally acknowledged to be the ablest agricultural writer in the Dominion, and whose name, from long connection with the rural press, has become 'familiar as a household word' among the farmers of Canada. During the past year, Rev. Henry Ward Beecher, Professor Buckland, Hon. G. W. Allan, Mr. W. Edwards and other eminent contributors have written for the *Ontario Farmer*, and no pains will be spared to secure the continued co-operation of leading agriculturists and horticulturists, in adding variety and interest to its contents.

During the coming year, engraved portraits of prize animals at the late Provincial Exhibition, will, from time to time, appear in the *Ontario Farmer.* These engravings will be executed by those incomparable stock artists, Messrs. Page and Carson, of New York.

Special attention will continue to be given to the advancement of Emigration, the promotion of Arts and Manufactures, and as during the past year, each number will contain a choice piece of either secular or sacred music.

The attention of farm implement-makers, seeds-men, nursery-men, dairy-men, and others, is invited to the *Ontario Farmer*, as a first-class advertising medium. Terms—10 cents per line, with liberal discount for quarterly, half-yearly and yearly advertisements.

SUBSCRIPTION PRICE, free of postage, $1.00 a year, payable in advance.

☞ 334 Large Octavo Pages for One Dollar.

SPECIAL CLUB OFFER.—Furnished to Agricultural and Horticultural Societies, in Clubs of any number, at *Seventy-Five Cents* each, free of postage.

GENERAL CLUB RATES FOR 1870.

Club of 6 Subscribers,	$ 5.00
Club of 10 "	8.00
Club of 20 "	15.00

And all over 20, at 75c per copy, free of postage.

Belleville, Aug. 19, 1870. 93

Narrative of the Red River Expedition.

BY AN OFFICER OF THE EXPEDITIONARY FORCE.

PART II.

(From Blackwood for January.)

CONTINUED.

Fort Francis, a Hudson Bay Company trading post, is exactly due west from Shebandowan Lake. It is a collection of one-storied wooden buildings, surrounded by palisading. Although dignified by the high-sounding title of fort, it has no military works whatever about it. The river bends here, so that immediately in front of the place is a very fine fall, about twenty-two feet in height, from below which the broken, boiling, bubbling waters send up volumes of spray, covering the land, according to the direction of the wind, with a perpetually-falling rain. This, and the luxuriant fertility of the soil, causes the banks near it to be clothed with grass of the brightest green, affording the richest pasture. After the wilderness of water, rock, and scrubby wood that we passed through, the sight of catttle grazing, and of ripe wheat bending before the lightest wind from the heaviness of the ear, was most refreshing. Only a few acres were under cultivation, although there was a considerable clearance; and a large extent covered with bushes bore evidence to there having been here at one time a good-sized farm. There was a garden close to the dwelling-house, where there were peas, potatoes, and onions growing, and apparently going to waste, until we arrived to partake of them.

A mill for grinding corn had once existed here, there being water-power enough on the spot to drive every mill in America, but it had disappeared. There was an air of decay and neglect about the whole place that bespoke either poverty or want of energy on the part of those in charge. The half-breed race to which the officers of the Hudson Bay Company at such posts generally belong now, is extremely apathetic, there is no go-aheadness about it, and in those out-of-the-way localities the half-breeds quickly go back to the manners, customs, and mode of living of their Indian mothers. They live upon fish, as their Indian ancestors did, and like them, have no appreciation of the value of cleanliness or order.

By the rules of the Company it is compulsory to have at each post an ice house, a garden, and a few cows; so they have them, but they seem to care for none of these things.

The fertile belt of land along the north bank of Rainy River is only about a mile in width, great swamps existing between it and the chain of lakes which lies to the northward. There had been a large Indian encampment here during the early part of July, it being a great annual resort for the surrounding tribes; but this summer, as they expected our arrival amongst them, they had collected from all quarters in the hope of obtaining presents. They also wished to appear imposing by their numbers, so as to enhance the value of their goodwill towards us, and to impress upon the white-faced soldier how formidable they might be as enemies. Unfortunately for the success of their intentions, we were not able to start for at least six weeks after the time originally proposed for our departure from Shebandowan; so that as days wore on and there was no sign of our arrival, the crowd grew weary of waiting, particularly as the supply of fish in the neighborhood became exhausted, there being so many mouths to feed. The Government had early in the preceding winter sent a gentleman to Fort Francis for the purpose of keeping the Indians of that district quiet, and preventing them from being tampered with by Riel. He had exerted his influence—which was considerable—to induce them to disperse, fearing that their presence might lead to a collision with the soldiery when engaged in carrying stores and boats over the portage on which stood Indian wigwams. His persuasions, and that most potent of arguments, an empty stomach, soon caused them to leave; so that when we arrived not more than about a dozen lodges remained, although their uncovered poles stood thickly around, reminding one of the way poles are piled together in a field at home when the hops have been picked.

Col. Wolseley had several 'pow-wows' with those that remained. A hideous old chief named Crooked-neck, from the manner in which his head was set on his shoulders, was the principal speaker. He was very old and very dirty, and, in the name of his people, made most exorbitant demands in stating the terms on which they were prepared to allow us permanently to open out a route through their territory. There was much difficulty in making them understand that the military necessities of our position rendered it impossible for us to have brought them up large presents, but that whatever it was settled by the Government of Canada they were to receive should be given to them next year. There was the usual talk about loyalty to the Great Mother, and of their desire to live on good terms with their white brothers They said that the passage of so many boats through their waters had frightened their fish, so that but little was now to be had; and complained of our men having at many places thrown empty barrels into the rivers, which scared the pike and sturgeon, alleging that even the grease from these barrels had been generally destructive to fish of all sorts. Some one had put this idea into their heads, and there was no eradicating it.

The costumes of these people were very

grotesque, and all the warriors painted their faces most fantastically with red, yellow, or green. A fine tall fellow had one side of his face painted black and the other red, his coat being also of two colors similarly divided. All wore a blanket wrapped round their bodies, which gave them the appearance of height.

Fort Francis, or rather the ground about it, has a sacred repute with them; and here take place annually their medicine ceremonies, a sort of secret orgie, beginning with eating the flesh of dogs—white ones if they are to be had—and ending by initiating those anxious for instruction into various mysteries, and the use of many herbs.

Previous to leaving Prince Arthur's Landing, Colonel Wolseley had sent a proclamation into the Red River Settlement, informing the people of the objects of the Expedition, and calling upon all loyal men to assist him in carrying them out. Copies of it were sent to the Protestant and Roman Catholic bishops, also to the Governor of the Hudson Bay Company at Fort Garry, who were at the same time requested by letter to take measures for pushing on the road to the Lake of the Woods, already partially made. It was never anticipated that this road could be completed in time for us to use it, even should there be no hostilities; but it was considered advisable to impress Riel with the idea that we intended advancing by that route, so that in case he was bent upon fighting, he would frame all his calculations upon a wrong basis, and make his preparations along it for our reception. This ruse was successful; for we learned at Fort Francis that he had armed men on the lookout in the neighborhood of where he thought we should disembark on the shores of the Lake of the Woods.

A loyal half-breed of undoubted character had been despatched early in June from Prince Arthur's Landing for the purpose of going into the Red River Settlement by the Lake of the Woods road, and of obtaining reliable information as to the state of affairs there up to the latest possible date that he could remain, compatible with his meeting Colonel Wolseley at Fort Francis on the 31st July. This service was faithfully performed. He had left his home in the Indian settlement on the lower Red River on the 20th July, bringing letters for that officer from the Protestant bishop and others, containing information as to the supplies of fresh beef and flour we could calculate upon obtaining at Fort Garry, and interesting but melancholy accounts of how things stood there. It was essential that the commander of the Expedition should have the latest and most reliable information as to the rebel movements and Riel's intentions, before leaving Fort Francis; for it was necessary to decide upon the final plan of operations there, as beyond that place we should be, one might say, in rebel territory or at least where it would always be possible to attack us. The scanty intelligence supplied by the Canadian Minister was not to be relied upon, as it came chiefly from disloyal sources, and had always percolated through rebel sympathizing channels before it reached us. Under any circumstances it is difficult for a civilian to collect or to convey useful military information.

General Lindsay had therefore sent a sharp, intelligent officer, who knew the North-West country and its people, round through the United States to Pembina, with instructions to act upon his own judgment as to his further progress from thence, but under any circumstances to adopt measures for communicating with Colonel Wolseley at Fort Francis. He was most successful, having managed to get to the Lower Fort, where he remained some days among the loyal inhabitants. Leaving on the 24th of July, by travelling incessantly he reached Fort Francis on the same day as the leading detachment of the force. He described the people as panic stricken—the English and French speaking populations being mutually afraid of one another, and both being in the direst dread of the Indians. The messages sent us verbally, as well as by letter, were all in the same strain—"Come on as quickly as you can, for the aspect of affairs is serious and threatening."

Riel and his gang had been for some time past busy in removing their plunder from Fort Garry, distributing it amongst his friends, and in places of safety within the United States territory. This looked as if he was preparing to bolt, although he still ruled every one most despotically. His great anxiety—now that the rebel aspirations had been satisfied by the Manitoba Bill—was that he himself should have an amnesty for the crimes he had been geen guilty of. The Government would have willingly given him an amnesty for all his political offences, but such would not have protected him from the charge of having wilfully and in cold blood murdered a loyal subject. Therein lay the difficulty; for, anxious as the Cartier party might be to secure him from punishment, it was known that the English speaking people of Canada would not tolerate his being protected from legal proceedings in that matter. The rebellion had obtained Bishop Tache and his party all that even the most sanguine had expected from it, and he was naturally afraid lest Riel, from personal motives and fear of punishment, might upset the whole arrangement by attempting to resist. He was wise enough to know that nothing was to be gained, whilst everything already gained was to be lost, by an appeal to arms. He therefore strained every nerve at this juncture to keep Riel quiet.

He had left for Canada with the especial object of procuring an amnesty by which he should be held entirely blameless; and this wily priest had impressed upon him the certainty of his being able to obtain it, his influence being so powerful at Ottawa. Riel knew not what to do; at one moment he talked of resistance; then when the word amnesty was whispered in his ear, and visions of future political greatness came up before him, he would announce his intention of coming out to meet us for the purpose of handing over the government of the country to the commander of the expedition. The result of this hesitation was that he did nothing; and his followers kept dropping off from him daily in consequence.

He still held Fort Garry with an armed garrison, and his published proclamations at the time, although indicative of declining power on his part, were by no means sufficiently reassuring or peaceable in their tone to warrant any departure from all military precautions by us. Orders were therefore given to the leading detachments to approach Rat Portage, at the entrance to Winnipeg River, with the greatest care and to take measures for guarding against surprise or ambush, as it was a very likely place for an attack, should Riel mean fighting. The first detachment having arrived at Fort Francis on the 4th of August, and portaged its boats, &c., round the falls there, started again that same afternoon.

GRAND TRUNK RAILWAY.

BELLEVILLE STATION

The following are the hours fixed for the arrival and departure of passenger trains on Grand Trunk Railway, the new time table having come into force on the 6th Nov'br., 1870:

GOING WEST.	
No. 6 Passenger	4:00 A. M.
" 4 Express	6:20 "
" 8 Mixed	9:45 "
" 2 Express	6:15 P. M.
GOING EAST.	
No. 1 Express	11:10 A. M.
" 7 Mixed	9:40 P. M.
" 3 Night Express	12:25 A. M.

Montreal Time.

S. M. PETTENGILL & Co.,

GEO. P. ROWELL & Co.,
40 PARK ROW, NEW YORK,

ARE our *sole* Agents in that city, and are authorized to contract for advertising at our lowest rates. 155

Daily Intelligencer.

BELLEVILLE, TUESDAY, FEB. 28.

POLICE COURT.—Another blank day in the annals of the Police Court.

MUZZLING DOGS.—Several owners of choice dogs are muzzling them, in anticipation of an outbreak of hydrophobia amongst the canines in town.

I. P. B. S.—The annual meeting of the Irish Protestant Benevolent Society, for the election of officers, takes place at the Marble Hall to-morrow night, at 7½ o'clock, p. m.

A FALSE ALARM.—Last night, between 7 and 8 o'clock, a loud alarm of fire was raised on Front Street. The cause was found to consist of a burning chimney in the lower part of the town.

DIVISION COURT CLERK.—We understand that James Reid, Esq., of Tweed, has been appointed Clerk of the Fourth Division Court of the County of Hastings, in place of Robert McCamon, Esq., deceased.

SKATING CARNIVAL.—We remind those interested that the skating carnival for the benefit of Mr. Dearnally, takes place to-morrow night. The ice is expected to be in good condition, and the attractions ought to secure a large attendance.

GRAND JUNCTION RAILWAY.—A meeting of the Provisional Directors of the Grand Junction Railway was held at the Town Hall this afternoon, but owing to the late hour at which it was convened, we are unable to furnish a report of the proceedings to-day.

A MEAN THIEF.—Last night a clothes line in the yard of Mr. John G. Moore, on which a considerable quantity of articles of clothing, table-cloths, etc., belonging to that gentleman had been left hanging to dry, was robbed of the articles which it sustained. As yet no clue has been found to the perpetrators of this daring theft; but it is to be hoped they may speedily be caught and brought to justice.

SABBATH SCHOOL CONVENTIONS.—It is unnecessary now to present to our readers the advantages which Conventions afford, most of them have enjoyed them and shared in their benefits; those who have not can have them now at their very doors. We invite the attention of all interested to the advertisement calling a convention at Canifton on next Monday, at Sidney Town Hall on Tuesday, at Shannonville on Wednesday, at Stirling on Thursday, and at the Stone Church near Moira on Friday, to discuss practical questions on Sunday School work. It is the intention where no previous arrangement exists to hold three sessions during the day:—at 10 a. m., 2 p. m., and 7 p.m. There was an error in our last issue, as to time of holding the Shannonville and Stirling conventions. It is now corrected.

SPECIAL TELEGRAMS.

Special telegram to the Intelligencer.

FROM QUEBEC.

QUEBEC, Feb. 28.—A young girl was frozen to death at Leeds, Megantic.

The *Chronicle's* Ottawa correspondent says the winter has been favorable for getting out timber, and estimates the supply which will reach the Quebec market to be seventeen millions of white and one million of red pine. Weather bright and cold.

To the Editor of the Intelligencer.

SIR,—I noticed in your columns a short time ago an advertisement calling upon the members of the Belleville Rifle Company to subscribe to a memorial to the late Major Le Vesconte. I think it would be well if the management of the Rifle fund would not confine the subscription to the members of the Rifles only, as I am sure there are many friends and admirers of the late Major Le Vesconte who would be glad to contribute to anything that would tend towards placing a lasting tribute to his memory.

Trusting the matter may be re-considered, and that the people of Belleville may have an opportunity of contributing to the fund,

I am
Yours &c.,
R. C. F.
Belleville, Feb. 28th, 1871.

—A man named William Kelly was killed at the Brampton depot, while getting on board the cars. The unfortunate man who was under the influence of liquor, fell and was instantly killed.

—The outbuildings of Robert Johnson's house, near Peterboro', together with seven hundred bushels of wheat, four thousand bushels of oats, ten tons of hay, and the farm implements, were totally consumed by fire on Saturday about noon. Loss $2,500; no insurance.

The Arbitration---Ontario and Quebec.

The award of the Arbitrators appointed to divide the surplus debt of the old Province of Canada, over and above sixty-five millions five hundred thousand dollars, is likely to be a prolific source of dissension and litigation between the Provinces of Ontario and Quebec.

Our readers are aware that the Confederation Act provides that said surplus debt shall be divided by Arbitrators, to be appointed, one by the Province of Ontario, one by the Province of Quebec, and a third by the Dominion Government, to whom should be referred the division of said debt. These Arbitrators, the Hon. Mr. McPherson on the part of Ontario, Judge Day on the part of Quebec, and the Hon. J. H. Gray on behalf of the Dominion, met, and in attempting to lay down a basis upon which to begin, Judge Day took exception, refused to act, and resigned his seat at the Board. The Quebec Government entered a protest against the proceedings of the Arbitrators, and refused or neglected to appoint a successor to Judge Day. The remaining Arbitrators being a majority, after waiting a reasonable time, proceeded to their important work, and made a division of the said surplus debt. This award was not as favorable to the Province of Quebec as the rulers in that Province thought it should be, and consequently another protest was entered, based on the assumed illegality of the award. It having been concurred in by only two of the Arbitrators, Quebec being unrepresented, it is contended it is not valid or binding on Quebec, as no provision was made in the Confederation Act for an award by a majority of the Arbitrators, and that such provision not having been made, any and all awards should be concurred in by all the Arbitrators.

In reply to this position, Ontario says an award by a majority is final, and that if it were not so an award would never be made, as the representative of either Province could and would at any moment, whenever he could not have his own way in every particular, resign, or refuse to sign any award. That these difficulties would arise is beyond doubt, where interests of such vital importance to each section of the old Province of Canada are involved. The reasonableness of this position is certainly both fair and equitable, but Quebec not having succeeded in saddling upon Ontario as large a portion of the debt as she would like, refuses to accept the award, and intends taking the question of its legality to the Privy Council in England.

This is the position of the case at present, and in this condition did the Dominion Parliament find it. Mr. Blake, knowing that Quebec is a unit upon that question, and that Ontario is also, so far as has been ascertained, introduced a resolution in the House of Commons, which created no little flutter among divisions of parties in the House, not so much on account of what the motion contained, though it asked for what he well knew the Government did not possess, but because it raised the whole question at issue between the Provinces. Mr. Blake's motion was:

> "That an Address be presented to His Excellency, for copies of all correspondence between the Canadian and Quebec Governments, and the Canadian and Ontario Governments, touching the Provincial arbitration and award; and a copy of the award, and an approximate statement of the results, as between Canada and each Province, on the first day of February, 1871, adjusted on the footing of the award."

To this request, we observe by the debates that the Premier, Sir John A. Macdonald, stated the Government had no objection, but that no "approximate statement of "the result of the accounts, as between "Canada, and each Province, on the first "day of Feby., 1871, adjusted on the footing "of the award" had been made, nor would be made by the Dominion Government. It not being their duty, it could not be brought down. The Dominion Government had purposely avoided interfering in the matter, and would continue to do so.

Mr. Godin, a *rouge*, submitted the following amendment:

> "That all the words after "and a copy of the award" be expunged from the proposed Address, viz., "and an approximate statement of the result of the accounts, as between Canada and each Province on the first day of February, 1871, adjusted on the footing of the award."

In moving this amendment, he said his object was to prevent, as far as possible, any recognition of the award by the House of Commons, but would be satisfied to have the papers laid before the House. This did not go far enough for another member of the *rouge* party (Mr. Fournier), who followed it up with an amendment to the amendment, as follows: To add to the said proposed amendment the words: "and that the following words be substituted instead thereof; 'and representing to His Excellency, that in the opinion of this House, the questions relative to the division of the debt between the Provinces of Ontario and Quebec, having been submitted to and adjudicated upon by two Arbitrators only—one appointed by the Dominion Government, and the other by the Government of Ontario—in the absence of the Arbitrator appointed by the Government of Quebec, their award is not binding on the respective Provinces.'"

Here was a direct attempt to bind the House to an opinion that "the award was not binding on the respective Provinces." These resolutions and amendments had, it is quite clear, two objects in view, which are the more easily understood when it is known they were all moved by members of the one party, who are acting in concert in this, as well as upon other questions. Mr. Blake was desirous of creating a division between the Ontario members of the Cabinet and those from Quebec; while Mr. Fournier's amendment was designed to place the Ministerialists from Quebec in the position of voting against the interests of their own Province, or what they considered would be a vote against the Government. This, we suppose, is what is called political *finesse*. The debate that followed proves that the award will not be accepted by Quebec, if it be possible to upset it. The Premier of that Province declared boldly that "no human power should make them submit to it." This was received with derisive laughter; still the threat was repeated.

There was an important admission by all parties made in this debate. Mr. Blake declared that the House had no power to decide the question. This opinion was repeated by Messrs. Chauveau and Irvine, of the Quebec Executive, and Sir John A. Macdonald. Now, if this be the fact, the question may fairly be asked, why introduce it into the Legislature at all? The answer is clear enough. It was thought a bomb-shell would be thrown into the Ministerial camp, and so there was; but, if we are to judge from the debate, the return fire was heavier than was anticipated, most of the missiles falling in the midst of those who fired the first shot. Mr. McKenzie no sooner saw the effect produced than he seized upon a technical rule of the House to choke off further discussion, and thus relieved his followers of the disagreeable muddle into which his first lieutenant had led them. The question, however, will be brought up again, when we may expect a lively debate.

Town Council.

MONDAY, Feb. 27.

The Council met this evening at the usual hour.

PRESENT.—His Worship the Mayor, Messrs. Henderson, Lewis, Flint, Foster, Vandusen, Smith, Bull, Legate, Fahey, Patterson, Reed and Hope.

The minutes of the preceding meeting were read and approved.

PETITIONS.

From Wesley Bullen for a shop license.

From Harvey Brown for a tavern license.

From A. N. McGinnis for a tavern license.

From Hon. B. Flint and a large number of ratepayers, praying that the shop licenses heretofore granted be withheld, and the number of saloon and tavern licenses be materially lessened.

These petitions, with several accounts, were referred to their respective Committees.

REPORTS.

The License Inspectors reported, recommending the granting of a number of certificates for license.

Dr. Hope would ask if a larger number of licenses would be granted this season than last.

The Mayor replied that at present there was no limit to the number of licenses, although the Council had power to fix a limit.

Mr. Bull enquired if L. J. Williams had applied in the usual manner for a license, and some discussion ensued as to the legality of granting him a license without compliance on his part with the usual regulations.

Dr. Hope had only a partial report to present of the Finance Committee. He had been unable to prepare a full report, as the majority of the Committee had refused to entertain or consider several accounts. They had considered the claim of Thos. Evans for compensation for drawing the plans and specifications of the Upper Bridge, and would recommend that the sum of $200 be placed in the hands of the Street Committee to liquidate said claim.

The Harbor and Town Property Committee reported, saying they had received a number of tenders for the erection of a light-house in the harbor, and had awarded the contract to Lewis Grills. They had also considered the petition of John Cook and other rate-payers, that it would be greatly to the advantage and convenience of themselves and the people coming into town, if we had a good and reliable town clock, and would recommend it to the favorable consideration of the Council. They were in sympathy with the petitioners on this question, and had taken steps to obtain the necessary information. However, in view of the heavy expenditure that would be necessary to carry on the business of the town this year, a number of individuals had expressed a readiness to contribute towards its expense, and with this in view they would recommend early action by the Council.

The Fire, Water and Gas Committee then reported. They had received replies to communications addressed to C. H. Waterous & Co., manufacturers, of Brantford, and the Mayor of that town, describing the system of water-works in use there, and inviting a deputation from the Council of Belleville to visit Brantford, when their engines and works would be put into operation and every facility afforded of judging of their efficiency. The Committee would recommend the appointment of a deputation for the above purpose, composed of Messrs. Patterson, Henderson and the Chairman of this Committee, which would proceed to Brantford at an early day and report fully.

NOTICES OF MOTION.

Mr. Lewis gave notice of a By-Law to appoint a Solicitor for the Town.

Mr. Flint gave notice of a By-Law providing that all dogs running at large shall, after due notice, be securely muzzled or be liable to be shot by the police.

Dr. Hope would like to have had more time to consider the license petition, but action would have to be taken to-night, and he would therefore give notice of a By-Law limiting the number of shop licenses.

Mr. Lewis moved, seconded by Mr. Smith, that the name of Geo. E. Henderson be inserted on the Committee on Market and Police, and that the name of John Lewis be inserted on the Committee on Harbor and Town Property.

Mr. Vandusen said that Coleman Ward was not represented on the Committees on either Harbor and Town Property, or Fire, Water and Gas. He would therefore move in amendment, seconded by Dr. Hope, that the name of S. J. Bull be inserted on the Committee on Harbor and Town Property.

Mr. Henderson would just analyze the consistency of the mover of this amendment. He was a member of the Special Committee appointed to strike the Standing Committees, and with the others, had reported the Market and Police and Harbor and Town Property Committees as they were now when they were first struck. He (Mr. Henderson) and Mr. Lewis had mutually agreed that it would be to the advantage of each to exchange positions, as he had more experience on the Market and Police Committee and *vice versa* with Mr. Lewis. All Mr. Vandusen wanted was to raise a little feeling because he was removed from the Committee on Harbor and Town Property. He could not thrust down the throats of the Council that he was actuated by a justifiable desire to see Coleman Ward represented. He would ask Mr. Vandusen there in his chair if he were not now in direct opposition to his former action.

Mr. Vandusen thought the last speaker had not too much consistency. Coleman Ward was represented on the Finance and Assessment Committee when it was first struck, and he had then given way to Mr. Patterson. There were three members representing Coleman Ward in the Poor and Sanitary Committee, but not one on that for Harbor and Town Property. He had tried to get his Ward represented on that Committee, and had taken pains to have all the Wards represented fairly. He had no idea or intention of aiming at Mr. Henderson. He only wished to stand up for the rights of his Ward and see it represented on important Committees.

Dr. Hope protested against one member imputing improper motives to another. He thought it only just that such a large Ward as Coleman Ward should be well represented.

Mr. Henderson denied that he had imputed improper motives; he merely judged Mr. Vandusen by his own actions. He contended that the Committees were now struck properly.

Mr. Bull had been examining the various Committees and found Mr. Henderson figuring on no less than five, while he (Mr. Bull) was only on two. In former years, when Mr. Henderson was left off certain Committees, how bitterly he complained—he should now be consistent. He would, however, ask Mr. Vandusen to withdraw the amendment.

Mr. Flint thought that as Mr. Henderson figured so largely on important Committees, it would be fair and right to give place now to Coleman Ward. The reason expressed at the meeting of the Special Committee why Coleman Ward was not better represented was that it had returned no old or experienced Councillors.

Mr. Vandusen's amendment was then put and lost. The original motion was carried.

The Council went into Committee on Ways and Means to consider the partial report of the Finance Committee.

Dr. Hope explained that as the majority of the Finance Committee had refused to pay several accounts, including one of Mr. Ponton for rent of a house occupied by emigrants which he had been obliged to charge as remission of taxes had been refused, and which was reasonable, he had brought the incomplete report before the Committee on Ways and Means.

Mr. Flint said the Court of Revision had unanimously refused to remit the taxes, and Mr. Ponton was justified in charging for rent.

This item passed Committee.

As to the item of $200 for Mr. Evans, Mr. Henderson thought it desirable to add the legal costs and save further trouble. $20 costs were then added and the item passed.

Committee rose and reported. The report was adopted.

On motion of Mr. Lewis, the report of the Committee on Harbor and Town Property was adopted.

On motion of Mr. Foster, the report of the Committee on Fire, Water and Gas was adopted.

The rules were supended to admit of the introduction of By-laws relating to dogs and liquor licenses.

Mr. Bull thought such course would be injustice to those grocers who had large stocks of liquors on hand.

Mr. Flint introduced his By-law providing for the muzzling of dogs, which was read a first time.

The By-law relating to licenses was read a first time.

The rules were again suspended to have the By-laws read a second and third time and passed.

The Council went into Committee of the whole, Mr. Foster in the Chair.

Dr. Hope moved the adoption of the first clause of his By-law that it is expedient to limit the number of shop licenses, which was adopted.

It was discussed fully, Mr. Henderson strongly contending that the only way would be to prohibit the manufacture and importation of liquor, and that to limit the licenses would be of no avail in the cause of temperance.

Dr. Hope moved the adoption of the second clause, that the number be limited to ten.

Mr. Patterson moved in amendment, seconded by Mr. Vandusen, that the number be limited to five.

Mr. Bull moved an amendment to the amendment seconded by Mr. Legate, that the Committee now rise, which was lost. It would have had the effect of killing both By-laws.

Mr. Patterson's amendment was also lost.

The original motion was carried.

Dr. Hope moved the adoption of the third clause of the By-Law fixing the time of its coming into operation to be immediately upon the passing thereof.

Mr. Bull moved, seconded by Mr. Vandusen, that the time be the 1st January, 1872, instead of immediately.

Mr. Bull's amendment was lost and the By-law was carried.

Mr. Flint moved the adoption, clause by clause, of his By-law respecting dogs, which was done.

Committee rose, reported and Council resumed.

The report was adopted, and the By-laws read a third time, numbered 237, relating to dogs, 238 relating to licenses, and passed.

The rules were then suspended to allow the Council to sit until 11:30 p m.

The Mayor said he had been spoken to by the Sheriff with reference to the division of the town into four Wards for the purpose of electing a member for West Hastings to the Ontario Legislature. The matter was referred to the Sheriff.

Mr. Bull's resolution, of which notice was given at the last meeting, appointing a Committee to inquire into the rolls, &c., of the late Collector, was carried after some discussion, during which Mr. Flint said he was decidedly opposed to it if it would necessitate the repetition of the advertising for back taxes. Several cases had come under his own notice where the owners of property intended to allow it to be sold and then prosecute the town, as they held receipts of taxes.

Mr. Flint moved that the garnishee account of Mr. Horrigan be referred to the Fire, Water and Gas Committee.—Carried.

Mr. Henderson moved, seconded by Mr. Smith, that the certificates for licenses be granted in pursuance of the License Inspector's report.

Mr. Bull moved in amendment, seconded by Mr. Patterson, that L. J. Williams be not included in the granting of licenses.

The amendment was carried.

On motion of Dr. Hope, seconded by Mr. Foster, the time for the return of the Collector's Rolls was extended until the 15th March.

On motion of Mr. Henderson, seconded by Mr. Flint, 100 handbills were ordered to be printed and posted, giving notice of the By-law requiring the muzzling of dogs.

The Council then adjourned.

—Over $8,000 have been subscribed to start a salt company in Zurich.

Dominion Parliament.

MONDAY, Feb. 27.

In the Senate to-day Hon. L. de St. John moved for the production of the correspondence relating to the fisheries. The Hon. Mr. Mitchell in reply thanked his hon. friend for having allowed the motion to stand over till the papers were brought down elsewhere—in the House of Commons. The hon. gentleman then proceeded to explain at some length the matters in dispute respecting the fisheries, maintaining that the Canadians very properly insisted upon retaining their rights to exclude foreigners fishing inside the headlands, and he felt assured that the interests of the Dominion would not be sacrificed in the approaching Conference at Washington. Several other senators having spoken to the same effect the motion was carried.

In the House of Commons Mr. Masson (Soulanges) enquired whether the Government was aware that E. G. Metis, of Manitoba, had come to his death in September last in consequence of an assault upon him by certain volunteers of the expedition to the North-West, and if so, whether steps had been taken to bring the offenders to trial. Sir Geo. Cartier replied that the papers would form part of the correspondence moved for in connection with the North-West. In reply to Mr. Godin, Sir Geo. Cartier stated that on Wednesday or Thursday the Government would be in a position to state its intentions respecting the award of the Arbitrators.

Several motions of minor importance having been passed calling for returns, correspondence, &c., Mr. Blake offered a resolution in effect to prevent the Government availing itself in future of the services of any member of the House in a similar capacity to that which Col. Gray was recently engaged in connection with the provincial arbitration. A debate ensued, and at the close of the discussion Mr. Blake called for a division, when his motion was voted down—Yaas, 58; nays, 83. Mr. Magill moved for any correspondence that had passed between the Rev. Wm. Morley Punshon and the Government respecting the appointment of a Methodist chaplain to accompany the expeditionary force to Manitoba. After a debate on the subject the motion was carried. The House adjourned about eleven o'clock.

Morning Despatches.

Meeting of French Republicans.

Champagne to be Occupied by German Troops.

Armistice Further Prolonged.

Germans will Enter Paris.

Excitement in the City.

Painful Scenes Expected.

BORDEAUX, Feb. 27.—At a meeting of the Left last night, Louis Blanc said the union of the different sections of the Left would produce an excellent effect, but this meeting was untimely, because it was held to protest against conditions yet unknown.

Gambetta recommended that the meeting suspend its protest until the conditions were officially announced to the Assembly, then all should adopt the same line of action, but no formal engagement for united action should now be entered into.

PARIS, Feb. 27—The Journal des Debats says that during the three years allowed for the payment of the indemnity, five thousand Prussian troops will occupy Champagne, exercising the right of requisition and living at the expense of the French Government. If the payment is completed before the time expires, Champagne will be immediately evacuated. It is understood that during the occupation of the city unarmed detachments of the enemy will be permitted to visit the public edifices in all parts of the city, but the army corps of thirty thousand men will not leave the Faubourg Honore.

LONDON, Feb. 27.—The Times Versailles special telegraphs that the armistice has been prolonged to the 12th March. No requisition will be made by the troops entering Paris, who will be quartered in the public buildings. If the armistice is to be broken off, three days' notice will be required.

PARIS, Feb. 27—The excitement is intense in some parts of the city. It is said the National Guards want to point their artillery at the Champs Elysees.

BRUSSELS, Feb. 27—The Etoile Belge says: The call to arms was sounded in Paris on Sunday night. A body of Nationals and regulars went to the Avenue Des Ierues to oppose the entry of the Prussians should the latter insist on entering the city. Painful scenes are expected.

GREAT BRITAIN.

Parliamentary Proceedings.

The State of Ireland.

LONDON, Feb. 27.—The Marquis of Hartington, in the debate on the state of Ireland, announced that there was a marked improvement in the preservation of order and the observance of the law. It was, however, necessary to ask the House to devise further measures and to grant greater powers to enable the Government to effectually repress the mischief of secret combinations in Ireland.

Disraeli showered ridicule and contempt on the Government, which, after the labors of last session, and the extraordinary powers conferred upon it, had been able to do so little for Ireland. Parliament, at the instance of the Government, legalized confiscation, concealed sacrilege, and condoned high treason; yet the Premier confessed that he could not govern Westmeath alone, and made himself ridiculous by asking for further extraordinary powers to that end. Here the speaker was interrupted by counter cheers, and there was great disorder in the House. Mr. Disraeli concluded by declaring that the Government only asked for these powers and their Committee to cover the failure of its policy and shift the responsibility on the Parliament.

Messrs. Gregory and Hardy assailed the Irish administration for its dependence on terrorism. Mr. Hardy charged that the proposal for committee to devise measures was a pretext to protect the Premier from the consequences of his rash and indiscreet language.

—A Quebec farmer states that last Spring he sowed four and a half bushels of the wheat known as Ble Lorraine, and reaped no less than eighty-five bushels.

American Despatches.

Sir John A. Macdonald in New York.

U. S. Commissioners in San Domingo.

Steamship Arrived.

NEW YORK, Feb. 28.—Sir John A. Macdonald arrived here this morning, and will leave this morning for Washington.

SAN DOMINGO, Feb. 10, via Havanva 27th.—The United States Commissioners are received enthusiastically everywhere. Agents from Venezula, Costa Rica, and Nicaragua had arrived and were waiting an order to return to re-organize the colonists who intend to go to San Domingo the moment annexation becomes a certainty.

The steamship 'Rising Star,' from Aspinwall, has arrived.

Joint High Commission.

WASHINGTON, Feb. 27.—The Joint High Commission met this morning at 11 o'clock at the State Department, and all the United States Commissioners were present except E. Hoar, and all the British Commissioners except Messrs. Macdonald and Northcote. The proceedings were conducted secretly.

WASHINGTON, Feb. 27.—Members of the High Commission say it is not the intention of the President to convene the Senate in extra session if that body should adjourn before the High Commissioners get through their labours in order to consider and act upon any treaty that may be negotiated. One of the American Commissioners says that whatever is agreed upon the Joint High Commission will be made public before being submitted to the Senate, so that the opinion of the people of the United States can be ascertained before final action is taken.

Afternoon Despatches.

The Very Latest.

DESPATCHES TO 4½ P. M.

LONDON, Feb. 28.—Mediation has been offered and accepted in the Spanish-Egyptian difficulty and a peacable solution is anticipated.

The *Evening Times* special from Versailles gives the following particulars of the treaty of peace signed on Sunday:—The fortified cities of Luneville, Nancy and Belfort are left to France; Longwy, Thionville, Metz, Saarbruck and the iron districts will go to Germany.

Rothschild promises to pay the entire indemnity to Germany within a year by which the German army of occupation will be got rid of at the end of that time.

Prince Frederick Charles is to be Governor of Champagne with headquarters at Rheims.

Emperor William will merely pass through Paris and his new possessions en route to Berlin.

SPECIAL NOTICES.

For Frost Bites, Chilblains, Scalds

BURNS and BRUISES, PAIN-KILLER affords immediate relief, it soothes the inflamed and irritated part, and gives rest and quiet to the sufferer. A celebrated physician in Montreal lately said the Pain-Killer is one of those little Household Remedies every family should have in the House. It is used both Internally and Externally, and for sudden Colds, Coughs, Fever and Ague, Headache, Neuralgic and Rheumatic Pains in any part of the system. It is the most popular Medicine extant. Sold by all Druggists: Price: 15, 25 and 50 cents per bottle.

PERRY DAVIS & SON, Proprietors,
51:1m233:1m Montreal, P Q.

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES will speedily and certainly arrest the depressing influences of disease upon the nerves and muscles. It restores the appetite and induces a disposition to take on healthy flesh. It causes the formation of living blood, strengthening the action of both Heart and Lungs. It sustains the system under trying circumstances and causes the healthy development of all the organs necessary to our existence.

Price $1.50 a bottle; 6 for $7.50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. d&w-1w

Bronchitis, Coughs, Asthma,

and all disorders of the Throat and Lungs, are relieved by using Brown's Bronchial Troches.

I have been afflicted with Bronchitis during the past Winter, and found no relief until I found your Bronchial Troches.

C. H. GARDINER,
Principal of Rueger's Female Institute, N. Y.

Almost instant relief in the distressing labor of breathing peculiar to Asthma.

REV. A. C. EGGLESTON.

It gives me great pleasure to certify to the efficacy of your Bronchial Troches, in an affection of the throat and voice, induced by public singing. They have suited my case exactly, relieving my Throat and clearing the voice so that I could sing with ease.

T. DUCHARME,
Chorister French Parish Church, Montreal.

When somewhat hoarse from cold over-exertion in public speaking, I have uniformly found Brown's Troches afford relief.

HENRY WILKES,
Pastor of Zion Church Montreal.

Sold by all Dealers in Medicine at 25 cents a box. 47 2m

A Throat and Lung Remedy.

Mr. C. E. Kyle of Uxbridge, Ontario, writes October 3rd 1870:—

"It is with the greatest of pleasure that I certify to the excellent qualities of *Allen's Lung Balsam.* * * * * * * * I know it to be all that is recommended. A case of severe disorder came under my own observation upon which several remedies had been tried without success—after using two bottles of the Lung Balsam a perfect cure was effected."

Allen's Lung Balsam is a favorite cough, bronchitis and asthma remedy.

SOLD EVERYWHERE. 1m

Parties who have used Johnston's Patent Weather Protectors unite in certifying to their usefulness. They render doors and windows perfectly air-tight, excluding frost, snow, wind, rain and dust; useful summer or winter. Cost merely nominal. Awarded extra prize, Provincial Exhibition, 1869. Agents wanted at once. Address J. JOHNSTON & CO., Patentees and Manufacturers, Box 147, Lindsay, Ont. 77:2w

COUGHS AND COLDS.

FOR the cure of coughs and colds there is no remedy that can show more evidence of real merit than Allen's Lung Balsam.

PORT BURWELL, Ont, March 23rd, 1869.

GENTS,—Having been troubled with an occasional cough, at times very severe during years past, I have found your Balsam to relieve my cough more readily than anything I ever tried. My wife has also used it with most satisfactory results.

Yours truly,
CAPT. D. FOSTER.

Dr. Wooly says in a letter dated Silver Lake, Indiana, February 6th, 1863: "I have used Allen's Lung Balsam in my practice extensively, and I am satisfied there is no better medicine for Cough or Lung diseases in use."

51-1m233-1m AMOS WOOLY, M D.

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will unite in calling her blessed. No MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all Druggists. 25 cents a bottle.

Be sure and call for

"MRS. WINSLOW'S SOOTHING SYRUP,"

Having the *fac-similie* of "CURTIS & PERKINS" on the outside wrapper. All others are base imitations. 47-2m.

CANADA

LIFE ASSURANCE COMPANY

THE recent failures of Insurance Companies, and the discoveries of frauds in their accounts and securities, naturally causing anxiety, it will be satisfactory to assurers in the Canada Life to know that in it every means are adopted to secure accuracy and faithfulness in its accounts and statements, as well as for the security and safe custody of its funds and property. This may be seen by the following documents;

1st, The report by a competent and skilful Auditor, showing that the books, accounts, and securities are accurately and safely kept.

2nd. The report by a Committee of Directors, showing that they have seen and identified the various securities held by the Company, and that these are valuable for the sums they represent.

3rd. The report and valuation of the position of the Company by the highest and most competent actuarial authority, the Honorable Elizur Wright, of Boston.

A comparison of the Company's Profit Bonuses, and its rates for assurances, with those of other offices, is invited.

Agencies throughout the Dominion, where every information can be obtained, or at the Head Office, Hamilton, Ontario.

A. G. RAMSAY,
January 25th, 1871. Manager.

A Shearing Machine.

A London firm has lately undertaken the manufacture of a shearing machine, invented and patented by an American. A pair of cutters, revolving close to a circular comb, are made to travel with great rapidity by means of rods made to rotate by multiplying wheels attached to a standard fixed in the ground. The machine is easily worked, and as there are four pairs of bevel wheels, the cutter is completely under the control of the clipper, who can move it in any direction. The rapid revolution of the blade (250 times a minute) causes the hair to roll off as fast as the human hand can guide the machine. As the comb is under three inches in diameter, it can easily be made to reach the bottom of all the hollow places of the body; and even the hollows above the eyes and the insides of the ears of a horse can be cleared out. The machine, it is said, is equally serviceable in shearing sheep and all other shearable animals.

Sick Poetry.

They have a poet in Ingersoll who seems to be in a bad way. He has been taking something that has so seriously affected the stomach of his imagination, that he has let himself loose in Supra-Tennysonic strains as follows:

> Defying the wash, dash, and splash,
> And the crash of logs, and trash,
> The fierce ram, jam and the slam,
> The cram of roots from every dam."

Et cetera, and so on. We hope the Ingersoll genius will recover from his diarrhœa of rhymes before he gets any worse.

A Massachusetts paper tells of a colored woman who had been lately converted, but who was so unfortunate as to fly into a passion over the misdoings of one of her neighbor's youngsters. Her mistress remarked upon the impropriety of such conduct in the case of one about to join the church, and received the frank response: 'I have 'sperienced religion, an I'se gwine to join the church, but Miss B., I'll scald dat nigger fu t.'

—On the application of the Prince Regent to Parliament for a grant to pay off his debts being talked of one evening in company, an old Scotch lady, whose ideas were all of a homely character, exclaimed, 'Debt! how can he be in debt? Doesna he get his meat at his father's?'

L. R. Ripley, writing from Danville, Quebec, says there have been two wonderful cures of consumption here the past year by the use of Allen's Lung Balsam and it sells beyond all precedent.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favorite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England. 137-m-Th.

The American Agriculturist,
FOR THE
FARM, GARDEN AND HOUSEHOLD,
Containing a Special Interesting and Instructive Department for Children and Youth.
ESTABLISHED IN 1842.

THE AGRICULTURIST is a large periodical of 32 to 44 pages, well printed, and filled with plain, practical, original matter, including hundreds of beautiful engravings in every annual volume.

It contains each month a Calendar of Operations to be performed on the Farm, in the Orchard and Garden, in the Dwelling, etc.

It is prepared by practical intelligent working men.

The Household Department is valuable to every Housekeeper.

The Department for Children and Youth is prepared with special care to furnish amusement and to inculcate knowledge and sound moral principles.

CIRCULATION—TERMS.—The circulation of the American Agriculturist (about 150,000) is so large that it can be furnished for the low price of $1 50 a year; four copies for $5; ten copies for $12; twenty or more, $1 each; single copies, 15 cents each.

ENLARGEMENT
OF
THE "GAZETTE."

THE undersigned, formerly publishers of the Hamilton *Spectator*, having removed to Montreal and become proprietors of the *Gazette*, have greatly enlarged and otherwise improved it—it being now printed on new type from the foundry of C. T. Palsgrave & Co.

THE EDITORIAL DEPARTMENT

Is under the charge of able and experienced writers, who have already earned a high reputation in the field of journalism. Editorials are furnished upon all the live topics of the day, by experts in different departments of literature and European, American and Dominion politics. Public questions are discussed solely in the public interest, and in a tone of fearless and independent criticism.

THE COMMERCIAL REPORTS.

The publishers fully recognize the supreme importance of accurate and full Commercial reports in a newspaper aspiring to leadership in the great commercial metropolis of the Dominion, and have completed arrangements which will make the commercial columns of the *Gazette* immeasurably superior. In point of fullness and accuracy of information to those of any other paper published in this city. By the employment of first-rate talent in this important department the *Gazette* will be made a necessity to merchants in all parts of the Dominion interested in the commerce of Montreal.

THE LOCAL DEPARTMENT

Of the *Gazette* will comprise a full record of every event of importance occurring in the city, legal intelligence, sporting news, reports of meetings, etc., prepared by gentlemen well skilled in the various departments.

THE TELEGRAPHIC NEWS

of the *Gazette* is very full, and includes special despatches from all parts of the Dominion.

The *Gazette* is distinguished for

The ablest Editorials	The best Local News,
The most reliable Commercial Reports,	The most reliable Legal Intelligence,
The fullest Telegraphic Despatches,	The choicest Literature,

Affording to the reader each morning a complete synopsis of contemporary events throughout the world.

AS AN ADVERTISING MEDIUM

The *Gazette* is immeasurably superior to any other paper in Montreal, having a larger circulation than all the other English morning papers published in the city combined.

TERMS OF SUBSCRIPTION.

Notwithstanding the very great improvements in the *Gazette*, the price will still remain the same. It will be sent by mail at $6 a year, or $5 when paid strictly in advance, and will also be furnished in the city, and by News Agents, to whom it is sent by express, at Ten Cents per Week.

The Weekly Gazette

Will also appear [illegible] and special pains [illegible] arrangement of [illegible] and complete epi[illegible] The Weekly Gaz[illegible] subscribers at $1 [illegible]

NEW
CHEMICAL PRINCIPLES
APPLIED IN THE CURE OF
Chronic and Wasting Diseases.

DR. RADWAY'S
SARSAPARILLIAN
RESOLVENT.

N.B.—The great medicine (free from all nauseating or disagreeable) effects spoken of here, Dr. Radway's

SARSAPARILLIAN RESOLVENT,

is prepared on a new principle of Medical Chemistry, from the active curative properties of the most choice products of the vegetable kingdom. The Sarsaparillian *and other foreign roots yielding extracts that enter into the composition of this wonderful Blood, Tissue, Heat, Fat-making medicine are selected and gathered with the greatest care at the proper season, from the native soil, under the supervision of intelligent agents—experienced botanists, employed exclusively for Dr. Radway & Co.—so that no spurious admixtures or worthless roots can possibly be mixed with the pure.*

It costs Dr. Radway & Co. over $30,000 (thirty thousand dollars) per annum for the services and expenses of scientific Botanists in this branch alone. But the wonderful improvements it has secured in the curative range of Dr. Radway's Remedies, more especially the

SARSAPARILLIAN RESOLVENT,

pays for the outlay over and over again; for never in the history of medicine was such a medicine that so completely builds up, repairs, and makes sound, strong, healthy, vigorous, and beautiful withal, the weak and broken-down constitutions, as

Dr. RADWAY'S
SARSAPARILLIAN
RESOLVENT

Important Chemical Principles supplied to the wasting body through the

SARSAPARILLIAN RESOLVENT

It supplies the blood with nourishment.
IT CONTAINS TISSUE-MAKING AND FLESH-MAKING QUALITIES.
It supplies the system with caloric or heat-making properties.
It cures all Eruptive and Ulcerated diseases of the Eyes, Ears, Mouth, Throat and Skin and body.
It increases the weight and appetite.
IT STOPS ALL WEAKENING DISCHARGES.
It increases the repairs and diminishes the wastes.
It exterminates the products of decay.
It resolves Tumors, Nodes, Hard Lumps.
It makes the skin clear and beautiful.
It heals Fever Sores and Ulcers.
It cures Gravel, Gleet, and Stricture.
It makes the water clear and pass freely.
It cures Barrenness, and invests with the vigor of manhood those who, from weakness or disease, are deficient or exhausted.
It rescues woman from the perils incident to change of life—cessation of Menses.

To those who seek Health.

There is not a man, woman or child, however wasted by disease, if their systems are still in a condition to receive nourishment, and their LUNGS, LIVER, KIDNEYS, and other vital organs not wasted beyond the process of repair, or if capable of sustaining the *reparative process* of RADWAY'S

Sarsaparillian Resolvent,

but can be either restored to health, or the waste and decompositions stopped, and the elements of decay that now exist be dismissed from the system.

Extreme cases, where the LUNGS, KIDNEYS, and other organs are wasted, ulcerated, and their functions interrupted and secretions altered beyond the reparative power of medicine, may, and will, by the use of the **Sarsaparillian Resolvent**, continue to live perhaps for years; for no matter how low the vital forces may be, if the system can be brought under the influence of this tissue and flesh-making medicine, the repairs will be greater than the wastes and the BLOOD WILL receive that high degree of strength, purity, and nourishment to enable it to hold in healthful solution all its constituents, and stop the process of decay and decomposition.

CONSUMPTION, SCROFULA, **Bright's disease of the** KIDNEYS, SECONDARY SYPHILIS, **and the poison of Venereal, are developed through the process of deposits from the blood either in the Lungs, Skin, Kidneys, Bladder or Cellular Tissue; and these diseases in their advanced stage can both be checked and cured by the use of the Sarsaparillian Resolvent.**

MARK THE CHANGE.

A person seized with any Chronic disease of the Lungs, Liver, Skin, Kidneys, Spermatic Glands, Womb, or Urinary difficulties, will experience a marked change in her health for the better after taking the **Sarsaparillian Resolvent**. *As the blood becomes more pure, rich, strong, and nourishing, and is enabled to hold in solution its natural constituents, the deposits of Tuberculous matter and other elements of disease, decomposition and decay will be diminished in the Lungs, Kidneys, Skin and other Organs; and each of these Organs will secrete their proper constituent secretions. Instead of Urine, Bile, the Pancreatic Juice and other fluids being absorbed in the circulation, these secretions will be directed for expulsion from the system through their proper channels. If medicine fails in its influence on the system, to correct these secretions, and to assist each organ or secreting gland in discharging its proper functions, health can never be restored; happily for suffering humanity,* **Radway's Sarsaparillian Resolvent** *secures this important want that has heretofore existed in all these remedial agents advertized as Blood Purifyers.*

No matter how deeply seated or engrafted in the tissues, cartilages, glands, organs, or bones disease and corruption may be, the influence of this powerful agent on the blood and other fluids that supply the living body with repairs, will so charge the system with such constituents as to resolve and exterminate the dead and decomposing matter, and supply its place with sound and living structure, nourished by rich, pure, and strong blood. By the chemical action which the Sarsaparillian Resolvent has on the substances taken into the stomach during its process of digestion into Chyme and Chyle, before it is made blood, as well as the nourishing constituents it converts into blood, and its specific action when entering in the circulation, it exterminates every atom of virus from the blood, and resolves away all deposits of disease, whether caused by the action of some specific poison, or virulent disease, or Mercury, Corrosive Sublimate, i. e. the Corrosive Chloride of Mercury, Calomel, and other agents that may have accumulated in the bones, tissues, cartilages, or joints, or from some transmitted family complaint that may have run through half a dozen generations.

Scrofula, Consumption, Syphilis, uncured and badly treated Venereal in its many forms, Glandular Disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the glands and other parts of the system, Sore Eyes, Strumous Discharges from the Ears, and the worst forms of Skin Diseases, Eruptions, Fever Sores, Scald Head, Ringworm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful Discharges, Night Sweats, Loss of Sperm, and all wastes of the Life Principle, are within the curative range of the Sarsaparillian Resolvent, and a few days' use will prove to any person using it for either of these forms of Disease, its potent power to cure them.

Uncured Venereal—Gleet, Gravel, Strictures and all Complaints of the Urinary Organs, Bladder, Kidneys, Womb, Dropsy, Diabetes, and all who are inconvenienced by Stoppage of Water, or Painful Discharges, are quickly relieved and effectually cured through the

SARSAPARILLIAN RESOLVENT.

Recent Cures reported by E. J. Chapman, Commercial Traveller, Montreal.

G. Denault, of St. Timothee, County of Beauharnois, Canada East, had for nine years TWO LARGE ULCERS, one on his thigh, the other on his side that resisted all kinds of medicine and the skill of the most celebrated doctors in Montreal and other parts of Canada. Last Fall he commenced the use of **Radway's Sarsaparillian Resolvent**, aided with **Radway's Pills and Ready Relief**. He used only three bottles of the Sarsaparillian Resolvent, and two or three boxes of Radway's Pills, and used, as a lotion, a wash of the **Ready Relief** and **Sarsaparillian Resolvent**, diluted with water which completely cured him. Here is a man that had previously spent hundreds of dollars, doctored for nine years, and cured at a cost of less than five dollars.

"ONE SOLID SCAB,"
SCROFULA CURED at Wells River, Vermont.

M. Durant, one of the wealthiest citizens of Wells River, owner of nearly half the town, besides a number of Paper Mills, Hotels, &c., told me of his knowledge of your medicine. His son, aged 13 years, was covered with one SOLID SCAB, covering the entire body—head, trunk, chest, legs, and all. I saw it in September last, and he was the most revolting and diseased object I ever saw. At my request he was put under the treatment of **Radway's Sarsaparillian Resolvent, Ready Relief and Pills**. One month since, on returning to Canada, I saw the father, who then told me that his son was completely cured. I know of many who have been cured of Fever Sores, Eruption of the Skin, Boils, Ulcers, Sore Head, Sore Legs, and in fact all kinds of sores.

Threatened Consumption, Night Sweats, Bleeding from the Lungs, cured with one bottle of RADWAY'S

SARSAPARILLIAN RESOLVENT

WIDDER STATION, Ontario, Canada West,
March 11, 1869.

DR. RADWAY:—This is to certify that I was taken with bleeding at the lungs, and night sweats, and was induced to use your **Sarsaparillian Resolvent**. After taking two doses I was enabled to sleep, a boon for which I was thankful. After using one bottle the bleeding was cured, and the night sweats ceased. I continued to use six bottles and now all signs of sickness, disease and threatened Consumption have disappeared. I feel my health fully recovered. JONATHAN FREELAND.

N. B.—This gentleman was well known to have been under the treatment of the best physicians in Sarnia—he received no benefit from any medicine until he commenced using your **Sarsaparillian Resolvent.** GEO. MORTIMER, Commercial Agent for Ontario.

ALBION HOTEL,
McGILL STREET AND ST. PAUL STREET, MONTREAL, CANADA.

HAS FOR TWENTY YEARS PAST BEEN THE FAVORITE RESORT OF the general travelling public in the United States, as well as of Canada, when visiting Montreal on business or pleasure. It is centrally located on McGill Street, the great thoroughfare and commercial centre of the city, commanding a magnificent view of the River St. Lawrence, the Victoria Bridge on the left, and a full view of Victoria Square and Mount Royal on the right. The Hotel is furnished throughout in a superior manner, and everything arranged with a view to the comfort of guests. As one of the largest Hotels in the Dominion, having ample accommodation for 500 guests, while kept in first-class style, the moderate sum of $1.50 per day will be charged as heretofore. The travelling community will consult their own interests by remembering the Albion Hotel when visiting Montreal.

FORTY-FIRST YEAR.
GODEY'S LADY'S BOOK
For 1871.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

IT has always been the care of the publishers to combine in its pages whatever is useful, whatever is elevating, whatever is pure, dignified, and virtuous in sentiment, with whatever may afford rational and innocent amusement. For its Literary Department, in past years,

THE BEST WRITERS

In the literary world have contributed, and will continue to furnish articles for the year 1870. Such names as

MARION HARLAND, INO CHURCHILL,
LOUISE S. DORR, METTA VICTORIA VICTOR,
S. ANNIE FROST, MRS. DENNISON,
AND MRS. C. A. HOPKINSON

AND OTHERS.

Cannot be found on the prospectus of any other magazine.

BEAUTIFUL STEEL PLATES

Of these the LADY'S BOOKS contain *fourteen* each year superior (we challenge comparison) to any published in this country, either in book or periodical.

OUR COLORED FASHION PLATES

Have a reputation for correctness the world over.

EMBROIDERY PATTERNS.—We give frequently a presentation sheet to our patrons, containing twenty, thirty, and sometimes forty designs in embroidery.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves. They give great satisfaction.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequaled.

Terms for 1871.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 50

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's Book and Harper's Magazine will be sent one year on receipt of $5 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ The money must all be sent at one time for any of the clubs, and additions may be made to clubs at club rates.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft on Philadelphia or New York, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

CARRATRACA.

Carratraca Mineral Waters,
FROM
1870. **Plantagenet, Ont.** 1870.

This great and only STANDARD MINERAL WATER, with its wonderful Medicinal properties, its professional Endorsements, its long established merits, its standard position, has gained for itself a popularity never before attained in the history of Mineral Waters. It is not the preparation of man, but is

Prepared by Nature

in her own Laboratory, for the benefit of suffering humanity.

Avoid the deleterious effects of dangerous and nauseous Drugs prepared by unskilful hands, by using

Nature's own Remedy

CARRATRACA!

Pronounced by the highest chemical authorities to be the best and most efficient Mineral Waters in the world.

As a Saline and Cooling Draught,

CARRATRACA

cannot be equalled; it is pleasant and palatable to the taste; it cleanses the stomach and bowels of all substances which are calculated to irritate or weaken them; they create a good appetite, and, as a natural consequence, they invigorate and strengthen the entire system.

Recommended by the most eminent physicians as a sovereign remedy, and a cure for Scrofula, Disorganized state of Digestive Organs, Nausea and Nervousness (caused by Debauch) Hemmorrhoids or Piles, Indigestion, Costiveness, Dyspepsia, Liver Complaint, General Debility, Heartburn, Biliousness, Loss of Appetite, Fullness of Blood to the Head, Cancerous Affections, Headache, Acute and Chronic Rheumatism, Affections of Kidneys, and a sure preventive of those distressing summer disorders, Cholera Morbus, Dysentery, Inflammation of the Bowels, Summer Complaints in children.

Drink CARRATRACA and keep healthy.

Drink CARRATRACA and keep Cool during the "heated term."

Save the lives of the Children by giving them CARRATRACA.

The Carratraca Mineral Spring Water is for sale by the following parties in Belleville:

G. C. Borrodaile,
E. Chandler,
Charters & Co.
James Hambly,
J. C. Holden & Co.
L. W. Yeomans & Co.

Carratraca Water is received fresh from the Springs every day in well seasoned oak casks, and is for sale by the principal grocers, druggists and hotels throughout the Dominion.

WINNING, HILL & WARE,
Proprietors,

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
Dr. J. C. AYER & CO., Lowell, Mass.,
Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

NORTHROP & LYMAN,

For sale in Belleville, by J. C. Holden & Co., M. Sawyer, and J. H. Hambly. Dr. G. H. Boulter, Stirling. Geo. Dean, Trenton, and all Medicine Dealers.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE. $1.00 PER BOTTLE.

Peters' Musical Monthly

Purchasers of music will consult their own interests by subscribing to PETERS' MUSICAL MONTHLY. It is issued on the first of each month, and gives all the latest and best Music, by such authors as Hays, Kinkel, Bishop, Thomas, Danks, Becht, Frey, Keller, Wyman, etc. Every number contains at least Twelve Pieces of new and good Music, printed on fine white paper and from full size music plates, every piece of which is afterwards printed in sheet form, from the same plates, and sold at from 30 to 50 cents each, and all we ask for this valuable Magazine is 30 cents a copy, or $3 year, $1.50 for six months; and we guarantee to every yearly subscriber at least 432 pages of choice new music, by the best authors.

We do not expect PETERS' MUSICAL Monthly to pay us as a Magazine, because we give too much music for the money. It is issued simply to introduce our new music to the musical world. Our subscribers sing and play the music we give them. Their musical friends hear the music, like it, and buy it in sheet music form where we make our profit. Remember! every yearly subscriber gets, during the year, at least 150 pieces of our best music, all of which we afterward print in sheet form, and sell for over $60. It is published at the Mammoth Music Store of J. L. PETERS, 599 Broadway, New York, where every thing in the Music line can be had. No matter how small your order, it will be promptly attended to.

$60 for $3.

THE BEST IN THE WORLD

The Scientific American
$1,500 CASH **For 1870.** $1,500 CASH

A VALUABLE PREMIUM FOR ALL.

This splendidly illustrated weekly journal of POPULAR SCIENCE, MECHANICS, INVENTION, ENGINEERING, CHEMISTRY, ARCHITECTURE, AGRICULTURE, and the kindred arts, enters its TWENTY-FIFTH year on the first of January next, having a circulation far exceeding that of any similar journal now published.

THE EDITORIAL DEPARTMENT of the Scientific American is very ably conducted, and some of the most popular writers in this country and Europe are contributors. Every number has 16 imperial pages embellished with fine engravings of Machinery, New Inventions, Tools for the Workshop, Farm and Household, Engineering Works, Dwelling Houses, Public Buildings.

A journal of so much intrinsic value, at the low price of $3 a year, ought to have, in this thriving country *A MILLION READERS.*

Whoever reads the Scientific American is entertained and instructed, without being bothered with hard words or dry details.

TO INVENTORS AND MECHANICS

this journal is of special value, as it contains a weekly report of all Patents issued at Washington, with copious notices of the leading *AMERICAN AND EUROPEAN INVENTIONS.* The Publishers of the Scientific American are the most Extensive Patent Solicitors in the world, and have unequaled facilities for gathering a complete knowledge of the progress of Invention and Discovery throughout the world; and with a view to mark the quarter of a century, during which this journal has held the first place in Scientific and Mechanical Literature, the Publishers will issue on January first the large and splendid Steel Engraving by John Sartain of Philadelphia, entitled:

"MEN OF PROGRESS—AMERICAN INVENTORS."

the plate costing nearly $4,000 to engrave and contains nineteen likenesses of Illustrious American Inventors. It is a superb work of art.

Single pictures, printed on heavy paper, will be sold at ten dollars, but any one subscribing for the Scientific American the paper will be sent for one year together with a copy of the engraving, on receipt of ten dollars. The picture is also offered as a premium for clubs of subscribers.

☞ 1,500 Cash Prizes. ☜

In addition to the above premium, the Publishers will pay fifteen hundred in *CASH PRIZES* for lists of subscribers sent in by February 10, 1870. Persons who want to compete for these prizes, should send at once for prospectus and blanks for names.

Terms for Scientific American, one year three dollars; six months, a dollar and a half; four months, one dollar. To Clubs of 10 and upwards, terms, two dollars and fifty cents per annum. Specimen copies sent free. address the Publishers

MUNN & CO.,
37 Park Row, New York.

HOW TO GET PATENTS.—A pamphlet of Patent Laws and instruction to inventors sent free.

Long Life Secured.

Let every woman verging on the critical period prepare their systems with Radway's Sarsaparillian Resolvent, and all whose menses have ceased that feel sick or suffering from some organic or nervous disease, take the Sarsaparillian Resolvent, aided with Radway's Pills, and they will enjoy such a high state of health that will secure for them long life with freedom from the sickness of former years.

ALL FEMALE DIFFICULTIES.

From the earliest stage of female suffering from Retention of the Catamenia, through all the troubles and disease of the Womb, Uterus, Bladder, Kidneys, Suppressions, Irregularities, Leucorrhœa, Hemorrhages, Hysteria, Chlorosis, Cachexia, Bad Habit of System, Illness, or Weakness of Blood, and all painful symptoms, Pains, Aches, Giddiness, and in fact every condition of Sickness peculiar to the female sex, are cured by Radway's Sarsaparillian Resolvent.

To Thinking Invalids!

A few plain, earnest words, with such of you as suffer from Indigestion and its usual accompaniment, Habitual Costiveness. The means of obtaining relief, of accomplishing a cure, is tendered to you in Bristol's Sugar Coated Pills, the only cathartic and alterative in existence which re-opens the obstructed passages of the bowels without a pain, and restores to the stomach and liver the vigor stolen from them by disease. This genial aperient never enfeebles any organ, or reduces the general strength. On the contrary, it infallibly renews the *natural health* of the digestive and secretive functions. Rarely will it be necessary to call in a physician, where this family medicine is kept in the house. In all cases arising from, or aggravated by impure blood or humors, Bristol's Sarsaparilla should be used in connection with the Pills.

THE TRUE
THEORY OF PURGATION
APPLIED TO THE
LIVER, KIDNEYS, SKIN, STOMACH & BOWELS.

DR. RADWAY'S
PERFECT
PURGATIVE PILLS

MATERIA MEDICA contains in its repertoire many purgative and cathartic agents that, for ordinary purposes, open the bowels, and through what is called a "peristaltic" movement, purge from the alimentary canal the fæces *and this is all*. Such agents, for the purpose of cure, or removal of any settled disease, are utterly useless.

DR. RADWAY has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purposes of a PURGATIVE, APERIENT, COUNTER-IRRITANT, ALTERATIVE PILL, that can be taken or administered with the absolute certainty of securing a THOROUGH EXPULSION OF ALL DECAYED AND DECOMPOSING elements in the human body and also safe to take in the most malignant of eruptive Fevers; in cases where the mucous membranes of the internal viscera are suffering from Ulceration, Inflamation or from

Gastric, Bilary, Pancreatic, Complaints.

MEDICAL DISCOVERIES.

Hundreds of medicines are put up under different names, all made alike, in imitation of some successful originator. There are, however, but very few of these medicines that are entitled to any distinctive or exclusive properties. All these common pills are made generally alike, with some active drastic drug for a base.

RADWAY'S PILLS possess properties that the Materia Medica has failed to discover in either the vegetable or mineral kingdom. Calomel and the many preparations of mercury, for centuries supplied in *alterative*, (and the most popular, for it is administered in 990 cases out of 1000) and Aloes, Gamboge, Scammony, Antimony, Podyphylulum and kindred drugs supplies the Cathartic, not only for the medical practitioner, but for all sorts of the advertised Pills.

DR. RADWAY'S PILLS

In RADWAY'S PILLS (which are the only *perfect Purgative Pills*) you secure a Pill superior in all its properties to the most choice remedial agents known to Medical Science. They differ in every respect to all other pills in general use, and the only Vegetable Medicine that supplies a substitute for

Calomel or Mercury.

In RADWAY'S PILLS you have one medicine that will secure quicker, more thorough and better results than will be given in from three or more different prescriptions of the medical practitioner.—As a proof of this: You are seized with a Bilious attack; Doctor prescribes Blue Pills or Calomel! next some drastic aloetic pill or powders to work off the effects of the blue pill. This prostrates you; and a tonic is next given, or a gentle aperient, whereas ONE DOSE OF RADWAY'S PILLS *will do all the work that the three* or more prescriptions are given for, without running any risk from mercurializing or salivating the system.

Why is Purgation Necessary?

There are two principles which exist in every living human body; one is the product of decay or decomposition, (those humours or elements that are rejected by the absorbents and lacteals as *refuse*), the other is that of nutrition. It becomes necessary for the life of the body that the decayed and excrementitious elements be *dismissed* and the nutritious adopted. For the removal of the first the human body is supplied with lungs, kidneys, liver, skin, bowels, &c., but when, from any cause, the functions of these organs are suspended, then it is essential to resort to art or science in supplying assistance, and of all medicines ever given to the human race for this purpose, there is none in the arcana of MATERIA MEDICA or CHEMISTRY that secures these important results so *thoroughly*, HAPPILY, and with such COMFORT as

RADWAY'S PILLS.

FEVER AND AGUE.

Notwithstanding the great range of Pains, Aches, Ailments, &c., that Radway's Ready Relief cure, time and experience prove it to be the BEST and SAFEST CURE for

FEVER AND AGUE,
CHILLS AND FEVER,
SCARLET FEVER.

Bilious Fever

In the world. There is no Ague Cure, Cholagogue or preparation of Quinine, Arsenic, or the many forms of Mercury, or, in fact, any remedial agent that will cure this disease so positively, so safely as

Radway's Ready Relief.

No, not one. Thousands, from over-dosing with Quinine, Arsenic, Mercury, bottled in the many Ague Cures and Private Practice, [illegible] penalty [illegible] gorged liver, fat, spleen, disordered kidneys, [illegible] colored skin, and hundreds of other symptoms [illegible] distress. These agents never cure, but smother the disease, whereas

RADWAY'S READY RELIEF,

aided by Radway's Pills, not only cure the worst cases, but will protect the system against attacks of Ague and all other Fevers.

One 25 Cent Bottle of

Radway's Ready Relief

Is better as a cure for all Fevers, Chills, Bilious Attacks, &c., than the Quinine Mixtures [illegible] Cholagogues, &c., costing $1 to $3, and Radway's Ready Relief is good for hundreds of other ailments that these are not.

One 25 cent bottle of **Radway's Ready Relief** diluted in one gallon of proof spirits will give you equal in quantity, and superior in quality, to 144 bottles of the 25 cent Pain Remedies, Pain Killers, Embrocations, Panaceas, [illegible] these remedies being but poor imitations of Radway's Ready Relief.

One bottle of **Radway's Ready Relief** for 25 cents, as a Pain Remedy, and for Family Purposes will secure every household freedom [illegible] ness, and can be used for the same [illegible] would cost at least ($25) twenty-five [illegible] to purchase prescriptions, or drugs every time pain, sickness, or accident takes place.

Painful Attacks where

Radway's Ready Relief

WILL AFFORD INSTANT EASE:

Inflammation of the Kidneys,
Inflammation of the Bladder,
Inflammation of the Bowels,
Congestion of the Lungs,
Sore Throat, Difficult Breathing,
Palpitation of the Heart, Hysterics,
Croup, Dyphtheria,
Catarrh, Influenza,
Headache, Toothache,
Neuralgia, Rheumatism,
Cold Chills, Ague Chills.

The application of the Ready Relief to the part or parts, where the pain or difficulty exists, will afford ease and comfort.

20 Drops to a Teaspoonful in Water will, in a few moments, cure

CRAMPS, SPASMS, SOUR STOMACH, HEARTBURN, SICK HEADACHE, DIARRHEA, DYSENTERY, COLIC,

Wind in the Bowels,
And All Internal Pains.

The above dose taken every fifteen minutes will quickly cure

Asiatic Cholera,	Cholera Morbus,
Bilious Colic,	Flux,

And all Painful Discharges.

Travelers should always carry a bottle of Radway's Relief with them. A few drops in water will prevent sickness or pains from change of water.

BETTER THAN FRENCH BRANDY OR BITTERS AS A STIMULANT.

Large Bottles—India Rubber Stoppers—Purity of the READY RELIEF.

25 Cents, in Large Bottles,

containing 3 and 4 times the quantity of the 15 cent Liniments, Paints, Killers, Panaceas, made of the common fusel oil alcohol as a basis, and have all been started to imitate **Radway's Ready Relief**. Some of these imitations are scented with common hartshorn, in imitation of a highly rectified preparation of Ammonia—used in the genuine. Persons using the genuine Ready Relief will at once discover the miserable fraud in the imitations. The genuine Ready Relief has India Rubber Stoppers, and every bottle made air-tight.

Price of **Radway's Ready Relief**, per dozen bottles, $2.50 cents; Single Bottles, 25 cents. Sold at Dr. Radway & Co.'s Principal Office, No. 439 St. Paul Street, Montreal, and by **Druggists and general storekeepers everywhere.** One agent will be found in every city and town in the world. Put up in directions of all languages. **Ask for Radway's Ready Relief.**

New Principles of Medication.

[Vis: *Radway's Ready Relief, Regulating Pills and Sarsaparillian Resolvent.*]

Dr. Radway's Remedies are prepared on entirely new principles, and that is why they stop pain so quick, and cure the most dangerous diseases so rapidly, and with so little inconvenience to the patient. Some of our contemporaries boast in their advertisements, that there is nothing *new* in their medicines—that the ingredients are all to be found in the U. S. and other dispensatories; their published formulas are copies taken from the U. S. Pharmaceupia, &c., hence, they claim superiority of merit for their pills, pectorals, and sarsaparilla, for their similarity to a lot of imperfect, inert, and worthless compounds. Were it not for the new principles employed in obtaining medicinal virtues from newly discovered remedial agents, progress in the science of medicine would be a slow coach. Take, for instance, the most popular remedial agents of the day—Sarsaparilla, and its adjuncts, forming the officinal compound; or of the purgatives, of aloes, jalap, &c. Physicians, chemists, pharmaceupiatists, physiologists, all, more or less, condemn these agents as uncertain, unreliable, &c. The Materia Medica is deficient of good, sterling, reliable medicines. The formulas of preparing the officinal pills are based on wrong principles, and those who claim to put up specific remedies, on the old uncertain rules prescribed, are contributing nothing of value to the public. *Radway's Ready Relief, Sarsaparillian* and hew are now medines, prepared on new principles, and *Pills* ll curesick without delay or inconvenience.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for six months; $1 50 for three months.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora, and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING:

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines or under,	6 months,		$5 00
do	do	12 do	8 00
Half square,	6 months,		12 00
do	12	do	20 00
One square,	6	do	20 00
do	12	do	32 00
Two squares,	6	do	30 00
do	12	do	50 00
Three squares,	6	do	40 00
do	12	do	65 00
Four squares,	6	do	50 00
